Independent Auditor's Report

To The Honorable Members of the Board of Supervisors County of Sussex Sussex, Virginia

We have audited the accompanying financial statements of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the County of Sussex, Virginia, as of and for the year ended June 30, 2011, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County of Sussex, Virginia's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

As described in Note 1 to the financial statements, the County of Surry, Virginia adopted the provisions of *GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions*, effective July 1, 2010.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the County of Sussex, Virginia, as of June 30, 2011, and the respective changes in financial position, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated January 18, 2012, on our consideration of the County of Sussex, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and schedules of pension and OPEB funding progress be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the management's discussion and analysis and schedules of funding progress in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the management's discussion and analysis and schedules of funding progress because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The budgetary comparison information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County of Sussex, Virginia's financial statements as a whole. The combining and individual fund financial statements and schedules, and other statistical information are presented for purposes of additional analysis and are not a required part of the financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is also not a required part of the financial statements. The combining and individual fund financial statements and schedules, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The other statistical information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

BAICK-

Richmond, Virginia January 18, 2012

MANAGEMENT'S DISCUSSION AND ANALYSIS

To the Honorable Members of the Board of Supervisors To the Citizens of Sussex County County of Sussex, Virginia

As management of the County of Sussex, Virginia we offer readers of the County's financial statements this narrative overview and analysis of the financial activities of the County for the fiscal year ended June 30, 2011. Please read it in conjunction with the County's basic financial statements, which follow this section.

Financial Highlights

Government-wide Financial Statements

The assets of the County exceeded its liabilities at the close of the most recent fiscal year by \$35,795,947 (net assets).

Fund Financial Statements

The Governmental Funds, on a current financial resource basis, reported expenditures and other financing uses in excess of revenues and other financing sources of \$282,391 (Exhibit 5) after making contributions totaling \$8,426,734 to the School Board.

- < As of the close of the current fiscal year; the County's funds reported ending fund balances of \$23,708,724, a decrease of \$282,391 in comparison with the prior year.
- < At the end of the current fiscal year, unassigned fund balance for the general fund was \$4,567,875, or 19% of total general fund expenditures and other uses.
- The combined long-term obligations decreased \$1,173,960 during the current fiscal year.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements comprise three components:

- 1. Government-wide financial statements,
- 2. Fund financial statements, and
- 3. Notes to the financial statements.

This report also contains other supplementary information in addition to the basic financial statements themselves.

<u>Government-wide financial statements</u> - The Government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all of the County's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The statement of activities presents information showing how the County's nets assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in the statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include general government, courts, police protection, sanitation, social services, education, cultural events, and recreation.

The Government-wide financial statements include not only the County of Sussex, Virginia itself (known as the primary government), but also a legally separate school district for which the County of Sussex, Virginia is financially accountable. Financial information for the component unit is reported separately from the financial information presented for the primary government itself.

<u>Fund financial statements</u> - A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County of Sussex, Virginia, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into two categories: governmental funds and fiduciary funds.

Overview of the Financial Statements (Continued)

Governmental funds - Governmental funds are used to account for essentially the same functions or services reported as governmental activities in the government-wide financial statements. Whereas the government-wide financial statements are prepared on the accrual basis of accounting, the governmental fund financial statements are prepared on the modified accrual basis of accounting. The focus of modified accrual reporting is on near-term inflows and outflows of financial resources and the balance of financial resources available at the end of the fiscal year. Since the governmental funds focus is narrower than that of the government-wide financial statements a reconciliation between the two methods is provided at the bottom of the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances. The County has two major governmental funds – the General Fund and County Capital Projects Fund.

<u>Fiduciary funds</u> - The County is the trustee, or fiduciary, for the County's agency funds. It is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the County's fiduciary activities are reported in a separate statement of fiduciary net assets. The County excludes these activities from the County's government-wide financial statements because the County cannot use these assets to finance its operations. Agency funds are County custodial funds used to provide accountability of client monies for which the County is custodian.

<u>Notes to the financial statements</u> - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information - In addition to the basic financial statement and accompanying notes, this report also presents certain required supplementary information for budgetary comparison schedules and presentation of combining financial statements for the discretely presented component unit - School Board. The School Board does not issue separate financial statements.

Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a County's financial position. In the case of the County, assets exceeded liabilities by \$35,795,947 at the close of the most recent fiscal year. The following table summarizes the County's Statement of Net Assets:

County of Sussex, Virginia's Net Assets

	Governmental Activities

Financial Analysis of the County's Funds

As noted earlier, the County used fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

<u>Governmental Funds</u> - The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of available resources. Such information is useful in assessing the County's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a County's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the County's governmental funds reported fund balances of \$23,708,724, a decrease of \$282,391 in comparison with the prior year. Approximately 19% of this total amount constitutes unassigned General Fund balance, which is available for spending at the County's discretion.

The County Capital Projects Fund accounts for all major general public improvements. At the end of the fiscal year, the fund balance was \$18,976,831. \$767,672 of this was restricted for debt, while \$18,209,159 was committed to current or future capital projects.

General Fund Budgetary Highlights

Differences between the original budget and the final amended budget were increases of \$582,625 and can be briefly summarized as follows:

- < \$330,940 increase in public safety expenditures
- < \$110,000 increase in community development expenditures
- \$ 89,435 increase in general government administration expenditures
- < \$ 54,600 increase in judicial administration expenditures
- < \$ (2,350) decrease in health and welfare expenditures

During the year, revenues and other financing sources exceeded budgetary estimates by \$1,356,201. Expenditures and other financing uses exceeded budgetary estimates by \$795,920. The combination of the two resulted in a positive variance of \$560,281.

Capital Asset and Debt Administration

< <u>Capital assets</u> - The County's investment in capital assets for its governmental operations as of June 30, 2011 amounts to \$33,184,184 (net of accumulated depreciation). This investment in capital assets includes land, buildings and system, and machinery and equipment.

Additional information on the County's capital assets can be found in the notes of this report.

<u>Long-term debt</u> - At the end of the current fiscal year, the County had total bonded debt outstanding of \$17,992,630. Of this amount, \$14,701,202 comprises debt backed by the full faith and credit of the County. The remainder of the County's debt represents bonds secured solely by specified revenue sources (i.e., lease/revenue bonds, limited obligation notes).

The County's total debt decreased by \$1,081,397 during the current fiscal year.

Additional information on the County of Sussex, Virginia's long-term debt can be found in notes of this report.

Economic Factors and Next Year's Budgets and Rates

- The unemployment rate for the County was 8.6 percent. The state's average unemployment rate was 6.5 percent as of the same date.
- < Inflationary trends in the region compare favorably to national indexes.

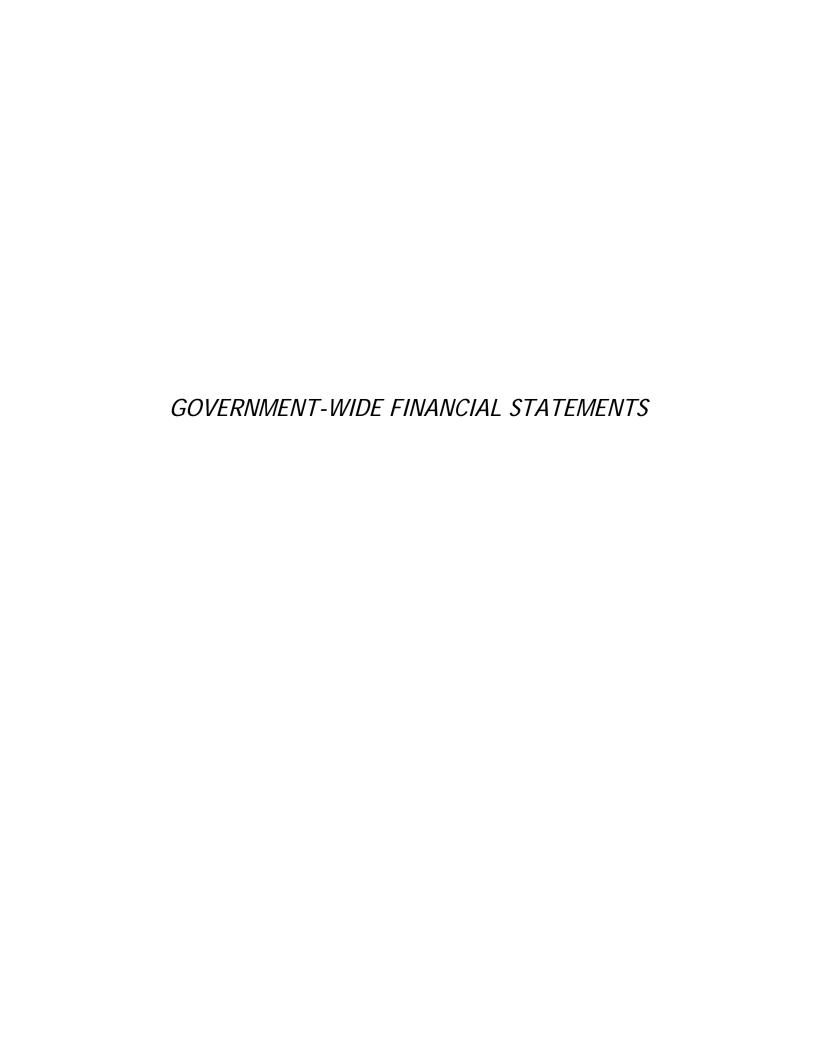

All of these factors were considered in preparing the County's budget for the 2012 fiscal year.

The fiscal year 2012 general fund budget increased by approximately 14%. All tax rates remained the same as in 2011.

Requests for Information

This financial report is designed to provide a general overview of the County of Sussex, Virginia's finances for all those with an interest in the County's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the County Administrator, P.O. Box 1397, Sussex, Virginia 23884.

County of Sussex, Virginia Reconciliation of the Balance Sheet of Governmental Funds To the Statement of Net Assets June 30, 2011

Amounts reported for governmental activities in the Statement of Net Assets are different because:

Total fund balances per Exhibit 3 - Balance Sheet - Governmental Funds

\$ 23,708,724

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds. The following is a summary of items supporting this adjustment:

Capital outlay	\$ 44,695,765	
Accumulated depreciation	(11,511,581)	33,184,184

Other long-term assets are not available to pay for current-period expenditures and, therefore, are deferred in the funds.

677,322

Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in the funds. The following is a summary of items supporting this adjustment:

Compensated absences	\$ (321,268)	
OPEB liability	(92,000)	
Landfill postclosure care	(3,004,870)	
State literary fund loans	(11,371,202)	
General obligation bonds	(3,330,000)	
QZAB bonds	(3,291,428)	
Accrued interest payable	(363,515)	(21,774,283)

Net assets of governmental activities

County of Sussex, Virginia Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds To the Statement of Activities For the Year Ended June 30, 2011

Amounts reported for governmental activities in the Statement of Activities are different because:

Net change in fund balances - total governmental funds		\$	(282,391)
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which the capital outlays exceeded depreciation in the current period. The following is a summary of items supporting this adjustment: Capital outlay Transfer of joint tenancy assets from Primary Government to Component Unit School Board Depreciation expense	\$ 1,621,967 (1,093,897) (709,375)		(181,305)
Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.			663
The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. This amount is the net effect of these differences in the treatment of long-term debt and related items. The following is a summary of items supporting this adjustment:			
Principal retirement on state literary fund loans	\$ 711,397		
Principal retirement on general obligation bonds	370,000		
Increase in landfill postclosure liability	31,132	_	1,112,529
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds.			
(Increase) decrease in compensated absences (Increase) decrease in OPEB liability	\$ 85,962 (24,531)		

The notes to the financial statements are an integral part of this statement.

(Increase) decrease in interest payable

Notes to Financial Statements As of June 30, 2011

Note 1—Summary of Significant Accounting Policies:

The County of Sussex, Virginia (the "County") is governed by an elected six member Board of Supervisors. The County provides a full range of services for its citizens. These services include police and fire protection, sanitation services, recreational activities, cultural events, education, and social services.

The financial statements of the County of Sussex, Virginia have been prepared in conformity with the specifications promulgated by the Auditor of Public Accounts (APA) of the Commonwealth of Virginia, and the accounting principles generally accepted in the United States as specified by the Governmental Accounting Standards Board. The more significant of the government's accounting policies are described below.

<u>Management's Discussion and Analysis</u> - GASB Statement No. 34 requires the financial statements be accompanied by a narrative introduction and analytical overview of the government's financial activities in the form of "Management's Discussion and Analysis" (MD&A).

Government-wide and Fund Financial Statements

<u>Government-wide financial statements</u> - The reporting model includes financial statements prepared using full accrual accounting for all of the government's activities. This approach includes not just current assets and liabilities but also capital assets and long-term liabilities (such as buildings and general obligation debt).

The government-wide financial statements (i.e., the Statement of Net Assets and the Statement of Activities) report information on all of the nonfiduciary activities of the primary government and its component unit. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

<u>Statement of Net Assets</u> - The Statement of Net Assets is designed to display financial position of the primary government (government and business-type activities) and its discretely presented component unit. Governments will report all capital assets in the government-wide Statement of Net Assets and will report depreciation expense - the cost of "using up" capital assets - in the Statement of Activities. The net assets of a government will be broken down into three categories - 1) invested in capital assets, net of related debt; 2) restricted; and 3) unrestricted.

Notes to Financial Statements (Continued) As of June 30, 2011

Note 1—Summary of Significant Accounting Policies: (Continued)

<u>Statement of Activities</u> - The government-wide Statement of Activities reports expenses and revenues in a format that focuses on the cost of each of the government's functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

<u>Budgetary Comparison Schedules</u> - Demonstrating compliance with the adopted budget is an important component of a government's accountability to the public. Many citizens participate in one way or another in the process of establishing the annual operating budgets of state and local governments, and have a keen interest in following the actual financial progress of their governments over the course of the year. Many governments revise their original budgets over the course of the year for a variety of reasons. Under the reporting model, governments provide budgetary comparison information in their annual report, including a requirement to report the government's original budget with the comparison of final budget and actual results.

A. Financial Reporting Entity

The basic criterion for determining whether a governmental department, agency, institution, commission, public authority, or other governmental organization should be included in a primary governmental unit's reporting entity for the basic financial statements is financial accountability. Financial accountability includes the appointment of a voting majority of the organization's governing body and the ability of the primary government to impose its will on the organization or if there is a financial benefit/burden relationship. In addition, an organization which is fiscally dependent on the primary government should be included in its reporting entity. These financial statements present the County of Sussex (the primary government) and its component units. Blended component units, although legally separate entities, are, in substance, part of the government's operations and so data from these units are combined with data of the primary government. Each discretely presented component unit, on the other hand, is reported in a separate column in the combined financial statements to emphasize it is legally separate from the government.

Notes to Financial Statements (Continued) As of June 30, 2011

Note 1—Summary of Significant Accounting Policies: (Continued)

B. <u>Individual Component Unit Disclosures</u>

Blended Component Unit. The County has no blended component units at June 30, 2011.

Discretely Presented Component Units. The School Board members are elected by the citizens of Sussex County. The School Board is responsible for the operations of the County's School System within the County boundaries. The School Board is fiscally dependent on the County. The County has the ability to approve its budget and any amendments. The primary funding is from the General Fund of the County. The School Fund does not issue a separate financial report. The financial statements of the School Board are presented as a discrete presentation of the County financial statements for the fiscal year ended June 30, 2011.

C. Other Related Organizations Included in the County's Financial Report

None

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The accompanying financial statements are prepared in accordance with pronouncements issued by the Governmental Accounting Standards Board. The principles prescribed by GASB represent generally accepted accounting principles applicable to governmental units.

The County applies all GASB pronouncements as well as the Financial Accounting Standards Board pronouncements issued on or before November 30, 1989 unless these pronouncements conflict with or contradict GASB pronouncements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The government-wide Statement of Activities reflects both the gross and net cost per functional category (public safety, public works, health and welfare, etc.) which are otherwise being supported by general government revenues, (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.) The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants, and contributions. The program revenues must be directly associated with the function (public safety, public works, health and welfare, etc.) or a business-type activity.

Notes to Financial Statements (Continued) As of June 30, 2011

Note 1—Summary of Significant Accounting Policies: (Continued)

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation (continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The County's fiduciary funds are presented in the fund financial statements by type. Since by definition these assets are being held for the benefit of a third party and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Accordingly, real and personal property taxes are recorded as revenues and receivables when billed, net of allowances for uncollectible amounts. Property taxes not collected within 60 days after year-end are reflected as deferred revenues. Sales and utility taxes, which are collected by the state or utilities and subsequently remitted to the County, are recognized as revenues and receivables upon collection by the state or utility, which is generally within two months preceding receipt by the County.

Licenses, permits, fines and rents are recorded as revenues when received. Intergovernmental revenues, consisting primarily of federal, state and other grants for the purpose of funding specific expenditures, are recognized when earned or at the time of the specific expenditure. Revenues from general purpose grants are recognized in the period to which the grant applies. All other revenue items are considered to be measurable and available only when cash is received by the government.

In the fund financial statements, financial transactions and accounts of the County are organized on the basis of funds. The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing set of accounts recording cash and/or other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

Notes to Financial Statements (Continued) As of June 30, 2011

Note 1—Summary of Significant Accounting Policies: (Continued)

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation (continued)

1. Governmental Funds

Governmental Funds are those through which most governmental functions typically are financed. The County reports the following as major governmental funds.

The General Fund is the primary operating fund of the County. This fund is used to account for all financial transactions and resources except those required to be accounted for in another fund. Revenues are derived primarily from property and other local taxes, state and federal distributions, licenses, permits, charges for service, and interest income. A significant part of the General Fund's revenues is used principally to finance the operations of the Component Unit School Board.

<u>Capital Projects Funds</u> - The Capital Projects Fund accounts for and reports financial resources that are restricted, committed or assigned to expenditure for capital outlays. The County also reports the County Capital Projects Fund as a major Capital Projects Fund.

The County reports the following nonmajor governmental funds:

<u>Special Revenue Funds</u> - Special revenue funds account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. The County Special Revenue Fund includes the operations of the law library and the drug forfeiture activity.

2. <u>Fiduciary Funds - (Trust and Agency Funds)</u> - account for assets held by the County in a trustee capacity or as an agent or custodian for individuals, private organizations, other governmental units, or other funds. These funds include Agency Funds and Private Purpose Trust Funds. These funds utilize the accrual basis of accounting described in the Governmental Fund Presentation. Fiduciary funds are not included in the government-wide financial statements.

E. Cash and Cash Equivalents

Cash and cash equivalents include amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the government.

State statutes authorize the government to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds and repurchase agreements.

F. Investments

Investments are stated at fair value which approximates market; no investments are valued at cost. Certificates of deposit and short-term repurchase agreements are reported in the accompanying financial statements as cash and cash equivalents.

Notes to Financial Statements (Continued) As of June 30, 2011

Note 1—Summary of Significant Accounting Policies: (Continued)

G. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e. the current portions of the interfund loans). All other outstanding balances between funds are reported as "advances to/from other funds."

All trade and property tax receivables are shown net of an allowance for uncollectibles. The County calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance amounted to approximately \$90,613 at June 30, 2011 and is comprised solely of property taxes.

Real and Personal Property Tax Data:

The tax calendars for real and personal property taxes are summarized below.

	Real Property	Personal Property
Levy	January 1	January 1
Due Date	December 5	December 5
Lien Date	January 1	January 1

The County bills and collects its own property taxes.

H. Capital Assets

Capital assets, which include property, plant and equipment, are reported in the applicable governmental columns in the government-wide financial statements. Capital assets are defined by the County as land, buildings, and equipment with an initial individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of two years. The County does not have any infrastructure in its capital assets since roads, streets, bridges and similar assets within its boundaries are the property of the Commonwealth of Virginia. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded as estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant and equipment of the primary government, as well as the component unit, are depreciated using the straight-line method over the following estimated useful lives.

Assets	Years
Building Improvements	40
Furniture, Vehicles, and Office Equipment	5-20
Buses	10

Notes to Financial Statements (Continued) As of June 30, 2011

Note 1—Summary of Significant Accounting Policies: (Continued)

I. Compensated Absences

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported as an expense in the Statement of Activities and a long-term obligation in the Statement of Net Assets. In accordance with the provisions of Governmental Accounting Standards No. 16, Accounting for Compensated Absences, no liability is recorded for nonvesting accumulating rights to receive sick pay benefits. However, a liability is recognized for that portion of accumulating sick leave benefits that is estimated will be taken as "terminal leave" prior to retirement.

J. Retirement Plan

Retirement plan contributions are actuarially determined and consist of current service costs and amortization of prior service cost over a 30-year period. The County's policy is to fund pension cost as it accrues.

K. <u>Use of Estimates</u>

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

L. Fund Equity

Beginning with fiscal year 2011, the County implemented GASB Statement 54, Fund Balance Reporting and Governmental Fund Type Definitions. This Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balance more transparent. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- Nonspendable fund balance amounts that are not in spendable form (such as inventory and prepaids) or are required to be maintained intact (corpus of a permanent fund);
- Restricted fund balance amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation;
- Committed fund balance amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint;
- Assigned fund balance amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority;

Notes to Financial Statements (Continued) As of June 30, 2011

Note 1—Summary of Significant Accounting Policies: (Continued)

L. Fund Equity (Continued)

 Unassigned fund balance - amounts that are available for any purpose; positive amounts are only reported in the general fund.

When fund balance resources are available for a specific purpose in more than one classification, it is the County's policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed.

Board of Supervisors establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives). Assigned fund balance is established by Board of Supervisors through adoption or amendment of the budget as intended for specific purpose (such as the purchase of capital assets, construction, debt service, or for other purposes).

In the general fund, the County strives to maintain a committed fund balance to be used for BJA Revolving Trust funds, Indoor Plumbing activity, CDBG and Sussex garden project funds.

The details of governmental fund balances, as presented in aggregate on Exhibit 3, are as follows:

			Major Capital Projects Fund	Non-Major Special Revenue Fund			
		•	County		County		
	General		Capital		Special		
	Fund		Projects		Revenue		Total
Fund Balances:						-	
Restricted for:							
Bond sinking funds	\$ -	\$	767,672	\$	-	\$	767,672

Notes to Financial Statements (Continued) As of June 30, 2011

Note 1—Summary of Significant Accounting Policies: (Continued)

M. Net Assets

Net assets are the difference between assets and liabilities. Net assets invested in capital assets represent capital assets, less accumulated depreciation less any outstanding debt related to the acquisition, construction or improvement of those assets.

N. Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued and premiums on issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Note 2—Stewardship, Compliance, and Accounting:

The following procedures are used by the County in establishing the budgetary data reflected in the financial statements:

- 1. On or before March 30th, the County Administrator submits to the Board of Supervisors a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them.
- 2. Public hearings are conducted to obtain citizen comments.
- 3. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution.
- 4. The Appropriations Resolution places legal restrictions on expenditures at the department or category level. The appropriation for each department or category can be revised only by the Board of Supervisors. The County Administrator is authorized to transfer budgeted amounts within general government departments; however, the School Board is authorized to transfer budgeted amounts within the school system's categories.
- 5. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
- 6. Appropriations lapse on June 30, for all County units.

Expenditures and Appropriations

Expenditures did not exceed appropriations in any fund at June 30, 2011.

Notes to Financial Statements (Continued) As of June 30, 2011

Note 3—Deposits and Investments:

Deposits

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act") Section 2.2-4400 et. Seq. of the Code of Virginia. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial Institutions may choose between two collateralization methodologies and epending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

Investments

Statutes authorize the County to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper and certain corporate notes, banker's acceptances, repurchase agreements and the State Treasurer's Local Government Investment Pool (LGIP).

Credit Risk of Debt Securities

The County's rated debt investments as of June 30, 2011 were rated by <u>Standard and Poor's</u> and the ratings are presented below using the <u>Standard and Poor's</u> rating scale.

	_	Fair Quality Ratings
	_	AAAm
Local Government Investment Pool	\$	4,042,243
Money Market Mutual Fund	_	767,672
Total	\$	4,809,915

External Investment Pools

The fair value of the positions in the Local Government Investment Pool (LGIP) is the same as the value of the pool shares. As this pool is not SEC registered, regulatory oversight of the pool rests with the Virginia State Treasury. LGIP maintains a policy to operate in a manner consistent with SEC Rule 2a-7.

Notes to Financial Statements (Continued) As of June 30, 2011

Note 4—Due to/from Other Governments:

At June 30, 2011, the County has receivables from other governments as follows:

	Primary Government		Component Unit School Board
Other Local Governments:	45.000	4	
Sussex County School Board	\$ 65,090	\$	-
Commonwealth of Virginia:			
Local sales tax	95,706		-

Notes to Financial Statements (Continued) As of June 30, 2011

Note 5—Capital Assets: (Continued)

Depreciation expense was charged to functions/programs/funds as follows:

Governmental activities:

General government administration	\$	72,141
Judicial administration		96,155
Public safety		478,797
Public works		5,311
Health and welfare		38,072
Education		539,151
Parks, recreation and cultural		5,698
Community development		13,201
Total Governmental activities	\$_	1,248,526
Component Unit School Board	\$_	579,229

Note 6—Interfund Transfers:

Interfund transfers for the year ended June 30, 2011, consisted of the following:

Fund	Transfers In	_	Transfers Out
Primary Government: General County Capital Projects	\$ - 2,958,012	\$	2,958,012
Total	\$ 2,958,012	\$	2,958,012
Component Unit- School Board: School Operating School Special Revenue	\$ - 20,561	\$	20,561 -
Total	\$ 20,561	\$	20,561

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and (2) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgeting authorization.

Notes to Financial Statements (Continued) As of June 30, 2011

General Obligations:

VRS Early Retirement Liability, issued July 1, 1994 at 8% over 30 years	\$ 993,707
OPEB liability	\$ 13,000
Compensated absences liability (Payable from the School Fund)	\$ 619,909
Total General obligations, Component Unit - School Board	\$ 1,626,616

Note 8—Closure and Postclosure Costs:

The County closed its two landfills and is liable for postclosure monitoring for a period of thirty years. In conjunction with the closing of the landfill, an environmental engineering firm was engaged to devise a closure plan in accordance with Federal and State Regulations. The \$3,004,870 reported as landfill closure and postclosure liability at June 30, 2011, represents the estimated liability for postclosure monitoring, over the remaining nineteen years. These amounts are based on what it would cost to perform all closure and postclosure care in 2011. Actual costs may be higher due to inflation, changes in technology or changes in regulations.

The County has demonstrated financial assurance requirements for closure, postclosure care, and corrective action costs through the submission of a Local Government Financial Test to the Virginia Department of Environmental Quality in accordance with Section 9VAC20-70 of the Virginia Administrative Code.

Note 9—Deferred Revenue:

Deferred revenue represents amounts for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. Under the modified accrual basis of accounting, such amounts are measurable, but not available. Deferred revenue in the funds totaling \$690,247 is comprised of the following:

<u>Deferred Property Tax Revenue</u> - Deferred revenue representing uncollected tax billings not available for funding of current expenditures totaled \$677,322 at June 30, 2011.

<u>Prepaid Property Taxes</u> - Property taxes due subsequent to June 30, 2011 but paid in advance by the taxpayers totaled \$12,925 at June 30, 2011.

Notes to Financial Statements (Continued) As of June 30, 2011

Note 10—Contingent Liabilities:

Federal programs in which the County and discretely presented component unit participate were audited in accordance with the provisions of the U.S. Office of Management and Budget Circular A-133, <u>Audits of States</u>, <u>Local Governments</u>, <u>and Non-Profit Organizations</u>. Pursuant to the provisions of this circular all major programs and certain other programs were tested for compliance with applicable grant requirements.

While no matters of noncompliance were disclosed by audit, the Federal Government may subject grant programs to additional compliance tests which may result in disallowed expenditures. In the opinion of management, any future disallowance of current grant program expenditures, if any, would be immaterial.

Note 11—Litigation:

At June 30, 2011, there were no matters of litigation involving the County or which would materially affect the County's financial position should any court decisions on pending matters not be favorable to the County.

Note 12 —Risk Management:

The County is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the government carries insurance.

The County is a member of the Virginia Municipal Group Self Insurance Association for workers' compensation. This program is administered by a servicing contractor, which furnishes claims review and processing.

Each Association member jointly and severally agrees to assume, pay and discharge any liability. The County pays Virginia Municipal Group contributions and assessments based upon classifications and rates into a designated cash reserve fund out of which expenses of the Association and claims and awards are to be paid. In the event of a loss deficit and depletion of all available excess insurance, the Association may assess all members in the proportion which the premium of each bears to the total premiums of all members in the year in which such deficit occurs.

The County continues to carry commercial insurance for all other risks of loss. During the last three fiscal years, settled claims from these risks have not exceeded commercial coverage.

Notes to Financial Statements (Continued) As of June 30, 2011

Note 13 — Defined Benefit Pension Plan:

A. Plan Description

Name of Plan: Virginia Retirement System (VRS)

Identification of Plan: Agent and Cost-Sharing Multiple-Employer Defined Benefit Pension Plan

Administering Entity: Virginia Retirement System (System)

All full-time, salaried permanent (professional) employees of public school divisions and employees of participating employers are automatically covered by VRS upon employment. Benefits vest after five years of service credit. Members earn one month of service credit for each month they are employed and their employer is paying into the VRS. Members are eligible to purchase prior public service, active duty military service, certain periods of leave and previously refunded VRS service as credit in their plan.

VRS administers two defined benefit plans for local government employees - Plan 1 and Plan 2:

- Members hired before July 1, 2010 and who have service credits before July 1, 2010 are covered
 under Plan 1. Non-hazardous duty members are eligible for an unreduced retirement benefit
 beginning at age 65 with at least five years of service credit or age 50 with at least 30 years of
 service credit. They may retire with a reduced benefit early at age 55 with at least five years of
 service credit or age 50 with at least ten years of service credit.
- Members hired or rehired on or after July 1, 2010 and who have no service credits before July 1, 2010 are covered under Plan 2. Non-hazardous duty members are eligible for an unreduced benefit beginning at their normal Social Security retirement age with at least five years of service credit or when the sum of their age and service equals 90. They may retire with a reduced benefit as early as age 60 with a least five years of service credit.
- Eligible hazardous duty members in Plan 1 and Plan 2 are eligible for an unreduced benefit beginning at age 60 with at least 5 years of service credit or age 50 with at least 25 years of service credit. These members include sheriffs, deputy sheriffs and hazardous duty employees of political subdivisions that have elected to provide enhanced coverage for hazardous duty service. They may retire with a reduced benefit as early as age 50 with at least five years of service credit. All other provisions of the members plan apply.

The VRS Basic Benefit is a lifetime monthly benefit based on a retirement multiplier as a percentage of the member's average final compensation multiplied by the member's total service credit. Under Plan 1, average final compensation is the average of the member's 36 consecutive months of highest compensation. Under Plan 2, average final compensation is the average of the member's 60 consecutive months of highest compensation. The retirement multiplier for non-hazardous duty members is 1.70%. The retirement multiplier for sheriffs and regional jail superintendents is 1.85%. The retirement multiplier for eligible political subdivision hazardous duty employees other than sheriffs and jail superintendents is 1.70% or 1.85% as elected by the employer. At retirement, members can elect the Basic Benefit, the Survivor Option, a Partial Lump-Sum Option Payment (PLOP) or the Advance Pension Option. A retirement reduction factor is applied to the Basic Benefit amount for members electing the Survivor Option, PLOP or Advance Pension Option or those retiring with a reduced benefit.

Notes to Financial Statements (Continued) As of June 30, 2011

Note 13 — Defined Benefit Pension Plan (Continued):

A. Plan Description (Continued)

Retirees are eligible for an annual cost-of-living adjustment (COLA) effective July 1, of the second calendar year of retirement. Under Plan 1, the COLA cannot exceed 5.00%; under Plan2, the COLA cannot exceed 6.00%. During years of no inflation or deflation, the COLA is 0.00%. The VRS also provides death and disability benefits. Title 51.1 of the <u>Code of Virginia</u> (1950) as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

The System issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for VRS. A copy of the report may be obtained from the VRS Website at: http://varetire.org/Pdf/Publications/2010-annual-report.pdf or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA 23218-2500.

B. Funding Policy

Plan members are required by Title 51.1 of the <u>Code of Virginia</u> (1950), as amended, to contribute 5.00% of their compensation toward their retirement. All or part of the 5.00% member contribution may be assumed by the employer. In addition, the County is required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the <u>Code of Virginia</u> and approved by the VRS Board of Trustees. The County and School Board non-professional's contribution rate for the fiscal year ended 2011 was 11.00% and 7.85% of annual covered payroll, respectively.

The School Board's contribution for professional employees was \$276,392, \$713,077, and \$726,146, to the teacher cost-sharing pool for the fiscal years ended June 30, 2011, 2010, and 2009 respectively and these contributions represented 3.93%, 8.81% from July 2009 through March 2010, zero (0.00%) from April through June 2010, and 8.81%, respectively, of current covered payroll.

Notes to Financial Statements (Continued) As of June 30, 2011

Note 13 — Defined Benefit Pension Plan (Continued):

C. Annual Pension Cost

For fiscal year 2011, the County's annual pension cost of \$741,816 (which includes the portion of the employee share assumed by the employer which was \$231,877) was equal to the County's required and actual contributions.

For the fiscal year 2011, the County School Board's annual pension cost for the Board's non-professional employees was \$133,418 (which includes the portion of the employees share assumed by the County which was \$51,913) which was equal to the Board's required and actual contributions.

Three Year Trend Information

Fiscal Year Ending	 Annual Pension Cost (APC) (1)	Percentage of APC Contributed	. <u> </u>	Net Pension Obligation	
County: June 30, 2011	\$ 509,939	100%	\$		-
June 30, 2010 June 30, 2009	535,752 529,787	100% 100%			-
School Board: Non-Professional:					
June 30, 2011 June 30, 2010 June 30, 2009	\$ 81,505 75,120 81,140	100% 100% 100%	\$		- - -

(1) Employer portion only

The fiscal year 2011 required contribution was determined as part of the June 30, 2009 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions at June 30, 2009 included (a) an investment rate of return (net of administrative expenses) of 7.50%, (b) projected salary increases ranging from 3.75% to 5.60% per year for general government employees and 3.50% to 4.75% for employees eligible for enhanced benefits available to law enforcement officers, firefighters, and sheriffs, and (c) a cost-of-living adjustment of 2.50% per year. Both the investment rate of return and the projected salary increases include an inflation component of 2.50%. The actuarial value of the County's assets is equal to the modified market value of assets. This method uses techniques that smooth the effects of short-term volatility in the market value of assets over a five-year period. The County's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2009 for the Unfunded Actuarial Accrued Liability (UAAL) was 20 years.

Notes to Financial Statements (Continued) As of June 30, 2011

Note 13 — Defined Benefit Pension Plan: (Continued)

D. Funded Status and Funding Progress

As of June 30, 2010, the most recent actuarial valuation date, the plan was 79.03% funded. The actuarial accrued liability for benefits was \$19,684,445 and the actuarial value of assets was \$15,555,788, resulting in an unfunded actuarial accrued liability (UAAL) of \$4,128,657. The covered payroll (annual payroll of active employees covered by the plan) was \$4,824,584, and ratio of the UAAL to the covered payroll was 85.58%.

As of June 30, 2010, the most recent actuarial valuation date, the School Board's Non-Professional plan was 87.24% funded. The actuarial accrued liability for benefits was \$2,678,831 and the actuarial value of assets was \$2,337,013, resulting in an unfunded actuarial accrued liability (UAAL) of \$341,818. The covered payroll (annual payroll of active employees covered by the plan) was \$1,057,516 and ratio of the UAAL to the covered payroll was 32.32%.

The schedule of funding progress, presented as Required Supplementary Information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability (AAL) for benefits.

Note 14 – Surety Bonds:

Note 15 – Jointly Governed Organizations:

District 19 Community Services Board

The District 19 Community Services Board is considered a jointly governed organization and therefore its operations are not included in the County's financial statements. The governing body of this organization is appointed by the participating jurisdictions which include the cities of Colonial Heights, Emporia, Hopewell, and Petersburg, and the Counties of Sussex, Greensville, Surry, and Sussex. The governing board has the ability to execute contracts and to budget and expend funds. No one locality contributes more than 50% of the Board's funding or has oversight responsibility over its operations. Sussex County contributed \$61,339 to the District 19 Community Services Board for the fiscal year ended June 30, 2011.

Notes to Financial Statements (Continued) As of June 30, 2011

Note 16-Postemployment Benefits Other Than Pensions:

Plan Description

The County and School Board allow retirees to remain on their health insurance plan after they retire. All forms of coverage cease upon the first month after the death of the employee. The spouse may remain on the plan as well and coverage ceases upon the death of retiree. The School Board retirees coverage ceases upon the earlier of death or the attainment of medicare eligibility. Spouses coverage ceases upon the earlier of the eighteenth month after the death of the retiree or medicare eligibility.

Funding Policy

The County and School Board allow retirees and their spouses to continue to participate in the County's medical plans with the retiree paying 100% of the premium. The contribution requirements of plan members are established and may be amended by the County and School Board. The Schools currently have 20 retirees on their plan. The County has 2 retirees on its plan.

Annual OPEB Cost and Net OPEB Obligation

The County and School Board's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the *annual required contribution of the employer (ARC)*. The County and School Board have elected to calculate the ARC as the normal cost plus amortization of the unfunded portion of actuarial accrued liability in compliance with the parameters of GASB 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

The estimated contributions are based on projected medical premium payments and credit for the implicit rate subsidy made during the year for the retired employees by the County and School Board. The following table shows the components of the County and School Board's annual OPEB cost for the year, the estimated amount contributed to the plan, and changes in the County's and School Board's net OPEB obligation to the Retiree Health Plan:

	 COUNTY	_	SCHOOLS
Annual required contribution	\$ 39,000	\$	102,000
Interest on net OPEB obligation	2,699		794
Adjustment to annual required contribution	(3,752)		(1,104)
Annual OPEB cost (expense)	\$ 37,947	\$	101,690
Estimated Contributions made	(13,416)		(108,534)
Increase in net OPEB obligation	24,531		(6,844)
Net OPEB obligation-beginning of year	67,469		19,844
Net OPEB obligation-end of year	\$ 92,000	\$	13,000
		_	

Notes to Financial Statements (Continued) As of June 30, 2011

Note 16-Postemployment Benefits Other Than Pensions: (Continued)

Annual OPEB Cost and Net OPEB Obligation (Continued)

The County's and School Board's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for fiscal year 2009, 2010, and 2011 were as follows:

Fiscal Year Ended	 Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
County:			
6/30/2009	\$ 45,000	24.44% \$	34,000
6/30/2010	44,469	24.74%	67,469
6/30/2011	37,947	35.35%	92,000
Schools:			
6/30/2009	101,000	90.10%	10,000
6/30/2010	100,844	90.24%	19,844
6/30/2011	101,690	106.73%	13,000

Funded Status and Funding Progress

As of July 1, 2010, the most recent actuarial valuation date, the County's actuarial accrued liability for benefits was \$282,000, all of which was unfunded. The covered payroll (annual payroll of active employees covered by the plan) was \$2,855,746, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 9.87 percent.

As of July 1, 2010, the most recent actuarial valuation date, the School Board's actuarial accrued liability for benefits was \$783,000, all of which was unfunded. The covered payroll (annual payroll of active employees covered by the plan) was \$7,929,254, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 9.87 percent.

The projection of future benefit payments for an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples included assumptions about future employment, mortality, and healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Notes to Financial Statements (Continued) As of June 30, 2011

Note 16-Postemployment Benefits Other Than Pensions: (Continued)

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The following simplifying assumptions were made:

Retirement age for active employees-Retirement age was estimated based on tables used for the VRS pension valuation and assumed that participants begin to retire when they become eligible to receive healthcare benefits.

Mortality-Life expectancies were based on GAR 1994 Mortality Table for males and females with a one year setback for males and females.

Based on the historical and expected returns of the County's short-term investment portfolio, a discount of 4.0% was used. In addition, the entry age normal actuarial cost method was used. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2011 was thirty years.

Note 17-Other Post-Employment Benefits (OPEB):

A. Plan Description

The School Board participates in the Health Insurance Credit Program, a plan designed to assist retirees with the cost of health insurance coverage. This program is a cost sharing, multiple-employer defined benefit plan administered by the Virginia Retirement System (VRS). The Virginia General Assembly establishes the dollar amount of the health insurance credit for each year of creditable service. The credit amount and eligibility differs for state, school division, political subdivision, local officer, local social services department and general registrar retirees.

A teacher, who retires under VRS with at least 15 years of total creditable service under the System and is enrolled in a health insurance plan, is eligible to receive a monthly health insurance credit of \$4 per year of creditable service. However, such credit shall not exceed the health insurance premium for the retiree. Disabled retirees automatically receive a monthly health insurance credit of \$4 multiplied by the smaller of (i) twice the amount of their creditable service or (ii) the amount of creditable service they would have completed at age 60 if they had remained in service to that age.

Notes to Financial Statements (Continued) As of June 30, 2011

Note 17-Other Post-Employment Benefits (OPEB): (Continued)

Benefit provisions and eligibility requirements are established by Title 51.1, Chapter 14 of the <u>Code of Virginia</u>. The VRS actuarially determines the amount necessary to fund all credits provided, reflects the cost of such credits in the applicable employer contribution rate pursuant to §51.1-145, and prescribes such terms and conditions as are necessary to carry out the provisions of the health insurance credit program. VRS issues separate financial statements as previously discussed in Note 13.

B. Funding Policy

The School Board is required to contribute, at an actuarially determined rate, the entire amount necessary to fund participation in the program. The current rate is .60% of annual covered payroll. The School Board's contributions to VRS for the years ended June 30, 2011, 2010, and 2009 were \$47,369, \$60,154, and \$89,017, respectively and equaled the required contributions for each year.

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To The Honorable Members of the Board of Supervisors County of Sussex Sussex, Virginia

We have audited the financial statements of the governmental activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Sussex, Virginia, as of and for the year ended June 30, 2011, which collectively comprise the County of Sussex, Virginia's basic financial statements and have issued our report thereon dated January 18, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the *Specifications for Audits of Counties, Cities, and Towns,* issued by the Auditor of Public Accounts of the Commonwealth of Virginia; and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the County of Sussex, Virginia's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County of Sussex, Virginia's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the County of Sussex, Virginia's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

BAICX-

As part of obtaining reasonable assurance about whether the County of Sussex, Virginia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, the Board of Supervisors, others within the entity, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Independent Auditors' Report on Compliance with Requirements That Could Have a Direct and Material Effect on Each Major Program and on Internal Control Over Compliance in Accordance with OMB Circular A-133

To The Honorable Members of the Board of Supervisors County of Sussex Sussex, Virginia

Compliance

We have audited County of Sussex, Virginia's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of County of Sussex, Virginia's major federal programs for the year ended June 30, 2011. The County of Sussex, Virginia's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the County of Sussex, Virginia's management. Our responsibility is to express an opinion on the County of Sussex, Virginia's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States*, *Local Governments*, *and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County of Sussex, Virginia's compliance with those requirements and performing such other procedures, as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the County of Sussex, Virginia's compliance with those requirements.

In our opinion, the County of Sussex, Virginia complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal program for the year ended June 30, 2011.

Internal Control Over Compliance

Management of the County of Sussex, Virginia, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the County of Sussex, Virginia's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County of Sussex, Virginia's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a control deficiency, or combination of deficiencies, in internal control over compliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, the Board of Supervisors, others within the entity, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

County of Sussex, Virginia

Notes to Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2011

Note 1 - Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of the County of Sussex, Virginia under programs of the federal government for the year ended June 30, 2011. The information in this Schedule is presented in accordance with the requirements of the OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations.* Because the Schedule presents only a selected portion of the operations of the County of Sussex, Virginia, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the County of Sussex, Virginia.

Note 2 - Summary of Significant Accounting Policies

- (1) Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in OMB Circular A-87, Cost Principles for State, Local, and Indian Tribal Governments, wherein certain types of expenditures are not allowable or are limited as to reimbursement.
- (2) Pass-through entity identifying numbers are presented where available.

Note 3 - Relationship to Financial Statements

Federal expenditures, revenues and capital contributions are reported in the County's basic financial statements as follows:

Intergovernmental federal revenues per the basic financial statements: Primary government:		
General Fund	\$	1,186,221
Total primary government	\$	1,186,221
Component Unit Public Schools:		
School Operating Fund	\$	1,578,029
School Cafeteria Fund		674,797
Total component unit public schools	\$	2,252,826
Total federal expenditures per basic financial		
statements	\$_	3,439,047
