#### INDEPENDENT AUDITORS' REPORT

# TO THE HONORABLE MEMBERS OF THE BOARD OF SUPERVISORS COUNTY OF HIGHLAND, VIRGINIA

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund and the aggregate remaining fund information of the County of Highland, Virginia, as of and for the year ended June 30, 2012, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County of Highland, Virginia's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the County of Highland, Virginia, as of June 30, 2012, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 21, 2012 on our consideration of the County of Highland, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and schedule of pension funding progress be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the management's discussion and analysis and schedule of funding progress in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the management's discussion and analysis and schedule of funding progress because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The budgetary comparison information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County of Highland, Virginia's financial statements as a whole. The other supplementary information, supporting schedules, and statistical information, are presented for purposes of additional analysis and are not a required part of the financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is also not a required part of the financial statements. The other supplementary information, supporting schedules, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The statistical information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and accordingly, we do not express an opinion or provide any assurance on it.

Staunton, Virginia December 21, 2012

Robinson, Farmer, Cax Associates

#### **Management's Discussion and Analysis**

The following is a narrative overview and analysis of the financial activities of the County of Highland, Virginia for the fiscal year ended June 30, 2012.

#### **Financial Highlights**

#### Government-wide Financial Statements

The assets of the County of Highland, Virginia exceeded its liabilities at the close of the most recent fiscal year by \$8,130,844 (net assets). Of this amount, \$5,839,238 is unrestricted, or may be used to meet the government's ongoing obligations to creditors and citizens. The School Board's net assets were \$2,711,308 of which \$(22,690) is unrestricted. (See Exhibit 1.)

The Government's net assets increased by \$573,600 while the School Board's net assets decreased by \$(20,474). (See Exhibit 2.)

#### **Fund Financial Statements**

At the end of the current fiscal year, the unassigned fund balance for the general fund was \$3,757,856, or 83.2 percent of the total general fund expenditures. (See Exhibit 3.) This amount includes taxes and accounts receivable reflected in the fiscal year 2012 budget as well as funds allocated to the School Board (fund balance re-appropriated) and County Capital Improvement Projects for fiscal year 2012.

As of the close of the current fiscal year, the County's governmental funds reported combined ending fund balances of \$5,205,730, a decrease of \$(95,713) in comparison with the prior year. (See Exhibit 3.)

#### **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements. These statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Local government accounting and financial reporting originally focused on funds, which were designed to enhance and demonstrate fiscal accountability. Now to be accompanied by government-wide financial statements, the objective of operational accountability will also be met. These objectives will provide financial statement users with both justifications from the government that public monies have been used to comply with public decisions and as to whether operating objectives have been met efficiently and effectively and can continue to be met in the future.

#### Government-wide Financial Statements

Government-wide financial statements provide financial statement users with a general overview of County finances. The statements include all assets and liabilities using the accrual basis of accounting. All current year revenue and expenses are taken into account regardless of when cash is received or paid. Both the financial overview and accrual accounting factors are used in the reporting of a private-sector business. Two financial statements are used to present this information: 1) the statement of net assets and 2) the statement of activities.

The statement of net assets presents all of the County's permanent accounts, or assets, liabilities and net assets. The difference between assets and liabilities is reported as net assets. Increases or decreases in net assets may serve as a useful indicator of whether the financial position of the County is improving or deteriorating. Other non-financial factors will also need to be considered to determine the overall financial position of the County.

The statement of activities presents information showing how the government's net assets changed during the fiscal year. The statement is focused on the gross and net cost of various government functions, which are supported by general tax and other revenue. The statement of activities presents expenses before revenues, emphasizing that in government, revenues are generated for the express purpose of providing services rather than as an end in themselves.

Both government-wide financial statements separate governmental activities and business-type activities of the County. Governmental activities are principally supported by taxes and intergovernmental revenues. They include general government administration; judicial administration; public safety; public works; health and welfare; parks, recreation and cultural; and community development. Business-type activities recover all or a significant portion of their costs through user fees and charges. The County currently reports the McDowell Water System, Highland County Refuse Disposal and Recreation Commission as business-type activities.

The government-wide financial statements include, in addition to the primary government or County, two component units: 1) the Highland County School Board, and 2) the McDowell Water System. Although the component units are legally separate entities, the County is accountable or financially accountable for them. A primary government is accountable for an organization if the primary government appoints a majority of the organization's governing body. A primary government is financially accountable if, in addition, either the government is able to impose its will on the organization or the organization is capable of imposing specific financial burdens on the primary government. For example, the primary government may approve debt issuances, rate structures and/or provide significant funding for operations of the component unit.

#### **Fund Financial Statements**

The fund financial statements will be more familiar to past financial statement users. The only difference from prior year presentation of the fund statements is that only major, or significant, funds will be presented. A fund is a group of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Fund accounting is used to ensure and demonstrate compliance with finance-related legal requirements. The County's funds can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

#### Governmental funds

Governmental funds are used to account for essentially the same functions, or services, reported as governmental activities in the government-wide financial statements. Whereas the government-wide financial statements are prepared on the accrual basis of accounting, the governmental fund financial statements are prepared on the modified accrual basis of accounting. The focus of modified accrual reporting is on near-term inflows and outflows of financial resources and the balance of financial resources available at the end of the fiscal year. Since the governmental funds focus is narrower than that of the government-wide financial statements, a reconciliation between the two methods is provided on the exhibits following the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances.

#### Proprietary funds

There are two types of proprietary funds: enterprise funds which are established to account for the delivery of goods and services to the general public and internal service funds which account for the delivery of goods and services to other departments or agencies of the government. Proprietary funds use accrual basis accounting, similar to private sector business.

The McDowell Water System is a blended component unit of the County of Highland. This Fund and the Highland County Refuse Disposal Fund, a major fund of the County, meet proprietary fund classification criteria. The water system and refuse disposal financial statements are shown as enterprise funds in the County's fund financial statements. The water system provides a centralized source for the provision of water services to residents of the Village of McDowell and the refuse disposal provides a centralized source for the provision of refuse disposal for County residents and landowners.

The Highland County Recreation Commission is also a component unit of the County of Highland. The Recreation Commission provides for recreation activities of the County.

#### Internal service funds

The County of Highland has no internal service funds.

#### Fiduciary funds

Fiduciary funds account for assets held by the government as a trustee or agent for another organization or individual. The County is responsible for ensuring that the assets reported in these funds are used for their intended purposes. Fiduciary funds are not reflected in the government-wide financial statements because the funds are not available to support the County's own activities. A separate Statement of Fiduciary Net Assets and Combining Statements are provided in the report.

#### Notes to the financial statements

The notes provide additional information that is needed to fully understand the data provided in the government-wide and fund financial statements.

#### **Government-wide Financial Analysis**

As previously noted, net assets may serve as a useful indicator of a government's financial position. For the County of Highland, assets exceeded liabilities by \$8,130,844 at the end of the fiscal year.

The County's net assets are divided into two categories: 1) invested in capital assets, net of related debt; and 2) unrestricted.

| assets, net of related debt    | \$ | 1,667,119               | \$ | 1,043,630 | \$<br>624,487            | \$ | 620,438   | \$ | 2,291,606  | \$ | 1,664,068 |
| Unrestricted                   |    | 5,134,132               |    | 5,235,055 | 705,106                  |    | 658,121   |    | 5,839,238  |    | 5,893,176 |
| Total net assets               | \$ | 6,801,251               | \$ | 6,278,685 | \$<br>1,329,593          | \$ | 1,278,559 | \$ | 8,130,844  | \$ | 7,557,244 |

For the County, investment in capital assets (i.e., land, buildings, machinery, and equipment), net of related debt used to acquire those assets that is still outstanding, represents 24.5 percent of total net assets. The County uses these capital assets to provide services to citizens; therefore, the assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The remaining balance of unrestricted net assets, which is \$5,134,132 or 75.49 percent of total net assets, may be used to meet the government's ongoing obligations to citizens and creditors.

At the end of the fiscal year, the County is able to report a positive balance in both categories of net assets.

During the current fiscal year, the government's net assets increased by \$573,600.

#### **Governmental Activities**

Governmental activities increased the County's net assets by \$522,566.

#### Financial Analysis of the Government's Funds

As earlier mentioned, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

#### Governmental funds

The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of financial resources. Such information is useful in assessing the County's financing requirements. Unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of the fiscal year, the County's governmental funds reported combined ending fund balances of \$5,205,730.

The general fund is the chief operating fund of the County. As of June 30, 2012, total fund balance of the general fund was \$4,404,182, of which \$3,757,856 was unassigned. As a measure of the general fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved fund balance represents 85 percent and total fund balance represents 97 percent of total general fund expenditures, which includes contributions to the School Board component unit of \$1,823,472.

The fund balance of the County's general fund decreased by \$(144,250) during the current fiscal year.

#### Proprietary funds

The County's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net assets of the McDowell Water System, Highland County Refuse Disposal and Highland County Recreation Commission at the end of the year were \$705,106. Other factors concerning the finances of these funds were discussed in the County's business-type activities section of this letter.

#### **General Fund Budgetary Highlights**

Differences between the original budgeted appropriations and the final amended budget appropriations were a \$622,176 increase, which is 14.6 percent of the total original budget. Differences between the original budgeted revenues and the final amended budget revenues were \$73,924, which is 1.7 percent of the total original budget.

#### **Capital Asset and Debt Administration**

#### Capital assets

The County's investment in capital assets for its governmental activities as of June 30, 2012 is \$2,199,155 (net of accumulated depreciation). This investment in capital assets includes land, buildings and system, and machinery and equipment.

# County of Highland, Virginia Capital Assets for Governmental Activities (net of depreciation)

Legislation enacted in fiscal year ended June 30, 2002 requires that debt historically reported by the School Board be assumed by the Primary Government. The legislation affects the reporting of local school capital assets as well.

Additional information on the County's long-term debt can be found in the notes to the financial statements.

#### **Economic Factors and Next Year's Budgets and Rates**

- The unemployment rate for the County is currently 6.1 percent, which is an increase from the rate of 5.9 percent a year ago. This compares favorably to the state's average unemployment rate of 6.0 percent and the national average rate of 8.4 percent.
- Earnings on investments, in general, continue to remain low.
- It is expected that funding from the Commonwealth of Virginia will be further decreased for constitutional officers, ABC profits, and wine taxes, care of prisoners, library aid and education.

All of these factors were considered in preparing the County's budget for the 2013 fiscal year.

During fiscal year 2012, unreserved fund balance in the general fund decreased \$193,779. Appropriations for County funds lapse at fiscal year end, with the exception of the Capital Projects Fund.

#### **Requests for Information**

This financial report is designed to provide readers with a general overview of the County of Highland's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Highland County Board of Supervisors, P. O. Box 130, Monterey, Virginia 24465.

Reconciliation of the Balance Sheet of Governmental Funds To the Statement of Net Assets June 30, 2012

Amounts reported for governmental activities in the statement of net assets are different because:

Total fund balances per Exhibit 3 - Balance Sheet - Governmental Funds

5,205,730

\$

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.

2,199,155

Other long-term assets are not available to pay for current-period expenditures and, therefore, are deferred in the funds.

135,840

Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in the funds.

(739,474)

Net assets of governmental activities

\$ 6,801,251

## County of Highland, Virginia

Reconciliation of Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds To the Statement of Activities For the Year Ended June 30, 2012

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds

\$ (95,713)

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which the capital outlays exceeded depreciation in the current period.

483,429

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

4,931

The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.

139,456

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds.

(9,537)

Change in net assets of governmental activities

522,566

## Notes to Financial Statements As of June 30, 2012

## Note 1—Summary of Significant Accounting Policies:

The financial statements of the County conform to generally accepted accounting principles (GAAP) applicable to governmental units promulgated by the Governmental Accounting Standards Board (GASB). The following is a summary of the more significant policies:

#### A. Reporting Entity

The County of Highland, Virginia (government) is a municipal corporation governed by an elected three-member Board of Supervisors. The accompanying financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the government's operations. Each discretely presented component unit is reported in a separate column in the government-wide financial statements (see note below for description) to emphasize that it is legally separate from the government.

**Blended component units -** The McDowell Water System has been determined to be a component unit of Highland County in accordance with Governmental Accounting Standards Board Statement 14. The System is a legally separate organization whose Board members are appointed by the Highland County Board of Supervisors. During the year ended June 30, 2012 all members of the Board of Supervisors were also members of the three-member System Board. Since the Board of Supervisors is able to impose its will on the System, the System is a component unit of Highland County.

The Highland County Recreation Commission is included as a component unit because the Commission's primary use of funds is to provide for recreation activities of the County, thereby benefiting the County even though it does not provide services directly to the County. The Recreation Commission does not issue separate financial statements.

**Discretely Presented Component Unit** - The component unit columns in the financial statements include the financial data of the County's discretely presented component units. They are reported in separate columns to emphasize that they are legally separate from the County.

The Highland County School Board operates the elementary and secondary public schools in the County. School Board members are popularly elected. The School Board is fiscally dependent upon the County because the County approves all debt issuances of the School Board and provides significant funding to operate the public schools since the School Board does not have separate taxing powers. The School Board does not issue separate financial statements.

The County Board of Supervisors appoints the governing body of the School Board.

**Related Organizations** - The County's officials are also responsible for appointing the members of the boards of other organizations, but the County's accountability for these organizations does not extend beyond making the appointment. The Board of Supervisors appoints the board members of the Highland County Industrial Development Authority.

#### B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

## B. Government-wide and fund financial statements (continued)

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

## C. Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the *economic resources measurement* focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Accordingly, real and personal property taxes are recorded as revenues and receivables when billed, net of allowances for uncollectible amounts. Property taxes not collected within 60 days after year-end are reflected as deferred revenues. Sales and utility taxes, which are collected by the state or utilities and subsequently remitted to the County, are recognized as revenues and receivables upon collection by the state or utility, which is generally in the month preceding receipt by the County.

Licenses, permits, fines and rents are recorded as revenues when received. Intergovernmental revenues, consisting primarily of federal, state and other grants for the purpose of funding specific expenditures, are recognized when earned or at the time of the specific expenditure. Revenues from general purpose grants are recognized in the period to which the grant applies. All other revenue items are considered to be measurable and available only when cash is received by the government.

## C. Measurement focus, basis of accounting, and financial statement presentation (continued)

The government reports the following major governmental funds:

The *general fund* is the government's primary operating fund. It accounts for and reports all financial resources of the general government, except those required to be accounted for in another fund. The general fund includes the activities of the gypsy moth, damage stamp, various grants, county reserve, CATS, fire prevention, law library, courthouse maintenance, and recordation equipment funds.

The *special revenue funds* account for and report the proceeds of specific revenue sources (other than major capital projects) that are legally restricted to expenditures for specified purposes. Special revenue funds consist of the Virginia Public Assistance and E-911 funds.

The *capital projects funds* account for and report financial resources to be used for the acquisition or construction of major capital facilities, other than those financed by proprietary funds. Capital projects funds consist of the County Capital Improvements Fund and the School Capital Projects Fund.

The *special revenue fund* accounts for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted to expenditures for specified purposes. Nonmajor special revenue funds consist of the Sheriff's grants fund.

The government reports the following major proprietary funds:

The *McDowell Water System Fund* accounts for the activities of the McDowell Water System, a blended component unit of the government. The System operates the water distribution system for the village of McDowell.

The Refuse Disposal Fund accounts for the activities of the County's refuse transfer station.

The *Recreation Commission* is a blended component unit that accounts for the activities of the County's recreation activities.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the *option* of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are other charges between the government's water function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

### C. Measurement focus, basis of accounting, and financial statements presentation (continued)

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Water System and Refuse Disposal enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expense, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed. When fund balance resources are available for a specific purpose in more than one classification, it is the County's policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed.

## D. Assets, liabilities, and net assets or equity

#### 1. Cash and cash equivalents

The government's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments for the government, as well as for its component units, are reported at fair value.

#### 2. Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or advances to/from other funds (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as due to/from other funds. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as internal balances.

Advances between funds, as reported in the fund financial statements, are offset by nonspendable fund balance in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

#### 3. Property Taxes

Property is assessed at its value on January 1. Property taxes attach as an enforceable lien on property as of January 1. Real estate taxes are payable in two installments on June 5<sup>th</sup> and December 5<sup>th</sup>. Personal property taxes are due and collectible annually on December 5th. The County bills and collects its own property taxes.

#### D. Assets, liabilities, and net assets or equity (continued)

#### 4. Allowance for Uncollectible Accounts

The County calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance amounted to approximately \$7,489, at June 30, 2012 and is comprised solely of property taxes. This allowance represents 0.044% of the total levies for the previous six years.

#### 5. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

#### 6. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. No interest was capitalized during the current or previous year.

Property, plant, and equipment of the primary government, as well as the component units, is depreciated using the straight line method over the following estimated useful lives:

| <u>Assets</u>           | <u>Years</u> |
|-------------------------|--------------|
| Buildings               | 50           |
| Buildings improvements  | 50           |
| Other improvements      | 15           |
| Machinery and equipment | 5-10         |
| Furniture and vehicles  | 5-10         |
| Utility plant           | 50           |

#### D. Assets, liabilities, and net assets or equity (continued)

#### 7. Compensated Absences

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported as liabilities in the Statement of Net Assets. In accordance with the provisions of Government Accounting Standards No. 16, <a href="Accounting for Compensated Absences">Accounting for Compensated Absences</a>, no liability is recorded for nonvesting accumulating rights to receive sick pay benefits. However, a liability is recognized for that portion of accumulating sick leave benefits that it is estimated will be taken as "terminal leave" prior to retirement. The County accrues salary-related payments associated with the payment of compensated absences.

#### 8. Long-term obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

#### 9. Fund equity

Beginning with fiscal year 2011, the County implemented GASB Statement 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. This Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balance more transparent. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- Nonspendable fund balance amounts that are not in spendable form (such as inventory and prepaids) or are required to be maintained intact (corpus of a permanent fund);
- Restricted fund balance amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation;
- Committed fund balance amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint;

Notes to Financial Statements June 30, 2012 (Continued)

## Note 1—Summary of Significant Accounting Policies: (continued)

## D. Assets, liabilities, and net assets or equity (continued)

## 9. Fund equity (continued)

- Assigned fund balance amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority;
- Unassigned fund balance amounts that are available for any purpose; positive amounts are only reported in the general fund.

When fund balance resources are available for a specific purpose in more than one classification, it is the County's policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed.

The County establishes (and modifies or rescinds) fund balance commitments by passage of an ordinance. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives). Assigned fund balance is established by the Board of Supervisors through adoption or amendment of the budget as intended for specific purpose (such as the purchase of capital assets, construction, debt service, or for other purposes).

In the general fund, the County strives to maintain an unassigned fund balance to be used for unanticipated emergencies of approximately 20% of the actual GAAP basis expenditures and other financing sources and uses.

#### 10. Net Assets

Net assets are the difference between assets and liabilities. Net assets invested in capital assets represent capital assets, less accumulated depreciation less any outstanding debt related to the acquisition, construction or improvement of those assets.

#### Note 2—Reconciliation of Government-Wide and Fund Financial Statements:

## A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets

The governmental fund balance sheet includes a reconciliation between *fund balance-total* governmental funds and net assets-governmental activities as reported in the government-wide statement of net assets. One element of that reconciliation explains that long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds. The details of these (\$739,474) and (\$36,526) differences for the primary government and discretely presented component unit, respectively, are as follows:

|  | _    | Primary<br>Government | Component<br>Unity<br>School Board |
|--|------|-----------------------|------------------------------------|
| Bonds payable  | \$   | (532,036) \$          | -                                  |
| Landfill accrued post-closure monitoring costs         |      | (51,560)              | -                                  |
| Accrued interest payable                               |      | (14,716)              | -                                  |
| Compensated absences                                   |      | (141,162)             | (36,526)                           |
| Net adjustment to reduce fund balance-total government | ntal |                       |                                    |
| funds to arrive at net assets-governmental activities  | \$_  | (739,474) \$          | (36,526)                           |

## B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net changes in fund balances-total governmental funds* and *changes in net assets of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains that governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. The details of these \$483,429, and \$(14,708), differences for the primary government and discretely presented component unit, respectively, are as follows:

|  |     | Primary    |    | Component<br>Unit |
|--|-----|------------|----|-------------------|
|  | _   | Government | _  | School Board      |
| Capital outlay   | \$  | 703,740    | \$ | 21,395            |
| Depreciation expense   |     | (112,735)  |    | (143,679)         |
| Allocation of debt financed school assets based on current   | t   |            |    |                   |
| year repayments  | _   | (107,576)  | _  | 107,576           |
| Net adjustment to increase (decrease) net changes in fund<br>balances-total governmental funds to arrive at changes in |     |            | _  |                   |
| net assets of governmental activities  | \$_ | 483,429    | \$ | (14,708)          |

## Note 2—Reconciliation of Government-Wide and Fund Financial Statements: (continued)

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities (continued)

Another element of that reconciliation states that the issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. The details of this \$139,456 difference in the primary government are as follows:

|  |     | Primary    |
|--|-----|------------|
|  | _   | Government |
| Increase in accrued landfill closure and post-closure monitoring costs | \$  | (604)      |
| Principal repayments:  |     |            |
| General obligation debt  |     | 140,060    |
| Net adjustment to increase net changes in fund balances-tota           | Ι - |            |
| governmental funds to arrive at changes in net assets of governmenta   | I   |            |
| activities   | \$_ | 139,456    |

Another element of that reconciliation states that some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. The details of this (\$9,537) and (\$3,967) differences for the primary government and discretely presented component unit, respectively, are as follows:

|  |     | Primary<br>Government | Component<br>Unit<br>School Board |
|--|-----|-----------------------|-----------------------------------|
| Compensated absences   | \$  | (13,462) \$           | (3,967)                           |
| Accrued interest   | _   | 3,925                 | -                                 |
| Net adjustment to increase (decrease) net changes in fund balances-total governmental funds to arrive at |     |                       |                                   |
| changes in net assets of governmental activities   | \$_ | (9,537) \$            | (3,967)                           |

## Note 3—Stewardship, Compliance, and Accountability:

## A. Budgetary Information

The following procedures are used by the County in establishing the budgetary data reflected in the financial statements:

- Prior to March 30, the County Treasurer and County Administrator submit to the Board of Supervisors a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them.
- 2. Public hearings are conducted to obtain citizen comments.
- 3. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution.
- 4. The Appropriations Resolution places legal restrictions on expenditures at the department or category level. The appropriation for each department or category can be revised only by the Board of Supervisors. The School Board is authorized to transfer budgeted amounts within the school system's categories.
- 5. Formal budgetary integration is employed as a management control device during the year for the General Fund, Special Revenue Funds (except the School Fund), and the County Capital Improvements Fund. The School Fund and School Capital Projects Fund are integrated only at the level of legal adoption.
- 6. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
- 7. Appropriations lapse on June 30, for all County units. The County's practice is to appropriate Capital Projects by project. Several supplemental appropriations were necessary during this fiscal year.
- 8. All budgetary data presented in the accompanying financial statements is the revised budget as of June 30.

#### B. Excess of expenditures over appropriations at June 30, 2012:

|                                  |                  |    | Excess of      |
|----------------------------------|------------------|----|----------------|
|                                  |                  |    | Expenditures   |
|                                  |                  |    | over           |
| Fund                             | Function         |    | Appropriations |
| General                          | Public works     | \$ | 25,036         |
| County capital improvements fund | Capital projects | _  | 39,200         |
| Total All Funds                  |                  | \$ | 64,236         |

Notes to Financial Statements June 30, 2012 (Continued)

#### Note 4—Deposits and Investments:

#### **Deposits**

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act") Section 2.2.-4400 et. seq. of the Code of Virginia. Under the Act banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial Institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

#### Investments

Statutes authorize the County to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, prime quality commercial paper and certain corporate notes, banker's acceptances, repurchase agreements and the State Treasurer's Local Government Investment Pool (LGIP).

#### Credit Risk of Debt Securities

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The County's investing activities are managed under the custody of the Treasurer. The County has not adopted a policy regarding credit risk of debt securities.

The County's rated debt investments as of June 30, 2012 were rated by Moody's and/or an equivalent national rating organization and the ratings are presented below using the Moody's rating scale.

| County's Rated Debt Investments' Values |    |                     |  |  |  |  |  |
|---|----|---------------------|--|--|--|--|--|
| Rated Debt Investments                  |    | Fair Quality Rating |  |  |  |  |  |
|   |    | AAA                 |  |  |  |  |  |
| Local Government Investment Pool        | \$ | 41                  |  |  |  |  |  |
| Total                                   | \$ | 41                  |  |  |  |  |  |

#### **External Investment Pool**

The fair value of the positions in the Local Government Investment Pool (LGIP) is the same as the value of the pool shares. As this pool is not SEC registered, regulatory oversight of the pool rests with the Virginia State Treasury. LGIP maintains a policy to operate in a manner consistent with SEC Rule 2a-7.

The purpose of the interfund obligations is to report the balance of local appropriations unspent at year-end due back to the respective funds.

Notes to Financial Statements June 30, 2012 (Continued)

## Note 7—Interfund Transfers:

Interfund transfers for the year ended June 30, 2012 consisted of the following:

| Fund                             | <br>Transfers In | _   | Transfers Out |  |  |  |
|----------------------------------|------------------|-----|---------------|--|--|--|
| Primary Government:              |                  |     |               |  |  |  |
| General Fund                     | \$<br>408,812    | \$  | 726,772       |  |  |  |
| Virginia Public Assistance Fund  | 47,798           |     | 30,469        |  |  |  |
| Refuse Disposal Fund             | -                |     | 28,183        |  |  |  |
| McDowell Water System            | 32,777           |     | 29,444        |  |  |  |
| County Capital Improvements Fund | 120,000          |     | -             |  |  |  |
| School Capital Projects Fund     | 376,451          |     | 176,451       |  |  |  |
| Sheriff's grants                 | <br>5,481        |     | -             |  |  |  |
| Total                            | \$<br>991,319    | \$_ | 991,319       |  |  |  |

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and (2) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgeting authorization.

## Note 8—Long-Term Obligations:

### **Primary Government-Governmental Activity Indebtedness:**

Annual requirements to amortize long-term debt and related interest are as follows:

| Years Ending | _  | General Obligation Bonds |    |          |  |  |  |
|--------------|----|--------------------------|----|----------|--|--|--|
| June 30,     |    | Principal                |    | Interest |  |  |  |
| 2013         | \$ | 143,691                  | \$ | 27,660   |  |  |  |
| 2014         |    | 147,611                  |    | 18,638   |  |  |  |
| 2015         |    | 151,794                  |    | 9,356    |  |  |  |
| 2016         |    | 44,208                   |    | 3,492    |  |  |  |
| 2017         | _  | 44,732                   | _  | 1,168    |  |  |  |
| Total        | \$ | 532,036                  | \$ | 60,314   |  |  |  |

## Note 9—Employee Retirement System and Pension Plans:

## A. Plan Description

Name of Plan: Virginia Retirement System (VRS)

Identification of Plan: Agent and Cost-Sharing Multiple-Employer Defined Benefit Pension Plan

Administering Entity: Virginia Retirement System (System)

All full-time, salaried permanent (professional) employees of public school divisions and employees of participating employers are automatically covered by VRS upon employment. Benefits vest after five years of service credit. Members earn one month of service credit for each month they are employed and their employer is paying into the VRS. Members are eligible to purchase prior public service, active duty military service, certain periods of leave and previously refunded VRS service as credit in their plan.

VRS administers two defined benefit plans for local government employees – Plan 1 and Plan 2:

- Members hired before July 1, 2010 and who have service credits before July 1, 2010
  are covered under Plan 1. Non-hazardous duty members are eligible for an
  unreduced retirement benefit beginning at age 65 with at least five years of service
  credit or age 50 with at least 30 years of service credit. They may retire with a
  reduced benefit early at age 55 with at least five years of service credit or age 50
  with at least 10 years of service credit.
- Members hired or rehired on or after July 1, 2010 and who have no service credits before July 1, 2010 are covered under Plan 2. Non-hazardous duty members are eligible for an unreduced benefit beginning at their normal Social Security retirement age with at least five years of service credit or when the sum of their age and service equals 90. They may retire with a reduced benefit as early as age 60 with at least five years of service credit.
- Eligible hazardous duty members in Plan 1 and Plan 2 are eligible for an unreduced benefit beginning at age 60 with at least 5 years of service credit or age 50 with at least 25 years of service credit. These members include sheriffs, deputy sheriffs and hazardous duty employees of political subdivisions that have elected to provide enhanced coverage for hazardous duty service. They may retire with a reduced benefit as early as age 50 with at least five years of service credit. All other provisions of the member's plan apply.

The VRS Basic Benefit is a lifetime monthly benefit based on a retirement multiplier as a percentage of the member's average final compensation multiplied by the member's total service credit. Under Plan 1, average final compensation is the average of the member's 36 consecutive months of highest compensation. Under Plan 2, average final compensation is the average of the member's 60 consecutive months of highest compensation. The retirement multiplier for non-hazardous duty members is 1.70 %. The retirement multiplier for sheriffs and regional jail superintendents is 1.85%. The retirement multiplier for eligible political subdivision hazardous duty employees other than sheriffs and jail superintendents is 1.70% or 1.85% as elected by the employer. At retirement, members can elect the Basic Benefit, the Survivor Option, a Partial Lump-Sum Option Payment (PLOP) or the Advance Pension Option. A retirement reduction factor is applied to the Basic Benefit amount for members electing the Survivor Option, PLOP or Advance Pension Option or those retiring with a reduced benefit.

## Note 9—Employee Retirement System and Pension Plans: (continued)

## A. Plan Description (continued)

Retirees are eligible for an annual cost-of-living adjustment (COLA) effective July 1 of the second calendar year of retirement. Under Plan 1, the COLA cannot exceed 5.00%; under Plan 2, the COLA cannot exceed 6.00%. During years of no inflation or deflation, the COLA is 0.00%. The VRS also provides death and disability benefits. Title 51.1 of the Code of Virginia (1950), as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

The system issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for VRS. A copy of the most recent report may be obtained from the VRS Web site at http://www.varetire.org/Pdf/Publications/2011-annual-report.pdf or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

## B. Funding Policy

Plan members are required by Title 51.1 of the <u>Code of Virginia</u> (1950), as amended, to contribute 5.00% of their compensation toward their retirement. All or part of the 5.00% member contribution may be assumed by the employer. In addition, the County and School Board are required to contribute the remaining amounts necessary to fund their participation in the VRS using the actuarial basis specified by the <u>Code of Virginia</u> and approved by the VRS Board of Trustees. The County's and School Board's contribution rate for the fiscal year ended 2012 were 12.69% and 11.57%, respectively, of annual covered payroll.

The School Board's contributions for professional employees were \$114,033, \$71,313, and \$114,382, to the teacher cost-sharing pool for the fiscal years ended June 30, 2012, 2011 and 2010, respectively and these contributions represented 6.33%, 3.93%, and 8.81% respectively, of current covered payroll.

## C. Annual Pension Cost

For fiscal year 2012, the County's annual pension cost of \$135,000 was equal to the County's required and actual contributions.

For fiscal year 2012, the County School Board's annual pension cost for the board's non-professional employees was \$23,156 which was equal to the Board's required and actual contributions.

| June 30, 2011                 |    | 135,217           | 100%              | -              |
| June 30, 2010                 |    | 94,946            | 100%              | -              |
| School Board Non Professional |    |                   |                   |                |
| June 30, 2012                 | \$ | 23,156            | 100%              | \$<br>-        |
| June 30, 2011                 |    | 21,794            | 100%              | -              |
| June 30, 2010                 |    | 29,957            | 100%              | -              |

The FY 2012 required contribution was determined as part of the June 30, 2009 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions at June 30, 2009 included (a) an investment rate of return (net of administrative expenses) of 7.50%, (b) projected salary increases ranging from 3.75% to 5.60% per year for general government employees and 3.50% to 4.75% for employees eligible for enhanced benefits available to law enforcement officers, firefighters, and sheriffs, and (c) a cost-of-living adjustment of 2.50% per year. Both the investment rate of return and projected salary increases include an inflation component of 2.50%. The actuarial value of the County's and the County School Board's assets is equal to the modified market value of assets. This method uses techniques that smooth the effects of short-term volatility in the market value of assets over a five-year period. The County's and the School Board's unfunded actuarial accrued liability is being amortized as a level percentage of projected payrolls on an open basis. The remaining amortization period at June 30, 2009 for the Unfunded actuarial Accrued Liability (UAAL) was 20 years.

#### D. Funded Status and Funding Progress:

As of June 30, 2011, the most recent actuarial valuation date, the County's plan was 75.53% funded. The actuarial accrued liability for benefits was \$5,745,353, and the actuarial value of assets was \$4,339,239, resulting in an unfunded actuarial accrued liability (UAAL) of \$1,406,114. The covered payroll (annual payroll of active employees covered by the plan) was \$1,076,445, and ratio of the UAAL to the covered payroll was 130.63%.

As of June 30, 2011, the most recent actuarial valuation date, the County School Board's plan was 63.09% funded. The actuarial accrued liability for benefits was \$1,063,890, and the actuarial value of assets was \$671,249, resulting in an unfunded actuarial accrued liability (UAAL) of \$392,641. The covered payroll (annual payroll of active employees covered by the plan) was \$187,621, and ratio of the UAAL to the covered payroll was 209.27%.

The schedule of funding progress, presented as Required Supplementary Information following the note to the financial statements presents multiyear trend information about whether the actuarial value of the plan assets is increasing or decreasing over time relative to the actuarial accrued liability (AAL) for benefits.

Notes to Financial Statements June 30, 2012 (Continued)

#### Note 10—VRS Health Insurance Credit – Other Post-Employment Benefits:

#### A. Plan Description

The School board participates in the Health Insurance Credit Program, a plan designed to assist retirees with the cost of health insurance coverage. This program is a cost sharing multiple-employer defined plan administered by the Virginia Retirement System (VRS). The Virginia General Assembly establishes the dollar amount of the health insurance credit for each year of creditable service. The credit amount and eligibility differs for state, school division, political subdivision, local officer, local social services department and general registrar retirees.

A teacher, who retires under VRS with at least 15 years of total creditable service under the System and is enrolled in a health insurance plan, is eligible to receive a monthly health insurance credit of \$4 per year of creditable service. However, such credit shall not exceed the health insurance premium for the retiree. Disabled retirees automatically receive a monthly health insurance credit of \$4 multiplied by the smaller of (i) twice the amount of their creditable service of (ii) the amount of creditable service they would have completed at age 60 if they had remained in service to that age.

Benefit provisions and eligibility requirements are established by Title 51.1, Chapter 14 of the <u>Code of Virginia</u>. The VRS actuarially determines the amount necessary to fund all credits provided, reflects the cost of such credits in the applicable employer contribution rate pursuant to §51.1-145, and prescribes such terms and conditions as are necessary to carry out the provisions of the health insurance credit program. VRs issues separate financial statements as previously discussed in Note 9.

#### B. Funding Policy

The School Board is required to contribute, at an actuarially determined rate, the entire amount necessary to fund participation in the program. The current rate is .60% of annual covered payroll. The School Board's contributions to VRS for the years ended June 30, 2012, 2011 and 2010 were \$10,809, \$10,878, and \$0, respectively and equaled the required contributions for each year.

#### **Note 11—Contingent Liabilities:**

Federal programs in which the County and its component units participate were audited in accordance with the provisions of U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations*. Pursuant to the provisions of this circular, all major programs and certain other programs were tested for compliance with applicable grant requirements. While no matters of noncompliance were disclosed by audit, the Federal government may subject grant programs to additional compliance tests which may result in disallowed expenditures. In the opinion of management, any future disallowances of current grant program expenditures, if any, would be immaterial.

## Note 12—Unearned/Deferred Revenue:

The following is a summary of deferred revenue for the year ended June 30, 2012:

|  | _   | Government-<br>wide<br>Statements<br>Governmental<br>Activities | -  | Balance<br>Sheet<br>Governmental<br>Funds |

Depreciation expense was charged to education in the amount of \$176,164.

1) Legislation enacted during the year ended June 30, 2002, Section 15.2-1800.1 of the Code of Virginia, as amended, changed the reporting of local school capital assets and related debt for financial statement purposes. Historically, debt incurred by local governments "on behalf" of school boards was reported in the school board's discrete column along with the related capital assets. Under the new law, local governments have a "tenancy in common" with the school board whenever the locality incurs any financial obligation for any school property which is payable over more than one fiscal year. For financial reporting purposes, the legislation permits the locality to report the portion of school property related to any outstanding financial obligation eliminating any potential deficit from capitalizing assets financed with debt. The effect on the County of Highland, Virginia for the year ended June 30, 2012, is that school financed assets in the amount of \$532,036 are reported in the Primary Government for financial reporting purposes.

Notes to Financial Statements June 30, 2012 (Continued)

#### Note 15—Risk Management:

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County joined together with other local governments in Virginia to form the Virginia Municipal Group Self Insurance Association and the Virginia Association of Counties Group Self Insurance Risk Pool, public entity risk pools currently operating as a common risk management and insurance programs for participating local governments. The County pays an annual premium to VML for its general workers compensation insurance coverage, and VACo for general liability coverage. In the event of a loss deficit and depletion of all available excess insurance, the Association may assess all members in the proportion which the premium of each bears to the total premiums of all members in the year in which such deficit occurs.

The County continues to carry commercial insurance for all other risks of loss, including employee health and accident insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

#### Note 16—Landfill Closure and Post-Closure Monitoring Costs:

State and federal laws and regulations require the County to place a final cover on its landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for thirty years after closure approval is received from the Department of Environmental Quality. The County closed its landfill in 1993. Reported landfill post-closure care liability is \$51,560 at June 30, 2012. Actual costs may be higher due to inflation, changes in technology, or changes in regulations.

The County demonstrated financial assurance requirements for closure, post-closure care, and corrective action costs through the submission of a Local Government Financial Assurance Test to the Virginia Department of Environmental Quality in accordance with Section 9VA C20-70 of the Virginia Administrative Code.

#### Note 17—Notes Receivable:

On December 9, 2008, the County loaned \$25,000 to the Highland Volunteer Fire Department and on June 13, 2011, the County loaned \$35,000 to the McDowell Volunteer Fire Department for the purpose of purchasing new fire trucks to better serve the Highland community. The balances of these loans at June 30, 2012 were \$15,000 and \$30,000, respectively.

### Note 18—Litigation:

At June 30, 2012, there were no matters of litigation involving the County or which would materially affect the County's financial position should any court decisions on pending matters not be favorable to such entities.

## REQUIRED SUPPLEMENTARY INFORMATION

(Note: Presented budgets were prepared in accordance with accounting principles generally accepted in the United States of America.)

## STATISTICAL TABLES

| Contents  | <u>Tables</u>       |
|---|---------------------|
| Financial Trends  These tables contain trend information to help the reader understand how the County's financial performance and well-being have changed over time.  | 1 - 5               |
| Revenue Capacity  These tables contain information to help the reader assess the factors affecting the County's ability to generate its property and sales taxes.   | 6 - 10              |
| Debt Capacity  These tables present information to help the reader assess the affordability of the County's current levels of outstanding debt and the County's ability to issue debt in the future.  | 11 - 13             |
| Demographic and Economic Information  These tables offer demographic and economic indicators to help the reader understand the environment within which the County's financial activities take place and to help make comparisons over time and with other governments. | 14                  |
| Operating Information  These tables contain information about the County's operations and resources to help the reader understand how the County's financial information relate to the services the County provides and   |                     |
| the activities it performs.  Sources:  Unless otherwise noted, the information in these tables is derived   | 15-16<br>I from the |

Unless otherwise noted, the information in these tables is derived from the comprehensive annual financial reports for the relevant year. The County implemented GASB Statement 34 is fiscal year 2003; schedules presenting government-wide information include information beginning in that year.

## ROBINSON, FARMER, COX ASSOCIATES

CERTIFIED PUBLIC ACCOUNTANTS

A PROFESSIONAL LIMITED LIABILITY COMPANY

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

# TO THE HONORABLE MEMBERS OF THE BOARD OF SUPERVISORS COUNTY OF HIGHLAND, VIRGINIA

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the County of Highland, Virginia as of and for the year ended June 30, 2012, which collectively comprise the County of Highland, Virginia's basic financial statements and have issued our report thereon dated December 21, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the *Specifications for Audits of Counties, Cities, and Towns,* issued by the Auditor of Public Accounts of the Commonwealth of Virginia; and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States.

### Internal Control Over Financial Reporting:

Management of County of Highland, Virginia is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the County of Highland, Virginia's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County of Highland, Virginia's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the County of Highland, Virginia's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

#### Compliance and Other Matters:

As part of obtaining reasonable assurance about whether the County of Highland, Virginia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters involving the internal control structure and its operation that we have reported to the management of the County of Highland, Virginia in a separate letter dated December 21, 2012.

This report is intended solely for the information and use of the management, Board of supervisors, others within the entity, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

# TO THE HONORABLE MEMBERS OF THE BOARD OF SUPERVISORS COUNTY OF HIGHLAND, VIRGINIA

#### Compliance

We have audited County of Highland, Virginia's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the County of Highland, Virginia's major federal programs for the year ended June 30, 2012. County of Highland, Virginia's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the County of Highland, Virginia's management. Our responsibility is to express an opinion on the County of Highland, Virginia's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County of Highland, Virginia's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the County of Highland, Virginia's compliance with those requirements.

In our opinion, County of Highland, Virginia complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2012.

#### Internal Control Over Compliance

Management of County of Highland, Virginia is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered County of Highland, Virginia's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purposes of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of County of Highland, Virginia's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, Board of Supervisors, others within the entity, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

#### NOTE A - BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of the County of Highland, Virginia under programs of the federal government for the year ended June 30, 2012. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Because the Schedule presents only a selected portion of the operations of the County of Highland, Virginia, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the County of Highland, Virginia.

#### NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

- (1) Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in OMB Circular A-87, Cost Principles for State, Local, and Indian Tribal Governments, wherein certain types of expenditures are not allowable or are limited as to reimbursement.
- (2) Pass-through entity identifying numbers are presented where available.

#### NOTE C - FOOD DISTRIBUTION

Nonmonetary assistance is reported in the schedule at the fair market value of the commodities received and disbursed.

Federal expenditures, revenues, and capital contributions are reported in the County's basic financial statements as follows:

| Primary government:      |                 |
|--------------------------|-----------------|
| Governmental funds       | \$<br>674,724   |
| Proprietary funds        | 25,082          |
| School fund              | 495,560         |
| Total primary government | \$<br>1,195,366 |
