# LOCAL GOVERNMENT INVESTMENT POOL MANAGEMENT'S DISCUSSIN AND ANALYSIS (Unaudited)

This section of the Local Government Investment Pool (the LGIP) annual financial report presents an analysis of the Local Government Investment Pool's financial performance during the fiscal year that ended on June 30, 2010. This information should be considered in conjunction with the information contained in the financial statements, which follow this section.

## **LGIP** Activities and Highlights

The Local Government Investment Pool was established January 1, 1981 pursuant to the Local Government Investment Pool Act, Section 2.2-4600 of the *Code of Virginia*. The LGIP enables governmental entities to maximize their return on investments by providing for a State administered fund where monies can be commingled for investment purposes in order to realize the economies of large-scale investing and professional funds management. The LGIP is not registered with the Securities Exchange Commission (SEC) as an investment company, but maintains a policy to operate in a manner consistent with the Governmental Accounting Standards Board, Statement No. 31, "Accounting and Financial Reporting for Certain Investments and for External Investment Pools," definition of "2a7-like pools." The LGIP is rated 'AAAm' by Standard & Poor's rating service.

#### **Overview of the Financial Statements**

This discussion and analysis is an introduction to the LGIP's basic financial statements. This report also contains other supplementary information in addition to the basic financial statements. The LGIP is not required to present government-wide financial statements since all of its activity is reported in a fiduciary fund, which would not change in measurement focus (economic resources) or basis of accounting (accrual) for government-wide statements.

The financial statements of the LGIP offer financial information about its activities. The Statement of Net Assets provides information about the nature and amounts of the LGIP's cash, investments and receivables (assets) and their administrative fees (liabilities). The Statement of Changes in Fiduciary Net Assets reports the additions to, deductions from, and net increases in net assets.

#### **Financial Analysis**

The primary purpose of the LGIP is to provide a fund that would allow governmental entities to increase their return on investments with minimal credit risk. Summary financial information follows.

## **Local Government Investment Pool** (in millions)

	 2010	2009		
Total assets	\$ 3,711	\$	4,309	
Total net assets	\$ 3,711	\$	4,309	

Year over year net assets decreased approximately fourteen percent. In addition, the dollar value of deposits and withdrawals decreased approximately twenty-seven percent and twenty-two percent respectively. Active accounts numbered 945 at the end of fiscal year 2010.

Net assets, July 1		4,309		4,404
Net assets, June 30	\$	3,711	\$	4,309

Participation in the LGIP is voluntary, so participant activity variances from year to year are normal. Factors that could influence a potential participant would be the availability of funds to invest and the relative attractiveness of the LGIP's return as compared to other options that may be available to the entity.

Investment earnings were lower for fiscal year 2010 primarily as a result of the historic low level of short-term interest rates. Throughout the year the Federal Open Market Committee maintained the Federal Funds Target within a zero to 0.25% range. The Federal Funds Target is the benchmark for short-term rates. The LGIP is managed as a short-term fund; therefore, the portfolio yield reflects the current market level of short-term rates. As portfolio securities matured during the year, funds were reinvested at lower yields resulting in lower income from investment earnings. In addition to lower interest rates, LGIP net assets declined throughout the year reflecting lower revenue collections at the local level.

## LOCAL GOVERNMENT INVESTMENT POOL

## Statement of Fiduciary Net Assets As of June 30, 2010

Net assets - June 30, 2010	\$ 3,710,645,637

The accompanying notes to the financial statements are an integral part of this statement.

AS OF JUNE 30, 2010

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Local Government Investment Pool (the LGIP) was established January 1, 1981 pursuant to the Local Government Investment Pool Act, Section 2.2-4600 of the *Code of Virginia*. The LGIP enables governmental entities to maximize their return on investments by providing for a State administered fund where monies can be commingled for investment purposes in order to realize the economies of large-scale investing and professional funds management. The LGIP is not registered with the Securities Exchange Commission (SEC) as an investment company, but maintains a policy to operate in a manner consistent with the Governmental Accounting Standards Board, Statement No. 31, "Accounting and Financial Reporting for Certain Investments and for External Investment Pools," definition of "2a7-like pools."

## A. Basis of Presentation

The Treasury Board of Virginia administers the LGIP and presents the activity on an accrual basis. Earnings and expenses accrue daily, but are credited or charged to participants' accounts on a monthly basis.

#### B. Investment Valuation

Investments in the LGIP are stated at market value where available. However, market value does not include market accrued interest (totaling \$221,955) which is included as a portion of interest receivable on the Statement of Fiduciary Net Assets. Where market value is unavailable, the investments are reported at cost, which due to their short-term nature approximates market value.

Shares are purchased and redeemed at amortized cost. If the LGIP's current market-based net asset value per share should deviate from its amortized cost price per share by an amount exceeding ½ of 1 percent, the State Treasurer, Chair of the Treasury Board, shall assess the situation and determine what action, if any, is in the best interest of the LGIP and its participants. Market-based net asset value is determined on a weekly basis.

#### 2. DETAILED NOTES

#### A. Investments

Funds in the LGIP are invested in accordance with Treasury Board investment guidelines and Standard & Poor's AAAm rating criteria. This includes obligations of the United States Government or agencies thereof, repurchase agreements, bankers' acceptances, commercial paper, short-term corporate notes, bank deposit notes and certificates of deposit. The maximum average maturity for the portfolio may not exceed 90 days. The maximum percentage of the LGIP investments permitted in each category and the actual allocation at June 30, 2010 are as follows:

	Maximum Permitted	Actual June 30, 2010
V. G. T	1000/	
U. S. Treasury/Agency	100%	46%
Bankers' Acceptances, Negotiable		
Certificates of Deposit and/or		
Negotiable Bank Deposit Notes	40%	23%
Non-Negotiable Certificate of Deposit	5%	0%
Commercial Paper	35%	5%
Corporate Notes	25%	5%
Repurchase Agreements	50%	21%
Taxable Municipal Obligations	10%	0%

#### Interest Rate Risk - Investments

Interest rate risk is the risk that changes in interest rates of debt investments will adversely affect the fair values of an investment. Interest rate risk is measured and monitored through investing in high quality credits and managing the weighted average maturity (WAM) of the portfolio. The portfolio WAM is a key measure of the funds tolerance to rising interest rates. At June 30, the LGIP's WAM was 46 days, which should assure minimal asset value fluctuations under most market conditions. The LGIP's investments at June 30, 2010 are presented below.

LGIP Investments As of June 30, 2010 (Dollars in Thousands)

			Weighted
	]	Fair Value	Average Days to
	Un	categorized	Maturity
U.S. Treasury and Agency Securities	\$	1,589,885	73
Corporate Notes (Guaranteed by FDIC)		167,166	76
Commercial Paper		195,829	37
Negotiable Certificates of Deposit, Deposit Notes			
and Bankers' Acceptances		853,084	33
Repurchase Agreements		780,000	6
US Govt Money Market Funds		123,052	1
Total	\$	3,709,016	
Portfolio weighted average maturity			46

### Credit Risk of Debt Securities

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The LGIP is rated AAAm by Standard & Poor's. The AAAm rating definition indicates the fund has an extremely strong capacity to maintain principal stability and limit exposure to principal losses due to credit, market, and/or liquidity risks. In addition to the overall fund rating requirements of Standard & Poor's to maintain the AAAm rating, the LGIP Investment Policy and Guidelines require a minimum rating of both P-1 by Moody's Investment Services and A-1 by Standard & Poor's on individual securities purchased. At June 30, 2010, ninety-five percent of the LGIP portfolio was invested in securities with a short-term rating of A-1+ by Standard & Poor's. The LGIP's rated debt investments as of June 30, 2010 are presented below using the Standard & Poor's rating scale.

	Credit Quality					
	Tot	al Fair Value	:	AAA	A-1+	A-1
U.S. Treasury and Agency						
Securities	\$	150,896	\$	150,896	\$ -	\$ -
Agency Unsecured Bonds						
and Notes		1,438,989		1,438,989	-	-
Corporate Notes		167,166		167,166	-	-
Commercial Paper		195,829		-	140,880	54,949
Negotiable Certificates of Deposit, Deposit						
Notes and Bankers' Acceptances		853,084		-	707,035	146,049
Repurchase Agreements		780,000		780,000	-	
US Govt Money Market Funds		123,052		123,052		
Total	\$	3,709,016	\$	2,660,103	\$ 847,915	\$ 200,998

#### Concentration of Credit Risk

The LGIP Investment Policy requires diversification of assets with not more than 5% of the fund assets invested in the securities of any single issuer. This limitation does not apply to securities of the U.S. Government, agency thereof, or government sponsored enterprises (GSEs). As of June 30, 2010, more than 5 percent of LGIP's investments are in the Federal Home Loan Bank (11%), in the Federal Home Loan Mortgage Corporation (15%), in the Federal National Mortgage Association (10%) and in Goldman Sachs Tri-Party Repurchase Agreements (21%).

#### B. Distributions

The LGIP distributes investment income net of expenses to participants on a monthly basis. The dividend distribution is automatically reinvested into additional shares.

## C. Risk Management

The LGIP is exposed to various risks of loss related to torts; theft or, damage to, and destruction of assets; errors and omissions; non-performance of duty; injuries to employees; and natural disasters. The Department of Treasury participates in insurance plans maintained by the Commonwealth of Virginia on behalf of the LGIP. The risk management insurance plans are administered by the Department of Treasury, Division of Risk Management. Risk management insurance includes property, general liability, medical malpractice, faithful performance of duty bond, automobile, and air and watercraft plans. The Department of Treasury pays premiums to this Department for its insurance coverage. Information relating to the Commonwealth's insurance plans is available at the statewide level in the Commonwealth of Virginia's Comprehensive Annual Financial Report.

Walter J. Kucharski, Auditor

Auditor of Public Accounts P.O. Box 1295 Richmond, Virginia 23218

December 1, 2010

The Honorable Robert F. McDonnell Governor of Virginia

The Virginia Treasury Board and Local Government Investment Pool Participants

The Honorable Charles J. Colgan Chairman, Joint Legislative Audit And Review Commission Board of Directors of: Virginia College Building Authority Virginia Public Building Authority Virginia Public School Authority

#### INDEPENDENT AUDITOR'S REPORT ON FINANCIAL STATEMENTS

We have audited the accompanying basic financial statements of the **Local Government Investment Pool (LGIP)** as of and for the year ended June 30, 2010, as listed in the table of contents. These financial statements are the responsibility of the Department of Treasury's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As discussed in Note 1, the basic financial statements of LGIP are intended to present the financial position and the changes in financial position of only that portion of the Investment Trust Fund of the Commonwealth of Virginia that is attributable to the transactions of LGIP. They do not purport to, and do not, present fairly the Commonwealth of Virginia's overall financial position as of June 30, 2010, and the changes in its financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the LGIP as of June 30, 2010, and the changes in its financial position, for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

The Management's Discussion and Analysis on pages one and two is not a required part of the basic financial statements, but is supplementary information required by the accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the basic financial of the LGIP. The Schedule of Selected Participant Share and Ratio Information and the Schedule of Investments are presented for the purpose of additional analysis and are not a required part of the basic financial statements. The schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

In accordance with <u>Government Auditing Standards</u>, we have also issued our report dated December 1, 2010 on our consideration of the LGIP's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. We anticipate releasing that report on or after December 15, 2010. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with <u>Government Auditing Standards</u> and should be considered in assessing the results of our audit.
