Independent Auditors' Report

To the Board of Directors Middle Peninsula-Northern Neck Community Services Board Saluda, Virginia

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities and the aggregate remaining fund information of Middle Peninsula-Northern Neck Community Services Board, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise Middle Peninsula-Northern Neck Community Services Board's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Authorities, Boards, and Commissions*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the aggregate remaining fund information of Middle Peninsula-Northern Neck Community Services Board, as of June 30, 2021, and the changes in financial position, and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As described in Note 17 to the financial statements, in 2021, the Middle Peninsula-Northern Neck Community Services Board adopted new accounting guidance, GASB Statement No. 84, *Fiduciary Activities*. Our opinion is not modified with respect to this matter.

Restatement of Beginning Balances

As described in Note 17 to the financial statements, in 2021, the Middle Peninsula-Northern Neck Community Services Board restated beginning balances to reflect the requirements of GASB Statement No. 84. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and schedules related to pension and OPEB funding on pages 4-12, and 45-51 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Middle Peninsula-Northern Neck Community Services Board's basic financial statements. The combining financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is also not a required part of the basic financial statements.

The combining financial statements and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining financial statements and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

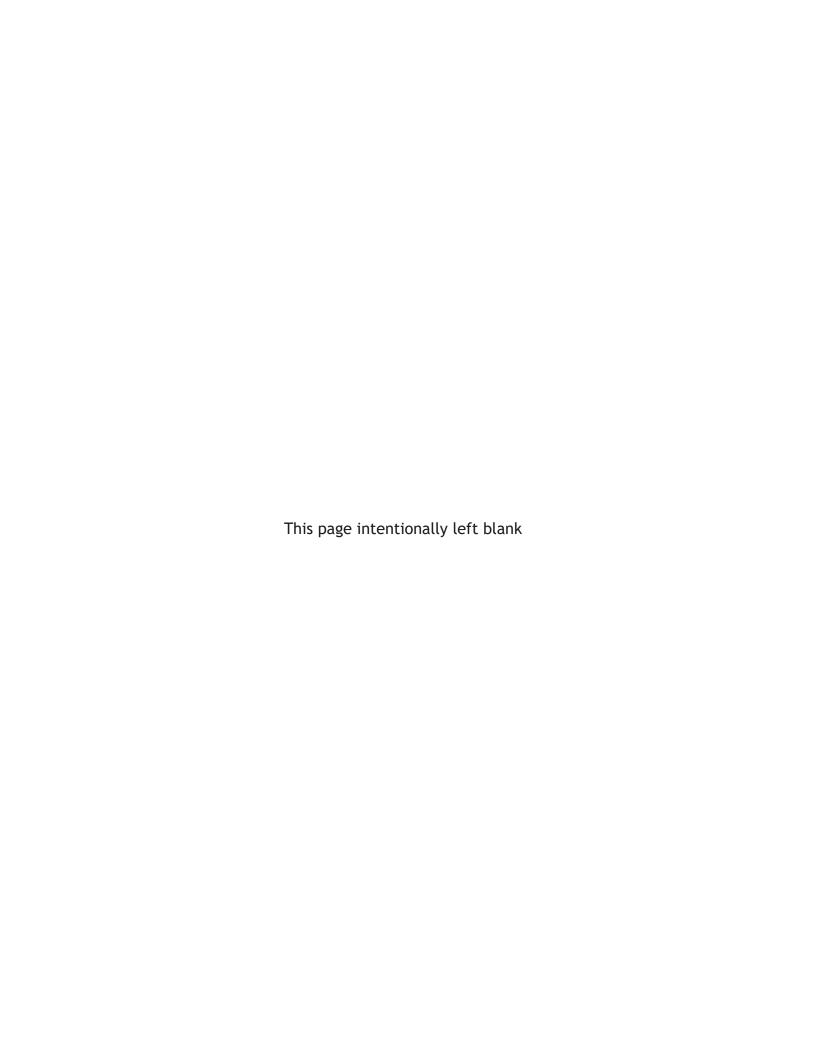

Report on Summarized Comparative Information

We have previously audited Middle Peninsula-Northern Neck Community Services Board's 2020 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated November 5, 2020. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2020, is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 23, 2021, on our consideration of Middle Peninsula-Northern Neck Community Services Board's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Middle Peninsula-Northern Neck Community Services Board's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Middle Peninsula-Northern Neck Community Services Board's internal control over financial reporting and compliance.

Management's Discussion and Analysis Year Ended June 30, 2021

The following Management's Discussion and Analysis of the Middle Peninsula - Northern Neck Community Services Board's (MPNNCSB) activities and financial performance provides an introduction and overview to the financial statements for fiscal year ended June 30, 2021. The financial statements not only represent the operations of the Board but are blended with Properties, Inc. and three HUD projects, Kilmarnock New Horizons, Lively Turning Point and Woodland Pointe. Properties, Inc. is a property holding organization for the Board. The HUD projects were organized to own and operate facilities for individuals with disabilities. All three of these components are not-for-profit organizations exempt under Section 501(c)(3) of the Internal Revenue Code.

HIGHLIGHTS ON FISCAL YEAR 2021

MPNNCSB's focus in FY 21 included:

- 1. The State reinstated funding for the Crisis Intervention Team program, (CIT) in the amount of \$285,170. This program involves Law Enforcement and covers the areas of both transfer of custody for individuals in a crisis situation as well as providing training on the approach to an individual in such a situation.
- 2. The MPNNCSB recognized \$501,120 of funding for the Regional Crisis Hub Program, (initial funding was provided during part of FY21). This program provides mobile crisis services in a team-model format.
- 3. The MPNNCSB recognized substantial funding at both the State, Federal and Regional levels due to the effects of COVID19. This funding was as follows:

Federal Stimulus \$1,875,792 Federal Medicare Stimulus CARES \$270,982 (\$7,728 recognized in FY20) COVID Emergency Funding \$200,210 Regional Emergency Services Expense Reimbursement \$125,000 DMAS CARES ACT \$73,462

- 4. A Federal Block Grant supporting Peer Support Services was received in the amount of \$152,963.
- 5. The System of Care Grant funding (a Youth & Family Program) was used in its entirety by September 2020, additional funding was not awarded resulting in a difference of \$187,055 in revenue from FY20 to FY21.
- 6. An additional Youth & Family Program: Therapeutic Day Treatment, was scaled back during FY21, with an anticipated continual reduction during FY22.
- 7. The Rural Infant Support Program recognized \$150,484 in Federal Part C funding during FY21.
- 8. One-time Regional funding of \$50,000 was received to support Tele psych services.
- 9. MPNNCSB increased jail based services by \$65,084 during FY21.
- 10. MPNNCSB continued as fiscal agent for Region 5 with \$125,000 for the Mental Health First Aid and Regional Suicide Prevention Workgroup Support.

HIGHLIGHTS ON FISCAL YEAR 2021: (continued)

- 11. Federal dollars were awarded in the following areas to expand psychiatric services for Substance Use Disorder clients to include Medication Assistance Treatment, purchase medication, assistance with barriers to care such as transportation and receive other clinical supports: \$180,000 for treatment expansion and \$200,000 for recovery expansion.
- 12. For expansion of Medication Assisted Treatment (MAT) and Opioid Use Disorder (OUD), MPNNCSB was funded \$130,000 by the Department of Behavioral Health and Disability Services (DBHDS).
- 13. Prevention Services received a \$190,000 State Opioid Response (VA SOR) award.
- 14. The VOCA Child Treatment Program (VDSS) had a total award of \$83,983 funded -\$16,205 was agency match and \$67,778 were Federal funds.
- 15. MPNNCSB continued to collaborate with Western Tidewater Mental Health (WTMH) CSB to provide Mental Health Skill Building services at Tidewater Cove run by WTMH CSB.
- 16. The USDA funded \$9,894 in groceries for the Psychosocial Rehabilitative program, Charterhouse. A reduction of \$9,395 from FY20 due to the effects of COVID19.
- 17. MPNN continued in the Anthem's Behavioral Health Quality Incentive program and are a gold card member.
- 18. Telehealth initiatives with Bay Rivers Telehealth remained in place throughout FY 21, offering services in schools, recognizing \$51,121 in revenue.
- 19. A continuation of the Healthy Families Grant through the Department of Social Services continued at \$181,816 for FY 21.
- 20. The PACT program continued with another \$750,000 in state funds for the year.
- 21. The Youth and Family program continued to receive awards from District 9 and 15 Juvenile Courts \$38,405, down from \$110,417 in FY20.
- 22. MPNNCSB recognized \$29,113 in revenue during FY21 for SUD Counselor Services that were provided to RCORP, a Regional Opioid Response Program that is Grant funded through the Bay Rivers Telehealth Alliance.
- 23. Properties Inc., which MPNNCSB leases office space and group homes from, completed its project of renovating two bank buildings, started in FY20, that are now occupied by the agency.
- 24. Fees were \$12,166,338 in FY 21 compared to \$12,350,985 in FY 20. This was a 1.49% decrease from prior year primarily from Medicaid. Fees accounted for 50.03% of total revenue.
- 25. Operating expenses decreased by \$1,321,557 or 5.68% from the prior year, primarily in labor costs. (A large portion of labor savings was recognized with the scaling back of the Therapeutic Day Treatment program.)
- 26. Revenues from the Commonwealth of Virginia decreased \$933,323 or 12.83%; Federal funds increased \$2,0004,750 or 85.01%, primarily from COVID19 Stimulus funding, while Local funds decreased \$537 or 0.10%.

SUMMARY OF OPERATIONS AND CHANGES IN NET POSITION

The change in net position as of June 30, 2021 was \$2,291,310 as compared to (\$58,733) in 2020.

FINANCIAL POSITION SUMMARY

Net position may serve over time as a useful indicator of MPNNCSB's financial position. MPNNCSB's financial position is measured in terms of resources (assets and deferred outflows of resources) owned and obligations (liabilities and deferred inflows of resources) owed as of June 30, 2021. This information is reflected on the Statement of Net Position. The excess of assets and deferred outflows of resources over liabilities and deferred inflows of resources is the net position. MPNNCSB's net position was \$10.6M.

A condensed summary of the CSB's Statements of Net Position at June 30, 2021 and 2020 is shown below:

CASH FLOWS

The flow of cash resources into and out of MPNNCSB during the fiscal year is reflected on the Statement of Cash Flows. This statement also reflects net increases or decreases in cash and cash equivalents for the year and the ending cash and cash equivalents as of June 30, 2021 and 2020.

	 2021	2020
Cash flows from operating activities	\$ (8,900,817)	\$ (11,371,223)
Cash flows from noncapital financing activities	12,011,701	10,902,294
Cash flows from capital and related financing activities	(319,807)	(717,296)
Cash flows from investing activities	 12,209	26,238
Net increase (decrease) in cash and cash equivalents	\$ 2,803,286	\$ (1,159,987)

CASH FLOWS (continued)

Cash Flows from operating activities reconcile the operating loss recorded on the Statement of Revenues, Expenses and Changes in Net Position to cash provided by operating activities. In this process, the Operating loss is decreased by the amount of any non-cash transaction (depreciation) and adjusted for changes in assets and liabilities. (Please see the full Statement of Cash Flows for a full listing of these transactions).

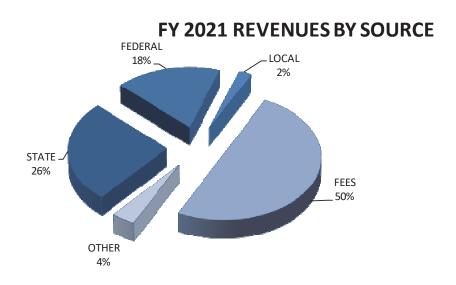

Cash Flows from Noncapital and Related Financing Activities consists of income received primarily as government grants.

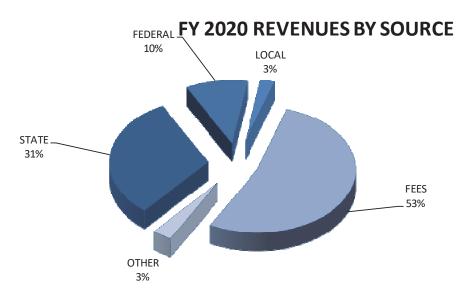

Cash Flows from Capital and Related Financing Activities represents income from acquisition of fixed assets, interest payment on long term debt, principal payments on mortgages and loans payable.

The increase in cash of \$2.8M is due mainly to the increase of federal revenues and the proceeds received from long-term debt.

Notes to Financial Statements At June 30, 2021

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

A. Description and Purpose of Organization:

The Board operates as an agent for the Counties of Essex, Gloucester, King and Queen, King William, Lancaster, Mathews, Middlesex, Northumberland, Richmond, and Westmoreland in the establishment and operation of community mental health, developmental disabilities and substance abuse programs as provided for in Title 37.2 of the *Code of Virginia* (1950), relating to the Virginia Department of Behavioral Health and Developmental Services. In addition, the Board provides a system of community mental health and developmental disabilities and substance abuse services which relate to and are integrated with existing and planned programs.

B. Financial Reporting Entity:

For financial reporting purposes, the Board includes all organizations for which it is considered financially accountable. The component units included in these financial statements have a year end of June 30.

Blended Component Units:

Blended component units, although legally separate entities are, in substance, part of the Board's operations, and so data from these units are combined with data of the Board. The Board has the following blended component units.

Properties, Inc. is a property holding organization for the Board and is exempt from taxation under the Federal Internal Revenue Code Section 501(c)(3).

Kilmarnock New Horizons, Lively Turning Point and Woodland Pointe have been included as part of the reporting entity. These entities are not-for-profit organizations exempt under Section 501(c)(3) of the Internal Revenue Code and were organized to own and operate facilities for persons with disabilities.

C. Deferred Outflows/Inflows of Resources:

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. The Board has one item that qualifies for reporting in this category. It is comprised of certain items related to the measurement of the net pension asset and net OPEB liability and contributions to the pension and OPEB plan made during the current year and subsequent to the net pension asset and net OPEB liability measurement dates. For more detailed information on this item, reference the related notes.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Board has one type of item that qualifies for reporting in this category. Certain items related to the measurement of the net pension asset and net OPEB liability are reported as deferred inflows of resources. For more detailed information on this item, reference the related notes.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (continued)

D. Basis of Accounting:

The Board is funded by federal, state, local funds and fees. Its accounting policies are governed by applicable provisions of these grants and applicable pronouncements and publications of the grantors. The Board utilizes the accrual basis of accounting where revenues are recorded when earned and expenses are recorded when due.

E. Financial Statement Presentation:

The accompanying financial statements are prepared in accordance with pronouncements issued by the Governmental Accounting Standards Board (GASB) and the Virginia Department of Behavioral Health and Developmental Services. The principles prescribed by GASB represent generally accepted accounting principles applicable to governmental units.

All significant intercompany transactions and accounts have been eliminated for the combining statements.

F. Enterprise Fund Accounting:

Middle Peninsula - Northern Neck Community Services Board is a governmental health care entity and is required to follow the accounting and reporting practices of the Governmental Accounting Standards Board. For financial reporting purposes, the Board utilizes the enterprise fund method of accounting whereby revenue and expenses are recognized on the accrual basis. Substantially all revenues and expenses are subject to accrual.

Client funds are held in escrow for various participants in Board programs. This fund consists of client bank accounts. This fund are reported as private-purpose trust funds on the Statement of Fiduciary Net Position and Statement of Changes in Fiduciary Net Position.

G. Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

H. Cash and Cash Equivalents:

The Board maintains cash accounts with financial institutions in accordance with the Virginia Security for Public Deposits Act of the *Code of Virginia*. The Act requires financial institutions to meet specific collateralization requirements. Cash and cash equivalents include investments in highly liquid debt instruments with an original maturity of three months or less from the date of acquisition.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (continued)

I. Investments:

Money market investments, participating interest-earning investment contracts (repurchase agreements) that have a remaining maturity at time of purchase of one year or less, nonparticipating interest-earning investment contracts (nonnegotiable certificates of deposit (CDs)) and external investment pools are measured at amortized cost. All other investments are reported at fair value.

J. Net Patient Service Revenue:

Net patient service revenue is reported at the estimated net realizable amounts from residents, third-party payers, and others for services rendered. Revenue under third-party payer agreements is subject to audit and retroactive adjustment. Retroactive adjustments are reported in operations in the year of settlement.

K. Financial Assistance:

The Board is required to collect the cost of services from third party sources and those individuals who are able to pay. However, the payment of amounts charged is based on individual circumstances and unpaid balances are pursued to the extent of the client's ability to pay. The Board has established procedures for granting financial assistance in cases of hardship. The granting of financial assistance results in a substantial reduction and/or elimination of charges to individual clients. Because the Board does not pursue the collection of amounts determined to qualify for financial assistance, they are not reported as revenue.

The vast majority of fees collected result from Medicaid billings.

L. Rental Income:

Rental income is recognized on a monthly basis pursuant to lease agreements, which generally have terms of three to five years. Rental revenue is reported in other nonoperating income.

M. Capital Assets:

Capital assets acquired are recorded at cost. All capital asset purchases of \$5,000 or more and with an estimated useful life of at least one year are capitalized. Donated capital assets are recorded at acquisition value at the time of the gift. Depreciation is provided over the estimated useful life of each class of depreciable assets ranging from 5 to 30 years and is computed using the straight-line method.

N. Restricted Assets:

The Board segregates monies held on behalf of third parties and other organizations. These restricted assets consist of monies held in the blended component units.

O. Compensated Absences:

Employees are entitled to certain compensated absences based upon length of employment. Paid time off, which includes vacation and certain other compensated absences, vest with the employee. A provision for the estimated liability for these compensated absences has been recorded in the financial statements.

Notes to Financial Statements At June 30, 2021 (continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (continued)

P. Budgetary Accounting:

The Board follows these procedures in establishing its budgets:

- 1. In response to Letters of Notification received from the Virginia Department of Behavioral Health and Developmental Services (the Department), the Board submits a Performance Contract to the Department. This application contains complete budgets for all Core Services.
- 2. The Board's Performance reports are filed with the Department during the fiscal year, 45 working days after the end of the second and fourth quarters. The final quarterly report is due by August 31 following the end of the fiscal year, unless extended.
- 3. If any changes are made during the fiscal year in state or federal block grants or local match funds, the Board submits the quarterly reports which reflect these changes in time to be received by the Department by required deadlines.

Q. Operating and Nonoperating Revenues and Expenses:

Operating revenues and expenses are defined as those items which result from providing services and include all transactions and events which are not capital and related financing, noncapital financing or investing activities. Nonoperating revenues consist of grants, investment and other income. Nonoperating expenses are defined as capital and noncapital related financing and other expenses.

R. Comparative Totals:

The basic financial statements include certain prior-year comparative information in total but not at the level of detail required for a presentation in accordance with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the government's financial statements for the year ended June 30, 2020, from which the summarized information was derived.

S. Net Position:

Net position is the difference between (a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources. Net investment in capital assets represents capital assets, less accumulated depreciation, less any outstanding debt related to the acquisition, construction, or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are also included in this component of net position.

T. Net Position Flow Assumption:

The Board may fund outlays for a particular purpose from both restricted and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the Board's policy to consider restricted net position to have been depleted or used before unrestricted net position is applied.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (continued)

U. Pensions:

For purposes of measuring the net pension asset, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Board's Retirement Plan and the additions to/deductions from the Board's Retirement Plan's fiduciary net position have been determined on the same basis as they were reported by the Virginia Retirement System (VRS). For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

V. Other Postemployment Benefits (OPEB)

For purposes of measuring the net VRS related OPEB liabilities, deferred outflows of resources and deferred inflows of resources related to the OPEB, and OPEB expense, information about the fiduciary net position of the VRS GLI OPEB Plan and the additions to/deductions from the VRS OPEB Plans' fiduciary net position have been determined on the same basis as they were reported by VRS. In addition, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 2 - DEPOSITS AND INVESTMENTS:

Deposits:

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act") Section 2.2-4400 et. Seq. of the Code of Virginia. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial Institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

Investments:

State statutes authorize the Board to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper that has received at least two of the following ratings: P-1 by Moody's Investors Service, Inc.; A-1 by Standard and Poor's; or F1 by Fitch Ratings, Inc. (Section 2.2-4502), banker's acceptances, repurchase agreements, and the State Treasurer's Local Government Investment Pool (LGIP).

Custodial Credit Risk (Investments):

To protect the Board against potential fraud, the Board requires the investment assets of the Board to be secured through third-party custody and safekeeping procedures. Collateralized securities, such as repurchase agreements, shall be purchased using the delivery versus payment procedure.

External Investment Pools:

The value of the positions in the external investment pools is the same as the value of the pool shares. Investments in the Local Government Investment Pool are not SEC registered but are monitored by the Treasurer of Virginia and other applicable state agencies. The external investment pools are amortized cost basis portfolios. There are no withdrawal limitations or restrictions imposed on participants. Investments in other external investment pools are all SEC registered or federal securities.

There were no involuntary participations in external investment pools. The Board does not sponsor any external investment pools.

Total depreciation expense was \$423,640 for 2021 and \$413,515 for 2020.

NOTE 5 - OPERATING LEASE COMMITMENTS:

The Board leases office space and other facilities from various lessors. The lease terms range from monthly to ten years. All leases are subject to availability of funds and are cancelable within 60 days.

Total rent expense for the year ended June 30, 2021, exclusive of intercompany payments of \$437,298, totaled \$497,468. Rent expense (net) for 2020 totaled \$538,458.

NOTE 6 - COMPENSATED ABSENCES:

The Board has accrued the liability arising from compensated absences.

Board employees earn leave based on length of service. The Board has outstanding accrued leave pay totaling \$1,237,278 at June 30, 2021 and \$1,294,430 at June 30, 2020. Employees are paid their accumulated annual leave up to certain limits. Accrued leave has been reported as a long-term liability, net of the portion reported as a current liability.

Notes to Financial Statements At June 30, 2021 (continued)

NOTE 7 - PENSION PLAN:

Plan Description

All full-time, salaried permanent employees of the Board are automatically covered by a VRS Retirement Plan upon employment. This is an agent multiple-employer plan administered by the Virginia Retirement System (the System) along with plans for other employer groups in the Commonwealth of Virginia. Members earn one month of service credit for each month they are employed and for which they and their employer pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria as defined in the <u>Code of Virginia</u>, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously refunded service.

Benefit Structures

The System administers three different benefit structures for covered employees - Plan 1, Plan 2, and Hybrid. Each of these benefit structures has different eligibility criteria, as detailed below.

- a. Employees with a membership date before July 1, 2010, vested as of January 1, 2013, and have not taken a refund, are covered under Plan 1, a defined benefit plan. Non-hazardous duty employees are eligible for an unreduced retirement benefit beginning at age 65 with at least 5 years of service credit or age 50 with at least 30 years of service credit. Non-hazardous duty employees may retire with a reduced benefit as early as age 55 with at least 5 years of service credit or age 50 with at least 10 years of service credit.
- b. Employees with a membership date from July 1, 2010 to December 31, 2013, that have not taken a refund or employees with a membership date prior to July 1, 2010 and not vested before January 1, 2013, are covered under Plan 2, a defined benefit plan. Non-hazardous duty employees are eligible for an unreduced benefit beginning at their normal social security retirement age with at least 5 years of service credit or when the sum of their age plus service credit equals 90. Non-hazardous duty employees may retire with a reduced benefit as early as age 60 with at least 5 years of service credit.
- c. Non-hazardous duty employees with a membership date on or after January 1, 2014 are covered by the Hybrid Plan combining the features of a defined benefit plan and a defined contribution plan. Plan 1 and Plan 2 members also had the option of opting into this plan during the election window held January 1 April 30, 2014 with an effective date of July 1, 2014. Employees covered by this plan are eligible for an unreduced benefit beginning at their normal social security retirement age with at least 5 years of service credit, or when the sum of their age plus service credit equals 90. Employees may retire with a reduced benefit as early as age 60 with at least 5 years of service credit. For the defined contribution component, members are eligible to receive distributions upon leaving employment, subject to restrictions.

NOTE 7 - PENSION PLAN: (continued)

Average Final Compensation and Service Retirement Multiplier

The VRS defined benefit is a lifetime monthly benefit based on a retirement multiplier as a percentage of the employee's average final compensation multiplied by the employee's total service credit. Under Plan 1, average final compensation is the average of the employee's 36 consecutive months of highest compensation and the multiplier is 1.70% for non-hazardous duty employees. Under Plan 2, average final compensation is the average of the employee's 60 consecutive months of highest compensation and the retirement multiplier is 1.65% for non-hazardous duty employees. Under the Hybrid Plan, average final compensation is the average of the employee's 60 consecutive months of highest compensation and the multiplier is 1.00%. For members who opted into the Hybrid Retirement Plan from Plan 1 or Plan 2, the applicable multipliers for those plans will be used to calculate the retirement benefit for service credited in those plans.

Cost-of-Living Adjustment (COLA) in Retirement and Death and Disability Benefits

Retirees with an unreduced benefit or with a reduced benefit with at least 20 years of service credit are eligible for an annual COLA beginning July 1 after one full calendar year from the retirement date. Retirees with a reduced benefit and who have less than 20 years of service credit are eligible for an annual COLA beginning on July 1 after one calendar year following the unreduced retirement eligibility date. Under Plan 1, the COLA cannot exceed 5.00%. Under Plan 2 and the Hybrid Plan, the COLA cannot exceed 3.00%. The VRS also provides death and disability benefits. Title 51.1 of the Code of Virginia as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

Employees Covered by Benefit Terms

As of the June 30, 2019 actuarial valuation, the following employees were covered by the benefit terms of the pension plan:

	Number
Inactive members or their beneficiaries currently receiving benefits	136
Inactive members: Vested inactive members	87
Non-vested inactive members	179
LTD	2
Inactive members active elsewhere in VRS	123
Total inactive members	391
Active members	340
Total covered employees	867

Contributions

The contribution requirement for active employees is governed by §51.1-145 of the <u>Code of Virginia</u>, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement.

Notes to Financial Statements At June 30, 2021 (continued)

NOTE 7 - PENSION PLAN: (continued)

Contributions: (Continued)

The Board's contractually required employer contribution rate for the year ended June 30, 2021 was 2.23% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2019.

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the Board were \$171,516 and \$251,598 for the years ended June 30, 2021 and June 30, 2020, respectively.

Net Pension Asset

The net pension asset is calculated separately for each employer and represents that particular employer's total pension liability determined in accordance with GASB Statement No. 68, less that employer's fiduciary net position. For Middle Peninsula - Northern Neck Community Services Board, the net pension asset was measured as of June 30, 2020. The total pension liability used to calculate the net pension asset was determined by an actuarial valuation performed as of June 30, 2019 rolled forward to the measurement date of June 30, 2020.

Actuarial Assumptions - General Employees

The total pension liability for General Employees in the Board's Retirement Plan was based on an actuarial valuation as of June 30, 2019, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2020.

Inflation 2.50%

Salary increases, including inflation 3.50% - 5.35%

Investment rate of return 6.75%, net of pension plan investment

expense, including inflation*

^{*} Administrative expenses as a percent of the fair value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 6.75%. However, since the difference was minimal, and a more conservative 6.75% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 6.75% to simplify preparation of pension liabilities.

Notes to Financial Statements At June 30, 2021 (continued)

NOTE 7 - PENSION PLAN: (continued)

Actuarial Assumptions - General Employees (Continued)

Mortality rates:

All Others (Non-10 Largest) - Non-Hazardous Duty: 15% of deaths are assumed to be service related Pre-Retirement:

RP-2014 Employee Rates to age 80, Healthy Annuitant Rates at ages 81 and older projected with scale BB to 2020; males 95% of rates; females 105% of rates.

Post-Retirement:

RP-2014 Employee Rates to age 49, Healthy Annuitant Rates at ages 50 and older projected with scale BB to 2020; males set forward 3 years; females 1.0% increase compounded from ages 70 to 90.

Post-Disablement:

RP-2014 Disability Mortality Rates projected with scale BB to 2020; males set forward 2 years, 110% of rates; females 125% of rates.

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period from July 1, 2012 through June 30, 2016, except the change in the discount rate, which was based on VRS Board action effective July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

All Others (Non-10 Largest) - Non-Hazardous Duty:

Mortality Rates (pre-retirement, post- retirement healthy, and disabled)	Updated to a more current mortality table - RP-2014 projected to 2020
Retirement Rates	Lowered rates at older ages and changed final retirement from 70 to 75
Withdrawal Rates	Adjusted rates to better fit experience at each year age and service through 9 years of service
Disability Rates	Lowered rates
Salary Scale	No change
Line of Duty Disability	Increased rate from 14.00% to 15.00%
Discount Rate	Decreased rate from 7.00% to 6.75%

NOTE 7 - PENSION PLAN: (continued)

Long-Term Expected Rate of Return

The long-term expected rate of return on pension System investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class (Strategy)	Long-term Target Asset Allocation	Arithmetic Long-term Expected Rate of Return	Weighted Average Long-term Expected Rate of Return*
Public Equity	34.00%	4.65%	1.58%
Fixed Income	15.00%	0.46%	0.07%
Credit Strategies	14.00%	5.38%	0.75%
Real Assets	14.00%	5.01%	0.70%
Private Equity	14.00%	8.34%	1.17%
MAPS - Multi-Asset Public Strategies	6.00%	3.04%	0.18%
PIP - Private Investment Partnership	3.00%	6.49%	0.19%
Total	100.00%		4.64%
		Inflation	2.50%
	*Expected arithme	tic nominal return	7.14%

^{*} The above allocation provides a one-year return of 7.14%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the system, stochastic projections are employed to model future returns under various economic conditions. The results provide a range of returns over various time periods that ultimately provide a median return of 7.11%, including expected inflation of 2.50%. On October 10, 2019, the VRS Board elected a long-term rate of 6.75% which is roughly at the 40th percentile of expected long-term results of the VRS fund asset allocation. More recent capital market assumptions compiled for the FY2020 actuarial valuations provide a median return of 6.81%.

Discount Rate

The discount rate used to measure the total pension liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that System member contributions will be made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Consistent with the phased-in funding provided by the General Assembly for state and teacher employer contributions; the Board was also provided with an opportunity to use an alternative employer contribution rate. For the year ended June 30, 2020, the alternate rate was the employer contribution rate used in FY 2012 or 100% of the actuarially determined employer contribution rate from the June 30, 2017 actuarial valuations, whichever was greater. From July 1, 2020 on, participating

employers are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

NOTE 8 - GROUP LIFE INSURANCE (GLI) PLAN (OPEB PLAN):

Plan Description

The Group Life Insurance (GLI) Plan was established pursuant to §51.1-500 et seq. of the <u>Code of Virginia</u>, as amended, and which provides the authority under which benefit terms are established or may be amended. All full-time, salaried permanent employees of the state agencies, teachers, and employees of participating political subdivisions are automatically covered by the VRS GLI Plan upon employment. This is a cost-sharing multiple-employer plan administered by the Virginia Retirement System (the System), along with pensions and other OPEB plans, for public employer groups in the Commonwealth of Virginia.

In addition to the Basic GLI benefit, members are also eligible to elect additional coverage for themselves as well as a spouse or dependent children through the Optional GLI Plan. For members who elect the optional group life insurance coverage, the insurer bills employers directly for the premiums. Employers deduct these premiums from members' paychecks and pay the premiums to the insurer. Since this is a separate and fully insured plan, it is not included as part of the GLI Plan OPEB.

The specific information for GLI OPEB, including eligibility, coverage and benefits is described below:

Eligible Employees

The GLI Plan was established July 1, 1960, for state employees, teachers, and employees of political subdivisions that elect the plan. Basic GLI coverage is automatic upon employment. Coverage ends for employees who leave their position before retirement eligibility or who take a refund of their accumulated retirement member contributions and accrued interest.

Benefit Amounts

The GLI Plan is a defined benefit plan with several components. The natural death benefit is equal to the employee's covered compensation rounded to the next highest thousand and then doubled. The accidental death benefit is double the natural death benefit. In addition to basic natural and accidental death benefits, the plan provides additional benefits provided under specific circumstances that include the following: accidental dismemberment benefit, safety belt benefit, repatriation benefit, felonious assault benefit, and accelerated death benefit option. The benefit amounts are subject to a reduction factor. The benefit amount reduces by 25% on January 1 following one calendar year of separation. The benefit amount reduces by an additional 25% on each subsequent January 1 until it reaches 25% of its original value. For covered members with at least 30 years of service credit, the minimum benefit payable was set at \$8,000 by statute in 2015. This will be increased annually based on the VRS Plan 2 cost-of-living adjustment calculation. The minimum benefit adjusted for the COLA was \$8,616 as of June 30, 2021.

NOTE 8 - GROUP LIFE INSURANCE (GLI) PLAN (OPEB PLAN): (continued)

Contributions

The contribution requirements for the GLI Plan are governed by §51.1-506 and §51.1-508 of the <u>Code of Virginia</u>, as amended, but may be impacted as a result of funding provided to state agencies and school divisions by the Virginia General Assembly. The total rate for the GLI Plan was 1.34% of covered employee compensation. This was allocated into an employee and an employer component using a 60/40 split. The employee component was 0.80% (1.34% x 60%) and the employer component was 0.54% (1.34% x 40%). Employers may elect to pay all or part of the employee contribution; however, the employer must pay all of the employer contribution. Each employer's contractually required employer contribution rate for the year ended June 30, 2021 was 0.54% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2019. The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits payable during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the GLI Plan from the entity were \$64,693 and \$68,731 for the years ended June 30, 2021 and June 30, 2020, respectively.

GLI OPEB Liabilities, GLI OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the Group Life Insurance Plan OPEB

At June 30, 2021, the entity reported a liability of \$1,071,726 for its proportionate share of the Net GLI OPEB Liability. The Net GLI OPEB Liability was measured as of June 30, 2020 and the total GLI OPEB liability used to calculate the Net GLI OPEB Liability was determined by an actuarial valuation performed as of June 30, 2019, and rolled forward to the measurement date of June 30, 2020. The covered employer's proportion of the Net GLI OPEB Liability was based on the covered employer's actuarially determined employer contributions to the GLI Plan for the year ended June 30, 2020 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2020, the participating employer's proportion was .06420% as compared to .07003% at June 30, 2019.

For the year ended June 30, 2021, the participating employer recognized GLI OPEB expense of \$29,652. Since there was a change in proportionate share between measurement dates, a portion of the GLI OPEB expense was related to deferred amounts from changes in proportion.

At June 30, 2021, the employer reported deferred outflows of resources and deferred inflows of resources related to the GLI OPEB from the following sources:

	_	Deferred Outflows of Resources	 Deferred Inflows of Resources
Differences between expected and actual experience	\$	68,741	\$ 9,626
Net difference between projected and actual earnings on GLI OPEB program investments		32,194	-

NOTE 8 - GROUP LIFE INSURANCE (GLI) PLAN (OPEB PLAN): (continued)

GLI OPEB Liabilities, GLI OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the Group Life Insurance Plan OPEB (Continued)

\$64,693 reported as deferred outflows of resources related to the GLI OPEB resulting from the employer's contributions subsequent to the measurement date will be recognized as a reduction of the Net GLI OPEB Liability in the fiscal year ending June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the GLI OPEB will be recognized in the GLI OPEB expense in future reporting periods as follows:

Actuarial Assumptions

The total GLI OPEB liability was based on an actuarial valuation as of June 30, 2019, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2020. The assumptions include several employer groups. Salary increases and mortality rates included herein are for relevant employer groups. Information for other groups can be referenced in the VRS Annual Report.

Salary increases, including inflation:

Locality - General employees 3.50%-5.35%

Investment rate of return 6.75%, net of investment expenses,

including inflation*

^{*}Administrative expenses as a percent of the fair value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 6.75%. However, since the difference was minimal, and a more conservative 6.75% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 6.75% to simplify preparation of OPEB liabilities.

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period from July 1, 2012 through June 30, 2016, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

Mortality Rates (pre-retirement, post- retirement healthy, and disabled)	Updated to a more current mortality table - RP-2014 projected to 2020
Retirement Rates	Lowered retirement rates at older ages and extended final retirement age from 70 to 75

NET GLI OPEB Liability

The net OPEB liability (NOL) for the GLI Plan represents the plan's total OPEB liability determined in accordance with GASB Statement No. 74, less the associated fiduciary net position. As of the measurement date of June 30, 2020, NOL amounts for the GLI Plan are as follows (amounts expressed in thousands):

	_	Program
Total GLI OPEB Liability	\$	3,523,937

NOTE 8 - GROUP LIFE INSURANCE (GLI) PLAN (OPEB PLAN): (continued)

NET GLI OPEB Liability: (Continued)

The total GLI OPEB liability is calculated by the System's actuary, and each plan's fiduciary net position is reported in the System's financial statements. The net GLI OPEB liability is disclosed in accordance with the requirements of GASB Statement No. 74 in the System's notes to the financial statements and required supplementary information.

Long-Term Expected Rate of Return

The long-term expected rate of return on the System's investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of System's investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class (Strategy)	Long-term Target Asset Allocation	Arithmetic Long-term Expected Rate of Return	Weighted Average Long-term Expected Rate of Return*
Public Equity	34.00%	4.65%	1.58%
Fixed Income	15.00%	0.46%	0.07%
Credit Strategies	14.00%	5.38%	0.75%
Real Assets	14.00%	5.01%	0.70%
Private Equity	14.00%	8.34%	1.17%
MAPS - Multi-Asset Public Strategies	6.00%	3.04%	0.18%
PIP - Private Investment Partnership	3.00%	6.49%	0.19%
Total	100.00%		4.64%
		Inflation	2.50%
	*Expected arithme	etic nominal return	7.14%

^{*}The above allocation provides a one-year return of 7.14%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the system, stochastic projections are employed to model future returns under various economic conditions. The results provide a range of returns over various time periods that ultimately provide a median return of 7.11%, including expected inflation of 2.50%. On October 10, 2019, the VRS Board elected a long-term rate of 6.75% which is roughly at the 40th percentile of expected long-term results of the VRS fund asset allocation. More recent capital market assumptions compiled for the FY2020 actuarial valuations provide a median return of 6.81%.

NOTE 8 - GROUP LIFE INSURANCE (GLI) PLAN (OPEB PLAN): (continued)

Discount Rate

The discount rate used to measure the total GLI OPEB liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made per the VRS guidance and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ended June 30, 2020, the rate contributed by the entity for the GLI OPEB will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly which was 100% of the actuarially determined contribution rate. From July 1, 2020 on, employers are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the GLI OPEB's fiduciary net position was projected to be available to make all projected future benefit payments of eligible employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total GLI OPEB liability.

Sensitivity of the Employer's Proportionate Share of the Net GLI OPEB Liability to Changes in the Discount Rate

The following presents the employer's proportionate share of the net GLI OPEB liability using the discount rate of 6.75%, as well as what the employer's proportionate share of the net GLI OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (5.75%) or one percentage point higher (7.75%) than the current rate:

Notes to Financial Statements At June 30, 2021 (continued)

NOTE 18 - UPCOMING PRONOUNCEMENTS:

Statement No. 87, *Leases*, requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. The requirements of this Statement are effective for reporting periods beginning after June 15, 2021.

Statement No. 92, *Omnibus 2020*, addresses practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics such as leases, assets related to pension and postemployment benefits, and reference to nonrecurring fair value measurements of assets or liabilities in authoritative literature. The effective dates differ by topic, ranging from January 2020 to periods beginning after June 15, 2021.

Statement No. 96, Subscription-Based Information Technology Arrangements (SBITAs), (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset—an intangible asset—and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. The requirements of this Statement are effective for reporting periods beginning after June 15, 2022.

Management is currently evaluating the impact these standards will have on the financial statements when adopted.

NOTE 19 - COVID-19 PANDEMIC

On January 30, 2020, the World Health Organization ("WHO") announced a global health emergency stemming from a new strain of coronavirus that was spreading globally (the "COVID-19 outbreak"). On March 11, 2020, the WHO classified the COVID-19 outbreak as a pandemic, triggering volatility in financial markets and a significant negative impact on the global economy. The COVID-19 pandemic has developed rapidly in 2020 and remains a quickly evolving situation. As a result of the spread of COVID-19, economic uncertainties have arisen which are likely to negatively impact economic activity. Middle Peninsula-Northern Neck Community Services Board is not able to estimate the effects of the COVID-19 pandemic for fiscal year 2022.

Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To the Board of Directors Middle Peninsula-Northern Neck Community Services Board Saluda, Virginia

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Authorities, Boards, and Commissions*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the business-type activities and the aggregate remaining fund information of Middle Peninsula-Northern Neck Community Services Board, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise Middle Peninsula-Northern Neck Community Services Board's basic financial statements and have issued our report thereon dated November 23, 2021.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Middle Peninsula-Northern Neck Community Services Board's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Middle Peninsula-Northern Neck Community Services Board's internal control. Accordingly, we do not express an opinion on the effectiveness of Middle Peninsula-Northern Neck Community Services Board's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Middle Peninsula-Northern Neck Community Services Board's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Middle Peninsula-Northern Neck Community Services Board's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Middle Peninsula-Northern Neck Community Services Board's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditors' Report on Compliance for Each Major Program and on Internal Control over Compliance Required by the Uniform Guidance

To the Board of Directors Middle Peninsula-Northern Neck Community Services Board Saluda, Virginia

Report on Compliance for Each Major Federal Program

We have audited Middle Peninsula-Northern Neck Community Services Board's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Middle Peninsula-Northern Neck Community Services Board's major federal programs for the year ended June 30, 2021. Middle Peninsula-Northern Neck Community Services Board's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Middle Peninsula-Northern Neck Community Services Board's basic financial statements include the operations of the component unit organizations Properties, Inc., Kilmarnock New Horizons, Lively Turning Point and Woodland Pointe Apartments, which expended \$2,154,578 in federal awards which is not included in the schedule of expenditures of federal awards during the year ended June 30, 2021. Our audit, described below, did not include the operations of the above component units because the component units issue separate financial statements, and audits in compliance with the Uniform Guidance are performed at the component unit level, where applicable.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of Middle Peninsula-Northern Neck Community Services Board's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Middle Peninsula-Northern Neck Community Services Board's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

Auditors' Responsibility: (Continued)

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Middle Peninsula-Northern Neck Community Services Board's compliance.

Opinion on Each Major Federal Program

In our opinion, Middle Peninsula-Northern Neck Community Services Board complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

Report on Internal Control over Compliance

Management of Middle Peninsula-Northern Neck Community Services Board is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Middle Peninsula-Northern Neck Community Services Board's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Middle Peninsula-Northern Neck Community Services Board's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Schedule of Expenditures of Federal Awards (Continued) Year Ended June 30, 2021

Notes to Schedule of Expenditures of Federal Awards

Note A - Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of Middle Peninsula-Northern Neck Community Services Board under programs of the federal government for the year ended June 30, 2021. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements of Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the Middle Peninsula-Northern Neck Community Services Board, it is not intended to and does not present the financial position, changes in net position, or cash flows of the Middle Peninsula-Northern Neck Community Services Board.

Note B - Summary of Significant Accounting Policies

- (1) Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.
- (2) Pass-through entity identifying numbers are presented where available.

Note C - Subrecipients

No awards were passed through to subrecipients.

Note D - De Minimis Cost Rate

The Board did not elect to use the 10-percent de minimis indirect cost rate under Uniform Guidance.

Note E - Loan Balances

The Board has no loan guarantees which are subject to reporting requirements for the current year.

Note F - Provider Relief Funds

For fiscal years ended (FYE) on or before June 29, 2021, no Provider Relief Fund (PRF) expenditures (including lost revenue) should have been reported on the SEFA. Due to guidance available when the FYE 2020 report was issued, the entity reported \$7,728 of PRF expenditures on the FYE 2020 SEFA with no significant impact on the SEFA. Based on current guidance from the Department of Health and Human Services (HHS), PRF expenditures (including lost revenue) are to be reported on the SEFA based upon PRF reports submitted through the Health Resources and Services Administration (HRSA) reporting portal. Therefore, the amount of PRF expenditures included on the FYE June 30, 2021 SEFA is based upon the PRF reporting portal guidelines for Period 1, as specified by HHS.
