TOWN COUNCIL Steven C. Angle, *Mayor* Gregory B. Walker, *Vice Mayor* 

Bobby M. Cundiff P. Ann Love Jon W. Snead Bobby L. Moyer Billie W. Stockton

> C. James Ervin, Town Manager Linda Woody, Finance Director

To the Honorable Mayor, Council Members, and Citizens of the Town of Rocky Mount:

State Law requires that all local governments publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. We issue the Town's comprehensive annual financial report for the fiscal year ended June 30, 2015.

This report consists of management's representations concerning the finances of the Town of Rocky Mount. Consequently, management assumes full responsibility for the completeness and reliability of all the information presented in this report. To provide a reasonable basis for making these representations, management of the Town of Rocky Mount has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse, and to compile sufficient reliable information for the preparation of the Town of Rocky Mount's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the Town of Rocky Mount's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatements. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The Town of Rocky Mount's financial statements have been audited by Robinson, Farmer, Cox Associates, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the Town of Rocky Mount for the fiscal year ended June 30, 2015, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that the financial statements present fairly, in all material respects, the financial position of the Town of Rocky Mount for the fiscal year ended June 30, 2015, in conformity with generally accepted accounting principles (GAAP). The independent auditor's report is presented as the first component of the financial section of this report.

GAAP requires management to provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The Town's MD&A can be found immediately following the report of the independent auditors.

# Profile of the Government

The Town of Rocky Mount, incorporated in 1873, is located in the rolling hills of the western Blue Ridge Mountains and serves as the seat of Franklin County's government, service, and business center. The Town of Rocky Mount currently occupies a land area of 6.4 square miles and boasts a population of approximately 4,800. The Town of Rocky Mount is empowered to levy a property tax on both real and personal properties located within its boundaries

The Town of Rocky Mount has operated under the council-manager form of government since 1989. Policy-making and legislative authority are vested in a governing council consisting of the mayor and six other members. The governing council is responsible, among other things, for passing ordinances, adopting the budget, appointing the Planning Commission, and hiring the government's manager, attorney, and clerk. The government's manager is responsible for carrying out the policies and ordinances of the governing council, for overseeing the day-to-day operations of the government, and for appointing the heads of the various departments. The council is elected at large. The Town of Rocky Mount holds municipal elections in May of even-numbered years. Council members serve four-year staggered terms, with three council members elected every two years. The mayor is elected to serve a four-year term.

The Town of Rocky Mount provides a full range of services, including police and volunteer fire protection; the construction and maintenance of streets, sidewalks, water and sewer lines, and other infrastructure; zoning and land use management; recreational parks; and community and cultural events. The Town of Rocky Mount also provides water and wastewater services to both town and county residents and businesses. The Harvester Performance Center (HPC) is a part of this reporting entity as a component unit.

The annual budget serves as the foundation for the Town of Rocky Mount's financial planning and control. All departments of the Town of Rocky Mount are required to submit requests for appropriation to the government's manager during the annual budget process. The government's manager uses these requests as the starting point for developing a proposed budget. The Town Manager then presents this proposed budget to the Council for review by May 1. The council is required to hold public hearings on the proposed budget and to adopt a final budget by no later than June 30, the close of the Town of Rocky Mount's fiscal year. The appropriated budget is prepared by fund, function (e.g. public safety), and department (e.g. police). Budget-to-actual comparisons are provided in this report for each individual governmental fund for which an appropriated annual budget has been adopted.

#### Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the Town of Rocky Mount operates.

**Local economy.** After a period of economic downturn due to the loss of jobs in its traditional textile and furniture manufacturing industries, other long-term manufacturers within the Town have experienced some degree of stability during these declining economic times. The Town continues to enjoy growth in the retail and service businesses that serve and are supported by town residents and county residents. Residential growth continues with new single-family housing developments. Because of these up-turns in employment and housing opportunities, Town residents are beginning to feel the security of a positive local economy.

To help its citizens in the economic recovery, Town Council decreased the Town's operating budget by 2.7% for fiscal year 2015 and presented no increases in taxes or fees to its citizens. A modest fee increase for water usage was implemented in February 2015.

**Long-term financial planning and economic improvement projects.** The Town of Rocky Mount continues to methodically plan for future growth by investing resources in infrastructure improvements and expansion. The governing Council of the Town of Rocky Mount, in planning for future residential and commercial needs, continues to fund water and sewer line improvements and expansions within the Town's utility system. Funding for utility capital projects in the past several fiscal years were scaled back due to the slow-down in the local economy. With the revised utility rate structure introduced in mid-fiscal year 2013 to include a

capital recovery fee for meters greater than 5/8" to be used to fund utility capital needs, projects to further the lives of the Water Treatment Plant, the Wastewater Treatment Plant, the existing water distribution lines, and the existing sewer collection lines have seen a modest increase in funding for fiscal year 2015.

The Town of Rocky Mount is very excited to be an anchor on the Crooked Road - Virginia's Heritage Music Trail. It provides an opportunity to showcase the area's cultural assets. During fiscal year 2012, Town Council purchased the old Lynch Hardware Building in downtown Rocky Mount to house a community cultural venue to better showcase the talents of local citizens and activities associated with the Crooked Road's musical heritage and the 'Round the Mountain's artesian heritage. Renovation began in the summer of 2013 and was completed in April 2014. Funding from federal and state historic tax credits and state Tobacco Commission grant were used to fund about half the costs to transform the building into the Harvester Performance Center. Performances began mid-April 2014. A full slate of performances has followed and attendance continues to be strong with a majority of attendees coming from outside the Town and County limits. From numerous projects presented from across the Commonwealth to the Virginia Municipal League, The Harvester Performance Center and the Town of Rocky Mount were presented the prestigious President's Award in October 2014.

The Town of Rocky Mount also provides post-retirement health and dental care benefits for certain retirees and their spouses. Participants must pay 100% of the premium.

Additional information on the Town of Rocky Mount's pension arrangements and postemployment benefits can be found in Notes 9 and 10 in the notes to the financial statements.

#### Awards and Acknowledgements

The Government Finance Officers Association (GFOA) awards a Certificate of Achievement for Excellence in Financial Reporting for a locality's comprehensive annual financial report (CAFR). In order to be awarded a Certificate of Achievement, the government must publish an easily readable and efficiently organized CAFR. The report must also satisfy GAAP and applicable legal requirements. The Town has achieved this prestigious award for nine years. We believe that our current CAFR will meet the Certificate of Achievement Program's requirements.

The preparation of this report would not have been possible without the efficient and dedicated services of the entire staff of the finance and manager's offices as well as the Town's department heads. We would like to express our appreciation to all members of the Town staff who assisted and contributed to the preparation of this report. Credit also must be given to the Mayor and Council for their unfailing support for maintaining the highest standard of professionalism in the management of the Town of Rocky Mount's finances.

Respectively submitted,

James Kowin

C. James Ervin Town Manager

#### Independent Auditors' Report

To the Honorable Members of Town Council Town of Rocky Mount, Virginia

**Report on the Financial Statements** 

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Town of Rocky Mount, Virginia, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

# Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns,* issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

# *Opinion*s

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Town of Rocky Mount, Virginia, as of June 30, 2015, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

# Change in Accounting Principle

As described in Note 16 to the financial statements, in 2015, the Town adopted new accounting guidance, GASB Statement Nos. 68, Accounting and Financial Reporting for Pensions - an amendment of GASB Statement No. 27 and 71, Pension Transition for Contributions Made Subsequent to the Measurement Date - an amendment of GASB Statement No. 68. Our opinion is not modified with respect to this matter.

# Other Matters

# Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and schedules related to pension and OPEB funding on pages 11-19, 77, and 78-82, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The budgetary comparison information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

# Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Rocky Mount, Virginia's basic financial statements. The introductory section, other supplementary information, and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The other supplementary information is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information is fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 21, 2016, on our consideration of the Town of Rocky Mount, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of Rocky Mount, Virginia's internal control over financial reporting and compliance.

Kohimson, Farmer, Ly Associates

Blacksburg, Virginia January 21, 2016

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the Town of Rocky Mount, Virginia (the "Town"), we offer readers of the Town's financial statements this narrative overview and analysis of the financial activities of the Town for the fiscal year ended June 30, 2015. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found in the introductory section of this report.

# **Financial Highlights**

- The total assets and deferred outflows of resources of the Town exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$26,880,025 (net position). Of this amount, \$4,965,372 (unrestricted net position) may be used to meet the Town's ongoing obligations to citizens and creditors (Exhibit 1). The Town's total net position increased by \$909,342 in comparison with the prior year.
- As of the close of the current fiscal year, the Town's governmental funds reported an ending fund balance of \$6,997,207, an increase of \$907,988 in comparison with the prior year. 99.7% of the Town's fund balance, constitutes as unassigned fund balance, which is available for spending at the government's discretion. (Exhibit 3).
- As of the close of the current fiscal year, the Town's proprietary funds reported an ending net position of \$8,763,798, an increase of \$150,974 in comparison with the prior year.

#### **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the Town's basic financial statements. The Town's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**Government-wide Financial Statements** – The *government-wide financial statements* are designed to provide readers with a broad overview of the Town's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the Town's assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

The *statement of activities* presents information showing how the government's net position changed during the fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result only in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the Town that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Town include general government, public safety, public works, community development, parks, recreation and cultural, and non-departmental. The business-type activities of the Town are the water and wastewater departments.

The government-wide financial statements include the Town (primary government) as well as funds of the Harvester Performance Center (HPC) (component unit). Financial information for this component unit is reported separately from the financial information presented for the primary government.

**Fund Financial Statements** – A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town can be divided into two categories: governmental funds and proprietary funds.

**Governmental Funds** – *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources,* as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The Town adopts annual appropriated budgets for its general, capital project, and Harvester Performance Center funds. Budgetary comparison statements have been provided for the general fund and the capital project fund to demonstrate compliance with these budgets.

**Proprietary Funds** – The Town maintains one type of proprietary fund. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The Town uses an enterprise fund to account for its water and wastewater departments.

*Proprietary funds* provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the water and wastewater departments.

**Notes to the Financial Statements** – The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statement.

**Required Supplementary Information** – In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information*. This information further explains and supports the information in the financial statements.

#### **Government-wide Financial Analysis**

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the Town, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$26,880,027 at the close of the most recent fiscal year.

By far the largest portion of the Town's net position, \$21,914,653 reflects its net investment in capital assets (e.g., land, buildings, infrastructure, machinery, and equipment), less any related outstanding debt used to acquire those assets that are still outstanding. The Town uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the Town's net investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

*Unrestricted net position* of \$4,942,843 may be used to meet the government's ongoing obligations to citizens and creditors. At the end of the current fiscal year, the Town is able to report positive balances in both categories of net position.

**Governmental activities** – Governmental activities, after beginning balance adjustments to fund balance, to fixed assets, and for implementation of GASB 68, net position increased by \$758,368.

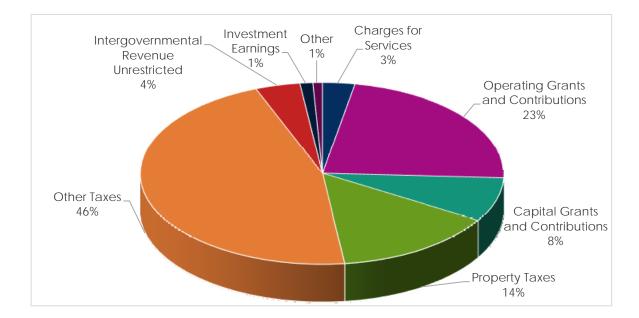

**Business-type activities** – Business-type activities, after beginning balance adjustments for implementation of GASB 68, net position increased by \$150,974.

#### **Expenses and Program Revenues – Governmental Activities**

#### **Revenues by Source – Governmental Activities**

#### Financial Analysis of the Government's Funds

As noted earlier, the Town uses fund accounting to ensure and demonstrate compliance with financerelated legal requirements.

**Governmental funds** – The focus of the Town's *governmental funds* is to provide information on nearterm inflows, outflows, and balances *spendable* resources. Such information is useful in assessing the Town's financing requirements. In particular, *unreserved fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the Town's governmental funds reported combined ending fund balances of \$6,997,207 (Exhibit 3), an increase of \$907,988 in comparison with the prior year. Almost 100 percent of the \$6,997,207, constitutes unassigned fund balance, which is available for spending at the government's discretion.

The general fund is the chief operating fund of the Town. At the end of the current fiscal year, the total fund balance of the general fund was \$6,980,486 (Exhibit 3). As a measure of the general fund's liquidity, it may be useful to compare both the unreserved fund balance and the total fund balance to total fund expenditures. The unassigned fund balance represents 135% of total general fund expenditures.

The fund balance of the Town's general fund increased by \$569,452 during the fiscal year. Revenues exceeding expenditures contributed to this increase.

The fund balance of the Town's capital projects fund increased by \$338,536 during the year. The key factor to this increase is related to the receipt of grant revenues from the State's Tobacco Commission for the Harvester Performance Center construction project.

**Proprietary funds** – The Town's proprietary fund provides the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position of the water and wastewater departments at the end of the year amounted to \$22,529 (Exhibit 7).

#### **General Fund Budgetary Highlights**

There was an increase of \$19,032 between the original budget and the final amended budget for revenues. This was due to the receipt of two grants in the Police Department for highway safety enforcement and for personal safety equipment (bullet proof vests).

#### **Capital Asset and Debt Administration**

**Capital assets** – The Town's investment in capital assets for its governmental and business-type activities as of June 30, 2015, amounted to \$26,746,601 (net of accumulated depreciation). This investment in capital assets includes land, buildings, and improvements, infrastructure, machinery, and equipment. The total decrease in the Town's investment in capital assets for the current fiscal year was 2.7% (a 2.5% decrease for governmental activities and a 3.0% decrease for business-type activities). Additional information on the Town's capital assets can be found in Note 7 of this report.

Major capital asset events during the current fiscal year included the following:

Repairs to the Floyd Ave. Fire Station \$33,800

Installation of a new HVAC system in the Hospitality Center \$22,900

Installation of a new sidewalk on 40 East \$59,210

Removal of the Pendleton water tanks \$125,316

Chlorine conversion at the Water Treatment Plant \$26,261

New SCADA system for the waste water pump stations \$45,074

New compactor for the Wastewater Treatment Plant \$55,068

**Long-term debt** – At the end of the current fiscal year, the Town had total debt outstanding of \$4,831,948. Of this amount, \$3,798,500 comprises debt backed by the full faith and credit of the government, \$980,000 is related to notes payable, and \$53,448 is a capital lease.

...

- - -

The Town's total debt decreased by \$332,552 (6.4%) during the fiscal year primarily from the repayment of principal on existing debt. Additional information on the Town's long-term debt can be found in Note 8 of this report.

#### **Economic Factors and Next Year's Budgets and Rates**

The unemployment rate for Franklin County (no statistics are available for the Town individually) as of June 30, 2015 is 5.2%, which is a decrease from the annual rate of 5.5% a year ago according to the Virginia Employment Commission. The state's average unemployment rate as of June 30, 2015 is 4.9% and the national average rate as of June 30, 2015 is 5.3%. The occupancy rate of the Town's central business district continues to remain high.

Inflationary trends in the region compare favorably to national indices.

Water consumption has remained stable this fiscal year.

The Harvester Performance Center is in its first full year of operations this fiscal year and is beginning to show a stronger financial position with a full slate of performances and large audiences. The positive economic effects of customers visiting the HPC can be felt not only within the central business district, where it is located, but the entire Town limits. The Town anticipates a continued large impact on the local economy.

#### **Requests for Information**

This financial report is designed to provide a general overview of the Town's finances for all those with an interest in the government's finances. The Town strives to demonstrate its accountability for the resources it receives and their uses. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Director, Town of Rocky Mount, 345 Donald Avenue, Rocky Mount, Virginia 24151. The Town's website is www.rockymountva.org.

#### Town of Rocky Mount, Virginia Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities Fiscal Year Ended June 30, 2015

Amounts reported for governmental activities in the statement of activities are different because:			
Net change in fund balances - total governmental funds		\$	907,988
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation expense exceeded capital outlays in the current period.			
Capital outlay Depreciation expense	\$	334,713 (694,016)	(359,303
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.			
Property taxes	\$	401	
Change in deferred inflows of resources related to the measurement of the net pension liability		(361,394)	(360,993
The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items. Debt issued or incurred: Capital lease Principal repayments:	Ş	(73,240)	
Principal payments on bonds and notes Capital lease		165,000 19,792	111,552
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds. # TOWN OF ROCKY MOUNT, VIRGINIA

# Notes to the Financial Statements June 30, 2015

#### Note 1-Summary of Significant Accounting Policies:

The financial statements of the Town of Rocky Mount, Virginia conform to generally accepted accounting principles (GAAP) applicable to governmental units promulgated by the Governmental Accounting Standards Board (GASB). The more significant accounting policies established in GAAP and used by the Town are discussed below.

A. Financial Reporting Entity:

The Town of Rocky Mount, Virginia (the "Town") was established in 1873. It is a political subdivision of the Commonwealth of Virginia operating under the Council-Manager form of government. These financial statements present the Town as the primary government. The Town Council consists of a mayor and six other council members. The Town is part of County of Franklin, Virginia and has taxing powers subject to statewide restrictions and tax limits.

The Town provides a full range of municipal services including police, refuse collection, public improvements, planning and zoning, general administrative services, recreation, and water and wastewater services. The Town provides substantial operating funding for its Volunteer Fire Department and also provides some funding for the County-wide volunteer rescue squad services.

The accompanying financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the government's operations. Each discretely presented component unit is reported in a separate column in the government-wide financial statements (see note below for description) to emphasize that it is legally separate from the government.

Blended Component Unit - None

Discretely Presented Component Unit:

The Harvester Performance Center (the "HPC") is a mid-sized music venue for purposes of industrial and economic development in the Rocky Mount community. The HPC is fiscally dependent on the Town as the Town is responsible for funding any operating deficits. The HPC is presented as a governmental fund type. The HPC does not issue separate financial statements. See Note 13 for additional information regarding the HPC.

Related Organization - None

Jointly Governed Organizations - None

B. Government-wide and fund financial statements:

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

# Notes to Financial Statements (Continued) June 30, 2015

# Note 1-Summary of Significant Accounting Policies: (Continued)

# B. Government-wide and fund financial statements: (Continued)

The statement of Net Position is designed to display financial position of the primary government (governmental and business-type activities) and its discretely presented component unit. Governments will report all capital assets in the government-wide Statement of Net Position and will report depreciation expense - the cost of "using up" capital assets - in the Statement of Activities. The net position of a government will be broken down into three categories - 1) net investment in capital assets; 2) restricted; and 3) unrestricted.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

<u>Budgetary comparison schedules</u> - Demonstrating compliance with the adopted budget is an important component of a government's accountability to the public. Many citizens participate in one way or another in the process of establishing the annual operating budgets of state and local governments, and have a keen interest in following the actual financial progress of their governments over the course of the year. Many governments revise their original budgets over the course of the year for a variety of reasons. Under the GASB 34 reporting model, governments provide budgetary comparison information in their annual reports, including the original budget and a comparison of final budget and actual results.

C. Measurement focus, basis of accounting, and financial statement presentation:

The accompanying financial statements are prepared in accordance with pronouncements issued by the Governmental Accounting Standards Board. The principles prescribed by GASB represent generally accepted accounting principles applicable to governmental units.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as is the proprietary fund. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

## Note 1-Summary of Significant Accounting Policies: (Continued)

C. Measurement focus, basis of accounting, and financial statement presentation: (Continued)

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 45 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures and expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Accordingly, real and personal property taxes are recorded as revenues and receivables when billed, net of allowances for uncollectible amounts. Property taxes not collected within 45 days after year-end are reflected as unavailable revenues.

Sales and utility taxes, which are collected by the state or utilities and subsequently remitted to the Town, are recognized as revenues and receivables upon collection by the state or utility, which is generally in the month preceding receipt by the Town.

Licenses, permits, fines and rents are recorded as revenues when received. Intergovernmental revenues, consisting primarily of federal, state and other grants for the purpose of funding specific expenditures, are recognized when earned or at the time of the specific expenditure. Revenues from general-purpose grants are recognized in the period to which the grant applies. All other revenue items are considered to be measurable and available only when the government receives cash.

The Town reports the following major governmental funds:

The *general fund* is the Town's primary operating fund. It accounts for and reports all financial resources of the general government, except those required to be accounted for in other funds.

The *capital projects fund* is used to account for and report financial resources to be used for the construction of major capital facilities, other than those financed by proprietary funds.

The Town reports the following major proprietary funds:

The *enterprise fund* accounts for the financing of services to the general public where all or most of the operating expenses involved are intended to be recovered in the form of user charges, or where management has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for management control, accountability or other purposes. The enterprise fund consists of the water and wastewater fund.

## Note 1-Summary of Significant Accounting Policies: (Continued)

C. Measurement focus, basis of accounting, and financial statement presentation: (Continued)

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are other charges between the Town's water and sewer function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Town's enterprise fund are charges to customers for sales and services. The Town also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expense, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

- D. Assets, liabilities, deferred outflows/inflows of resources, and net position or fund balance:
  - 1. Cash and cash equivalents

The Town's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments for the Town are reported at fair value. The State Treasurer's Local Government Investment Pool operates in accordance with appropriate state laws and regulations. The reported value of the pool is the same as the fair value of the pool shares.

2. Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by nonspendable fund balance in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

3. Inventories

Inventories consist of expendable supplies held for consumption. Inventories are presented at the lower of cost or market on a first-in, first-out basis and are expensed when used.

## Note 1-Summary of Significant Accounting Policies: (Continued)

- D. Assets, liabilities, deferred outflows/inflows of resources, and net position or fund balance: (Continued)
  - 4. Prepaid items

Payments to vendors for services that will benefit future periods are reported as prepaid items using the consumption method by recording a current asset for the prepaid amount at the time of purchase and reflecting the expenditure/expense when the services are consumed.

5. Property Taxes

Property is assessed at its value on January 1. Property taxes attach as an enforceable lien on property as of January 1. Taxes are payable on February 28. The Town bills and collects its own property taxes.

6. Allowance for Uncollectible Accounts

The Town calculates its allowance for uncollectible accounts for taxes using historical collection data and, in certain cases, specific account analysis. The allowance amounted to approximately \$28,188 for property taxes at June 30, 2015. Management considers all accounts receivable related to business-type activities to be fully collectible and accordingly, no allowance for doubtful accounts is considered necessary.

7. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

8. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items) are, reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. No interest was capitalized during the current or previous year.

## Note 1-Summary of Significant Accounting Policies: (Continued)

- D. Assets, liabilities, deferred outflows/inflows of resources, and net position or fund balance: (Continued)
  - 8. Capital Assets (Continued)

Property, plant, and equipment of the primary government are depreciated using the straight line method over the following estimated useful lives:

Assets	Years
Buildings and improvements	30-40
Machinery and equipment	5-10
Distribution/transmission systems	40-50
Water and wastewater plants	40-50
Infrastructure	20-40

9. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expenditure/expense) until then. The Town only has one item that qualifies for reporting in this category. It is comprised of contributions to the pension plan made during the current year and subsequent to the net pension liability measurement date, which will be recognized as a reduction of the net pension liability next fiscal year. For more detailed information on these items, reference the pension note.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Town has two types of items that qualify for reporting in this category. Under a modified accrual basis of accounting, unavailable revenue representing property taxes receivable is reported in the governmental funds balance sheet. This amount is comprised of uncollected property taxes due prior to June 30 and amounts prepaid is deferred and recognized as an inflow of resources in the period that the amount becomes available. Under the accrual basis, amounts prepaid are reported as deferred inflows of resources. In addition, certain items related to the measurement of the net pension liability are reported as deferred inflows of resources. These include differences between expected and actual experience, change in assumptions, and the net difference between projected and actual earnings on pension plan investments and differences between employer contributions and proportionate share of contributions. For more detailed information on these items, reference the pension note.

## Note 1-Summary of Significant Accounting Policies: (Continued)

- D. Assets, liabilities, deferred outflows/inflows of resources, and net position or fund balance: (Continued)
  - 10. Compensated Absences

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund only if they have matured (i.e. unused reimbursable leave still outstanding following an employee's resignation or retirement). In accordance with the provisions of Government Accounting Standards No. 16, *Accounting for Compensated Absences*, no liability is recognized for non-vesting accumulating rights to receive sick pay benefits. However, a liability is recognized for that portion of accumulating sick leave benefits that it is estimated will be taken as "terminal leave" prior to retirement. The Town accrues salary-related payments associated with the payment of compensated absences. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements.

11. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Town's Retirement Plan and the additions to/deductions from the Town's Retirement Plan's net fiduciary position have been determined on the same basis as they were reported by the Virginia Retirement System (VRS). For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

12. Long-term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources while discounts on debt issuances are reported as other financing uses.

## 13. Fund Equity

The Town reports fund balance in accordance with GASB Statement 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

Nonspendable fund balance - amounts that are not in spendable form (such as inventory and prepaids) or are required to be maintained intact (corpus of a permanent fund);

## Note 1-Summary of Significant Accounting Policies: (Continued)

- D. Assets, liabilities, deferred outflows/inflows of resources, and net position or fund balance: (Continued)
  - 13. Fund Equity (Continued)

Restricted fund balance - amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation;

Committed fund balance - amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint;

Assigned fund balance - amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority;

Unassigned fund balance - amounts that are available for any purpose; positive amounts are only reported in the general fund.

When fund balance resources are available for a specific purpose in more than one classification, it is the Town's policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed.

Town Council establishes (and modifies or rescinds) fund balance commitments by passage of an ordinance. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives). Assigned fund balance is established by Town Council through adoption or amendment of the budget as intended for specific purpose (such as the purchase of capital assets, construction, debt service, or for other purposes).

### 14. Net Position

Net position is the difference between a) assets and deferred outflows of resources and b) liabilities and deferred inflows of resources. Net investment in capital assets represents capital assets, less accumulated depreciation less any outstanding debt related to the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are also included in this component of net position.

### Note 1-Summary of Significant Accounting Policies: (Continued)

- D. Assets, liabilities, deferred outflows/inflows of resources, and net position or fund balance: (Continued)
  - 15. Net Position Flow Assumption

Sometimes the Town will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted - net position and unrestricted - net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the Town's policy to consider restricted - net position to have been depleted before unrestricted - net position is applied.

### Note 2-Stewardship, Compliance, and Accountability:

A. Budgetary information

The following procedures are used by the Town in establishing the budgetary data reflected in the financial statements:

- 1. Prior to June 30, the Town Manager submits to the Town Council a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them. The following funds have legally adopted budgets: General Fund, Capital Projects Fund, and the Water and Wastewater Fund.
- 2. Public hearings are conducted to obtain citizen comments.
- 3. Prior to June 30, the budget for the general fund is legally enacted through passage of an Appropriations Resolution. Town Council may, from time to time, amend the budget, providing for additional expenditures and the means for financing them.
- 4. The Appropriations Resolution places legal restrictions on expenditures at the function level. Management can over-expend at the line item level without approval of Town Council.
- 5. Formal budgetary integration is employed as a management control device during the year.
- 6. Budgets are adopted utilizing the modified accrual basis of accounting.
- 7. Appropriations lapse on June 30 for all Town units.
- 8. All budgetary data presented is the final revised budget.
- B. Excess of expenditures over appropriations

For the fiscal year ended June 30, 2015, expenditures did not exceed appropriations in any departments.

## Notes to Financial Statements (Continued) June 30, 2015

## Note 2-Stewardship, Compliance, and Accountability: (Continued)

C. Deficit fund equity

At June 30, 2015, there were no funds with negative equity.

### Note 3-Deposits and Investments:

### **Deposits**

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act") Section 2.2-4400 et. seq. of the <u>Code of Virginia</u>. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial Institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

### Investments

Statutes authorize local governments and other public bodies to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper and certain corporate notes, banker's acceptances, repurchase agreements, and the State Treasurer's Local Government Investment Pool (LGIP).

### **Investment Policy**

In accordance with the <u>Code of Virginia</u> and other applicable law, including regulations, the Town's investment policy (Policy) permits investments in U.S. treasury securities, U.S. agency securities, prime quality commercial paper, non-negotiable certificates of deposit and time deposits of Virginia banks, negotiable certificates of deposit of domestic banks, banker's acceptances with domestic banks, Commonwealth of Virginia and Virginia Local Government Obligations, repurchase agreements collateralized by the U.S. treasury/agency securities, the Virginia State Non-Arbitrage Program or other authorized Arbitrage Investment Management programs, and the State Treasurer's Local Government Investment Pool (the Virginia LGIP, a2a-7 like pool). Pursuant to Sec.2.1-234.7 of the <u>Code of Virginia</u>, the Treasury Board of the Commonwealth sponsors the LGIP and has delegated certain functions to the State Treasurer. The LGIP reports to the Treasury Board at their regularly scheduled monthly meetings and the fair value of the position in LGIP is the same as the value of the pool share (i.e., the LGIP maintains a stable net position value of \$1 per share). The LGIP investment policy specifies that no investment may have a maturity greater than one year from the date of purchase.

The Policy limits investment maturities to five years maximum maturity for any negotiable certificate of deposit or any sovereign government obligation excluding those of the United States; to 15 years for any single corporate security; and five years for any single asset-backed security.

## Note 3-Deposits and Investments: (Continued)

### Credit Risk of Debt Securities

As required by state statute, the Policy requires that commercial paper have a short-term debt rating of no less than "A-1" (or its equivalent) from at least two of the following: Moody's Investors Service, Standard & Poor's, and Fitch Investors Service, provided that the issuing corporation has a net worth of at least \$50 million and its long term debt is rated "A" or better by Moody's and Standard & Poor's.

Banker's acceptances and Certificates of Deposit maturing in less than one year must have a short-term debt rating of at least "A-1" by Standard & Poor's and "P-1" by Moody's Investors Service.

Although the intent of the Policy is for the Town to diversify its investment portfolio to avoid incurring unreasonable risks regarding (i) security type, (ii) individual financial institution or issuing entity, and (iii) maturity, the policy places no limit on the amount the Town may invest in any one issuer.

As of June 30, 2015, issuers that equal or exceed 5% of the total portfolio are as follows:

	% of Portfolio
Certificates of Deposit	63%
Federal Farm Credit	4%
Federal National Mortgage Association	<b>9</b> %
LGIP	24%

The Town's rated debt investments as of June 30, 2015 were rated by Standard and Poor's and the ratings are presented below using the Standard and Poor's rating scale.

Town's Rated Debt Investment Value						
Rated Debt Investments	Fair Quality Ratings					
	AAAm AA+ Unrated					
Certificates of Deposit	\$	-			\$	3,580,456
Federal Farm Credit		-		227,663		-
Federal National Mortgage Association		-		499,195		-
LGIP		1,336,422		-		-
Total	\$	1,336,422	\$	726,858	\$	3,580,456

## Notes to Financial Statements (Continued) June 30, 2015

## Note 3-Deposits and Investments: (Continued)

### Interest Rate Risk

All Town investments must be in securities maturing within five years.

	Inv			
Investment Type	Fair Value	< 1 year	1-5 years	Call options
Certificates of Deposit	\$ 2,899,312	\$ -	\$ 2,899,312	None
Certificate of Deposit	190,353	-	190,353	4/10/2017
Certificate of Deposit	245,105	-	245,105	7/25/2015
Certificate of Deposit	245,686	-	245,686	11/30/2015
Federal Farm Credit	227,663	-	227,663	7/1/2015
Federal National Mortgage Association	499,195	-	499,195	9/26/2015
Total	\$ 4,307,314	\$-	\$ 4,307,314	

## Custodial Credit Risk

The Policy requires that all investment securities shall be held in safekeeping by a third party and evidenced by safekeeping receipts. As required by the <u>Code of Virginia</u>, all security holdings with maturities over 30 days may not be held in safekeeping with the "counterparty" to the investment transaction. As of June 30, all of the Town's investments are held in a bank's trust department in the Town's name.

## Note 4-Due from Other Governmental Units:

The following amounts represent receivables from other governments at year-end:

	Governmental Activities		
Local Government:			
Franklin County	\$ 7,557		
Commonwealth of Virginia:			
Sales Tax	31,078		
Communication Tax	16,437		
Total	\$ 55,072		

# Notes to Financial Statements (Continued) June 30, 2015

### Note 5-Interfund Transfers:

Interfund transfers for the year ended June 30, 2015 consisted of the following:							
Fund	Transfers In		Transfers Out				
Primary Government:							
General Fund	\$	-	\$	257,139			
Water and Wastewater Fund		257,139		-			
Total	\$	257,139	\$	257,139			

The primary purpose of transfers is to eliminate negative pooled cash amounts due to normal operations.

# Note 6-Component-Unit Obligations:

At year end, the component-unit Harvester Performance Center carries a liability to the Town's general fund for monies advanced during the year to cover expenses.

Fund	Gov	Due to Primary Government/ Component Unit		to Primary /ernment/ ponent Unit
Primary Government: General Fund	\$	-	\$	758,240
Component Unit - Harvester Performance Center: Performance Venue Fund		758,240		-
Total	\$	758,240	\$	758,240

# Note 7-Capital Assets:

Capital asset activity for the year ended June 30, 2015 was as follows:

	Beginning Balance, as restated	Increases	Decreases	Ending Balance
Governmental Activities:				
Capital assets, not being depreciated: Land	\$ 2,626,168	\$ -	\$ -	\$ 2,626,168

# Note 8-Long-term Obligations:

# Primary Government - Governmental Activities:

The following is a summary of long-term obligations transactions of the Town for the year ended June 30, 2015:

	Balance July 1, 2014, as restated	Increases/ Issuances	Decreases/ Retirements	Balance June 30, 2015
Notes payable	\$ 1,145,000	\$-	\$ (165,000)	\$ 980,000
Capital lease	-	73,240	(19,792)	53,448
Compensated absences	228,488	55,736	(57,122)	227,102
Net OPEB obligation	187,113	43,120	(6,933)	223,300
Net pension liability	2,015,710	699,339	(1,148,620)	1,566,429
Total	\$ 3,576,311	\$ 871,435	\$ (1,397,467)	\$ 3,050,279

The general government compensated absences, pension obligations, and postemployment benefits are generally liquidated by the general fund.

## Note 8-Long-term Obligations: (Continued)

## Primary Government - Governmental Activities: (Continued)

Annual requirements to amortize long-term debt and related interest are as follows:

Year Ending		Note Payable						
June 30,	F	Principal		Interest				
2016	\$	165,000	\$	40,174				
2017		165,000		35,059				
2018		165,000		28,294				
2019		165,000		21,529				
2020		160,000		14,764				
2021		160,000		8,003				
Totals	\$	980,000	\$	147,823				

The Town has entered into a capital lease for two police vehicles. The lease agreement qualifies as a capital lease for accounting purposes and therefore has been recorded at the present value of future minimum lease payments as of the inception date.

Total capital assets acquired through the capital lease are as follows:

Police vehicles	\$ 72,815
Accumulated Depreciation	-
Net Book Value of Capital Assets	\$ 72,815

Present value of future minimum lease payments:

Year Ending June 30,	 Capital Leases
2016	\$ 19,792
2017	19,792
2018	19,793
Total minimum lease payments	\$ 59,377
Less: amount representing interest	(5,929)
Present value of future minimum lease payments	\$ 53,448

## Note 8-Long-term Obligations: (Continued)

## Primary Government - Governmental Activities: (Continued)

Details of long-term obligations:

	Interest Rates	Date Issued	Final Maturity	Original Amount	Amount utstanding	 ount Due thin One Year
Note Payable:						
Emergency Services Building	3.70%	12/10	12/21	\$ 1,640,000	\$ 980,000	\$ 165,000

## Note 9-Pension Plan:

## Plan Description

All full-time, salaried permanent employees of the Town and Component Unit Harvester Performance Center are automatically covered by VRS Retirement Plan upon employment. This is an agent multipleemployer plan administered by the Virginia Retirement System (the System) along with plans for other employer groups in the Commonwealth of Virginia. Members earn one month of service credit for each month they are employed and for which they and their employer pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria as defined in the <u>Code of Virginia</u>, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously refunded service.

The System administers three different benefit structures for covered employees - Plan 1, Plan 2, and, Hybrid. Each of these benefit structures has a different eligibility criteria. The specific information for each plan and the eligibility for covered groups within each plan are set out in the table below:

RETIREMENT PLAN PROVISIONS							
PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN					
About Plan 1 Plan 1 is a defined benefit plan. The retirement benefit is based on a member's age, creditable service and average final compensation at retirement using a formula. Employees are eligible for Plan 1 if their membership date is before July 1, 2010, and they were vested as of January 1, 2013.	About Plan 2 Plan 2 is a defined benefit plan. The retirement benefit is based on a member's age, creditable service and average final compensation at retirement using a formula. Employees are eligible for Plan 2 if their membership date is on or after July 1, 2010, or their membership date is before July 1, 2010, and they were not vested as of January 1, 2013.	About the Hybrid Retirement Plan The Hybrid Retirement Plan combines the features of a defined benefit plan and a defined contribution plan. Most members hired on or after January 1, 2014 are in this plan, as well as Plan 1 and Plan 2 members who were eligible and opted into the plan during a special election window. (see "Eligible Members") • The defined benefit is based on a member's age, creditable service and average final compensation at retirement using a formula. • The benefit from the defined contribution component of the plan depends on the member and employer contributions made to the plan and the investment performance of those contributions.

RETIREMENT PLAN PROVISIONS (CONTINUED)						
PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN				
Hybrid Opt-In Election (Cont.) Members who were eligible for an optional retirement plan (ORP) and had prior service under Plan 1 were not eligible to elect the Hybrid Retirement Plan and remain as Plan 1 or ORP.	Hybrid Opt-In Election (Cont.) Members who were eligible for an optional retirement plan (ORP) and have prior service under Plan 2 were not eligible to elect the Hybrid Retirement Plan and remain as Plan 2 or ORP.	*Non-Eligible Members (Cont.) Those employees eligible for an optional retirement plan (ORP) must elect the ORP plan or the Hybrid Retirement Plan. If these members have prior service under Plan 1 or Plan 2, they are not eligible to elect the Hybrid Retirement Plan and must select Plan 1 or Plan 2 (as applicable) or ORP.				
Retirement Contributions Employees contribute 5% of their compensation each month to their member contribution account through a pre-tax salary reduction. Some political subdivisions and school divisions elected to phase in the required 5% member contribution but all employees will be paying the full 5% by July 1, 2016. Member contributions are tax-deferred until they are withdrawn as part of a retirement benefit or as a refund. The employer makes a separate actuarially determined contribution to VRS for all covered employees. VRS invests both member and employer contributions to provide funding for the future benefit payment.	Retirement Contributions Employees contribute 5% of their compensation each month to their member contribution account through a pre-tax salary reduction. Some political subdivisions and school divisions elected to phase in the required 5% member contribution but all employees will be paying the full 5% by July 1, 2016.	Retirement Contributions A member's retirement benefit is funded through mandatory and voluntary contributions made by the member and the employer to both the defined benefit and the defined contribution components of the plan. Mandatory contributions are based on a percentage of the employee's creditable compensation and are required from both the member and the employer. Additionally, members may choose to make voluntary contributions to the defined contribution component of the plan, and the employer is required to match those voluntary contributions according to specified percentages.

RETIREMENT PLAN PROVISIONS (CONTINUED)		
PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN
Creditable Service Creditable service includes active service. Members earn creditable service for each month they are employed in a covered position. It also may include credit for prior service the member has purchased or additional creditable service the member was granted. A member's total creditable service is one of the factors used to determine their eligibility for retirement and to calculate their retirement benefit. It also may count toward eligibility for the health insurance credit in retirement, if the employer offers the health insurance credit.	Creditable Service Same as Plan 1.	Creditable Service <u>Defined Benefit Component:</u> Under the defined benefit component of the plan, creditable service includes active service. Members earn creditable service for each month they are employed in a covered position. It also may include credit for prior service the member has purchased or additional creditable service the member was granted. A member's total creditable service is one of the factors used to determine their eligibility for retirement and to calculate their retirement benefit. It also may count toward eligibility for the health insurance credit in retirement, if the employer offers the health insurance credit. <u>Defined Contributions</u> <u>Component:</u> Under the defined contribution component, creditable service is used to determine vesting for the employer contribution portion of the plan.

RETIREMENT PLAN PROVISIONS (CONTINUED)			
PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN	
Vesting Vesting is the minimum length of service a member needs to qualify for a future retirement benefit. Members become vested when they have at least five years (60 months) of creditable service. Vesting means members are eligible to qualify for retirement if they meet the age and service requirements for their plan. Members also must be vested to receive a full refund of their member contribution account balance if they leave employment and request a refund. Members are always 100% vested in the contributions that they make.	Vesting Same as Plan 1.	Vesting <u>Defined Benefit Component:</u> Defined benefit vesting is the minimum length of service a member needs to qualify for a future retirement benefit. Members are vested under the defined benefit component of the Hybrid Retirement Plan when they reach five years (60 months) of creditable service. Plan 1 or Plan 2 members with at least five years (60 months) of creditable service who opted into the Hybrid Retirement Plan remain vested in the defined benefit component. <u>Defined Contributions</u> <u>Component:</u> Defined contribution vesting refers to the minimum length of service a member needs to be eligible to withdraw the employer contributions from the defined contributions from the defined contributions that they make.

After that one- year period, the rate for most categories of service will change to actuarial cost.</li> <li><u>Defined Contribution</u> <u>Component:</u> Not applicable.</li> </ul>

## Note 9-Pension Plan: (Continued)

## Plan Description (Continued)

The System issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for VRS. A copy of the most recent report may be obtained from the VRS website at <u>http://www.varetire.org/Pdf/Publications/2014-annual-report.pdf</u> or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

### Employees Covered by Benefit Terms

As of the June 30, 2013 actuarial valuation, the following employees were covered by the benefit terms of the pension plan:

	Number
Inactive members or their beneficiaries currently receiving benefits	35
Inactive members: Vested inactive members	14
Non-vested inactive members	12
Inactive members active elsewhere in VRS	18
Total inactive members	44
Active members	58
Total covered employees	137

### Contributions

The contribution requirement for active employees is governed by \$51.1-145 of the <u>Code of Virginia</u>, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement. Prior to July 1, 2012, all or part of the 5.00% member contribution may have been assumed by the employer. Beginning July 1, 2012 new employees were required to pay the 5% member contribution. In addition, for existing employees, employers were required to begin making the employee pay the 5.00% member contribution. This could be phased in over a period of up to 5 years and the employer is required to provide a salary increase equal to the amount of the increase in the employee-paid member contribution.

The Town's contractually required contribution rate for the year ended June 30, 2015 was 14.61% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2013.

## Note 9-Pension Plan: (Continued)

### *Contributions (Continued)*

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the Town were \$350,465 and \$332,611 for the years ended June 30, 2015 and June 30, 2014, respectively.

The Component Unit Harvester Performance Center's contractually required contribution rate for the year ended June 30, 2015 was 14.61% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2013.

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the Component Unit Harvester Performance Center were \$19,294 and \$18,311 for the years ended June 30, 2015 and June 30, 2014, respectively.

## Net Pension Liability

The Town's and Component Unit Harvester Performance Center's net pension liabilities were measured as of June 30, 2014. The total pension liabilities used to calculate the net pension liabilities were determined by an actuarial valuation performed as of June 30, 2013, using updated actuarial assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2014.

### Actuarial Assumptions - General Employees

The total pension liability for General Employees in the Town of Rocky Mount Retirement Plan was based on an actuarial valuation as of June 30, 2013, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2014.

Inflation	2.5%
Salary increases, including inflation	3.5% - 5.35%
Investment rate of return	7.0%, net of pension plan investment expense, including inflation*

\* Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 7.0%. However, since the difference was minimal, and a more conservative 7.0% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 7.0% to simplify preparation of pension liabilities.

Pre-Retirement:

RP-2000 Employee Mortality Table Projected with Scale AA to 2020 with males set forward 4 years and females set back 2 years

Post-Retirement:

RP-2000 Combined Mortality Table Projected with Scale AA to 2020 with males set forward 1 year

Post-Disablement:

RP-2000 Disability Life Mortality Table Projected to 2020 with males set back 3 years and no provision for future mortality improvement

The actuarial assumptions used in the June 30, 2013 valuation were based on the results of an actuarial experience study for the period from July 1, 2008 through June 30, 2012. Changes to the actuarial assumptions as a result of the experience study are as follows:

Largest 10 - Non-LEOS:

- Update mortality table
- Decrease in rates of service retirement
- Decrease in rates of disability retirement
- Reduce rates of salary increase by 0.25% per year

All Others (Non 10 Largest) - Non-LEOS:

- Update mortality table
- Decrease in rates of service retirement
- Decrease in rates of disability retirement
- Reduce rates of salary increase by 0.25% per year

## Note 9-Pension Plan: (Continued)

## Actuarial Assumptions - Public Safety Employees

The total pension liability for Public Safety employees in the Town of Rocky Mount Retirement Plan was based on an actuarial valuation as of June 30, 2013, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2014.

Inflation	2.5%
Salary increases, including inflation	3.5% - 4.75%
Investment rate of return	7.0%, net of pension plan investment expense, including inflation*

\* Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 7.0%. However, since the difference was minimal, and a more conservative 7.0% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 7.0% to simplify preparation of pension liabilities.

Mortality rates: 60% of deaths are assumed to be service related

Largest 10 - Non-LEOS:

#### Pre-Retirement:

RP-2000 Employee Mortality Table Projected with Scale AA to 2020 with males set back 2 years and females set back 2 years

## Note 9-Pension Plan: (Continued)

## Actuarial Assumptions - Public Safety Employees (Continued)

The actuarial assumptions used in the June 30, 2013 valuation were based on the results of an actuarial experience study for the period from July 1, 2008 through June 30, 2012. Changes to the actuarial assumptions as a result of the experience study are as follows:

Largest 10 - LEOS:

- Update mortality table
- Decrease in male rates of disability

All Others (Non 10 Largest) - LEOS:

- Update mortality table
- Adjustments to rates of service retirement for females
- Increase in rates of withdrawal
- Decrease in male and female rates of disability

## Note 9-Pension Plan: (Continued)

## Long-Term Expected Rate of Return

The long-term expected rate of return on pension System investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

			Weighted
		Arithmetic	Average
		Long-Term	Long-Term
	Target	Expected	Expected
Asset Class (Strategy)	Allocation	Rate of Return	Rate of Return
U.S. Equity	19.50%	6.46%	1.26%
Developed Non U.S. Equity	16.50%	6.28%	1.04%
Emerging Market Equity	6.00%	10.00%	0.60%
Fixed Income	15.00%	0.09%	0.01%
Emerging Debt	3.00%	3.51%	0.11%
Rate Sensitive Credit	4.50%	3.51%	0.16%
Non Rate Sensitive Credit	4.50%	5.00%	0.23%
Convertibles	3.00%	4.81%	0.14%
Public Real Estate	2.25%	6.12%	0.14%
Private Real Estate	12.75%	7.10%	0.91%
Private Equity	12.00%	10.41%	1.25%
Cash	1.00%	-1.50%	-0.02%
Total	100.00%		5.83%
		Inflation	2.50%
	*Expected arithme	tic nominal return	8.33%

\* Using stochastic projection results provides an expected range of real rates of return over various time horizons. Looking at one year results produces an expected real return of 8.33% but also has a high standard deviation, which means there is high volatility. Over larger time horizons the volatility declines significantly and provides a median return of 7.44%, including expected inflation of 2.50%.

## Note 9-Pension Plan: (Continued)

## Discount Rate

The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that System member contributions will be made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ending June 30, 2018, the rate contributed by the employer for the Town Retirement Plan will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly. From July 1, 2018 on, participating employers are assumed to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

### Changes in Net Pension Liability

# Note 9-Pension Plan: (Continued)

# Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the Town and Component Unit Harvester Performance Center using the discount rate of 7.00%, as well as what the Town's and Component Unit Harvester Performance Center's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00%) or one percentage point higher (8.00%) than the current rate:

	Rate					
	(6.00%)	(7.00%)	(8.00%)			
Town Net Pension Liability	3,405,814	2,067,018	961,991			
Component Unit Harvester Performance Center Net Pension Liability	187,503	113,797	52,961			

# Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2015, the Town and Component Unit Harvester Performance Center recognized pension expense of \$216,637 and \$11,926, respectively. At June 30, 2015, the Town and Component Unit Harvester Performance Center reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Primary Government				Component Unit Harvester Performance Center			
	_	Deferred Outflows of Resources		Deferred Inflows of Resources		Deferred Outflows of Resources	Deferred Inflows of Resources	
Differences between expected and actual experience	\$	-	\$	-	\$	- \$	-	
Change in assumptions		-		-		-	-	
Net difference between projected and actual earnings on pension plan investments		-		476,886			26,254	
Employer contributions subsequent to the measurement date		350,465	_	-	_	19,294	-	
Total	\$	350,465	\$	476,886	\$_	19,294 \$	26,254	

# Note 9-Pension Plan: (Continued)

# *Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)*

\$350,465 and \$19,294 were reported as deferred outflows of resources related to pensions resulting from the Town's and Component Unit Harvester Performance Center's contributions, respectively, subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30		Primary Government	Component Unit Harvester Performance Center			
2016	\$	(119,222)	\$	(6,564)		
2017		(119,222)		(6,564)		
2018		(119,222)		(6,564)		
2019		(119,220)		(6,562)		
Thereafter		-		-		

# Note 10-Other Postemployment Benefits (OPEB):

## Plan Description

The Town provides postemployment medical and dental coverage for retired employees through a singleemployer defined benefit plan. The plan is established under the authority of Town Council, which may also amend the plan as deemed appropriate. The plan does not issue a publicly available financial report.

The plan will provide retiring employees the option to continue health and dental insurance offered by the Town. Participants in the Town's OPEB plan must have attained 5 years of service and must have attained the age of 55, or 10 years of service and attained age 50 to be eligible and may remain on the Town's policy until death. Members who retire from the Town are also eligible after 5 years of service and attained the age of 65.

Health benefits include medical and dental. Participating retirees pay 100% of monthly premiums to continue with the Town's insurance plans.

# Funding Policy

The Town currently funds postemployment health care benefits on a pay-as-you-go basis and the retiree pays 100% of premiums.

# Note 10-Other Postemployment Benefits (OPEB): (Continued)

# Annual OPEB Cost and Net OPEB Obligation

The Town's annual other postemployment benefit (OPEB) cost is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the Town's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the Town's net OPEB obligation:

Annual required contribution	\$ 56,000
Interest on net OPEB obligation	10,000
Adjustment to annual required contribution	 (10,000)
Annual OPEB cost (expense)	\$ 56,000
Contributions made	 (15,000)
Increase in net OPEB obligation	\$ 41,000
Net OPEB obligation - beginning of year	 249,000
Net OPEB obligation - end of year	\$ 290,000

The Town's annual OPEB cost, the percentage of annual OPEB cost contributed to the Plan, and the net OPEB obligation for the current and preceding two years was as follows:

Fiscal Year Ended	Annual PEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation			
6/30/2013 6/30/2014	\$ 37,000 39,000		\$	229,000 249,000		
6/30/2015	56,000	47% 27%		249,000		

# Funded Status and Funding Progress

The funded status of the Plan as of July 1, 2014, the most recent actuarial valuation, was as follows:

Actuarial accrued liability (AAL)	\$ 492,000
Actuarial value of plan assets	-
Unfunded actuarial accrued liability (UAAL)	\$ 492,000
Funded ratio (actuarial value of plan assets/AAL)	 0.00%
and caracter (accounter value of plan assets / will)	0.00/0
Covered payroll (active plan members)	\$ 4,787,535

# Note 10-Other Postemployment Benefits (OPEB): (Continued)

# Funded Status and Funding Progress (Continued)

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

## Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2014, the most recent actuarial valuation, the projected unit credit actuarial cost method was used to determine liabilities. Under this method, the postretirement health costs are assumed to be earned ratably from the date of hire to the participant's full eligibility age. The actuarial assumptions used a 2.5% inflation rate, 4.0% investment rate of return, and a health care trend rate of 8.333% decreasing 0.333% per year until an ultimate rate of 5.00%. The unfunded accrued liability is being amortized as a level percent over 30 years. Amortizations are open ended in that they begin anew at each valuation date.

# Note 11-Property Taxes:

The major sources of property taxes are real estate and personal property taxes. The assessments are the responsibility of Franklin County, while billing and collection are the Town's responsibilities.

Property taxes are levied annually on assessed values as of January 1 and are due by February 28 of the following calendar year. Personal property taxes do not create a lien on property.

The annual assessment for real estate is based on 100% of the assessed fair market value. A penalty of 10% of the unpaid tax is due for late payment. Interest is accrued at 10% for the initial year of delinquency, and thereafter at the maximum annual rate authorized by the *Internal Revenue Code* Section 6621(b). The effective tax rates per \$100 of assessed value for the year ended June 30 were as follows:

Real estate	\$ 0.13
Personal Property	\$ 0.51
Machinery and Tools	\$ 0.17

# Note 12-Unavailable/Deferred Revenue:

Unavailable/deferred revenue represents amounts for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. Under the modified accrual basis of accounting, such amounts are measurable, but not available. Unavailable revenue totaling \$60,431 is comprised of the following:

<u>Property Taxes</u> - Property tax revenue representing uncollected tax billings not available for funding current expenditures totaled \$60,104.

<u>Prepaid Property Taxes</u> - Property taxes due subsequent to June 30, 2015 but paid in advance by the taxpayers totaled \$327.

## Note 13-Harvester Performance Center:

The Economic Development Authority (EDA) of the Town was created by the Town in 2012. The first project for the Authority was facilitating the construction of the Harvester Performance Center (HPC). The HPC was completed and began operations in April 2014. There are six limited liability companies (LLCs) associated with the Harvester Performance Center (HPC) in which the EDA has an interest. The LLCs were set up with the assistance of Gentry Locke Rakes and Moore, LLP, Attorneys. Funding for the construction of the HPC was obtained in part through approximately \$1,000,000 in investments related to federal and state historic tax credits. The Town used a \$500,000 grant from the State Tobacco Commission for equipment related to the HPC.

The various LLC's are: Performance Center Building LLC, Performance Center Manager LLC, Performance Center Development LLC, Performance Center SCP LLC, Performance Center Tenant LLC, Harvester Performance Center LLC.

The Town leased the building prior to rehabilitation to the EDA under a 40 year lease at a rate of \$1 per year for 40 years. The EDA prepaid the entire lease during fiscal year 2015. The EDA leased the building to Performance Center Building LLC at a rate of \$1 per year for 40 years along with the commitment by Performance Center Building LLC that Performance Center Building LLC would rehabilitate the building. The Town contributed funds to finance the renovation costs to the EDA, who then loaned the funds to Performance Center Building LLC. The EDA, through its affiliate, Performance Center Development LLC oversaw the development of the HPC.

The EDA is the holder of the construction loan to Performance Center Building LLC. The EDA holds the master lease for 40 years, leasing the property to Performance Center Building LLC. The EDA is the sole member of Performance Center Manager LLC and Performance Center Development LLC. As Performance Center Building LLC repays its obligation to the EDA and as the EDA receives compensation for its development services provided to HPC through the EDA's affiliate (Performance Center Development LLC), the EDA will contribute such funds to the Town under the contribution agreement in place between the Town and the EDA.

Performance Center Manager LLC leased certain furniture and equipment to Performance Center Tenant LLC. Performance Center Manager LLC is the 89% managing member of the Performance Center Building LLC and a .01% managing member of Performance Center SCP LLC.

## Note 13-Harvester Performance Center: (Continued)

Performance Center SCP LLC is a 1% State historic tax credit member and is governed by Preservation 2014 LLC, the 99.99% member of Performance Center SCP LLC.

CB Performance Center LLC is the 99% investor member of Performance Center Tenant LLC. CB Performance Center LLC's sole member is Carter Bank & Trust who is an investor member.

Performance Center Development LLC provided ongoing development services to the HPC project prior to and during the development of the HPC rehabilitation. The sole member of Performance Center Development LLC is the EDA.

Performance Center Building LLC is the borrower of funds from the EDA for the construction and rehabilitation of the HPC and pays a lease payment of \$1 per year for 40 years to the EDA for its lease of the facility. The members of Performance Center Building LLC are: Performance Center Manager LLC, the 89% managing member; Performance Center SCP LLC, the 1% state credit investor member; and Performance Center Tenant LLC, the 10% federal credit investor member. Performance Center Tenant LLC leases the property from Performance Center Building LLC.

Performance Center Tenant LLC is the operating entity of HPC. Performance Center Tenant LLC has leased certain equipment and furniture from Performance Center Manager LLC. The members of Performance Center Tenant are: CB Performance Center LLC, the 99% investor member; and Harvester Performance Center LLC the 1% managing member. Performance Center Tenant LLC receives 45% of concession receipts and all ticket sales related to the operation of the HPC. Performance Center Tenant pays rent to Performance Center Building LLC.

Harvester Performance Center LLC operates the concession stands and holds the ABC license for the facility. Revenues consist of merchandise, food, and alcohol sales. Forty-five percent of the gross receipts go to Performance Center Tenant LLC (the operating entity). Harvester Performance Center LLC has a concession lease, leasing space from Performance Center Tenant LLC. The sole member of Harvester Performance Center LLC is the EDA.

There are four checking accounts related to operation of the HPC. Harvester Performance Center Tenant LLC Accounts: the Deposit Income account collects the ticket sales and pays the state sales tax and the local meals tax and all ticketing expenses and distributes funds to the other accounts as appropriate; expenses of the Artist Deposit account are for down payment funds needed at the time a contract is signed by a performer; the Artist Settlement account has expenses related to the performance (these include funds to the performers, stage and box office help, band hospitality and catering). The Harvester Performance Center LLC concessions account is for the purchase of beer and wine and other items for the concession stand and processes sales of such concessions.

With operations beginning in April 2014, the Town has contributed funds to the EDA to support Performance Center Manager LLC's (whose sole member is the EDA) obligation to fund operating deficit loans to pay for expenses related to the HPC. These include advertising, security, cleaning, other contractual services, supplies and payroll expenses. Appropriate "due from" notes related to the HPC are shown in the Town's general ledger. The expectation is that the HPC will pay for all expenses through ticket and concession sales.

A schematic drawing of the various LLC relationships can be found on page 4.

## Note 14-Risk Management:

The Town is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and natural disasters. The Town participates with other localities in a public entity risk pool for their coverage of general liability, property, crime, machinery and auto insurance with the Virginia Municipal League. Each member of this risk pool jointly and severally agrees to assume, pay and discharge any liability. The Town pays the Virginia Municipal League contributions and assessments which are deposited into a designated cash reserve fund out of which expenses of the pool, claims and awards are to be paid. In the event of a loss, deficit, or depletion of all available resources, the pool may assess all members in the proportion to which the premium of each bears to the total premiums of all members in the year in which such deficit occurs. The Town continues to carry commercial insurance for all other risks of loss. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

## Note 15-Surety Bonds:

VML Insurance Programs Employee Dishonesty

\$ 1,000,000

# Note 16-Adoption of Accounting Principles:

Governmental Accounting Standards Board Statement No. 68, Accounting and Financial Reporting for Pensions - an amendment of GASB Statement No. 27 and Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date - an amendment of GASB Statement No. 68:

The Town implemented the financial reporting provisions of the above Statements for the fiscal year ended June 30, 2015. These Statements establish standards for measuring and recognizing liabilities, deferred outflows of resources, and deferred inflows of resources, and expense/expenditures related to pensions. Note disclosure and required supplementary information requirements about pensions are also addressed. The requirements of these Statements will improve financial reporting by improving accounting and financial reporting by state and local governments for pensions. The implementation of these Statements resulted in restatement of net position see Note 18.

## Note 17-Upcoming Pronouncements:

Statement No. 72, *Fair Value Measurement and Application*, amends the definitions of fair value used throughout GASB literature to be consistent with the definition and principles provided in FASB Accounting Standards Codification Topic 820, *Fair Value Measurement*. This Statement provides guidance for determining a fair value measurement for financial reporting purposes and for applying fair value to certain investments and disclosures related to all fair value measurements. The requirements of this Statement are effective for financial statements for periods beginning after June 15, 2015. No formal study or estimate of the impact of this standard has been performed.

# Note 17-Upcoming Pronouncements: (Continued)

Statement No. 73, Accounting and Financial Reporting for Pensions and Related Assets That are Not Within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68, establishes requirements for defined benefit pensions that are not within the scope of Statement No. 68, Accounting and Financial Reporting for Pensions, as well as for the assets accumulated for purposes of providing those pensions. In addition, it establishes requirements for defined contribution pensions that are not within the scope of Statement 68 and amends certain provisions of Statement No. 67, Financial Reporting for Pension Plans, and Statement 68 for pension plans and pensions that are within their respective scopes. The requirements of this Statement that address accounting and financial reporting by employers and governmental nonemployer contributing entities for pensions that are not within the scope of Statement 68 are effective for fiscal years beginning after June 15, 2016, and the requirements of this Statement that address financial reporting for assets accumulated for purposes of providing those pensions are effective for fiscal years beginning after June 15, 2015. The requirements of this Statement 68 are effective for fiscal years beginning after June 15, 2015. No formal study or estimate of the impact of this standard has been performed.

Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, improves the usefulness of information about postemployment benefits other than pensions (other postemployment benefits or OPEB) included in the general purpose external financial reports of state and local governmental OPEB plans for making decisions and assessing accountability. This Statement replaces Statements No. 43, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, as amended, and No. 57, *OPEB Measurements by Agent Employers and Agent Multiple Employer Plans*. It also includes requirements for defined contribution OPEB plans that replace the requirements for those OPEB plans in Statement No. 25, *Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans*, as amended, Statement 43, and Statement No. 50, *Pension Disclosures*. This Statement is effective for financial statements for fiscal years beginning after June 15, 2016. No formal study or estimate of the impact of this standard has been performed.

Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pension, improves accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). This Statement replaces the requirements of Statements No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions, as amended, and No. 57, OPEB Measurements by Agent Employers and Agent Multiple Employer Plans, for OPEB. Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans, establishes new accounting and financial reporting requirements for OPEB plans. This Statement is effective for fiscal years beginning after June 15, 2017. No formal study or estimate of the impact of this standard has been performed.

Statement No. 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*, objective is to identify—in the context of the current governmental financial reporting environment—the hierarchy of generally accepted accounting principles (GAAP). This Statement supersedes Statement No. 55, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*. The requirements of this Statement are effective for financial statements for periods beginning after June 15, 2015, and should be applied retroactively. No formal study or estimate of the impact of this standard has been performed.

# Note 17-Upcoming Pronouncements: (Continued)

Statement No. 77, *Tax Abatement Disclosures,* will increase the disclosure of tax abatement agreements to disclose information about the agreements. The requirements of this Statement improve financial reporting by giving users of financial statements essential information that is not consistently or comprehensively reported to the public at present. The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2015. No formal study or estimate of the impact of this standard has been performed.

## Note 18-Restatement of Beginning Fund Balance and Net Position:

Beginning fund balance and net position has been restated for the current fiscal year as detailed below:

	Gover	nmental Funds	Com	ponent-Unit
	Pe	erformance	Harveste	er Performance
		Venue		Center

Component L 2015	nit Harvester \$19,29		rmance Center 19,294	\$	-	\$	132,063	15%

Schedule is intended to show information for 10 years. Since 2015 is the first year for this presentation, no other data is available. However, additional years will be included as they become available.

Changes of benefit terms - There have been no significant changes to the System benefit provisions since the prior actuarial valuation. A hybrid plan with changes to the defined benefit plan structure and a new defined contribution component were adopted in 2012. The hybrid plan applies to most new employees hired on or after January 1, 2014 and not covered by enhanced hazardous duty benefits. The liabilities presented do not reflect the hybrid plan since it covers new members joining the System after the valuation date of June 30, 2013 and the impact on the liabilities as of the measurement date of June 30, 2014 are minimal.

Changes of assumptions - The following changes in actuarial assumptions were made effective June 30, 2013 based on the most recent experience study of the System for the four-year period ending June 30, 2012:

Largest 10 - Non-LEOS:

- Update mortality table
- Decrease in rates of service retirement
- Decrease in rates of disability retirement
- Reduce rates of salary increase by 0.25% per year

Largest 10 - LEOS:

- Update mortality table
- Decrease in male rates of disability

All Others (Non 10 Largest) - Non-LEOS:

- Update mortality table
- Decrease in rates of service retirement
- Decrease in rates of disability retirement
- Reduce rates of salary increase by 0.25% per year

All Others (Non 10 Largest) - LEOS:

- Update mortality table
- Adjustments to rates of service retirement for females
- Increase in rates of withdrawal
- Decrease in male and female rates of disability

STATISTICAL SECTION

# STATISTICAL SECTION

This part of the Town of Rocky Mount, Virginia's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health.

#### Contents

Financial <sup>-</sup>	Trends	1-4
	These tables contain trend information to help the reader understand how the Town's financial performance and well-being have changed over time.	
Revenue C	Capacity	5-8
	These tables contain information to help the reader assess the factors affecting the Town's ability to generate its property taxes and utility revenues.	
Debt Capa	acity	9-10
	These schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt and the government's ability to issue additional debt in the future.	
Demograp	hic and Economic Information	11-12
	These tables offer demographic and economic indicators to help the reader understand the environment within which the Town's financial activities take place and to help make comparisons over time and with other governments.	
Operating	Information	13-15
	These schedules contain information about the Town's operations and resources to help the reader understand how the Town's financial information relates to the services the Town provides and the activities it performs.	

Sources: Unless otherwise noted, the information in these tables is derived from the comprehensive annual financial reports for the relevant year.

COMPLIANCE SECTION

# Robinson, Farmer, Cox Associates

A PROFESSIONAL LIMITED LIABILITY COMPANY

CERTIFIED PUBLIC ACCOUNTANTS

# Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

To the Honorable Members of Town Council Town of Rocky Mount, Virginia

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties*, *Cities*, *and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Town of Rocky Mount, Virginia, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the Town of Rocky Mount, Virginia's basic financial statements, and have issued our report thereon dated January 21, 2016.

# Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town of Rocky Mount, Virginia's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of Rocky Mount, Virginia's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town of Rocky Mount, Virginia's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

# **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Town of Rocky Mount, Virginia's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
