# **INDEPENDENT AUDITORS' REPORT**

The Honorable Members of the Board of Supervisors County of Scott, Virginia:

#### **Report on the Financial Statements**

#### **Opinions**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Scott, Virginia, as of June 30, 2022, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the Table of Contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Scott, Virginia, as of June 30, 2022, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns* issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the County of Scott, Virginia and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Responsibility of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or

events, considered in the aggregate, that raise substantial doubt about the County of Scott, Virginia's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures
  that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
  effectiveness of the County of Scott, Virginia's internal control. Accordingly, no such opinion is
  expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the County of Scott, Virginia's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and budgetary comparison information on pages 114-124 and Schedule of Employer Contributions on page 125 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's response to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements.

Management of the Scott County Public Service Authority has elected to omit the Management's Discussion and Analysis and the Schedule of Employer Contributions, but our opinion on the basic financial statements is not affected by the missing information. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

# Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, statistical section, and schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 21, 2022, on our consideration of the County of Scott, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County of Scott, Virginia's internal control over financial reporting and compliance.

# INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Honorable Members of the Board of Supervisors County of Scott, Virginia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of the County of Scott, Virginia as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the County of Scott, Virginia's basic financial statements, and have issued our report thereon dated December 21, 2022.

#### **Report on Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the County of Scott, Virginia's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion of the effectiveness of the County of Scott, Virginia's internal control. Accordingly, we do not express an opinion on the effectiveness of the County of Scott, Virginia's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be

material weaknesses or, significant deficiencies. We did identify certain deficiencies in internal control, described in the accompanying Schedule of Findings and Questioned Costs on page 130-131 of this report.

# **Report on Compliance and Other Matters**

Bestic, Lucker & Company, PC

As part of obtaining reasonable assurance about whether the County of Scott, Virginia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

# **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

December 21, 2022

Lebanon, Virginia

RONALD C. BOSTIC, CPA GREGORY D. TUCKER, CPA P.O. Box 505, Lebanon, VA 24266 (276) 889-3103 Fax: (276) 889-0229 www.bthcpa.com

December 21, 2022

To the Scott County Board of Supervisors County of Scott, Virginia

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Scott, Virginia for the year ended June 30, 2022. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards (and, if applicable, *Governmental Auditing* Standards and the Uniform Guidance), as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated December 15, 2022. Professional standards also require that we communicate to you the following information related to our audit.

#### Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the County of Scott, Virginia are described in Note 1 to the financial statements. No new accounting policies were adopted and the application if existing policies was not changed during 2022. We noted no transactions entered into by the governmental unit during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the financial statements were:

Management's estimate of the allowance for doubtful accounts of the primary government, as well as the component units, is based on historical revenues. We evaluated the key factors and assumptions used to develop the allowance in determining that it is reasonable in relation to the financial statements taken as a whole.

Management's estimate of depreciation of property, plant, and equipment of the primary government, as well as the component units, is based on the estimated useful lives ranging from five to eighty years. We evaluated the key factors and assumptions used to develop the allowance in determining it is reasonable in relation to the financial statements taken as a whole.

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The most sensitive disclosure affecting the financial statements was:

The disclosure of the Landfill Closure and Post-Closure Care Costs in Note 15 to the financial statements identifies state and federal laws requiring the county to place a final cover on its landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for thirty years after closure. Although closure and post closure care costs will be paid only near or after the date that the landfill stops accepting waste. The county reports a portion of these closure and care costs as an operating expense in each period based on landfill capacity used at each balance sheet date. Actual costs may be higher due to inflation, changes in technology, or changes in regulations. These estimated amounts are based on what it would cost to perform all closure and post closure care in 2022.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to the financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

#### Management Representations

We have requested certain representations from management that are included in the management representation letter dated December 21, 2022.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the governmental unit's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

#### Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the governmental unit's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

#### Other Matters

With respect to the supplementary information accompanying the financial statements, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statement or to the financial statements themselves.

This information is intended solely for the use of the Scott County Board of Supervisors and management of the County of Scott, Virginia and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

Bostic, Tucker & Company, PC

Bostic, Tucker and Company, P.C.

RONALD C. BOSTIC, CPA GREGORY D. TUCKER, CPA

P.O. Box 505, Lebanon, VA 24266 (276) 889-3103 Fax: (276) 889-0229 www.bthcpa.com

# INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

The Honorable Members of the Board of Supervisors County of Scott, Virginia

#### Report on Compliance for Each Major Federal Program

# Opinion on Each Major Federal Program

We have audited the County of Scott, Virginia's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the County of Scott, Virginia's major federal programs for the year ended June 30, 2022. The County of Scott, Virginia's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, County of Scott, Virginia complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2022.

#### Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of County of Scott, Virginia and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of County of Scott, Virginia's compliance with the compliance requirements referred to above.

## Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to County of Scott, Virginia's federal programs.

## Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on County of Scott, Virginia's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about County of Scott, Virginia's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and
  design and perform audit procedures responsive to those risks. Such procedures include
  examining, on a test basis, evidence regarding County of Scott, Virginia's compliance with
  the compliance requirements referred to above and performing such other procedures as
  we considered necessary in the circumstances.
- Obtain an understanding of County of Scott, Virginia's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of County of Scott, Virginia's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

## **Report on Internal Control Over Compliance**

A deficiency in internal control over compliance exists when the design or operation of control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

December 21, 2022

Bostic, Lucker & Company, PC

Lebanon, Virginia

As management of the County of Scott, Virginia we offer readers of the County's financial statements this narrative overview and analysis of the financial activities of the County of the fiscal year ended June 30, 2022. We encourage readers to consider the information presented here in conjunction with the basic audited financial statements.

## Financial Highlights:

- The assets and deferred outflows of resources of the County exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$7,344,577 (net position). Of this amount, \$(3,184,900) represents a deficit in unrestricted net position used to meet the government's ongoing obligation to citizens and creditors, which includes long-term obligations such as pensions and other post-employment benefits.
- As of the close of the current fiscal year, the County's funds reported combined ending fund balances of \$7,191,706, an increase of \$1,356,870 compared to the prior year. \$7,104,348 of the combined fund balance is available for spending for the various functions of the County as indicated.
- At the end of the current fiscal year, fund balance for the general fund was \$7,104,348, or 31% of total general fund expenditures for the year.

#### Overview of the Financial Statements:

This discussion and analysis are intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements comprise three components:

- Government-wide financial statements,
- Fund financial statements, and
- Notes to the financial statements.

This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements – The Government-wide financial statements are designed to provide the readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the County's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or declining.

County of Scott, Virginia Management's Discussion and Analysis For the Year Ended June 30, 2022

#### Overview of the Financial Statements (Continued)

Government-wide financial statements (continued)

The statement of activities presents information showing how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in the statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include general government, courts, police safety, sanitation, social services, education, cultural events, and recreation.

The Government-wide financial statements include not only the County of Scott, Virginia itself (known as the primary government), but also a legally separate school board (for which the County of Scott, Virginia is financially accountable), Public Services Authority and Economic Development Authority.

Financial information for these component units is reported separately from the financial information presented for the primary government itself.

Fund financial statements – A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County of Scott, Virginia, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds – Governmental funds are used to account for essentially the same functions reported as Governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, the governmental fund financial statement focuses on near-term inflows and outflows of spendable resources, as well as on the balance of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the County's near-term financing decisions. Both the governmental fund balance sheet and the governmental statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and activities.

#### Overview of the Financial Statements (Continued)

#### Governmental funds (continued)

The County maintains four individual governmental funds. Information is presented in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Law Library Fund, Coal Road Improvement Fund, and Capital Projects Fund, of which only the General Fund is considered to be a major fund.

The County adopts an annual appropriated budget for its Governmental funds. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

Fiduciary funds – The County is the trustee, or fiduciary, for the County's agency funds and expendable trust fund. It is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the County's fiduciary activities are reported in a separate statement of fiduciary net position. The County excludes these activities from the County's government-wide financial statements because the County cannot use these assets to finance its operations. Agency funds and Expendable Trust funds are County custodial funds used to provide accountability of client or employee monies for which the County is custodian.

*Notes to the Financial Statements* – The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information – In addition to the basic financial statement and accompanying notes, this report also presents certain required supplementary information for budgetary comparison schedules and presentation of combining financial statements for the discretely presented component units. The School Board does not issue separate financial statements.

#### Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a County's financial position. In the case of the County, assets exceed liabilities by \$7,344,577 at the close of the most recent fiscal year.

The largest portion of the County's net position reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment); less any outstanding debt used to acquire those assets. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The following graph illustrates expense and revenue for primary government function. General revenues of \$19,221,874 are not attributable to a particular function and thus are excluded.

The following graph illustrates program and general revenues by classification.

#### Financial Analysis of the County's Funds

As noted earlier, the County used fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds – The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a County's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the County's governmental funds reported combined ending fund balances of \$7,191,706, an increase of \$1,356,870 in comparison with the prior year. \$7,104,348, approximately 99% of the total, is available for spending for the various functions of the County as indicated.

The general fund is the operating fund of the County. At the end of the current fiscal year fund balance of the general fund was \$7,104,348. The general fund balance increased \$1,397,514 during the current year. As a measure of the general fund's liquidity, it may be useful to compare fund balance to total fund expenditures. The fund balance represents 31% of total general fund expenditures for the year.

## Financial Analysis of the County's Funds (Continued)

The special revenue funds have purpose restrictions. At the end of the current fiscal year fund balance of the special revenue funds totaled \$49,549. Fund balance decreased \$1,322 during the current year.

The capital project fund also has purpose restrictions. At the end of the current fiscal year fund balance of the capital project fund totaled \$37,809. Fund balance increased \$39,322 during the current year.

# General Fund Budgetary Highlights

During the 2022 fiscal year, the County had amendments which increased its original budgeted revenues by \$883,810 and expenditures and other financing uses by \$914,293.

## Capital Assets and Debt Administration

Capital assets – The County's investment in capital assets for its governmental funds as of June 30, 2022, amounts to \$9,881,344 (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, and machinery and equipment. The total increase in the County's investment in capital assets for the current fiscal year was \$807,185. Additional information on the County's capital assets can be found in Note 5.

Less: accumulated depreciation		(12,779,685)		(12,122,796)			
Net capital assets	\$	9,881,344	\$	9,074,159			

#### Capital Assets and Debt Administration (Continued)

Long-term debt – At the end of the current fiscal year, all bonded debt of the County had been retired.

During the fiscal year, the County's long-term debt decreased by \$114,149. Noncurrent liabilities other than debt decreased by \$4,548,755. Additional information on the County of Scott, Virginia's long-term debt can be found in Note 6.

## Economic Factors and Next Year's Budgets and Rates

- Per the Bureau of Labor Statistics, the June 2022 unemployment rate for the County of Scott, Virginia was 3.2%, a decrease from the rate of 1.1% from June 2021 primarily due to economic recovery from the impacts of COVID. The County's unemployment rate is higher than the state's rate and lower than the national rate; in June 2021, Virginia's unemployment rate was 2.8% and the national unemployment rate was 3.6%.
- Inflationary trends in the region are comparable to national indices.

These factors were considered in preparing the County's budget for the 2022 fiscal year.

## **Request for Information**

This financial report is designed to provide a general overview of the County's finances for all those with an interest. Questions concerning any of the information provided in this report or request for additional financial information should be addressed to:

# Detailed explanation of adjustments from fund statements to government-wide statement of net position:

Total fund balances	7,191,706
Capital assets used in governmental activities are not current financial resources and, therefore, are not reported in the governmental funds.	9,881,344
Other long-term assets are not available to pay for current period expenditures and, therefore, are deferred in the funds.	1,258,456
Deferred outflows of resources reported in the statement of net position.	3,060,656
Other liabilities are not required to be paid out of current financial resources and, therefore, are not reported in the governmental funds.	(5,558,679)
Long-term liabilities are not due and payable in the current period and, therefore, are not reported in the governmental funds.	(3,735,405)
Deferred inflows of resources reported in the statement of net position.	 (4,753,501)
Primary Government net position	\$ 7,344,577

	Go	Funds
Amounts reported for governmental activities in the statement of activities are different because:		
Net change in fund balances - total governmental funds	\$	1,356,870
Governmental funds report capital outlays as expenditures.		
However, in the statement of activities the cost of those assets is allocated		
over their estimated useful lives and reported as depreciation expense.		
This is the amount by which capital outlays exceed depreciation in the current period.		807,184
Revenues on the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		(86,744)
Issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of principal of long-term debt consumes the current financial resources of governmental funds.  Neither transaction, however, has any effect on net position.		
Also, governmental funds report the effect of issuance costs, premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.		
This amount is the net effect of these differences in the issuance of long-term debt.		191,578
Expenses on the statement of activities that do not require current financial resources		
are not reported as expenses in the funds.		220,606

### Note 1 – Summary of Significant Accounting Policies

The County of Scott, Virginia is governed by an elected seven-member Board of Supervisors. The Board of Supervisors is responsible for appointing the County Administrator. The County provides a full range of services for its citizens. These services include police and volunteer fire protection, sanitation services, recreational activities, cultural events, education, and social services.

The financial statements of the County of Scott, Virginia have been prepared in conformity with the specifications promulgated by the Auditor of Public Accounts (APA) of the Commonwealth of Virginia, and the accounting principles generally accepted in the United States of America as specified by the Governmental Accounting Standards Board. The more significant of the government's accounting policies are described below.

#### **Financial Statement Presentation**

In June 1999, GASB issued Statement No. 34, *Basic Financial Statements – and Management's Discussion & Analysis – for State & Local Governments*. This statement, known as the "Reporting Model," affects the way the County prepares and presents financial information.

GASB Statement No. 34 establishes new requirements and reporting model for the annual financial reports of state and local governments. The statement was developed to make annual reports easier to understand and more useful to the people who use governmental financial information to make decisions.

Management's Discussion and Analysis – GASB Statement No. 34 requires the financial statements be accompanied by a narrative introduction and analytical overview of the government's financial activities in the form of "management's discussion and analysis" (MD&A).

### Government-wide and Fund Financial Statements

Government-wide financial statements – The reporting model includes financial statements prepared using full accrual accounting for all of the government's activities. This approach includes not just current assets and liabilities but also capital assets and long-term liabilities (such as buildings and general obligation debt).

The government-wide financial statement (i.e. the statement of net position and the statement of changes in net position) reports information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

Statement of net position – The Statement of Net Position is designed to display financial position of the primary government (government and business-type activities) and it's discretely presented component units. Governments will report all capital assets, in the government-wide Statement of Net Position, and will report depreciation expense – the cost of "using up" capital assets – in the Statement of Activities. The net position of a government will be broken down into three categories – 1) invested in capital assets, net of related debt; 2) restricted; and 3) unrestricted.

#### Government-wide and Fund Financial Statements (Continued)

Statement of activities – The government-wide statement of activities reports expenses and revenues in a format that focuses on the cost of each of the government's functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

The statement of activities demonstrates the degree to which the direct expenses of a given function or segments are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the governmental-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Budgetary comparison schedules – Demonstrating compliance with the adopted budget is an important component of a government's accountability to the public. Many citizens participate in one way or another in the process of establishing the annual operating budgets of state and local governments and have a keen interest in following the actual financial progress of their governments over the course of the year. Many governments revise their original budgets over the course of the year for a variety of reasons. Under the reporting model, governments will continue to provide budgetary comparison information in their annual reports. An important change, however, is a requirement to add the government's original budget to the current comparison of final budget and actual results.

### A. Financial Reporting Entity

The basic criterion for determining whether a governmental department, agency, institution, commission, public authority, or other governmental organization should be included in a primary governmental unit's reporting entity for basic financial statements is financial accountability. Financial accountability includes the appointment of a voting majority of the organization's governing body and the ability of the primary government to impose its will on the organization or if there is a financial benefit/burden relationship. In addition, an organization which is fiscally dependent on the primary government should be included in its reporting entity. These financial statements present the County of Scott, Virginia (the primary government) and its component units. Blended component units, although legally separate entities, are, in substance, part of the government's operations and so data from these units are combined with data of the primary government. Each discretely presented component unit, on the other hand, is reported in a separate column in the combined financial statements to emphasize it is legally separate from the government.

### B. Individual Component Unit Disclosures

Blended Component Units – The County has no blended component units.

Discretely Presented Component Units – The School Board members are elected by the voters and are responsible for the operations of the County's School System. The School Board is fiscally dependent on the County. The County has the ability to approve its budget and any amendments. The primary funding is from the General Fund of the County. The School Fund does not issue a separate financial report. The financial statements of the School Board are presented as a discrete presentation of the County financial statements for the fiscal year ended June 30, 2022.

The Scott County Public Service Authority was created by the Board of Supervisors of Scott County to acquire, finance and operate water and sewer systems throughout the County. The Board of Directors of the Service Authority are appointed by the Scott County Board of Supervisors and there currently exists a financial benefit/burden relationship between the Service Authority and the County.

The Scott County Economic Development Authority promotes industrial development in the County. The Authority is financially dependent upon the County. In addition, the Authority's Board is appointed by the County's Board.

There are no other related organizations included in the County's Annual Comprehensive Financial Report.

### C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The accompanying financial statements are prepared in accordance with pronouncements issued by the Governmental Accounting Standards Board. The principles prescribed by GASB represent generally accepted accounting principles applicable to governmental units.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The government-wide statement of activities reflects both the gross and net cost per functional category (public safety, public works, health and welfare, etc.) which are otherwise being supported by general government revenues (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.) The statement of activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants, and contributions. The program revenues must be directly associated with the function (public safety, public works, health and welfare, etc.) or a business-type activity.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. Revenues are recognized as soon as they are both measurable and available. Revenues are to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The County's proprietary funds utilize an economic resources measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery), financial position and cash flows. All assets and liabilities, whether current or noncurrent, associated with their activities are reported. Proprietary fund equity is classified as net position. Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

### C. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

The County's fiduciary funds are presented in the fund financial statements by type. Since by definition these assets are being held for the benefit of a third party and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements.

In the fund financial statements, financial transactions and accounts of the County are organized on the basis of funds. The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing set of accounts recording cash and/or other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

The government reports the following major governmental funds.

#### General Fund:

The General Fund is the primary operating fund of the County. This fund is used to account for all financial transactions and resources except those required to be accounted for in another fund. Revenues are derived primarily from property and other local taxes, state and federal distributions, licenses, permits, charges for service, and interest income. A significant part of the General Fund's revenue is used principally to finance the operations of the Component Unit School Board.

The school board reports the following major fund types:

The School Operating Fund is the primary operating fund of the School Board and accounts for and reports all revenues and expenditures applicable to the general operations of the public school system. Revenues are derived primarily from appropriations from the County as well as state and federal grants.

The School Activity Fund is a special revenue fund that accounts for and reports all funds received from extracurricular school activities, such as entertainment, athletic contests, club dues, fundraisers, etc., and from any and all activities of the individual schools.

The government reports the following nonmajor governmental funds:

### Capital Projects Fund:

The County CIP Fund accounts for and reports all financial resources used for the acquisition or construction of major capital facilities and is reported as a major fund.

### C. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

### Special Revenue Funds:

Special Revenue Funds account for and report the proceeds of specific revenue sources (other than those dedicated for major capital projects) requiring separate accounting because of legal or regulatory provisions or administrative action. The Coal Road Improvement Fund and Law Library Fund are reported as nonmajor special revenue funds.

Additionally, Scott County reports the following fund types:

Proprietary Funds are accounted and financed in a manner similar to private business. The funds utilize the accrual basis of accounting, in which revenues are recognized when earned and expenses are recorded when the liability is incurred, or economic asset used.

Fiduciary Funds (Custodial Funds) account for assets held by the County unit in a trustee capacity or as an agent or custodian for individuals, private organizations, other governmental units, or other funds. These funds include Agency Funds. These funds utilize the modified accrual basis of accounting described in the Governmental Fund Presentation. Fiduciary funds are not included in the government-wide financial statements.

### D. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until consumed. This is comprised of certain items related to the measurement of the net pension liability and net OPEB liabilities and contributions to the pension and OPEB plans made during the current year and subsequent to the net pension liability and net OPEB liabilities measurement date. For more detailed information on these items, reference the related notes.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until acquired. The County has multiple items that qualify for reporting in this category. Under a modified accrual basis of accounting, unavailable revenue representing property taxes receivable is reported in the governmental funds balance sheet. This amount is comprised of uncollected property taxes due prior to June 30, 2nd half installments levied during the fiscal year but due after June 30th and amounts prepaid on the 2<sup>nd</sup> half installments and is deferred and recognized as an inflow of resources in the period that the amount becomes available.

### D. Deferred Outflows/Inflows of Resources (Continued)

Under the accrual basis, 2nd half installments levied during the fiscal year but due after June 30th and amounts prepaid on the 2nd half installments are reported as deferred inflows of resources. In addition, certain items related to the measurement of the net pension liability and net OPEB liabilities are reported as deferred inflows of resources. For more detailed information on these items, reference the related notes.

### E. <u>Budget and Budgetary Accounting</u>

The following procedures are used by the County in establishing the budgetary data reflected in the financial statements:

- 1. Prior to March 30, the County Administrator submits to the Board of Supervisors a proposed operating and capital budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing them.
- 2. Public hearings are conducted to obtain citizen comments.
- 3. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution.
- 4. The Appropriations Resolution places legal restrictions on expenditures at the departmental level. The appropriation for each department or category can be revised only by the Board of Supervisors. The County Administrator is authorized to transfer budgeted amounts within general government departments. However, the School Board is authorized to transfer budgeted amounts within the school system's categories.
- 5. Formal budgetary integration is employed as a management control device during the year for the General Fund, School Fund, and the Capital Projects Fund.
- 6. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
- 7. Appropriations lapse on June 30 for all County units. Several supplemental appropriations were necessary during the year and at year-end.
- 8. All budget data presented in the accompanying financial statements is the original to the current comparison of the final budget and actual results.
- 9. Expenditures did not exceed appropriations during the year.

# F. <u>Cash</u> and Cash Equivalents

The government's cash and cash equivalents are considered to be on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

### G. <u>Investments</u>

Investments are stated at fair value, which approximates market; no investments are valued at cost. Certificates of deposit and short-term repurchase agreements are reported in the accompanying financial statements as cash and cash equivalents. Investments consist of assets held by a trustee.

### H. Receivable and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds".

All trade and property tax receivables are shown net of an allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance amounted to approximately \$257,952 at June 30, 2022 and is composed solely of property taxes.

Property is assessed at its value on January 1. Property taxes attach as an enforceable lien on property as of January 1. Taxes are payable November 20<sup>th</sup>. The County bills and collects its own property taxes.

At June 30, 2022, the Public Service Authority had an allowance for uncollectible accounts of \$0.

### I. <u>Capital Assets</u>

Capital assets, which include property, plant and equipment, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the County as land, buildings, road registered vehicles, and equipment with an initial individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. Interest attributed to capitalized assets as of June 30, 2022 was immaterial.

### I. <u>Capital Assets (Continued)</u>

Property, plant and equipment of the primary government, as well as the component units, are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings	80
Building improvements	40-80
Vehicles	5
Office & computer equipment	7
Buses	12

### J. <u>Compensated Absences</u>

Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported as an expense in the statement of activities and a long-term obligation in the Statement of Net Position.

### K. <u>Long-term Obligations</u>

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statement, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

#### L. Net Position

Net position is the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources. Net position is classified as net investment in capital assets, restricted or unrestricted. Net investment in capital assets consists of the historical cost of capital assets less accumulated depreciation and less any debt that remains outstanding that was used to finance those assets plus deferred outflows of resources less deferred inflows of resources related to those assets. Restricted net position consists of assets that are restricted by the County's creditors (for example, through debt covenants), by the state enabling legislation (through restrictions on shared revenues), by grantors (both federal and state), and by other contributors. Unrestricted net position consists of all other net position reported in this category.

### M. Fund Balances

The following classifications of fund balance describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- Nonspendable fund balance amounts that are not in spendable form (such as inventory and prepaids) or are required to be maintained intact (corpus of a permanent fund);
- Restricted fund balance amounts that can be spent only for the specific purposes stipulated by external resource providers such as grantors or enabling federal, state, or local legislation. Restrictions may be changed or lifted only with the consent of the resource providers.
- Committed fund balance amounts that can be used only for the specific purposes determined by the adoption of an ordinance committing fund balance for a specified purpose by the Board of Supervisors prior to the end of the fiscal year. Once adopted, the limitation imposed by the ordinance remains in place until the resources have been spent for the specified purpose or the Board adopts another ordinance to remove or revise the limitation.
- Assigned fund balance amounts a government intends to use for a specific purpose but
  do not meet the criteria to be classified as committed; intent can be expressed by the
  governing body or by an official or body to which the governing body delegates the
  authority. Unlike commitments, assignments general only exist temporarily. In other
  words, an additional action does not normally have to be taken for the removal of an
  assignment. Conversely, as discussed above, an additional action is essential to either
  remove or revise a commitment.
- Unassigned fund balance amounts that are available for any purpose; positive amounts are only reported in the general fund. Additionally, any deficit fund balance within the other governmental fund types is reported as unassigned.

The County's highest decision-making level is the Board of Supervisors. Action from the Board of Supervisors is required to commit or release funds from commitment.

The County's Board of Supervisors has authorized the County Administrator to assign fund balance to a specific purpose as approved within the County fund balance policy.

The County considers restricted fund balance to be spent when an expenditure is incurred for purposes for which restricted and unassigned, assigned, or committed fund balances are available, unless prohibited by legal documents or contracts. When an expenditure is incurred for purposes for which committed, assigned or unassigned amounts are available, the County considers committed fund balance to be spent first, then assigned fund balance, and lastly unassigned fund balance.

### N. Retirement Plan

Retirement plan contributions are actuarially determined and consist of current services costs and amortization of prior service cost over a 30-year period. The County's policy is to fund pension costs as it accrues.

### O. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

### P. Jointly Governed Organizations

The County and the Counties of Wise and Lee, along with the City of Norton, participate in supporting the Planning District One Community Service Board. The governing body of this organization is supported by the respective governing bodies of the participating jurisdictions. For the year ended June 30, 2022, the County contributed \$173,475.

Q. The County and the Counties of Wise, Dickenson, and Lee, along with the Towns of Wise, Big Stone Gap, Coeburn, St. Paul and the City of Norton participate in supporting the Lonesome Pine Regional Library. For the year ended June 30, 2022, the County contributed \$203,050.

The County and the Counties of Lee, Wise, Washington, Russell, Smyth, Buchanan, Dickenson, Tazewell, along with the City of Norton participate in supporting the Southwest Virginia Regional Jail Authority. For the year ended June 30, 2022, the County contributed \$2,139,751.

### R. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the County's Retirement Plan and the additions to/deductions from the County's Retirement Plan's net fiduciary position have been determined on the same basis as they were reported by the Virginia Retirement System (VRS). For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

### S. Other Postemployment Benefits (OPEB)

For purposes of measuring the net VRS related OPEB liabilities, deferred outflows of resources and deferred inflows of resources related to the OPEB, and OPEB expense, information about the fiduciary net position of the VRS GLI OPEB Plans and the additions to/deductions from the VRS OPEB Plans' fiduciary net position have been determined on the same basis as they were reported

### R. Other Postemployment Benefits (OPEB) (Continued)

by VRS. In addition, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

### S. New Accounting Pronouncements

Statement No. 96, Subscription-Based Information Technology Arrangements (SBITAs), (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset—an intangible asset—and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. The requirements of this Statement are effective for reporting periods beginning after June 15, 2022.

Statement No. 92, Omnibus 2022, addresses practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics such as LIBOR, disclosures of nonmonetary transactions, leases, and SBITAs. The effective dates differ by topic, ranging from April 2022 to periods beginning after June 15, 2023.

Statement No. 100, Accounting Changes and Error Corrections, aims to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. The requirements of this Statement are effective for accounting changes and error corrections made in fiscal years beginning after June 15, 2023.

Statement No. 101, *Compensated Absences*, requires that liabilities for compensated absences be recognized for (1) leave that has not been used and (2) leave that has been used but not yet paid in cash or settled through noncash means. The requirements of this Statement are effective for fiscal years beginning after December 15, 2023.

#### **Note 2 – Deposits and Investments**

Deposits – Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act") Section 2.2-4400 et. seq. of the Code of Virginia. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Accordingly, all deposits are considered fully collateralized.

Investments – Statutes authorize the County to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank) the Asian Development Bank, the African Development Bank, "prime quality" commercial paper and certain corporate notes, banker's acceptances, repurchase agreements and the State Treasurer's Local Government Investment Pool (LGIP).

# Note 3 – Due from Other Governmental Units

At June 30, 2022, the County and School Board had receivables from other governments as follows:

	Discretely						
		Presented					
		Primary	Con	nponent Unit	Other Component		
	G	overnment	Sc	hool Board		Units	
Local Governments:		_					
Other misc. funds	\$	_	\$	-	\$	364,130	
Commonwealth of Virginia:

# Note 8 – Claims, Judgments, and Compensated Absences

In accordance with GASB 16, the County has accrued liabilities arising from outstanding claims, judgments, and compensated absences.

County employees earn annual leave at various rates. Accumulated vacation up to thirty days is paid upon termination. Sick leave is paid at 25% of accrued sick leave at the rate of pay upon termination, up to a maximum of \$2,500. The County primary government has outstanding accrued vacation and sick pay totaling \$529,809.

Component Unit School Board employees earn business and sick leave at various rates. The Component Unit School Board has outstanding business and sick leave pay totaling \$812,127.

Component Unit Economic Development Authority employees earn leave at various rates. The Component Unit Economic Development Authority has outstanding business and sick leave pay totaling \$17,473.

Component Unit Public Service Authority employees earn annual leave at the rate of ½ day per month during the first year of employment and 1 day per month after one year of service. Employees may accumulate up to 30 days of annual leave. The Component Unit Public Service Authority has outstanding business and sick leave pay totaling \$158,484.

#### Note 9 – Unavailable Revenue / Unearned Revenue

Unavailable revenue represents amounts for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. Unavailable revenue totaling \$13,996,179 is comprised of property tax revenue of \$13,754,368 and prepaid taxes of \$241,811 representing uncollected tax billings not available for funding current expenditures.

Unearned revenue are amounts that are received but in which revenue recognition and eligibility requirements have not been met. During fiscal year 2022, the County received American Rescue Plan Act (ARPA) funds of \$2,094,472. The revenue recognition criteria have also not been met with these funds. The total amount of \$2,094,472 is reported as Unearned revenue - ARPA funds in the Statement of Net Position.

#### Note 10 - Defined Benefit Pension Plan

### Plan Description

All full-time, salaried permanent employees of the County and public-school divisions are automatically covered by VRS Retirement Plan upon employment. This plan is administered by the Virginia Retirement System (the System) along with plans for other employer groups in the Commonwealth of Virginia.

Members earn one month of service credit for each month they are employed and for which they and their employer pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria as defined in the *Code of Virginia*, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously refunded service.

The System administers three different benefit structures for covered employees – Plan 1, Plan 2, and, Hybrid. Each of these benefit structures has a different eligibility criterion. The specific information for each plan and the eligibility for covered groups within each plan are available at:

- https://www.varetire.org/members/benefits/defined-benefit/plan1.asp
- <a href="https://www.varetire.org/members/benefits/defined-benefit/plan2.asp">https://www.varetire.org/members/benefits/defined-benefit/plan2.asp</a>
- https://www.varetirement.org/hybrid/plan-info.html

# **Employees Covered by Benefit Terms**

As of the June 30, 2020 actuarial valuation, the following employees were covered by the benefit terms of the pension plan:

	Component Unit
Primary	School Board
Government	Non-Professional
_	
132	72
15	6
41	17
24	4
80	27
145	92
357	191
	132 15 41 24 80 145

#### Contributions

The contribution requirement for active employees is governed by §51.1-145 of the *Code of Virginia*, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement.

### Contributions (Continued)

The County's contractually required contribution rate for the year ended June 30, 2022 was 13.20% for general government covered employee compensation and 4.38% for school board non-professional employees. These rates were based on actuarially determined rates from actuarial valuations as of June 30, 2019. The rates do not include the employer matching contribution to the defined contribution portion of the hybrid plan.

These rates, when combined with employee contributions, were expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the general government were \$934,075 and \$829,680 for the years ended June 30, 2022 and June 30, 2021, respectively. Contributions from the school board were \$112,499 and \$108,089 for the years ended June 30, 2022 and June 30, 2021, respectively.

# Net Pension Liability

The County's net pension liability was measured as of June 30, 2021. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of June 30, 2020, using updated actuarial assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2021.

#### **Actuarial Assumptions**

The total pension liability for General Employees and Public Safety Employees in the Political Subdivision's Retirement Plan was based on an actuarial valuation as of June 30, 2020, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2021.

Inflation 2.50%

Salary increases, including

inflation 3.50% - 5.35%

Investment rate of return 6.75%, net of pension plan

investment expense, including inflation

59

# **Actuarial Assumptions (Continued)**

Participants with General Employees Benefit Coverage:

Mortality rates: 15% of deaths are assumed to be service related.

Pre-Retirement: Pub-2010 Amount Weighted Safety Employee Rates projected generationally; 95% of rates for males; 105% of rates for females set forward 2 years

Post-Retirement: Pub-2010 Amount Weighted Safety Healthy Retiree Rates projected generationally; 110% of rates for males; 105% of rates for females set forward 3 years

Post-Disablement: Pub-2010 Amount Weighted General Disabled Rates projected generationally; males set back 3 years, 95% of rates; females 90% of rates set back 3 years

Beneficiaries and Survivors: Pub-2010 Amount Weighted Safety Contingent Annuitant Rates projected generationally; 110% of rates for males and females set forward 2 years

Mortality Improvement: Rates projected generationally with Modified MP-2020 Improvement Scale that is 75% of the MP-2020 rates

Participants with Enhanced Hazardous Duty Benefit Coverage:

Mortality rates: 45% of deaths are assumed to be service related.

Pre-Retirement: Pub-2010 Amount Weighted Safety Employee Rates projected generationally; 95% of rates for males; 105% of rates for females set forward 2 years

Post-Retirement: Pub-2010 Amount Weighted Safety Healthy Retiree Rates projected generationally; 110% of rates for males; 105% of rates for females set forward 3 years

Post-Disablement: Pub-2010 Amount Weighted General Disabled Rates projected generationally; males set back 3 years, 95% of rates; females 90% of rates set back 3 years

Beneficiaries and Survivors: Pub-2010 Amount Weighted Safety Contingent Annuitant Rates projected generationally; 110% of rates for males and females set forward 2 years

Mortality Improvement: Rates projected generationally with Modified MP-2020 Improvement Scale that is 75% of the MP-2020 rates

60

### Changes in Actuarial Assumptions

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

#### For Non-Hazardous Duty Members:

- Updated to PUB2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
- Adjusted retirement rates at older ages and changed final retirement age.
- Adjusted withdrawal rates to better fit experience at each age and service through 9 years of service

#### For Hazardous Duty Members:

- Updated to PUB2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020
- Adjusted rates to better fit experience and changed final retirement age from 65 to 70.
- Decreased rates and changed from rates based on age and service to rates based on service only to better fit experience.

### Long-Term Expected Rate of Return

The long-term expected rate of return on pension system investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension system investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

**Note 10 – Defined Benefit Pension Plan (Continued)** 

Asset Class (Strategy)	Target Allocation	Arithmetic Long- Term Expected Rate of Return	Weighted Average Long-Term Expected Rate of Return
Public Equity	34.00%	5.00%	1.70%
Fixed Income	15.00%	0.57%	0.09%
Credit Strategies	14.00%	4.49%	0.63%
Real Assets	14.00%	4.76%	0.67%
Private Equity	14.00%	9.94%	1.39%
MAPS	6.00%	3.29%	0.20%
PIP	3.00%	6.84%	0.21%
	100.00%		4.89%
	Inflation		2.50%
* Expected arithmetic ne	ominal return		7.39%

<sup>\*</sup> The above allocation provides a one-year return of 7.39%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the system, stochastic projections are employed to model future returns under various economic conditions. The results provide a range of returns over various time periods that ultimately provide a median return of 6.94%, including expected inflation of 2.50%.

On October 10, 2019, the VRS Board elected a long-term rate of return of 6.75%, which was roughly at the 40th percentile of expected long-term results of the VRS fund asset allocation at that time, providing a median return of 7.11%, including expected inflation of 2.50%.

### **Discount Rate**

The discount rate used to measure the total pension liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that System member contributions will be made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Consistent with the phased-in funding provided by the General Assembly for state and teacher employer contributions; political subdivisions were also provided with an opportunity to use an alternate employer contribution rate. For the year ended June 30, 2021, the alternate rate was the employer contribution rate used in FY 2012 or 100% of the actuarially determined employer contribution rate from the June 30, 2017, actuarial valuations, whichever was greater. From July 1, 2021 on, participating employers are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to

# **Discount Rate (Continued)**

be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

# Changes in Net Pension Liability

Net Pension Liability	\$	88,676	\$	(1,149,634)	\$	(210,988)

# Pension Expense and Deferred Outflows and Inflows of Resources Related to Pensions

For the year ended June 30, 2022, the County's primary government recognized pension expense of \$(245,483). At June 30, 2022, the County's primary government reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Primary Government	Deferred Outflows		Deferred Inflows		
	of	Resources	of	Resources	
Differences between expected and actual		_			
experience	\$	204,691	\$	381,415	
Change in assumptions		1,032,774		-	
Net difference between projected and actual earnings on pension plan investments		774,116		4,226,042	
Employer contributions subsequent to the measurement date		934,075			
Total	\$	2,945,656	\$	4,607,457	

\$934,075 is reported as deferred outflows of resources related to pensions resulting from the County's general government contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30,	 Amount
2023	\$ (266,187)
2024	(550,478)
2025	(727,808)
2026	(1,051,403)
2026	-
Thereafter	 
Total	\$ (2,595,876)

### Pension Expense and Deferred Outflows and Inflows of Resources Related to Pensions (Continued)

For the year ended June 30, 2021, the School Board recognized pension expense of \$(255,261) for non-professional employees. At June 30, 2021, the School Board reported deferred outflows of resources and deferred inflows of resources related to pensions for non-professional employees from the following sources:

Component Unit School Board	Deferred Outflows		Deferred Inflows	
Non-Professional	01	Resources	01	Resources
Differences between expected and actual				
experience	\$	6,047	\$	130,734
Change in assumptions		254,198		-
Net difference between projected and actual earnings on pension plan investments		288,194		1,562,340
		200,171		1,502,510
Employer contributions subsequent to the				
measurement date		112,499		
Total	\$	660,938	\$	1,693,074

\$112,499 is reported as deferred outflows of resources related to pensions resulting from the school board's contributions subsequent to the measurement date for nonprofessional employees will be recognized as a reduction of the Net Pension Liability in the year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

 Amount
\$ (267,017)
(216,503)
(272,395)
(388,720)
\$ (1,144,635)
\$

### Pension Plan Data

Information about the VRS Political Subdivision Retirement Plan is also available in the separately issued VRS 2021 Annual Report. A copy of the 2021 VRS Annual Report may be downloaded from the VRS website at varetire.org/pdf/publications/2021-annual-report.pdf, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA 23218-2500.

# **Component Unit School Board (Professional)**

### **Pensions**

The Virginia Retirement System (VRS) Teacher Employee Retirement Plan is a multiple employer, costsharing plan. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Virginia Retirement System (VRS) Teacher Retirement Plan and the additions to/deductions from the VRS Teacher Retirement Plan's fiduciary net position have been determined on the same basis as they were reported by VRS. In addition, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

### Plan Description

All full-time, salaried permanent (professional) employees of public school divisions are automatically covered by the VRS Teacher Retirement Plan upon employment. This is a cost-sharing multiple employer plan administered by the Virginia Retirement System (the System). Additional information related to the plan description is included in the first section of this note.

### Contributions

The contribution requirement for active employees is governed by § 51.1-145 of the Code of Virginia, as amended, but may be impacted as a result of funding provided to school divisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement. Each school division's contractually required employer contribution rate for the year ended June 30, 2022, was 16.62% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2019. The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contribution to the pension plan from the School Board were \$3,720,873 and \$3,591,786 for the years ended June 30, 2022, and June 30, 2021, respectively.

In June 2021, the Commonwealth made a special contribution of approximately \$61.3 million to the VRS Teacher Employee Plan. This special payment was authorized by a budget amendment included in Chapter 552 of the 2021 Appropriation Act, and is classified as a non-employer contribution.

# <u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions</u>

At June 30, 2022, the School Board reported a liability of \$ 19,284,311 for its proportionate share of the Net Pension Liability. The Net Pension Liability was measured as of June 30, 2021, and the total pension liability used to calculate the Net Pension Liability was determined by an actuarial valuation performed as of June 30, 2020, and rolled forward to the measurement date of June 30, 2021. Scott County School

# **Component Unit School Board (Professional) (Continued)**

Board's proportion of the Net Pension Liability was based on the School Board's actuarially determined employer contributions to the pension plan for the year ended June 30, 2021, relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2021, the School Board's proportion was 0.24841% as compared to 0.24694% at June 30, 2020.

For the year ended June 30, 2022, the School Board recognized pension expense of \$(1,390,710). Since there was a change in proportionate share between measurement dates, a portion of the pension expense was related to deferred amounts from changes in proportion and from differences between employer contributions and the proportionate share of employer contributions.

At June 30, 2022, the School Board reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Component Unit School Board	Deferred Outflows		Deferred Inflows	
Professional	of	of Resources		f Resources
Differences between expected and actual				
experience	\$	-	\$	1,642,522
Net difference between projected and actual				
earnings on pension plan investments		-		12,152,456
Change in assumptions		3,378,561		-
Changes in proportion and differences between				
between employer contributions and				
proportionate share of contributions		223,664		321,046
Employer contributions subsequent to the				
measurement date		3,720,873		
Total	\$	7,323,098	\$	14,116,024

# **Note 10 – Defined Benefit Pension Plan (Continued)**

# Component Unit School Board (Professional) (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

\$3,720,873 reported as deferred outflows of resources related to pensions resulting from the School Board's contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the Fiscal Year ending June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future reporting periods as follows:

Year Ended June 30,	 Amount
2023	\$ (2,491,460)
2024	(22,308,833)
2025	(2,422,556)
2026	(3,372,595)
Thereafter	3,695
Total	\$ (30,591,749)

# **Actuarial Assumptions**

The total pension liability for the VRS Teacher Retirement Plan was based on an actuarial valuation as of June 30, 2020, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2021.

Inflation	2.50%
Salary increases, including inflation	3.50% - 5.35%
Investment rate of return	6.75%, net of pension plan investment expense, including inflation

#### Mortality rates:

- Pre-retirement: Pub-2010 Amount Weighted Teachers Employee Rates projected generationally; 110% of rates for males
- Post-retirement: Pub-2010 Amount Weighted Teachers Healthy Retiree Rates projected generationally; males set forward 1 year; 105% of rates for females
- Post-disablement: Pub-2010 Amount Weighted Teachers Disabled Rates projected generationally; 110% of rates for males and females
- Beneficiaries and Survivors: Pub-2010 Amount Weighted Teachers Contingent Annuitant Rates projected generationally

# **Note 10 – Defined Benefit Pension Plan (Continued)**

# Component Unit School Board (Professional) (Continued)

## Actuarial Assumptions (Continued)

• Mortality Improvement: Rates projected generationally with Modified MP-2020 Improvement Scale that is 75% of the MP-2020 rates

The actuarial assumptions used in the June 30, 2020, valuation were based on the results of an actuarial experience study for the period from July 1, 2016, through June 30, 2020, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

Mortality Rates (Pre-retirement,	Update to PUB2010 public sector mortality tables. For future					
post-retirement healthy, and	mortality improvements, replace load with a modified Mortality					
disabled)	Improvement Scale MP-2020					
Retirement Rates	Adjusted rates to better fit experience for Plan 1; set separate rates					
	based on experience for Plan 2/Hybrid; changed final retirement age					
	from 75 to 80 for all					
Withdrawal Rates	Adjusted rates to better fit experience at each year age and service					
	through 9 years of service					
Disability Rates	No change					
Salary Scale	No change					
Discount Rate	No change					

## **Net Pension Liability**

The net pension liability (NPL) is calculated separately for each system and represents that particular system's ttotal pension liability determined in accordance with GASB Statemnt No. 67, less that system's fiduciary net position. As of June 30, 2021, NPL amounts for the VRS Teacher Employee Retirement Plan is as follows:

	Teac	cher Employee
	Re	tirement Plan
Total Pension Liability	\$	53,381,141
Plan Fiduciary Net Position		45,617,878
Employers' Net Pension Liability (Asset)		7,763,263
Plan Fiduciary Net Position as a		
Percentage of the Total Pension Liability		85.46%

# Note 10 – Defined Benefit Pension Plan (Continued) Component Unit School Board (Professional) (Continued)

#### Net Pension Liability (Continued)

The total pension liability is calculated by the System's actuary, and each plan's fiduciary net position is reported in the System's financial statements. The net pension liability is disclosed in accordance with the requirements of GASB Statement No. 67 in the System's notes to the financial statements and required supplementary information.

The long-term expected rate of return and discount rate information previously described also apply to this plan.

# Sensitivity of the School Board's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents Scott County School Board's proportionate share of the net pension liability using the discount rate of 6.75%, as well as what the School Board's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (5.75%) or one percentage point higher (7.75%) than the current rate:

Component Unit School Board	1% Decrease		1% Decrease		Current Rate		Decrease Current Rate			19	% Increase
Professional		5.75%		6.75%		6.75%		6.75%			7.75%
Net Pension Liability	\$	37,217,675	\$ 19,284,311			\$	4,531,723				

#### Pension Plan Fiduciary Net Position

Detailed information about the VRS Teacher Retirement Plan's Fiduciary Net Position is available in the separately issued VRS 2021 Annual Comprehensive Financial Report (Annual Report). A copy of the 2021 VRS Annual Report may be downloaded from the VRS website at varetire.org/pdf/publications/2021-annualreport.pdf, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA 23218-2500.

## Note 11 – Other Postemployment Benefits – Health Insurance

### Plan Description

The County and School Board provide postemployment medical coverage for retired employees through a single employer defined benefit plan. The County and School Board may change, add or delete coverage as they deem appropriate and with the approval of the Board of Supervisors and School Board. The plan does not grant retirees vested health benefits.

# Plan Description (Continued)

A retiree eligible for post-retirement medical coverage is defined as a full-time employee who retires directly from the County or Schools and is eligible to receive an early or regular retirement benefit from the VRS. Employees applying for early or regular retirement are eligible to continue participation in the Retiree Health Plans sponsored by the County and Schools. Employees at the County are allowed to stay on the plan until death of the employee and employees at the School Board are allowed to stay on the plan until death of the employee or eligibility for Medicare coverage. The employee pays 100% of the required premium.

GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pension and GASB Statement No. 85, Omnibus 2017 establish new accounting and financial reporting requirements for OPEB plans and standardize the valuation methodology. The cost of postemployment healthcare benefits should be associated with the periods in which the cost occurs, rather than in the future years when it will be paid.

## **Employees Covered by Benefit Terms**

	Primary	Component Unit
	Government	School Board
Active participants	88	606
Retired participants	11	18
Total covered employees	99	624

## **Funding Policy and Contributions**

The County and Schools currently fund postemployment health care benefits on a pay-as-you-go basis. The County and Schools do not accumulate assets in a trust. During fiscal year 2022, the County and Schools made OPEB benefit payments of \$89,899 and \$9,630, respectively.

#### **Total OPEB Liability**

The County's total OPEB liability was measured as of June 30, 2022. The total OPEB liability was determined by an actuarial valuation performed as of June 30, 2022.

#### **Actuarial Methods and Assumptions**

Primary Government – The County uses the alternative measurement method in accordance with GASB methodology. In the valuation for the year ended June 30, 2022, the cost method used to determine OPEB liability was entry age normal level percentage of payroll. All active and former employees who are potentially eligible to receive healthcare benefits as a retiree were included in the calculations. All assumptions attempt to represent the best estimate of anticipated experience under the plan. Employer future premium contribution is assumed to remain a level percentage of the total cost over time. Mortality

rates are the RP2000 Mortality Table for Males and Females Projected 18 years; this assumption does not include a margin for future improvements in longevity. Turnover rates are derived from data maintained by the U.S. Office of Personnel Management regarding the most recent experience of the employee group covered by the Federal Employees Retirement System. Other assumptions are as follows.

Average retirement age 62 years
Salary increases 2.46 percent
Amortization period 20 years

Component Unit School Board – In the actuarial valuation for the year ended June 30, 2022, the cost method used to determine OPEB liability was individual entry age normal level percent of salary. All active and former employees who are potentially eligible to receive healthcare benefits as a retiree were included in the calculations. All assumptions attempt to represent the best estimate of anticipated experience under the plan. Retirement, mortality, and termination rates are the rates used for the June 30, 2021 Actuarial Valuation of the Virginia Retirement System. No disability rates were assumed. Per capita claims costs include medical, dental, and prescription drug coverages and are based on the 2019 healthcare premiums provided by the School Board. It is assumed that 85% of eligible retirees will elect to receive coverage upon retirement. Spouse coverage is not available for participants that retire on or after July 1, 2009. It is assumed that 80% of active employees are married at retirement. Female spouses are assumed to be 3 years younger than their husbands. Other assumptions are as follows.

Inflation 2.50 percent Salary increases 3.0 percent

#### Funding Status and Funding Progress

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and healthcare cost trends. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

#### Discount Rate and Municipal Bond Rate

Pursuant to GASB 75, the discount rate for unfunded plans should be a yield or index rate for 20-year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher (or equivalent quality on another rating scale). The Bond Buyer's 20 bond index is often cited as an appropriate benchmark. A discount rate of 2.21% was used for the County and School valuations.

#### Healthcare Trend Rates

# Primary Government

Year	Medical	Pharmacy	Dental	Vision
Year 1	4.70%	5.20%	3.50%	3.00%
Year 2	4.80%	4.80%	3.50%	3.00%

### OPEB Expense and Deferred Outflows and Inflows of Resources Related to OPEB

\$

For the year ended June 30, 2022, the County's primary government recognized OPEB – health insurance expense of \$(27,136). At June 30, 2022, the County's primary government did not report deferred outflows of resources or deferred inflows of resources related to OPEB – health insurance because the County is on a pay-as-you-go basis.

3,830,933

For the year ended June 30, 2022, the School Board recognized OPEB – health insurance expense of \$85,054. At June 30, 2022, the School Board reported deferred outflows of resources of \$516,685 related to OPEB – health insurance due to a change in assumptions. The Board reported deferred inflows of \$1,881,578 due to differences between expected and actual experience. Deferred outflows and inflows will be recognized in OPEB – health insurance expense as follows:

Year Ended June 30,	Deferred Outflows		Def	ferred Inflows
2023	\$	91,107	\$	(313,122)
2024		91,107		(313,122)
2025		91,107		(313,122)
2026		91,107		(313,122)
2027		91,107		(313,122)
Thereafter		61,150		(315,968)
Total	\$	516,685	\$	(1,881,578)

**Note 12 – Other Postemployment Benefits – Group Life Insurance** 

The Virginia Retirement System (VRS) Group Life Insurance (GLI) Program is a multiple employer, cost-sharing plan. It provides coverage to state employees, teachers, and employees of political subdivision. The GLI Program was established pursuant to §51.1-500 et seq. of the *Code of Virginia*, as amended, and which provides the authority under which benefit terms are established or may be amended. The GLI Program is a defined benefit plan that provides a basic group life insurance benefit for employees of participating employers. For purposes of measuring net GLI OPEB liability, deferred outflows of resources and deferred inflows of resources related to the GLI OPEB, GLI OPEB expense, information about the fiduciary net position of the VRS GLI OPEB and the additions to/deductions from the VRS GLI Program OPEB's net fiduciary position have been determined on the same basis as they were reported by VRS. In addition, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### Plan Description

All full-time, salaried permanent employees of the state agencies, teachers, and employees of participating political subdivisions are automatically covered by the VRS GLI Program upon employment. This plan is administered by the VRS (the System), along with pension and other OPEB plans, for public employer groups in the Commonwealth of Virginia.

In addition to the Basic Group Life Insurance benefit, members are also eligible to elect additional coverage for themselves as well as a spouse or dependent children through the Optional Group Life Insurance Program. For members who elect the optional group life insurance coverage, the insurer bills employers directly for the premiums. Employers deduct these premiums from members' paychecks and pay the premiums to the insurer. Since this is a separate and fully insured program, it is not included as part of the Group Life Insurance Program OPEB.

The specific information for Group Life Insurance Program OPEB, including eligibility, coverage and benefits is available at https://www.varetire.org/benefits-and-programs/benefits/life-insurance/

#### **Contributions**

The contribution requirements for the Group Life Insurance Program are governed by § 51.1-506 and § 51.1-508 of the Code of Virginia, as amended, but may be impacted as a result of funding provided to state agencies and school divisions by the Virginia General Assembly. The total rate for the Group Life Insurance Program was 1.34% of covered employee compensation. This was allocated into an employee and an employer component using a 60/40 split. The employee component was 0.80% (1.34% X 60%) and the employer component was 0.54% (1.34% X 40%). Employers may elect to pay all or part of the employee contribution, however the employer must pay all of the employer contribution. Each employer's contractually required employer contribution rate for the year ended June 30, 2022, was 0.54% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2019. The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits payable during the year, with an additional amount to finance any unfunded accrued liability. County contributions to the GLI Program were \$38,235 and \$34,253 for the years ended June 30, 2022 and June 30, 2021, respectively. School Board Non-professional contributions to the GLI Program were \$13,913 and \$13,384. School Board Professional contributions to the GLI Program were \$120,895 and \$117,002.

# <u>GLI OPEB Liabilities, GLI OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the GLI Program OPEB</u>

At June 30, 2022, the County reported a liability of \$357,664 for its proportionate share of the Net GLI OPEB Liability. School Board Non-professional reported a liability of \$139,712. School Board Professional reported a liability of \$1,221,786. The Net GLI OPEB Liability was measured as of June 30, 2021 and the total GLI OPEB liability used to calculate the Net GLI OPEB Liability was determined by an actuarial valuation as of that date. The covered employer's proportion of the Net GLI OPEB Liability was based on the covered employer's actuarially determined employer contributions to the GLI Program for the year ended June 30, 2021 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2021, the County's proportion was 0.03072% as compared to 0.02940% at June 30, 2020. School Board Non-professional proportion was 0.01200% as compared to 0.01145%. School Board professional proportion was 0.10494% as compared to 0.10346%.

For the year ended June 30, 2022, the County recognized GLI OPEB expense of \$(24,281). School Board Non-professional recognized GLI OPEB expense of \$(8,146). School Board Professional recognized GLI OPEB expense of \$(75,958). Since there was a change in the proportionate share between measure dates, a portion of the GLI OPEB expense was related to deferred amounts from changes in proportion.

# **Note 12 – Other Postemployment Benefits – Group Life Insurance (Continued)**

#### Contributions (Continued)

At June 30, 2022, the employer reported deferred outflows of resources and deferred inflows of resources related to the GLI OPEB from the following sources:

	County			School Board Non-prof.				School Board Prof.				
	0	utflows	I	nflows	О	Outflows Inflows		C	Outflows		Inflows	
Differences between expected and actual experience	\$	40,793	\$	2,725	\$	15,935	\$	1,065	\$	139,349	\$	9,309

Total	\$	115,000	\$	146,044	\$	44,656	\$	57,008	\$	350,712	\$	500,725

# GLI OPEB Liabilities, GLI OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the GLI Program OPEB (Continued)

Amounts reported as deferred outflows of resources related to the GLI OPEB resulting from the employer's contributions subsequent to the measurement date will be recognized as a reduction of the Net GLI OPEB liability in the fiscal year ending June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the GLI OPEB will be recognized in the GLI OPEB expense in the future reporting periods as follows:

Year ended June 30	(	County	N	Non-prof.		ofessional
2023	\$	(18,227)	\$	(6,807)	\$	(64,987)
2024		(13,148)			(53,283)	
2025		(12,059)		(4,497)		(50,508)
2026		(23,979)		(9,069)		(88,579)
2027		(1,866)		(636)		(13,351)
Thereafter						-
Total Deferred	\$	(69,279)	\$	(26,265)	\$	(270,708)

#### **Actuarial Assumptions**

The total GLI OPEB liability was based on an actuarial valuation as of June 30, 2020, using the Entry Age Normal actuarial cost method and the same assumptions as the VRS pension plan, as described in Note 10, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2021.

# **Note 12 – Other Postemployment Benefits – Group Life Insurance (Continued)**

# **Net GLI OPEB Liability**

The net OPEB liability (NOL) for the GLI Program represents the programs' total OPEB liability determined in accordance with GASB Statement No. 74, less the associated fiduciary net position. As of June 30, 2021, NOL amounts for the entire GLI Program is as follows (expressed in thousands):

Group Life			
Insurance OPEB			
	Program		
\$	3,577,346		
	2,413,074		
\$	1,164,272		
	67.45%		
	Insu \$		

#### Net GLI OPEB Liability (Continued)

The total GLI OPEB liability is calculated by the System's actuary, and each plan's fiduciary net position is reported in the System's financial statements. The net GLI OPEB liability is disclosed in accordance with the requirements of GASB Statement No. 74 in the System's notes to the financial statements and required supplementary information.

## Long-Term Expected Rate of Return

The long-term expected rate of return on the System's investments is the same as the VRS pension plan, as described in Note 10.

#### Discount Rate

The discount rate used to measure the total GLI OPEB was 6.75%, the same as the VRS pension plan, as described in Note 10.

# **Note 12 – Other Postemployment Benefits – Group Life Insurance (Continued)**

# Sensitivity of the Employer's Proportionate Share of the Net GLI OPEB Liability to Changes in the Discount Rate

The following presents the employer's proportionate share of the net GLI OPEB liability using the discount rate of 6.75%, as well as what the employer's proportionate share of the net GLI OPEB liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

	1% Decrease (5.75%)		Di	scount Rate (6.75%)	1% Increase (7.75%)		
County	\$	522,561	\$	357,664	\$	224,503	
School Board Non-prof.	\$	204,125	\$	139,712	\$	87,696	
School Board Professional	\$	1,785,074	\$	1,221,786	\$	766,906	

# Group Life Insurance Program Fiduciary Net Position

Detailed information about the GLI Program's Fiduciary Net Position is available in the separately issued VRS 2019 Annual Comprehensive Financial Report (ACFR). A copy of the 2021 VRS ACFR may be downloaded from the VRS website or requested by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

**Note 12 – Other Postemployment Benefits – Group Life Insurance (Continued)** 

# Schedule of Employer Contributions

This schedule is intended to show information for ten years. Since fiscal year 2018 is the first year for this presentation, no earlier data is available. Additional years will be included as they become available.

The Virginia Retirement System (VRS) Teacher Employee Health Insurance Credit Program is a multiple-employer, cost-sharing plan. The Teacher Employee Health Insurance Credit Program was established pursuant to § 51.1-1400 et seq. of the Code of Virginia, as amended, and which provides the authority under which benefit terms are established or may be amended. The Teacher Employee Health Insurance Credit Program is a defined benefit plan that provides a credit toward the cost of health insurance coverage for retired teachers. For purposes of measuring the net Teacher Employee Health Insurance Credit Program OPEB liability, deferred outflows of resources and deferred inflows of resources related to the Teacher Employee Health Insurance Credit Program OPEB, and the Teacher Employee Health Insurance Credit Program open open of the Virginia Retirement System (VRS) Teacher Employee Health Insurance Credit Program; and the additions to/deductions from the VRS Teacher Employee Health Insurance Credit Program's net fiduciary position have been determined on the same basis as they were reported by VRS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

# Plan Description

All full-time, salaried permanent (professional) employees of public school divisions are automatically covered by the VRS Teacher Employee Health Insurance Credit Program. This plan is administered by the Virginia Retirement System (the System), along with pension and other OPEB plans, for public employer groups in the Commonwealth of Virginia. Members earn one month of service credit toward the benefit for each month they are employed and for which their employer pays contributions to VRS. The health insurance credit is a tax-free reimbursement in an amount set by the General Assembly for each year of service credit against qualified health insurance premiums retirees pay for single coverage, excluding any portion covering the spouse or dependents. The credit cannot exceed the amount of the premiums and ends upon the retiree's death.

The specific information for HIC OPEB, including eligibility, coverage, and benefits is available at: <a href="https://www.varetire.org/retirees/insurance/healthinscredit">https://www.varetire.org/retirees/insurance/healthinscredit</a>

#### Contributions

The contribution requirement for active employees is governed by § 51.1-1401(E) of the Code of Virginia, as amended, but may be impacted as a result of funding provided to school divisions by the Virginia General Assembly. Each school division's contractually required employer contribution rate for the year ended June 30, 2022, was 1.21% of covered employee compensation for employees in the VRS Teacher Employee Health Insurance Credit Program. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2019. The actuarially determined rate was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions from the school division to the VRS Teacher Employee Health Insurance Credit Program were \$270,894 and \$244,162 for the years ended June 30, 2022 and June 30, 2021, respectively.

HIC OPEB Liabilities, HIC OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the HIC Program OPEB

At June 30, 2022, the school division reported a liability of \$3,136,529 for its proportionate share of the Net HIC OPEB Liability. The Net HIC OPEB Liability was measured as of June 30, 2021 and the total HIC OPEB liability used to calculate the Net HIC OPEB Liability was determined by an actuarial valuation as of that date. The school division's proportion of the Net VRS Teacher Employee Health Insurance Credit Program OPEB Liability was based on the school division's actuarially determined employer contributions to the VRS Teacher Employee Health Insurance Credit Program OPEB plan for the year ended June 30, 2021 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2021, the school division's proportion was 0.24436% as compared to 0. 24234% at June 30, 2020.

For the year ended June 30, 2022, the school division recognized HIC OPEB expense of \$(30,123). Since there was a change in the proportionate share between measure dates, a portion of the HIC OPEB expense was related to deferred amounts from changes in proportion.

At June 30, 2022, the employer reported deferred outflows of resources and deferred inflows of resources related to the HIC OPEB from the following sources:

	School Division					
	(	Outflows	Inflows			
Differences between expected and actual experience	\$	-	\$	54,732		
Net difference between projected and actual investment earnings		-		41,318		
Change in assumptions		84,786		12,605		
Changes in proportion		23,952		61,255		
Employer contributions subsequent to the measurement date		270,894				
Total	\$	379,632	\$	169,910		

\$270,894 is reported as deferred outflows of resources related to the HIC OPEB resulting from the employer's contributions subsequent to the measurement date will be recognized as a reduction of the Net HIC OPEB liability in the fiscal year ending June 30, 2023.

HIC OPEB Liabilities, HIC OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the HIC Program OPEB (Continued)

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the HIC OPEB will be recognized in the HIC OPEB expense in the future reporting periods as follows:

Year Ended June 30,	Amount
2023	\$ (18,123)
2024	(18,592)
2025	(17,366)
2026	(14,415)
2027	2,270
Thereafter	 5,054
Total	\$ (61,172)

# **Actuarial Assumptions**

The total HIC OPEB liability was based on an actuarial valuation as of June 30, 2020, using the Entry Age Normal actuarial cost method and the same assumptions as the VRS pension plan, as described in Note 10 except mortality rates, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2021.

Mortality rates – Teachers

Pre-Retirement: Pub-2010 Amount Weighted Teachers Employee Rates projected generationally; 110% of rates for males

Post-Retirement: Pub-2010 Amount Weighted Teachers Healthy Retiree Rates projected generationally; males set forward 1 year; 105% of rates for females

Post-Disablement: Pub-2010 Amount Weighted Teachers Disabled Rates projected generationally; 110% of rates for males and females

Beneficiaries and Survivors: Pub-2010 Amount Weighted Teachers Contingent Annuitant Rates projected generationally

Mortality Improvement Scale: Rates projected generationally with Modified MP-2020 Improvement Scale that is 75% of the MP-2020 rates

#### Net HIC OPEB Liability

The net OPEB liability (NOL) for the Teacher Employee Health Insurance Credit Program represents the program's total OPEB liability determined in accordance with GASB Statement No. 74, less the associated fiduciary net position. As of June 30, 2021, NOL amounts for the VRS Teacher Employee Health Insurance Credit Program are as follows (amounts expressed in thousands):

	Teacher		
	Employee HIC		
		PEB Plan	
Total HIC OPEB Liability	\$	1,477,874	
Plan Fiduciary Net Position		194,305	
Net HIC OPEB Liability (Asset)	\$	1,283,569	
Plan Fiduciary Net Position as a Percentage			
of the Total HIC OPEB Liability		13.15%	

The total HIC OPEB liability is calculated by the System's actuary, and each plan's fiduciary net position is reported in the System's financial statements. The net HIC OPEB liability is disclosed in accordance with the requirements of GASB Statement No. 74 in the System's notes to the financial statements and required supplementary information.

#### Long-Term Expected Rate of Return

The long-term expected rate of return on the System's investments is the same as the VRS pension plan, as described in Note 10.

### Discount Rate

The discount rate used to measure the total HIC OPEB was 6.75%, the same as the VRS pension plan, as described in Note 10.

# Sensitivity of the Employer's Proportionate Share of the Net HIC OPEB Liability to Changes in the Discount Rate

The following presents the employer's proportionate share of the net HIC OPEB liability using the discount rate of 6.75%, as well as what the employer's proportionate share of the net HIC OPEB liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

	19	1% Decrease		Discount Rate		1% Increase	
		(5.75%)		(6.75%)		(7.75%)	
School Division	\$	3,530,863	\$	3,136,529	\$	2,802,829	

# Schedule of Employer's Share of Net HIC OPEB Liability

This schedule is intended to show information for ten years. Since fiscal year 2017 is the first year for this presentation, no earlier data is available. Additional years will be included as they become available.

	School Division					
	2021	2020	2019	2018

Column (4) – Employer's covered employee payroll amount for the fiscal year

#### Group Life Insurance Program Fiduciary Net Position

Detailed information about the HIC Program's Fiduciary Net Position is available in the separately issued VRS 2021 Annual Comprehensive Financial Report (ACFR). A copy of the 2021 VRS ACFR may be downloaded from the VRS website or requested by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

#### **Note 14 – Contingent Liabilities**

Federal programs in which the County and its component units participate were audited in accordance with the provisions of U.S. Office of Management and Budget's *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*. Pursuant to the provisions of this circular all major programs and certain other programs were tested for compliance with applicable grant requirements. While no matters of noncompliance were disclosed by audit, the Federal Government may subject grant programs to additional compliance tests which may result in disallowed expenditures. In the opinion of management, any future disallowances of current grant program expenditures, if any, would be immaterial.

#### Note 15 - Landfill Closure and Post Closure Care Cost

State and federal laws and regulations require the County to place a final cover on its landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for thirty years after closure. Although closure and post closure care costs will be paid only near or after the date that the landfill stops accepting waste, the County reports a portion of these closure and post closure care costs as an operating expense in each period based on landfill capacity used at each balance sheet date. The \$909,073 reported as landfill closure and post closure care liability at June 30, 2022 represents the cumulative amount reported. Actual costs may be higher due to inflation, changes in technology, or changes in regulations. The County expects closure on the landfill in the next few years. These estimated amounts are based on what it would cost to perform all closure and post closure care in 2022.

### Note 16 – Risk Management

The County and its Component Unit School Board are exposed to various risk of loss related to torts; theft of damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County and its Component Unit School Board participates with other localities in a public entity risk pool, the Virginia Association of Counties Self Insurance, for all types of insurance. The Component Unit School Board participates with other localities in a public entity risk pool, the Virginia Municipal League, for all of its insurance coverage. The County and its Component Unit School Board pay an annual premium to these pools for their insurance coverage. The agreement for the formation of the pools provides that the pools will be self-sustaining through member premiums. The County continues to carry commercial insurance for all other risks of losses. For the three previous fiscal years, settled claims from these risks have not exceeded commercial coverage.

#### **Note 17 - Self-Funded Insurance**

The Scott County School Board established a limited risk management program for health insurance in 1992. Premiums are paid into the School Health Insurance Fund by school employees and are available to pay claims, claim reserves and administrative costs of the program. During fiscal year 2022 a total of \$4,600,750 was paid in benefits and administrative costs. The risk assumed by the School Board is \$100,000 per person with a maximum attachment point of \$4,672,150. Inter-fund premiums are based primarily upon the insured funds claims experience and are reported as quasi-external interfund transactions. The fund had \$0 health insurance claims payable at June 30, 2022.

#### Note 18 – Interfund Transfers

Interfund transfers for the year ended June 30, 2022, consisted of the following:

Fund	T	ransfers In	Transfers Out		
General	\$	-	\$	6,224,849	
School		6,224,849			
Totals	\$	6,224,849	\$	6,224,849	

# Note 19 – Surety Bonds

	 Amount
Fidelity and Deposits Company of Maryland - Surety	
Mark Taylor, Clerk of the Circuit Court	\$ 200,000
Mitzi Owens, Treasurer	400,000
Debbie Dockery, Commissioner of the Revenue	10,000
Jeff Edds, Sheriff	30,000
VACO Risk Management Programs All School Board employees - blanket	250,000
VACorp - Surety	
Freda Starnes, County Administrator	100,000
All General Government employees - blanket	100,000
All Social Service employees - blanket	100,000

#### **Note 20 – Subsequent Events**

Subsequent events have been evaluated as of December 21, 2022, which is the date the financial statements were issued.

#### Note 21 – CARES Act and American Rescue Plan Act Funds

During fiscal year 2022, the County expended CARES Act funds of \$929,497. The County maintains a separate bank account for remaining funds of \$0.

Also, during fiscal year 2021, the County received American Rescue Plan Act (ARPA) funds of \$2,094,472. These funds were incurred by the County as lost revenue for FY22. The County received additional ARPA funding of \$2,094,472 during FY22 but has not incurred or spent this additional allotment. The total amount of \$2,094,472 is reported as Unearned revenue - ARPA funds in the Statement of Net Position.

#### **Note 22 – Restatement of Prior Period Financial Statements**

- 1. Along with the implementation of GASB No. 87, *Leases*, the June 30, 2021 balances of capital assets and lease liabilities have been restated for the discretely presented component unit school board. The net effect of this restatement did not affect the net position of the school board. The primary government did not have any leases that required prior period adjustment at June 30, 2021. The discretely presented component unit public service authority also was restated as of June 30, 2021. Net position decreased by \$15,021 due to changes in debt and fixed asset balances unrelated to the implementation of GASB 87, *Leases*.
- 2. With the implementation of GASB No. 84, Schools' Student Activity Funds, the June 30, 2021, beginning fund balance of the discretely presented component unit school board was increased by \$593,674 which was the beginning balance of the School Activity Funds which are now reported as part of the School Board's governmental funds activity.

Notes to Schedule:

- 1) \* Denotes major program.
- 2) Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of Scott County, Virginia under programs of the federal government for the year ended June 30, 2022. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the Scott County, it is not intended to and does not present the financial position, changes in nets position, or cash flows of the County.

- 3) Summary of Significant Accounting Policies
  - a) Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.
  - b) Pass-through entity identifying numbers are presented where available.
  - c) Nonmonetary assistance is reported in the Schedule at the fair market value of the commodities received and disbursed.
- 4) The County did not have any subrecipients for the year ended June 30, 2022.
- 5) Loan proceeds

## **Section I - Summary of Auditor Results**

#### **Financial Statements**

Type of auditor's opinion issued:

Unmodified

Internal control over financial reporting:

Material weakness(es) identified?

Significant deficiencies in internal control were disclosed by the audit of the financial statements:

audit of the financial statements:

None Reported

Noncompliance material to financial statements noted? No

#### **Federal Awards**

Internal control over major programs:

Material weakness(es) identified?

Significant deficiencies in internal control were disclosed by the audit of the financial statements:

Unmodified

Type of auditor's opinion issued on compliance for major programs:

Any findings disclosed that are required to be reported in accordance with 2 CFR§200.516(a)?

No

Major programs identified:	<b>AL</b> #
National School Lunch Program	10.555
Coronaviris Relief Fund	21.019
COVID-19 State and Local Fiscal Recovery	21.027
Head Start	93.600
Educational Deprived Children's - LEA	84.010
Handicapped State Grants	84.027

Dollar threshold used to distinguish between Type A and Type B \$ 750,000

Auditee qualified as low risk under 2 CFR§200.520? Yes

## **Section II - Financial Statement Findings**

None Reported

## **Section III - Federal Awards Findings and Questioned Costs**

None Reported

# **Prior Year Findings**

## 2021-001

Criteria: Identification of the failure to have an annual audit of the activity funds of the

Scott County Public Schools, as required by State statute, that was not detected by the entity's internal controls indicates that a material weakeness

xists.

Condition: The financial statements do not include the financial statements of the School

Activity Fund as required by generally accepted accounting principles

(GAAP).

Cause of Condition: The County does not have proper controls in place to detect and correct

errors or ommissions in the financial statements.

Effect of Condition: There is a reasonable possibility that an ommission of required financial

information that is more than inconsequential will not be prevented or detected by the County's internal control over financial reporting.

Recommendation: The County should develop a plan to ensure that Discretely Presented

Component Units are presented for audit annually and the component unit's financial statements be included in the County's comprehensive financial

report.

Management's Respone: The County Administrator and School Superintendent will ensure that the

Discretely Presented Component Units of Scott County will be audited and

included in the County's annual financial report.

Action Taken: The issue was corrected in the currect fiscal year.
