COUNTY OF ACCOMACK FINANCE DEPARTMENT

Post Office Box 620 Accomac, Virginia 23301 (757) 787-5714 (757) 824-5403

finance@co.accomack.va.us

February 15, 2018

To the Honorable Members of the Board of Supervisors To the Citizens of Accomack County, Virginia

We are pleased to present the Comprehensive Annual Financial Report of the County of Accomack, Virginia, (the "County"), for the fiscal year ended June 30, 2017. This report was prepared by the County's Finance Department. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the County. We believe the data, as presented, is accurate in all material respects; that it is presented in a manner designed to fairly set forth the financial position and results of operations of the County as measured by the financial activity of its various funds. We further believe that all disclosures necessary to enable the reader to gain the maximum understanding of the County's financial affairs have been included.

Generally accepted accounting principals require management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The County of Accomack's MD&A can be found immediately following the report of the independent auditors.

Report Organization. The Comprehensive Annual Financial Report is presented in four sections: introductory, financial, statistical and compliance.

Introductory	Se	ection:	The	Introd	uctory	Secti	on	includes	this	letter	of
transmittal,	а	certifica	ate o	f achi	eveme	nt fo	r e	xcellence	in	financ	ial

supplemer	ntary inforn	nation	and the in	depender	nt auditor's	report (on the
MD&A, fin	ancial state	ements	and sched	ules.			

- ☐ <u>Statistical Section</u>: The Statistical Section contains selected financial and demographic information generally presented on a multi-year basis.
- ☐ Compliance Section: The Compliance Section contains information on County programs that are financed by federal grants. This information is required by the Single Audit Act and by the Commonwealth of Virginia Auditor of Public Accounts.

The Reporting Entity. The County of Accomack's report includes all funds of the "primary government." In Virginia, cities and counties are distinct units of government; therefore, the County is responsible for providing all services normally provided by a local government. These services include public safety, social services, recreation and cultural activities and community development. For financial reporting purposes and in accordance with the Governmental Accounting Standards Board (GASB), Statement 14, "The Financial Reporting Entity," as amended by GASB No. 39, the County has identified seven discretely presented component units. This GASB statement establishes the criteria used in making this determination and identifies each as a blended component unit or discretely presented component unit. Blended component units, although legally separate entities, are, in substance, part of the primary government's operations and are included as part of the primary government. Discretely presented component units are reported in a separate column in the combined financial statements to emphasize that they are legally separate from the primary government and to differentiate their financial position and results of operations from those of this primary government. Based on GASB Statement 14, as amended by GASB No. 39, as interpreted by Virginia's Auditor of Public Accounts, the School Board is a legally separate organization providing educational services to the public whose board is appointed by a School Board Selection Committee and is fiscally dependent on the local government.

Independent Audit. The Commonwealth of Virginia requires an annual audit of the financial records and transactions of all departments of the County by independent certified public accountants selected by the Board of Supervisors. The County is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1996, as amended, and U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Government and Non-Profit Organizations*. Information related to this single audit, including the findings and recommendations, and auditors' reports on the internal control structure and compliance with laws and regulations, is contained in this report. These requirements have been compiled with the auditors' opinion and are included in this report.

Internal and Budgetary Controls: The management of the County is responsible for establishing and maintaining an internal control structure to ensure the protection of County assets. In developing and evaluating the County's accounting system, consideration is given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding: (1) the safeguarding of assets against loss from

unauthorized use or disposition; and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the evaluation of costs and benefits requires estimates and judgments by management.

All internal control evaluations occur within the above framework. We believe that the County's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

In addition to internal accounting controls, the County also maintains budgetary controls. These budgetary controls ensure compliance with provisions embodied in the annual budget adopted and appropriated by the Board of Supervisors. Activities of the general fund, special revenue funds, debt service fund, and capital project funds are included in the annual appropriated budget.

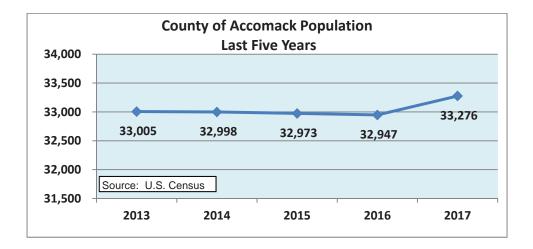

As a recipient of federal and state financial assistance, the County is also responsible for ensuring that adequate internal controls are in place to ensure and document compliance with applicable laws and regulations. The audit for the fiscal year ended June 30, 2017 has been completed and no material internal control weaknesses or material violations of laws and regulations have been found.

The County adopts an annual budget by July 1 of each year as required by Section 15.2-2503, Code of Virginia of 1950, as amended. A budget is not required for fiduciary funds.

When necessary, the Board of Supervisors approves amendments to the adopted budget in accordance with Section 15.2-2507, Code of Virginia of 1950, as amended. Budgetary compliance is monitored and reported at the department level. The budget is implemented through appropriations that the Board makes annually, with supplemental appropriations made as required. These appropriations, except those to incur mandated expenditures, may be greater or less than contemplated in the budget.

Local Economy. Accomack County is located in the northernmost portion of the Eastern Shore of Virginia, towards the southern end of the Delmarva Peninsula. The 476 square mile county is bounded on the north by the state of Maryland, on the east by the Atlantic Ocean, on the south by Northampton County, and on the west by the Chesapeake Bay. Accomack County is home to the NASA Wallops Flight Facility, a center of aeronautic research established in 1945. With its saltwater bays, marshes and numerous creeks, Accomack County is one of the few unspoiled coastal areas on the eastern seaboard.

Population: The County had a population of 33,276 as of June 30, 2017, and the county is projected to increase 1% from the current year.

Labor Force Employment: Over the past three years, there have been minor changes in average employment. Isolation along with the lack of centralized wastewater in growing and industrial areas and lack of a skilled workforce has been cited as major deterrents of economic development in the County. The County has taken steps to address two of these issues by:

- Constructing the Wallops Research Park. The Park represents a unique opportunity for significant investment and job creation from companies engaged in the aerospace and defense industry sectors looking to leverage and enhance the capabilities of Mid-Atlantic Regional Spaceport (MARS) and NASA Wallops Flight Facility.
- Providing capital campaign assistance to the Eastern Shore Community College to assist them with construction of a new state-of-the-art Academic and Administration Building.

The manufacturing sector continues to account for the majority of jobs in the County, approximately 25% in 2016. The majority of the jobs in this sector are associated with poultry processing which includes the County's top two employers, Perdue Farms, Inc. and Tyson Foods, Inc.

Calendar Year	Manuf- acturing	Accomod- ations and Food Service	Employme Retail Trade	nt by Sector Public Administ- ration	Health Care & Social Assistance	Other	Total
2016	3,228	1,360	1,338	1,281	1,628	4,805	13,640
2015	3,220	1,192	1,378	1,248	1,283	4,570	12,891
2014	3,066	1,227	1,422	1,282	1,252	4,409	12,658
2013	3,000	1,221	1,405	1,250	1,282	4,553	12,711
2012	3,076	1,241	1,343	1,230	1,180	4,577	12,647

The retail trade sector makes up the second largest category of average employment representing 11% of jobs.

Health care/social assistance and Public Administration sectors make up the next two largest sectors. The health care sector continues to grow due to the relocation of Riverside Shore Memorial Hospital from Northampton County to Accomack County in the winter of 2017. It represents one of Riverside's largest projects to date resulting in a 136,000 square foot hospital as well as a newly constructed cancer center and physician office building.

accommodations/food The services sector is significantly impacted by tourism which is a major economic engine in the County. Those that seek a more relaxed vacation far from the crowds with access to pristine beaches, wildlife and other outdoor activities are beginning discover Accomack. In fact, the Town on Chincoteague, Accomack's largest incorporated town, was named the 2nd best island in the United States by Trip Advisor in 2014.

Employment associated with The U.S. Navy Surface Combat Systems Center (SCSC), NASA Wallops Flight Facility, and NOAA Command and Data Acquisition Center, all located on Wallops Island, while not reflected in any one sector is worth noting. Average employment for these entities, together with other tenant personnel working on Wallops Island, ranks third in the County with a large concentration of these jobs classified as high-skill and high-wage. In all, over 1,700 local military, civilian and contractor jobs are tied to these entities

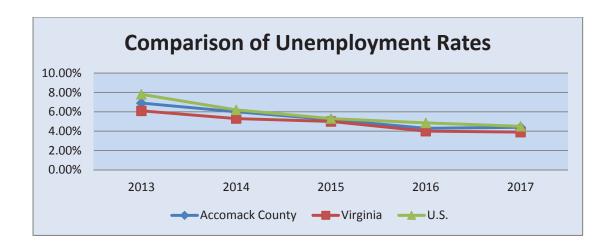

providing a variety of engineering, aerospace and naval operations services.

Future prospects for the Wallops Island area are high. This island is home to the Mid-Atlantic Regional Spaceport (MARS) whose mission is to develop and operate a multi user spaceport at the NASA Wallops Flight Facility which provides low cost, safe, reliable, "schedule friendly" space access to commercial, government, and academic users. In September 2013, Orbital Science Corporation, one of the world's leading space technology companies, successfully launched its Antares rocket carrying the company's Cygnus cargo logistics spacecraft into its intended This successful launch marked the beginning of an in-orbit orbit from MARS. capabilities mission that culminated in rendezvous and birthing with the International Space Station. More recently, in November 2017, Orbital again successfully launched its ATK Antares rocket with the Cygnus spacecraft onboard. This was Orbital ATK's eighth contracted cargo resupply mission with NASA to the International Space Station. Wallops Island's location of roughly 38 degrees north latitude makes it an ideal site to send loads into inclined orbits - between the equator and the poles - at a reduced expense.

The County is pursuing a number of initiatives designed to secure, promote and strengthen the Wallops Island region. The largest initiative is outlined in the "Major Initiatives" section of this letter.

Unemployment: Local unemployment rates remained steady from the previous calendar year at 4.4% which is slightly higher than the national rate.

Major Initiatives. Major initiatives begun, continued, or completed this fiscal year were as follows:

 Construction of the Wallops Research Park was completed in Fiscal Year 2017. The Wallops Research Park is a prime location for aerospace and aviation operations offering 200+ acres specifically for Unmanned Aircraft Systems and medium class space launch vehicles, particularly those seeking to leverage and enhance capabilities of the Mid-Atlantic

Spaceport and NASA Wallops Flight Facility. It represents а unique opportunity for significant investment and creation from companies engaged in defense and industry aerospace sectors. The WRP is adjacent to the NASA Wallops Flight Facility and offers tenants a distinctive business advantage not available

anywhere. The Wallops Flight Facility is home to unique and valuable assets that can be leveraged for federal, state and private sector development. In total, there are approximately 6200 acres within the WFF which provide three major capabilities: Research Airport; World Class Launch Range; and end-to-end engineering design, fabrication, and testing facilities. In total, the Wallops Research Park represents over \$8M in County and Commonwealth investment.

Continued development of Central Recreation Park, the County's first recreational park which is located close to the Town of Accomac. Phase 1 of the park's development is fully funded and includes recreational fields, walking trails and other multi-use areas. Phase 1 is expected to be completed by the spring of 2018 and includes walking trails, а ballfiled. concession stand playground. The Park's master plan includes additional phases which are all intended to build upon these initial improvements.

• Set aside an additional \$806,980 to the County's "Rainy Day"/Stabilization Committed Fund Balance bringing the total amount committed to \$10,836,542 or approximately 12.9% of the sum of the Primary Government's total General Fund revenue and School Board Component Unit's total School Operating Fund revenue.

Prospects for the Future. For the 2018 Fiscal Year, the Board of Supervisors adopted a Primary Government total operating and capital budget of \$60,148,743 which is an increase of 5.1% from the previous year.

The 2018 budget does not include any property tax rate increase. The County's real estate tax rate continues to be among the lowest in Virginia as compared to similar counties. Specifics about the Fiscal Year 2018 property tax rates are set forth in the *Management Discussion and Analysis* section of this report.

Significant initiatives funded for Fiscal Year 2018 include:

- Attracting and maintaining a high performing workforce. Funding
 was allocated for a two percent salary increase for all County and
 State-supported local employees. Additional funding was budgeted
 to provide additional matching funds to assist employees with the
 added cost of having their spouse and children on the County's
 health insurance plan.
- Maintaining or improving customer service or safety. Funding was appropriated for two new positions, one new position in the Sheriff Department for a School Resource Officer and the other position will be in the information Technology Department as an Application Specialist.

- Renovations and major repairs to the Circuit and General District Courts.
- Roof replacement on the Jail and Sheriff Office Building.
- Implementation of Comprehensive Law Enforcement Software for the Sheriff Department and Permit Software for the Department of Assessment.
- Continued strategic contributions to County's "Rainy Day"/Stabilization Committed Fund Balance in line with the goal of it reaching 16.7% of governmental fund revenue of the primary government and School Board component unit by Fiscal Year 2021.

Certificate of Achievement. The Government Finance Officers Association (GFOA) of the United States and Canada awarded a Certificate of Achievement for Excellence in Financial Reporting to the County of Accomack, Virginia, for its comprehensive annual financial report for the fiscal year ending June 30, 2016. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current comprehensive annual financial report continues to meet the Certificate of Achievement Program requirements, and we are submitting it to GFOA to determine its eligibility for a another certificate.

Acknowledgments. The preparation of this report could not have been accomplished without the dedicated services of the entire Finance Department, the County Administrator and the School Board Finance Department. We would also like to thank the Board of Supervisors for their interest and support in planning and conducting the financial operation of the County in a responsible and progressive manner.

Respectfully submitted,

Michael T. Mason County Administrator

Independent Auditors' Report

To the Honorable Members of the Board of Supervisors County of Accomack, Virginia Accomac, Virginia

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of County of Accomack, Virginia, as of and for the year ended Financial June 30, 2017, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Accomack-Northampton Planning District Commission which represent 3 percent, (116) percent, and 2 percent, respectively, of the assets, net position, and revenues of the discretely presented component units. Those financial statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Accomack-Northampton Planning District Commission is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns,* issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Accomack, Virginia, as of June 30, 2017, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As described in Note 25 to the financial statements, in 2017, the County adopted new accounting guidance, GASB Statement Nos. 74 Financial Reporting for Postemployment Benefit Plans Other than Pension Plans. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and schedules related to pension and OPEB funding on pages 21-31, 117-122, and 109-116 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The budgetary comparison information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County of Accomack, Virginia's basic financial statements. The introductory section, other supplementary information, and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is also not a required part of the basic financial statements.

The other supplementary information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, based on our audit, the procedures performed as described above, and the report of other auditors, the other supplementary information and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 15, 2018, on our consideration of the County of Accomack, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering County of Accomack, Virginia's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

To the Honorable Members of the Board of Supervisors To the Citizens of Accomack County County of Accomack, Virginia

As management of the County of Accomack, Virginia we offer readers of the County's financial statements this narrative overview and analysis of the financial activities of the County for the fiscal year ended June 30, 2017. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal.

Financial Highlights

- The assets and deferred outflows of resources of the County exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$38,165,199 (net position). Of this amount, \$10,511,278 (unrestricted net position) may be used to meet the government's ongoing obligations to citizens and creditors.
- The County's total net position increased by \$1,133,415 (3%). Net position of the governmental-type activities increased \$1,386,373 (4%) and net position of the business-type activities decreased \$252,958 (4%).
- The County's unrestricted nets assets decreased by \$2,323,417 (18%). Unrestricted net position of the governmental-type activities increased 862,215 (6%) and unrestricted net position of the business-type activities decreased \$3,185,632 (156%). The large change in unrestricted net position is because \$2,744,365 in cash was invested in construction of a new landfill cell (cell 6A) to allow for continued acceptance of waste at the County's North Landfill.
- Program revenues of the County's business-type activities increased by 9% to \$3,814,901 while expenses increased by 28% to \$4,471,876. Note that during construction of landfill cell 6A, it was necessary to transport all incoming waste to another landfill to be disposed which resulted in one-time additional operating costs of approximately \$300,000. Cell 6A became operational in the second half of fiscal year 2017.
- The General fund reported an ending fund balance of \$16,971,671, an increase of \$2,598,796 (18%). Of the ending fund balance, \$136,753 was nonspendable or restricted, \$10,017,457 was committed pursuant to the County's "Rainy Day"/Revenue Stabilization policy, \$4,505,194 was assigned to various projects and \$2,312,267 was unassigned.
 - o The amount of General Fund ending fund balance committed pursuant to the County's "Rainy Day"/Revenue Stabilization Policy was equal to 12.9% of total General Fund Revenue and Component Unit School Operating Revenue less contributions from the Primary Government.
 - o The amount of General Fund ending fund balance available for expenditure (Committed Fund Balance + Assigned Fund Balance + Unassigned Fund Balance) was \$16,834,918 or 47% of total general fund expenditures.
- The County's outstanding debt decreased by \$3,064,666 or 8.5% during the current fiscal year.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements comprise three components:

- 1. Government-wide financial statements,
- 2. Fund financial statements, and
- 3. Notes to the financial statements.

This report also contains other supplementary information in addition to the basic financial statements themselves.

<u>Government-wide financial statements</u> - The Government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the County's assets, liabilities, and deferred inflows/outflows of resources with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The statement of activities presents information showing how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in the statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the Government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include general government, judicial administration, police and volunteer fire protection, refuse collection, social services, education, community development and recreation. The business- type activities of the County include waste disposal, airport operation, water/wastewater services and the portion of its recreation activities financed by user fees.

The Government-wide financial statements include not only the County of Accomack, Virginia itself (known as the primary government), but also legally separate entities for which the County of Accomack, Virginia is financially accountable. Financial information for these component units is reported separately from the financial information presented for the primary government itself.

<u>Fund financial statements</u> - A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County of Accomack, Virginia, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

<u>Governmental funds</u> - Governmental funds are used to account for essentially the same functions reported as Governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balance of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the County's near-term financing decisions. Both the governmental fund balance sheet and the governmental statement of revenues, expenditures, and changes in fund balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains fourteen individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balance for the General Fund, Virginia Public Assistance Fund, Comprehensive Youth Services Fund, County Debt Service Fund and County Capital Projects Funds, all of which are considered to be major funds. Data from the remaining nine governmental funds are combined into a single aggregated presentation. Individual fund data for these nonmajor funds is provided in the "Other Supplemental Information" section of the report.

The County adopts an annually appropriated budget for its Governmental funds. A budgetary comparison statement has been provided for the general fund and major special revenue funds to demonstrate compliance with this budget. Budgetary comparison schedules for nonmajor funds are also provided in the "Other Supplemental Information" section of the report.

<u>Proprietary funds</u> - The County maintains four enterprise funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses enterprise funds to account for its landfills, water/wastewater services and portions of its recreation activities in addition to the operation of the County Airport.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for landfills, water/wastewater services, airport operation and portions of recreation activities. The Landfill Enterprise Fund and Airport Enterprise Fund are considered to be major funds of the County.

<u>Fiduciary funds</u> - The County uses fiduciary funds to account for assets held in a trustee capacity or as an agent for individuals, private organizations and other governmental units. The County is responsible for ensuring that the assets reported in these funds are used for their intended purposes. The fiduciary funds are agency funds (Special Welfare, War Memorial and Sheriff Canteen) and the Other Postemployment Benefits Trust Fund. The agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. These fiduciary activities are excluded from the County's government-wide financial statements because the County cannot use these assets to finance its operations.

<u>Notes to the financial statements</u> - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

<u>Other information</u> - In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information for budgetary comparison schedules and presentation of combining financial statements for the discretely presented component unit School Board. The School Board does not issue separate financial statements.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a County's financial position. The County's assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$38,165,199 at year-end.

The largest portion of the County's net position (64%) reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment); less any related debt used to acquire those assets that are still outstanding. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot readily be used to liquidate these liabilities.

The next largest portion of the County's net position (28%) is unrestricted meaning it may be used to meet the government's ongoing obligations.

An additional portion of the County's net position (8%) represents resources that are subject to external restrictions on how they may be used.

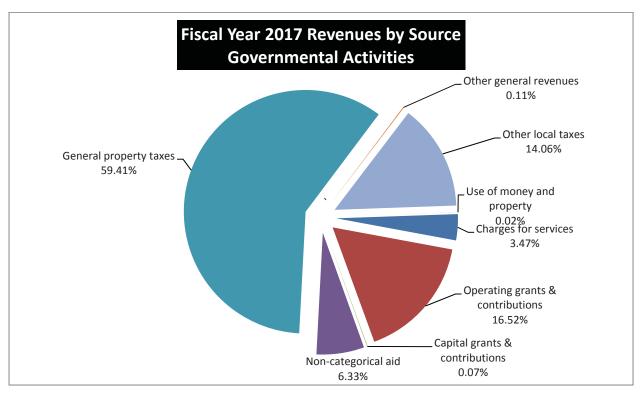

At the end of the current fiscal year, the County is able to report positive balances of net position for both governmental activities and business-type activities.

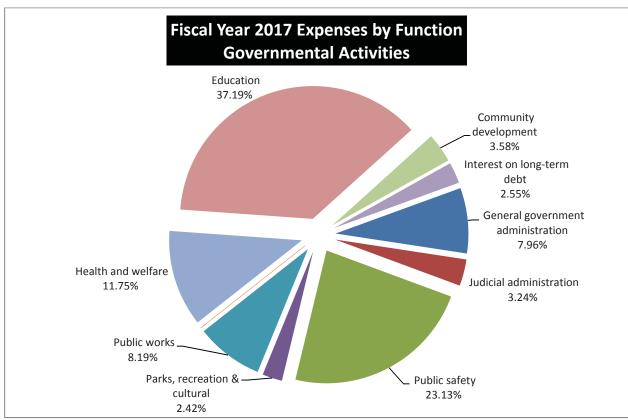

The County's net position increased by \$1,133,415 or 3% during the fiscal year. Governmental activities accounted for 122% of the total increase while business-type activities accounted for -22%.

<u>Governmental Activities</u> - Governmental activities increased the County's net position by \$1,386,373 or 4% during the fiscal year. Key elements of this increase are as follows:

Accomack County, Virginia

- Property taxes are the largest single revenue source comprising 59% of total governmental revenues. Property taxes increased by \$174,693 or 1% during the fiscal year.
- Operating grants for governmental activities is the second largest revenue source comprising 17% of governmental revenues. This revenue source increased by \$90,574 or 1% during the fiscal year.
- Other local taxes increased by \$118,827 or 2% primarily due to an increase in local sales and use tax revenue.
- Education expense is the largest single category comprising 37% of total governmental expenses. Expenses for this category increased by \$329,434 or 2% from the previous year.
- Public safety expense is the second largest category comprising 23% of governmental expenses. Expenses for this category increased \$1,337,635 or 12% as compared to the previous year largely due to enhancing the County's emergency medical services at the southern end of the County by providing additional career personnel to staff the Painter Volunteer Fire and Rescue Station twenty-four hours a day, seven days a week. This action was necessary to improve ambulance response times in this area of the County.

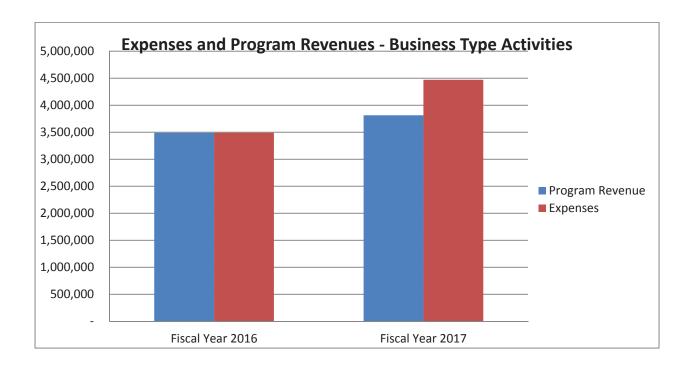

<u>Business-type Activities</u> - Business-type activities decreased the County's net position by \$252,958 or 1% during the fiscal year.

Business-type program revenues increased by \$325,506 or 9%. Of this amount, \$265,143 was from charges for disposal of waste at the County's Landfill.

Business-type expenses increased by 28% or \$980,491 as compared to the prior fiscal year. Landfill related expenses increased by 33% or \$853,269 accounting for the majority of the increase. As noted

earlier, over approximately \$300,000 of additional one-time expenses were incurred to dispose of waste at another non-county landfill while construction of a new cell at the County's North Landfill took place. In addition, closure and post closure expense for this new cell, which opened in the second half of fiscal year 2017, is significantly higher than the previous cell accounting for another \$242,671 in expense in 2017. Estimated closure and post closure expense of landfill cells are recognized over the cell's useful life based on capacity used.

Financial Analysis of the County's Funds

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

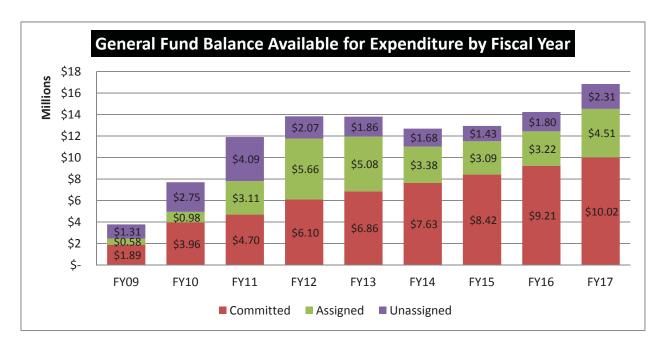

<u>Governmental Funds</u> - The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financial requirements. In particular, the amount of fund balance available for expenditure may serve as a useful measure of a County's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the County's governmental funds reported combined ending fund balances of \$23,336,012. Details are as follows:

- The General Fund accounted for 73% percent or \$16,971,671 of the combined ending governmental fund balance.
 - o Approximately \$2,312,267 or 14% of this balance constitutes unassigned fund balance which is not tied to any specific use and is available for spending at the County's discretion.
 - o Approximately \$10,017,457 or 59% is committed for a "Rainy Day" or Revenue Stabilization. This amount represents 12.9% of General Fund Revenue combined with School Operating Fund Revenue less revenue from the Primary Government.
 - Use of these funds is only permitted to temporarily address significant revenue shortfalls, to mitigate public safety threats both man-made and natural or to take emergency actions necessary to preserve the County and School Divisions overall financial health.
 - o Approximately \$4,505,194 or 27% is assigned to various projects yet to be completed.

27

- o Approximately \$104,700 or less than 1% of this balance is due to noncurrent advances/receivables and is therefore nonspendable.
- o The remainder, approximately \$32,053, of general fund balance is restricted to specific uses by entities external to County government.

- The General Fund reported an increase in fund balance of \$2,598,796 or 18%. General Fund Committed Fund Balance increased by \$806,980 or 9%. The entire amount of committed fund balance, \$10,017,457, is associated with the County's "Rainy Day"/Revenue Stabilization Policy. The General Fund unassigned fund balance increased by \$507,689 or 28%.
- The County Debt Service Fund accounted for 4% or \$863,859 of the combined ending governmental fund balance. This entire balance is restricted for future debt service.
- The County Capital Projects Fund accounted for 13% or \$2,954,291 of the total governmental fund balance. Of this amount, \$2,966,671 is unspent bond proceeds restricted primarily for renovations of the County Health Department and Kegotank Elementary School.

<u>Proprietary funds</u> - The County's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. All proprietary funds reported positive net position at the end of the year.

Budgetary Highlights

General Fund Budget Amendments:

Revenues:

The difference between the Primary Government General Fund original budget and final amended budget (schedule 1) was \$1,089,894 or 2.9%. The majority of the variance was due to budget amendments made to recognize other state and federal grant funds awarded to the County during the fiscal year along with recovered costs during the fiscal year.

For the most part, the original revenue budget held up favorably to actual revenues. Other than a budget increase of \$447,869 to reflect a significant one-time revenue increase associated with a real estate tax settlement, no material amendments were made during the fiscal year to bring revenue estimates in line with actual revenue.

Expenditures:

The difference between the Primary Government General Fund original budget and the final amended budget (schedule 2) was \$1,965,492 or 6%. Significant individual adjustments making up this difference are explained as follows:

- <u>Public Safety related amendments</u> The following budget increases were made to reflect:
 - o Amendments totaling \$155,790 were made to recognize Virginia Homeland Security and Four for Life grant awards and carryovers. The purpose of these funds was to purchase safety equipment to handle potential hazardous material cleanup situations, training of EMS personnel and purchase of equipment and supplies for emergency medical and rescue services.
 - o An amendment of \$90,869 was made to recognize the award of Virginia Department of Criminal Justice Services grant funds used to provide local probation services for the General District Court and Juvenile Domestic & Relations Court.
- <u>Public Works related amendments</u> The original budget was amended up by \$954,588, including \$274,132 to reflect the carryover of funds used for storm drainage control, \$200,000 for the carryover of a road project, \$152,200 to record various building and dock projects carryovers, and \$157,022 to capture Garage service recoveries.
- Parks, Recreation and Cultural amendments The original budget was increased by \$139,528 to recognize the carryover and acceptance of a grant award for the Summer Food/Playground Program.
- <u>Education amendments</u> The original budget was increased by \$444,000 to carryover previous year funds awarded to the Eastern Shore Community College for a future building project.

General Fund Budget Variances:

The Primary Government General Fund reported a positive variance between actual revenue and the final budget of \$1,918,411 and a positive variance between actual expenditures and the final budget of \$1,691,374.

Capital Asset and Debt Administration

<u>Capital assets</u> - The County's investment in capital assets for its governmental and business type activities as of June 30, 2017 amounts to \$42,511,793 (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, and machinery and equipment.

Additional information on the County's capital assets can be found in Note 7 of this report.

<u>Long-term debt</u> - At the end of the current fiscal year, the County had total debt outstanding, including unamortized bond premiums, of \$33,039,191. Of this amount, \$19,653,359 represents debt backed by the full faith and credit of the County. The remainder of the County's debt is secured by property or specific revenue sources.

Legislation enacted during fiscal year ended June 30, 2002 required the Primary Government to assume debt historically reported by the School Board. The legislation resulted in an additional \$16,470,183 in debt reported on the County's Statement of Net position and an expense increase of \$1,944,331 reported on the County's Statement of Activities for the transfer of school property on which debt was retired during the fiscal year to the school board. The legislation affects the reporting of local school capital assets as well.

Additional information on the County's long-term debt can be found in Note 11 of this report.

Economic Factors and Next Year's Budgets and Rates

Overall, General Fund revenues for fiscal year 2018 are forecast to increase by 3% from those of FY17. Total General Fund expenditures, including capital expenditures, are forecast to increase 1.7%.

Property Tax Rates/Fees

The Fiscal Year 2018 budget does not include any increase in property tax rates or user fees. Below are the adopted property tax rates for calendar year 2016 (fiscal year 2017) and calendar year 2017 (fiscal year 2018):

2017 Real Estate Tax Rates:

Chincoteague	\$0.490 per \$100 of assessed valuation
Captains Cove/Greenbackville	\$0.635 per \$100 of assessed valuation
All other County areas	. \$0.610 per \$100 of assessed valuation

2016 Real Estate Tax Rates:

Chincoteague	\$0.490 per \$100 of assessed valuation
Captains Cove/Greenbackville	\$0.635 per \$100 of assessed valuation
All other County areas	. \$0.610 per \$100 of assessed valuation

Operating Expenditures

Fiscal year 2018 operating expenditures are expected to increase slightly to provide a 2% wage increase for County and state-supported local positions effective December 1, 2017. The 2018 operating budget also provides an additional \$392K to the School Division based on the County's traditional revenue sharing formula. The County shares "new" revenue with the School Division based on this formula which calls for 53% of the annual growth from general fund property taxes, other local taxes and non-categorical aid to appropriated to the School Division. Only two new full-time positions are funded in the 2018 budget. One of these new positions is for an additional School Resource Officer and the other creates a new Application Support Specialist position. School Resource Officers are sworn deputies which provide security and crime prevention services in the County's high schools. The Application Support Specialist will manage and support the various specialized applications utilized by 17 different departments across the County.

Capital Expenditures

The County's approved capital budget for 2018 totals over \$5 million and represents one of the more robust capital spending plans of recent years. This entire capital budget is cash funded using unassigned fund balance and a portion of 2018 projected operating revenues to pay for infrastructure improvements. No additional debt issues are planned. The capital plan includes funding to close cell 2 at the County's North Landfill which is expected to cost approximately \$2.1 million. In addition, it provides almost \$1.5 million for building and infrastructure maintenance predominantly for the County's general circuit courthouse.

Other Initiatives

The fiscal year 2018 budget continues with the plan implemented in fiscal year 2009 to strengthen the portion of the County's general fund balance that is committed for a "Rainy Day" or revenue stabilization. The plan calls for this fund balance to be at least equal to 16.7% of County and School Board operating revenue by fiscal year 2021. Next year's budget sets aside an additional \$819,085 for this purpose. With this increase, the amount committed is expected to reach 13.8% of General Fund Revenue combined with School Operating Fund Revenue (less revenue from the Primary Government).

Employment and Population

The local unemployment rate remained unchanged at 4.4% from June 2016 to June 2017 but still continues to be above both the U.S. and state rates.

Unemployment Rates							
June 2015 June 2016 June 2017							
Accomack County	4.9%	4.4%	4.4%				
Commonwealth of Virginia	4.7%	4.2%	3.9%				
USA	5.3%	4.9%	4.3%				

According to the Virginia Employment Commission, the number of persons employed increased by less than 1% from June 2016 to June 2017 basically holding steady at 15,619.

Little change in population has occurred over the last decade and no substantial change is anticipated in the next fiscal year.

Requests for Information

This financial report is designed to provide our residents, taxpayers, customers, investors and creditors with a general overview of the County of Accomack, Virginia's finances and to demonstrate accountability for the money the County receives. Questions concerning any of the information provided in this report or requests for additional financial information should be directed to the Accomack County Finance Department at finance@co.accomack.va.us or P.O. Box 620, Accomac, Virginia 23301.

COUNTY OF ACCOMACK, VIRGINIA RECONCILIATION OF THE BALANCE SHEET-GOVERNMENTAL FUNDS TO THE STATEMENT OF NET POSITION

AT JUNE 30, 2017		Exhibit 4
Total fund balances - governmental funds (Exhibit 3)		\$ 23,336,012
Amounts reported for governmental activities in the Statement of Net Position are different because:		
Capital assets used in governmental activities are not current financial resources and therefore		
are not reported in the governmental funds. Those assets consist of:		
Land	2,233,337	
Buildings, net of depreciation	6,866,841	
Improvements other than buildings, net of depreciation	13,243,693	
Machinery and equipment, net of depreciation	2,234,472	
Intangibles, net of amortization	7,371	
Construction in progress	1,455,898	
School Board capital assets, net of depreciation	16,470,181	
Total capital assets		42,511,793
Other long-term assets are not available to pay for current period expenditures and therefore		
are deferred in the funds.		3,450,774
Pension contributions subsequent to the measurement date will be a reduction to/increase in		
the net pension liability/asset in the next fiscal year and, therefore, are not reported in the funds.		865,094
Long-term liabilities, including bonds payable, are not due and payable in the current period		
and therefore are not reported in the governmental funds. Long-term liabilities at fiscal		
year-end consist of:		
Virginia Public School Authority bonds	(18,999,819)	
Qualified zone academy bonds	(96,076)	
Lease revenue bonds	(11,267,647)	
Accrued interest on debt	(509,371)	
Bond premiums and discounts, net of amortization	(776,336)	
Bond deferred charge on refunding	324,227	
Deferred outflows related to measurement of net pension liability	1,394,102	
Compensated absences	(1,770,383)	
Net OPEB obligation	(1,778,000)	
Net pension liability	(4,239,655)	

Net adjustment

(37,718,958)

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE-

GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

Change in net position of governmental activities (Exhibit 2)

\$ 1,386,373

FOR THE YEAR ENDED JUNE 30, 2017		Exhibit 6
Net changes in fund balances-governmental funds (Exhibit 5)		\$ 1,087,620
Amounts reported for governmental activities in the Statement of Activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which the depreciation exceeded capital outlays in the current period. Capital outlays Depreciation expenses Net adjustment	2,198,703 (1,937,977)	260,726
School Board capital assets financed by are jointly owned by the County and the School Board. The County share of School Board assets is in proportion to the debt owed on such by the County. The transfers to the School Board are affected by the relationship of the debt to assets on a year to year basis. The net transfer resulting from this relationship decreased the transfers to the School Board.		(1,944,331)
Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds Property taxes Repayment of notes receivable Change in deferred inflows related to the measurement of the net pension liability Net adjustment	(830,685) (3,088) 1,265,752	431,979
The issue of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.		3,954,583
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. Change in accrued interest payable Change in compensated absences Change in net OPEB obligation Change in net pension asset (liability) Change in deferred outflows related to pension payments subsequent to the measurement date Change in deferred outflows related to measurement of net pension liability Net adjustment	68,305 37,585 (29,000) (3,638,914) (170,478) 1,354,734	(2,377,768)

NOTES TO FINANCIAL STATEMENTS

At June 30, 2017

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Description of Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. All fiduciary activities are reported only in the fund financial statements. Government activities, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from business-type activities, which rely to a significant extent on fees and charges to external customers for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

B. Reporting Entity

The County of Accomack, Virginia (the County) was formed as an independent county in 1634. The County is located on Virginia's Eastern Shore and covers an area of approximately 476 square miles. The County is governed by a Board of Supervisors consisting of nine members each of which are elected for a four-year term.

The accompanying financial statements present the financial data of the County (Primary Government) and its component units. The financial data of the component units are included in the County's basic financial statements because of the significance of their operational or financial relationships with the County. The County and its component units are together referred to herein as the reporting entity.

Blended Component Units

Blended component units, although legally separate entities, are, in substance, part of the County's operations and so data from these units are combined with data of the primary government. The County has no component units that meet the requirements for blending.

Discretely Presented Component Units

The component unit columns in the financial statements include the financial data of the County's component units. They are presented in separate columns to emphasize that they are legally separate from the County. All component units have a fiscal year end of June 30, 2017.

i. Accomack County School Board - The Accomack County School Board was created by state law and is vested with the responsibility of administering the public school system. The School Board is composed of ten members all of whom are appointed by a selection committee established by the Circuit Court. The County levies taxes for its operation, issues bond or enters into capital leases for its capital requirements and approves its annual budget. The School Board is reported as a governmental fund type. The School Board does not issue separate financial statements.

NOTES TO FINANCIAL STATEMENTS

At June 30, 2017 (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

B. The Reporting Entity-continued

- Economic Development Authority of Accomack County The Economic Development Authority of Accomack County (EDA), formerly known as the Industrial Development Authority of Accomack County (IDA), was established to promote industry and develop trade by inducing manufacturing, industrial, government, and commercial enterprises to locate in Accomack County. The IDA changed its mission in fiscal year 2008 to enhance the economy and development of the County hence the name change. The Authority consists of seven directors, all of which are appointed by the County Board of Supervisors. The County approves the annual operating budget of the Authority. The Authority is reported as an enterprise fund type. The Authority does not issue separate financial statements.
- iii. **Eastern Shore Public Library** The Eastern Shore Public Library was created for the purpose of providing public library services to residents of the Eastern Shore of Virginia. The Library Board consists of five members, a majority of which is appointed by the Accomack County Board of Supervisors. The Library is fiscally dependent upon the County for its annual contribution. Separately issued financial statements can be obtained from the Eastern Shore Public Library, Post Office Box 360, Accomac, Virginia 23301. The Library is reported as a governmental fund type.
- iv. Accomack-Northampton Planning District Commission The Accomack-Northampton Planning District Commission is a multi-jurisdictional entity created for the purpose of promoting the orderly and efficient development of the physical, social, and economic elements in its district. The Commission consists of thirteen members of which seven are appointed by and serve at the pleasure of the County Board of Supervisors. The Commission receives significant financial assistance from the County and is fiscally dependent on this assistance. Separately issued financial statements can be obtained from the Accomack-Northampton Planning District Commission, Post Office Box 417, Accomac, Virginia 23301. The Commission is reported as a governmental fund type.
- v. Quinby Boat Harbor Committee The Quinby Boat Harbor Committee was established to diligently conduct and enforce the rules and regulations regarding the use and occupancy of the Quinby Boat Harbor. The Committee consists of nine members, all of which are appointed and serve at the pleasure of the County Board of Supervisors. Appointment of a voting majority of the organization's governing body and the ability of the primary government to impose its will on the organization demonstrates financial accountability. Separately issued financial statements can be obtained from the Quinby Boat Harbor Committee, Post Office Box 343, Quinby, Virginia 23423. The Committee is reported as a governmental fund type.
- vi. **Greenbackville Boat Harbor Committee** The Greenbackville Boat Harbor Committee was established to diligently conduct and enforce the rules and regulations regarding the use and occupancy of the Greenbackville Boat Harbor. The Committee consists of five members, all of which are appointed by

and serve at the pleasure of the County Board of Supervisors. Appointment of a voting majority of the organization's governing body and the ability of the primary government to impose its will on the organization demonstrates financial accountability. Separately issued financial statements can be obtained from the Greenbackville Harbor Committee, Post Office Box 74, Greenbackville, Virginia 23356. The Committee is reported as a governmental fund type.

vii. Greenbackville/Captain's Cove Mosquito Control Commission - The Greenbackville/ Captain's Cove Mosquito Control Commission is responsible for insect control in the Greenbackville/Captains Cove area of Accomack County. The Commission consists of three members of which two are appointed by the Primary Government. The County levies taxes on behalf of the Commission to finance the Commission's operations. Separately issued financial statements can be obtained from Greenbackville/Captain's Cove Mosquito Control Commission, Greenbackville, Virginia 23356. The Commission is reported as a governmental fund type.

Jointly Governed Organizations

The following entities are excluded from the accompanying financial statements:

i. Eastern Shore of Virginia 911 Commission - The County has joined together with Northampton County to create the Eastern Shore of Virginia 911 Commission. The purposes of the Commission are to manage the 911 system in order to save the lives and property of the citizens of Accomack and Northampton Counties. The Commission is governed by a twelve member board, six of which are appointed by Accomack County. Prior to January 1, 2007, the Commission was funded primarily by a local consumer utility tax levied and collected by both Accomack and Northampton County. State legislation effective January 1 repealed the authority to levy this tax replacing it with a state-controlled communication sales and use tax which is remitted to both counties on a monthly basis and subsequently distributed to the Commission. In fiscal year 2017, the County contributed \$509,916 to the Commission. The Commission's complete financial activity is included in the financial report of Northampton County, Virginia, its fiscal agent.

Related Organizations

The following entities are excluded from the accompanying financial statements:

i. <u>Eastern Shore Community Services Board</u> – The County, in conjunction with Northampton County, participate in the Eastern Shore Community Services Board. The County's Board of Supervisors appoints a voting majority of the board members of the Eastern Shore Community Services Board, but the County's accountability for this organization does not extend beyond making the appointments. During fiscal year 2017, the County contributed \$178,286 to the Board for operations. Complete financial statements for the Commission may be obtained by contacting the Eastern Shore Community Services Board, P.O. Box 453, Nassawadox, Virginia 23413.

C. Basis of Presentation-Government-Wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds while business-type activities incorporate data from the County's enterprise funds. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. The basic financial statements include both government-wide (based upon the County as a whole) and fund financial statements.

As discussed earlier, the government has seven discretely presented component units. Only the Accomack County School Board is considered to be a major component unit and thus shown in a separate column in the government-wide financial statements. The remaining six are consolidated into one column in the government-wide financial statements labeled "other". Individual component unit financial data for these nonmajor component units is reported in the *Other Supplementary Information* section.

As a general rule, the effect of interfund activity has been removed from the government-wide financial statements except payments in lieu of taxes and other charges between the Landfill Fund and the General Fund. Elimination of these charges would distort the direct costs and program revenues reported for the various functions.

D. Basis of Presentation-Fund Financial Statements

The fund financial statements provide information about the government's funds, including its fiduciary funds. Separate statements for each fund category-governmental, proprietary, and fiduciary-are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

The County reports the following major governmental funds:

- General Fund: The General Fund is the County's primary operating fund. It accounts for and reports financial resources of the general government except those required to be accounted for in another fund. Revenues are primarily derived from property taxes. A significant part of the General Fund's revenues are used to finance operations of the Accomack County School Board.
- Virginia Public Assistance Fund: The Virginia Public Assistance Fund accounts for and reports the resources of the Social Services department which is responsible for administering welfare related programs as mandated by the Code of Virginia. Revenues are primarily derived from the intergovernmental funding including significant local funding from the County's General Fund.
- Comprehensive Youth Services Fund: The Comprehensive Youth Services Fund accounts for and reports revenues and expenditures associated with the Comprehensive Services Act (CSA). The Comprehensive Services is a mandated Commonwealth program the purpose of which is to provide high quality, child centered, family focused, cost effective, community-based services to high-risk youth and their families. Revenues are

NOTES TO FINANCIAL STATEMENTS

At June 30, 2017 (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

D. Basis of Presentation-Fund Financial Statements-continued

primarily derived from intergovernmental funding including significant local funding from the County's General Fund.

- County Capital Projects Fund: The County Capital Projects Fund is used to account for and report the acquisition or construction of major capital facilities in the County. This fund also accounts for proceeds from bonds issued on behalf of the Accomack County School Board and disbursed to the school board for education related capital projects.
- County Debt Service Fund: The County Debt Service Fund accounts for and reports
 revenues derived from a special property tax levied on County residents exclusively for the
 current and future retirement of debt. The majority of the debt service reported by the fund
 pertains to public school construction. In Virginia, public school systems do not have
 borrowing authority so all school related debt must be issued and therefore reported by the
 County.

The County reports the following major proprietary funds:

- Landfill Fund: The Landfill Fund is an enterprise fund used to account for waste disposal
 operations of the County's North Landfill and South Transfer Station. The cost of waste
 disposal services is primarily financed through user charges to the County, residents and
 commercial customers.
- Airport Fund: The Airport fund is used to account for the operation of the County's airport
 located in Melfa, Virginia. This enterprise fund was established in fiscal year 2013 as a
 result of the Airport Commission being dissolved by the County. Previous to this action,
 the operation of the airport was reported under the Airport Commission which was a
 discretely presented component unit. The cost of operating the Airport is primarily funded
 through user fees.

Additionally the County reports the following nonmajor governmental fund types, nonmajor proprietary funds and Fiduciary Funds:

- Special Revenue Funds: Special revenue funds are used to account for and report the
 proceeds of specific revenue sources that are restricted or committed to expenditures for
 specified purposes other than debt service or capital projects.
- **Enterprise Funds**: Enterprise funds are used to report an activity for which a fee is charged to external users for goods or services.
- Fiduciary Funds: Fiduciary funds are used to account for assets held by the County in a trustee capacity or as an agent for other individuals or organizations. Fiduciary funds consist of the Other Postemployment Benefits Trust Fund and the following agency funds: Special Welfare Fund, War Memorial Fund and Sheriff Canteen Fund. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. Trust funds account for assets in essentially the same manner as a proprietary fund using the economic resources measurement focus.

During the course of operations, the County has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in the fund financial statements certain

NOTES TO FINANCIAL STATEMENTS

At June 30, 2017 (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

D. Basis of Presentation-Fund Financial Statements-continued

eliminations are made in the preparation of the government-wide financial statements.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

E. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the County considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, sales taxes, licenses and interest associated with the fiscal period are all considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. Entitlements are recorded as revenues when all eligible requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source. Expenditure driven grants are recognized as revenue with the qualifying expenditure have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for the revenue source. All other revenue items are considered to be measureable and available only when cash is received by the County.

Proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting. The agency funds have no measurement focus but utilize the accrual basis of accounting for reporting assets and liabilities.

NOTES TO FINANCIAL STATEMENTS

At June 30, 2017 (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

F. Budgetary Basis of Accounting

Annual budgets are adopted on a basis consistent with general accepted accounting principles for all governmental funds except for the Rehabilitation Projects Fund and the County Capital Projects Fund which adopt project/grant length budgets. The following procedures are used by the County in establishing the budgetary data reflected in the financial statements:

- Prior to March 30, the County Administrator submits to the Board of Supervisors a proposed operating and capital budget for the fiscal year beginning the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them. This budget excludes intergovernmental grant revenues and expenditures unless they were officially awarded prior to the budget submission to the Board of Supervisors. Intergovernmental grants awarded after adoption of the budget are reflected in the amended budget once approved by the Board of Supervisors.
- Public hearings are conducted to obtain citizen comments.
- Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution. The Appropriations Resolution places legal restrictions on expenditures at the department level. The appropriation for each department or category can be revised only by the Board of Supervisors. The School Board is authorized to transfer budgeted amounts within the school system's categories.
- Formal budgetary integration is employed as a management control device during the year for all funds.
- Appropriations lapse on June 30 for all County units except for Capital Funds which carry unexpended balances into the following year on a continuing appropriation basis.
- Budget amounts reported in the financial statements are labeled as either original or
 final. The original budget is the initial adopted budget plus amendments made prior to
 the beginning of the fiscal year. The final budget is the original budget combined with
 amendments approved during the fiscal year.

G. Assets, Liabilities, Deferred Outflows/Inflows of Resources, & Net Position/Fund Balance

i. Cash and Cash Equivalents

Cash and cash equivalents include amounts in demand deposits as well as short-term, highly liquid investments with a maturity date within three months of the date acquired by the County. This definition also applies to cash and cash equivalents used in the statement of cash flows. Investments are stated at fair value.

ii. Receivables

All receivables, including tax receivables, are shown net of allowance for uncollectibles.

iii. Investments

Money market investments, participating interest- earning investment contracts (repurchase agreements) that have a remaining maturity at time of purchase of one year or less, nonparticipating interest-earning investment contracts (nonnegotiable certificates of deposit (CDs)) and external investment pools are measured at amortized cost. All other investments are reported at fair value.

NOTES TO FINANCIAL STATEMENTS

At June 30, 2017 (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

G. <u>Assets, Liabilities, Deferred Outflows/Inflows of Resources, & Net Position/Fund Balance</u> - continued

iv. Inventories and Prepaid Items

Inventories are valued at cost using the first-in/first-out (FIFO) method. Only the Airport Enterprise Fund reports inventory which consists of aviation fuel and pilot supplies. The cost of these inventories is recorded as expenses when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future accounting periods and reported as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

v. Capital Assets

Capital assets, including land, improvements to land, buildings, building improvements, vehicles, machinery, equipment and intangible assets that individually cost \$5,000 and over, with a useful life of greater than one year are reported in proprietary funds and applicable governmental or business-type activities columns in the government-wide financial statements. The County does not capitalize roads and bridges since these assets belong to the Commonwealth of Virginia. Capital assets are stated at historical cost or estimated historical cost. Donated capital assets are stated at their acquisition value as of the date of the donation. Capital assets are depreciated over their useful lives using the straight-line method. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. Estimated lives for County and School Board Component Unit assets are as follows:

	Estimated Useful
Capital Assets	<u>Lives (years)</u>
Buildings	30-50
Improvements other than buildings	15-40
School Buses	12
Cars and light duty trucks	5-7
Heavy equipment	10
Computer & related	5
Intangibles (Software)	5
Other machinery and equipment	5-20

vi. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The County has two items that qualify for reporting in this category. One item is a deferred charge on refunding resulting from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded debt or refunding debt. The other item is

NOTES TO FINANCIAL STATEMENTS

At June 30, 2017 (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

G. <u>Assets, Liabilities, Deferred Outflows/Inflows of Resources, & Net Position/Fund Balance</u> - continued

comprised of contributions to the pension plan made during the current year and subsequent to the net pension asset or liability measurement date, which will be recognized as a reduction of the net pension asset or liability next fiscal year. It is also comprised of certain items related to the measurement of the net pension asset or liability. These include differences between expected and actual experience, change in assumptions, the net difference between projected and actual earnings on pension plan investments. For more detailed information on these items, reference the pension note.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows or resources. The separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The County has two types of items that qualify for reporting in this category. Under a modified accrual basis of accounting, unavailable revenue representing property taxes receivable is reported in the governmental funds balance sheet. This amount is comprised of property taxes paid in advance and unbilled installments and is deferred and recognized as an inflow of resources in the period that the amount becomes available. In addition, the portion of uncollected property taxes due as of June 30 but not considered available is also reported in this section. Under the accrual basis of accounting, only taxes paid in advance and unbilled installments are reported as deferred inflows of resources. In addition, certain items related to the measurement of the net pension liability are reported as deferred inflows of resources. These include differences between expected and actual experience, change in assumptions, and the net difference between projected and actual earnings on pension plan investments. For more detailed information on these items, reference the pension note.

vii. Net Position

Net position is the difference between (a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources. Net investment in capital assets represents capital assets, less accumulated depreciation, less any outstanding debt related to the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are also included in this component of net position.

viii. Net Position Flow Assumption

Sometimes the County will fund outlays for a particular purpose from both restricted (e.g. restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted-net position and unrestricted-net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the County's policy to consider restricted-net position to have been depleted before unrestricted-net position is applied.

ix. Fund Balance Flow Assumptions

Sometimes the County will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund

NOTES TO FINANCIAL STATEMENTS

At June 30, 2017 (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

G. <u>Assets, Liabilities, Deferred Outflows/Inflows of Resources, & Net Position/Fund Balance</u> - continued

balance in the governmental fund financial statement, flow assumption must be made about the order in which the resources are considered to be applied. It is the County's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

ix. Fund Balance

In the governmental fund financial statements, fund balance is reported in five categories which denote the nature and extent of constraints, if any, placed on the County's fund balance. These five categories are as follows:

Fund Balance Category	Definition	Applicability
Nonspendable	Includes amounts that are not in expendable form.	The County reports long-term receivables that are not available for expenditure in this category.
Restricted	Includes amounts restricted to specific uses by external entities or by law. Externally imposed restrictions include amounts that are restricted for specific purposes.	The County reports residual amounts of taxes levied exclusively for debt service, fire & rescue and mosquito control along with unspent bond proceeds held in trust in this category.
Committed	Amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the Accomack County Board of Supervisors.	The County reports amounts committed by resolution of the Board of Supervisors for use in emergency situations or when revenue shortages arise as committed fund balance. This amount is shown in the financial statements as committed to <i>Rainy Day/Stabilization</i> . Additions are approved by Board action. Use of these funds is only permitted to address revenue shortages that are greater than 1% of General Fund revenue, an urgent event that jeopardizes public safety or to mitigate damage caused by a natural disaster.
Assigned	Consists of amounts intended to be used by the County for a specific purpose but are neither restricted nor committed.	Assigned for subsequent year's expenditures is the portion of fund balance that has been approved by formal action of the Board of Supervisors for appropriation in the fiscal year 2015 budget. Amendment of this amount requires approval of the Board. Additional assignments for residual funds associated with ongoing capital projects and special revenue funds have been made by the Finance Director who is given that authority.
Unassigned	Fund balance that has not been reported in any other classification.	Positive unassigned fund balance is only reported in the General Fund. In governmental funds other than the General Fund, a negative unassigned fund balance may be reported if expenditures incurred for specific purposes exceed the amounts that are restricted, committed, or assigned to those purposes.

H. Revenues and expenditures/expenses

i. Program Revenue

Amounts reported as program revenues include charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and grants and contributions (including special assessment) that are restricted to meeting the operational or capital requirement of a particular function or segment. All taxes including those dedicated for specific purposes and internally dedicated resources are reported as general revenues rather than as program revenue.

NOTES TO FINANCIAL STATEMENTS

At June 30, 2017 (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

H. Revenues and expenditures/expenses-continued

ii. Property Taxes

Property is assessed at its value on January 1. Property taxes attach as an enforceable lien on property as of January 1. Real estate and personal property taxes are due in two installments payable in December and June. Personal property taxes are prorated based on the number of months property is owned. The County bills and collects its own property taxes.

In 1998, the Virginia General Assembly passed the Personal Property Tax Relief Act (PPTRA). The purpose of this legislation was to gradually eliminate the personal property tax on automobiles by increasing Commonwealth funding to localities. The PPTRA provides tax relief via a tax credit that appears on the citizen's tax assessment as a reduction to taxes due. The credit applies to the first \$20,000 of taxable value of automobiles and motorcycles held for personal use. The tax credit on vehicles valued between \$1,000 and \$20,000 for tax year 2017 was equal to 44% of the tax assessment. The tax credit on vehicles with a taxable value of less than \$1,000 was equal to 100% of the tax assessment. Revenue from the Commonwealth pertaining to PPTRA is recorded as non-categorical aid.

iii. Compensated Absences

All County and School Board full-time employees earn annual leave based on years of service. Accumulated annual leave vests immediately. County and School Board employees are paid for unused annual leave, at their normal rate of pay, at termination. Annual leave termination payments are limited only by maximum accumulation policies. All County and School Board Component Unit full-time employees also earn ten hours of sick leave per month. Maximum accumulation is unlimited. Employees of the County are entitled to the lesser of 25% of accrued sick leave or \$5,000 upon termination providing the employee has 5 years of service. Employees of the School Board are entitled to the lesser of 25% of accrued sick leave or \$7,500 upon termination providing the employee has 5 years of service. The amount of unpaid annual, sick and compensatory leave, including applicable payroll taxes, is accrued when incurred in the government-wide and proprietary fund financial statements. Only the current portion due, if any, is recorded in the fund financial statements.

iv. Proprietary Funds Operating and Nonoperating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with proprietary fund's principal ongoing operations. The principal operating revenues of the water/sewer fund, airport fund, landfill fund and parks and recreation revolving fund are charges to customers. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues not meeting this definition are reported as nonoperating revenues and expenses.

v. Use of Estimates

The preparation of financial statements in conformity with general accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS

At June 30, 2017 (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

I. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the County's Retirement Plan and the additions to/deductions from the County's Retirement Plan's net fiduciary position have been determined on the same basis as they were reported by the Virginia Retirement System (VRS). For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

2. DEPOSITS AND INVESTMENTS

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act") Section 2.2-4400 et. seq. of the Code of Virginia. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial Institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

Statutes authorize the County Treasurer, an elected official, to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper and certain corporate notes, banker's acceptances, repurchase agreements and the State Treasurer's Local Government Investment Pool (LGIP). The Treasury Board of the Commonwealth of Virginia has regulatory oversight of the LGIP. It follows the guidance of GASB Statement No. 79 "Certain External Investment Pools and Pool Participants" with the portfolio securities valued by the amortized cost method. Investments with a maturity date of one year or less are stated at amortized cost. The fair value of the County's position in the LGIP is the same as the value of the pool shares. All other investments are stated at fair value.

The carrying amount of cash and investments of the Primary Government and the School Board Component Unit at June 30, 2017 is as follows:

Deposits with Financial Institutions	\$ 34,206,917
Investments	3,005,728
Petty Cash	6,467
Cash on Hand	 540
Total Cash and Investments of the Primary	
Government and School Board Component Unit	\$ 37,219,652

Credit Risk of Debt Securities

Per state statute requirements, all commercial paper must be rated "prime quality" by at least two nationally recognized statistical rating organizations (A-1 by both Standard & Poor's and Moody's Investor Service) and corporate notes and bonds must be rated in the AAA or AA categories by both Standard & Poor's and Moody's Investor Service. As of June 30, 2017, the County's investments as rated by Standard & Poor's were as follows:

Investment Type	<u>AAAm</u>			
State Treasurer's Local Government Investment Pool	\$	3,091,147		

Concentration of Credit Risk

State statute limits the percentage of the portfolio that can be invested in any one issuer, excluding the U.S. Government, U.S. Government Agencies, the Commonwealth of Virginia and its authorities, mutual funds and pooled investment funds. No more than 35% of total available funds may be invested in commercial paper. Furthermore, not more than 5% of the total funds available for investment may be invested in commercial paper of any one issuing corporation. As of June 30, 2017, the County's entire investment portfolio was invested with State Treasurer's Local Investment Pool which is managed in accordance with GASB 79.

Interest Rate Risk

The County's investments as of June 30, 2017 are presented below along with their maturity. The County had no policy on interest rate risk at June 30.

	Fair Value	Maturity less than 1 year
Primary Government & School Board Component Unit:		
State Treasurer's Local Government Investment Pool	\$ 3.091.147	\$ 3.091.147

Custodial Credit Risk

As of June 30, 2017, all investment securities purchased by the County Treasurer were held by bank trust departments in the County's name and evidenced by safekeeping receipts in the County's name.

4. NOTES RECEIVABLE

A. Primary Government:

The County was awarded a community improvement grant from the Virginia Department of Housing and Community Development for the purpose of creating twenty-three jobs for low and moderate-income persons. A portion of the grant proceeds, \$186,009, was used to provide a low-interest loan to one area business. The term of the loan is twenty years payable in monthly installments to the Authority at an annual percentage rate of three percent. The loan is secured by a first Deed of Trust. This loan was paid in full as of June 30, 2017.

Total school board component unit, net	\$ 35,363,194 \$	1,379,725 \$	-	\$ 36,742,919

Total depreciation expense charged to the School Board component unit was \$2,256,055.

Legislation enacted during the fiscal year 2002, Section 15.2-1800.1 of the <u>Code of Virginia</u>, 1950, as amended, has changed the reporting of local school capital assets and related debt for financial statement purposes. Historically, debt incurred by local governments "on-behalf" of school boards was reported in the school board's discrete column along with the related capital assets. Under the new law, local governments have a "tenancy in common" with the school board whenever the locality incurs any financial obligation for any school property which is payable over more than one fiscal year. For financial reporting purposes, the legislation permits the locality to report the portion of school property related to any outstanding financial obligation eliminating any potential deficit from capitalizing assets financed with debt. The effect on the County of Accomack, Virginia, for the year ended June 30, 2017, is that debt and related assets in the amount of \$16,470,181 have been transferred to the Primary Government from the School Board Component Unit for financial reporting purposes.

8. UNEARNED REVENUE

Unearned revenue represents amounts for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. Under the modified accrual basis of accounting, such amounts are measureable, but not available. Under the full accrual basis of accounting, such amounts are measurable, but are unearned.

Unearned revenue at June 30, 2017 consisted of the following:

			Scl	nool Board								
	General		General		General Funds -		General Funds		Enterprise		C	omponent
Unearned Revenue	Fund		Fund Nonmajor		Nonmajor		Funds			Unit		
Advance grant funding received	\$	71,851	\$	56,911	\$	-	\$	696,285

Total	\$	1,770,383	\$	87,400	\$	1,999,164				

NOTES TO FINANCIAL STATEMENTS

At June 30, 2017 (Continued)

10. OPERATING LEASES

The primary government leases approximately 66.4 acres of land from the National Aeronautics and Space Administration (NASA) Goddard Space Flight Center's Wallops Flight Facility. The leased property is located in the County's Wallops Research Park and will be used to support economic growth opportunities affiliated with activities of the Wallops Flight Facility. The expiration of the lease is September 30, 2099. The lease stipulates an annual base rent equal to no less than 2% of the fair market value of the land currently appraised at \$900,000. Total cost of the lease for the year ended June 30, 2017 was \$20,174. Future rent increases are contingent upon changes in the Consumer Price Index, measured every 5 years, and future property appraisals, scheduled every 20 years. The future minimum lease payments are as follows:

Year Ending June 30	Amount
2018	20,174
2019	20,174
2020	20,174
2021-2025	100,870

¹ True interest cost

12. LANDFILL CLOSURE AND POSTCLOSURE CARE COST

State and federal laws and regulations require the County to place a final cover on its North Landfill it stops accepting waste and to perform certain maintenance and monitoring functions at this site for thirty years after closure. Although closure and post-closure costs will be paid only near or after the date that the landfill stops accepting waste, the County reports a portion of these closure and post-closure care costs in each period based on landfill capacity used as of each balance sheet date.

The \$7,145,071 reported as landfill closure and post-closure care liability at June 30, 2017, represents the cumulative amount reported to date based on the use of 99% of the estimated capacity of the North Landfill Cell Two. The County will recognize the remaining estimated North Landfill cost of closure and post-closure care of \$34,670 as its remaining estimated capacity is filled. These amounts are based on what it would cost to perform all closure and post-closure care in 2017. Actual costs may be higher due to inflation, changes in technology, or changes in regulations. The North Landfill Cell Two has sufficient capacity to continue accepting waste until early in fiscal year 2017. The County expects to fund landfill closure and post-closure care costs from operating revenues.

The County uses the Commonwealth of Virginia's financial assurance mechanism to meet the Department of Environmental Quality's assurance requirements for landfill closure and post-closure costs. The County demonstrated financial assurance requirements for closure, post-closure care, and corrective action costs through the submission of a Local Government Financial Test to the Virginia Department of Environmental Quality in accordance with Section 9VA C20-70 of the Virginia Administrative Code.

At June 30, 2017 (Continued)

13. DEFERRED INFLOWS OF RESOURCES

Governmental funds report deferred inflows in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the components of these deferrals were as follows:

	Primary Government							
					Ν	lonmajor		
			Co	unty Debt		Special		
		General	;	Service	F	Revenue		
		Fund		Fund		Funds		Total
Unavailable Revenues:	_							
Uncollected taxes	\$	2,471,453	\$	422,519	\$	528,794	\$	3,422,766
Special assessments not yet due		17,920		-		-		17,920
Total unavailable revenue	\$	2,489,373	\$	422,519	\$	528,794	\$	3,440,686
Deferred Revenue:								
Unbilled property taxes	\$	9,026,887	\$1	1,545,883	\$ 1	1,934,516	\$	12,507,286
Prepaid taxes		2,255,517		354,313		467,041		3,076,871
Total deferred revenue	\$	11,282,404	\$1	1,900,196	\$ 2	2,401,557	\$	15,584,157

14. INTERFUND TRANSFERS

Interfund transfers for the year ended June 30, 2017 were made up of the following:

	Transfers		Transfers
Primary Government:		ln	Out
Governmental funds:			
General fund	\$	129,760	\$ 2,490,734
Virginia Public Assistance Fund		679,851	-
Comprehensive Youth Services Fund		202,007	-
County capital projects fund		1,294,590	-
Non-major governmental funds		121,554	130,760
Total governmental funds		2,427,762	2,621,494
Enterprise funds:			
Airport fund		193,732	-
Total Primary Government	\$	2,621,494	\$ 2,621,494

The purpose of the interfund transfers is as follows:

<u>Purpose</u>	Amount
Finance pay-as-you-go capital projects	\$ 1,310,590
Satisfy grant local match requirements	202,007
Supplement operations and local match requirements of the Dept. of Social Services	679,851
Satisfy local share of hazardous duty supplement	129,760
Supplement operations of the County's Stormwater Ordinance Fund	105,554
Supplement operations of the Accomack County Airport	193,732
Total interfund transfers	\$ 2,621,494

The Primary Government also transferred \$15,421,521 to the School Board Component Unit, \$345,907 to the Eastern Shore Library Component Unit, \$90,424 to the Planning District Component Unit, \$7,500 to the Economic Development Authority and \$72,904 to the Captains Cove/Greenbackville Mosquito Control Component Unit to be used to supplement operations. These amounts are reported as expenditures in the County's financial statements.

NOTES TO FINANCIAL STATEMENTS

At June 30, 2017 (Continued)

15. CONTINGENT LIABILITIES

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the government expects such amounts, if any, to be immaterial. The primary government and its component units are defendants in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the government's counsel the resolution of these matters will not have a material adverse effect on the financial condition of the reporting entity.

16. RISK MANAGEMENT

The County is a member of the Virginia Municipal Group Self Insurance Association for workers' compensation and the Virginia Association of Counties Risk Pool for property, general liability, automobile and crime insurance. Each Association member jointly and severally agrees to assume, pay and discharge any liability. The County pays the Virginia Municipal Group Insurance Association and the Virginia Association of Counties Risk Pool contributions and assessments based upon classifications and rates into a designated cash reserve fund out of which expenses of the Association and claims and awards are paid. In the event of a loss deficit and depletion of all available excess insurance, the Associations may assess all members in the proportion which the premium of each bears to the total premiums of all members in the year in which such deficit occurs. The County continues to carry commercial insurance for all other risks of losses. During the last three fiscal years, settled claims from these risks have not exceeded commercial coverage.

17. EXCESS OF EXPENDITURES OVER APPROPRIATIONS

A. Primary Government:

For the year ended June 30, 2017, the following expenditures exceeded appropriations:

Major	Funds:
-------	--------

,	
General Fund:	
Human Resources	\$ 74
Clerk of Circuit Court	9,919
Total General Fund	\$ 9,993
Nonmajor Funds:	
Stormw ater Ordinance Fund	\$ 47,185
Greenbackville/Captains Cove Mosquito Control Fund	12,256
Rehabilitation Projects Fund	3,147
Total Nonmajor Funds	\$ 62,588

The General Fund variances were funded by unassigned fund balance. All nonmajor fund variances were funded by grant program income or unassigned fund balance.

NOTES TO FINANCIAL STATEMENTS

At June 30, 2017 (Continued)

18. SURETY BONDS

The following elected officials and County employees were covered by surety bonds at June 30, 2017:

Commonw ealth of Virginia Division of Risk Management (Commonw ealth funded): 500 000 Dana T. Bundick, Treasurer (1) Todd Godw in, Sheriff (1) 30,000 Leslie A. Savage, Commissioner of the Revenue (1) 3.000 Samuel H. Cooper, Clerk of the Court (1) 350,000 Virginia Association of Counties Self Insurance-Risk Pool: All County employees - Blanket bond coverage 1,000,000 All School employees - Blanket bond coverage All Social Services employees - Blanket bond coverage 100.000 Vicki Wheakley, Director of Social Services 5,000 ¹Commonw ealth funded surety bonds also cover employees of the elected official.

19. TRUST FOR OTHER POSTEMPLOYMENT BENEFITS

The County of Accomack has established an irrevocable trust pursuant to Section 15.2-1544 of the Code of Virginia, as amended for the purpose of accumulated and investing assets to fund Other Postemployment Benefits (OPEB) and to participate in the Virginia Pooled OPEB Trust Fund and has established a Local Finance Board to become a Participating Employer in the Trust Fund. The Trust Fund provides administrative, custodial and investment services to the Participating Employers in the Trust Fund. For the fiscal year ending June 30, 2017 the County contributed \$152,292 to the Trust Fund. Expenses allocated to the Trust Fund during the fiscal year ended June 30, 2017 were \$107,709.

The County participates in the Virginia Pooled OPEB Trust Fund, an irrevocable trust established for the purpose of accumulating assets to fund postemployment benefits other than pensions. The Trust Fund issues a separate report, which can be obtained by requesting a copy from the plan administrator, Virginia Municipal League (VML) at P.O. Box 12164, Richmond, Virginia 23241.

20. OTHER POSTEMPLOYMENT BENEFITS-HEALTH INSURANCE

County:

A. Plan Description:

The County Post-Retirement Medical Plan is a single-employer defined benefit healthcare plan which provides post-retirement health insurance benefits to qualifying employees. The exact benefit is dependent on the eligibility rules for each benefit. The following is a summary of three postemployment health insurance benefits available to retirees.

- Post-65 Retiree Health Insurance Plan Provides post retirement supplemental health insurance benefits for employees who are at least 65 years old, are enrolled in Medicare parts A and B, and who have at least 15 years of service with the County if they retire from service prior to January 1, 2017. The sunset date of January 1, 2014 was adopted by the County in fiscal year 2014. After this date, no additional retirees will be eligible for plan.
- County Supplemental Health Insurance Credit Plan Provides a monthly insurance premium reimbursement to employees who retire with 15 more years of VRS service, participate in a County-sponsored or personal health insurance plan, and were employed by the County as of June 30, 2014. The amount of the monthly reimbursement is based on total VRS years of service.
- <u>Early Retiree Health Insurance Continuation Plan</u> Allows employees who retire prior to age 65 and have at least 15 years of service to remain on the County's health insurance plan at their own expense until they reach age 65. The County's Post-Retirement Medical Plan does not issue a separate, audited GAAP-basis report.

NOTES TO FINANCIAL STATEMENTS

At June 30, 2017 (Continued)

20. OTHER POSTEMPLOYMENT BENEFITS-HEALTH INSURANCE-continued

County-continued:

B. Funding Policy:

The County establishes employer contribution rates for plan participants as part of the budgetary process each year. The County also determines how the plan will be funded each year, whether it will partially fund the plan or fully fund the plan. Again this is determined annually as part of the budgetary process. For retirees participating in the *Post-65 Retiree Health Insurance Plan*, the County pays 50% of the monthly employee-only insurance premium with the retiree responsible for the remainder. Participation ceases upon the retiree's death or the retiree's failure to pay their share of the premium. Retirees participating in the *Early Retiree Health Insurance Continuation Plan* are responsible for 100% of the cost of continuing their County insurance coverage. Participation ceases at age 65. Retirees participating in the *County's Supplemental Health Insurance Credit Plan* receive a monthly reimbursement for insurance premiums paid. The base monthly credit is equal to \$2.50 for each year of VRS service. An additional credit of \$450 per month is paid to retirees who became permanently and totally disabled as a direct result of an injury sustained in the performance of their County job. The total reimbursement cannot exceed the premium paid by the retiree. The disability credit ceases when the retiree becomes Medicare eligible or dies. The base credit continues until the retiree's death.

C. Annual OPEB Cost and Net OPEB Obligation:

The County's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the County's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the County's net OPEB obligation:

A	Φ.	120,000
Annual required contribution	\$	120,000
Interest on net OPEB obligation		92,000
Adjustment to annual required contribution		(86,000)
Annual OPEB cost (expense)	\$	126,000
Contribution made		97,000
Increase in net OPEB obligation	\$	29,000
Net OPEB obligation-beginning of year		1,749,000
Net OPEB obligation-end of year	\$	1,778,000

The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2017 are as follows:

Fiscal		Annual	Percentage of		Net
Year		Pension	Annual OPEB		Pension
Ended		Cost	Cost Contribute	ł	Obligation
	П				
June 30, 2015	\$	232,000	63%	\$	1,683,000
June 30, 2016		241,000	73%		1,749,000
June 30, 2017		126,000	77%		1,778,000

NOTES TO FINANCIAL STATEMENTS

At June 30, 2017 (Continued)

20. OTHER POSTEMPLOYMENT BENEFITS-HEALTH INSURANCE-continued

County-continued:

D. Funded Status and Funding Progress

The funded status of the plan as of July 1, 2016, actuarial valuation date, is as follows:

Actuarial accrued liability (AAL)	\$ 1,512,000
Actuarial value of plan assets	125,000
Unfunded actuarial accrued liability	1,387,000
Funded ratio (actuarial value of plan assets / AAL)	8%
Covered payroll (active plan members)	11,036,000
UAAL as a percentage of covered payroll	12.6%

E. Actuarial Methods and Assumptions

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revisions as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

Cost Method

The projected unit credit (PUC) cost method was used for this valuation. The objective of this method is to fund each participant's benefits under the plan as they would accrue. Under this method, the total value of the benefit to which each participant is expected to become entitled to is broken down into units, each associated with a year of past or future credited service.

Interest Assumptions

In July 1, 2016, the date of the most recent actuarial valuation, the projected unit credit cost method was used. The actuarial assumptions included a 5.25 percent investment rate of return (net of administrative expenses), which is a blended rate of the expected long-term investment returns on plan assets and on the employer's own investments calculated based on the funded level of the plan at the valuation date, an inflation rate of 2.50%, and an annual healthcare cost trend rate of 7 percent initially, reduced by decrements to an ultimate rate of 5.00 percent after eighty years. The actuarial value of assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period. The UAAL is being amortized as a level

percentage of projected payroll on an open basis. The remaining amortization period at July 1, 2016, was thirty years.

	Unfunded
Discount rate	5.25%
Payroll growth	2.50%

NOTE 20-OTHER POST-EMPLOYMENT BENEFITS PROGRAM: (CONTINUED)

School Board:

A. Plan Description:

The School Board Post-Retirement Medical Plan is a single-employer defined benefit healthcare plan that provides post-retirement health care insurance benefits for employees who are eligible. Employees who retired effective 1985-86 school year or later and under provisions of the Virginia Supplemental Retirement System (VSRS) prior to age 65 and were on full-time status in a VSRS covered position and were participating in the hospitalization plan at the time of retirement are eligible. The School Board's Post-Retirement Healthcare Plan does not issue a separate, audited GAAP basis report.

B. Funding Policy:

The School Board establishes employer contribution rates for plan participants as part of the budgetary process each year. The School Board also determines how the plan will be funded each year, whether it will partially fund the plan or fully fund the plan. Again, this is determined annually as part of the budgetary process. Retirees pay 100% of the monthly premiums. Coverage ceases when retirees reach the age of 65. Surviving spouses can stay in the plan but must pay the full premium.

C. Annual OPEB Cost and Net OPEB Obligation:

The School Board's annual other post employment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the County's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the County's net OPEB obligation:

Annual required contribution	\$ 301,300
Interest on net OPEB obligation	40,500
Adjustment to annual required contribution	(59,000)
Annual OPEB cost (expense)	\$ 282,800
Contribution made	124,000
Increase in net OPEB obligation	\$ 158,800
Net OPEB obligation-beginning of year	1,012,000
Net OPEB obligation-end of year	\$ 1,170,800

NOTES TO FINANCIAL STATEMENTS

At June 30, 2017 (Continued)

20. OTHER POSTEMPLOYMENT BENEFITS-HEALTH INSURANCE-continued

School Board-continued:

The School Board's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2017 are as follows:

Fiscal	Annual	Percentage of	Net
Year	Pension	Annual OPEB	Pension
Ended	Cost	Cost Contributed	Obligation
June 30, 2015	\$ 275,000	48.36%	\$ 880,000
June 30, 2016	285,000	53.68%	1,012,000
June 30, 2017	282,800	43.85%	1,170,800

D. Funded Status and Funding Progress

The funded status of the plan as of July 1, 2016, actuarial valuation date, is as follows:

Actuarial accrued liability (AAL)	\$ 2,407,100
Actuarial value of plan assets	-
Unfunded actuarial accrued liability	2,407,100
Funded ratio (actuarial value of plan assets / AAL)	0%
Covered payroll (active plan members)	28,842,000
UAAL as a percentage of covered payroll	8.3%

E. Actuarial Methods and Assumptions

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revisions as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

Cost Method

The projected unit credit (PUC) cost method was used for this valuation. The objective of this method is to fund each participant's benefits under the plan as they would accrue. Under this method, the total value of the benefit to which each participant is expected to become entitled to is broken down into units, each associated with a year of past or future credited service.

NOTES TO FINANCIAL STATEMENTS

20. OTHER POSTEMPLOYMENT BENEFITS-HEALTH INSURANCE-continued

School Board-continued:

Interest Assumptions

In July 1, 2016, the date of the most recent actuarial valuation, the projected unit credit cost method was used. The actuarial assumptions included a 4.00 percent investment rate of return (net of administrative expenses), which is a blended rate of the expected long-term investment returns on plan assets and on the employer's own investments calculated based on the funded level of the plan at the valuation date, an inflation rate of 2.50%, and an annual healthcare cost trend rate of 8 percent initially, reduced by decrements to an ultimate rate of 5.00 percent after eighty years. The actuarial value of assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period. The UAAL is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at July 1, 2016, was 20 years.

	Unfunded
Discount rate	4.00%
Payroll growth	2.50%

21. OTHER POSTEMPLOYMENT BENEFITS-VRS HEALTH INSURANCE CREDIT

County:

A. Plan Description

The County began participating in the Health Insurance Credit Program in fiscal year 2015, a plan designed to assist retirees with the cost of health insurance coverage. This program is an agent and cost sharing, multiple-employer defined benefit plan administered by the Virginia Retirement System (VRS). The Virginia General Assembly establishes the dollar amount of the health insurance credit for each year of creditable service. The credit amount and eligibility differs for state, school division, political subdivision, local officer, local social services department and general registrar retirees.

An employee of the County, who retires under VRS with at least 15 years of total creditable service under the System and is enrolled in a health insurance plan, is eligible to receive a monthly health insurance credit of \$1.50 per year of creditable service up to a maximum monthly credit of \$45. However, such credit shall not exceed the health insurance premium for the retiree. Disabled retirees automatically receive automatically receive the maximum monthly health insurance credit of \$45.

Benefit provisions and eligibility requirements are established by Title 51.1, Chapter 14 of the Code of Virginia. The VRS actuarially determines the amount necessary to fund all credits provided, reflects the cost of such credits in the applicable employer contribution rate pursuant to §51.1-145, and prescribes such terms and conditions as are necessary to carry out the provisions of the health insurance credit program. VRS issues separate financial statements as discussed in Note 22.

B. Funding Policy

As a participating local political subdivision, the County is required to contribute the entire amount necessary to fund participation in the program using the actuarial basis specified by the Code of Virginia and the VRS Board of Trustees. The County's contribution rate for the fiscal year ended June 30, 2017 was .45% of annual covered payroll.

NOTES TO FINANCIAL STATEMENTS

At June 30, 2017 (Continued)

21. OTHER POSTEMPLOYMENT BENEFITS-VRS Health Insurance Credit-continued

C. Annual OPEB Cost and Net OPEB Obligation

The annual cost of OPEB under Governmental Accounting Standards Board (GASB) 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other than Pensions, is based on the annual required contribution (ARC). The County is required to contribute the ARC, an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

For 2017, the County's contribution of \$26,471 was equal to the ARC and OPEB cost. The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2017 and the two preceding years are as follows:

Fiscal	Annual	Percentage of		Net
Year	OPEB	Annual OPEB		Pension
Ended	Cost	Cost Contributed	l	Obligation
June 30, 2015	\$ 12,836	63%	\$	-
June 30, 2016	13,030	73%		-
June 30, 2017	26,471	100%		-

D. Funding Status and Funding Progress

The funded status of the plan as of June 30, 2016, the most recent actuarial valuation date, is as follows:

Actuarial accrued liability (AAL)	\$ 276,563
Actuarial value of plan assets	5,956
Unfunded actuarial accrued liability	270,607
Funded ration (actuarial value of plan assets / AAL)	2.15%
Covered payroll (active plan members)	5,644,963
UAAL as a percentage of covered payroll	4.79%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future and reflect a long-term perspective. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

The schedule of funding progress, presented as required supplementary information following the notes to the financial statements presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

NOTES TO FINANCIAL STATEMENTS

At June 30, 2017 (Continued)

21. OTHER POSTEMPLOYMENT BENEFITS-VRS Health Insurance Credit-continued

E. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used included techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The entry age normal cost method was used to determine the plan's funding liabilities and costs. The actuarial assumptions included a 7.0% investment rate of return, compounded annually, including an inflation component of 2.5%, and a payroll growth rate of 3%. The UAAL is being amortized as a level percentage of payroll on a closed basis. The remaining closed amortization period at June 30, 2016 was 18-20 years.

The Retiree Health Insurance Credit benefit is based on a member's employer eligibility and his or her years of service. The monthly maximum credit amount cannot exceed the member's actual health insurance premium costs. The actuarial valuation for this plan assumes the maximum credit is payable for each eligible member. Since this benefit is a flat dollar amount multiplied by years of service and the maximum benefit is assumed, no assumption relating to healthcare cost trend rates is needed or applied.

School Board:

A. Plan Description

The School Board participates in the Health Insurance Credit Program, a plan designed to assist retirees with the cost of health insurance coverage. This program is a cost sharing, multiple-employer defined benefit plan administered by the Virginia Retirement System (VRS). The Virginia General Assembly establishes the dollar amount of the health insurance credit for each year of creditable service. The credit amount and eligibility differs for state, school division, political subdivision, local officer, local social services department and general registrar retirees.

A teacher, who retires under VRS with at least 15 years of total creditable service under the System and is enrolled in a health insurance plan, is eligible to receive a monthly health insurance credit of \$4 per year of creditable service. However, such credit shall not exceed the health insurance premium for the retiree. Disabled retirees automatically receive a monthly health insurance credit of \$4 multiplied by the smaller of (i) twice the amount of their creditable service or (ii) the amount of creditable service they would have completed at age 60 if they had remained in service to that age.

Benefit provisions and eligibility requirements are established by Title 51.1, Chapter 14 of the <u>Code of Virginia</u>. The VRS actuarially determines the amount necessary to fund all credits provided, reflects the cost of such credits in the applicable employer contribution rate pursuant to §51.1-145, and prescribes such terms and conditions as are necessary to carry out the provisions of the health insurance credit program. VRS issues separate financial statements as previously discussed in Note 23.

NOTES TO FINANCIAL STATEMENTS

At June 30, 2017 (Continued)

21. OTHER POSTEMPLOYMENT BENEFITS-VRS Health Insurance Credit-continued

B. Funding Policy

The School Board is required to contribute, at an actuarially determined rate, the entire amount necessary to fund participation in the program. The current rate is 1.13% of annual covered payroll. The School Board's contributions to VRS for the years ended June 30, 2017, 2016, and 2015 were \$294,030, \$275,815, and \$273,013, respectively and equaled the required contributions for each year.

22. OTHER POSTEMPLOYMENT BENEFITS-TRUST FUND

Plan Description

Plan administration

Accomack County administers the Accomack County Retiree Benefits Plan (ACRBP)-a single employer defined benefit plan that is used to provide postemployment benefits other than pensions (OPEB) for all permanent full-time general and public safety employees of the County.

Management of the ACRBP is vested in the Accomack County Local Finance Board (ACLF Board), which consists of the Chief Financial Officer of the County, the County Treasurer, and at least one other additional person who shall be a citizen of the Commonwealth with proven integrity, business ability, and demonstrated experience in cash management and in investments.

Plan membership

At June 30, 2017, ACRBP membership consisted of the following:

Inactive plan members or beneficiaries currently receiving benefit payments		23
Active plan members		262
		285

Benefits provided

ACRBP provides healthcare and vision benefits for retirees and their dependents. Benefits are provided through a third-party insurer, and the full cost of benefits is covered by the plan. Accomack County Code grants the authority to establish and amend the benefit terms to the Accomack County Local Finance Board.

Contributions

Accomack County Code grants the authority to establish and amend the contribution requirements of the County and plan members to the Accomack County Local Finance Board. The Board establishes rates based on an actuarially determined rate. For the year ended June 30, 2017, the County's average contribution rate was .88 percent of covered-employee payroll. Plan members are not required to contribute to the plan.

22. OTHER POSTEMPLOYMENT BENEFITS-Trust Fund (Continued)

Investments

Investment policy

ACRBP's policy in regard to the allocation of invested assets is established and may be amended by the Accomack County Local Finance Board by a majority vote of its members. It is the policy of the Accomack County Local Finance Board to pursue an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes. ACRBP's investment policy discourages the use of cash equivalents, except for liquidity purposes, and aims to refrain from dramatically shifting asset class allocations over short time spans. The following was the Board's adopted asset allocation policy as of June 30, 2017:

	Target	t
Asset Class	Allocation	
Core Fixed Income	21	%
Core Bonds	12	
Large Cap US Equities	22	
Small Cap US Equities	10	
Developed Foreign Equities	10	
Emerging Market Equities	5	
Hedge Funds/Absolute Return	10	
Real Estate	7	
Commodities	3	
Total	100	%

Rate of return

For the year ended June 30, 20X9, the annual money-weighted rate of return on investments, net of investment expense, was 12.33 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Net OPEB liability of the County

The components of the net OPEB liability of the County at June 30, 2017, were as follows:

Total OPEB liability	\$ 2,074,538
Plan fiduciary net position	(184,555)
County's net OPEB liability	1,889,983
Plan fiduciary net position as a percentage of the total OPEB liability	8.90%

NOTES TO FINANCIAL STATEMENTS

At June 30, 2017 (Continued)

22. OTHER POSTEMPLOYMENT BENEFITS-Trust Fund (Continued)

Actuarial assumptions

The total OPEB liability was determined by an actuarial valuation as of June 30, 2017, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation	3.65%
Salary increases	2.5 percent, average, including inflation
Investment rate of return	6.89%, net of OPEB plan investment expense, including inflation
Healthcare cost trend rates	7.0% for 2017, decreasing 0.5% per year to an
	ultimate rate of 5.0% for 2018 and later years

Mortality rates were based on the RP-2014 Mortality Table, fully generational, projected using twodimensional mortality improvement scale MP-2016.

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study as of July 1, 2016.

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the target asset allocation as of June 30, 20X9 (see the discussion of SCRBP's investment policy) are summarized in the following table:

	Long-Tem Expected			
Asset Class	Real Rate of Return			
Core Fixed Income	2.17%			
Core Bonds	2.01			
Large Cap US Equities	4.55			
Small Cap US Equities	5.77			
Developed Foreign Equities	5.76			
Emerging Market Equities	8.06			
Hedge Funds/Absolute Return	1.97			
Real Estate	5.04			
Commodities	3.04			

NOTES TO FINANCIAL STATEMENTS

At June 30, 2017 (Continued)

22. OTHER POSTEMPLOYMENT BENEFITS-Trust Fund (Continued)

Discount rate

The discount rate used to measure the total OPEB liability was 3.65 percent. The projection of cash flows used to determine the discount rate assumed that County contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Sensitivity of the net OPEB liability to changes in the discount rate

The following presents the net OPEB liability of the County, as well as what the County's net OPEB liability would be if it were calculated using a discount rate that is 1-percentage point lower (2.65 percent) or 1-percentage-point higher (4.65 percent) than the current discount rate:

	1% Decrease	Discount Rate	1% Increase
	(2.65%)	(3.65%)	(4.65%)
Net OPEB Liability (Asset)	\$ 2,363,749	\$ 1,889,983	\$ 1,835,750

Sensitivity of the net OPEB liability to changes in the healthcare cost trend rates. The following presents the net OPEB liability of the County, as well as what the County's net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower (6.0 percent decreasing to 4.0 percent) or 1-percentage-point higher (8.0 percent decreasing to 6.0 percent) than the current healthcare cost trend rates:

Sensitivity of the net OPEB liability to changes in the discount rate (continued)

		Healthcare Cost	
	1% Decrease	Trend Rates	1% Decrease
	(6.0% decreasing	(7.0% decreasing	(8.0% decreasing
	to 4.0%)	to 5.0%)	to 6.0%)
Net OPEB Liability (Asset)	\$ 2,017,161	\$ 1,889,983	\$ 2,141,429

NOTES TO FINANCIAL STATEMENTS

23. PENSION PLAN

Plan Description

All full-time, salaried permanent employees of the County and (nonprofessional) employees of public school divisions are automatically covered by a VRS Retirement Plan upon employment. This is an agent multiple-employer plan administered by the Virginia Retirement System (the System) along with plans for other employer groups in the Commonwealth of Virginia. Members earn one month of service credit for each month they are employed and for which they and their employer pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria as defined in the Code of Virginia, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously refunded service.

The System administers three different benefit structures for covered employees – Plan 1, Plan 2, and, Hybrid. Each of these benefit structures has different eligibility criteria. The specific information for each plan and the eligibility for covered groups within each plan are set out in the table below:

RETIREMENT PLAN PROVISIONS			
PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN	
About Plan 1 Plan 1 is a defined benefit plan. The retirement benefit is based on a member's age, creditable service and average final compensation at retirement using a formula. Employees are eligible for Plan 1 if their membership date is before July 1, 2010, and they were vested as of January 1, 2013.	About Plan 2 Plan 2 is a defined benefit plan. The retirement benefit is based on a member's age, creditable service and average final compensation at retirement using a formula. Employees are eligible for Plan 2 if their membership date is on or after July 1, 2010, or their membership date is before July 1, 2010, and they were not vested as of January 1, 2013.	About the Hybrid Retirement Plan The Hybrid Retirement Plan combines the features of a defined benefit plan and a defined contribution plan. Most members hired on or after January 1, 2014 are in this plan, as well as Plan 1 and Plan 2 members who were eligible and opted into the plan during a special election window. (see "Eligible Members") • The defined benefit is based on a member's age, creditable service and average final compensation at retirement using a formula. • The benefit from the defined contribution component of the plan depends on the member and employer contributions made to the plan and the investment performance of those contributions.

Hybrid Opt-In Election (Cont.) Members who were eligible for an optional retirement plan (ORP) and have prior service under Plan 2 were not eligible to elect the Hybrid Retirement Plan and remain as Plan 2 or ORP.	*Non-Eligible Members (Cont.) Those employees eligible for an optional retirement plan (ORP) must elect the ORP plan or the Hybrid Retirement Plan. If these members have prior service under Plan 1 or Plan 2, they are not eligible to elect the Hybrid Retirement Plan and must select Plan 1 or Plan 2 (as applicable) or ORP.	
Retirement Contributions Employees contribute 5% of their compensation each month to their member contribution account through a pre-tax salary reduction. Some political subdivisions and school divisions elected to phase in the required 5% member contribution but all employees are paying the full 5% as of July 1, 2016. Member contributions are tax-deferred until they are withdrawn as part of a retirement benefit or as a refund. The employer makes a separate actuarially determined contribution to VRS for all covered employees. VRS invests both member and employer contributions to provide funding for the future benefit payment.	Retirement Contributions Employees contribute 5% of their compensation each month to their member contribution account through a pre-tax salary reduction. Some political subdivisions and school divisions elected to phase in the required 5% member contribution but all employees are paying the full 5% as of July 1, 2016.	Retirement Contributions A member's retirement benefit is funded through mandatory and voluntary contributions made by the member and the employer to both the defined benefit and the defined contribution components of the plan. Mandatory contributions are based on a percentage of the employee's creditable compensation and are required from both the member and the employer. Additionally, members may choose to make voluntary contributions to the defined contribution component of the plan, and the employer is required to match those voluntary contributions according to specified percentages.

RETIREMENT PLAN PROVISIONS (CONTINUED)										
PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN								
Disability Coverage Members who are eligible to be considered for disability retirement and retire on disability, the retirement multiplier is 1.7% on all service, regardless of when it was earned, purchased or granted. VSDP members are subject to a one-year waiting period before becoming eligible for non-work-related disability benefits.	Disability Coverage Members who are eligible to be considered for disability retirement and retire on disability, the retirement multiplier is 1.65% on all service, regardless of when it was earned, purchased or granted. VSDP members are subject to a one-year waiting period before becoming eligible for non-work related disability benefits.	Disability Coverage Employees of political subdivisions and School divisions (including Plan 1 and Plan 2 optins) participate in the Virginia Local Disability Program (VLDP) unless their local governing body provides an employer-paid comparable program for its members. Hybrid members (including Plan 1 and Plan 2 opt-ins) covered under VLDP are subject to a one-year waiting period before becoming eligible for non-work-related disability benefits.								
Purchase of Prior Service Members may be eligible to purchase service from previous public employment, active duty military service, an eligible period of leave or VRS refunded service as creditable service in their plan. Prior creditable service counts toward vesting, eligibility for retirement and the health insurance credit. Only active members are eligible to purchase prior service. When buying service, members must purchase their most recent period of service first. Members also may be eligible to purchase periods of leave without pay.	Purchase of Prior Service Same as Plan 1.	Purchase of Prior Service Defined Benefit Component: Same as Plan 1, with the following exceptions: Hybrid Retirement Plan members are ineligible for ported service. The cost for purchasing refunded service is the higher of 4% of creditable compensation or average final compensation. Plan members have one year from their date of hire or return from leave to purchase all but refunded prior service at approximate normal cost. After that one-year period, the rate for most categories of service will change to actuarial cost. Defined Contribution Component: Not applicable.								

NOTES TO FINANCIAL STATEMENTS

At June 30, 2017 (Continued)

23. PENSION PLAN (Continued)

Pension Plan Data

Information about the VRS Political Subdivision Retirement Plan is also available in the separately issued VRS 2016 Comprehensive Annual Financial Report (CAFR). A copy of the 2016 VRS CAFR may be downloaded from the VRS website at http://www.varetire.org/Pdf/Publications/2016-annual-report-pdf, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA 23218-2500.

Employees Covered by Benefit Terms

As of the June 30, 2015 actuarial valuation, the following employees were covered by the benefit terms of the pension plan:

		Component Unit
	Primary	School Board
	Government	Nonprofessional
Inactive members or their beneficiaries currently		
receiving benefits	158	78
Inactive members:		
Vested inactive members	25	19
Non-vested inactive members	66	42
Inactive members active elsewhere in VRS	92	13
Total inactive members	183	74
Active members	257	182
Total covered employees	598	334

Contributions

The contribution requirement for active employees is governed by §51.1-145 of the <u>Code of Virginia</u>, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement. Prior to July 1, 2012, all or part of the 5.00% member contribution may have been assumed by the employer. Beginning July 1, 2012, new employees were required to pay the 5% member contribution. In addition, for existing employees, employers were required to begin making the employee pay the 5.00% member contribution. This could be phased in over a period of up to 5 years and the employer is required to provide a salary increase equal to the amount of the increase in the employee-paid member contribution.

The County's contractually required contribution rate for the year ended June 30, 2017 was 8.07% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2015.

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the County were \$912,017 and \$1,081,473 for the years ended June 30, 2017 and June 30, 2016, respectively.

The Component Unit School Board's contractually required contribution rate for nonprofessional employees for the year ended June 30, 2017 was 4.18% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2015.

NOTES TO FINANCIAL STATEMENTS

At June 30, 2017 (Continued)

23. PENSION PLAN (Continued)

Contributions (Continued)

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the Component Unit School Board's nonprofessional employees were \$123,405 and \$212,780 for the years ended June 30, 2017 and June 30, 2016, respectively.

Net Pension Liability

The County's and Component Unit School Board's (nonprofessional) net pension liabilities were measured as of June 30, 2016. The total pension liabilities used to calculate the net pension liabilities were determined by an actuarial valuation performed as of June 30, 2015, using updated actuarial assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2016.

Actuarial Assumptions - General Employees

The total pension liability for General Employees in the County's and Component Unit School Board's (nonprofessional) Retirement Plan was based on an actuarial valuation as of June 30, 2015, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2016.

Inflation	2.5%
Salary increases, including inflation	3.5% - 5.35%
Investment rate of return	7.0%, net of pension plan investment
	expense, including inflation*

^{*} Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 7.0%. However, since the difference was minimal, and a more conservative 7.0% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 7.0% to simplify preparation of pension liabilities.

Mortality rates: 14% of deaths are assumed to be service related

Largest 10 – Non-LEOS:

Pre-Retirement:

The actuarial assumptions used in the June 30, 2015 valuation were based on the results of an actuarial experience study for the period from July 1, 2008 through June 30, 2012. Changes to the actuarial assumptions as a result of the experience study are as follows:

Largest 10 - Non-LEOS:

- Update mortality table
- Decrease in rates of service retirement
- Decrease in rates of disability retirement
- Reduce rates of salary increase by 0.25% per year

All Others (Non 10 Largest) - Non-LEOS:

- Update mortality table
- Decrease in rates of service retirement
- Decrease in rates of disability retirement
- Reduce rates of salary increase by 0.25% per year

Actuarial Assumptions – Public Safety Employees

The total pension liability for Public Safety employees in the County's Retirement Plan was based on an actuarial valuation as of June 30, 2015, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2016.

Inflation	2.5%
Salary increases, including inflation	3.5% - 4.75%
Investment rate of return	7.0%, net of pension plan investment
	expense, including inflation*

^{*} Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 7.0%. However, since the difference was minimal, and a more conservative 7.0% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 7.0% to simplify preparation of pension liabilities.

NOTES TO FINANCIAL STATEMENTS

At June 30, 2017 (Continued)

23. PENSION PLAN (Continued)

Long-Term Expected Rate of Return

The long-term expected rate of return on pension System investments was determined using a lognormal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

						Weighted		
				Arithmetic		Average		
				Long-Term		Long-Term		
		Target	П	Expected		Expected		
Asset Class (Strategy)		Allocation		Rate of Return		Rate of Return		
U.S. Equity		19.50%		6.46%		1.26%		
Developed Non U.S. Equity		16.50%		6.28%		1.04%		
Emerging Market Equity		6.00%		10.00%		0.60%		
Fixed Income		15.00%		0.09%		0.01%

Rate Sensitive Credit		4.50%		3.51%		0.16%		
Non Rate Sensitive Credit		4.50%		5.00%		0.23%		
Convertibles		3.00%		4.81%		0.14%		
Public Real Estate		2.25%		6.12%		0.14%		
Private Real Estate		12.75%		7.10%		0.91%		
Private Equity		12.00%	П	10.41%		1.25%		
Cash		1.00%		-1.50%		-0.02%		
Total		100.00%				5.83%		
				Inflation		2.50%		
	*Expected arithmetic nominal return							

^{*} Using stochastic projection results provides an expected range of real rates of return over various time horizons. Looking at one year results produces an expected real return of 8.33% but also has a high standard deviation, which means there is high volatility. Over larger time horizons the volatility declines significantly and provides a median return of 7.44%, including expected inflation of 2.50%.

NOTES TO FINANCIAL STATEMENTS

At June 30, 2017 (Continued)

23. PENSION PLAN (Continued)

Discount Rate

The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that System member contributions will be made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ending June 30, 2018, the rate contributed by the employer for the County and Component Unit School Board (nonprofessional) Retirement Plans will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly. From July 1, 2018 on, participating employers are assumed to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

23. PENSION PLAN (Continued)

Component Unit School Board (professional)

Plan Description

All full-time, salaried permanent (professional) employees of public school divisions are automatically covered by the VRS Teacher Retirement Plan upon employment. This is a cost-sharing multiple employer plan administered by the Virginia Retirement System (the system). Additional information regarding the plan description can be found in the first section of this note.

Contributions

The contribution requirement for active employees is governed by §51.1-145 of the <u>Code of Virginia</u>, as amended, but may be impacted as a result of funding options provided to school divisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement. Prior to July 1, 2012, all or part of the 5.00% member contribution may have been assumed by the employer. Beginning July 1, 2012, new employees were required to pay the 5% member contribution. In addition, for existing employees, employers were required to begin making the employee pay the 5.00% member contribution. This could be phased in over a period of up to 5 years and the employer is required to provide a salary increase equal to the amount of the increase in the employee-paid member contribution.

Each School Division's contractually required contribution rate for the year ended June 30, 2017 was 14.66% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2015 and reflects the transfer in June 2015 of \$192,884,000 as an accelerated payback of the deferred contribution in the 2010-12 biennium. The actuarial rate for the Teacher Retirement Plan was 16.32. The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Based on the provisions of §51.1-145 of the Code of Virginia, as amended the contributions were funded at 89.84% of the actuarial rate for the year ended June 30, 2017. Contributions to the pension plan from the School Board were \$3,778,447 and \$3,658,456 for the years ended June 30, 2017 and June 30, 2016, respectively.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2017, the school division reported a liability of \$47,806,000 for its proportionate share of the Net Pension Liability. The Net Pension Liability was measured as of June 30, 2016 and the total pension liability used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date. The school division's proportion of the Net Pension Liability was based on the school division's actuarially determined employer contributions to the pension plan for the year ended June 30, 2016 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2016, the school division's proportion was 0.34113% as compared to 0.34623% at June 30, 2015.

NOTES TO FINANCIAL STATEMENTS

At June 30, 2017 (Continued)

23. PENSION PLAN (Continued)

Component Unit School Board (professional) (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

For the year ended June 30, 2017, the school division recognized pension expense of \$3,861,000. Since there was a change in proportionate share between measurement dates, a portion of the pension expense was related to deferred amounts from changes in proportion and from differences between employer contributions and the proportionate share of employer contributions.

At June 30, 2017, the school division reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

		Deferred Outflows	Deferred Inflows
		of Resources	of Resources
Differences between expected and actual experience		-	\$ 1,549,000
Net difference between projected and actual			
earnings on pension plan investments		2,731,000	-
Changes in proportion and differences between			
employer contributions and proportionate			
share of contributions		275,000	1,300,000
Employer contributions subsequent to the			
measurement date		3,778,447	-
Total	\$	6,784,447	\$ 2,849,000

\$3,778,447 reported as deferred outflows of resources related to pensions resulting from the school division's contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the fiscal year ended June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future reporting periods as follows:

Year ended June 30	
2018	\$ (570,000)
2019	(570,000)
2020	908,000
2021	546,000
Thereafter	(157,000)

NOTES TO FINANCIAL STATEMENTS

At June 30, 2017 (Continued)

23. PENSION PLAN (Continued)

Component Unit School Board (professional) (Continued)

Actuarial Assumptions

The total pension liability for the VRS Teacher Retirement Plan was based on an actuarial valuation as of June 30, 2015, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2015.

Inflation	2.5%
Salary increases, including inflation	3.5% - 5.95%
Investment rate of return	7.0%, net of pension plan investment
	expense, including inflation*

^{*} Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 7.0%. However, since the difference was minimal, and a more conservative 7.0% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 7.0% to simplify preparation of pension liabilities.

Mortality rates:

Pre-Retirement:

RP-2000 Employee Mortality Table Projected with Scale AA to 2020 with males set back 3 years and females set back 5 years

Post-Retirement:

RP-2000 Combined Mortality Table Projected with Scale AA to 2020 with males set back 2 years and females set back 3 years

Post-Disablement:

RP-2000 Disability Life Mortality Table Projected to 2020 with males set back 1 year and no provision for future mortality improvement

The actuarial assumptions used in the June 30, 2015 valuation were based on the results of an actuarial experience study for the period from July 1, 2008 through June 30, 2012. Changes to the actuarial assumptions as a result of the experience study are as follows:

- Update mortality table
- Adjustments to the rates of service retirement
- Decrease in rates of withdrawals for 3 through 9 years of service
- Decrease in rates of disability
- Reduce rates of salary increase by 0.25% per year

NOTES TO FINANCIAL STATEMENTS

At June 30, 2017 (Continued)

23. PENSION PLAN (Continued)

Component Unit School Board (professional) (Continued)

Net Pension Liability

The net pension liability (NPL) is calculated separately for each system and represents that particular system's total pension liability determined in accordance with GASB Statement No. 67, less that system's fiduciary net position. As of June 30, 2016, NPL amounts for the VRS Teacher Employee Retirement Plan is as follows (amounts expressed in thousands):

Teacher
Retirement
\$ 44,182,326
30,168,211
\$ 14,014,115
68.28%

The total pension liability is calculated by the System's actuary, and each plan's fiduciary net position is reported in the System's financial statements. The net pension liability is disclosed in accordance with the requirements of GASB Statement No. 67 in the System's notes to the financial statements and required supplementary information.

Long-Term Expected Rate of Return

The long-term expected rate of return on pension System investments was determined using a lognormal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

NOTES TO FINANCIAL STATEMENTS

At June 30, 2017 (Continued)

23. PENSION PLAN (Continued)

Long-Term Expected Rate of Return (Continued)

			Weighted					
		Arithmetic	Average					
		Long-Term	Long-Term					
	Target	Expected	Expected					
Asset Class (Strategy)	Allocation	Rate of Return	Rate of Return					
U.S. Equity	19.50%	6.46%	1.26%					
Developed Non U.S. Equity	16.50%	6.28%	1.04%					
Emerging Market Equity	6.00%	10.00%	0.60%					
Fixed Income	15.00%	0.09%	0.01%					
Emerging Debt	3.00%	3.51%	0.11%					
Rate Sensitive Credit	4.50%	3.51%	0.16%					
Non Rate Sensitive Credit	4.50%	5.00%	0.23%					
Convertibles	3.00%	4.81%	0.14%					
Public Real Estate	2.25%	6.12%	0.14%					
Private Real Estate	12.75%	7.10%	0.91%					
Private Equity	12.00%	10.41%	1.25%					
Cash	1.00%	-1.50%	-0.02%					
Total	100.00%		5.83%					
		Inflation	2.50%					
	*Expected arithmetic nominal return							

^{*} Using stochastic projection results provides an expected range of real rates of return over various time horizons. Looking at one year results produces an expected real return of 8.33% but also has a high standard deviation, which means there is high volatility. Over larger time horizons the volatility declines significantly and provides a median return of 7.44%, including expected inflation of 2.50%.

Discount Rate

The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ending June 30, 2018, the rate contributed by the school division for the VRS Teacher Retirement Plan will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly. From July 1, 2018 on, school divisions are assumed to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

At June 30, 2017 (Continued)

23. PENSION PLAN (Continued)

Component Unit School Board (professional) (Continued)

Sensitivity of the School Division's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the school division's proportionate share of the net pension liability using the discount rate of 7.00%, as well as what the school division's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00%) or one percentage point higher (8.00%) than the current rate:

	Rate								
	(6.00%)			(7.00%)	(8.00%)				
School division's proportionate									
share of the VRS Teacher			П						
Employee Retirement Plan									
Net Pension Liability (Asset)	\$	68,148,000	\$	47,806,000	\$	31,049,000			

Pension Plan Fiduciary Net Position

Detailed information about the VRS Teacher Retirement Plan's Fiduciary Net Position is available in the separately issued VRS 2015 Comprehensive Annual Financial Report (CAFR). A copy of the 2015 VRS CAFR may be downloaded from the VRS website at http://www.varetire.org/Pdf/Publications/2015-annual-report.pdf, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

24. TERMINATION BENEFIT - SCHOOL BOARD EARLY RETIREMENT OPTION PROGRAM

The School Board established an Early Retirement Program in which eligible employees electing early retirement will be eligible to earn an annual supplement not to exceed 10% of his/her contracted salary earned during their last year of full-time employment with the School Division. An employee must work at least 10 days during the contract year in order to receive the 10% supplement. Employees electing early retirement may continue in the program until the earlier of (1) the death of the retired employee, or (2) participation by the retirement employee for seven years in the Early Retirement Option Program after retirement.

Any full-time employee of the School Board is eligible to retire under the Early Retirement Option Program at any time after age 50, provided (1) he/she is a professional employee and has completed 30 years of service with the last 15 consecutive years being in the Accomack County Public School System or he/she is a classified employee (teaching assistant, cafeteria worker, cafeteria manager, clerical staff, building or bus maintenance worker, or custodian) and has completed a minimum of the last 15 consecutive full-time years with the Accomack County Public School System (2) he/she has reached age 50 prior to September 1st of the year electing this option. Program participation ends the September 1st following a maximum of seven years of participation in the program.

NOTES TO FINANCIAL STATEMENTS

At June 30, 2017 (Continued)

24. TERMINATION BENEFIT - SCHOOL BOARD EARLY RETIREMENT OPTION PROGRAM (Continued)

The value of the supplement paid to the retiree exceeds the fair value of the services rendered by the retiree. The liability for the this termination benefit is calculated by taking the difference of the supplement received and the fair value of services rendered and multiplied by years remaining in the program. As of June 30, 2017, there were 59 employees enrolled in the Early Retirement Option Program. The liability recognized in the financial states as of June 30, 2017 was \$656,165 for the program.

25. ADOPTION OF ACCOUNTING PRINCIPLES

The County adopted the following accounting principle during 2017:

Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans, improves the usefulness of information about postemployment benefits other than pensions (other postemployment benefits or OPEB) included in the general purpose external financial reports of state and local governmental OPEB plans for making decisions and assessing accountability. This Statement replaces Statements No. 43, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans, as amended, and No. 57, OPEB Measurements by Agent Employers and Agent Multiple Employer Plans. It also includes requirements for defined contribution OPEB plans that replace the requirements for those OPEB plans in Statement No. 25, Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans, as amended, Statement 43, and Statement No. 50, Pension Disclosures.

Required Supplementary Information

(Other than Management Discussion & Analysis)

Notes to Required Supplementary Information:

- 1. Presented budgets were prepared in accordance with accounting principles generally accepted in the United States of America.
- 2. Pension Related Information Notes:
 - a. <u>Changes of benefit terms</u> There have been no significant changes to the System benefit provisions since the prior actuarial valuation. A hybrid plan with changes to the defined benefit plan structure and a new defined contribution component were adopted in 2012. The hybrid plan applies to most new employees hired on or after January 1, 2014 and not covered by enhanced hazardous duty benefits. The liabilities presented do not reflect the hybrid plan since it covers new members joining the System after the valuation date of June 30, 2013 and the impact on the liabilities as of the measurement date of June 30, 2014 are minimal.
 - b. <u>Changes of assumptions</u> The following changes in actuarial assumptions were made effective June 30, 2013 based on the most recent experience study of the System for the four-year period ending June 30, 2012:
 - i. Largest 10 Non-LEOS:
 - 1. Update mortality table
 - 2. Decrease in rates of service retirement
 - 3. Decrease in rates of disability retirement
 - 4. Reduce rates of salary increase by 0.25% per year
 - ii. Largest 10 LEOS:
 - 1. Update mortality table
 - 2. Decrease in male rates of disability
 - iii. All Others (Non 10 largest) Non-LEOS:
 - 1. Update mortality table
 - 2. Decrease in rates of service retirement
 - 3. Decrease in rates of disability retirement
 - 4. Reduce rates of salary increase by 0.25% per year
 - iv. All Others (Non 10 largest) LEOS
 - 1. Update mortality table
 - 2. Adjustments to rates of service retirement for females
 - 3. Increase in rates of withdrawal
 - 4. Decrease in male and female rates of disability
 - v. Component Unit School Board Professional Employees
 - 1. Update mortality table
 - 2. Adjustments to rates of service retirement
 - 3. Decrease in rates withdrawals for 3 through 9 years of service
 - 4. Decrease in rates of disability retirement
 - 5. Reduce rates of salary increase by 0.25% per year

Actuarially Contractually Contribution Employer's	
Determined Required Deficiency Covered Date Contribution Contribution (Excess) Payroll	as a % of Covered Payroll

This schedule is intended to show information for ten years. Since 2017 is the first year for this presentation, only one year is available. Additional years will be included as they become available.

Notes to Schedule

Valuation date:

Actuarially determined contribution rates are calculated as of June 30, two years prior to the end of the fiscal year in which contributions are

Methods and assumptions used to determine contribution rates:

Actuarial cost method	Entry age
Amortization method	Level percentage of payroll, closed
Amortization period	
Asset valuation method	5-year smoothed market
Inflation	3.65 percent
Healthcare cost trend rates	7.0 percent initial, decreasing 0.5 percent per year to an ultimate rate of 5.0 percent
Salary increases	2.5 percent, average, including inflation
Investment rate of return	6.89%, net of OPEB plan investment expense, including inflation
Retirement age	In the 20017 actuarial valuation, expected retirement ages of general employees were adjusted to more closely reflect actual experience.
Mortality	In the 2017 actuarial valuation, assumed life expectancies were adjusted as a result of adopting the RP-2014 Mortality Table.

Nonmajor Governmental Funds

<u>Special Revenue Funds</u>-Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specific purposes other than debt service or capital projects.

- <u>Law Library Fund</u>-Accounts for revenues and expenditures associated with the County's law library.
- <u>Stormwater Ordinance Fund</u>-Accounts for revenues levied in connection with the Virginia Stormwater Management Program. Expenditures may only be used to administer that program.
- <u>Courthouse Security Fund-</u>Accounts for revenues derived from court fees levied in accordance with the Code of Virginia§ 53.1-120. Use of these funds is restricted for courthouse security.
- <u>Drug Seizures Fund</u>-Accounts for revenues associated with the sale of assets confiscated from illegal drug activities. Expenditures of this fund are restricted for use on law enforcement activities.
- <u>Fire Programs Fund</u>- Accounts for grant revenues received from the Commonwealth Department of Fire Programs which are restricted for fire education, training and related.
- <u>Rehabilitation Projects Fund</u>-Accounts for revenue and expenditures associated with community development block grants predominantly used for rehabilitation of low income housing.
- <u>Captain's Cove/Greenbackville Mosquito Control Fund</u>-Accounts for revenues derived from a special property tax levied on residents of Captain's Cove and Greenbackville areas. Expenditures are restricted for use on mosquito control services within those areas.
- <u>Consolidated Emergency Medical Services Fund</u>-Accounts for revenues derived from a special property tax levied on all residents of the County except for those located in the Town of Chincoteague. Expenditures are restricted for use on fire and rescue services.
- <u>Consolidated Fire and Rescue Service Fund</u>-This fund was created as a result of consolidating Fire and Rescue District Special Revenue Funds 2,3,4 and 5. It accounts for general tax revenues designated to provide operational funding to County volunteer fire and rescue companies.

Nonmajor Proprietary Funds

<u>Proprietary Funds</u>-Proprietary funds are used to account for activities that are similar to businesses in the private sector.

- Water & Sewer Fund-Accounts for water and sewer operations in the County. Currently, the
 only water and sewer services delivered by the County are to businesses located inside or in
 close proximity to the County Industrial Park or Wallops Research Park. Operations are
 primarily funded through user fees.
- <u>Parks and Recreation Revolving Fund</u>-This fund in used to account for parks and recreation events which are financed in whole or in part by user fees.

Agency Funds

Agency Funds-Agency funds are used to account for the assets held by a government unit as an agent for individuals, organizations, other governmental units, and/or other funds. Agency funds do not involve the measurement of results of operations, as they are custodial in nature. The County has the following agency funds:

- Special Welfare-The Special Welfare fund is established under the authority of Section 63.1-51, Code of Virginia, as amended. This fund accounts for Social Security or Veteran's Administration benefits for specific individuals for which the County is acting as the custodian. It also accounts for donations and the provision for emergency assistance to indigent citizens.
- <u>War Memorial Fund</u>-The War Memorial Fund is established to accounts for citizen donations for memorial service commemorations.
- <u>Sheriff Canteen Fund</u>-The Sheriff Canteen Fund accounts for funds held on behalf of inmates of the County jail.

Statistical Section

<u>Contents</u>	Page
Financial Trends These schedules contain trend information to help the reader understand how the county's financial performance and well-being have changed over time.	180
Revenue Capacity These schedules contain information to help the reader assess the county's most significant local revenue source, the property tax.	184
Debt Capacity These schedules present information to help the reader assess the affordability of the county's current levels of outstanding debt and the county's ability to issue additional debt in the future. Note that no legal debt margin information is presented as the Code of Virginia only sets legal debt limits for towns and cities. Counties have no legal debt limit imposed by law. Also note that pledged revenue information is not presented as the County has not issued any revenue backed debt.	191
Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the county's financial activities take place.	193
Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the county's financial report relates to the services the county provides and the activities it performs.	195

Sources: Unless otherwise noted, the information in these schedules is derived from comprehensive annual financial reports for the relevant year. The County implemented GASB Statement 34 in 2003; schedules presenting government-wide information include information beginning in that year.

¹Net (expense) revenue is the difference between the expenses and program revenues. It indicates the degree to which a function or program is supported with its own fees and program-specific grants versus its reliance upon funding from taxes and other general revenues. A number in parentheses is net expenses indicating that expenses were greater than program revenues and therefore general revenues were needed to finance that function or program. Numbers without parentheses are net revenues, meaning that program revenues were more than sufficient to cover expenses.

Notes: Real Property is assessed annually at fair market value. Property is assessed at 100 percent of estimated fair market value however, the County has adopted the provisions of Title 58.1-3230 of the Code of Virginia that provides for land use-value assessment when real estate is devoted to agricultural, horticultural or forest uses. Tax rates are per \$100 of assessed value. The County is divided into various different tax rate districts. The above direct tax rates are those for the district with the highest rate.

⁽¹⁾ This schedule is prepared using the cash basis of accounting. Only seven years of information is available. Additional years will be added as they become available.

⁽²⁾ Does not include penalty or interest.

⁽³⁾ Levy is net of senior/disabled tax relief, veterans tax relief and relief provided by the Personal Property Tax Relief Act (PPTRA). The PPTRA provides personal property tax relief to owners of personal use vehicles via a tax credit that appears on the citizen's tax bill. Localities receive a fixed amount of restricted State for this program which is intended to reimburse the County for tax relief granted. Additional information on the PPTRA is found in the notes to the financial statements.

⁽⁴⁾ The County changed the billing frequency for Public Service Corp real estate and personal property taxes from annually to semi-annually in Fiscal Year 2016.

Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

To the Honorable Members of the Board of Supervisors County of Accomack, Virginia Accomac, Virginia

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of County of Accomack, Virginia, as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the County of Accomack, Virginia's basic financial statements, and have issued our report thereon dated February 15, 2018. Our report includes a reference to other auditors who audited the financial statements of Accomack-Northampton Planning District Commission, as described in our report on the County of Accomack, Virginia's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered County of Accomack, Virginia's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of County of Accomack, Virginia's internal control. Accordingly, we do not express an opinion on the effectiveness of County of Accomack, Virginia's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether County of Accomack, Virginia's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditors' Report on Compliance For Each Major Program and on Internal Control Over Compliance Required by the Uniform Guidance

To the Honorable Members of the Board of Supervisors County of Accomack, Virginia Accomac, Virginia

Report on Compliance for Each Major Federal Program

We have audited County of Accomack, Virginia's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of County of Accomack Virginia's major federal programs for the year ended June 30, 2017. County of Accomack, Virginia's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

County of Accomack, Virginia's basic financial statements include the operations of the Accomack-Northampton Planning District Commission, which received \$563,306 in federal awards which is not included in the schedule during the year ended Financial Statement June 30, 2017. Our audit, described below, did not include the operations of Accomack-Northampton Planning District Commission because the component unit engaged other auditors to perform an audit of compliance in accordance with the Uniform Guidance.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of County of Accomack, Virginia's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about County of Accomack, Virginia's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of County of Accomack, Virginia's compliance.

Opinion on Each Major Federal Program

In our opinion, County of Accomack, Virginia complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2017.

Report on Internal Control Over Compliance

Management of County of Accomack, Virginia is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered County of Accomack, Virginia's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of County of Accomack, Virginia's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

COUNTY OF ACCOMACK, VIRGINIA

Notes to Schedule of Expenditures of Federal Awards Year Ended June 30, 2017

Note 1 - Basis of Accounting

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of the County of Accomack, Virginia under programs of the federal government for the year ended June 30, 2017. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Because the Schedule presents only a selected portion of the operations of the County of Accomack, Virginia, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the County of Accomack, Virginia.

Note 2 - Summary of Significant Accounting Policies

- (1) Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in OMB Circular A-87, Cost Principles for State, Local, and Indian Tribal Governments and the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.
- (2) Pass-through entity identifying numbers are presented where available.

Note 3 - Food Donation

Nonmonetary assistance is reported in the schedule at the fair market value of the commodities received and disbursed.

Note 4 - De Minimis Cost Rate

The County did not elect to use the 10-percent de minimis indirect cost rate allowed under Uniform Guidance.

Note 5 - Subrecipients

No awards were passed through to subrecipients.

Note 6 - Relationship to Financial Statements

Federal expenditures, revenues and capital contributions are reported in the County's basic financial statements as follows:

Intergovernmental federal revenues per the basic financial statements:

Primary government:		
General Fund	\$	866,610
Virginia Public Assistance Fund		2,065,502
Comprehensive Youth Services Fund		14,978
Airport		44,934
County Capital Projects Fund	_	241,650
Total primary government	\$_	3,233,674
Component Unit School Board:		
School Operating Fund	\$	4,264,762
School Cafeteria Fund	_	2,211,847
Total component unit school board	\$	6,476,609
Total federal expenditures per basic financial		
statements	\$_	9,710,283
Payments in lieu of taxes	\$_	(27,749)
Non-cash expenditures - value of donated commodities	\$_	9,656
Total federal expenditures per the Schedule of Expenditures		
of Federal Awards	\$_	9,692,190
