To the Honorable Mayor and Members of the City Council To the Citizens of the City of Winchester Winchester, Virginia

#### Ladies and Gentlemen:

The Comprehensive Annual Financial Report (CAFR) of the City of Winchester, Virginia for the fiscal year ended June 30, 2019 is submitted herewith pursuant to Sections 15.1-166 & 167 of the Code of Virginia. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the City. To the best of our knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of all the funds of the City. All disclosures necessary to enable the reader to gain an understanding of the City's financial activities are included.

The City's management is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the City are protected from loss, theft, or misuse; to ensure that adequate accounting data are compiled; and to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the evaluation of costs and benefits requires estimates and judgments by management.

State Statutes require an annual audit by independent certified public accountants. The accounting firm of Brown Edwards & Company, L.L.P. performed the City of Winchester's audit for the fiscal year ended June 30, 2019. In addition to complying with the requirements set forth in the State Statutes, the audit was designed to comply with the requirements of the Single Audit Act of 1984 and related Uniform Guidance. The auditor's report on the basic financial statements is included in the Financial Section of this report. The auditor's reports related specifically to the single audit are included in the Single Audit Section.

Generally accepted accounting principles require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City of Winchester's MD&A can be found immediately following the report of the independent auditors.

#### **Profile of the City of Winchester**

The City of Winchester is located in the northern tip of Virginia in the Shenandoah Valley. Winchester, founded in 1744, is the oldest city in Virginia west of the Blue Ridge Mountains. The City currently occupies a land area of 9.3 square miles and serves a resident population of approximately 28,108. Two major interstate highways, I-81 and I-66, and four major state highways, Routes 50, 7, 11, and 522, provide direct access to eastern markets, including Washington, D.C., 72 miles away, and Baltimore, MD, 97 miles away. As a regional employment and health care center, the City's daytime population increases to approximately 45,000.

The City of Winchester has a Council/Manager form of government. The nine member Council consists of a Mayor and eight Councilors elected from four wards in the city with each ward electing two members from the territory of the ward, and the mayor elected at-large and serving for a period of four years. In the governance of the City, the Council is charged with the responsibility of establishing policies and enacting ordinances and resolutions. The Council elects one of the councilors to serve as President for a two-year term. The City Manager is appointed by the Council, and is charged with the responsibility of administering daily operations and implementing Council directives.

The City provides a full range of services, including the following: police and fire protection; emergency response and rescue services; education; water and sewer services; refuse removal and disposal services; construction and maintenance of highways, streets and infrastructure; parks and recreational activities; cultural events; parking facilities; transit services; social services; planning and zoning; and general administration. All moneys required to support these services are reflected in this report.

The CAFR includes all funds, component unit agencies, and boards and commissions for which the City is financially accountable. Financial accountability is defined as appointment of a voting majority of such an entity's Board, and either (a) the ability to impose its will, or (b) the possibility that the component unit will provide a financial benefit to, or impose a financial burden on, the City.

Based on the foregoing criteria, the financial activities of the following organizations are included in the financial statements for the reasons indicated:

- Winchester Parking Authority (WPA): The Winchester Parking Authority was created at the request of the City of Winchester under Chapter 221 the 1964 Acts of the Virginia General Assembly on March 27, 1964 as a public body and body politic and corporate to acquire, construct, reconstruct, equip, improve, extend, enlarge, maintain, repair and operate off-street parking facilities; providing for the issuance of revenue bonds of the Parking Authority, payable solely from revenues; to pay all or any part of the cost of such parking facilities; providing for the imposition and collection of rates, rentals, fees, and charges for the use of and for the services furnished by the parking facilities; authorizing the issuance of revenue refunding bonds; and prescribing the powers and duties of the Authority in connection with the parking facilities and adjoining areas. All members of the WPA are appointed by the City's Common Council.
- ♦ Winchester School Board (Board): The Board was created by Common Council in accordance with Article VIII, Section 7 of the Virginia Constitution and Section 14.01(A) of the Winchester City Charter as a public body corporate. Pursuant to the foregoing, the Board is vested with the authority to supervise the City's publicly funded primary and secondary school system. The Board is authorized to oversee the operation and management of the City's public schools, and receives annual appropriations in furtherance of these efforts from Common Council and other funding sources. All members of the Board are appointed by the City's Common Council, in accordance with the provisions of the City's Charter.

#### **Profile of the City of Winchester (Continued)**

Financial activities of the following joint ventures and other related organizations are not included in the CAFR, but are disclosed in the notes to the financial statements in accordance with pronouncements of the Governmental Accounting Standards Board:

- ♦ Frederick-Winchester Service Authority
- ♦ Winchester Regional Airport Authority
- ♦ Handley Regional Library Board

The City maintains budgetary control as part of its fiscal management techniques. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the City's governing body. The level of budgetary control (the level at which expenditures cannot legally exceed the appropriated amount) is established at the departmental level. Only the Common Council can revise the appropriation for each department. The City Manager is authorized to transfer appropriations within general government departments, and the School Board is authorized to transfer budgeted amounts within the school system's categories. As demonstrated by the statements and schedules included in the financial section of this report, the City meets its responsibility for sound financial management.

#### **Local Economy**

The City is the region's commercial, recreational, industrial, and medical center serving a 75-mile radius. Because of the City's position as a regional economic center and its extensive highway system, the City's workforce is drawn from a substantially broader area. Employers in the area offer a wide variety of private sector jobs ranging from agriculture, forestry, and manufacturing, to retail, professional, educational, and medical services, as well as an emerging presence of information technology opportunities.

The City's largest employer is Valley Health Systems, which owns and operates the Winchester Medical Center and five smaller primary care hospitals in the region along with other related services such as urgent care clinics, home health services, a childcare facility, and transport services. A level II trauma center and level III Neonatal Intensive Care Unit (NICU), the Winchester Medical Center is a non-profit, regional referral hospital, serving the tri-state region surrounding the city. The 455-bed facility, which is finalizing a medical office building expansion to accommodate additional medical specialties, offers a full range of inpatient and outpatient diagnostic, medical, advanced surgical options and rehabilitative services.

Located within Winchester is Shenandoah University, a United Methodist Church-affiliated institution, which was founded in 1875 in Dayton, Virginia, and moved to Winchester in 1960. Today, Shenandoah University has an enrollment of approximately 4,000 students. These students participate in more than 100 programs of study at the undergraduate, graduate, doctorate and professional levels in seven schools: the College of Arts and Sciences, School of Business, School of Health Professions, Shenandoah Conservatory, School of Pharmacy, School of Nursing, and School of Education and Human Development. The University has continued to grow academic offerings and has recently become one of the first universities to offer bachelor's degrees in e-sports, in addition to renovating space on campus to create the regions first e-sports arena.

The Winchester Regional Airport is an all-weather general aviation airport, with 5,500 feet of grooved asphalt runway, serving the region. The airport is staffed 24 hours a day/7 days a week and sells 100LL and Jet-A aviation fuel. It is the official airport of the Virginia Inland Port Authority, which is fifteen miles south of Winchester. The City participates with other user localities in a joint venture to operate the airport, and contributes a share of the local funding needed for the operations and capital improvements of the airport.

#### **Local Economy (Continued)**

The City's commercial tax base accounts for 38.0% of the taxable real property value in the City. The City serves as the major retail center for the region. Apple Blossom Mall, an enclosed regional shopping center, contains Sears, Belk, and J.C. Penney as its anchors, along with over 80 stores, specialty merchants and restaurants. Plazas such as Apple Blossom Corners, Winchester Crossing, Winchester Station and Winchester Plaza house Martin's, Staples, Hobby Lobby, Kohl's, HomeGoods, Books-A-Million, Michael's, Old Navy, Bed Bath and Beyond, Dick's Sporting Goods, Planet Fitness and a newly opened Kirklands. Also, serving the area are a Wal-Mart Supercenter, Lowe's, Home Depot, Target, T.J. Maxx, and Pier 1 Imports. The Old Town Mall, a pedestrian mall in the City's downtown, offers a wide range of boutiques, specialty shops and restaurants and is often viewed as the cultural center of the community. There are also several anchorless retail centers and one life style center that house Ann Taylor Loft, Talbots, J. Jill, Jos A Bank Clothier, and other high-end retail stores. The city is also home to several national chain restaurants. In addition, the city has several class A office buildings serving the professional services sector and business service entities. In addition to retail, hospitality and office space, the City is home to several large manufacturing companies including O'Sullivan Films, National Fruit Company, Rubbermaid Commercial Products, and Trex Corporation. These companies provide over 1,400 jobs to Winchester.

The City's Development Services Team and the Winchester Economic Development Authority (EDA) work closely together to facilitate economic development and growth within Winchester. The EDA worked with the City, U.S. Department of Housing and Urban Development and private companies to redevelop the historic Taylor Hotel into a multi-use space that incorporates downtown living, two restaurants and a premier public gathering space. In 2016, the EDA acquired the Winchester Towers property (a 35,000 square foot building and parking lot) at 200 North Cameron Street for the purpose of demolishing the structure and pursing redevelopment. Currently, the EDA is working with Lynx Ventures LLC on the redevelopment of the property. The EDA has also acquired and demolished the structures on 6 lots at the corner of Kent and Piccadilly Streets and are working with Providence Capital Partners, LLC on a mixed-use redevelopment of the site to consist of first floor retail and up to 47 apartment units. In addition, the EDA continues to incentivize the redevelopment of several downtown properties and has collectively acquired over \$1,000,000 worth of property in the historic downtown. Also, through Enterprise Zone designation by the Virginia Department of Housing and Community Development, the EDA has created a valuable and comprehensive incentive package that facilitates the startup and expansion of Winchester businesses.

In addition, the City's Old Town Advancement Commission (OTAC) continues to successfully market the City's downtown. New businesses continue to locate downtown, while existing businesses thrive. The OTAC administers the Main Street Program, focused on downtown revitalization - putting the traditional assets of downtown, such as unique architecture and locally-owned businesses, to work as a catalyst for economic growth and community pride. The efforts of OTAC have earned recognition for excellence in the field of downtown revitalization by meeting high standards of performance set by the Virginia Main Street Program and the National Trust for Historic Preservations National Main Street Center. In the past year, Virginia Main Street recognized Winchester for passing the threshold of \$140,000,000 in private investment realized since 2010.

#### **Long-term Financial Planning**

Unassigned fund balance in the general fund (25.9% of General Fund expenditures) exceeds the policy guidelines set by Council for planning purposes. Twenty percent is the adopted minimum target for the City's General Fund balance. Amounts that exceed 25% are transferred to the capital reserve account up to the funding maximum of \$2.0 million, as currently established by City Council.

#### **Long-term Financial Planning (Continued)**

As part of our strategic plan, the City has implemented a 20-year financial planning model to help project revenue and expenditures through the year 2039. Factored into the financial planning model are anticipated future major capital projects. The City is planning for several road improvement projects that will leverage state revenue sharing funds and general obligation bonds. School projects include the complete renovation of the Douglas Community Learning Center facility to convert it to the Winchester Public School central office and the conversion of the former John Kerr Elementary School into the Shihadeh Innovation Center, an extension of the John Handley High School campus. These projects are to be funded through the issuance of a \$21 million general obligation bond, and over \$1 million in fundraising. Winchester Public Schools projects that enrollment will grow by approximately 100 students by 2023-2024 to an anticipated total enrollment of over 4,400. Current educational facilities are adequately sized at the elementary level for such growth, and the opening of the Shihadeh Innovation Center will alleviate any high school overcrowding, but middle school level assets will be slightly strained by student enrollment in grades 5-8. Despite the anticipated increase in middle school enrollment, these improvements should take us well into the future, allowing us to continue providing a quality education for all students in the City.

#### **Relevant Financial Policies**

In December 2003, along with the fund balance policy (updated in August 2016), City Council adopted a debt obligation policy, which states that net debt as a percentage of assessed value will not exceed 4%. General obligation debt service and capital lease payments as a percentage of general governmental expenditures will not exceed 15%.

The City's investment policy is designed to allow the City to obtain the highest possible yield on available City financial assets, consistent with constraints imposed by its safety objectives, cash flow considerations, and Virginia State laws that restrict the placement of public funds. Accordingly, deposits were either insured by Federal Depository Insurance or collateralized in accordance with the Virginia Security for Public Deposits Act.

#### **Major Initiatives**

#### A. Hope Drive Extension

The final design of Hope Drive Extension has been completed and the right-of-way acquisition process has also been completed in November 2019. This project will extend Hope Drive from Wilson Boulevard eastward to Pleasant Valley Road. In addition, Papermill Road will be realigned and Tevis Street will be modified and will end at a cul-de-sac west of the railroad tracks. As soon as the permit is received from CSX for the new railroad crossing, construction on this \$9.5 million project is expected to begin in the first half of 2020. One-half of the costs of this project will be paid for using VDOT Revenue Sharing funds.

#### **B.** Valley Avenue Drainage and Sidewalk Improvements

Both the final design to construct drainage improvements and sidewalks along Valley Avenue between Middle Road and the southern City limits and the right-of-way acquisition has been completed in November 2019 for this project. The project will correct the significant drainage problem near the intersection of Valley/Tevis and will also install sidewalks on both sides of the roadway where none currently exist. Construction on this \$7.4 million project is expected to begin in the first half of 2020. One-half of the costs of this project will also be paid for using VDOT Revenue Sharing funds.

#### **Major Initiatives (Continued)**

#### C. Creamery Building Renovations

Over \$2 million in renovations are being completed in the Creamery Building located at 21 S. Kent Street that will allow the City Commonwealth Attorney's office, the City Treasurer's office, the City Commissioner of Revenue's office, and the Juvenile and Domestic Relation Court Service's office to move into the building by the end of February in 2020.

#### D. Sidewalk Improvements

Making repairs to sidewalks in poor condition is one of the highest priorities for Winchester residents. As such, the City is currently replacing approximately 13 miles of sidewalks that are in poor condition at a cost of over \$8 million. The majority of the sidewalk replacements are being completed in conjunction with utility infrastructure replacements. The City has also received a Section 108 loan from CDBG to complete \$1 million of these sidewalk replacements. Even though the current sidewalk replacements will replace a significant number of sidewalks in poor condition, there will be over 30 miles of sidewalks in poor condition that will cost over \$25 million to replace. In order to address this major problem and make all sidewalks passable, the City has implemented an aggressive repair program of grinding down the concrete at uneven sidewalk sections, when possible, and also placing asphalt over broken sections of sidewalk or in cases of uneven sidewalk sections when the concrete can't be ground down. While this is not intended to be a long term solution, it will make the sidewalks passable and allow the City to have adequate time to continue to replace these sidewalks which will take a sustained effort over the next 10 to 15 years.

#### E. Green Circle Trail

The City continues to work towards completing the Green Circle Trail. Construction on the section of the trail along Jubal Early between just west of Harvest Drive and just east of Valley Avenue will begin soon and construction will be completed in 2020. In addition, the City has been awarded \$3,092,000 in Smart Scale funds and an additional \$1 million in Revenue Sharing funds from VDOT to complete the final section of the trail along Jubal Early between Plaza Drive and Millwood Avenue, but these funds will not be available until 2021.

#### F. Wentworth Drive Improvements

The City has been awarded \$450,000 in federal funds through VDOT to construct new sidewalks along Wentworth Drive as part of the Safe Routes to School program. The project also includes the installation of curb & gutter and water and sewer main replacements. Construction on this project is expected to be completed by the end of 2020.

#### **G.** Winchester Towers

The Winchester Towers property located at the intersection of Cameron and Piccadilly and was sold by the City to the Economic Development Authority (EDA). The EDA has entered into an MOU with Lynx Ventures, LLC a development firm based in Richmond, VA to redevelop the site. Final project details will be determined in 2020, but the initial concept involves roughly 150 residential units, 12,000 square feet of commercial space, and a 180+ space parking structure. City Council has approved a 10 year performance grant agreement that would allow the developer to recoup all net new taxes generated on-site for up to a predetermined dollar figure coinciding with the number of spaces provided in the parking structure.

#### **Major Initiatives (Continued)**

# H. Kent/Piccadilly Redevelopment Site

The Winchester EDA purchased six (6) parcels at the corner of Kent and Piccadilly Streets, equaling 0.63 acres for a redevelopment project consisting of a mixed-use structure to accommodate 47+ residential units with commercial/retail space on the first floor. The EDA is working under an MOU with Providence Capital Partners, LLC on the redevelopment effort; the demolition of the existing structures at the site has been completed and the new construction will begin in 2020.

#### I. North Cameron Street Drainage Improvements

Work has started on the first phase of the improvements necessary to alleviate flooding along N. Cameron Street north of Piccadilly Street. There are expected to be two additional phases of work consisting of stormwater management ponds that are scheduled to be completed within the next five years.

#### J. Utility Infrastructure Improvements

Work has started on multiple utility projects that will be completed in the next few years and are being paid for by the Utility fund. These projects are necessary to replace old infrastructure and include the following:

- 1. Water and sewer main replacements
- 2. Replacement of all 3/4-inch and 1-inch water meters in the system
- 3. Sewer pump station replacements
- 4. Improvements at the water treatment plant
- 5. New maintenance facility at City Yards

#### **Awards and Acknowledgment**

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Winchester for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2018. This was the twenty-seventh consecutive year that the City of Winchester has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to GFOA to determine its eligibility for another certificate.

The preparation of this report was made possible by the dedicated and effective efforts of City and Schools Finance staff, and staff in other departments throughout the City who assisted in gathering the information for this report. Many hours of hard work are represented herein, and we extend our sincere appreciation to each member of our staff who contributed to the final report.

Finally, grateful appreciation is extended to the City Council for their leadership and support throughout the year.

Eden & Jeunan May M. Blone

Respectfully submitted,

Eden E. Freeman City Manager Mary M. Blowe Chief Financial Officer/Director Of Supoort Services

Government Finance Officers Association

Certificate of Achievement for Excellence in Financial Reporting

Presented to

# City of Winchester Virginia

For its Comprehensive Annual Financial Report for the Fiscal Year Ended

June 30, 2018

Christopher P. Morrill

Executive Director/CEO

#### INDEPENDENT AUDITOR'S REPORT

To the Honorable Members of the City Council City of Winchester, Virginia

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Winchester, Virginia as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and *Specifications for Audits of Counties, Cities, and Towns* issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Winchester, Virginia, as of June 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplementary information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, other supplementary information and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance), and is also not a required part of the basic financial statements.

The other supplementary information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 22, 2019 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is soley to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

CERTIFIED PUBLIC ACCOUNTANTS

Brown, Edwards & Company, S. L. P.

Harrisonburg, Virginia November 22, 2019 City of Winchester, Virginia Management's Discussion and Analysis Fiscal Year Ended June 30, 2019

This section of the City of Winchester's (the City's) annual financial report presents an overall review of the City's financial activities for the fiscal year ended June 30, 2019. Please review all documentation in conjunction with the City's financial statements and the transmittal letter for an overall picture of the City's financial performance as a whole.

#### **Financial Highlights**

- The assets and deferred outflows of resources of the City of Winchester, on a government-wide basis excluding component units, exceeded its liabilities and deferred inflows of resources at the close of fiscal year 2019 by \$107.1 million (net position).
- The City's total net position increased approximately \$13.3 million over the course of this year's operations. Net position of governmental activities increased \$8.9 million, and net position of business-type activities increased \$4.4 million over the prior year.
- At the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$29.2 million, a decrease of \$1.9 million in comparison with the prior year. Approximately 74.4% of this amount, \$21.7 million, is available for spending at the government's discretion (unassigned fund balance).
- As of the close of the current fiscal year, the City's general fund unassigned fund balance was \$21.7 million. This amount represents 25.9% of total general fund expenditures.
- The City's total debt decreased by \$12.9 million, or 5.8%. The City's general obligation bond debt decreased by \$8.7 million and revenue bond debt decreased by \$3.1 million from the prior year.

#### **Overview of the Financial Statements**

This discussion and analysis are intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements comprise three components:

- Government-wide financial statements
- Fund financial statements
- Notes to financial statements

This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the City's finances in a manner similar to a private-sector business.

The statement of net position presents information on all of the City's assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in the statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

## **Overview of the Financial Statements (Continued)**

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenue (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include: general government; judicial administration; public safety; public works; health and welfare; community development; and recreation and cultural. The business-type activities of the City include water and sewer operations.

The government-wide financial statements include not only the City itself (known as the primary government), but also a legally separate school district and a legally separate parking authority for which the City is financially accountable. Financial information for these component units is reported separately from the financial information presented for the primary government itself.

**Fund financial statements.** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the City's near-term financing decisions. Both the governmental fund balance sheet and the governmental statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains eight governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balance for the general fund and capital projects fund, which are considered major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The City adopts an annual appropriated budget for its governmental funds. A budgetary comparison statement has been provided for the governmental funds to demonstrate compliance with this budget.

**Proprietary funds.** The City maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses an enterprise fund to account for its water and sewer operations. Internal service funds are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City uses internal service funds to account for its employee benefits program, equipment maintenance operation, and other post-employment benefits. Because these three functions predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

#### **Overview of the Financial Statements** (Continued)

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Water and Sewer fund (a major fund). Conversely, the internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of combining statements elsewhere in this report.

*Fiduciary Funds.* Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The City has three fiduciary funds: the Special Welfare Fund, Northwestern Regional Jail Authority Construction Fund, and Northwestern Regional Juvenile Detention Center Fund. The accounting used for fiduciary funds is much like that used for proprietary funds.

**Notes to the financial statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 18 - 90 of this report.

**Other information.** In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City's progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found on page 91 of this report.

The combining statements referred to earlier in connection with nonmajor governmental funds and internal service funds are presented immediately following the required supplementary information on pensions.

#### **Government-wide Financial Analysis**

As noted earlier, net position (assets in excess of liabilities) may serve over time as a useful indicator of a government's financial position. Table 1 shows that the primary government's assets exceeded liabilities by \$107.1 million at the close of fiscal year 2019.

The City's net position reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment); less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although, the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Governmental activities. As shown in Table 1, net position for governmental activities increased from \$27.1 million at the end of FY 2018 to \$36.0 million (\$8.9 million increase) at the end of FY 2019. This increase is attributed mainly to the decrease in long-term debt. The City issued new debt in FY 2019 of \$1.0 million and paid down existing debt thereby reducing (\$6.5 million decrease) the overall general obligation debt liability.

In FY 2015, the City began complying with the Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions*. This standard requires the City for the first time to report a net pension liability for the Defined Benefit Pension Plan that is offered to City employees. For detailed information on the Defined Benefit Pension Plan see Note 11, page 50. In addition, in FY 2018 the City began complying with GASB Statements No. 74 and 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. This standard requires the City for the first time to report a net Other Postemployment Benefits (OPEB) liability for its cost sharing defined benefit healthcare plan offered to eligible retirees and other OPEB plans offered employees through the Virginia Retirement System see Note 13, page 64. Because information to restate prior years in not readily available, the prior year comparative information included in this discussion and analysis has not been restated.

4d

In addition, since the GASB 34 implementation the City reports its liability for the repayment of the debt associated with the construction of school facilities under the governmental activities category. The City, not the School Board, is obligated for the debt. The related capital assets are presented under the Component Unit – School Board. If the debt related to the construction of schools (\$54.6 million) were not presented in Table 2, the net position for the governmental activities would be \$90.6 million and the total net position for the primary government would be \$161.7 million.

4e

As shown in Table 2, the City's revenues from governmental activities totaled \$102.5 million for FY 2019, an increase of \$2.4 million from FY 2018. Property taxes increased \$1.8 million from the prior year due to an increase in the taxable real property values (3.4%) as a result of the bi-annual reassessment and an increase in the real estate tax rate from \$0.91 cents to \$0.93 cents. In addition, personal property taxes continue to grow due to the strong local economy which contributed to the overall increase of the personal property base in the City.

Winchester's general revenues increased by \$2.8 million from the prior year including a \$1.8 million increase in property taxes, this continues the trend of steady growth in local revenues based on a strong local economy. Governmental activities expenditures increased by \$0.8 million from the prior year. Increases include public safety totaling \$0.3 million and public works totaling \$0.5 million primarily due to equipment replacements.

As shown in Figure A, the City received 75.7% of its revenue from taxes. The major source of revenue for the City was property taxes (\$43.9 million or 42.9%), composed of real estate, personal property taxes, and machinery and tools taxes. The City's assessed value of taxable real property for the 2019 reassessment increased by approximately 3.4% from the prior reassessment year. The increase in property tax revenues is due to the reassessment of real property and the increase in personal property taxes due to the increase in the personal property tax rate from \$4.50 per \$100/assessed values to \$4.80 per \$100 of assessed values. The City revalues real property every two years. The increase is real property values is another strong indicator of the City's continuing growth. Other tax revenues (sales and other taxes) increased \$0.8 million from the prior year.

The City's expenses from governmental activities totaled \$95.0 million (Table 2) for the fiscal year ended June 30, 2019, an increase of \$0.8 million from the prior year. As shown in Figure B, education was the largest expense at \$30.5 million or 32.1% of total governmental expenses. Public safety was the second largest expense at \$23.6 million or 24.9% of total governmental expenses.

Figure A
Revenues by Source – Governmental Activities

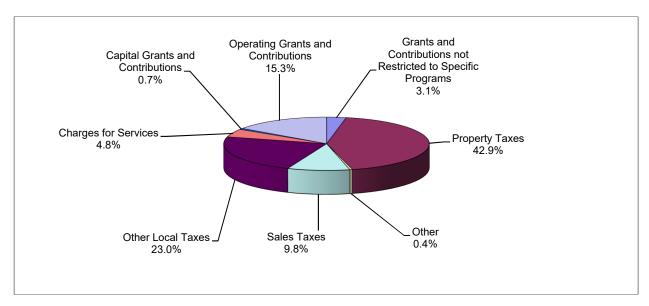

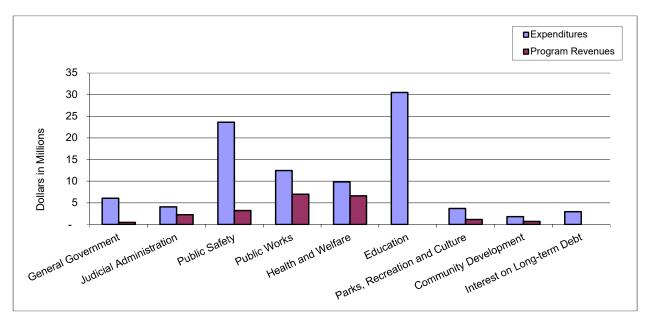

Figure B
Expenses and Program Revenues – Governmental Activities

**Business-type activities.** The City's business-type activities include the water and sewer fund. The net position of these business-type activities totaled \$71.1 million (Table 2) an increase of \$4.4 million from the prior year. As shown in Figure C, the major revenue source for the business-type activities is charges for services, including water and sewer utility fees, which totaled \$31.1 million or 92.6% of the total revenues for business-type activities, an increase of \$2.3 million from the prior year due to an increase in the water and sewer rates. Expenses of the business-type activities totaled \$27.7 million (Table 2) an increase from the prior year of \$3.5 million. This increase in expenses is mainly due to an increase in operational expenses for ongoing repairs of maintenance of the water and sewer system.

Figure C Revenues by Source – Business-type Activities

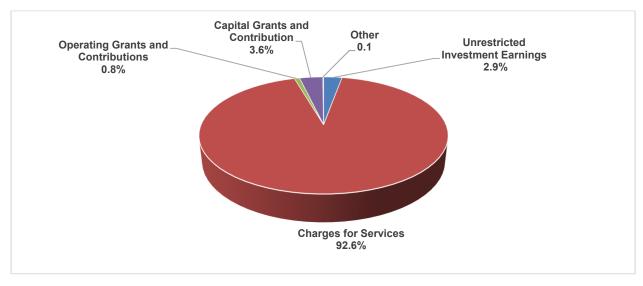

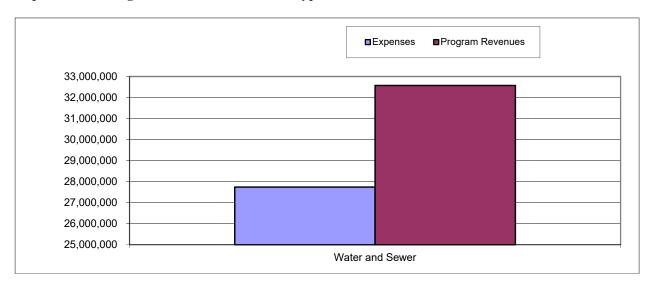

Figure D
Expenses and Program Revenues – Business-type Activities

**School Board activities.** The net position of the School Board totaled \$71.0 million (Table 1). School Board revenues (Table 2) increased by \$2.0 million (3.3%), largely due to an increase in Operating grants and contributions \$1.7 million (6.0%) for operations. Overall, School Board expenses increased \$0.8 million (1.3%), mainly due to salary increases for teachers to ensure the school system stays competitive with neighboring school systems.

#### Financial Analysis of the City's Funds

The City of Winchester uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental funds.** The focus of the City's *governmental funds* is to provide information on nearterm inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the City's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

Fund balances are the difference between assets and liabilities in governmental funds and consist of the following categories:

- Nonspendable fund balance includes amounts that are not in spendable form, or amounts that are required to be maintained intact.
- Restricted fund balance includes amounts that can be spent only for the specific purposes stipulated by external providers, such as grantors or bondholders, as well as amounts that are restricted through enabling legislation.
- Committed fund balance includes amounts that can be used only for the specific purposes that are determined by a formal action of the government's highest level of decision making authority.

#### Financial Analysis of the City's Funds (Continued)

- Assigned fund balance applies to amounts that are intended for specific purposes as expressed by
  the governing body or authorized official and applies to remaining resources in any governmental
  funds other than the general fund.
- Unassigned fund balance includes all amounts not contained in other classifications for the general fund, and deficit fund balances in any other governmental funds.

For the fiscal year ended June 30, 2019, the City's governmental funds reported combined fund balances of \$29.2 million, a decrease of \$1.9 million in comparison with the prior year. Approximately \$21.7 million of the combined total fund balances constitutes unassigned fund balance, which is generally available for spending at the City's discretion.

General Fund. The general fund is the chief operating fund of the City. For the fiscal year ended June 30, 2019, the unassigned fund balance of the general fund was \$21.7 million, while total fund balance reached \$27.0 million. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures and other financing uses. Unassigned fund balance represents 25.9% (24.0% in the prior year) of total general fund expenditures, the increase is due to positive revenues from the real estate and personal property taxes and a delay in the planned use of fund balance for one-time capital projects in FY 2019. Total fund balance represents 32.2% (32.6% in the prior year) of general fund expenditures.

Total fund balance in the general fund increased by \$0.5 million during the current fiscal year mainly from positive operating results. Total revenues increased \$2.5 million or 2.9% over the prior year. Real property taxes increased \$0.5 million (1.8%), from increased real property reassessments, while personal property taxes increased \$0.8 million (6.3%). Sales and use taxes increased \$0.3 million (3.1%) and meals taxes increased \$0.3 million (3.5%) while business license taxes increased \$0.5 million or 7.5% compared to the prior year. Total expenditures increased \$0.8 million or 0.8% as compared to the prior year. Northwestern Regional Adult Detention Center expenditures decreased by \$0.1 million (2.0%), based on the jail population of City residents. Public safety expenditures increased by \$0.7 million for Police, Emergency Management (\$0.1 million for a new maintenance agreement associated with the upgraded Emergency Communications System activated in the FY 2018) and Fire Department operating and equipment replacements. General government expenditures increased by \$0.3 million or 5.2% compared to the prior year. Debt service payments decreased by \$0.7 million (7.0%) due to the planned retirement of debt.

Capital Improvements Fund. The Capital Improvements Fund has a total fund balance of \$1.5 million, of which the entire amount is either restricted or committed for various projects. Revenue, including other financing sources, totaled \$3.6 million, of which \$0.9 million was intergovernmental revenue, \$1.2 million was transfer from the general fund and \$1.0 was loan proceeds. Intergovernmental revenue included \$0.7 million in funding from the state for road improvement projects, and \$0.1 million in federal funding for a road improvement projects. Expenditures totaled \$5.7 million, of which the most significant were for the renovations of City Hall and the Creamery building, in addition to sidewalks and road improvement projects.

#### Financial Analysis of the City's Funds (Continued)

**Proprietary funds**. The City's proprietary fund statements provide the same type of information found in the government-wide financial statements, but in more detail. Unrestricted net position of the City's water and sewer fund for the fiscal year ended June 30, 2019, amounted to \$3.5 million, a decrease of \$3.7 million from the prior year, mainly due to increased liabilities from the new and ongoing infrastructure improvement projects.

#### **General Fund Budgetary Highlights**

City Council revised the City budget three times during the fiscal year. The difference between the original budget and the final amended budget of expenditures for the general fund was an increase of \$2.5 million, mainly due the carryforward of City capital projects, and school excess funds for capital improvement from FY 2018.

Actual revenues were more than final budget amounts by \$1.1 million, and actual expenditures were \$3.1 million less than final budget amounts. Highlights of the comparison of final budget to actual figures include the following:

- Other local taxes exceeded budget by \$1.3 million primarily due to higher than projected sales tax, vehicle license fees and strong meals tax indicating that the local economy in Winchester continues to prosper and show positive signs of growth.
- Revenues from general property taxes were \$0.3 million more than budgeted amounts mainly due to an increase in the personal property taxes.
- Intergovernmental revenues from federal sources were \$0.7 million less than budgeted amounts due to anticipated grants funds that were not approved.
- Actual combined general government, judicial administration, public safety, public works, health
  and welfare, community development, and parks, recreation and cultural, expenditures were \$1.3
  million less than budgeted amounts resulting primarily from savings in personnel costs due to
  managed position vacancies.
- Education expenditures were \$1.4 million less than budgeted amounts primarily from savings in personnel and operating costs by the Winchester Public Schools.

#### **Capital Assets and Debt Administration**

Capital assets. The City of Winchester's investment in capital assets for its governmental and business-type activities as of June 30, 2019, amounts to \$275.1 million net of depreciation, which represents an increase of \$14.0 million, or 5.4% over the prior year. This investment includes land, buildings, improvements, water and sewer distribution systems, roads and bridges, and machinery and equipment. More detailed information regarding the City's capital assets can be found in Note 7 to the financial statements.

Major capital asset events during the fiscal year included the following:

- Renovation of Rouss City Hall to improve available office spaces and replace the HVAC system totaled \$4.8 million
- Road extension of Crossover Boulevard totaled \$1.8 million
- Downtown safety improvement project totaled \$0.3 million.
- Replacement of public safety and public works equipment totaled \$1.4 million.
- Replacement of water meters throughout the City totaled \$7.6 million.

#### **Capital Assets and Debt Administration** (Continued)

Table 3 summarizes the City's capital assets as of June 30, 2018 and 2019.

**Long-term debt.** As shown in Table 4, the City of Winchester had total debt outstanding of \$208.8 million, for the fiscal year ended June 30, 2019, a decrease of \$12.9 million from the fiscal year ended June 30, 2018. This entire amount is backed by the full faith and credit of the City, with \$130.4 million of the total being repaid by the City's business-type activities.

For the fiscal year ended June 30, 2019, the City retired \$8.7 million of outstanding general obligation bond principal due to the scheduled retirement of principal. The business-type activities obligations payable amount decreased by \$1.1 million and the revenue bonds payable amount decreased by \$3.1 million. The City's Water and Sewer Fund will be issuing new revenue bonds in FY 2020 in the amount of \$9.4 million to continue with planned upgrades to the City's aging water and sewer system. Projects include water meter replacements, water line replacements, water storage tank replacements, upgrades to the Percy D. Miller Water Treatment plant, and a new Maintenance Facility. More detailed information regarding the City's long-term debt can be found in Note 9 to the financial statements.

#### **Capital Assets and Debt Administration** (Continued)

The City's General Obligation Bonds have been rated AAA by Standard & Poor's Corporation, Aa2 by Moody's Investors Service, and AA+ from Fitch Ratings. The legal debt margin of the City is 10% of the total assessed valuation of the real estate within the City, which is subject to local taxation. The limitation complies with Article VII, Section 10(a) of the Constitution of Virginia, 1971, and Section 15.1-176 of the Code of Virginia, 1950, which defines the limitation on outstanding indebtedness that may be incurred by cities. Based on 10% of the assessed value of real property, the City of Winchester's legal debt limit is \$321 million. As of June 30, 2019, the City of Winchester's total debt applicable to the limitation totaled \$85.8 million, leaving a legal debt margin of \$235.4 million.

#### **Economic Factors and Next Year's Budgets and Rates**

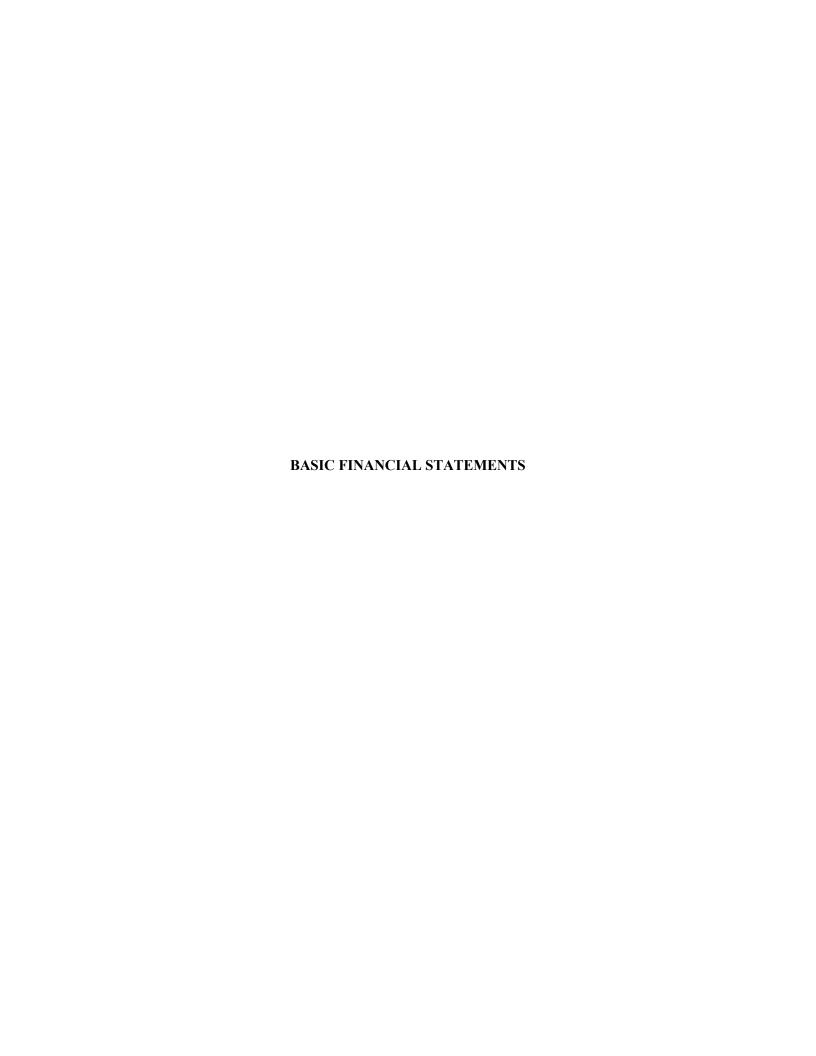

- The City of Winchester uses a robust strategic planning process to identify and address significant community issues. The process involves both the City Council and staff working together to create and update the plan. The 2016 2028 strategic plan includes the City's Vision 2028, the City's work plan through 2020, and the City's mission statement. City Council developed the following four main goals during the planning process: encourage sustainable growth and partnerships through business and workforce development; promote and accelerate revitalization of target areas throughout the city; advance the quality of life for all Winchester residents by increasing cultural, recreational and tourism opportunities; enhance and maintain infrastructure; and promote and improve public safety; and improve City services and advance the strategic plan goals by promoting a culture of transparency, efficiency and innovation. The City has embraced these goals and Council and staff work together to forward these goals.
- The City has adopted storm water regulations to comply with federal and state mandates related primarily to the Chesapeake Bay initiatives that are intended to improve water quality in the Bay. These regulations will become more stringent in the next 10 years and will require the City to undertake additional activities related to storm water management. One of these requirements is that the City must accurately map the storm water system. This effort is progressing and should be completed within the next two years. City staff is also planning for potential storm water infrastructure projects that may be necessary to meet the new regulations.
- Due to the need to continue to replace aging water and sewer infrastructure, the City completed a comprehensive analysis of the existing utility rates. Based on this analysis and the 5-year capital improvement plan to complete approximately \$50 million of capital improvements for the utility system, City Council adopted a series of water and sewer rate increases that began on July 1, 2018. Annual increases will take effect on July 1 of each year until 2022. By 2023, it is anticipated that approximately \$5 million in cash revenue will be generated each year that will be dedicated to replacing old water and sewer infrastructure and will significantly lower the need to borrow funds for this purpose.
- The City of Winchester reassesses real property every two years; the next reassessment is effective January 1, 2021. The 2019 reassessment resulted in a 3.4% increase in taxable real property values. Based on current trends, the 2021 overall assessment values are projected to show modest growth over 2019 values.
- For the month of June 2019, the City's unemployment rate was 2.8%, compared to the State's 2.9% and the Federal rate of 3.8%.

#### **Economic Factors and Next Year's Budgets and Rates (Continued)**

- The approved \$93.9 million FY 2020 General Fund budget includes the use of \$2.1 million of unassigned fund balance for one-time capital improvement project, including sidewalks and road improvements. The FY 2020 budget also includes funding for a 3% cost of living increase (\$0.7 million) for employees; an increase in employee health insurance premiums (\$0.5 million); and an increase (\$0.4 million) contribution to the Winchester Public Schools.
- The FY 2020 budget includes a real property tax increase of \$0.2 cents per 100 of assessed value which, in conjunction with increased assessment values from the 2019 general reassessment of real property, is expected to generate \$960,000 in new revenue. In addition, the cigarette tax was increased from \$0.35 cents per pack to \$0.50 cents per pack, an increase of \$0.15 cents, which is projected to generate an additional \$150,000.
- The FY 2020 Budget includes funding for an analysis of the City's Fire and Rescue operations. It is anticipated that the study will provide recommendations on service levels and identify efficiencies for improving services to the community.
- The City is planning to issue \$16.5 million in new general obligation debt in FY 2020 for school projects (\$10.5 million), building improvements (\$2.4 million) and infrastructure improvements (\$3.6 million).

#### **Contacting the City's Financial Management**

This financial report is designed to provide citizens, taxpayers, customers, investors, and creditors with a general overview of the City's finances and to demonstrate the City's accountability for the funds it receives. If you have questions about this report or need additional financial information, contact the Chief Financial Officer, City of Winchester, 15 N. Cameron Street, Winchester

### CITY OF WINCHESTER, VIRGINIA RECONCILIATION OF THE STATEMENT OF REVENUES,

### EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS $% \left( \mathcal{L}\right) =\left( \mathcal{L}\right) \left( \mathcal{L$

### TO THE STATEMENT OF ACTIVITIES

For the Year Ended June 30, 2019

Exhibit 5

Net change in fund balances - total governmental funds (Exhibit 4)		\$	(1,951,408)
Amounts reported for governmental activities in the Statement of Activities (Exhibit 2) are different because:			, , ,
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays,			
\$6,919,812, exceeded depreciation, \$5,461,576, in the current period.			1,458,236
Donations of capital assets increase net position in the statement of activities, but do not appear in the governmental funds because they are not financial resources.			175,000
In the Statement of Activities, only the <i>gain or loss</i> on the sale of capital assets is reported, whereas in the governmental funds, the entire proceeds from the sale increase financial resources. Thus, the change in net position differs from the change in fund balances by the <i>cost</i> of the property sold.			(19,104)
			(19,104)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.			553,439
Governmental funds report pension contributions as expenditures. However, in the Statement of Activities, the cost of pension benefits earned net of employee contributions is reported as pension expense.			
Employer pension contributions	5	1,855,501	1 069 049
Pension expense		112,547	1,968,048
Governmental funds report other postemployment benefit contributions as expenditures.  However, in the Statement of Activities, the cost of other postemployment benefits earned net of employee contributions is reported as other postemployment benefit expense.			
Employer other postemployment benefit contributions Other postemployment benefit expense		254,756 (52,296)	202,460
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities.			
Principal repayments			7,488,901
Issuance of bonds Amortization of issuance premium			(1,000,000) 966,390
Amortization of deferred charge on refunding			(747,377)
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.			
Compensated absences			(64,906)
Accrued interest			114,313
Internal service funds are used by management to charge the costs of supplies, employee benefits, and risk management to individual funds. The net revenue (expense) of internal service funds is allocated between governmental and business-type activities in the			
Statement of Activities.			
Net revenue (expense) of internal service funds Allocation of net revenue (expense) to business-type activities			(296,673) 20,615
Change in net position of governmental activities		<u>\$</u>	8,867,934

### NOTES TO FINANCIAL STATEMENTS June 30, 2019

#### Note 1. Summary of Significant Accounting Policies

#### **Reporting Entity**

The City of Winchester, Virginia (the "City") was incorporated in 1752 and organized under the Council-Manager form of government. The City is governed by an elected mayor and an eight-member council. The accompanying financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the government.

#### Discretely Presented Component Units:

The City of Winchester School Board was created as a separate legal entity by the City to oversee the operations and management of its publicly funded primary and secondary schools. All members of the School Board are appointed by City Council, and the City has the ability to impose its will upon the Board. In addition, because the School Board does not have taxing powers, the School Board is fiscally dependent upon the City to provide significant funding to operate the public schools. The School Board must also obtain the City's approval for debt issuances.

The Winchester Parking Authority was created by the City for the purpose of planning and fostering the development of off-street parking facilities. The City appoints all members of the Authority and is able to impose its will on the Authority. The City is financially accountable for the Authority because the City approves the Authority's budget, levies taxes (if necessary) and must approve any debt issuances.

Separate financial statements of these component units are not available.

#### Joint Ventures:

The Frederick-Winchester Service Authority was created by the City and County of Frederick to provide for administration, planning, and design of regional wastewater facilities for the participating jurisdictions. The City appoints a majority of the voting members of the Authority but has no equity interest in the venture. The Authority is able to meet its operating and other costs from charges for services. The City has certain long-term obligations with the Authority that are described further in Note 9. Separate financial statements for this joint venture may be obtained at the entity's administrative offices at P.O. Box 43, Winchester, Virginia 22604.

The Winchester Regional Airport Authority was created by the City and the Counties of Frederick, Clarke, Warren, and Shenandoah to operate a regional airport facility. The City appoints less than a majority of Authority members and participating jurisdictions have no equity interest in the venture. The participants normally must subsidize operations and capital needs. During 2019, the City provided total support of \$121,207. Separate financial statements for this joint venture may be obtained at the entity's administrative offices at 491 Airport Road, Winchester, Virginia 22602.

### NOTES TO FINANCIAL STATEMENTS June 30, 2019

#### **Note 1. Summary of Significant Accounting Policies (Continued)**

#### **Reporting Entity (Continued)**

Joint Ventures (Continued):

The Northwestern Juvenile Detention Center Commission was created by the City of Winchester and the Counties of Clarke, Frederick, Page, Shenandoah, and Warren to provide for the operation of a regional juvenile detention center for the use of the participating jurisdictions. The City serves as fiscal agent for the Commission and appoints a majority of the voting members of the Commission, but has no equity interest in the venture. The participants must subsidize operations and capital needs. During 2019, the City provided total support of \$507,719. Separate financial statements for this joint venture may be obtained at the entity's administrative offices at 145 Fort Collier Road, Winchester, Virginia 22603.

The Northwestern Regional Jail Authority was created by the City of Winchester and the Counties of Clarke, Frederick, and Fauquier to govern the operations of the Northwestern Regional Adult Detention Center. Each participating jurisdiction appoints three members to the Authority's board. The participants must subsidize operations and capital needs. During 2019, the City provided total support of \$4,840,879. Separate financial statements for this joint venture may be obtained at the entity's administrative offices at 141 Fort Collier Road, Winchester, Virginia 22603.

#### Other Related Organizations:

The Economic Development Authority of the City of Winchester was created by Council resolution to promote industry and trade within the City. A board of seven directors appointed by the City Council governs the Authority; however, the City's accountability does not extend beyond making the appointments. Separate financial statements for this related organization may be obtained at the entity's administrative offices at 15 North Cameron Street, Winchester, Virginia 22601.

The Handley Regional Library Board was created by the City and the Counties of Frederick and Clarke to operate a regional library. Although the City appoints a majority of the Board members, its accountability does not extend beyond making the appointments. The participating localities have no equity interest in the library; however, the City provided \$419,020 to the Board for operating support for 2019. Separate financial statements for this related organization may be obtained at the entity's administrative offices at 100 West Piccadilly Street, Winchester, VA 22601.

#### **Government-Wide and Fund Financial Statements**

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component units. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

### NOTES TO FINANCIAL STATEMENTS June 30, 2019

#### **Note 1. Summary of Significant Accounting Policies (Continued)**

#### **Government-Wide and Fund Financial Statements (Continued)**

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

#### Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements, with the exception of agency fund financial statements, which have no measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Accordingly, real and personal property taxes are recorded as revenues and receivables when billed, net of allowances for uncollectible amounts. Property taxes not collected within 45 days after year-end are reflected as unavailable revenues. Sales and utility taxes, which are collected by the state or utilities and subsequently remitted to the City, are recognized as revenues and receivables upon collection by the state or utility, which is generally in the month preceding receipt by the City.

### NOTES TO FINANCIAL STATEMENTS June 30, 2019

#### Note 1. Summary of Significant Accounting Policies (Continued)

#### Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Licenses, permits, fines, and rents are recorded as revenues when received. Intergovernmental revenues, consisting primarily of federal, state and other grants for the purpose of funding specific expenditures, are recognized when earned or at the time of the specific expenditure. Revenues from general-purpose grants are recognized in the period to which the grant applies. All other revenue items are considered to be measurable and available only when the government receives cash.

Governmental funds account for the expendable financial resources, other than those accounted for in proprietary and fiduciary funds. The governmental funds use the modified accrual basis of accounting where the measurement focus is upon determination of financial position and changes in financial position, rather than on net income determination as would apply to a commercial enterprise. The City reports the following governmental funds:

The *General Fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund. The General Fund is considered a major fund for financial reporting purposes.

The *Capital Improvements Fund* accounts for financial resources to be used for the acquisition or construction of major capital facilities, other than those financed by proprietary funds. The Capital Improvements Fund is considered a major fund for financial reporting purposes.

Special Revenue Funds account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted to expenditures for specified purposes. Special revenue funds consist of the Social Services Fund, Highway Maintenance Fund, Emergency Medical Services Fund, Winchester-Frederick County Convention and Visitors Bureau Fund, Law Library Fund, and Transit Fund.

*Proprietary funds* account for operations that are financed in a manner similar to private business enterprises. The proprietary funds utilize the accrual basis of accounting where the measurement focus is upon determination of net income. Proprietary funds consist of enterprise and internal service funds. The government reports the following proprietary funds:

Enterprise Funds account for operations where the intent of the City is that the cost of provided services to the general public be financed and recovered through user charges. Enterprise funds consist of the Water and Sewer Fund, which accounts for the operation of the City's water distribution system and sewage collection system and is considered a major fund for financial reporting purposes.

Internal Service Funds account for employee benefits and equipment inventory provided to other departments or agencies of the government, or to other governments, on a cost reimbursement basis. Internal service funds consist of the Employee Benefits Fund and Equipment Operating Fund.

### NOTES TO FINANCIAL STATEMENTS June 30, 2019

#### **Note 1. Summary of Significant Accounting Policies (Continued)**

#### Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Fiduciary funds account for assets held by the government in a trustee capacity or as agent or custodian for individuals, private organizations, other governmental units, or other funds. These funds include the other postemployment benefits trust fund and agency funds. Fiduciary funds utilize the accrual basis of accounting as described in the proprietary funds presentation. Agency funds reported by the City include the Special Welfare Fund, Northwestern Regional Jail Authority Construction Fund, and the Northwestern Regional Juvenile Detention Center Fund. These funds account for assets held by the City for social services clients, regional jail construction, and a regional juvenile detention center.

As a general rule, the effect of inter-fund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the government's water and sewer function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the water and sewer fund, transit service fund, and internal service funds are charges to customers for sales and services. The water and sewer fund also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting the operating definition are reported as non-operating revenues and expenses.

### <u>Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position/Fund Balance</u>

Deposits and Investments

The government's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

State statues authorize the government to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds, repurchase agreements, and the State Treasurer's Investment Pool.

Investments for the government, as well as for its component units, are reported at fair value. The State Treasurer's Investment Pool operates in accordance with appropriate state laws and regulations. The reported value of the pool approximates the fair value of the pool shares.

### NOTES TO FINANCIAL STATEMENTS June 30, 2019

#### Note 1. Summary of Significant Accounting Policies (Continued)

### <u>Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position/Fund Balance</u> (Continued)

Receivables and Payables

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of inter-fund loans) or "advances to/from other funds" (i.e., the non-current portion of inter-fund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Notes Receivable

The City participates in a "Private Property Rehabilitation Program" funded under a Community Development Block Grant by the Department of Housing and Urban Development. The majority of the funding represents deferred loans payable at maturity date or on change of home ownership, whichever occurs first. The City maintains a security interest in the property. Interest rates on the loans range from non-interest bearing to eight percent.

Property Taxes

Property is assessed at its value on January 1. Property taxes attach as an enforceable lien on property as of January 1. Taxes are payable in two installments on June 20 and December 5. The City bills and collects its own taxes. The City's real estate and business-related personal property taxes are levied each calendar year on all taxable property located in the City, and are accounted for in the General fund. Therefore, real estate and business-related personal property taxes that are due within the current fiscal year and collected within 45 days subsequent to year-end are recorded as revenue.

Levy Date January 1

Due Date June 20/December 5

Property Taxes - Motor Vehicles

The City employs three prorated billing/assessment methodologies for personal property taxes on motor vehicles. Vehicles added to the tax roll prior to 1994 are assessed as of January 1 with taxes due in one installment on December 5. For vehicles added to the tax roll 1994 – 2018, property is assessed on a twelvemonth cycle based on the date which a vehicle gains situs in the City, using its value as of the starting month and year of the vehicle's twelve-month billing cycle and with taxes due in one installment thirty days after the cycle ends. Vehicles added to the tax roll 2019-present (or by taxpayer option) follow a calendar year tax cycle with property assessed as of January 1 and semi-annual payment options due April 5 and October 5. The City bills and collects its own taxes, which attach as a lien on the property. These taxes are accounted for in the General Fund.

## NOTES TO FINANCIAL STATEMENTS June 30, 2019

#### **Note 1. Summary of Significant Accounting Policies (Continued)**

#### <u>Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and</u> Net Position/Fund Balance (Continued)

Allowance for Uncollectible Accounts

The City calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance at June 30, 2019 consisted of the following:

General Fund (property taxes, penalties, and interest)	\$ 1,464,586
Emergency Medical Service Fund	246,111
Water and Sewer Fund	 359,163
	\$ 2,069,860

#### Inventories and Prepaid Items

Inventories are valued at cost using the first-in/first-out (FIFO) method. Inventories in the enterprise and internal service funds consist of expendable supplies held for consumption and are accounted for under the consumption method. The cost is recorded as an expense at the time the individual inventory items are used.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements using the consumption method.

#### Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. The City defines capital assets as assets with an initial, individual cost of more than \$10,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. No interest was capitalized during the current year.

Property, plant, and equipment, is depreciated using the straight line method over the following estimated useful lives:

	Years
Buildings	25-50
Improvements other than buildings	10-65
Infrastructure	10-65
Machinery and equipment	5-30

### NOTES TO FINANCIAL STATEMENTS June 30, 2019

#### Note 1. Summary of Significant Accounting Policies (Continued)

## <u>Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position/Fund Balance</u> (Continued)

#### Compensated Absences

City employees earn vacation at a rate of 8 to 14 hours per month, depending on years of service. Sick leave is earned at the rate of 8 hours per month. Benefits or pay is received for unused sick leave upon termination at 25% of its carrying value to a maximum of \$5,000 per employee after five years of credited service. Accumulated vacation up to forty-two days is paid upon termination.

Employees of the School Board, who retire under the Virginia Retirement System, and have been employed by the School Board for the immediately preceding ten consecutive years prior to retirement in a full-time position receive \$50 a day for any unused sick leave up to a maximum of 90 days. All employees who are classified as full-time twelve-month employees are entitled to annual leave and shall be paid per diem upon retirement or termination (based on their final annual salary) for their unused annual leave.

All vacation and sick pay currently payable is accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

#### Long-term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are recognized as an expense in the period incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face value of the debt issued plus premium is reported as other financing sources. Discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

#### School Board Debt/Capital Asset Reporting

The City issues debt to finance the construction of school facilities because the School Board does not have borrowing or taxing authority. The City reports this debt, whereas the School Board reports the related capital assets. As a result, in the Statement of Net Position (Exhibit 1), the school related debt reduces *unrestricted net position* for the primary government, while the capital assets are reported in *net investment in capital assets* for the School Board

### NOTES TO FINANCIAL STATEMENTS June 30, 2019

#### Note 1. Summary of Significant Accounting Policies (Continued)

### <u>Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position/Fund Balance (Continued)</u>

Pensions and Other Postemployment Benefits (OPEB)

For purposes of measuring all financial statement elements related to pension and OPEB plans, information about the fiduciary net position of the City and Schools' Plans and the additions to/deductions from the City and Schools' Plan's net fiduciary position have been determined on the same basis as they were reported by the Virginia Retirement System (VRS). For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Deferred Outflows and Inflows of Resources

In addition to assets, the statement which presents financial position reports a separate section for deferred outflows of resources. These items represent a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense) until then.

In addition to liabilities, the statement which presents financial position reports a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time.

- Deferred charge on refunding. A deferred loss on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. Due to the relationship with outstanding debt, these deferred outflows are included in the calculation of net position, net investment in capital assets.
- Contributions subsequent to the measurement date for pensions and OPEB; these will be applied to the net pension or OPEB liability in the next fiscal year.
- Differences between projected and actual earnings on pension and OPEB plan investments. These differences will be recognized in pension or OPEB expense over the closed five year period and may be reported as a deferred outflow or inflow as appropriate.
- Changes in proportion and differences between employer contributions and the proportionate share of employer contributions, resulting from participation in cost-sharing pension and OPEB plans, are reported as deferred outflows or inflows as appropriate.
- Property taxes collected in advance of the period for which they were levied. These amounts are recognized as revenue in the period for which they were levied.
- Governmental funds report unavailable revenue from property taxes and other receivables not collected within the availability period. These amounts are recognized as an inflow of resources in the period they become available.

### NOTES TO FINANCIAL STATEMENTS June 30, 2019

#### **Note 1. Summary of Significant Accounting Policies (Continued)**

### Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position/Fund Balance (Continued)

Deferred Outflows and Inflows of Resources (Continued)

Differences between expected and actual experience for economic/demographic factors and changes
of assumptions in the measurement of the total pension or OPEB liability. This difference will be
recognized in pension or OPEB expense over the expected average remaining service life of all
employees provided with benefits in the plan and may be reported as a deferred inflow or outflow as
appropriate.

#### Fund Balances

Fund balance is divided into five classifications based primarily on the extent to which the City is bound to observe constraints imposed upon the use of the resources in the governmental funds.

The classifications are as follows:

- Nonspendable Amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of interfund loans.
- **Restricted** Amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.
- Committed Amounts can only be used for specific purposes pursuant to constraints imposed by formal action of the City Council through adoption of a resolution. Only City Council may modify or rescind the commitment.
- **Assigned** Amounts are constrained by intent to be used for specific purposes but are neither restricted nor committed. Assignments are made by City management based on City Council direction through adoption or amendment of the budget or through ordinance or resolution.
- Unassigned Amounts that are available for any purpose; positive amounts are reported only in the general fund.

The City applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

### NOTES TO FINANCIAL STATEMENTS June 30, 2019

#### Note 1. Summary of Significant Accounting Policies (Continued)

# Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position/Fund Balance (Continued)

Minimum Fund Balance Policy

The General Fund reserve target is 20% of the fund's prior year actual expenditures less capital outlays funded with bond proceeds. For the purpose of determining if the target has been met, the unassigned fund balance of the General Fund is compared with prior year actual expenditures.

Other governmental funds of the City do not have specified fund balance targets. Recommended levels of committed and/or assigned fund balance will be determined on a case by case basis, based on the needs of each fund and as recommended by officials and approved by Council.

Net Position

Net position is the difference between assets, deferred outflows of resources, liabilities and deferred inflows of resources. Net investment in capital assets represent capital assets, less accumulated depreciation less any outstanding debt related to the acquisition, construction or improvement of those assets.

#### Fair Value Measurement

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

#### **Use of Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

#### Note 2. Stewardship, Compliance, and Accountability

#### **Budgetary Information**

The following procedures are used by the City in establishing the budgetary data reflected in the financial statements:

1. Prior to March 30, the City Manager submits to Council a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them.

### NOTES TO FINANCIAL STATEMENTS June 30, 2019

#### Note 2. Stewardship, Compliance, and Accountability (Continued)

#### **Budgetary Information (Continued)**

- 2. Public hearings are conducted to obtain citizen comments.
- 3. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution. Appropriated annual budgets are adopted for the General, Special Revenue, and Capital Improvements Funds of the primary government and School Board.
- 4. The Appropriations Resolution is adopted at the fund, function, and department level and places legal restrictions on expenditures at the department level. The appropriation for each department can be revised only by the Council. The City Manager is authorized to transfer budgeted amounts within general government departments; however, the School Board is authorized to transfer budgeted amounts within the school system's departmental categories.
- 5. Formal budgetary integration is employed as a management control device during the year for the general fund, special revenue funds and the capital improvements funds. The Discretely Presented Component Unit School Board is integrated only at the level of legal adoption.
- 6. All budgets are adopted on a basis substantially consistent with generally accepted accounting principles (GAAP), with the exception of appropriations of prior fund balance, which are treated as revenue sources on the budgetary basis.
- 7. Appropriations lapse on June 30 for all City funds.
- 8. All budget data presented in the accompanying financial statements is the appropriated budget as of June 30, as amended. The City required budget amendments during the year, which increased total appropriations in the General Fund by \$2,514,628.

#### Note 3. Deposits and Investments

#### **Deposits**

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act") section 2.2-4400 et. seq. of the Code of Virginia. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial Institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized. For the purposes of this disclosure, deposits include cash and cash equivalents as well as nonnegotiable certificates of deposit with original maturities of more than three months.

# NOTES TO FINANCIAL STATEMENTS June 30, 2019

### Note 3. Deposits and Investments (Continued)

#### **Investments**

As of June 30, the City's deposits and investments consisted of the following:

Туре	Fair Value	S & P Credit Rating	Weighted Average Maturity*
Investments – Level 1:

### NOTES TO FINANCIAL STATEMENTS June 30, 2019

#### Note 3. Deposits and Investments (Continued)

#### **Investments (Continued)**

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. Level 2 investments are valued using a matrix pricing technique, which is based on the investments' benchmark quoted prices.

Neither LGIP nor SNAP are registered with the SEC, but are overseen by the Treasurer of Virginia and the State Treasury Board. The value of the City's position in the pools is the same as the value of the pool shares and is stated at amortized cost in accordance with GASB Statement No. 79, which approximates fair value.

The City has no investment policy that would further limit its investment choices.

The City's investments are subject to credit risk, concentration of credit risk, and interest rate risk as described below. The City's investments are not subject to custodial risk or foreign currency risk.

Credit Risk - Statutes authorize the City to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper and certain corporate notes, bankers acceptances, repurchase agreements, mutual funds, the State Treasurer's Local Government Investment Pool (LGIP), and the State Non-Arbitrage Program (SNAP).

Concentration of Credit Risk - The City held investments at June 30 issued by the Federal Home Loan Mortgage Corporation totaling approximately 4.49% of all investments. These investments were not considered by management to represent a risk to the City.

Interest Rate Risk - The primary goal of the investment policy is to maximize return on investment while minimizing risk to the investment. The City will diversify use of investment instruments to avoid incurring unreasonable risks inherent in over investing in specific instruments, individual financial institutions or maturities. The City may reject an investment with a higher yield when it is felt it carries an element of risk. Speculative investments will not be allowed. If a specific maturity date is required, either for cash flows purposes or for conformance to maturity guidelines, bids will be requested for instruments, which meet the maturity requirement. If no specific maturity is required, a yield curve analysis will be conducted to determine which maturities would be most advantageous.

Communication tax	289,290		-
Other federal and state funds	 325,641		
Total due from federal and state sources	 4,063,648		2,860,557
Frederick County:			
Joint Judicial Center – debt service	1,575,094		-
Joint Judicial Center – operating expenses	119,132		-
Other receivables	 71,268	-	-
Total due from other governments	\$ 5,829,142	\$	2,860,557

### NOTES TO FINANCIAL STATEMENTS June 30, 2019

#### Note 5. Promises to Give

Unconditional promises to give reported by the School Board for the Handley Capital Project, scholarships, and other educational programs at June 30 are as follows:

Receivable in less than one year	\$ 101,804
Receivable in one to five years	308,333
Receivable in five to ten years	 125,253
Total unconditional promises to give	535,390
Less discounts to present value	 (97,294)
Net unconditional promises to give	\$ 438,096

The discount rate used on long-term promises to give is 5%. Amounts above are net of uncollectable amounts.

#### Note 6. Interfund Receivables, Payables, and Transfers

Inter-fund balances at June 30, consisted of the following:

#### **Primary Government**

Due to general fund from:

Non-major governmental funds \$ 585,000

Component Unit - School Board

Due to school operating fund from:

Federal grants fund <u>\$ 122,963</u>

Interfund receivables and payables are generally used by the City and School Board to cover temporary cash deficits in individual funds until grant or similar resources are received.

Inter-fund transfers for the year ended June 30, consisted of the following:

#### **Primary Government**

Transfers to general fund from:

Employee benefits fund	\$ 124,000
Water and sewer fund	 1,400,000
Total transfers to general fund	\$ 1,524,000

Transfers to capital improvements fund from:

General fund \$ 1,223,541

Transfers to non-major governmental funds from:

General fund \$ 4,168,392

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, (2) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations, including amounts provided as subsidies or matching funds for various grant programs, (3) close the residual balances of certain funds into other funds.

# NOTES TO FINANCIAL STATEMENTS June 30, 2019

## Note 7. Capital Assets (Continued)

#### **Primary Government (Continued)**

#### Frederick-Winchester Service Authority (FWSA) treatment plant rights:

The City and the FWSA have entered into agreements for the City to benefit from a certain wastewater treatment plant of the FWSA. The City is not authorized to hold legal title to the plant; thus FWSA holds title to these assets. Through long-term contracts, the risks and benefits of operating and maintaining the assets have been transferred to the City, and thus represent intangible capital assets. The City is responsible for a portion of the debt incurred for these facilities.

#### **Construction Commitments:**

The City and School Board have active construction projects related to various items. At year end, the City's and School Board's commitments with contractors on the projects are as follows:

	 Total Contracts		Total Payments	Future Amounts to be Expended
Primary Government				
City Hall Renovations	\$ 3,524,794	\$	3,415,700	\$ 109,094

# NOTES TO FINANCIAL STATEMENTS June 30, 2019

#### Note 9. Long-Term Debt (Continued)

#### **Primary Government (Continued)**

### Frederick-Winchester Service Authority (FWSA) treatment plant rights

During 2008 and 2009, the FWSA in conjunction with the participating entities decided to expand the Opequon Water Reclamation Facility. The FWSA has issued debt to finance this project. During 2011, this project was completed and the City assumed responsibility for partial debt service of this plant.

In November 2013, the City, along with the FWSA, the County of Frederick, and the Frederick County Sanitation Authority, approved the Green Energy Project (the "Project") for the purpose of implementing a series of capacity and efficiency improvements to the Opequon Water Reclamation Facility. To finance this project, the FWSA authorized the issuance of \$53,000,000 in bonds. In late fiscal year 2017, the Project began accepting waste. The City has assumed responsibility for a portion of the related debt service in the approximate amount of \$25,092,500.

### **Prior Defeasance of Debt**

The City defeased certain outstanding general obligation and revenue bonds payable in prior years. The proceeds were placed in trust to fund all future debt service payments. Accordingly, the trust account assets and liabilities for the defeased bonds are not included in the City's financial statements. At June 30, 2019, the following bonds are considered defeased:

	Beginning Balance	Iı	ncreases	_ ]	Decreases		Ending Balance
\$	4,335,000 16,650,000	\$	- -	\$	(355,000)	\$	3,980,000 16,650,000

	\$ '	7,070,600	\$	2,722,123				

### Note 10. Contingent Liabilities and Commitments

Federal programs in which the City participates were audited in accordance with provisions of the *Uniform Guidance*. Pursuant to the provisions of this document, all major programs were tested for compliance with applicable grant requirements. While no matters of material noncompliance were disclosed by audit, the Federal government may subject grant programs to additional compliance tests, which may result in disallowed expenditures. In the opinion of management, any future disallowances of current grant program expenditures, if any, would be immaterial.

The City is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the City's counsel, the resolution of these matters will not have a material adverse effect on the financial condition of the government.

# NOTES TO FINANCIAL STATEMENTS June 30, 2019

#### Note 11. Defined Benefit Pension Plan

### **Plan Description**

All full-time, salaried permanent employees of the City, (the "Political Subdivision") are automatically covered by the VRS Retirement Plan upon employment. This multi-employer agent plan is administered by the Virginia Retirement System (the System) along with plans for other employer groups in the Commonwealth of Virginia. Members earn one month of service credit for each month they are employed and for which they and their employer pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria as defined in the *Code of Virginia*, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously refunded service.

The System administers three different benefit structures for covered employees – Plan 1, Plan 2, and Hybrid. Each of these benefit structures has a different eligibility criteria. The specific information for each plan and the eligibility for covered groups within each plan are available at

- https://www.varetire.org/members/benefits/defined-benefit/plan1.asp,
- https://www.varetire.org/members/benefits/defined-benefit/plan2.asp,
- <a href="https://www.varetirement.org/hybrid.html">https://www.varetirement.org/hybrid.html</a>.

#### **Employees Covered by Benefit Terms**

As of the June 30, 2017 actuarial valuation, the following employees were covered by the benefit terms of the pension plan:

	City	WPA	School Non- Professional
Inactive members or their beneficiaries currently receiving benefits	254	2	43
Inactive members:			
Vested inactive members	73	-	7
Non-vested inactive members Inactive members active elsewhere	124	1	16
in VRS	172	1	10
Total inactive members	369	2	33
Active members	448	3	88
Total covered employees	1,071	7	164

# NOTES TO FINANCIAL STATEMENTS June 30, 2019

#### Note 11. Defined Benefit Pension Plan (Continued)

#### **Contributions**

The contribution requirement for active employees is governed by §51.1-145 of the Code of Virginia, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement.

The City and WPA's contractually required contribution rate for the year ended June 30, 2019 was 8.63% of covered employee compensation. The School Board Non-Professional Employee Plan's contractually required contribution rate for the year ended June 30, 2019 was 5.45% of covered employee compensation. These rates were based on actuarially determined rates from actuarial valuations as of June 30, 2017.

These rates, when combined with employee contributions, were expected to finance the costs of benefits earned by employees during the year, with additional amounts to finance any unfunded accrued liability. Contributions to the pension plan from the City were \$2,050,654 and \$2,067,928 for the years ended June 30, 2019 and June 30, 2018, respectively. Contributions to the pension plan from the WPA were \$13,165 and \$18,286 for the years ended June 30, 2019 and June 30, 2018, respectively. Contributions to the pension plan from School Board Non-Professional Employee Plan were \$127,729 and \$141,361 for the years ended June 30, 2019 and June 30, 2018, respectively.

#### **Net Pension Liability**

The net pension liability is calculated separately for each employer and represents that particular employer's total pension liability determined in accordance with GASB Statement No. 68, less that employer's fiduciary net position. For political subdivisions, the net pension liability was measured as of June 30, 2018. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of June 30, 2017 rolled forward to the measurement date of June 30, 2018.

### **Actuarial Assumptions**

The total pension liability for General Employees in the Political Subdivision's Retirement Plan was based on an actuarial valuation as of June 30, 2017, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2018.

# NOTES TO FINANCIAL STATEMENTS June 30, 2019

#### Note 11. Defined Benefit Pension Plan (Continued)

### **Actuarial Assumptions (Continued)**

Inflation 2.50%

General Employees - Salary increases, including inflation

3.50 - 5.35%

Public Safety Employees with hazardous duty benefits - Salary increases, including inflation

3.50 - 4.75%

Investment rate of return

7.00%, net of pension plan investment expense, including inflation\*

\* Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment rate for GASB purposes of slightly more than the assumed 7.0%. However, since the difference was minimal, and a more conservative 7.0% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 7.0% to simplify preparation of pension liabilities.

Mortality rates: General employees – 15 to 20% of deaths are assumed to be service related. Public Safety Employees – 70% of deaths are assumed to be service related. Mortality is projected using the applicable RP-2014 Mortality Table Projected to 2020 with various set backs or set forwards for both males and females.

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study for the period from July 1, 2012 through June 30, 2016. Changes to the actuarial assumptions as a result of the experience study are as follows:

General Employees – Largest 10 – Non-Hazardous Duty and All Others (Non 10 Largest): Update mortality table; lowered retirement rates at older ages, changed final retirement from 70 to 75; lowered disability rates, no change to salary scale, increased rate of line of duty disability from 14% to 20%.

Public Safety Employees – Largest 10 – Hazardous Duty and All Others (Non 10 Largest): Update mortality table; adjustment to rates of retirement by increasing rate at 50 and lowering rate at older ages; adjusted rates of withdrawal and disability to better fit experience; changes to line of duty rates, and no changes to salary scale.

# NOTES TO FINANCIAL STATEMENTS June 30, 2019

#### Note 11. Defined Benefit Pension Plan (Continued)

## **Long-Term Expected Rate of Return**

The long-term expected rate of return on pension System investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class (Strategy)	Target Allocation	Arithmetic Long-Term Expected Rate of Return	Weighted Average Long-Term Expected Rate of Return
Public Equity	40.00 %	4.54 %	1.82 %
Fixed Income	15.00	0.69	0.10
Credit Strategies	15.00	3.96	0.59
Real Assets	15.00	5.76	0.86
Private Equity	15.00	9.53	1.43
Total	100.00 %		4.80 %
	Inflation		2.50 %
*Expected arith	metic nominal return		7.30 %

<sup>\*</sup> The above allocation provides for a one-year return of 7.30%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected rate of return for the system, stochastic projections are employed to model future returns under various economic conditions. The results provide a range of returns over various time periods that ultimately provide a median return of 6.83%, including expected inflation of 2.5%.

# NOTES TO FINANCIAL STATEMENTS June 30, 2019

#### Note 11. Defined Benefit Pension Plan (Continued)

#### **Discount Rate**

The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that System member contributions will be made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Consistent with the phased-in funding provided by the General Assembly for state and teacher employer contributions, political subdivisions were also provided with an opportunity to use an alternate employer contribution rate. For the year ended June 30, 2018, the alternate rate was the employer contribution rate used in the FY 2012 or 90% of the actuarially determined employer contribution rate from the June 30, 2015, actuarial valuations, whichever is greater. From July 1, 2018 on, participating employers are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

#### Note 11. Defined Benefit Pension Plan (Continued)

## <u>Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources</u> <u>Related to Pensions (Continued)</u>

### **Pension Plan Data**

Information about the VRS Political Subdivision Retirement Plans is also available in the separately issued VRS 2018 Comprehensive Annual Financial Report (CAFR). A copy of the 2018 VRS CAFR may be downloaded from the VRS website at <a href="http://www.varetire.org/Pdf/Publications/2018-annual-report.pdf">http://www.varetire.org/Pdf/Publications/2018-annual-report.pdf</a>, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

#### Note 12. Defined Benefit Pension Plan – Teacher Cost Sharing Plan

#### General Information about the Teacher Cost Sharing Plan

#### Plan Description

All full-time, salaried permanent (professional) employees of Virginia school divisions, including Winchester City Public Schools, (the "School Division"), are automatically covered by the VRS Teacher Retirement Plan upon employment. This multiple employer, cost sharing plan is administered by the Virginia Retirement System (the System) along with plans for other employer groups in the Commonwealth of Virginia. Members earn one month of service credit for each month they are employed and for which they and their employers pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria as defined in the *Code of Virginia*, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously funded service.

The System administers three different benefit structures for covered employees in the VRS Teacher Retirement Plan – Plan 1, Plan 2, and Hybrid. The provisions and features of the plans, as well as all actuarial assumptions, are substantially the same as those described in Note 11.

#### Contributions

The contribution requirement for active employees is governed by §51.1-145 of the Code of Virginia, as amended, but may be impacted as a result of funding provided to school divisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement. Each school division's contractually required contribution rate for the year ended June 30, 2019 was 15.68% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2017. The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employee during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the school division were \$4,523,107 and \$4,713,786 for the years ended June 30, 2019 and June 30, 2018, respectively.

# NOTES TO FINANCIAL STATEMENTS June 30, 2019

#### Note 12. Defined Benefit Pension Plan – Teacher Cost Sharing Plan (Continued)

### General Information about the Teacher Cost Sharing Plan (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2019, the school division reported a liability of \$42,860,000 for its proportionate share of the Net Pension Liability. The Net Pension Liability was measured as of June 30, 2018 and the total pension liability used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date. The school division's proportion of the Net Pension Liability was based on the school division's actuarially determined employer contributions to the pension plan for the year ended June 30, 2018 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2018, the school division's proportion was 0.36% as compared to 0.37% at June 30, 2017.

For the year ended June 30, 2019, the school division recognized pension expense of \$2,689,786. Since there was a change in proportionate share between measurement dates, a portion of the pension expense was related to deferred amounts from changes in proportion and from differences between employer contributions and the proportionate share of employer contributions.

At June 30, 2019, the school division reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources		
Differences between expected and actual experience	\$	-	\$	3,665,000	
Changes of assumptions		512,000		-	
Net difference between projected and actual earnings on pension plan investments		-		909,000	
Changes in proportion and differences between employer contributions and proportionate share of contributions		454,000		1,329,000	
Employer contributions subsequent to the measurement date		4,523,107			
Total	\$	5,489,107	\$	5,903,000	

# NOTES TO FINANCIAL STATEMENTS June 30, 2019

### Note 12. Defined Benefit Pension Plan – Teacher Cost Sharing Plan (Continued)

### **General Information about the Teacher Cost Sharing Plan (Continued)**

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

The 4,523,107 reported as deferred outflows of resources related to pensions resulting from the school division's contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30,	Reduction to Pension Expense
2020	\$ (529,000)
2021	(1,164,000)
2022	(2,226,000)
2023	(795,000)
2024	(223,000)
Thereafter	-

*Net Pension Liability* 

The net pension liability (NPL) is calculated separately for each system and represents that particular system's total pension liability determined in accordance with GASB Statement No. 67, less that system's fiduciary net position. As of June 30, 2017, NPL amounts for the VRS Teacher Employee Retirement Plan is as follows (amounts expressed in thousands):

	 Teacher Employee Retirement Plan
Total Pension Liability Plan Fiduciary Net Position	\$ 46,679,555 34,919,563
Employers' Net Pension Liability (Asset)	\$ 11,759,992
Plan Fiduciary Net Position as a Percentage of the Total Pension Liability	74.81%

# NOTES TO FINANCIAL STATEMENTS June 30, 2019

#### Note 12. Defined Benefit Pension Plan – Teacher Cost Sharing Plan (Continued)

#### General Information about the Teacher Cost Sharing Plan (Continued)

Net Pension Liability (Continued)

The total pension liability is calculated by the System's actuary, and each plan's fiduciary net position is reported in the System's financial statements. The net pension liability is disclosed in accordance with the requirements of GASB Statement No. 67 in the System's notes to the financial statements and required supplementary information.

Sensitivity of the School Division's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the school division's proportionate share of the net pension liability of the school division using the discount rate of 7.00%, as well as what the school division's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00%) or one percentage point higher (8.00%) than the current rate:

	_	1.00% Decrease (6.00%)	_	Current Discount Rate (7.00%)	_	1.00% Increase (8.00%)
School division's proportionate share of the VRS Teacher Employee Retirement plan net pension liability	<u>\$</u>	65,470,000	<u>\$</u>	42,860,000	<u>\$</u>	24,145,000

#### Pension Plan Fiduciary Net Position

Detailed information about the VRS Teacher Retirement Plan's Fiduciary Net Position is available in the separately issued VRS 2018 Comprehensive Annual Financial Report (CAFR). A copy of the 2018 VRS CAFR may be downloaded from the VRS website at <a href="http://www.varetire.org/Pdf/Publications/2018-annual-report.pdf">http://www.varetire.org/Pdf/Publications/2018-annual-report.pdf</a>, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

#### Payables to the Pension Plan

At June 30, 2019, approximately \$671,000 was payable to the Virginia Retirement System for the legally required contributions related to June 2019 payroll for the Teacher Cost Sharing Plan and School Board Non-Professional Employee Plan combined.

# NOTES TO FINANCIAL STATEMENTS June 30, 2019

#### Note 13. Other Postemployment Benefits Liability – Local Plan

#### **Plan Description and Benefits Provided**

The City of Winchester administers a cost-sharing defined benefit healthcare plan (the "Retiree Health Plan"). Participating employers include the City, the WPA, the Northwestern Juvenile Detention Center Commission, and the Frederick-Winchester Service Authority. The plan provides healthcare insurance for eligible retirees and coverage ceases at age 65. Retirees under age 65 have the option of choosing three medical plans including a prescription program for retail and a mail order program. Retirees can continue the same medical coverage they had (including dependent coverage) as active employees. There is one grandfathered retiree over age 65 where their entire individual premium is subsidized for life. The plan was established under the authority of the City of Winchester's Council. Management of the plan is vested in the City's OPEB Finance Board, which is comprised of the City's CFO, Treasurer, and a citizen representative.

#### **Summary of Significant Accounting Policies**

Employer contributions to the plan are recognized when due and the City has made a formal commitment to provide the contributions. Benefits are recognized when due and payable in accordance with the terms of the plan. All plan investments are reported at fair value. Securities traded on a national exchange are valued at the last reported sales price on June 30. Securities without an established market are reported at estimated fair value.

#### **Employees Covered by Benefit Terms**

As of the July 1, 2018 actuarial valuation, the following employees were covered by the benefit terms of the plan, including City, WPA and other employers:

Inactive employees or beneficiaries:	
Currently receiving benefits	32
·	
Active plan members	528
-	
Total	560

#### **Investment Policies**

The City's policy for the allocation of invested assets is established and may be amended by the OPEB Finance Board. It is the policy of the OPEB Finance Board to ensure that assets are diversified to minimize the impact of large losses from individual investments, and to achieve a long-term level of return commensurate with contemporary economic conditions. The investment policy discourages the use of cash equivalents, except for liquidity purposes.

# NOTES TO FINANCIAL STATEMENTS June 30, 2019

## Note 13. Other Postemployment Benefits Liability – Local Plan (Continued)

#### **Contributions**

Contribution requirements are established by City Council. The required contribution is based on projected pay-as-you-go financing requirements, with an additional amount to prefund benefits as determined annually. Contributions to the OPEB plan from the City were \$394,000 for the year ended June 30, 2019.

#### **Net OPEB Liability**

At June 30, 2019, the City and WPA reported liabilities of \$2,848,667 and \$23,542, respectively for their proportionate shares of the collective net OPEB liability. The collective net OPEB liability was measured as of June 30, 2019, and the total OPEB liability used to calculate the collective net OPEB liability was determined by an actuarial valuation as of that date. The City's and WPA's proportion of the collective net OPEB liability was based on a projection of the City's and WPA's long-term share of contributions to the OPEB plan relative to the projected contributions of all participating employers actuarially determined. At June 30, 2019, the City's and WPA's proportion was 95.35 percent, which was a decrease of 0.26 from its proportion measured as of June 30, 2018 (95.61 percent).

### **Actuarial Assumptions and Other Inputs**

In the July 1, 2018 actuarial valuation, the entry age normal cost method was used. The actuarial assumptions include a 6.5% investment rate of return (net of administrative expenses), which is the expected long-term investment returns on the plan's investments calculated based on the funded level of the plan at the valuation date.

The following additional simplifying assumptions were made:

Coverage Status and Age of Spouse – Actual coverage status is used; females assumed three years younger than male spouse. Employees with individual coverage are assumed to elect individual coverage in retirement, those with spouse/family coverage assumed to continue this coverage at retirement.

*Election Rate* – 90% of actives currently enrolled in the City's health care plan will continue in the plan upon retiring or becoming disabled.

Demographic Assumptions – Demographic assumptions mirror those used for the pension plan, with adjustments made for actual experience of City employees. All employees are assumed to participate in the Virginia Retirement System.

# NOTES TO FINANCIAL STATEMENTS June 30, 2019

#### Note 13. Other Postemployment Benefits Liability – Local Plan (Continued)

*Economic Assumptions* – The medical trend assumption was changed from developed using the Society of Actuaries (SOA) Long-Run Medical Cost Trend Model and 2016 baseline assumptions. The SOA Model was released in March 2012. The following assumptions were used as input variables into this model:

-	Rate of Inflation	2.3%
•	Rate of Growth in Real Income / GDP per capita	1.6%
-	Excess Medical Cost Growth	1.4%
•	Health Share of GDP Resistance Point	25.0%
-	Year for Limiting Cost Growth to GDP Growth	2075

Payroll is assumed to increase at 2.5% per annum. This assumption is used to determine the level percentage of payroll amortization factor. Inflation is assumed to be 2.3% per annum.

#### **Long-Term Expected Rate of Return**

The long-term expected rate of return on OPEB investments was determined using an economic building block approach that projects economic and corporate profit growth and takes into consideration the fundamental factors driving long-term real economic growth, the expectation for inflation of 2.5%, productivity, and labor force growth. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class (Strategy)	Target Allocation	Arithmetic Long-Term Expected Rate of Return	Weighted Average Long- Term Expected Rate of Return
Equities	40.00 %	4.54 %	1.82 %
Fixed Income	15.00	0.69	0.10
Credit Strategies	15.00	3.96	0.59
Real Assets	15.00	5.76	0.86
Private Equity	15.00	9.53	1.43
Total	100.00 %		4.80 %
	Inflation		2.50 %

# NOTES TO FINANCIAL STATEMENTS June 30, 2019

### Note 13. Other Postemployment Benefits Liability – Local Plan (Continued)

#### **Discount Rate**

The discount rate used to measure the net OPEB liability was 6.50%. The projection of cash flows used to determine the discount rate assumed that contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total OPEB liability.

### Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liability of the political subdivision, as well as what the political subdivision's net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (5.50%) or one percentage point higher (7.50%) than the current discount rate:

	 1.00% Decrease (5.50%)	]	Current Discount Rate (6.50%)	 1.00% Increase (7.50%)
Net OPEB liability – City	\$ 3,650,880	\$	2,848,667	\$ 2,147,778
Net OPEB liability – WPA	30,172		23,542	17,750
Net OPEB liability – Other Employers	179,516		140,071	105,608
Total	\$ 3,860,568	\$	3,012,280	\$ 2,271,136

### Sensitivity of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following presents the net OPEB liability of the political subdivision, as well as what the political subdivision's net OPEB liability would be if it were calculated using healthcare cost trend rates that are one percentage point lower (2.80%) or one percentage point higher (4.80%) than the current healthcare cost trend rates:

	1.00% Decrease (2.80%)		Current Healthcare Cost Trend Rates (3.80%)		1.00% Increase (4.80%)	
Net OPEB liability – City	\$	1,973,288	\$	2,848,667	\$	3,903,754
Net OPEB liability – WPA		16,308		23,542		32,262
Net OPEB liability – Other Employers		97,028		140,071		191,950
Total	\$	2,086,624	\$	3,012,280	\$	4,127,966

# NOTES TO FINANCIAL STATEMENTS June 30, 2019

### Note 13. Other Postemployment Benefits Liability – Local Plan (Continued)

# OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2019, the City, WPA, and other participating employers recognized OPEB expenses of \$459,271, \$3,796, and \$22,582, respectively. At June 30, 2019, the City and WPA reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	City			WPA				
	Ou	eferred tflows of esources	Inf	eferred flows of sources	Out	eferred flows of sources		Deferred Inflows of Resources
Differences between expected and actual experience	\$	513,847	\$	2,280	\$	4,247	\$	19
Net difference between projected and actual earnings on OPEB plan investments		60,609		9,242		501		76
Differences from change in proportion		_		5,790		-		48
Total	\$	574,456	\$	17,312	\$	4,748	\$	143

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ending	Increase (Reduction) to OPEB Expense					
June 30,	City	WPA				
2019	\$ 102,115	\$ 844				
2020	102,115	844				
2021	102,115	844				
2022	81,910	677				
2023	84,222	696				
Thereafter	84,667	700				

# NOTES TO FINANCIAL STATEMENTS June 30, 2019

#### Note 14. Other Postemployment Benefits Liability – Virginia Retirement System Plans

In addition to their participation in the pension plans offered through the Virginia Retirement System (VRS), the City, Schools, and WPA also participates in various cost-sharing and agent multi-employer other postemployment benefit plans, described as follows.

#### **Plan Descriptions**

### Group Life Insurance Program

All full-time teachers and employees of political subdivisions are automatically covered by the VRS Group Life Insurance (GLI) Program upon employment.

In addition to the Basic Group Life Insurance Benefit, members are also eligible to elect additional coverage for themselves as well as a spouse or dependent children through the Optional Group Life Insurance Program. For members who elect the optional group life insurance coverage, the insurer bills employers directly for the premiums. Employers deduct these premiums from members' paychecks and pay the premiums to the insurer. Since this is a separate and fully insured program, it is not included as part of the GLI Program OPEB.

Specific information for the GLI is available at <a href="https://www.varetire.org/members/benefits/life-insurance/basic-group-life-insurance.asp">https://www.varetire.org/members/benefits/life-insurance/basic-group-life-insurance.asp</a>

#### Teacher Employee Health Insurance Credit Program

All full time, salaried permanent (professional) employees of public school divisions are automatically covered by the VRS Teacher Employee Health Insurance Credit (HIC) Program. Members earn one month of service credit toward the benefit for each month they are employed and for which their employer pays contributions to VRS. The health insurance credit is a tax-free reimbursement in an amount set by the General Assembly for each year of service credit against qualified health insurance premiums retirees pay for single coverage, excluding any portion covering the spouse or dependents. The credit cannot exceed the amount of the premiums and ends upon the retiree's death.

Specific information about the Teacher HIC is available at https://www.varetire.org/retirees/insurance/healthinscredit/index.asp

The GLI and Teacher HIC are administered by the VRS along with pensions and other OPEB plans, for public employer groups in the Commonwealth of Virginia. Both of these plans are considered multiple employer, cost sharing plans.

## NOTES TO FINANCIAL STATEMENTS June 30, 2019

### Note 14. Other Postemployment Benefits Liability – Virginia Retirement System Plans (Continued)

### General Employee Health Insurance Credit Program

The General Employee Health Insurance Credit Program (HIC) is available for all full time, salaried employees of local government entities other than Teachers. The General Employee HIC provides all the same benefits as the Teacher HIC, except that this plan is considered a multi-employer agent plan.

As of the June 30, 2017 actuarial valuation, the following employees were covered by the benefit terms of the General Employee Health Insurance Credit Program:

	City	WPA	Schools Non- Professional Employees
Inactive members or their beneficiaries currently receiving benefits	45		11_
Inactive members: Vested inactive members	7		1
Total inactive members	52	-	12
Active members	352	3	88
Total covered employees	404	3	100

### Line of Duty Act Program

All paid employees and volunteers in hazardous duty positions in Virginia localities and hazardous duty employees who are covered under the VRS are automatically covered by the Line of Duty Act Program (LODA). As required by statute, the VRS is responsible for managing the assets of the program. Participating employers made contributions to the program beginning in 2012. The employer contributions are determined by the VRS actuary using anticipated program costs and the number of covered individuals associated with all participating employers. The LODA is considered a multiple employer, cost sharing plan.

Specific information about the LODA is available at <a href="https://www.valoda.org/">https://www.valoda.org/</a>

# NOTES TO FINANCIAL STATEMENTS June 30, 2019

### Note 14. Other Postemployment Benefits Liability – Virginia Retirement System Plans (Continued)

### **Contributions**

Contributions to the VRS OPEB programs were based on actuarially determined rates from actuarial valuations as of June 30, 2017. The actuarially determined rates were expected to finance the cost of benefits earned by employees during the year, with an additional amount to fund any unfunded accrued liability. Specific details related to the contributions for the VRS OPEB programs are as follows:

### Group Life Insurance Program

Governed by:	Code of Virginia 51.1-506 and 51.1-508 and
	may be impacted as a result of funding
	provided to school divisions and
	governmental agencies by the Virginia
	General Assembly.
Total rate:	1.31% of covered employee compensation.
	Rate allocated 60/40; 0.79% employee and
	0.52% employer. Employers may elect to
	pay all or part of the employee contribution.

	City	WPA	<b>Schools</b>
June 30, 2019 Contribution	\$123,468	\$863	\$168,064
June 30, 2018 Contribution	\$115,442	\$995	\$167,149

### Teacher Health Insurance Credit Program

Governed by:	Code of Virginia 51.1-1401(E) and may be impacted as a result of funding provided to school divisions by the Virginia General Assembly.
Total rate:	1.20% of covered employee compensation.
June 30, 2019 Contribution	\$356,531
June 30, 2018 Contribution	\$363,973

## NOTES TO FINANCIAL STATEMENTS June 30, 2019

### Note 14. Other Postemployment Benefits Liability – Virginia Retirement System Plans (Continued)

### General Employee Health Insurance Credit Program

Governed by:	Code of Virginia 51.1-1402(E) and may be
-	impacted as a result of funding provided to
	governmental agencies by the Virginia
	General Assembly.
Total rate:	0.13% of covered employee compensation.

	City	WPA	<b>Schools</b>
June 30, 2019 Contribution	\$22,005	\$199	\$5,607
June 30, 2018 Contribution	\$21,414	\$249	\$5,669

### Line of Duty Act Program

Governed by:	Code of Virginia 9-1-400.1 and may be impacted as a result of funding provided to governmental agencies by the Virginia General Assembly.
Total rate:	\$705.77 per covered full-time-equivalent employee. Based on pay-as-you-go funding rate.
June 30, 2019 Contribution	\$124,039
June 30, 2018 Contribution	\$100,141

# OPEB Liabilities, OPEB Expense and Deferred Inflows and Outflows of Resources Related to OPEB

The net OPEB liabilities were measured as of June 30, 2018 and the total OPEB liabilities used to calculate the net OPEB liabilities were determined by actuarial valuations as of that date. The covered employer's proportion of the net OPEB liabilities, except for LODA, were based on the covered employer's actuarially determined employer contributions for the year ended June 30, 2018 relative to the total of the actuarially determined employer contributions for all participating employers. LODA proportion was determined based on pay-as-you-go employer contributions instead of actuarially determined contributions.

### **Actuarial Assumptions and Other Inputs**

The total OPEB liability was determined using the following assumptions based on an actuarial valuation date of June 30, 2017, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2018:

Inflation	2.5%				
Salary increases, including inflation:					
<ul> <li>Locality- general employees</li> </ul>	3.5 - 5.35%				
<ul> <li>Locality – hazardous duty employees</li> </ul>					
• Teachers	3.5 - 4.75%				
	3.5 - 5.95%				
Healthcare cost trend rates:					
• Under age 65	7.75 - 5.00%				
Ages 65 and older	5.75 - 5.00%				

Investment rate of return, net of expenses, GLI & HIC: 7.0%; LODA 3.89% including inflation\*

\* Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment rate for GASB purposes of slightly more than the assumed percent above. However, since the difference was minimal, and a more conservative investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be the percent noted above to simplify preparation of OPEB liabilities.

Mortality rates used for the various VRS OPEB plans are the same as those used for the actuarial valuations of the VRS pension plans. The mortality rates are discussed in detail at Note 11.

# NOTES TO FINANCIAL STATEMENTS June 30, 2019

## Note 14. Other Postemployment Benefits Liability – Virginia Retirement System Plans (Continued)

### **Net OPEB Liabilities**

The net OPEB liabilities represent each program's total OPEB liability determined in accordance with GASB Statement No. 74, less the associated fiduciary net position. As of June 30, 2018, net OPEB liability amounts for the various VRS OPEB programs are as follows (amounts expressed in thousands):

	Group Life	Teacher			
	Insurance	Employee HIC	Line of Duty Act		
	Program	OPEB Plan	Program		
Total OPEB Liability	\$ 3,113,508	\$ 1,381,313	\$ 315,395		
Plan fiduciary net					
position	1,594,773	111,639	1,889		
Employers' net OPEB					
liability (asset)	\$ 1,518,735	\$ 1,269,674	\$ 313,506		
Plan fiduciary net					
position as a percentage					
of total OPEB liability	51.22%	8.08%	0.60%		

The total liability is calculated by the VRS actuary and each plan's fiduciary net position is reported in the VRS financial statements. The net OPEB liability is disclosed in accordance with the requirements of GASB Statement No. 74 in the VRS notes to the financial statements and required supplementary information.

## NOTES TO FINANCIAL STATEMENTS June 30, 2019

### Note 14. Other Postemployment Benefits Liability – Virginia Retirement System Plans (Continued)

### **Long-Term Expected Rate of Return**

### Group Life Insurance and Health Insurance Credit Programs

The long-term expected rate of return on VRS investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class (Strategy)	Target Allocation	Arithmetic Long-Term Expected Rate of Return	Weighted Average Long-Term Expected Rate of Return
Public Equity	40.00 %	4.54 %	1.82 %
Fixed Income	15.00	0.69	0.10
Credit Strategies	15.00	3.96	0.59
Real Assets	15.00	5.76	0.86
Private Equity	15.00	9.53	1.43
Total	100.00 %		4.80 %
	Inflation		2.50 %
*Expected	arithmetic nominal return		7.30 %

<sup>\*</sup> The above allocation provides for a one-year return of 7.30%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected rate of return for the system, stochastic projections are employed to model future returns under various economic conditions. The results provide a range of returns over various time periods that ultimately provide a median return of 6.83%, including expected inflation of 2.5%.

## NOTES TO FINANCIAL STATEMENTS June 30, 2019

### Note 14. Other Postemployment Benefits Liability – Virginia Retirement System Plans (Continued)

### Line of Duty Act Program

The long-term expected rate of return on the LODA Program's investments was set at 3.89% for this valuation. Since LODA is funded on a current-disbursement basis, it is not able to use the VRS pooled investments 7.00% assumption noted above. Instead, the assumed annual rate of return of 3.89% was used since it approximates the risk-free rate of return. The Single Equivalent Interest Rate (SEIR) is the applicable municipal bond index rate based on the Bond Buyer General Obligation 20-year Municipal Bond Index published by the Board of Governors of the Federal Reserve System as of the measurement date of June 30, 3018.

#### **Discount Rate**

The discount rate used to measure the GLI and HIC OPEB liabilities was 7.00%. The discount rate used to measure the LODA OPEB liability was 3.89% The projection of cash flows used to determine the discount rate assumed that System member contributions will be made per the VRS Guidance and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ending June 30, 2018, the rate contributed by the employer for the OPEB liabilities will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly. From July 1, 2018 on, participating employers are assumed to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the OPEB plans' fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total OPEB liability.

### Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liabilities of the City, WPA, and Schools, as well as what the net OPEB liabilities would be if it were calculated using a discount rate that is one percentage point lower (6.00% HIC; GLI/2.89% LODA) or one percentage point higher (8.00% HIC; GLI/4.89% LODA) than the current discount rate:

## NOTES TO FINANCIAL STATEMENTS June 30, 2019

Note 14. Other Postemployment Benefits Liability – Virginia Retirement System Plans (Continued)

	1.00% Decrease (6.00%)		Current Discount Rate (7.00%)		Decrease Discount Rate		1.00% Increase (8.00%)
GLI Net OPEB liability – City GLI Net OPEB liability – WPA GLI Net OPEB liability – Schools	\$	2,309,574 16,152 3,330,000	\$	1,767,812 12,364 2,548,000	\$ 1,326,965 9,280 1,914,000		
Teacher HIC Net OPEB liability	\$	5,189,000	\$	4,646,000	\$ 4,184,000		
General Employee HIC Net OPEB liability – City General Employee HIC Net OPEB liability – WPA	\$	170,471 1,544	\$	110,839	\$ 60,810 551		
General Employee HIC Net OPEB liability – Schools		37,298		25,971	15,774		
LODA Net OPEB liability	\$	(2.89 %) 3,377,000	\$	(3.89 %) 2,947,000	\$ (4.89 %) 2,601,000		

### Sensitivity of the LODA Net OPEB Liability to Changes in the Healthcare Cost Trend Rates

Because the Line of Duty Act Program (LODA) contains provisions for the payment of health insurance premiums, the liabilities are also impacted by the health care trend rates. The following presents the LODA net OPEB liability of the City using health care trend rate of 7.75% decreasing to 5.00%, as well as what the City's LODA net OPEB liability would be if it were calculated using healthcare cost trend rates that are one percentage point lower (6.75% decreasing to 4.00%) or one percentage point higher (8.75% decreasing to 6.00%) than the current healthcare cost trend rates:

	1.00%	Current Healthcare	1.00%
	Decrease (6.75% decreasing to 4.00%)	Cost Trend Rates (7.75% decreasing to 5.00%)	Increase (8.75% decreasing to 6.00%)
Net LODA OPEB liability	\$ 2,511,000	\$ 2,947,000	\$ 3,490,000

## NOTES TO FINANCIAL STATEMENTS June 30, 2019

### Note 14. Other Postemployment Benefits Liability – Virginia Retirement System Plans (Continued)

#### **OPEB Plan Fiduciary Net Position**

Information about the various VRS OPEB plan fiduciary net position is available in the separately issued VRS 2018 Comprehensive Annual Financial Report (CAFR). A copy of the 2018 VRS CAFR may be downloaded from the VRS website at <a href="http://www.varetire.org/Pdf/Publications/2018-annual-report.pdf">http://www.varetire.org/Pdf/Publications/2018-annual-report.pdf</a>, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

### Note 15. Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City has joined together with other cities and counties in the Virginia Liability Risk Management Plan (VARISK2), a Commonwealth of Virginia risk pool currently operating as a risk management program for public body members in Virginia. The City pays an annual premium to VARISK2 for its public officials general law enforcement and medical malpractice liability insurance coverage. The Department of Treasury obtains its authority to act from the statutory provisions of the Code and will limit liability up to \$1 million for each insured event.

Through the Virginia Municipal League, the City has joined together with other Virginia public bodies in the Virginia Municipal League Insurance Programs pools currently operating as common risk management and insurance programs for members in Virginia. The City pays an annual premium to VML Insurance Programs for its workers' compensation and employer's liability, general liability, excess property, crime, and automobile coverage. The agreement for formation of the VML Insurance Programs Pool provides that it will be self-sustaining through member premiums. Workers' compensation coverage provides the benefits as set forth in the Virginia Workers' Compensation Act. VML Insurance Programs will reinsure through commercial insurance companies for claims in excess of \$5 million for general liability, and \$5 million for automotive liability. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Through the Virginia School Board Association, the School Board has joined together with other localities in the VSBA Insurance Program and School Systems of VA Group Self-Insurance Association, public entity risk pools currently operating as an insurance program and common risk management for several member city and county school boards in Virginia. The school board pays annual premiums to VSBA Insurance Program and School Systems of VA Group Self-Insurance Association for its employer liability insurance coverage and worker's compensation insurance coverage. The agreement for formation of VSBA Insurance Program and School Systems of VA Group Self-Insurance Association provides that it will be self-sustaining through member premiums. The Workers' compensation coverage provides the benefits set forth in the Virginia Workers' Compensation Act.

# NOTES TO FINANCIAL STATEMENTS June 30, 2019

### **Note 16. Related Party Transactions**

The Social Services fund has a 15 year lease for property that commenced during 2009 for which the City paid \$525,938 in 2019. The lease calls for monthly lease payments, and an additional deposit of \$40,000 is being held by the lessor. One member of the City's Common Council had an economic interest in the leasing company.

#### Note 17. Fund Balances

Fund Balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the City is bound to observe constraints imposed upon the use of the resources in the governmental funds. The constraints placed on the general fund balance and other governmental funds balance are presented below:

	General Fund	Capital Projects Fund	Nonmajor Governmental <u>Funds</u>
Nonspendable:			
Prepaids Inventories	\$ - \$ 7,603	-	\$ 40,000

## NOTES TO FINANCIAL STATEMENTS June 30, 2019

### **Note 19.** Subsequent Events

Subsequent to year end, the City approved the issuance of a \$15,000,000 general obligation improvement bonds with interest rates from 3.0% to 5.0% and maturity in March 2040. The proceeds will be used to fund future capital projects. Additionally the City approved the issuance of a taxable water and sewer system revenue refunding bond not to exceed \$8,600,000 for the refunding of a portion of the City's taxable water and sewer system revenue bond, Series 2010. Finally the City approved the issuance of a general obligation public improvement refunding bond not to exceed \$6,165,000 for the refunding of a portion of the City's outstanding 2015 bonds.

### Note 20. New Accounting Standards

The Governmental Accounting Standards Board (GASB) has issued the following Statements which are not yet effective.

The GASB issued **Statement No. 84**, *Fiduciary Activities* in January 2017. This Statement establishes standards of accounting and financial reporting for fiduciary activities. The requirements of this Statement are effective for periods beginning after December 15, 2018.

The GASB issued **Statement No. 87**, *Leases* in June 2017. This Statement establishes standards of accounting and financial reporting for leases by lessees and lessors. The requirements of this Statement are effective for periods beginning after December 15, 2019.

The GASB issued **Statement No. 90**, *Majority Equity Interests, an amendment of GASB Statements No. 14 and No. 61* in August 2018. This Statement improves the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and improves the relevance of financial statement information for certain component units. It defines a majority equity interest and specifies that a majority equity interest in a legally separate organization should be reported as an investment if a government's holding of the equity interest meets the definition of an investment. A majority equity interest that meets the definition of an investment should be measured using the equity method, unless it is held by a special-purpose government engaged only in fiduciary activities, a fiduciary fund, or an endowment (including permanent and term endowments) or permanent fund. Those governments and funds should measure the majority equity interest at fair value.

For all other holdings of a majority equity interest in a legally separate organization, a government should report the legally separate organization as a component unit, and the government or fund that holds the equity interest should report an asset related to the majority equity interest using the equity method. This Statement establishes that ownership of a majority equity interest in a legally separate organization results in the government being financially accountable for the legally separate organization and, therefore, the government should report that organization as a component unit.

## NOTES TO FINANCIAL STATEMENTS June 30, 2019

### **Note 20.** New Accounting Standards (Continued)

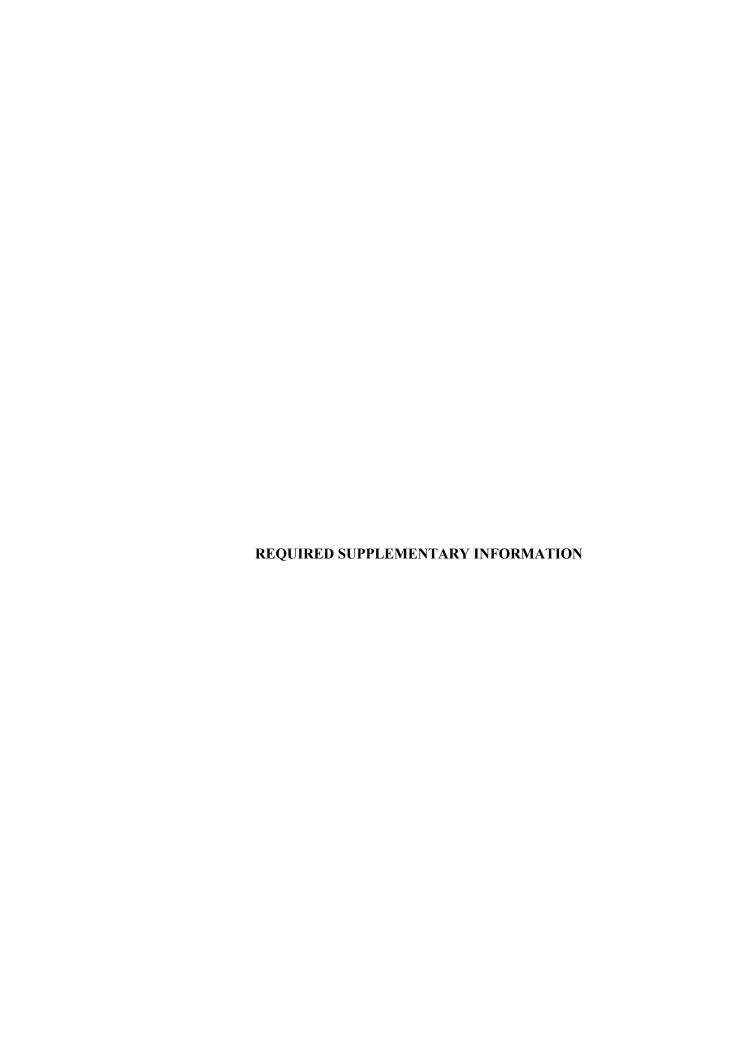

This Statement also requires that a component unit in which a government has a 100 percent equity interest account for its assets, deferred outflows of resources, liabilities, and deferred inflows of resources at acquisition value at the date the government acquired a 100 percent equity interest in the component unit. Transactions presented in flows statements of the component unit in that circumstance should include only transactions that occurred subsequent to the acquisition.

The requirements of this Statement are effective for periods beginning after December 15, 2018. The requirements should be applied retroactively, except for the provisions related to (1) reporting a majority equity interest in a component unit and (2) reporting a component unit if the government acquires a 100 percent equity interest. Those provisions should be applied on a prospective basis.

The GASB issued **Statement No. 91**, *Conduit Debt Obligations* in May 2019. This Statement provides a single method of reporting conduit debt obligations by issuers and eliminates diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. The requirements of this Statement are effective for reporting periods beginning after December 15, 2020.

Management has not determined the effects these new GASB Statements may have on prospective financial statements

The covered payroll amounts above are for the Authority's fiscal year - i.e., the covered payroll on which required contributions were based for the same year.

### NOTES TO REQUIRED SUPPLEMENTARY INFORMATION June 30, 2019

### Note 1. Changes of Benefit Terms

### Pension

There have been no actuarially material changes to the Virginia Retirement System (System) benefit provisions since the prior actuarial valuation.

### Other Postemployment Benefits (OPEB)

There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation.

### Note 2. Changes of Assumptions

The following changes in actuarial assumptions were made effective June 30, 2016 based on the most recent experience study of the System for the four-year period ending June 30, 2016:

Largest 10 – Non-Hazardous Duty:

- Update mortality table
- Lowered in rates of service retirement
- Update withdrawal rates to better fit experience
- Lowered in rates of disability retirement
- No changes to salary rates
- Increase Line of Duty Disability rates
- Applicable to: Pension, GLI OPEB, and HIC OPEB

### Largest 10 – Hazardous Duty/Public Safety Employees:

- Update mortality table
- Lowered rates of retirement at older ages
- Update withdrawal rates to better fit experience
- Increased disability rates
- No changes to salary rates
- Increased Line of Duty disability rates
- Applicable to: Pension, GLI OPEB, and LODA OPEB

### NOTES TO REQUIRED SUPPLEMENTARY INFORMATION June 30, 2019

### Note 2. Changes of Assumptions (Continued)

All Others (Non 10 Largest) – Non-Hazardous Duty:

- Update mortality table
- Lowered rates of retirement at older ages and changed final retirement from 70 to 75
- Update withdrawal rates to better fit experience
- Lowered disability rates
- No changes to salary rates
- Increased Line of Duty disability rates.
- Applicable to: Pension, GLI OPEB, and HIC OPEB

### All Others (Non 10 Largest) – Hazardous Duty/Public Safety Employees:

- Update mortality table
- Increased retirement rate at age 50 and lowered rates at older ages
- Update withdrawal rates to better fit experience
- Update disability rates to better fit experience
- No changes to salary rates
- Lowered Line of Duty rate
- Applicable to: Pension, GLI OPEB, and LODA OPEB

### Teacher Cost-Sharing Pool

- Update mortality table
- Lowered retirement rates at older ages and changed final retirement from 70 to 75
- Update withdrawal rates to better fit experience
- Update disability rates to better fit experience
- No changes to salary rates
- Applicable to: Pension, GLI OPEB, and HIC OPEB

## COMBINING AND INDIVIDUAL FUND STATEMENTS AND SCHEDULES

#### NONMAJOR GOVERNMENTAL FUNDS

#### SPECIAL REVENUE FUNDS

- **Social Services Fund** to account for the provision of health and welfare services. Financing is provided by state and federal funds, which may be used only for this purpose.
- **Highway Maintenance Fund** to account for the proceeds of state street and highway maintenance grants, and the related expenditure which is to be used for this purpose. This fund is only used for maintenance related expenditures, capital expenditures are recorded in other applicable funds.
- **Emergency Medical Services Fund** to account for the provision of emergency medical transportation services. Financing is provided by fees charged to customers and insurance providers.
- Winchester-Frederick County Convention and Visitors Bureau Fund to account for the costs of a shared visitors bureau. Financing is provided in equal amounts by the City of Winchester and Frederick County.
- **Law Library Fund** to account for the purchase of reference material for the law library. Financing is provided by a portion of court fines levied. Such funds are limited to expenditures for this purpose.
- **Transit Fund** to account for grants and monies received and used for operations of the City's public transit system.

#### DISCRETELY PRESENTED COMPONENT UNIT - SCHOOL BOARD

#### MAJOR GOVERNMENTAL FUNDS

#### SPECIAL REVENUE FUNDS

**School Operating Fund** – to account for the operations and maintenance of the schools. Financing is provided by state and federal funds, and by appropriations from the City's general revenues. State and federal education funds received may be used only for this purpose. Annual appropriations from general revenues were restricted by the Appropriations Resolution to education expenditures.

#### CAPITAL PROJECTS FUNDS

- **School Fundraising Fund** created to account fundraising revenue and expenditures for the construction of school facilities.
- **School Capital Improvement Fund** created to account for unexpended school funds allowed by the Common Council to be carried over to future periods for school related capital projects.
- **School Construction Fund** created to account for the financing and construction of school capital projects. Currently, financing is provided by bond proceeds. Expenditures are for the construction of school facilities.

#### NONMAJOR GOVERNMENTAL FUNDS

#### SPECIAL REVENUE FUNDS

- **School Cafeteria Fund** to account for the operation and maintenance of cafeterias of the schools. Financing is provided primarily from charges for services and federal and state lunch subsidiaries. Such funds are limited by federal and state law to expenditures for cafeteria operations and maintenance.
- **School Federal Grants Fund** to account for the proceeds from federal grants. Such funds are limited to specified educational expenditures that are governed by the terms of the grant.
- **School Textbook Fund** to account for the purchase and sale of school textbooks. Financing is provided primarily by the transfer of funds from the School Operating Fund and funds received are limited by the School Board to expenditures only for school textbooks.

### DISCRETELY PRESENTED COMPONENT UNIT – SCHOOL BOARD (Continued)

#### INTERNAL SERVICE FUND

**School Insurance Fund** – to account for the operation of a partially self-insured employee health insurance program. Receipts from the School Board and participating employees are used to pay claims and purchase insurance for excess claims.

#### FIDUCIARY FUNDS

#### PRIVATE-PURPOSE TRUST FUNDS

Newton B. Shingleton, M. Louise Cooper, and School Scholarship Funds – to account for donations received for the purpose of funding scholarships.

#### **AGENCY FUNDS**

**School Activity Funds** – to account for funds received from extracurricular school activities, and from any and all school sponsored activities of the Schools that involve school personnel, students, or property.

**School Employee Benefits Fund** – to account for funds withheld and payment of funds for payroll withholding taxes for all school employees.

#### STATISTICAL SECTION

This part of the City of Winchester's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health.

Contents	Pages
Financial Trends – Tables 1 – 4  These schedules contain trend information to help the reader understand how the government's financial performance and well-being have changed over time.	135-141
Revenue Capacity – Tables 5 – 8  These schedules contain information to help the reader assess the government's most significant local revenue source, the property tax.	142-145
Debt Capacity – Tables 9 – 13  These schedules contain trend information to help the reader assess the affordability of the government's current levels of outstanding debt and the government's ability to issue additional debt in the future.	146-150
Demographic and Economic Information – Tables 14 – 15  These schedules offer demographic and economic indicators to help the reader understand the environment within which the government's financial activities take place	151-152
Operating Information – Tables 16 – 18  These schedules contain service and infrastructure data to help the reader understand how the information in the government's financial report relates to the services the government provides and activities it performs	153-155

Sources: Unless otherwise noted, the information in these schedules is derived from the Comprehensive Annual Financial Reports for the relevant year.

# INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Honorable Members of City Council City of Winchester, Virginia

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns* issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Winchester, Virginia (the "City"), as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated November 22, 2019.

#### **Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Brown, Edwards & Company, S. L. P. CERTIFIED PUBLIC ACCOUNTANTS

Harrisonburg, Virginia November 22, 2019

#### INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Honorable Members of City Council City of Winchester, Virginia

#### Report on Compliance for Each Major Federal Program

We have audited the City of Winchester, Virginia's (the "City") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the City's major federal programs for the year ended June 30, 2019. The City's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

#### **Management's Responsibility**

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on compliance for each of the City's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City's compliance.

#### **Opinion on Each Major Federal Program**

In our opinion, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2019.

#### **Report on Internal Control Over Compliance**

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

CERTIFIED PUBLIC ACCOUNTANTS

Brown, Edwards Kompany, S. L. P.

Harrisonburg, Virginia November 22, 2019

#### SUMMARY OF COMPLIANCE MATTERS June 30, 2019

As more fully described in the Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*, we performed tests of the City's compliance with certain provisions of the laws, regulations, contracts, and grants shown below.

#### **STATE COMPLIANCE MATTERS**

Code of Virginia

Budget and Appropriation Laws
Cash and Investment Laws
Conflicts of Interest Act
Local Retirement Systems
Debt Provisions
Procurement Laws
Governor's Opportunity Funds
Comprehensive Services Act
Uniform Disposition of Unclaimed Property Act
Sheriff Internal Controls

State Agency Requirements
Education
Social Services
Urban Highway Maintenance

#### FEDERAL COMPLIANCE MATTERS

Compliance Supplement for Single Audits of State and Local Governments

Provisions and conditions of agreements related to federal programs selected for testing.

#### SCHEDULE OF FINDINGS AND QUESTIONED COSTS Year Ended June 30, 2019

#### A. SUMMARY OF AUDITOR'S RESULTS

- 1. The auditor's report expresses an **unmodified opinion** on the financial statements.
- 2. **No significant deficiencies** relating to the audit of the financial statements were reported in the Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*.
- 3. No instances of noncompliance material to the financial statements were disclosed during the audit.
- 4. No significant deficiencies relating to the audit of the major federal award programs were reported in the Independent Auditor's Report on Compliance For Each Major Program and on Internal Control over Compliance Required By the Uniform Guidance.
- 5. The auditor's report on compliance for the major federal award programs expresses an **unmodified opinion**.
- 6. The audit disclosed **no audit findings relating to major programs**.
- 7. The major programs of the City are:

Name of Program	<u>CFDA #</u>	
Child Nutrition Cluster – School Breakfast Program	10.553	
Child Nutrition Cluster – National School Lunch Program	10.555	
Preschool Development Grants	84.419B	

- 8. The **threshold for** distinguishing Type A and B programs was \$750,000.
- 9. The City of Winchester was determined to be a low-risk auditee.

#### SCHEDULE OF FINDINGS AND QUESTIONED COSTS Year Ended June 30, 2019

**B. FINDINGS – FINANCIAL STATEMENT AUDIT** 

None

C. FINDINGS AND QUESTIONED COSTS – MAJOR FEDERAL AWARD PROGRAMS AUDIT

None

D. FINDINGS - COMMONWEALTH OF VIRGINIA

None

#### SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS Year Ended June 30, 2019

#### A. FINDINGS – COMMONWEALTH OF VIRGINIA

#### 2018-001: Commonwealth of Virginia Disclosure Statements

Condition:

During our audit, we noted eleven individuals did not file the required conflict of interest statements in compliance with the Auditors of Public Accounts. We recommend the City adopt a policy that mandates all conflict of interest statements be submitted timely in accordance with the requirements of the Auditors of Public Accounts.

Current Status:

One instance was noted in the current year and has been communicated separately.

#### 2018-002: Department of Social Services Required Security Officer Training

Condition:

During our social services review, we noted the security officers did not receive the required amount of training to perform as a security officer.

Current Status:

No such issues were noted in the current year.

The Schedule of Expenditures of Federal Awards is presented on the modified accrual basis of accounting as contemplated by generally accepted accounting principles.

#### Note 2: Non-Cash Assistance

The City of Winchester participated in the National School Lunch Program, CFDA Number 10.555, which provides non-cash benefits. The Schedule of Expenditures of Federal Awards includes commodity distributions of \$145,510 from the National School Lunch Program.

#### Note 3: Loan Program

Included in the current year Schedule of Expenditures of Federal Awards was \$144,816 in loan proceeds expended in the year under the Section 108 loan guarantee program from the Department of Housing and Urban Development, CFDA #14.248. The City can expend up to \$1,000,000 under this loan program, however the outstanding balance of this loan was \$900,000 at June 30, 2019 and additional funds are anticipated to be expended in future years.

#### Note 4: De Minimus Indirect Cost Rate

The City did not elect to use the 10% de minimus indirect cost rate.
