INTRODUCTORY SECTION

Town of Vinton

311 S. Pollard Street Vinton, VA 24179 Phone (540) 983-0608 Fax (540) 985-3105

October 30, 2023

To the Honorable Mayor, Members of Town Council, and Citizens of the Town of Vinton, Virginia

We are pleased to present the Town of Vinton, Virginia (the Town) Annual Comprehensive Financial Report (Annual Report) for the fiscal year ended June 30, 2022, in accordance with Section 15.1-167 of the 1950 *Code of Virginia*, (1950 as amended). The *Code* requires that the Town issues an annual report on its financial accounts and records. In addition, the report must be audited. The report was prepared by the Treasurer's Office and audited independently by the accounting firm Brown Edwards & Company, L.L.P.

The Town is required to undergo an annual single audit in conformity with provisions of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). The Schedule of Expenditures of Federal Awards and the independent auditors' reports on internal controls and compliance with applicable laws and regulations are included in the Compliance section of this report.

Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the Town's management. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds of the Town. All disclosures necessary to enable the reader to gain an understanding of the Town's financial activities have been included.

The Reporting Entity and Services Provided

The financial reporting entity includes all of the funds of the primary government of the Town of Vinton, as legally defined. The reporting entity does not include legally separate entities (component units) for which a primary government is financially accountable because there are no such component units within the Town. The Town jointly operates the Roanoke Valley Resource Authority and the Regional Center for Animal Care and Protection through membership on the multi-jurisdictional boards.

The Town of Vinton provides a full range of municipal services. These services include police protection, refuse and recycling functions, general public improvements, street and right-of-way maintenance, recreational and cultural activities, and planning and zoning. The Town also provides potable water distribution, wastewater collection, maintenance and service of line, meters, and other components related to its utility system. Based on the latest Water Quality Report, the water system meets all state and federal requirements administered by the Office of Drinking Water under the Virginia Department of Health. According to the 2021 Water Quality Report, the Town had no water quality violations. The Virginia Department of Environmental Quality reported statewide recycling rates for calendar year 2021. The Town of Vinton's rate was 63.5% which was among the higher rates of localities less than 100,000 population voluntarily reporting.

Local Economic Condition and Outlook

The Town of Vinton is located in the southern end of the Shenandoah Valley, in the southwestern region of Virginia. Vinton is a part of the Roanoke Metropolitan Statistical Area, which includes the Cities of Roanoke and Salem and Counties of Roanoke, Botetourt, and Craig. The Town is a compact, urban area of 3.2 square miles located within eastern Roanoke County and shares a common border with the City of Roanoke. It is approximately 170 miles west of Richmond, Virginia, the State capital. The Town is a major gateway to the recreational attractions of Smith Mountain Lake and the Blue Ridge Parkway. Approximately 78.8% of the total land within the Town is developed; 50.6% for residential use, 13.8% for commercial or industrial development (within the Town industrial park and at various other locations) and 14.4% for public facility development.

The location of the Town provides quick and easy access from neighboring jurisdictions via US Interstates 81 and 581, U.S. Routes 460 and 220, and Virginia Routes 24 and 634. This also provides an opportunity for citizens to be able to drive to a community college, two private colleges, and two public universities in less than one hour. The Town's location also means that its economy is impacted by the economic conditions of its neighbors, and by decisions made by these larger neighboring jurisdictions.

Since the Town of Vinton is highly concerned with providing a positive atmosphere and quality of life for its citizens, it has taken an active role in various regional authorities and activities. The Town participates in economic development by being a member of the Roanoke Regional Partnership and working closely with Roanoke County on development opportunities and promoting a shared industrial park. The Town also partners with community groups to hold two major festivals and several smaller community events throughout the year. In 2021-2022, the Town also partnered with the Vinton Area Chamber of Commerce for economic development and business retention, recruitment and promotion.

The Town also participates in the Greenway Commission, the purpose of which is to identify possible greenway locations in the Roanoke Valley area. Through this, the Town is building a greenway that will connect the downtown business district with Roanoke City's greenway system. This will allow for an individual to travel from Vinton to Salem on the greenway system. Vinton has also partnered with the Roanoke-Alleghany Regional Commission to promote a Blueways Trail on the Roanoke River.

Vinton has maintained stable property tax rates over the years, while continuing to provide high quality municipal services and responsive government. The combined real estate and personal property tax collections for fiscal year 2022 generate approximately \$984,000 or 9.99% of total revenue in the general fund.

The Town maintains a diversified revenue stream with the top local revenues being Sales Tax, Meals Tax, Business License, Communications Sales & Use Tax, and Pari-mutuel Tax. There have been no tax rate changes in these categories in fiscal year 2022.

The nearby educational institutions allow opportunities for Town citizens to receive higher education and technical training. Expansion of industry, tourist facilities, and conference centers in the region continue to enhance the reputation of the Town as a highly desirable residential area.

Long-Term Financial Planning

Council members and staff worked together to develop strategies to achieve the three goals in the Strategic Plan for the future of the Town of Vinton, which strategies will be reevaluated during future Council Retreats. Town staff will also work with Council to review the strategies to be addressed in upcoming budgets.

Long-Term Financial Planning (Continued)

- Aggressively pursue economic development opportunities to enhance local retail and dining options
- Encourage home ownership, housing rehabilitation, and the creation of new, high-quality, and affordable housing stock
- Continue to make Vinton a safe and secure community through community policing and engaging residents
- Continue to enhance the condition and appearance of the Town's public infrastructure and amenities
- Maintain a structurally balanced budget with regular, recurring revenues that are sufficient to sustain service levels and maintain public facilities
- Utilize available technology within municipal offices to improve efficient service delivery
- Conduct thorough organizational efficiency reviews in municipal offices and implement changes based on results

Major Initiatives

The Town continues to focus revitalization efforts to facilitate housing rehabilitation, improve the community's walkability, enhance our transportation corridors and encourage the redevelopment of targeted underutilized commercial properties.

Housing: The Town continues to seek opportunities for Community Development Block Grant (CBDG) submittals to the Department of Housing and Community Development (DHCD) to implement Comprehensive Neighborhood Housing and Community Infrastructure Rehabilitation Programs within historical neighborhoods with predominantly aging housing stock. If awarded one of these DHCD grants, a primary goal will also include these funds being utilized as a match for a pending Hazard Mitigation Grant Program (HMGP) application that involves the acquisition and removal of flood-prone properties in the Cleveland neighborhood.

Transportation: The Town continues to partner with the Greater Roanoke Transportation Corporation (GRTC) to maintain and enhance public transit routes within the Town to key commercial, public services and residential activity centers, such as Lake Drive Plaza, Washington Avenue and South Pollard Street. In addition, the Town has been awarded over \$3M in transportation related grants from the Virginia Department of Transportation (VDOT) to enhance walkability by adding signalized pedestrian crosswalks at the key intersections of South Pollard Street and Washington Avenue and Hardy and Vinyard Roads; and by also the continued development of our sidewalk and greenway connectivity with the Glade Creek Greenway Phase II and developing bike/ped accommodations along Walnut Avenue. The Town of Vinton has received confirmation of VDOT SMART SCALE funding for Phase III of the Walnut Avenue Corridor Improvements Project in the amount of \$7.4 million which will complete the final gap of improving the entire Walnut Avenue corridor with bicycle and pedestrian accommodations from West Lee Avenue to the western town limits.

Commercial: The Town has received \$500,000 from the Virginia Brownfields Restoration and Economic Redevelopment Assistance Fund (VABF) and the Department of Environmental Quality (DEQ) to conduct a Structural Study at Gish Mill and survey and engineering work at the McClung Industrial Property. In addition, the Town has begun with the assessment of the environmental conditions at other "brownfield" sites throughout the community for future targeted redevelopment.

Major Initiatives (Continued)

In partnership with Roanoke County, Vinton has realized immense success with this "redevelopment" strategy. The recent conversion of the former Roland E. Cook School and former William Byrd High School as apartments, the redevelopment of the former Vinton Library as a full service Macado's Restaurant, the redevelopment of the former Vinton Motors Dealership as Vinyard Station, the restoration of an ice-rink and renovation of the fitness center at the Lancerlot Sports Complex, the return of Off-Track Horse Wagering as Rosie's Gaming Emporium, and the rehabilitation of the Gish Mill Property into a mixed-use commercial property that will feature a restaurant, seasonal market and an Air-B&B type hospitality

Accounting System and Budgetary Controls

The Town's accounting records for governmental fund type operations are maintained on a modified accrual basis with revenues being recorded when available and measurable, and expenditures being recorded when services or goods are received and fund liabilities are incurred. Accounting records for proprietary fund types are maintained on the accrual basis with revenues and expenses being recorded when earned or incurred.

In developing or modifying the Town's accounting system, consideration is given to the adequacy of internal controls. Internal controls are designed to provide reasonable, but not absolute, assurance regarding: (a) the safeguarding of assets against loss from unauthorized use or disposition, and (b) the reliability of financial records for preparing financial statements and maintaining accountability for assets.

The concept of reasonable assurance recognizes that: (a) the cost of a control should not exceed the benefits likely to be derived, and (b) the evaluation of costs and benefits requires estimates and judgments by management. All internal control evaluations occur within the above framework. The Town's internal controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

Budgetary control is maintained at the department or function level by the adoption of an annual, accrual plus encumbrances basis budget for both the General and Enterprise Funds. The budgetary controls are designed to ensure compliance with legal restrictions on expenditures as established by the Town Council. Only the Council can revise appropriations. Year-end outstanding encumbrances are reported as a reserve of fund balance and re-appropriated in the subsequent year for General Funds.

Cash Management

The Town uses a pooled cash concept to allow greater investment flexibility and consequently a better return on investments. Cash from all funds is pooled for investment purposes in the Commonwealth of Virginia's Local Government Investment Pool, Virginia Municipal League VIP Funds, Money Market Accounts, Checking Account and Certificates of Deposit. The Town's checking account is an interest-bearing public fund demand deposit account.

Risk Management

The Town's various property and liability insurance coverage is provided by the Virginia Risk Sharing Association. The annual insurance costs are allocated to specific departments and funds based on assigned equipment, number of personnel, building usage, and other equitable cost estimates.

Independent Audit

Virginia law requires that the financial statements of the Town be audited by a Certified Public Accountant (or alternatively, by the Auditor of Public Accounts) selected by the Town Council. Brown, Edwards & Company, L.L.P., has performed an annual audit of the Comprehensive Annual Financial Report. Their audit was conducted in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and *Specifications for Audit of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. The auditor's report, which includes their opinion on the financial statements of the Town, is contained in this report on page one of the Financial Section. Other auditor's reports are included in the Compliance Section.

Accounting principles generally accepted in the United States of America (GAAP) requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The Town's MD&A can be found immediately following the report of the independent auditors.

Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial reporting to the Town for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2021. The Certificate of Achievement is a national award that recognizes conformance with the highest standards for preparation of government financial reports.

In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report, the contents of which must conform to program standards. The Annual Report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. The Town of Vinton has received a Certificate of Achievement since the first award in 1995. We believe our current report continues to conform with the Certificate of Achievement Program requirements, thus, this report is being submitted to GFOA.

Acknowledgements

The preparation of this report was made possible through the diligent effort of the Treasurer's Office/Finance Department with the support of all departments and staff. We would like to express our appreciation to the members of the Town Council for their support in the preparation of the Town of Vinton's comprehensive annual financial report and to the Town's independent auditing firm, Brown, Edwards & Company, L.L.P. for their cooperation and input in this work.

Respectfully submitted,

FINANCIAL SECTION

INDEPENDENT AUDITOR'S REPORT

To the Honorable Members of Town Council Town of Vinton, Virginia

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, and each major fund of the Town of Vinton, Virginia (the "Town"), as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, and each major fund of the Town, as of June 30, 2022, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and *Specifications for Audits of Counties, Cities, and Towns* issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Town and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions

Change in Accounting Principle

As described in Note 1 to the financial statements, in 2022, the Town adopted new accounting guidance, *GASB Statement No. 87 Leases*. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Report on the Audit of the Financial Statement (Continued)

Responsibilities of Management for the Financial Statements (Continued)

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance, but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Town's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

.

Report on the Audit of the Financial Statements (Continued)

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and other required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements. The introductory section and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance), are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Report on the Audit of the Financial Statements (Continued)

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 30, 2023 on our consideration of the Town's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town's internal control over financial reporting and compliance.

Brown, Edwards & Company, S. L. P. CERTIFIED PUBLIC ACCOUNTANTS

Roanoke, Virginia October 30, 2023

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the Town of Vinton, Virginia (the "Town"), we offer readers of the Town's financial statements this narrative overview and analysis of the financial activities of the Town for the fiscal year ended June 30, 2022. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages i through v of this report.

Financial Highlights

- The total assets and deferred outflows of resources of the Town exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$23,646,623 (net position). Of this amount, \$8,025,972 (unrestricted net position) may be used to meet the Town's ongoing obligations to citizens and creditors.
- The Town's total net position increased by \$4,057,507. This increase is largely due to total expenses of \$11,379,587 being less than total revenues of \$15,437,094. Another factor includes an increase of \$2,886,475 (7.32%) in current and other assets. The increase in assets is due to an increase in cash from operations, bond proceeds and capital asset values of \$1,849,115 with the final result being an increase of 9.52% in total assets.

On the other hand, the Town's long-term liabilities also decreased by \$1,441,643 (14.52%), mostly due to no additional debt issuances during the year. Other liabilities decreased by \$156,140 (3.08%), which was due to a decrease in accrued payroll and related liabilities and customer security deposits and related liabilities related to the transfer of the billing and management to the Western Virginia Water Authority at the conclusion of the fiscal year.

Deferred Outflows decreased \$318,519 (24.56%) and Deferred Inflows increased \$2,853,741 (224.73%) primarily due to the net difference between projected and actual earnings on plan investments.

The final result of all these effects is a 20.71% increase in net position.

- As of the close of the current fiscal year, the Town's governmental funds reported an ending fund balance of \$7,369,966 an increase of \$1,446,853 in comparison with the prior year. This is mostly due to an increase \$2,062,141 (59.51%) of cash from bond proceeds and the decrease of \$444,983 (9.58%) total liabilities.
 - The General Fund accounted for \$5,965,779 of the ending fund balance in the governmental funds, with an unassigned fund balance of \$5,605,680. Approximately 93.96% of the ending general fund balance is available for spending at the Town's discretion (unassigned fund balance), and represents 81.37% of the general fund's expenditures, excluding transfers to other funds.
 - ➤ The Capital Fund had an ending committed fund balance of \$1,399,230. This is primarily due to unfinished projects during the fiscal year and is anticipated to be used in the following year to complete budgeted capital projects.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the Town's basic financial statements. The Town's basic financial statements comprise three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Overview of the Financial Statements (Continued)

Government-Wide Financial Statements – The *government-wide financial statements* are designed to provide readers with a broad overview of the Town's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the Town's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference between the four reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result only in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the Town that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Town include general government, public safety, public works, community development, parks, recreation, and cultural. The business-type activity of the Town is the water and sewer department and the stormwater functions.

Fund Financial Statements – A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town can be divided into two categories: governmental funds and proprietary funds.

Governmental Funds – *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, comparing the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements is useful. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds' balance sheet and the governmental funds' statement of revenues, expenditures, and changes in fund balance provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The Town adopts an annual appropriated budget for its general fund and capital fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

Proprietary Funds – The Town maintains one type of proprietary fund. *Enterprise funds* are used to report the same functions presented as *business-type activities* in government-wide financial statements. The Town uses an enterprise fund to account for its Water and Sewer Department and Stormwater functions.

Overview of the Financial Statements (Continued)

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Water and Sewer Department and Stormwater functions.

Notes to the Financial Statements – The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statement.

Other Information – In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the Town's funding progress for the defined benefit pension plan.

Government-Wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the Town, the net position was \$23,646,623 at the close of the most recent fiscal year.

By far the largest portion of the Town's net position (61.36%) reflects its net investment in capital assets (e.g., land, buildings, infrastructure, machinery, and equipment less any related debt used to acquire those assets that are still outstanding). The Town uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the Town's net investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Unrestricted net position of \$8,025,972 may be used to meet the Town's ongoing obligations to citizens and creditors.

Government-Wide Financial Analysis (Continued)

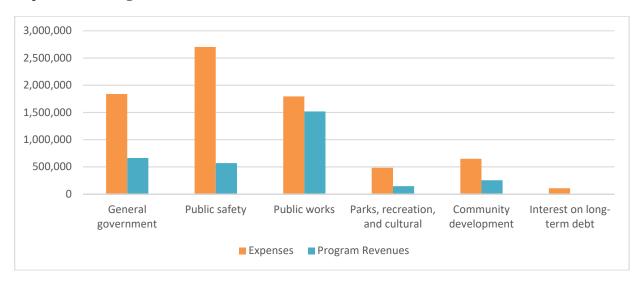

At the end of the current fiscal year, the Town can report positive balances in all three categories of net position, both for the government as a whole and for its separate governmental and business-type activities. The same situation held true for the prior fiscal year.

Governmental activities – Governmental activities increased the Town's net position by \$2,546,984. For the most part, revenues closely paralleled inflation and conditions represented in the economy and growth in the demand for services. Revenues from operating grants and contributions and various taxes showed an increase over the prior year while capital grants and contributions showed a decrease. Investment earnings also showed an increase because of the Town's investments and bond proceeds being invested in higher yields.

Government-Wide Financial Analysis (Continued)

Expenses and Program Revenues – Governmental Activities

Revenues by Source – Governmental Activities

Government-Wide Financial Analysis (Continued)

Business-type activities — Business-type activities increased the Town's net position by \$1,510,523. This is primarily due to the increased service charges approved by council to 8% and volumetric rate of 6% and the use of ARPA funds to assist with residents who experienced hardship.

Financial Analysis of the Government's Funds

As noted earlier, the Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds – The focus of the Town's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the Town's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the Town's governmental funds reported an ending fund balance of \$7,369,966, an increase of \$1,446,853 in comparison with the prior year. This is due to an increase in unassigned funds of \$2,062,141 and a decrease of \$444,983 in total liabilities.

The fund balance of the General Fund increased by \$1,408,861 during the current fiscal year. This increase is primarily attributed to revenues exceeding original budget projections.

The fund balance of the Capital Fund is used to account for the construction of major capital projects or the purchase of major equipment. At the end of the current fiscal year, the Capital Fund increased by \$33,035 for a balance of \$1,399,230 of committed funds to various projects. Those projects include street maintenance of Mountain View Rd., Traffic signals, a Hotel Development project, and the redevelopment of Gish Mill.

The fund balance of the Grant Fund accounts are revenue resources that are restricted to expenditures for specific purposes. The restricted fund balance increased from the prior year by \$4,957 as a result of projects extending into the next fiscal year.

Proprietary funds – The Town's proprietary fund provides the same type of information found in the government-wide financial statements but in more detail.

The unrestricted net position of the Water and Sewer Department at the end of the year amounted to \$2,739,880. Unrestricted net position of the Stormwater Management Department at the end of the year amounted to \$295,886. Factors concerning the finances of this fund have already been addressed in the discussion of the Town's business-type activities.

General Fund Budgetary Highlights

Differences between the original budget and the final amended budget for revenues were \$543,878 primarily due to increases in other local taxes based on mid-year projections above the original budgeted amounts.

Differences between the original budget and the final amended budget for expenditures were \$1,209,838 primarily due to public safety expenditures being transferred to the grant fund for reimbursement from the CARES Act funding.

Multiple variances between the final budget and the actual results for the year can be briefly summarized as follows:

• There was a negative variance in real property taxes, and 14.99% of the budgeted amount remains outstanding. The real property tax rate did not change from \$0.07 per \$100 of assessed value. The decrease in budget actuals, is primarily due to an attempt to capture the increased assessed value for personal property (used or new). The budget amendment used the aggressive estimate in favor of the conservative numbers.

General Fund Budgetary Highlights (Continued)

- There was a positive variance of other local taxes of \$511,892 or 9.13% more than the budgeted amount collected. Several key economic revenues, such as inflation, outperformed expectations such as Meals Tax, Sales Tax, Business License Tax, and Pari-mutuel Tax.
- The Town experienced a positive variance in the Charges for Services category of \$7,849 or 5.07% more than the budgeted amount collected. This is primarily due to rentals increasing as the Town's pandemic limitations on events were lifted.
- All expenditures by budget functions have favorable variances, except capital projects. This is because the Town includes the budget for small capital projects in the department total instead of budgeting separately for small capital.

Capital Asset and Debt Administration

Capital assets – The Town's investment in capital assets for its governmental and business-type activities as of June 30, 2022, amounts to (net of accumulated depreciation). This investment in capital assets includes land, buildings and systems, improvements, infrastructure, machinery, and equipment. The total increase in the Town's investment in capital assets for the current fiscal year was 14.10% (a 7.81% increase for governmental activities and a 24.34% increase for business-type activities). Additional information on the Town's capital assets can be found in Note 5 of this report.

Long-term debt – At the end of the current fiscal year, the Town had total debt outstanding of \$9,782,207, minus compensated absences. Of this amount, \$7,682,999 comprises debt backed by the full faith and credit of the government, \$1,157,000 is related to revenue bond obligations, \$358,141 is related to intergovernmental obligations, and \$584,067 is related to operating leases.

Capital Asset and Debt Administration (Continued)

The Town's total debt decreased by \$1,468,149 or 13.05%, during the fiscal year. This decrease is primarily due to the payoff of the VML Equipment, Street Sweeper, and Knuckleboom Truck Issuance. In addition, the transfer of debt to the Western Virginia Water Authority in accordance with service transfer as of June 30, 2022.

Additional information on the Town's long-term debt can be found in Note 6 of this report.

Economic Factors and Next Year's Budgets and Rates

During the current year, the Town experienced a growth in local revenue pari-mutuel tax (off-track betting revenue) which has quickly become a top revenue source in the General Fund along with prepared food and beverage tax and state sales tax collections. The Town has previously had limited funding for capital items due to low or negative revenue growth from the previous decade (2010-2019) and has used these new and improved revenue sources to improve and replace capital items vital to the Town's services.

- The unemployment rate for Roanoke County (no statistics are available for the Town individually) as of June 30, 2022, is 2.70%, which is a decline from last year's rate of 3.60%. This is a better performance when compared to the state's average unemployment rate as of June 30, 2022, of 2.50% and to the national average rate of 3.60%.
- The occupancy rate of the Town's central business district has remained at 90% for the past five years.
- Inflationary trends in the region compare favorably to national indices.
- No real property tax increase for calendar year 2022, but an overall increase in reassessment for real estate values increased the tax levy.

During the current fiscal year, the unassigned fund balance in the general fund increased by \$2,140,546. The general fund remains strong with an ending unassigned fund balance of \$5,605,680. It is intended that this available fund balance will be used for future one-time needs of the Town and as working capital during the months of low cash collection volume.

Requests for Information

This financial report is designed to provide a general overview of the Town's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Department/Treasurer's Office, Town of Vinton, 311 S. Pollard Street, Vinton, Virginia 24179. www.vintonva.gov

NOTES TO FINANCIAL STATEMENTS June 30, 2022

Note 1. Summary of Significant Accounting Policies

A. The Financial Reporting Entity

The Town of Vinton (the "Town") was established in 1884. It is a political subdivision of the Commonwealth of Virginia operating under the Council-Manager form of government. The Town Council consists of a mayor and four other council members. The Town is part of Roanoke County and has taxing powers subject to state-wide restrictions and tax limits.

Vinton provides a full range of municipal services including police, refuse collection, recycling, public improvements, planning and zoning, general administrative services, recreation, and water and sewer services.

Jointly Governed Organizations

Roanoke Valley Resource Authority

The Town of Vinton, Roanoke County, and the City of Roanoke jointly participate in the Roanoke Valley Resource Authority, which operates a regional solid waste disposal system that includes a sanitary landfill, waste collection, and transfer station. The Authority is governed by a board composed of seven members appointed by the governing bodies of participating jurisdictions. Town Council appoints one member. The Town has control over the budget and financing of the Authority only to the extent of representation by the board member appointed. The participating localities are each responsible for their pro-rata share, based on population, of any year-end operating deficit. For the current year, the Town remitted \$218,501 to the Authority for services. A separate financial statement can be obtained from the Roanoke Valley Resource Authority, 110 Hollins Road, NE, Roanoke, Virginia 24012.

Roanoke Valley Regional Pound Facility

The Counties of Roanoke and Botetourt, the City of Roanoke, the Town of Vinton, and the Roanoke Valley Society for the Prevention of Cruelty to Animals, Inc. formed the Advisory Board of the Roanoke Valley Regional Pound Facility to construct and operate a regional pound facility. The Board is composed of nine members. Each locality's financial obligation is based on the number of animals caged per day at the facility. The County of Roanoke assumed responsibility for the Town's percentage of the costs as part of the new memorandum of understanding with the County of Roanoke that went into effect on July 1, 2019. A separate financial statement can be obtained from the Roanoke Valley Regional Pound Facility, 1510 Baldwin Avenue, Roanoke, Virginia 24012.

Roanoke County Emergency Communications Center

The Town participates in an intergovernmental agreement with the County of Roanoke for the operation of a E-911 dispatch center. All personnel of the Center are employees of Roanoke County. The Director of Communications & Information Technology in coordination with the Emergency Communications Center Advisory Board is responsible for oversight of the Center. The Assistant Director for Communications and Information Technology is responsible for the day-to-day operational management of the Center. The Town and County of Roanoke contribute to the operational cost of the Center based on the pro rata share of call volume. The Town's share of the operating cost was \$385,025 in the current year. Separate financial statements are not available.

NOTES TO FINANCIAL STATEMENTS June 30, 2022

Note 1. Summary of Significant Accounting Policies (Continued)

A. The Financial Reporting Entity (Continued)

Jointly Governed Organizations (Continued)

Western Virginia Regional Industrial Facility Authority

The Town of Vinton, County of Botetourt, County of Franklin, County of Roanoke, City of Salem, and the City of Roanoke jointly participate in the Western Virginia Regional Industrial Facility Authority, which functions to enhance the economic base for members by developing, owning, and operating facilities on a cooperative basis. The Authority is governed by a board composed of twelve members appointed by the governing bodies of participating jurisdictions. Town Council appoints two members. There were no associated costs to members for participation in the Authority in the current year. A separate financial statement can be obtained from the Western Virginia Regional Industrial Facility Authority care of Roanoke Regional Partnership, 111 Franklin Road, SE, Roanoke, Virginia 24011.

B. Individual Component Unit Disclosures

As required by generally accepted accounting principles, these financial statements present the Town as the primary government. A *component unit* is an entity for which the primary government is considered to be financially accountable. There are no component units within this reporting entity.

C. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of changes in net position) report information on all of the activities of the Town. For the most part, the effect of interfund activity has been removed from these statements. Interfund services provided and used are not eliminated in the process of consolidation. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for the governmental fund and proprietary funds.

NOTES TO FINANCIAL STATEMENTS June 30, 2022

Note 1. Summary of Significant Accounting Policies (Continued)

D. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources* measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources* measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Town considers revenue as available if it is collected within 45 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the Town.

The Town reports the following major governmental funds:

The *general fund* is the Town's primary operating fund. It accounts for all financial resources of the Town, except those required to be accounted for in another fund.

The *capital projects fund* is used to account for financial resources which have been segregated for the acquisition or construction of major capital facilities.

The *grant fund* is a special revenue fund that is used to report specific revenue sources that are limited to being used for a specific purpose.

The Town reports the following major proprietary funds:

The *enterprise funds* account for the financing of services to the general public where all or most of the operating expenses involved are intended to be recovered in the form of user charges, or where management has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for management control, accountability, or other purposes. The enterprise funds consist of the activities relating to water and sewer services and stormwater management.

NOTES TO FINANCIAL STATEMENTS June 30, 2022

Note 1. Summary of Significant Accounting Policies (Continued)

D. <u>Measurement Focus, Basis of Accounting, and Financial Statement Presentation</u> (Continued)

Amounts reported as *program revenues* include (1) charges to customers or applicants for goods, services, or privileges provided, (2) operating grants and contributions, and (3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the water and sewer enterprise fund are charges to customers for sales and services. The stormwater management fund has not begun to collect dedicated utility fees. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

E. Budgets and Budgetary Accounting

The following procedures are used in establishing the budgetary data reflected in the financial statements:

- 1) Prior to June 30, the Town Manager submits to Council a proposed operating and capital budget for the fiscal year commencing the following July 1. This budget includes proposed expenditures and the means of financing them.
- 2) Public hearings are conducted to obtain citizen comments.
- 3) Prior to June 30, the budgets for the general and enterprise funds are legally enacted through passage of an appropriations ordinance. Town Council may, from time to time, amend the budget providing for additional expenditures and the means for financing them. Town Council approved additional general fund appropriations of approximately \$1,517,000 during the fiscal year ended June 30, primarily for capital projects deferred from the prior year and additional operating expenditures.
- 4) The appropriations ordinance places legal restrictions on expenditures at the department or function level. Management can over-expend at the line item level without approval of Town Council. The appropriation for each department or function can be revised only by Town Council. The Town Manager is authorized to transfer budget amounts within departments. All budget data presented in Exhibit 7 is at the legal level of budgetary control.
- 5) Formal budgetary integration is employed as a management control device during the year for the general and enterprise funds.

NOTES TO FINANCIAL STATEMENTS June 30, 2022

Note 1. Summary of Significant Accounting Policies (Continued)

E. Budgets and Budgetary Accounting (Continued)

- 6) Budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
- 7) Appropriations lapse on June 30.
- 8) All budget data presented in the accompanying financial statements are revised as of June 30.

F. Cash and Cash Equivalents

Cash and cash equivalents are defined as short-term, highly liquid investments (including restricted assets) with an original maturity of three months or less when purchased.

G. Allowance for Uncollectible Accounts

The Town calculates its allowance for uncollectible accounts using historical collection data and specific account analysis.

H. Inventories

Inventories are valued at cost. Inventories are accounted for under the consumption method, where inventories are recorded as expenditures when consumed, rather than when purchased.

I. Prepaid Items

Governmental fund prepaid items consist primarily of health insurance premium payments incurred for periods in a subsequent fiscal year. Prepaid items are accounted for using the consumption method. The payments are recorded as expenditures in the fiscal year related to the coverage period.

Proprietary fund prepaid items consist primarily of inventory purchased before year-end but not received and on hand until after the year-end. Prepaid items are accounted for using the consumption method. The costs of these items are expensed in the subsequent fiscal year when they are actually consumed or used.

J. Land Held for Resale

Land held for resale represents a property that was purchased by the Town for the purposes of economic development. The Town intends to sell the property as soon as possible and thus it will not be placed into service to benefit the Town.

NOTES TO FINANCIAL STATEMENTS June 30, 2022

Note 1. Summary of Significant Accounting Policies (Continued)

K. Capital Assets

Capital assets, which include property, plant, and equipment, and infrastructure assets acquired subsequent to July 1, 2001, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. *Capital assets* are defined by the Town as assets with an initial, individual cost of more than \$10,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets, donated works of art and similar items, and capital assets received in a service concession arrangement are recorded at acquisition value.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Buildings and improvements	10-40 years
Machinery and equipment	3-10 years
Utility plant	20-40 years
Public domain infrastructure	25-40 years
Sewage treatment contract	30 years

L. Leases

For the year ended June 30, 2022, the financial statements include the adoption of GASB Statement No. 87, *Leases*. The primary objective of this statement is to enhance the relevance and consistency of information about governments' leasing activities. This statement establishes a single model of lease accounting based on the principle that leases are financings of the right to use an underlying asset. Under the statement, a lease is required to recognize a lease liability and an intangible right-to-use lease asset.

M. Deferred Outflows/Inflows of Resources

In addition to assets, the statements that present net position report a separate section for deferred outflows of resources. These items represent a consumption of net assets that applies to future periods and so will not be recognized as an outflow of resources (expense) until then.

In addition to liabilities, the statements that present financial position report a separate section for deferred inflows or resources. These items represent an acquisition of net assets that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time.

N. Compensated Absences

The Town has policies which allow for the accumulation and vesting of limited amounts of vacation and sick leave until termination or retirement. Amounts of such absences are accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only when the leave is due and payable.

NOTES TO FINANCIAL STATEMENTS June 30, 2022

Note 1. Summary of Significant Accounting Policies (Continued)

O. Pensions and Other Postemployment Benefits (OPEB)

For purposes of measuring all financial statement elements relating to pension and OPEB plans, information about the fiduciary net position of the Town's plans and the additions to/deductions from the Town's plan's net fiduciary net position have been determined on the same basis as they were reported by the Virginia Retirement System (VRS). For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

P. Long-Term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, *long-term debt* and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenses.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Q. Fund Balances

Fund balance is divided into five classifications based primarily on the extent to which the Town is bound to observe constraints imposed upon the use of the resources. The classifications are as follows:

- Nonspendable Amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash.
- **Restricted** Amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.
- Committed Amounts constrained to specific purposes by the Town, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purposes unless the same highest level of action is taken to remove or change the constraint.
- **Assigned** Amounts the Town intends to use for a specified purpose; intent can be expressed by the governing body.
- Unassigned Amounts that are available for any purpose; positive amounts are reported only in the general fund.

NOTES TO FINANCIAL STATEMENTS June 30, 2022

Note 1. Summary of Significant Accounting Policies (Continued)

Q. Fund Balances (Continued)

Council establishes (and modifies or rescinds) fund balance commitments by passage of an ordinance or resolution. This is typically done through adoption and amendment of the budget. The degree of difficulty to remove an ordinance is greater than a resolution; therefore, an ordinance is the most binding. Assigned fund balance is established by Council, the Town Manager, or the Director of Finance through adoption or amendment of the budget as intended for specific purpose (such as the purchase of capital assets, debt service, or for other purposes).

The Town applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Minimum Fund Balance Policy

The Town strives to maintain a General Fund reserve equal to four months of discretionary General Fund revenues.

R. Estimates

Management uses estimates and assumptions in preparing its financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent liabilities, and reported revenues and expenses. Actual results could differ from those estimates.

S. Comparative Information

The basic financial statements include certain prior year summarized comparative information in total but not at the level of detail required for a presentation in conformity with GAAP. Accordingly, such information should be read in conjunction with the government's financial statements for the prior year from which the summarized information was derived.

T. Reclassifications

Certain amounts in the prior-year comparison information have been reclassified for comparative purposes to conform with the presentation in the current-year financial statements.

NOTES TO FINANCIAL STATEMENTS June 30, 2022

Note 2. Deposits and Investments

Deposits

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act") Section 2.2-4400 et. seq. of the *Code of Virginia*. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

Investments

Investment Policy

Statutes authorize the Town to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper and certain corporate notes, and bankers' acceptances, repurchase agreements, and the State Treasurer's Local Government Investment Pool (LGIP). Pursuant to Section 2.1-234.7 *Code of Virginia*, the Treasury Board of the Commonwealth sponsors the LGIP and has delegated certain functions to the State Treasurer. The LGIP reports to the Treasury Board at their regulatory scheduled monthly meetings and the fair value of the position in LGIP is the same as the value of the pool shares (i.e., the LGIP maintains a stable net asset value of \$1 per share). The investment policy (the "Policy") specifies that no investment may have a maturity greater than one year from the date of purchase.

Credit Risk

As required by state statute, the Policy requires that "prime quality" commercial paper, with a maturity of 270 days or less, of issuing corporations organized under the laws of the United States, or of any state thereof including paper issued by banks and bank holding companies has received at least two of the following ratings: (i) at lease prime 1 by Moody's Investors Service, Inc.; (ii) at least A1 by Standard & Poor's; or (iii) at least F1 by Fitch Ratings, Inc. provided that at the time of the any such investment has a net worth of at least \$50 million, the net income of the issuing corporation, or its guarantor, has averaged \$3 million per year for the previous five year, and all existing senior bonded indebtedness of the issuer, or its guarantor, has received at least two of the following ratings: (i) at lease A by Moody's Investors Service, Inc.; (ii) at least A by Standard & Poor's, or (iii) at least A by Fitch Ratings, Inc.

NOTES TO FINANCIAL STATEMENTS June 30, 2022

Note 2. Deposits and Investments (Continued)

Investments (Continued)

<u>Credit Risk</u> (Continued)

The Policy also requires that negotiable certificates of deposit and negotiable bank deposit notes of domestic banks and domestic offices of foreign banks with maturities not exceeding one year, have received at least two of the following ratings: (i) at least A-1 by Standard & Poor's; (ii) at least P-1 by Moody's Service; or (iii) at least at least F1 by Fitch Ratings. For maturities exceeding one year and not exceeding five years, have received at least two of the following ratings: (i) at least AA by Standard & Poor's, (ii) at least Aa by Moody's Investors Service, or (iii) at least AA by Fitch Ratings.

The Town has invested bond proceeds subject to rebate of arbitrage earnings in the Virginia State Non-Arbitrage Program (SNAP). SNAP is designed to assist local governments in complying with the arbitrage rebate requirements of the Tax Reform Act of 1986. These programs provide comprehensive investment management, accounting, and arbitrage rebate calculation services for proceeds of general obligation and revenue tax-exempt financing of Virginia local governments. The SNAP has been assigned an "AAAm" rating by Standard & Poor's. The maturity of the SNAP is less than one year.

Although the intent of the Policy is for the Town to diversify its investment portfolio to avoid incurring unreasonable risks regarding (i) security type, (ii) individual financial institution or issuing entity, and (iii) maturity, the Policy places no limit on the amount the Town may invest in any one issuer.

Interest Rate Risk

As a means of limiting its exposure to fair value losses arising from rising interest rates, the Town's investment policy specifies that no investment may have a maturity greater than two years from the date of purchase, and the average maturity of the portfolio must not exceed one year.

Custodial Credit Risk

The Policy requires that all investment securities shall be held in safekeeping by a third-party and evidenced by safekeeping receipts. As required by the *Code of Virginia*, all security holdings with maturities over 30 days may not be held in safekeeping with the "counterparty" to the investment transaction.

NOTES TO FINANCIAL STATEMENTS June 30, 2022

Note 2. Deposits and Investments (Continued)

Investments (Continued)

Custodial Credit Risk (Continued)

As of June 30, the Town's deposit and investment balances were as follows:

Deposits Demand deposits Cash on hand	\$ 14,956,141 1,309
	14,957,450
Investments (Fair Value) (Level 1 Inputs)	
LGIP	21,019
VML VIP Liquidity Pool	10,185
SNAP	 2,888,573
Total deposits and investments	\$ 17,877,227
Exhibit 1 total deposits and investments is composed as follows:	
Cash and investments Restricted cash	\$ 14,962,067 2,915,160
Total deposits and investments	\$ 17,877,227

Restricted cash and cash equivalents consist of \$2,888,573 in unspent bond proceeds, \$25,209 of evidence found, and \$1,378 of flex benefit spending that can only be used for specific purposes.

The Town categorizes its fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

NOTES TO FINANCIAL STATEMENTS June 30, 2022

Note 3. Receivables

Receivables consist of the following:

	Governmental Activities		Business-type Activities		 Total
Receivables Taxes Accounts	\$	597,543 226,828	\$	349,143	\$ 597,543 575,971
Gross receivables		824,371		349,143	1,173,514
Less: allowance for uncollectibles		229,728		120,541	 350,269
Receivables, net	\$	594,643	\$	228,602	\$ 823,245

Governmental funds report unavailable revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of unavailable and unearned revenue reported in the general fund were as follows:

	<u>Unavailable</u>			Unearned
Second half property taxes billed in advance	\$	936,222	\$	936,222
Delinquent property taxes receivable		283,602		283,602
Vehicle license fee		67,352		-
Sales and communication taxes		132,593		-
Deposits on facility use		-		21,026
Other		9,594		-
	\$	1,429,363	\$	1,240,850

The General Fund reported unearned revenue of \$1,219,824 related to taxes and \$21,026 related to deposits for facility use. The Grant Fund reported unearned revenue of \$3,770,875 in connection with the Coronavirus State and Local Recovery Funds related costs.

NOTES TO FINANCIAL STATEMENTS June 30, 2022

Note 4. Due from Other Governmental Units

A summary of funds due from other governmental units was as follows:

	Gov A	siness-type Activities	
Commonwealth of Virginia			
Communication taxes	\$	38,851	\$ -
Rolling stock tax		8,204	-
Highway infrastructure program		1,960	-
Miscellaneous non-categorical aid		269	 -
		49,284	 -
Federal Government			
Other		166,303	-
County of Roanoke			
Local sales taxes		230,496	-
Other		8,793	-
		239,289	-
Western Virginia Water Authority		-	496,209
	\$	454,876	\$ 496,209

Note 5. Capital Assets

Capital asset activity for the year was as follows:

Governmental Activities	Beginning Balance	Increases	Decreases	Ending Balance
Capital assets, not depreciated				
Land	\$ 1,823,532	\$ -	\$ -	\$ 1,823,532
Construction in progress	294,157	375,722	(34,980)	634,899

Water and sewer	\$ 818,804
Stormwater management	 40,032
	\$ 858,836

Construction Commitments

The Town has a \$421,000 construction commitment for the Gus Nicks Bridge Improvement construction project, a \$761,000 construction commitment for phase two of the Glade Creek Greenway construction project, a \$1,781,000 construction commitment for the Walnut Avenue Bike and Pedestrian construction project, a \$1,081,000 construction commitment for the Walnut Avenue and Lee Street construction project, a \$1,674,000 construction commitment for the 3rd Street Lift Station, and a \$552,000 construction commitment for the Woodland Pipeline Stream Restoration as of June 30, 2022.

NOTES TO FINANCIAL STATEMENTS June 30, 2022

Note 5. Capital Assets (Continued)

Sewage Treatment Contract

Through its participation in an agreement with four other localities for the expansion of the regional sewage treatment plant and interceptors, the Town has contractual rights to predetermined capacity in both the plant and interceptors through 2034.

The plant upgraded its Tinker Creek Interceptor in 2015 to reduce inflow and infiltration, as well as mitigate overflow. Modifications costing approximately \$5 million were completed. The Town's share was approximately 5.5% or \$294,000, which was funded with an obligation payable to the Western Virginia Water Authority. On July 1, 2022, this loan, along with several others, was transferred to the Western Virginia Water Authority.

The Western Virginia Water Authority began upgrades to its main digester plant in 2021 to improve operations and ensure continuity of services. The Town's share was approximately 5.5% or \$710,808. The Town issued debt in 2022 for \$710,000. It received \$324,000 of the funds and the Western Virginia Water Authority received the remainder. On July 1, 2022, this loan, along with several others, was transferred to the Western Virginia Water Authority.

The Town is required to contribute \$66,000 annually to a capital reserve fund for ongoing maintenance of the system. The Town has made the annual required contribution since the formation of the Authority in 2005. On July 1, 2022, this annual contribution was discontinued as part of the transfer to the Western Virginia Water Authority.

NOTES TO FINANCIAL STATEMENTS June 30, 2022

Note 6. Long-Term Liabilities

The following is a summary of changes in long-term liabilities for the year:

Governmental Activities	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
General obligation bonds	\$ 1,670,595	\$ -	\$ (346,387)	\$ 1,324,208	\$ 348,733
Obligation payable –					
RCACP	11,200	-	(11,200)	-	-
Operating leases	-	823,781	(239,714)	584,067	242,194
Financing leases	239,046	-	(239,046)	-	-
Compensated absences	290,903	239,642	(95,998)	434,547	143,401
	\$ 2,211,744	\$ 1,063,423	\$ (932,345)	\$ 2,342,822	\$ 734,328
Business-type					
Activities	_				
General obligation bonds*	\$ 7,179,119	\$ -	\$ (820,328)	\$ 6,358,791	\$ 823,218
Revenue bonds	1,338,000	-	(181,000)	1,157,000	181,000
Obligation payable –					
WVWA*	379,277	-	(21,136)	358,141	21,973
Financing leases	433,119	-	(433,119)	-	-
Compensated absences	39,580	19,968	(14,652)	44,896	11,673
	\$ 9,369,095	\$ 19,968	\$ (1,470,235)	\$ 7,918,828	\$ 1,037,864

^{*} Several loans are transferred to Western Virginia Water Authority on July 1, 2022. See Note 21.

Governmental activities' compensated absences, pension liabilities, and other postemployment liabilities are generally liquidated by the general fund.

^{*} Several loans are transferred to Western Virginia Water Authority on July 1, 2022. See Note 21.

The revenue bond has been issued in accordance with the terms of an indenture agreement with the Virginia Municipal League/Virginia Association of Counties. The indenture agreement requires the Town to pledge its Water and Sewer Fund Revenues as collateral for the revenue bond and to maintain revenues in the Water and Sewer Fund equal to at least 1.20 of all debt service payments, which exclude any refunded principal payments. The pledged revenue coverage ratio for the year ended June 30, 2022, was 1.57. Statistical Section Table 11 presents the pledged revenue coverage ratio.

The Town entered into an agreement with the County of Roanoke in July 2019 that transferred the remaining debt payments associated with the Vinton Fire Station #2 and the Vinton Rescue Squad #2. The County makes semi-annual payments directly to the Town.

^{*} Loans transferred to Western Virginia Water Authority on July 1, 2022. See Note 21.

Note 7. Performance Agreements

The Town has committed funds for several performance agreements with local businesses to encourage redevelopment and economic growth in the Town. In exchange, the Town will provide funding equal to annual meals tax generated by the business or make annual payments as performance benchmarks are met, depending on the agreement. The expected maturity of the total payouts is June 30, 2033. As of June 30, 2022, the amount earned is \$485,752 and the amount unearned is \$4,569,695.

NOTES TO FINANCIAL STATEMENTS June 30, 2022

Note 8. Defined Benefit Pension Plan

Plan Description

All full-time, salaried permanent employees of the Town of Vinton, (the "Political Subdivision") are automatically covered by the VRS Retirement Plan upon employment. This multi-employer cost-sharing is administered by the Virginia Retirement System (the System) along with plans for other employer groups in the Commonwealth of Virginia. Members earn one month of service credit for each month they are employed and for which they and their employer pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria as defined in the *Code of Virginia*, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously refunded service.

The System administers three different benefit structures for covered employees – Plan 1, Plan 2, and Hybrid. Each of these benefit structures has a different eligibility criteria. The specific information for each plan and the eligibility for covered groups within each plan are available at

- https://www.varetire.org/members/benefits/defined-benefit/plan1.asp,
- https://www.varetire.org/members/benefits/defined-benefit/plan2.asp,
- https://www.varetirement.org/hybrid.html.

Employees Covered by Benefit Terms

As of the June 30, 2020, actuarial valuation, the following employees were covered by the benefit terms of the pension plan:

	Number
Inactive members or their beneficiaries currently receiving benefits	83
Inactive members:	
Vested inactive members	22
Non-vested inactive members	40
Inactive members active elsewhere in VRS	58
Total inactive members	120
Active members	67
Total covered employees	270

Contributions

The contribution requirement for active employees is governed by §51.1-145 of the *Code of Virginia*, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement.

NOTES TO FINANCIAL STATEMENTS June 30, 2022

Note 8. Defined Benefit Pension Plan (Continued)

Contributions (Continued)

The political subdivision's contractually required contribution rate for the year ended June 30, 2022, was 11.81% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2019.

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the political subdivision were \$385,361 and \$365,876 for the years ended June 30, 2022, and June 30, 2021, respectively.

Net Pension Liability (Asset)

The political subdivision's net pension liability (asset) is calculated separately for each employer and represents that particular employer's total pension liability (asset) determined in accordance with GASB Statement No. 68, less that employer's fiduciary net position. For political subdivisions, the net pension liability (asset) was measured as of June 30, 2021. The total pension liability used to calculate the net pension liability (asset) was determined by an actuarial valuation performed as of June 30, 2020 rolled forward to the measurement date of June 30, 2021.

Actuarial Assumptions

The total pension liability (asset) for General Employees and Public Safety with Hazardous Duty Benefits in the Political Subdivision's Retirement Plan was based on an actuarial valuation as of June 30, 2020, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2021.

Inflation	2.50%
General Employees – Salary increases, including inflation	3.50 – 5.35%
Public Safety Employees with hazardous duty benefits – Salary increases, including inflation	3.50 – 4.75%
Investment rate of return	6.75%, net of pension plan investment expense, including inflation*

Mortality rates: General employees -15 to 20% of deaths are assumed to be service related. Public Safety Employees -45% to 70% of deaths are assumed to be service related. Mortality is projected using the applicable Pub-2010 Mortality Table with various setbacks or set forwards for both males and females.

NOTES TO FINANCIAL STATEMENTS June 30, 2022

Note 8. Defined Benefit Pension Plan (Continued)

Actuarial Assumptions (Continued)

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study are as follows:

General Employees – Largest 10 – Non-Hazardous Duty and All Others (Non 10 Largest): Update mortality table; adjusted retirement rates; adjusted withdrawal rates to better fit experience at each year age and service through 9 years of service; no change to disability rates, no change to salary scale, no change to line of duty disability; and no change to discount rate.

Public Safety Employees – Largest 10 – Hazardous Duty and All Others (Non 10 Largest): Update mortality table; adjusted retirement rate to better fit experience and increased final retirement age to 70; adjusted rates to withdrawal; no change to disability rates; no changes to salary scale; no change to line of duty disability; and no change to discount rate.

Long-Term Expected Rate of Return

The long-term expected rate of return on pension System investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class (Strategy)	Target Allocation	Arithmetic Long-Term Expected Rate of Return	Weighted Average Long-Term Expected Rate of Return
Public Equity	34.00 %	5.00 %	1.70 %
Fixed Income	15.00	0.57	0.09
Credit Strategies	14.00	4.49	0.63
Real Assets	14.00	4.76	0.67
Private Equity	14.00	9.94	1.39
MAPS- Multi-Asset Public Strategies	6.00	3.29	0.20
PIP- Private Investment Partnership	3.00	6.84	0.21
Total	100.00 %		4.89 %
	2.50 %		
*Expected arithmet	7.39 %		

NOTES TO FINANCIAL STATEMENTS June 30, 2022

Note 8. Defined Benefit Pension Plan (Continued)

Long-Term Expected Rate of Return (Continued)

* The above allocation provides for a one-year return of 7.39%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected rate of return for the system, stochastic projections are employed to model future returns under various economic conditions. The results provide a range of returns over various time periods that ultimately provide a median return of 6.94%, including expected inflation of 2.5%. On October 10, 2019, the VRS Board elected a long-term rate of 6.75% which is roughly at the 40th percentile of expected long-term results of the VRS fund asset allocation at that time, providing a median return of 7.11%, including expected inflation of 2.50%.

Discount Rate

The discount rate used to measure the total pension liability (asset) was 6.75%. The projection of cash flows used to determine the discount rate assumed that System member contributions will be made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Consistent with the phased-in funding provided by the General Assembly for state and teacher employer contributions; political subdivisions were also provided with an opportunity to use an alternate employer contribution rate. For the year ended June 30, 2021, the alternate rate was the employer contribution rate used in the FY 2012 or 100% of the actuarially determined employer contribution rate from the June 30, 2017, actuarial valuations, whichever is greater. From July 1, 2021 on, participating employers are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability (asset).

Pension Plan Data

Information about the VRS Political Subdivision Retirement Plans is also available in the separately issued VRS 2021 *Comprehensive Annual Financial Report* (Annual Report). A copy of the 2021 VRS Annual Report may be downloaded from the VRS website at http://www.varetire.org/Pdf/Publications/2021-annual-report.pdf, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

Note 9. Other Postemployment Benefits Liability – Local Plan

Plan Description and Benefits Provided

The Town provides postemployment medical and dental benefits to its eligible retirees and their dependents through a single-employer defined benefit plan. At retirement, retirees under the age of 65 may participate in one of the Town's health and dental plans and may continue coverage under these plans until age 65 or becoming eligible for Medicare, whichever comes first. The Town contributes \$200 per month towards this coverage with the retiree paying the remainder of the premium. Medicare-eligible retirees may participate in the Medicare supplement only and pay 100% of the Medicare supplement premium. The retirees receive an implicit benefit from participating in the Town's health and dental plans through lower insurance rates created by the blending of the retirees with active employee's rates. The Town Council may change, add, or delete benefits (including contributions required of retired employees) as deemed appropriate.

Participants are eligible for the plan at age 55 if they have completed 25 years of service. Retiring employees must have been active employees when they retire.

The plan does not provide audited financial statements.

Funding Policy

The Town currently funds postemployment benefits on a pay-as-you-go basis. The Town does not intend to establish a trust to pre-fund this liability.

Employees Covered by Benefit Terms

As of the July 1, 2021 actuarial valuation, the following employees were covered by the benefit terms of the plan:

	Number
Inactive employees or beneficiaries	2
Active plan members	64
	66

NOTES TO FINANCIAL STATEMENTS June 30, 2022

Note 9. Other Postemployment Benefits Liability – Local Plan (Continued)

Total OPEB Liability

The Town's total OPEB liability of \$207,371 was measured as of June 30, 2022, and was determined based on an actuarial valuation performed as of July 1, 2021.

Actuarial Assumptions and Other Inputs

The total OPEB liability was determined using the following assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation 3.00%
Salary increases, including inflation 3.00%

Healthcare cost trend rates 5.00% for all future years

Retirees' share of benefit-related costs

Mortality rates: PUB 2010 General (M/F) with MP 2021 projection.

The actuarial assumptions used in the June 30, 2022 valuation were based on the results of an actuarial VRS experience as of July 1, 2021.

\$-0-

Changes in assumptions and other inputs reflect plan changes, effect of economic/demographic gains or losses, and effect of assumptions changes or inputs.

Note 10. Other Postemployment Benefits Liability – Virginia Retirement System Plan

In addition to their participation in the pension plan offered through the Virginia Retirement System (VRS), the Town also participates in a cost-sharing and agent multi-employer other postemployment benefit plans described as follows.

Plan Description

Group Life Insurance Program

All full-time teachers and employees of political subdivisions are automatically covered by the VRS Group Life Insurance (GLI) Program upon employment.

In addition to the Basic Group Life Insurance Benefit, members are also eligible to elect additional coverage for themselves, as well as a spouse or dependent children through the Optional Group Life Insurance Program. For members who elect the optional group life insurance coverage, the insurer bills employers directly for the premiums. Employers deduct these premiums from members' paychecks and pay the premiums to the insurer. Since this is a separate and fully insured program, it is not included as part of the GLI Program OPEB.

Specific information for the GLI is available at https://www.varetire.org/members/benefits/life-insurance/basic-group-life-insurance.asp

The GLI is administered by the VRS along with pensions and other OPEB plans, for public employer groups in the Commonwealth of Virginia. This plan is considered a multiple employer, cost-sharing plan.

NOTES TO FINANCIAL STATEMENTS June 30, 2022

Note 10. Other Postemployment Benefits Liability – Virginia Retirement System Plan (Continued)

Contributions

Contributions to the VRS OPEB program was based on actuarially determined rates from actuarial valuations as of June 30, 2019. The actuarially determined rates were expected to finance the cost of benefits earned by employees during the year, with an additional amount to fund any unfunded accrued liability. Specific details related to the contributions for the VRS OPEB program are as follows:

Group Life Insurance Program

Governed by:	Code of Virginia 51.1-506 and 51.1-508 and may be impacted as a result of funding provided to school divisions and governmental agencies by the Virginia General Assembly.
Total rate:	1.34% of covered employee compensation. Rate allocated 60/40; 0.80% employee and 0.54% employer. Employers may elect to pay all or part of the employee contribution.
June 30, 2022 Contribution	\$17,620
June 30, 2021 Contribution	\$15,876

OPEB Liability, OPEB Expense, and Deferred Inflows and Outflows of Resources Related to OPEB

The net OPEB liability was measured as of June 30, 2021, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation performed as of June 30, 2020, and rolled forward to the measurement date of June 30, 2021. The covered employer's proportion of the net OPEB liability was based on the covered employer's actuarially determined employer contributions for the year ended June 30, 2021, relative to the total of the actuarially determined employer contributions for all participating employers.

Group Life Insurance Program

June 30, 2022 proportionate share of	
liability	\$165,792
June 30, 2021 proportion	0.01424%
June 30, 2020 proportion	0.01519%
June 30, 2022 expense	\$(2,770)

Since there was a change in proportionate share between measurement dates, a portion of the OPEB expense above was related to deferred amount from changes in proportion.

NOTES TO FINANCIAL STATEMENTS June 30, 2022

Note 10. Other Postemployment Benefits Liability – Virginia Retirement System Plan (Continued)

OPEB Liability, OPEB Expense, and Deferred Inflows and Outflows of Resources Related to OPEB (Continued)

At June 30, 2022, the Town reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources.

Group Life Insurance Program

	O	Deferred utflows of esources	I	Deferred nflows of Resources
Differences between expected and actual experience	\$	18,909	\$	1,263
Change in assumptions		9,140		22,684
Net difference between projected and actual earnings				
on OPEB plan investments		-		39,570
Changes in proportion		6,190		56,941
Employer contributions subsequent to the				
measurement date		17,620		
Total	\$	51,859	\$	120,458

The deferred outflows of resources related to OPEB resulting from the Town's contributions subsequent to the measurement date will be recognized as a reduction of the Net OPEB Liability in the Fiscal Year ending June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense in future reporting periods as follows:

Group Life Insurance Program

Year Ended June 30,	t	eduction o OPEB Expense
2023	\$	(17,730)
2024	Ψ	(17,730) $(18,240)$
2025		(20,078)
2026		(23,697)
2027		(6,474)
Thereafter		_

NOTES TO FINANCIAL STATEMENTS June 30, 2022

Note 10. Other Postemployment Benefits Liability – Virginia Retirement System Plan (Continued)

Actuarial Assumptions and Other Inputs

The total OPEB liability was determined using the following assumptions based on an actuarial valuation date of June 30, 2020, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2021:

Inflation	2.5%
Salary increases, including inflation: • Locality – general employees	3.5 – 5.35%
 Locality – hazardous duty employees 	3.5 - 4.75%
Healthcare cost trend rates:	
• Under age 65	7.00 - 4.75%
• Ages 65 and older	5.375 – 4.75%
Investment rate of return, net of expenses, including inflation	GLI: 6.75%

Mortality rates used for the various VRS OPEB plans are the same as those used for the actuarial valuations of the VRS pension plans. The mortality rates are discussed in detail at Note 8.

Net OPEB Liability

The net OPEB liability represent each program's total OPEB liability determined in accordance with GASB Statement No. 74, less the associated fiduciary net position. As of the measurement date of June 30, 2021, net OPEB liability amounts for the VRS OPEB program is as follows (amounts expressed in thousands):

	Group Life Insurance
	Program
Total OPEB Liability	\$ 3,577,346
Plan fiduciary net	
position	\$ 2,413,074
Employers' net OPEB	
liability (asset)	\$ 1,164,272
Plan fiduciary net	
position as a percentage	
of total OPEB liability	67.45%

The total liability is calculated by the VRS actuary and each plan's fiduciary net position is reported in the VRS financial statements. The net OPEB liability is disclosed in accordance with the requirements of GASB Statement No. 74 in the VRS notes to the financial statements and required supplementary information.

NOTES TO FINANCIAL STATEMENTS June 30, 2022

Note 10. Other Postemployment Benefits Liability – Virginia Retirement System Plan (Continued)

Long-Term Expected Rate of Return

Group Life Insurance

The long-term expected rate of return on VRS investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class (Strategy)	Target Allocation	Arithmetic Long-Term Expected Rate of Return	Weighted Average Long-Term Expected Rate of Return
Public Equity	34.00 %	5.00 %	1.70 %
Fixed Income	15.00	0.57	0.09
Credit Strategies	14.00	4.49	0.63
Real Assets	14.00	4.76	0.67
Private Equity	14.00	9.94	1.39
MAPS-Multi-Asset Public Strategies	6.00	3.29	0.20
PIP-Private Investment Partnership	3.00	6.84	0.21
Total	100.00 %		4.89 %
	Inflation		2.50 %
*Expected arithmet	7.39 %		

^{*} The above allocation provides for a one-year return of 7.39%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected rate of return for the system, stochastic projections are employed to model future returns under various economic conditions. The results provide a range of returns over various time periods that ultimately provide a median return of 6.94%, including expected inflation of 2.50%. On October 10, 2019, the VRS Board elected a long-term rate of 6.75%, which is roughly at the 40th percentile of expected long-term results of the VRS fund asset allocation at that time, providing a median return of 7.11, including inflation of 2.50%.

NOTES TO FINANCIAL STATEMENTS June 30, 2022

Note 10. Other Postemployment Benefits Liability – Virginia Retirement System Plan (Continued)

Discount Rate

The discount rate used to measure the GLI OPEB liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that System member contributions will be made per the VRS Guidance and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ending June 30, 2020, the rate contributed by the employer for the OPEB liabilities will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly. From July 1, 2020, on, participating employers are assumed to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the OPEB plans' fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total OPEB liability.

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liabilities of the Town, as well as what the Town's net OPEB liability would be if it was calculated using a discount rate that is one percentage point lower (5.75% GLI) or one percentage point higher (7.75% GLI) than the current discount rate:

	1.00% Decrease (5.75%)	Dis	Current count Rate (6.75%)	1.00% Increase (7.75%)		
GLI Net OPEB liability	\$ 242,228	\$	165,792	\$	104,066	

OPEB Plan Fiduciary Net Position

Information about the various VRS OPEB plan fiduciary net position is available in the separately issued VRS 2021 Comprehensive Annual Financial Report (Annual Report). A copy of the 2021 VRS Annual Report may be downloaded from the VRS website at http://www.varetire.org/Pdf/Publications/2021-annual-report.pdf, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

Note 13. Deferred Compensation Plan

Plan description

The Town offers its employees a deferred compensation plan created in accordance with *Internal Revenue Code* Section 457. The plan, available to all employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or qualifying hardship. The Town makes a matching contribution up to the equivalent of \$10 per month per employee.

All amounts of compensation deferred under the plan, all property and rights purchased with these amounts, and all income attributable to those amounts, property, or rights are held in trust by a third-party for the exclusive benefit of participants and their beneficiaries. For 2022, the Town's matching contributions totaled \$9,672.

Note 14. Service Contracts

Sewage Treatment

The Town is party to an agreement, dated November 1, 2003, with the Western Virginia Water Authority for the Authority to provide the transportation and treatment of waste at a specified rate to be adjusted annually on July 1, based on the actual operating and maintenance costs for the previous year. The 30-year agreement provides for a surcharge in the event waste content or volume exceeds certain limits or the cost is less than the amount paid by users. All sewage treatment handled by the Town will be transferred to the Western Virginia Water Authority on July 1, 2022.

Water Purchases/Sales

Effective June 1, 2005, the Town agreed to purchase water from the Western Virginia Water Authority at a bulk rate which is determined by a mutually agreed-upon formula. The water is designated for an industrial user who pays the Town an agreed upon rate. This is a 30-year agreement and will expire in 2035. All water services handled by the Town will be transferred to the Western Virginia Water Authority on July 1, 2022.

NOTES TO FINANCIAL STATEMENTS June 30, 2022

Note 15. Property Taxes

The major sources of property taxes are real estate and personal property taxes. The assessments are the responsibility of the County of Roanoke, while billing and collection functions are the Town's responsibilities.

Property taxes are levied annually in April on assessed values as of January 1. Personal property transactions during the year are taxed on a prorated basis. Real estate tax is payable in two equal installments on or before June 5 and December 5, and personal property tax is due on or before May 31, or within 30 days subsequent to assessment. Personal property taxes do not create a lien on property.

The annual assessment for real estate is based on 100% of the assessed fair market value. A penalty of 10% of the unpaid tax is due for late payment. Interest is accrued at 10% for the initial year of delinquency, and thereafter at the maximum annual rate authorized by the *Internal Revenue Code* Section 6621(b). The effective tax rates per \$100 of assessed value for the year ended June 30 were as follows:

Real estate	\$ 0.07
Personal property	\$ 1.00
Machinery and tools	\$ 1.00

Note 16. Risk Management

The Town is insured for workers' compensation, general liability, health, and other risks. The risk management programs are as follows:

Workers' Compensation

Workers' compensation insurance is provided through the Virginia Municipal League. During 2021-2022, total premiums paid were approximately \$65,000. Benefits are those afforded through Commonwealth of Virginia as outlined in the *Code of Virginia* Section 65.2-100; premiums are based upon covered payroll, job rates, and claims experience.

General Liability

The Town provides general liability and other insurance through policies with Virginia Municipal Self-Insurance Association. During 2021-2022, total premiums paid were approximately \$100,000. General liability and business automobile have a \$1,000,000 limit per occurrence. Boiler and machinery coverage and property insurance have a \$5,000,000 limit per accident. The Town maintains an additional \$4,000,000 per occurrence umbrella policy over all forms of liability insurance. Police professional liability and public officials' liability insurance with a \$1,000,000 limit are covered through a policy with the Commonwealth of Virginia.

There were no significant reductions in insurance coverage from the prior year and no settlements that exceeded the amount of insurance coverage.

NOTES TO FINANCIAL STATEMENTS June 30, 2022

Note 16. Risk Management (Continued)

Healthcare

The Town provides healthcare coverage for employees through a policy with Anthem Blue Cross Blue Shield. The Town contributes the required premium amount for single coverage for each employee. Dependents of employees are also covered by the policy provided they pay the additional premium to the Town. During 2021-2022, total premiums paid were approximately \$623,000.

Note 17. Commitments and Contingencies

Special Purpose Grants

Special purpose grants are subject to audit to determine compliance with their requirements. Town management believes that required refunds, if any, will be immaterial.

Landfill Closure and Post-Closure Costs

As discussed in Note 1, the Town participates in the Roanoke Valley Resource Authority. The Authority currently has responsibility for closure and post-closure care related to the new Smith Gap landfill, the transfer station, and an old landfill site.

Closure and post-closure care requirements are mandated under the United States Environmental Protection Agency (EPA) rule, *Solid Waste Disposal Facility Criteria*, and are subject to periodic revisions by the EPA. The current estimate of remaining closure and post-closure care costs, assuming full utilization of the sites, is approximately \$16.3 million. The participating localities have contributed their pro-rata shares to fund the closure and post-closure care costs.

Roanoke County Service Agreement - Vinton Business Center

Effective July 1, 2019, the Town of Vinton and Roanoke County entered into a service agreement. that formalized revenues and services shared by the local governments. The agreement also mentions the continuation of the Vinton Business Center, previously MacDonald Farm, that was previously in a gain-sharing agreement that ended in 2019. The Town and County jointly share the costs of development and revenues generated by this project. The Town and County must also jointly agree before any future improvements are made to the property or before portions of the property are sold. No major improvements were commenced during the current year.

Note 18. Major Customer/Taxpayer

During fiscal year 2022, approximately 6.9% of the Town's business-type revenues were generated by one industrial customer.

Note 19. Interfund Activity

The primary purpose of the \$595,938 transfer from the general fund and \$207,164 transfer from the water and sewer fund to the stormwater management fund was to cover obligations of stormwater fund. The primary purpose of the \$750,000 transfer from the general fund to the capital projects fund was to cover capital outlays for the capital projects fund.

NOTES TO FINANCIAL STATEMENTS June 30, 2022

Note 20. Fund Balances

Fund balance is classified as nonspendable, restricted, committed, assigned, and/or unassigned based primarily on the extent to which the Town is bound to observe constraints imposed upon the use of the resources in the general fund, capital projects fund, and grant fund. The constraints placed on the funds are presented below:

	G	eneral Fund	Ca	pital Projects Fund	Grant Fund			
Nonspendable:								
Inventories	\$	47	\$	-	\$	-		
Prepaids		10,848		-		-		
CDBG revolving loan		-		-		78,405		
Vinyard Flower Fund		20,930						
Total nonspendable		31,825		_		78,405		
Restricted for:								
Public safety		294,816		-		4,957		
Committed:								
General government administration		-		1,399,230		-		
Total committed				1,399,230		-		
Assigned:								
General government administration		9,210		-		-		
Health and welfare		20,623		-		_		
Capital outlay		3,625						
Total assigned		33,458		-		-		
Unassigned		5,605,680				(78,405)		
Total fund balance	\$	5,965,779	\$	1,399,230	\$	4,957		

The Stormwater Management Fund was created in 2017 and has carried a negative fund balance since inception until transfers in 2021 were made to cover this deficit. It is used to track costs related to stormwater and is currently funded by transfers from the General Fund and Water and Sewer Fund. Staff is working with Town council to move towards a fee to sustain the fund.

Note 21. Subsequent Events

Transfer to Western Virginia Water Authority

On July 1, 2022, the Town transferred its water and sewer system to Western Virginia Water Authority ("WVWA"). This transfer included (1) billing responsibilities, (2) four employees that were involved with the Town's water and sewer operations, and (3) financing agreements and revenue bonds and the then-existing revenue pledged liabilities and obligations of Vinton relating to the system. WVWA will pay the Town a total purchase price of \$3 million over three years beginning in July 2023 to be paid in full no later than July 15, 2025.

NOTES TO FINANCIAL STATEMENTS June 30, 2022

Note 21. Subsequent Events (Continued)

Transfer to Western Virginia Water Authority (Continued)

With regard to customer billing, WVWA has the right to receive all payments for services furnished by the system collected on or after July 1, 2022, including payments from consumption incurred after June 20, 2022, and billed after July 1, 2022. The Authority billed the Town's last cycle and a receivable from WVWA has been recorded for \$496,209 as part of net receivables.

Inventory, as well as depreciable and nondepreciable capital assets (with exception of significant equipment, motorized equipment, and vehicles), will transfer to the Authority.

The Town will provide WVWA with \$5.7 million of American Rescue Plan Act (ARPA) funding for water and wastewater-related capital improvements within the Vinton/East Roanoke County Utility Service Area in fiscal year 2023. Approximately \$1.3 million is unearned revenue in the Grant Fund with the remainder received in fiscal year 2023.

With regard to long-term debt, WVWA will reimburse the Town for approximately \$6.8 million in General Obligation debt service payments by March 1, 2033. The following debt will be under this new arrangement:

Final

	Interest Rate	Date Issued	Maturity Date	Amount of Original Issue		
General Obligation Bonds Zions Bancorporation						
G.O. Capital Improvement Bonds	1.66%	04/22/21	03/01/33	\$ 4,429,000		
G.O. Refunding Bonds	1.66%	04/22/21	03/01/33	1,546,000		
Revenue Bonds Virginia Association of Counties: Revenue Water and Sewer Bonds	2.05%	05/25/16	08/01/27	1,786,000		
				\$ 7,761,000		

The Town transferred the following debt to WVWA on July 1, 2022:

	Series	Date Issued	Final Maturity Date	Amount of Original Issue		
General Obligation Bonds Virginia Revolving Loan Fund:						
G.O. Water and Sewer Bonds	2003	07/24/03	07/01/24	\$	1,250,704	
G.O. Water and Sewer Bonds	2004	10/01/04	10/01/26		2,479,000	
G.O. Water and Sewer Bonds	2006	01/12/06	03/01/26		1,210,000	
Obligations Payable						
WVWA – Tinker Creek	2015	03/01/15	09/01/32		294,516	
WVWA- Electrical Upgrade	2021	07/01/21	06/01/41		173,525	

NOTES TO FINANCIAL STATEMENTS June 30, 2022

Note 21. Subsequent Events (Continued)

Construction Projects

On October 19, 2022, the Town granted a Construction Loan in the amount of \$1,000,000 and an Industrial Revitalization Loan in the amount of \$468,750 to Gish Mill Davii, LLC. The Construction Loan will assist a developer with construction costs related to the Gish Mill Redevelopment Project. The Virginia Department of Housing & Community Development awarded the Town of Vinton an Industrial Revitalization Fund grant in the amount of \$468,750 for use by a developer for the Gish Mill Redevelopment Project.

On August 16, 2022, the Town awarded a construction bid and executed a \$1.4 million contract for the construction of the Walnut Avenue Bike/Pedestrian Accommodations Project. The project will include construction of a new shared-use path, sidewalk, curb, accessible ramps, etc. located along Walnut Avenue from the intersection of Walnut Avenue and 5th Street to the western Town limits.

Note 22. New Accounting Standards

The Governmental Accounting Standards Board (GASB) has issued the following Statements, which are not yet effective. The effective dates below are updated based on **Statement No. 95**, Postponement of the Effective Dates of Certain Authoritative Guidance due to the COVID-19 pandemic.

In May 2019, the GASB issued **Statement No. 91**, *Conduit Debt Obligations*. This Statement provides a single method of reporting conduit debt obligations by issuers and eliminates diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. The requirements of this Statement are effective for reporting periods beginning after December 15, 2021.

In March 2020, the GASB issued **Statement No. 93**, *Replacement of Interbank Offered Rates*. This Statement addresses accounting and financial reporting implications that result from the replacement of an IBOR. The removal of LIBOR as an appropriate benchmark interest rate is effective for reporting periods ending after December 31, 2022. All other requirements of this Statement are effective for reporting periods beginning after June 15, 2021.

In March 2020, the GASB issued **Statement No. 94**, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*. This Statement improves financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). The requirements of this Statement are effective for reporting periods beginning after June 15, 2022.

In May 2020, the GASB issued **Statement No. 96**, Subscription-Based Information Technology Arrangements. This Statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). The requirements of this Statement are effective for reporting periods beginning after June 15, 2022.

NOTES TO FINANCIAL STATEMENTS June 30, 2022

Note 22. New Accounting Standards (Continued)

In June 2020, the GASB issued **Statement No. 97**, Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans – an Amendment of GASB Statements No. 14 and No. 84, and a Supersession of GASB Statement No. 32. This Statement provides a more consistent financial reporting of defined contribution pension plans, defined contribution OPEB plans, and other employee benefit plans, while mitigating the costs associated with reporting those plans. Certain requirements of this Statement are effective immediately and others for reporting periods beginning after June 15, 2021.

In April 2022, the GASB issued **Statement No. 99,** *Omnibus 2022*. The objectives of this Statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing (1) practice issues that have been identified during implementation and application of certain GASB Statements and (2) accounting and financial reporting for financial guarantees. The requirements related to extension of the use of LIBOR, accounting for SNAP distributions, disclosures of nonmonetary transactions, pledges of future revenues by pledging governments, clarification of certain provisions in Statement 34, as amended, and terminology updates related to Statement 53 and Statement 63 are effective upon issuance. The requirements related to leases, PPPs, and SBITAs are effective for fiscal years beginning after June 15, 2022, and all reporting periods thereafter. The requirements related to financial guarantees and the classification and reporting of derivative instruments within the scope of Statement 53 are effective for fiscal years beginning after June 15, 2023, and all reporting periods thereafter.

In June 2022, the GASB issued **Statement No. 100**, *Accounting Changes and Error Corrections*. This Statement requires disclosure in notes to financial statements of descriptive information about accounting changes and error corrections, such as their nature. In addition, information about the quantitative effects on beginning balances of each accounting change and error correction should be disclosed by reporting unit in a tabular format to reconcile beginning balances as previously reported to beginning balances as restated. The requirements of this Statement are effective for accounting changes and error corrections made in fiscal years beginning after June 15, 2023, and all reporting periods thereafter. Earlier application is encouraged.

In June 2022, the GASB issued **Statement No. 101**, *Compensated Absences*. This statement updates the recognition and measurement guidance for compensated absences and amends certain previously required disclosures. The requirements of this Statement are effective for reporting periods beginning after December 15, 2023.

Management has not determined the effects these new GASB Statements may have on prospective financial statements.

This schedule is intended to show information for 10 years. Since 2018 is the first year for this presentation, no earlier data is available. However, additional years will be included as they become available.

The covered payroll amount above is for the entity's fiscal year - i.e., the covered payroll on which required contributions were based for the same year.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION June 30, 2022

Note 1. Changes of Benefit Terms

Pension

There have been no actuarially material changes to the Virginia Retirement System (System) benefit provisions since the prior actuarial valuation.

Other Postemployment Benefits (OPEB)

There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation.

Note 2. Changes of Assumptions

The actuarial assumptions used in the June 30, 2020, valuation were based on the results of an actuarial experience study for the period from July 1, 2016, through June 30, 2020, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

Largest 10 – Non-Hazardous Duty:

- Update mortality table to PUB2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Scape MP-2020.
- Adjusted retirement rates to better fit experience for Plan 1; set separate rates based on experience for Plan2/Hybrid; changed final retirement age.
- Adjusted withdrawal rates to better fit experience at each year and service through 9 years of service.
- No change to disability rates.
- No change to salary scale.
- No change to line of duty rates.
- No change to discount rate.

All Others (Non 10 Largest) – Non-Hazardous Duty:

- Update mortality table to PUB2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Scape MP-2020.
- Adjusted retirement rates to better fit experience for Plan 1; set separate rates based on experience for Plan2/Hybrid; changed final retirement age.
- Adjusted withdrawal rates to better fit experience at each year and service through 9 years of service.
- No change to disability rates.
- No changes to salary scale.
- No change to line of duty rates.
- No change to discount rate.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION June 30, 2022

Note 2. Changes of Assumptions (Continued)

Largest 10 – Hazardous Duty/Public Safety Employees:

- Update mortality table to PUB2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Scape MP-2020.
- Adjusted retirement rates to better fit experience and changed final retirement age from 65 to 70
- Decreased withdrawal rates.
- No change to disability rates.
- No change to salary scale.
- No change to line of duty rates.
- No change to discount rate.

All Others (Non 10 Largest) – Hazardous Duty/Public Safety Employees:

- Update mortality table to PUB2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Scape MP-2020.
- Adjusted retirement rates to better fit experience and changed final retirement age from 65 to 70.
- Decreased withdrawal rates and changed from rates based on age and service to rates based on service only to better fit experience and to be more consistent with Locals Largest 10 Hazardous Duty.
- No change to disability rates.
- No change to salary scale.
- No change to line of duty rates.
- No change to discount rate.

NOTE 1 - BASIS OF PRESENTATION:

The accompanying schedule of federal expenditures includes the activity of all federally assisted programs of the Town of Vinton, Virginia and is presented on the modified accrual basis of accounting, as described in Note 1 to the Town's basic financial statements. All federal awards received directly from federal agencies, as well as federal awards passed through other government agencies, are included on this schedule.

NOTE 2 - DE MINIMIS INDIRECT COST RATE:

The entity did not elect to use the 10% de minimis indirect cost rate.

NOTE 3 - OUTSTANDING LOAN BALANCES:

At June 30, 2022, the Town had no outstanding loan balances requiring continuing disclosure.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Honorable Members of the Town Council Town of Vinton, Virginia

We have audited, in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the Specifications for Audits of Counties, Cities, and Towns issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the governmental activities, the business-type activities, and each major fund of the Town of Vinton, Virginia (the "Town"), as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements and have issued our report thereon dated October 30, 2023.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town's internal control over financial reporting (internal control) as a basis for designing the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. We identified certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs as items 2022-001 and 2022-002, that we consider to be material weaknesses.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Town's Response to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the Town's responses to the findings identified in our audit and described in the accompanying schedule of findings and questioned costs. The Town's responses were not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the responses.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CERTIFIED PUBLIC ACCOUNTANTS

Brown, Edwards Kompany, S. L. P.

Roanoke, Virginia October 30, 2023

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Honorable Members of the Town Council Town of Vinton, Virginia

Report on Compliance for Each Major Federal Program

Opinion on Compliance for Each Major Federal Program

We have audited the Town of Vinton, Virginia's (the "Town") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the Town's major federal programs for the year ended June 30, 2022. The Town's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the Town complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2022.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the Town and to meet our other ethical responsibilities, in accordance with relevant ethical requirements related to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal documentation of the Town's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the Town's federal programs.

Report on Compliance for Each Major Federal Program (Continued)

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Town's compliance based on our audit. Reasonable assurance is a high level of assurance, but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Town's compliance the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risk of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Town's compliance with the compliance requirements referred to above and performing such other procedures, as we considered necessary in the circumstances.
- Obtain an understanding of the Town's internal control over compliance relevant to the audit in
 order to design audit procedures that are appropriate in the circumstances and to test and report
 on internal control over compliance in accordance with the Uniform Guidance, but not for the
 purpose of expressing an opinion on the effectiveness of the Town's internal control over
 compliance Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit

Other Matters

The results of our auditing procedures disclosed one instance of noncompliance which is required to be reported in accordance with the Uniform Guidance and which is described in the accompanying schedule of findings and questioned costs as items 2022-003. Our opinion on each major federal program is not modified with respect to these matters.

Government Auditing Standards requires the auditor to perform limited procedures on the Town's responses to the noncompliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The Town's responses were not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, we did identify certain deficiencies in internal control over compliance that we consider to be a significant deficiency. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs as Item 2022-04 to be a significant deficiency.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

CERTIFIED PUBLIC ACCOUNTANTS

Roanoke, Virginia October 30, 2023

SUMMARY OF COMPLIANCE MATTERS June 30, 2022

As more fully described in the Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*, we performed tests of the Town's compliance with certain provisions of laws, regulations, contracts, and grants shown below.

STATE COMPLIANCE MATTERS

Code of Virginia:

Budget and Appropriation Laws
Cash and Investment Laws
Conflicts of Interest Act
Debt Provisions
Local Retirement Systems
Procurement Laws
Uniform Disposition of Unclaimed Property Act
Stormwater Utility Program
Fire Program Aid

State Agency Requirements:

Highway Maintenance Funds

LOCAL COMPLIANCE MATTERS

Town Charter

FEDERAL COMPLIANCE MATTERS

Compliance Supplement for Single Audits of State and Local Governments

Provisions and conditions of agreements related to federal program selected for testing.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS June 30, 2022

A. SUMMARY OF AUDITOR'S RESULTS

- 1. The auditor's report expresses an **unmodified opinion** on the financial statements.
- 2. **Two material weaknesses and no significant deficiencies** relating to the audit of the financial statements were reported in the Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*.
- 3. No instances of noncompliance material to the financial statements were disclosed.
- 4. **One significant deficiency** relating to the audit of the major federal award programs was reported in the Independent Auditor's report on Compliance for Each Major Program and on Internal Control Over Compliance Required by the Uniform Guidance.
- 5. The auditor's report on compliance for the major federal award programs expresses an **unmodified opinion**.
- 6. The audit disclosed **one audit finding** relating to the major program.
- 7. The program tested as major was:

- 8. The threshold for distinguishing Type A and B programs was \$750,000.
- 9. The Town was **not** determined to be a **low-risk auditee**.

B. FINDINGS – FINANCIAL STATEMENT AUDIT

2022-001: Audit Adjustments (Material Weakness)

Condition:

During the audit, we noted that several year-end audit adjustments were required to ensure that the financials were prepared in accordance with accounting principles general accepted in the United States of America. The adjustments were related to debt, accounts receivable, and capital assets.

Criteria:

Audit adjustments were required to correct balances in order for the financial statements to be presented in accordance with accounting principles generally accepted in the United States of America.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS June 30, 2022

B. FINDINGS - FINANCIAL STATEMENT AUDIT (Continued)

2022-001: Audit Adjustments (Material Weakness) (Continued)

Cause:

With regard to governmental activity long-term debt, it appears that the roll forward was not reviewed before year-end entries were made, resulting in additional adjustment to long-term debt balances. With regard to business-type activities long-term debt, principal payments were recorded as an expense rather than a reduction to long-term debt, resulting in additional adjustments to these accounts. With regard to governmental activities and business-type activities accrued interest, amortization schedules were not reviewed before entries were made, resulting in additional adjustments to these accounts. With regard to governmental activities and business-type activities capital assets, roll forwards and depreciation schedules were not reviewed before entries were made, resulting in additional adjustments. With regard to governmental activities receivables and deferred revenue was not correctly captured and recorded at yearend.

Effect:

There is an increased risk of financial statements misstatement.

Recommendation:

We recommend establishing procedures in which qualified supervisors are reviewing year-end work papers that feed into the final general ledger and focusing on the accuracy of year-end balances.

View of Responsible Officials and Planned Corrective Action:

We agree with the findings and we're working to establish a year-end review procedure.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS June 30, 2022

B. FINDINGS - FINANCIAL STATEMENT AUDIT (Continued)

2022-002: Segregation of Duties (Material Weakness)

Condition:

A fundamental concept of internal controls is the separation of duties. No one employee should have access to both physical assets and the related accounting records, or to all phases of a transaction. A proper segregation of duties has not been established in functions related to accounts payable, accounts receivable, cash disbursements, and information technology.

Criteria:

- Mail should be opened by an employee not responsible for accounting, such as the Town Clerk. Cash receipts could be recorded and the deposit prepared by this person. The cash receipts journal, supplemented by remittance advice, could be forwarded to the accounting staff for postings to the general ledger and detail customer accounts.
- Customer complaints, returned checks, disputed items, and other such matters should be investigated by someone who is independent of preparing daily cash receipts and preparing deposits.
- Checks and remittance advice should be placed into envelopes and mailed by someone with no other accounting responsibilities.
- Water and sewer billing should be independent of the accounts receivable function.

Cause:

The size of the Town's accounting staff prohibits complete adherence to segregation of duties.

Effect:

Internal controls are designed to safeguard assets and detect losses from employee dishonesty or error.

Recommendation:

Steps should be taken to eliminate performance of conflicting duties where possible or to implement effective compensating controls.

Views of Responsible Officials and Planned Corrective Action:

We agree with the findings and we're working towards reducing the conflicting duties.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS June 30, 2022

C. FINDINGS AND QUESTIONED COSTS – MAJOR FEDERAL AWARD PROGRAM AUDIT

2022-003: Coronavirus State and Local Fiscal Recovery Fund – AL# 21.027, Late Filling of Data Collection Form

Condition:

The Town did not submit the data collection form for the year ended June 30, 2022 timely.

Criteria:

For June 30, 2022 year-end audits, under the requirements in the Uniform Guidance and the Office of Management and Budget (OMB), all entities are required to submit the annual data collection form with the Federal Audit Clearinghouse the earlier of either 30 days after the issuance of the entity's annual audit or twelve months after the entity's fiscal year end (June 30th for the Town of Vinton plus a three-month extension).

Cause:

Management did not complete and certify their portion of the form before the deadline. Form cannot be completed before audit is issued.

Effect:

The entity's form was submitted to the Federal Audit Clearinghouse late, delaying completion of all annual audit requirements for the Town.

Recommendation:

Management should take steps to ensure that the form is filed timely.

Views of Responsible Officials and Planned Corrective Action:

We agree with the finding and will ensure the reports are filed in a timely manner.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS June 30, 2022

C. FINDINGS AND QUESTIONED COSTS - MAJOR FEDERAL AWARD PROGRAM AUDIT (Continued)

2022-004: Schedule of Expenditures and Federal Awards (Significant Deficiency)

Condition:

The Schedule of Expenditures and Federal Awards (SEFA) was prepared without supervisor review, resulting in several auditor corrections.

Criteria:

Segregation of duties and review procedures should be applied to federal award workpapers.

Cause:

Town has not established written internal control policies with regard to federal awards.

Effect:

Risk that the Town's information in the SEFA is not accurate, complete, or appropriately presented in accordance with Uniform Guidance.

Recommendation:

Management should develop and implement written internal control policies.

Views of Responsible Officials and Planned Corrective Action:

We agree with the finding and we're working towards developing a written policy.

D. FINDING - COMMONWEALTH OF VIRGINIA

None.

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS Year Ended June 30, 2022

A. FINDING - FINANCIAL STATEMENT AUDIT

2021-001: Segregation of Duties (Material Weakness)

Condition:

A *fundamental* concept of internal controls is the separation of duties. No one employee should have access to both physical assets and the related accounting records, or to all phases of a transaction. A proper segregation of duties has not been established in functions related to accounts payable, accounts receivable, cash disbursements, and information technology.

Current Status: Condition still present for accounts payable functions, accounts receivable, cash disbursements, and information technology. See item 2022-002 in the schedule of findings and questioned costs.

B. FINDING - MAJOR FEDERAL AWARD PROGRAM AUDIT

2021-002: Coronavirus Relief Fund - CFDA #21.019, Procurement Policies and Procedures

Condition:

The Town does not have complete and written procurement policies that are in compliance with the standards required by the Uniform Guidance 2 CFR Part 200.

Current Status: Condition cleared. Upon notification of a recommendation, staff immediately drafted a Federal Grant Policy, which was adopted by Town Council at the meeting on September 21, 2021. See item 2022-005 in schedule of findings and questioned costs.

C. FINDING - COMMONWEALTH OF VIRGINIA

None noted.
