January 22, 2016

To the Honorable Members of the Board of Supervisors
and the Citizens of Caroline County, Virginia

The Comprehensive Annual Financial Report of the County of Caroline, Virginia (County) as of and for the fiscal year ended June 30, 2015 is herewith submitted. Section 15.2-2511 of the *Code of Virginia* requires all localities to produce an independently audited financial report, and this Comprehensive Annual Financial Report is provided to meet that requirement. It has been prepared by the County's Department of Finance in accordance with standards of financial reporting promulgated by the Governmental Accounting Standards Board (GASB), the Government Finance Officers Association of the United States and Canada (GFOA), and the Commonwealth of Virginia Auditor of Public Accounts.

Responsibility for the completeness and reliability of all of the information presented in this report rests with County management. In order to take meaningful responsibility, County management must have reasonable assurance the underlying financial information on which the report is based is accurate and reliable. To that end, County management has established a comprehensive internal control framework designed both to protect the County's assets from loss, theft, or misuse, and to compile sufficient and reliable information for the preparation of the County's financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP). Because the cost of internal controls should not outweigh their benefits, the County's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance the financial statements will be free from material misstatement. As management, we assert, to the best of our knowledge and belief, this report is complete and reliable in all material respects.

It would be irresponsible for any financial statement user to rely on management's representations in the financial statements without some objective review and confirmation. To provide that objective review and confirmation, the County's financial statements have been audited by PBMares, LLP, a firm of licensed certified public accountants. The goal of the independent audit is to provide reasonable assurance the financial statements of the County for the fiscal year ended June 30, 2015 are free of material misstatement.

"Committed To Service, Dedicated To The People"

212 North Main Street, P. O. Box 447, Bowling Green, Virginia 22427
(804)633-5380 – Telephone (804)633-4970 – Fax

www.visitcaroline.com

An independent audit involves examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, there was a reasonable basis for rendering an unmodified opinion that the County's financial statements for the fiscal year ended June 30, 2015 are fairly presented in accordance with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the County's financial statements is part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in the compliance section of this report.

GAAP requires management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The County's MD&A can be found immediately following the Independent Auditor's Report.

Profile of the Government

The County was formed in 1728 by action of the Virginia House of Burgesses and is currently one of 95 counties in the Commonwealth of Virginia. Policy-making and legislative authority are vested in a six member Board of Supervisors which is elected by District. The Board of Supervisors is responsible, among other things, for providing overall policy direction for the County, passing ordinances, adopting the budget, appointing committees, and hiring both a County Administrator and County Attorney. The County Administrator is responsible for carrying out the policies and ordinances of the Board of Supervisors, for overseeing the day-to-day operations of the County, and for appointing heads of the various departments. Other officials who play a major role in the Board of Supervisor's operations or in providing services are separately elected. These officials are: Clerk of the Circuit Court - court clerk and custodian of legal records; Commissioner of the Revenue - the tax assessment officer of the County; Commonwealth's Attorney - criminal prosecution attorney for the County; Sheriff - chief law enforcement officer; Treasurer - recipient and custodian of County funds.

This Comprehensive Annual Financial Report includes all funds and activities of the County. The County is the primary provider of all local government services within its boundaries and provides a full range of those services. This includes law enforcement, fire protection, and emergency medical response; the construction and maintenance of public buildings and other infrastructure; solid waste collection and disposal; recreation; and community and economic development.

Public education in the County is provided by the Caroline County School Board. Caroline County Public Schools is a separate legal entity from the County and the School Board is separately elected. However, the School Board has no independent revenue raising authority, and must depend on the County for the local contribution required by the Virginia Constitution for the support of the public schools. As a result of this financial dependency, the funds and activities of the School Board have been included in this report in order to provide a comprehensive view of the County's financial status and activities. Information on the School Board has been presented in discrete columns in the financial statements to emphasize its separate legal identity.

Local Economy

The County is located in east central Virginia and encompasses approximately 549 square miles with an estimated population of 29,727 as of July 1, 2015. The County seat, the Town of Bowling Green, is located approximately 35 miles north of the State capitol of Richmond and approximately 20 miles south of the City of Fredericksburg.

Historically, the County has remained relatively insulated from the dramatic growth seen in the nearby northern Virginia area and remained primarily rural and residential. Its economy has been agriculturally based with a handful of small to medium size industrial businesses and limited commercial development focused along major highway corridors. Fort A. P. Hill, a 77,000 acre undeveloped military training installation, entirely within the County's borders, also dominates the landscape. The County's population density of 54 persons per square mile compared to densities of well over 200 per square mile in counties just to the north and south and the Virginia average of 179 confirm this perspective.

In recent years, its location along Interstate 95, the primary north-south transportation artery on the east coast, and increasing congestion in neighboring counties brought extensive development interest to the County. Three new mixed use development projects have been approved that could add almost 10,000 new homes to the County over a 25 year period along with a variety of commercial, recreational and other uses. Those projects were well underway with many new houses completed or under construction when the housing market dropped. It is likely to continue to be years before the County sees a return of the 2% – 3% annual population growth it was experiencing several years ago.

The growth in population is expected to bring with it an expansion in retail and other non-residential development. This expansion, which had begun to occur, has been put on hold during the economic downturn. The decision by the State Fair of Virginia to relocate to the County in 2009 helped raise the County's profile. McKesson Corporation built a large distribution center in the County, and the announcement of a distribution center by Harris Teeter in addition to the pending construction by Walmart, has further raised the County's profile.

With this activity, the County is looking forward to and preparing itself for dramatic changes over the next several years. Significant increases in demand on the County's services and infrastructure are expected. Thorough planning and a disciplined commitment to implementing those plans will be vital as the County addresses those pressures over the next several years. Maintaining a solid financial foundation will be an important part of that process.

Major Projects/Initiatives

Major renovations for two schools, Caroline High and Madison Elementary, continued in fiscal year 2015 with the investment of \$632,211 in County funds.

The expenditure for continued construction of a new emergency radio system countywide to meet federal mandates for narrow banding radio service was \$1,586,019 in fiscal year 2015, bringing the total as of June 30, 2015 to \$5,428,085.

The County purchased two ambulances to replace aging units during fiscal year 2015 at a cost of \$315,112.

Other Information

The following is provided to supplement the information provided in the financial statements and to assist those with an interest in the financial affairs of the County.

Risk Management: An active risk management program is essential for the County to protect itself from the many risks of loss it faces in providing services to the public. Risks of property damage, general and auto liability, and workers injury compensation are covered through premium contributions to an insurance pool operated by the Virginia Association of Counties (VACORP). The County works extensively with representatives of VACORP to identify loss trends and take corrective action to reduce claims. The County maintains a safety committee and emphasizes safety in its staff training programs. The County has also strengthened its emergency response planning to protect County resources and the public in the event of natural or man-made disasters.

Pension and Other Employment Benefits: Pension benefits for County employees are provided through participation in the Virginia Retirement System (VRS), a State-wide pension system for government employees. Bi-annually, VRS actuaries prepare contribution calculations for each local government participating in the system. The County fully funds its required contributions.

The County provides and makes contributions toward a self-funded group health insurance plan for its employees. Premium rates are negotiated annually with a third party insurance administrator and County contribution policies are set based on claims history and to a lesser extent, percentage of premiums contributed by surrounding counties. Retired employees are given the option of continuing their coverage under the County's group plan following termination, but the County makes no contribution toward their premiums.

In closing, we would like to thank the many members of the County staff who assisted in the preparation of this report. Finally and most particularly, we would like to thank the Board of Supervisors for their interest in and commitment to keeping the County on a solid financial foundation.

Respectfully submitted,

COUNTY OF CAROLINE, VIRGINIA

ORGANIZATION CHART

FINANCIAL SECTION

INDEPENDENT AUDITOR'S REPORT

To the Honorable Members of the Board of Supervisors
County of Caroline, Virginia

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Caroline, Virginia (County), as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities and Towns* issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards and specifications require we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the County's preparation and fair presentation of the financial statements in order to design audit procedures appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County, as of June 30, 2015, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 13 to the financial statements, the County restated net position of the Governmental Activities, Business-Type Activities, Caroline County Utility Fund, and School Board Component Unit to record the net pension liability and related components in accordance with the implementation of GASB Statement No. 68.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require the Management's Discussion and Analysis and the required supplementary information on pages 4-11 and 86-92, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis, as required by the U. S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations*, and is not a required part of the basic financials. The accompanying schedules listed in the table of contents as other supplementary information, supplemental schedules, introductory section, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Schedule of Expenditures of Federal Awards, other supplementary information, and supplemental schedules, are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards, other supplementary information, and supplemental schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections, as listed in the table of contents, have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 22, 2016 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

PBMares, LLP

Harrisonburg, Virginia
January 22, 2016

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the County of Caroline, Virginia (County), we offer readers of the County's financial statements this narrative overview and analysis of the financial activities of the County for the fiscal year ended June 30, 2015. We encourage readers to consider the information presented here in conjunction with additional information we have furnished in our letter of transmittal.

FINANCIAL HIGHLIGHTS

Government-Wide Financial Statements

- The assets and deferred outflows of resources of the County exceeded its liabilities and deferred inflows of resources at the close of fiscal year 2015 by \$20,309,065 (Total Net Position). The County is reporting a deficit in the net investment in capital assets of \$28,672,615. A deficit in the net investment in capital assets of \$33,804,885 is in Governmental Activities.
- The County's total net position increased by \$7,526,088, or 58.9%, of the restated beginning net position during the fiscal year ended June 30, 2015.
- The County's total outstanding long-term debt reflects a net decrease of \$6,865,986 to \$142,563,232 during the fiscal year ended June 30, 2015. No new debt was incurred during fiscal year 2015.

Fund Financial Statements

- Total fund balance of the County's Governmental Funds, reporting on a current financial resources basis, amounted to \$47,535,222 at June 30, 2015. This was a net increase of \$893,560 over the prior year. The General Fund increased 17.8% (\$3,193,635) and the Capital Projects Fund decreased 8.3% (\$2,275,518). The decrease for the Capital Projects Fund is due to the expenditure for the radio system project and renovations of two schools with funds received in the prior fiscal year. The increase in the General Fund is due to the increase in real estate, public service and personal property tax collections. Only the Comprehensive Services Fund has a negative fund balance.
- During the fiscal year ended June 30, 2015, the unassigned fund balance in the General Fund increased by \$1,681,270 to \$15,979,092. This fund balance represents 36.8% of total General Fund expenditures and operating transfers, an increase of 1.1% over the previous fiscal year.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements comprise three components: 1) Government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains required supplementary information and other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

The *Statement of Net Position* presents information on all of the County's assets and deferred outflows of resources, and liabilities and deferred inflows of resources, with the difference between them as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or declining.

The *Statement of Activities* presents information showing how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

OVERVIEW OF THE FINANCIAL STATEMENTS (Continued)

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include general government, judicial support, public safety, sanitation, public facility maintenance, social services, education, community development, and culture and recreation. The business-type activities of the County include the County Utility Fund, a public water and sewer utility, and the Dawn Wastewater System Fund, a public sewer utility.

The government-wide financial statements include not only Caroline County itself (known as the primary government), but also two legally separate component units, the school division for which the County is financially accountable and the Economic Development Authority. Financial information for these component units are reported separately from the financial information presented for the primary government itself.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Like other state and local governments, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions, reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information can be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains thirteen individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, the Capital Projects Fund, the Debt Service Fund, the Social Services Fund, and the Proffers Fund, all of which are considered to be major funds. Data from the other eight governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements as part of the Other Supplementary Information in the Financial Section of this report.

Caroline County adopts an annual appropriated budget for all of its governmental funds. A budgetary comparison statement has been provided as part of the basic financial statements in the Financial Section of this report to demonstrate compliance with this budget. Budgetary comparison statements for other governmental funds are also provided as Other Supplementary Information in the Financial Section of this report.

OVERVIEW OF THE FINANCIAL STATEMENTS (Continued)

Proprietary Funds

The County maintains two different types of proprietary funds. *Enterprise funds* are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses enterprise funds to account for its Caroline County Utility and for the Dawn Wastewater System. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the County's various functions. The County uses internal service funds to account for vehicle maintenance services and health insurance. Because these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

The proprietary fund statements provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Caroline County Utility, the Dawn Wastewater System, the Vehicle Maintenance Fund, and the Self-Insurance Fund.

Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statement because the resources of those funds are *not* available to support the County's own programs.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information

Following the basic financial statements and accompanying notes, this report also presents the combining financial statements referred to earlier in connection with nonmajor governmental funds and individual budgetary comparison statements for governmental funds except the General Fund. Combining financial statements and fund budgetary comparisons are also presented for the discretely presented Caroline County School Division. The School Division does not issue a separate annual financial report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position is a useful indicator of the County's overall financial condition at the time of measurement. In total, the County's net position for all governmental and business-type activities amounted to \$20,309,065 at June 30, 2015. The following table summarizes the County's Statements of Net Position:

SUMMARY STATEMENTS OF NET POSITION As of June 30, 2015 and 2014

	Governmental Activities		Business-type Activities		Totals	
	2015	2014	2015	2014	2015	2014

The County is reporting an increase in the balance of unrestricted net position primarily due to the increased revenues and reduction in debt. A portion of the County's assets, \$30,257,311, are subject to external restrictions on their use. These assets are primarily cash held for the payment of debt service or ongoing construction projects. Restricted cash and investments held for the construction of capital assets are offset by related long-term debt liabilities in calculating the County's net position.

The County's total balance of working capital, current and other assets minus current liabilities, decreased from \$68,454,625 at June 30, 2014 to \$62,148,243 at June 30, 2015. The County's net investment in capital assets decreased by \$1,351,950 at June 30, 2015 and its long-term liabilities decreased by \$13,062,324 over the same period.

As previously indicated, at June 30, 2015 the County's net position increased by \$7,526,088. Net position of governmental activities increased by \$7,570,480 and those of business-type activities, the County's water and sewer utility operations, decreased by \$44,392. The following table summarizes the change in the County's net position as shown in the Statement of Activities:

GOVERNMENT-WIDE FINANCIAL ANALYSIS (Continued)

Ending net position at June 30, 2014 does not match beginning net position as of July 1, 2014 due to implementation of GASB Statement No. 68. Information to restate fiscal year 2014 is not available.

GOVERNMENT-WIDE FINANCIAL ANALYSIS (Continued)

Expenditures in the County's governmental activities decreased 6.1% over the prior year with expenditures decreasing in most functions except general government administration, community development, education, and interest and other fiscal charges. Education again consumed the largest share of the total expenditures of the primary government during the fiscal year ended June 30, 2015 at 26.6% of the total. Public safety spending represents 23.7% of the total. Program revenues, which include fees, charges and special purpose grants and contributions, funded 26.3% of total functional expenditures in fiscal year 2015, a slightly increased level as compared to fiscal year 2014. General property tax revenues rose 4.9% over the prior year and total general revenues for the County's governmental activities increased 3.3%. In the County's business-type activities, expenditures increased 8.1% and program revenues increased 3.9% from the prior year. The County's water and sewer utility operations realized a slight loss in fiscal year 2015 and is continuing to prepare for a period of moderate growth sometime in the future. It should again be noted that these expenses are on a full accrual basis and, therefore, include depreciation expense on capital assets.

FINANCIAL ANALYSIS OF THE COUNTY'S FUNDS

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance related legal requirements and for public accountability.

Governmental Funds

The focus of the County's governmental funds is to provide information on near-term inflows, outflows and balances of available resources. By analyzing the sources and uses of funds, the differences between the two, and changes in balances over time, such information can be useful in assessing the County's financial needs. In particular, unassigned fund balance is important as a measure of the net resources available for financing future expenditures.

In total, governmental funds reported fund balances of \$47,535,222 at June 30, 2015, \$28,077,009 of that balance is reserved by external restrictions, \$3,606,371 is committed or assigned, and the remaining \$15,851,842 is unassigned. Fund balances in the governmental funds increased \$893,560 during the fiscal year ended June 30, 2015. Fund balance in the General Fund increased by \$3,193,635. Continued expenditures for the new emergency radio system and the start of major renovations for two schools resulted in a decrease of \$2,275,518 in the fund balance of the Capital Projects Fund.

In the General Fund, fund balance increased to \$21,153,946, a 15.1% increase over the prior year. General property taxes remain the primary revenue source in the General Fund contributing 73.8% of the total revenues during fiscal year 2015, slightly more than in the prior year. Intergovernmental revenue from the Commonwealth of Virginia decreased slightly to 11.9%, and the share added by other local taxes decreased slightly to 9.0% compared to the past three years. Education consumed the bulk of the General Fund's expenditures (35.6%). Public Safety (34.8%) and Public Works (8.3%) also accounted for substantial shares of the expenditures in the General Fund.

Proprietary Funds

The proprietary funds provide the same type of information found in the business-type activities sections of the government-wide financial statements, but in more detail.

The largest of the County's enterprise operations, the Caroline County Utility Fund had a net position of \$3,745,455 at June 30, 2015, a decrease over the previous year. The County has made significant investments in the utility system over the last ten plus years that have not yet been fully recovered through revenues in the fund. The County's main utility fund reported a net operating loss for the fiscal year ended June 30, 2015 of \$411,425, an 80.6% increase from last fiscal year due to the increase in expenses. The Dawn Wastewater System reported a net operating loss of \$165,340, an 18.5% increase from last fiscal year. Fiscal year 2015 was the seventh full year of operation for the Dawn system and the sixth full year of depreciation of \$141,513.

GENERAL FUND BUDGETARY HIGHLIGHTS

The original adopted budget of the General Fund was increased by 2.4% or \$1,075,590. Following is a partial summary of these increases/reductions by function:

- \$21,606 for General Government Administration
- \$48,615 for Judicial Administration
- \$316,247 for Public Safety
- \$84,696 for Public Works
- \$10,000 for Health and Welfare
- \$55,832 for Community Development
- \$538,594 for Transfers to Other Funds

Actual revenue collections were \$2,361,409 greater than the final budget estimates. Revenue from fines and forfeitures was below revenue projections. Increased collection efforts contributed to the increase in general property taxes.

Actual expenditures totaled \$1,609,821 less than the amended budget appropriations, a variance of 4.6%. Transfers out to other funds were \$954,275 under budget, a variance of 8.9%. Actual expenditures fell under amended appropriations in all functions.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The County's total net investment in capital assets for governmental and business-type activities amounted to \$106,349,068 as of June 30, 2015. This net investment in capital assets includes land, buildings, property improvements, machinery and equipment, vehicles, and utility improvements. It should be noted that this net investment value is based on historical cost and is not reflective of the current market value of these assets.

Major capital improvement projects for the year included:

- \$315,112 for emergency services equipment.
- \$632,211 to begin renovations to Caroline High and Madison Elementary Schools.
- \$1,571,352 for continued construction of a new emergency radio system.

Long-Term Debt

At June 30, 2015, the County's total long-term debt amounted to \$142,563,232. This total is comprised of:

- \$31,432,994 in lease revenue bonds issued through the County's Economic Development Authority for a variety of general government, school and business-type activity improvements and equipment acquisitions.
- \$40,702,299 in utility system revenue bonds for the improvement and expansion of the County's utility enterprise operations and landfill closure.
- \$53,168,520 in general obligation bonds issued for the construction and improvement of County public schools and utility projects.
- \$7,456,665 in capital lease obligations for general government radio and motor vehicle equipment.
- \$393,331 in notes payable for the prior construction of the Ladysmith Library.
- \$3,117,413 as the County's liability for closure and post-closure care of the former County Sanitary Landfill.
- \$762,133 in accrued liabilities for leave benefits earned by County employees; \$566,489 in accrued liabilities for leave benefits for school employees.

CAPITAL ASSETS AND DEBT ADMINISTRATION (Continued)

Long-Term Debt (continued)

- \$331,828 for OPEB liabilities for retired County employees; \$1,938,355 for retired school employees.

Payments made to retire County long-term debt totaled \$7,286,517 during the fiscal year ended June 30, 2015. No new debt was incurred during the year.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND TAX RATES

- The population of the County, based on the 2010 census, has grown 5.2% since the April 2010 census to an estimated 29,727.
- The County is in the process of conducting a real property reassessment to be effective January 2016 to be sure its values for tax purposes are in line with market values. Growth had pushed assessed values up for the January 2008 reassessment to almost \$3 billion, but the housing market crash had dropped values for 2011 by an estimated 18%. Growth in the County continues to be low.
- The unemployment rate for the County decreased from 5.9% to 5.5% and revenues began to increase.
- The burst of population growth the County had experienced several years ago has slowed dramatically as the nation-wide turnaround in real estate markets and recession has had an impact. After issuing a total of 318 residential building permits in the fiscal year ended June 30, 2007, the County building inspection division issued 78 in the fiscal year ended June 30, 2015 which is a decrease of 18 permits over the fiscal year ended June 30, 2014. Commercial development has declined from 25 new commercial structures in fiscal year 2007 to 4 in fiscal year 2015, an increase of 2 over the prior year.
- The County issued no new debt in the fiscal year ended June 30, 2015.

These and many other factors were considered in preparing the County's budget for fiscal year 2016. The fiscal year 2016 General Fund budget (excluding capital investments) increased by 4.3%. The fiscal year 2016 budget includes a 3.6% increase in funding for schools and an increase of \$1,083,836 in debt service payments; three new full time positions, one part time position and a 2.5% salary increase for County employees. The fiscal year 2016 General Fund budget also includes increased funding for mandated services for the Comprehensive Services Act for At-Risk Youth and Families and increased transfers to Caroline County Utility Fund. Capital investments reflect several small projects and the lease purchase of sheriff's vehicle and a fire truck in the amount of \$1,439,618. The adopted real estate rate for calendar year 2016 remained the same at \$0.83 per hundred dollars of assessed value. Personal property tax rates remained at \$3.80.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the County of Caroline, Virginia's finances for all those who may have an interest in the County's financial condition and prospects. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Finance Director, Caroline County, Post Office Box 447, 212 N. Main Street, Bowling Green, Virginia 22427.

**RECONCILIATION OF THE BALANCE SHEET OF THE GOVERNMENTAL FUNDS
TO THE STATEMENT OF NET POSITION
June 30, 2015**

	Governmental Funds
Total fund balances - total governmental funds	\$ 47,535,222
Amounts reported for governmental activities in the Statement of Net Position are different because:	
Capital assets used in governmental activities are not current financial resources and, therefore, are not reported in the governmental funds.	
Governmental capital assets	\$ 87,155,596
Less accumulated depreciation and amortization	(28,623,560)
Net capital assets	58,532,036
Deferred outflows of resources represent a consumption of net position that applies to a future period and, therefore, are not recognized as expenditures in the governmental funds until then.	977,159
Unearned revenue represents amounts that were not available to fund current expenditures and, therefore, is not reported as revenue in the governmental funds.	6,560,126
Internal service funds are used by management to charge the costs of goods provided to other departments or funds. The assets and liabilities of the internal service funds are included in governmental activities in the Statement of Net Position.	1,220,481
Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported as liabilities in the governmental funds.	
Bonds payable, including unamortized premiums	(85,319,050)
Note payable	(393,331)
Capital leases	(6,757,921)
Landfill obligation	(3,117,413)
Compensated absences	(704,245)
Interest payable	(1,235,894)
Deferred charge on refunding	92,150
Net pension liability	(1,861,532)
Other postemployment benefits	(309,585)
	(99,606,821)
Deferred inflows of resources represent an acquisition of net position that applies to a future period and, therefore, are not recognized as revenue in the governmental funds until then.	(1,647,748)
Net position of governmental activities:	\$ 13,570,455

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES
IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
Year Ended June 30, 2015**

	Governmental Funds	
Net change in fund balances - total governmental funds	\$	893,560
Reconciliation of amounts reported for governmental activities in the Statement of Activities:		
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation and amortization expense. This is the amount by which depreciation and amortization exceeded capital outlays in the current period.		
Expenditures for capital assets	\$	3,152,378
Less depreciation and amortization expense		(3,181,631)
Excess of depreciation and amortization expense over capital outlays		(29,253)
The net effect of miscellaneous transactions involving capital assets (i.e. sales, trade-ins and donations) is to increase net position.		95,161
Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.		
Change in unavailable revenue		(138,311)
Deferred outflows of resources - pension contributions		977,159
Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Position. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position.		
Principal repayments:		
Bonds and notes payable		5,511,785
Capital leases		282,287
Landfill obligation		(31,291)
		5,762,781
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.		
Accrued interest		176,466
Compensated absences		(18,853)
Other postemployment benefits		(63,848)
Pension expense		(502,925)
Deferred charge on refunding		(4,850)
Amortization of premium		108,692
		(305,318)
Internal service funds are used by management to charge the costs of certain activities to individual funds. The net income of the internal service funds are reported with governmental activities.		
Total revenues		2,551,481
Total expenses		(2,236,780)
		314,701
Change in net position of governmental activities	\$	7,570,480

COUNTY OF CAROLINE, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies

The County of Caroline, Virginia (County), is governed by an elected six member Board of Supervisors and provides a full range of services for its citizens. These services include law enforcement, paid and volunteer fire protection and rescue services, sanitation services, recreational activities, cultural events, education, and social services.

The financial statements of the County of Caroline, Virginia (County), have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental entities. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. As required by GAAP, these financial statements present the activities of the County and its component units.

In determining how to define the financial reporting entity, management considered all potential component units using the standards prescribed under GASB Statement No. 61, *The Financial Reporting Entity: Omnibus, an Amendment of GASB Statements No. 14 and 34*. Component units include any legally separate organizations for which the Board of Supervisors is financially accountable. Financial accountability results where 1) there is fiscal dependence and a financial benefit or burden relationship, 2) there is a voting majority of the organization's governing body appointed by the Board of Supervisors and a financial benefit or burden relationship, or 3) there is a voting majority of the organization's governing body appointed by the Board of Supervisors and the Board of Supervisors has the ability to impose its will on the organization.

Even if financial accountability is not established, a potential component unit may still need to be reported simply because it would be misleading to exclude it.

Blended component units, although legally separate entities, are, in substance, part of the County's operations, and functions as an integral part of the primary government, so data from these units would be combined with data of the County.

A. Reporting Entity

These financial statements present the County and its component units, entities for which the County is considered to be financially accountable. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize it is legally separate from the County. Each discretely presented component unit has a June 30 year end.

The County has no blended component units at June 30, 2015.

Discretely Presented Component Unit. The County's government-wide financial statements include component unit columns that reflect the financial data of the School Board and the Economic Development Authority.

The School Board is responsible for operating the elementary and secondary public schools and is fiscally dependent upon the County. The six members of the School Board are elected by the citizens of the County. The County Board of Supervisors has the ability to approve its budget and any amendments. The primary funding of the School Board is from the General Fund of the County. The School Board does not issue a separate financial report.

COUNTY OF CAROLINE, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies (Continued)

A. Reporting Entity (Continued)

The Economic Development Authority (Authority) of the County is responsible for assisting the County in its economic development functions and in the financing of capital improvements. The Authority was created by the County in 1973 under provisions of the *Code of Virginia* and is governed by a seven member Board of Directors appointed by the County Board of Supervisors. The Authority is fiscally dependent on the County and, therefore, it is included in the County's financial statements using the discrete presentation. The Authority does not issue a separate financial report.

B. Other Related Organizations

The Middle Peninsula Juvenile Detention Commission (Commission) is a political subdivision of the Commonwealth of Virginia and is governed by a separate board. The Commission was created by resolutions adopted in 1993 by its member jurisdictions, which include the Counties of Caroline, Charles City, Essex, Gloucester, Hanover, James City, King George, King and Queen, King William, and York and the Cities of Poquoson and Williamsburg. Each member jurisdiction appoints one member to the Commission. The County does not bear any direct or indirect liabilities for the operation of this organization, and has no equity interest in it.

The Commission was created to enhance the region for protection of the citizens by the construction, equipping, maintenance, and operation of a new juvenile detention facility serving the 12 member jurisdictions. The Commission is fiscally independent of the County because substantially all of its income is generated from per diem payments from the member jurisdictions and reimbursements from the Commonwealth of Virginia for a portion of the capital costs. During the year, the County payments to the Commission totaled \$348,004. Separate audited financial statements are available from the Commission, c/o the County of James City, P. O. Box 8784, Williamsburg, VA 23187-8784.

The Pamunkey Regional Jail Authority (Jail Authority) is a political subdivision of the Commonwealth of Virginia. The participating jurisdictions of the Jail Authority are the Counties of Caroline and Hanover and the Town of Ashland. The Jail Authority is governed by a five-member board comprised of two members each from the Counties of Caroline and Hanover and one from the Town of Ashland. Management and accountability for fiscal matters rest with the Jail Authority. The board formulates and approves its own budget. The County does not bear any direct or indirect liabilities for the operation of the Jail Authority and has no equity interest in it.

The purpose of the Jail Authority is to maintain and operate a regional jail facility to meet the needs of the participating jurisdictions for jail facilities. The participating jurisdictions have entered into a Service Agreement which is a long-term contract which regulates usage of the Jail and establishes payment terms applicable to participating jurisdictions. Under the Service Agreement, the County is obligated to commit all of its prisoners to the Jail at a per diem rate to be determined annually by the Jail. The County made per diem contributions totaling \$1,495,982 in fiscal year 2015. Complete financial statements for the Jail can be obtained from the office of the Pamunkey Regional Jail Authority.

COUNTY OF CAROLINE, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies (Continued)

C. Government-wide and Fund Financial Statements

Government-wide financial statements – The reporting model includes financial statements prepared using full accrual accounting for all of the government’s activities. This approach includes not just current assets and liabilities but also capital assets and long-term liabilities (such as buildings and general obligation debt).

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

Statement of Net Position – The Statement of Net Position is designed to display the financial position of the primary government (government and business-type activities) and its discretely presented component units. Governments will report all capital assets in the government-wide Statement of Net Position and will report depreciation and amortization expense – the cost of “using up” capital assets – in the Statement of Activities. The net position of a government will be broken down into three categories: 1) net investment in capital assets, 2) restricted, and 3) unrestricted.

Statement of Activities – The government-wide Statement of Activities reports expenses and revenues in a format that focuses on the cost of each of the government’s functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements – The fund financial statements provide information about the County’s funds, including its fiduciary funds. Separate statements for each fund category – governmental, proprietary, and fiduciary – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

COUNTY OF CAROLINE, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies (Continued)

C. Government-wide and Fund Financial Statements (Continued)

Budgetary comparison schedules – Demonstrating compliance with the adopted budget is an important component of a government's accountability to the public. Many citizens participate in one way or another in the process of establishing the annual operating budgets of state and local governments, and have a keen interest in following the actual financial progress of their governments over the course of the year. Many governments revise their original budgets over the course of the year for a variety of reasons.

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation

Government-Wide, Proprietary, and Fiduciary Fund Financial Statements: The government-wide, proprietary, and fiduciary fund financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of when the related cash flows take place. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The government-wide Statement of Activities reflects both the gross and net cost per functional category (public safety, public works, health and welfare, etc.) which are otherwise being supported by general government revenues (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.). The Statement of Activities reduces gross expenses (including depreciation and amortization) by related program revenues, operating and capital grants, and contributions. The program revenues must be directly associated with the function (public safety, public works, health and welfare, etc.) or a business-type activity.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. This is the manner in which these funds are normally budgeted. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the County considers revenues to be available if they are collected within 60 days of the end of the fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the County. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, then unrestricted resources as they are needed.

The County's fiduciary funds are presented in the fund financial statements by type. Since by definition these assets are being held for the benefit of a third-party and cannot be used to address activities or obligations of the County, these funds are not incorporated into the government-wide statements.

COUNTY OF CAROLINE, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies (Continued)

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Accordingly, real and personal property taxes are recorded as revenues and receivables when billed, net of allowances for uncollectible amounts. Property taxes not collected within 60 days after year-end are reflected as unavailable revenues. Sales and utility taxes, which are collected by the state or utilities and subsequently remitted to the County, are recognized as revenues and receivables upon collection by the state or utility, which is generally within two months preceding receipt by the County.

Licenses, permits, fines and rents are recorded as revenues when received. Intergovernmental revenues, consisting primarily of federal, state and other grants for the purpose of funding specific expenditures, are recognized when earned or at the time of the specific expenditures. Revenues from general purpose grants are recognized in the period to which the grant applies. All other revenue items are considered to be measurable and available only when cash is received by the government.

In the fund financial statements, financial transactions and accounts of the County are organized on the basis of funds. The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing set of accounts recording cash and/or other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

1. Governmental Funds – are those through which most governmental functions typically are financed. The County reports the General Fund, Debt Service Fund, County Capital Projects Fund, Proffers Fund, and Virginia Public Assistance Fund as major governmental funds.

General Fund – is the primary operating fund of the County. This fund is used to account for all financial transactions and resources except those required to be accounted for in another fund. Revenues are derived primarily from property and other local taxes, state and federal distributions, licenses, permits, charges for service, and interest income. A significant part of the General Fund's revenues is used principally to finance the operations of the Component Unit School Board.

Debt Service Fund – accounts for and reports financial resources that are restricted, committed, or assigned to expenditure for principal and interest. Payment of principal and interest on the County and school system's general long-term debt financing is provided by appropriations from the General Fund.

General Capital Projects Fund – accounts for and reports financial resources that are restricted, committed, or assigned to expenditures for capital outlays except for those financed by proprietary funds.

COUNTY OF CAROLINE, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies (Continued)

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

Special Revenue Funds – account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. The County reports the following major special revenue funds: Virginia Public Assistance Fund and Proffers Fund. These funds have been judgmentally determined to be major for public interest reasons, in that the presentation is of particular importance to the financial statement users. The County reports the following non-major governmental funds:

Nonmajor Special Revenue Funds – account for the proceeds of specific revenue sources (other than major capital projects) requiring separate accounting because of legal or regulatory provisions or administrative action. Nonmajor Special Revenue Funds consist of the following funds: Comprehensive Services, Law Library, Courthouse Maintenance, Housing, Tourism, Confiscated Asset, Sheriff, and Fire/Rescue Grant.

2. Fiduciary Funds – (Trust and Agency Funds) – account for assets held by the County in a trustee capacity or as an agent or custodian for individuals, private organizations, other governmental units, or other funds. These funds include Private Purpose Trust and Agency Funds, utilize the accrual basis of accounting, and are not included in the government-wide financial statements. The County's Agency Funds include amounts held for others in a fiduciary capacity, which includes social services clients, technology education consortium program, and refundable escrow deposits.
3. Proprietary Funds – account for operations that are financed in a manner similar to private business enterprises. The Proprietary Fund measurement focus is upon determination of net income, financial position, and changes in financial position. Proprietary Funds consist of Enterprise Funds and Internal Service Funds.

Enterprise Funds – Enterprise funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses. The County's Enterprise Funds consist of the Caroline County Utility Fund and Dawn Wastewater System Fund, which account for the operations of sewage pumping stations and collection systems and the water distribution system.

Internal Service Funds – account for the financing of goods or services provided by one department or agency to other departments or agencies of the County government, on a cost reimbursement basis. The County's internal service funds include the Vehicle Maintenance Fund and the Self-Insurance Fund.

E. Cash and Cash Equivalents

Cash and cash equivalents include amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the County.

COUNTY OF CAROLINE, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies (Continued)

F. Investments

State statutes allow the County to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds and repurchase agreements.

Investments are stated at fair value based on quoted market prices. Certificates of deposit and short-term repurchase agreements are reported in the accompanying financial statements as cash and cash equivalents.

Cash of individual funds other than the Agency Funds is combined to form a pool of cash and investments. The pool consists primarily of government and corporate obligations, commercial paper and an external local government investment pool. The government and corporate securities are stated at fair value based on quoted market prices and the investment in the local government investment pool (a 2a7-like pool) is reported at the pool's share price. Interest earned as a result of pooling is distributed to the appropriate funds utilizing a formula based on average monthly balances.

G. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds" (i.e. the current portions of the interfund loans). All other outstanding balances between funds are reported as "advances to/from other funds."

All trade and property tax receivables are shown net of an allowance for uncollectibles. The County calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance amounted to approximately \$959,000 at June 30, 2015 and is comprised primarily of property taxes.

Real and Personal Property Tax Data:

The tax calendars for real and personal property taxes are summarized below.

	<u>Real Property</u>	<u>Personal Property</u>
Levy	January 1	January 1
Due Date	June 5/December 5 (50% each date)	June 5/December 5 (50% each date)
Lien Date	June 6/December 6	June 6/December 6

The County bills and collects its own property taxes. The County reassesses all existing real property every four to five years and the last reassessment was completed in 2011.

COUNTY OF CAROLINE, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies (Continued)

H. Restricted Cash

Proceeds from the County's bond issues, as well as certain resources set aside for their repayment, are classified as restricted cash on the balance sheet because they are maintained in separate bank accounts and their use is limited by applicable bond covenants.

I. Capital Assets

Capital assets are reported in the applicable column in the government-wide financial statements for both the County and the component unit – School Board. Capital assets are defined by the County as land, buildings, and equipment with an initial individual cost of more than \$5,000 and an estimated useful life in excess of two years. The Commonwealth of Virginia, not the County, has primary responsibility to construct and maintain infrastructure, such as streets and bridges, within the County. The County may, at its option, contribute to improvements to the road system. Such expenditures would be expensed during the year incurred. Capital assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The County does not have any infrastructure recorded as capital assets since roads, streets, bridges, and similar assets within its boundaries are the property of the Commonwealth of Virginia.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during construction on governmental activities' capital assets is not capitalized. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. Capitalized interest is amortized using the straight-line method over the useful life of the asset.

Capital assets of the County, as well as the component units, are depreciated or amortized using the straight-line method over the following estimated useful lives.

Assets	Years
Buildings	20-40
Motor vehicles and equipment	3-10
Improvements other than buildings	5-50
Intangibles	5

J. Compensated Absences

Vested or accumulated vacation leave is reported in governmental funds only if it has matured, for example, as a result of employee resignations and retirements. Amounts of vested or accumulated vacation leave not expected to be liquidated with expendable available financial resources are reported as an expense in the Statement of Activities and a long-term obligation in the Statement of Net Position. In accordance with the provisions of Governmental Accounting Standards No. 16, *Accounting for Compensated Absences*, no liability is recognized for that portion of accumulated sick leave benefits that is estimated will be taken as "terminal leave" prior to retirement.

COUNTY OF CAROLINE, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies (Continued)

J. Compensated Absences (Continued)

Compensated absences are accrued when incurred in proprietary funds and reported as a fund liability. The General Fund is responsible for paying the liability for compensated absences for general government employees and has been used in prior years to liquidate the governmental funds' liability.

K. Deferred Outflows/Inflows of Resources

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expenditure) until then. The County has two items that qualify for reporting in this category. One is the deferred charges on refunding reported in the proprietary funds Statement of Net Position, as well as the government-wide Statement of Net Position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its acquisition price. These amounts are deferred and amortized over the life of the refunded or refunding debt. The second is the employer's fiscal year 2015 Virginia Retirement System (VRS) contribution and is reported in the proprietary funds Statement of Net Position, as well as the government-wide Statement of Net Position.

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The County has two types of items that qualify for reporting in this category. Accordingly, the item, unavailable revenue, which arises under the modified accrual basis of accounting, is reported only in the governmental funds Balance Sheet. The government funds report unavailable revenue from property taxes. This amount is deferred and recognized as an inflow of resources in the period the amounts become available. The second item, the net difference between projected and actual earnings on the VRS plan investments, is reported in the proprietary funds and government-wide Statement of Net Position.

L. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the bonds outstanding method, which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

COUNTY OF CAROLINE, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies (Continued)

M. Net Position

Net position is the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources. Net investment in capital assets represent capital assets, less accumulated depreciation or amortization less any outstanding debt and net of deferred inflows and deferred outflows related to the acquisition, construction or improvement of those assets.

N. Fund Equity

The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- Nonspendable fund balance – amounts that are not in spendable form (such as inventory and prepaids) or are required to be maintained intact (corpus of a permanent fund);
- Restricted fund balance – amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation;
- Committed fund balance – amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint;
- Assigned fund balance – amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority;
- Unassigned fund balance – amounts that are available for any purpose; positive amounts are only reported in the General Fund.

When fund balance resources are available for a specific purpose in more than one classification, it is the County's policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed.

The Board of Supervisors establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives). Assigned fund balance is established by the County Administrator or the County's Finance Director, who has been given the delegated authority to assign amounts by the Board of Supervisors.

O. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

COUNTY OF CAROLINE, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies (Continued)

P. Pensions

For purposes of measuring the net pension liability, net pension asset, deferred outflows of resources, and deferred inflows of resources related to pensions and pension expense, information about the fiduciary net position of the County of Caroline and its component unit, the Caroline County, School Board, retirement plans, and the additions to/deductions from the County and the Caroline County School Board's retirement plans net fiduciary positions have been determined on the same basis as they were reported by the VRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Q. Component Unit – School Board Capital Asset and Debt Presentation (Jointly Owned Assets)

By law, the School Board does not have taxing authority and, therefore, it cannot incur debt through general obligation bonds to fund the acquisition, construction or improvement of its capital assets. That responsibility lies with the County who issues the debt on behalf of the School Board. However, the *Code of Virginia* requires the School Board to hold title to the capital assets (buildings and equipment) due to their responsibility for maintaining the asset.

The Virginia General Assembly amended the *Code of Virginia* to allow a tenancy in common with the School Board whenever the locality incurs a financial obligation which is payable over more than one fiscal year for any school property. The tenancy in common terminates when the associated debt has been paid in full. For financial reporting purposes, the legislation permits the locality to report the portion of the school property related to any outstanding financial obligation, thus eliminating a potential deficit for the primary government due to financing School Board capital assets with debt.

Note 2. Budgetary Data

The following procedures are used by the County in establishing the budgetary data reflected in the financial statements:

1. Prior to March 1, the County Administrator submits to the Board of Supervisors a proposed operating capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them.
2. The Board of Supervisors conducts work sessions to review the budget and public hearings are required to be conducted to obtain citizen comments.
3. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution.
4. The Appropriations Resolution places legal restrictions on expenditures at the department level or category level. The appropriation for each department or category can be revised only by the Board of Supervisors. The County Administrator is authorized to transfer budgeted amounts within the primary government's departments; however, the Component Unit – School Board is authorized to transfer budgeted amounts within the school system's categories.

COUNTY OF CAROLINE, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

Note 2. Budgetary Data (Continued)

5. Formal budgetary integration is employed as a management control device during the year and budgets are legally adopted for the General Fund, Special Revenue Funds, Debt Service Fund, and Capital Projects Funds of the County and Component Unit – School Board.
6. All budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America (GAAP).
7. Appropriations lapse on June 30.
8. The original budget presented in the accompanying financial statements is the budget as provided in the Appropriation Resolution adopted by the Board of Supervisors. The final amended budget presented in the financial statements is the budget, amended as indicated above, as of the June 30 year end.

Note 3. Deposits and Investments

Deposits: Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the “Act”), Section 2.2-4400 et., seq. of the *Code of Virginia*. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

Investments:

Local Government Investment Pool (LGIP). The LGIP is a professionally managed money market fund which invests in qualifying obligations and securities as permitted by Virginia statutes. Pursuant to Section 2.2-4605 *Code of Virginia*, the Treasury Board of the Commonwealth sponsors the LGIP and has delegated certain functions to the State Treasurer. The LGIP reports to the Treasury Board at their regularly scheduled monthly meetings. The fair value of the position of the LGIP is the same as the value of the pool shares, i.e., the LGIP maintains a stable net asset value of \$1 per share. The maturity of the LGIP is less than one year.

State statutes authorize local governments and other public bodies to invest in obligations of the United States or its agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper and certain corporate notes, bankers' acceptances, repurchase agreements, and the State Treasurer's Local Government Investment Pool.

COUNTY OF CAROLINE, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

Note 3. Deposits and Investments (Continued)

Virginia State Non-Arbitrage Program (SNAP). Investment in the SNAP is used to assist in avoiding arbitrage penalties enacted with the Tax Reform Act of 1986. Sections 2.2-4700 through 2.2-4705 of the *Code of Virginia*, the Government Non-Arbitrage Investment Act authorizes the Virginia Treasury Board to provide assistance to the Commonwealth of Virginia, counties, cities, and towns in the Commonwealth, and to their agencies, institutions and authorities or any combination of the foregoing (“Virginia governments”) in the management of and accounting for their bond funds, including, without limitation, bond proceeds, reserves, and sinking funds, and the investment thereof. The Virginia SNAP has been assigned an “AAAm” rating by Standard & Poor’s. The SNAP Fund is managed to maintain a dollar-weighted average portfolio maturity of 90 days or less and seeks to maintain a constant net value (NAV) per share of \$1. The Commonwealth of Virginia’s Treasury Board has contracted with PFM Asset Management, LLC, Wells Fargo, N.A., U.S. Bank, N.A., and the Bank of New York Mellon Corporation to provide professional services and regulating oversight to the SNAP Program.

Custodial Credit Risk (Deposits). This is the risk that in the event of a bank failure, the County’s deposits may not be returned to it. The County’s investment policy requires all deposits to be insured under FDIC or comply with the Virginia Security for Public Deposits Act. At year end, none of the County’s deposits were exposed to custodial credit risk.

Custodial Credit Risk (Investments). The County’s investment policy does not specifically address custodial credit risk.

Credit Risk. The County’s investment policy allows for investments whose ratings are A-1 by Standard & Poor’s or P-1 by Moody’s Investors Services.

The County’s rated debt investments as of June 30, 2015 are presented in the following table using the Standard & Poor’s rating scale.

County’s Rated Debt Investments’ Values		
Rated Debt Investments	Fair Quality Ratings	
	AAAm	Unrated
Local Government Investment Pool	\$ 20,424,985	\$ -
Virginia State Non-Arbitrage Pool	24,596,326	-
U.S. Treasury Securities	3,308,019	-
U.S. Agency Securities	-	3,378,900
Total	<u>\$ 48,329,330</u>	<u>\$ 3,378,900</u>

COUNTY OF CAROLINE, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

Note 3. Deposits and Investments (Continued)

Investment Policy

The investment of County funds shall be within the confines of the *Code of Virginia* and shall have as objectives:

1. To assure safety and repayment of principal.
2. To provide needed liquidity.
3. To accomplish the maximum investment of all funds available.
4. To determine that investments are in compliance with the reporting and disclosure regulations of the Governmental Accounting Standards Board, and that efforts are made to maintain all investments in the highest category.
5. To use the latest and most appropriate cash management techniques to develop and maintain an "Investment Procedure Policy."

Deposits

Public funds on deposit are subject to the Virginia Security for Public Deposits Act. The statute covers demand and time deposits and certificates of deposit in qualified public depositories which include banks and savings and loan associations, which are federally and state chartered and located within the Commonwealth. Public deposits consist of funds of county, city, town, or other political subdivision, including funds of any commission, institution, committee, board, or officer thereof.

The Act places certain guidelines upon deposits as follows:

- The amount of such deposits shall not exceed the current insured limits of the FDIC or FSLIC unless secured by eligible collateral equal to 50% of the deposits held by banks and 100% of deposits held by savings and loan association. Eligible collateral consists of securities authorized as legal investments for other public funds of the Commonwealth and securities acceptable under U. S. Treasury Department regulations. The collateral shall be deposited with the State Treasurer or with the approval of the Treasury Board; collateral may be deposited with the Federal Reserve Bank of Richmond, The Federal Home Loan Bank, or other national or state chartered bank.

The maturity of deposits in banks and savings and loan associations shall not exceed one year.

Investments

The County is authorized to invest in the specified types of investments pursuant to Title 2.1, Chapter 18 of the *Code of Virginia* (1950), as amended.

COUNTY OF CAROLINE, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

Note 3. Deposits and Investments (Continued)

Diversification of Investments

Diversification by Instrument – percent of portfolio not to exceed:

U. S. Treasury Obligations (bills, notes and bonds)	70%
U. S. Government and Agency Securities and instruments of Government Sponsored Corporations	70%
Bankers' Acceptances	40%
Repurchase Agreements	25% (over 30 days) 100% (under 30 days)
Certificates of Deposit – Commercial Banks	100%
Certificates of Deposit	\$100,000 per unit
Commercial Paper	35%
Local Government Investment Pool	100%
State Non-Arbitrage Investment Funds	100% of Arbitrage Funds
Savings Account (Passbook)	100%
Master Note - Industrial Development Funds	\$100,000 Limit
Automated Government Money Trust	50%

Diversification by Financial Institution:

Bankers' Acceptances	No more than 40% of the total portfolio with any one institution
Repurchase Agreements	No more than 25% of the total portfolio with any one institution
Certificates of Deposit – Commercial Banks	Up to 100% of the total portfolio with any one institution
Certificates of Deposit	No more than \$100,000 with any one institution
Commercial Paper	No more than 5% of the total portfolio with any one institution
Automated Government Money Trust	50% of the total portfolio limit

COUNTY OF CAROLINE, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

Note 3. Deposits and Investments (Continued)

Diversification of Investments (Continued)

Diversification of funds to be invested in any one issue:

No limit – FDIC, FSLIC, \$100,000 per type per institution, unless fully collateralized according to Virginia Section for Public Deposits Act. Collateralized Certificates of Deposit.

No limit – U. S. Treasuries and Agencies; Automated Government Money Trust.

Maximum 35% of total portfolio for any Bankers' Acceptance and Commercial Paper issue.

Concentration of Credit Risk: Concentration of credit risk is defined as the risk of loss attributed to the magnitude of a government's investment in a single issuer. If certain investments in any one issuer represent 5% of total investments, there must be a disclosure for the amount and issuer. At June 30, 2015, 93% of the County's investments were invested in "AAAm" rated Money Market Funds. All credit ratings presented in this paragraph are Standard & Poor's ratings.

Interest Rate Risk: The County's investment policy does not specifically address interest rate risk.

Investment Maturities (in years)		
Investment Type	Fair Value	Less Than One Year
U.S. Treasury Securities	\$ 3,308,019	\$ 3,308,019
U.S. Agency Securities	3,378,900	3,378,900
Total	<u>\$ 6,686,919</u>	<u>\$ 6,686,919</u>

External Investment Pools. The State Non-Arbitrage Pool (SNAP) is an open-end management investment company registered with the Securities and Exchange Commission (SEC). The fair value of the positions in the SNAP and LGIP is the same as the value of the pool shares. As these pools are not SEC registered, regulatory oversight of the pools rests with the Virginia State Treasury. LGIP maintains a policy to operate in a manner consistent with SEC Rule 2a-7.

COUNTY OF CAROLINE, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

Note 5. Capital Assets (Continued)

Legislation enacted during the year ended June 30, 2002, Section 15.2-1800.1 of the *Code of Virginia*, 1950, as amended, has changed the reporting of local school capital assets and related debt for financial statement purposes. Historically, debt incurred by governments “on behalf” of school boards was reported in the school board’s discrete column along with the related capital assets. Under the current law, local governments have a “tenancy in common” with the school board whenever the locality incurs any financial obligation for any school property which is payable over more than one fiscal year. For financial reporting purposes, the legislation permits the locality to report the portion of school property related to any outstanding financial obligation eliminating any potential deficit from capitalizing assets financed with debt. The effect on the County for the year ended June 30, 2015 is that school financed assets in the amount of \$40,368,848 and related accumulated depreciation and amortization of \$8,253,169 are reported by the County for financial reporting purposes.

A summary of Component Unit – School Board property, plant and equipment at June 30, 2015 follows:

Component Unit - School Board:

	Beginning Balance	Increases	(Deletions)	Reclassifications/ Transfers	Ending Balance
Capital assets, not being depreciated or amortized:					
Land	\$ 849,553	\$ -	\$ -	\$ -	\$ 849,553

COUNTY OF CAROLINE, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

Note 6. Interfund Transfers

Interfund transfers for the year ended June 30, 2015 consisted of the following:

Fund	Transfers In	Transfers Out
Governmental Activities:		
General	\$ -	\$ 9,778,089
Debt Service	7,461,130	-
County Capital Projects	158,464	-
Proffers	275,000	522,900
Virginia Public Assistance	469,247	-
Comprehensive Services	788,827	-
Tourism	3,000	-
Total Governmental Activities	9,155,668	10,300,989
Business-Type Activities:		
Caroline County Utility	985,647	-
Dawn Wastewater System	159,674	-
Total Business-Type Activities	1,145,321	-
Total All Funds	\$ 10,300,989	\$ 10,300,989

The transfer to the Debt Service Fund of \$7,461,130 includes a transfer of \$6,938,230 from the General Fund to account for debt service payments, not funded by other revenue sources, and a transfer of \$522,900 from the Proffer Fund to account for debt service payments on the YMCA and the Ladysmith Library.

The transfer to the County Capital Projects Fund of \$158,464 from the General Fund was to reimburse the County for additional expenses related to the Rt. 639 Project.

The transfer to the Virginia Public Assistance Fund of \$469,247 from the General Fund was to satisfy the local match requirement for the Fund.

The transfer to the Comprehensive Services Fund of \$788,827 from the General Fund was to satisfy the local match requirement for the Fund.

The transfer to the Tourism Fund of \$3,000 from the General Fund was to provide additional funding for the Caroline County Fair.

The transfer to the Proffers Fund of \$275,000 from the General Fund was to refund revenue sharing funds on the Route 639 project.

The transfer to the Caroline County Utility Fund of \$985,647 from the General Fund to cover debt service payments that were not generated by user charges in the Fund.

The transfer to the Dawn Wastewater System Fund of \$159,674 from the General Fund to cover debt service payments and costs associated with the Dawn Phase II project, that were not generated by user charges in the Fund.

COUNTY OF CAROLINE, VIRGINIA

COUNTY OF CAROLINE, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

Note 7. Long-Term Obligations (Continued)

Capital Leases

The County has entered into lease agreements as lessee for financing the acquisition of fire and rescue emergency response equipment, a solid waste collection truck, a roll-off truck, law enforcement equipment, and for the emergency dispatch and general radio communications equipment. The School Board has entered into lease agreements as lessee for financing the acquisition of school buses. These lease agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of their future minimum lease payments as of the inception date.

The assets acquired through capital leases are as follows:

	Governmental Activities	Component Unit - School Board
Asset:		
Equipment	\$ 1,918,911	\$ 998,971
Less: accumulated depreciation and amortization	1,806,546	204,625
Net asset value	<u>\$ 112,365</u>	<u>\$ 794,346</u>

The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2015 were as follows:

Year Ending June 30,	Governmental Activities	Component Unit - School Board
2016	\$ 852,424	\$ 117,383
2017	720,646	117,383

2020	692,138	117,383
2021-2025	3,460,689	219,610
2026	692,138	-
Total minimum lease payments	<u>7,802,310</u>	<u>806,525</u>
Less: amount representing interest	<u>1,044,389</u>	<u>107,781</u>
Present value of minimum lease payments	<u>\$ 6,757,921</u>	<u>\$ 698,744</u>

Note 8. Landfill Postclosure Costs

State and federal laws and regulations required the County to place a final cover on its landfill site when it stopped accepting waste and to perform certain maintenance and monitoring functions at the site for 30 years after closure. The landfill operated by the County was certified by the Virginia Department of Environmental Quality was closed on December 8, 2003 and all obligations of the County with regard to closure have been met. The \$3,117,413 reported as landfill postclosure care liability at June 30, 2015, represents the remaining engineering estimate of 19 years of postclosure monitoring and care. These amounts are based on what it would cost to perform all postclosure care in 2015. Actual cost may be higher due to inflation, changes in technology, or changes in regulation. The County intends to fund these costs from general tax revenues and from any special revenue source that may become available for this purpose.

COUNTY OF CAROLINE, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

Note 9. Unearned and Unavailable Revenue

Unavailable revenue represents amounts for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. Under the modified accrual basis of accounting, such amounts are measurable, but not available. Governmental funds also defer revenue recognition in connection with resources that have been received but not yet earned. Unavailable revenue totaling \$20,704,258 and unearned revenue of \$740,502 are comprised of the following:

Unavailable Property Tax Revenue: Unavailable revenue representing uncollected tax billings not available for funding of current expenditures totaled \$20,704,258, of which \$6,560,126 represents delinquent property taxes receivable at June 30, 2015.

Prepaid Property Taxes: Property taxes due subsequent to June 30, 2015 but paid in advance by the taxpayers totaled \$737,796 at June 30, 2015, and are classified as unearned.

Unearned Grant Revenue: Unearned revenue representing amounts received for the Equitable Sharing Program (Asset Forfeiture funds), for which expenditures had not been incurred at June 30, 2015, totaled \$2,706.

Note 10. Risk Management

The County and School Board Component Unit are exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets, errors and omissions; injuries to employees and others; and natural disasters. To reduce insurance costs and the need for self-insurance, the County and School Board joined with other municipalities in the Commonwealth of Virginia in several public entity risk pools that operate as common risk management and insurance programs for member municipalities.

The County and School Board have coverage with the Virginia Association of Counties Group Self Insurance Risk Pool (the "Pool") for all insurable risks identified by the County. Each Pool member jointly and severally agrees to assume, pay and discharge any liability. The County and School Board pay the Pool contributions and assessments based upon classifications and rates into a designated cash reserve fund out of which expenses of the Pool and claims and awards are to be paid. In the event of a loss deficit and depletion of all available excess insurance, the Pool may assess all members in the proportion which the premium of each bears to the total premiums of all members in the year in which such deficit occurs.

The County and School Board contribute to carry commercial insurance for all other risks of losses. Settled claims from these risks have not exceeded commercial coverage in any of the last three fiscal years.

Health Insurance

County employees, retirees and employee dependents are eligible for medical benefits from a County-held self-insurance plan. Funding is provided by charges to County departments, employees, and retirees. The program is supplemented by stop loss protection, which limits the County's annual liability.

COUNTY OF CAROLINE, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

Note 10. Risk Management (Continued)

Based on the requirements of GASB Statement No. 10, the County records an estimated liability for indemnity healthcare claims. Prior to fiscal year 2014, the liability was recorded in the respective fund; however, during fiscal year 2014, the County established a separate Self-Insurance Fund to account for this activity. The following represents the change in the fund's claim liability for 2015 and 2014:

Fiscal Year Ended	Beginning Liability	Claims and Changes in Estimates	Claim Payments	Ending Liability
June 30, 2014	\$ 141,600	\$ 28,403	\$ 32,416	\$ 137,587
June 30, 2015	137,587	542,776	532,388	147,975

Note 11. Pension Plan

Name of Plan: Virginia Retirement System (VRS)
Identification of Plan: Agent and Cost-Sharing Multiple-Employer Pension Plan
Administering Entity: Virginia Retirement System (System)

A. Plan Description

All full-time, salaried permanent employees of the County of Caroline and its component unit, the Caroline County School Board (School Board), are automatically covered by the VRS Retirement Plan or the VRS Teacher Retirement Plan upon employment. These plans are administered by the Virginia Retirement System (the System) along with plans for other employer groups in the Commonwealth of Virginia. Members earn one month of service credit for each month they are employed and for which they and their employer pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria as defined in the *Code of Virginia*, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously refunded service.

The System administers three different benefit structures for covered employees – Plan 1, Plan 2, and Hybrid. Each of the benefit structures has a different eligibility criteria. The specific information for each plan and the eligibility for covered groups within each plan are set out in the table below:

COUNTY OF CAROLINE, VIRGINIA

A. Plan Description (Continued)

Plan 1	Plan 2	Hybrid Retirement Plan
Calculating the Benefit The Basic Benefit is calculated based on a formula using the member's average final compensation, a retirement multiplier and total service credit at retirement. It is one of the benefit payout options available to a member at retirement. An early retirement reduction factor is applied to the Basic Benefit if the member retires with a reduced retirement benefit or selects a benefit payout option other than the Basic Benefit.	Calculating the Benefit See definition under Plan 1.	Calculating the Benefit <u>Defined Benefit Component</u> See definition under Plan 1. <u>Defined Contribution Component</u> The benefit is based on contributions made by the member and any matching contributions made by the employer, plus net investment earnings on those contributions.
Average Final Compensation A member's average final compensation is the average of the 36 consecutive months of highest compensation as a covered employee.	Average Final Compensation A member's average final compensation is the average of their 60 consecutive months of highest compensation as a covered employee.	Average Final Compensation Same as Plan 2. It is used in the retirement formula for the defined benefit component of the plan.
Service Retirement Multiplier The retirement multiplier is a factor used in the formula to determine a final retirement benefit. The retirement multiplier for non-hazardous duty members is 1.70%.	Service Retirement Multiplier Same as Plan 1 for service earned, purchased, or granted prior to January 1, 2013. The retirement multiplier is 1.65% for creditable service earned, purchased, or granted on or after January 1, 2013.	Service Retirement Multiplier The retirement multiplier for the defined benefit component is 1.0%. For members that opted into the Hybrid Retirement Plan from Plan 1 or Plan 2, the applicable multipliers for those plans will be used to calculate the retirement benefit for service credited in those plans.
Sheriffs and regional jail superintendents: The retirement multiplier for sheriffs and regional jail superintendents is 1.85%.	Sheriffs and regional jail superintendents: Same as Plan 1.	Sheriffs and regional jail superintendents: Not applicable.
Political subdivision hazardous duty employees: The retirement multiplier of eligible political subdivision hazardous duty employees other than sheriffs and regional jail superintendents is 1.70% or 1.85% as elected by the employer.	Political subdivision hazardous duty employees: Same as Plan 1.	Political subdivision hazardous duty employees: Not applicable. <u>Defined Contribution Component:</u> Not applicable.

Plan 1	Plan 2	Hybrid Retirement Plan
Disability Coverage Political subdivision employees: Members who are eligible to be considered for disability retirement and retire on disability, the retirement multiplier is 1.70% on all service regardless of when it was earned, purchased, or granted. VSDP members are subject to a one-year waiting period before becoming eligible for non-work related disability benefits.	Disability Coverage Political subdivision employees: Members who are eligible to be considered for disability retirement and retire on disability, the retirement multiplier is 1.65% on all service regardless of when it was earned, purchased, or granted. Virginia Sickness and Disability Program (VSDP) members are subject to a one-year waiting period before becoming eligible for non-work related disability benefits.	Disability Coverage Employees of political subdivisions and school divisions (teachers), including Plan 1 and Plan 2 opt-ins, participate in the Virginia Local Disability Program (VLDP) unless their local governing body provides an employer-paid comparable program for its members. Hybrid members (including Plan 1 and Plan 2 opt-ins) covered under VLDP are subject to a one-year waiting period before becoming eligible for non-work related disability benefits.
Purchase of Prior Service Members may be eligible to purchase service from previous public employment, active duty military service, an eligible period of leave or VRS refunded service as creditable service in their plan. Prior creditable service counts toward vesting, eligibility for retirement and the health insurance credit. Only active members are eligible to purchase prior service. When buying service, members must purchase their most recent period of service first. Members also may be eligible to purchase periods of leave without pay.	Purchase of Prior Service Same as Plan 1.	Purchase of Prior Service <u>Defined Benefit Component</u> Same as Plan 1, with the following exceptions. <ul style="list-style-type: none">• Hybrid Retirement Plan members are ineligible for ported service.• The cost for purchasing refunded service is the higher of 4% of creditable compensation or average final compensation.• Plan members have one year from their date of hire or return from leave to purchase all but refunded prior service at approximate normal cost. After that one year period, the rate for most categories of service will change to actuarial cost. <u>Defined Contribution Component:</u> Not applicable.

COUNTY OF CAROLINE, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

Note 11. Pension Plan (Continued)

A. Plan Description (Continued)

County (Agent Plan)

Employees Covered by Benefit Terms

As of the June 30, 2013 actuarial valuation, the following employees were covered by the benefit terms of the pension plan:

	<u>Number</u>
Inactive members or their beneficiaries currently receiving benefits	<u>103</u>
Inactive members:	
Vested	38
Non-vested	63
Active elsewhere in VRS	<u>107</u>
Total inactive members	<u>208</u>
Active members	<u>213</u>
Total covered employees	<u><u>524</u></u>

Contributions

The contribution requirement for active employees is governed by Section 51.1-145 of the *Code of Virginia*, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement. Prior to July 1, 2012, all or part of the 5.00% member contribution may have been assumed by the employer. Beginning July 1, 2012, new employees were required to pay the 5.00% member contribution. In addition, for existing employees, employers were required to begin making the employee pay the 5.00% member contribution. This could be phased in over a period of up to 5 years and the employer is required to provide a salary increase equal to the amount of the increase in the employee-paid member contribution.

The County's contractually required contribution rate for the year ended June 30, 2015 was 10.54% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2013.

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by an employee during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the County were \$1,038,097 and \$1,130,296 for the years ended June 30, 2015 and 2014, respectively.

COUNTY OF CAROLINE, VIRGINIA

School Board Non-Professional (Agent Plan)

Employees Covered by Benefit Terms

As of the June 30, 2013 actuarial valuation, the following employees were covered by the benefit terms of the pension plan:

	Number
Inactive members or their beneficiaries currently receiving benefits	41
Inactive members:	
Vested	6
Non-vested	18
Active elsewhere in VRS	7
Total inactive members	31
Active members	60
Total covered employees	132

Contributions

The contribution requirement for active employees is governed by Section 51.1-145 of the *Code of Virginia*, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement. Prior to July 1, 2012, all or part of the 5.00% member contribution may have been assumed by the employer. Beginning July 1, 2012, new employees were required to pay the 5.00% member contribution. In addition, for existing employees, employers were required to begin making the employee pay the 5.00% member contribution. This could be phased in over a period of up to 5 years and the employer is required to provide a salary increase equal to the amount of the increase in the employee-paid member contribution.

The School Board non-professional's contractually required contribution rate for the year ended June 30, 2015 was 7.00% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2013.

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by an employee during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the School Board for the non-professional plan were \$99,799 and \$128,159 for the years ended June 30, 2015 and 2014, respectively.

COUNTY OF CAROLINE, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

Note 11. Pension Plan (Continued)

A. Plan Description (Continued)

School Board Professional (Cost-Sharing Plan)

Contributions

The contribution requirement for active employees is governed by Section 51.1-145 of the *Code of Virginia*, as amended, but may be impacted as a result of funding options provided to school divisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement. Prior to July 1, 2012, all or part of the 5.00% member contribution may have been assumed by the employer. Beginning July 1, 2012, new employees were required to pay the 5.00% member contribution. In addition, for existing employees, employers were required to begin making the employee pay the 5.00% member contribution. This could be phased in over a period of up to 5 years and the employer is required to provide a salary increase equal to the amount of the increase in the employee-paid member contribution.

The School Board Professional's contractually required contribution rate for the year ended June 30, 2015 was 14.50% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2013. The actuarial rate for the Teacher Retirement Plan was 18.20%. The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employee during the year, with an additional amount to finance any unfunded accrued liability. Based on the provisions of Section 51.1-145 of the *Code of Virginia*, as amended, the contributions were funded at 79.69% of the actuarial rate for the year ended June 30, 2015. Contributions to the pension plan from the School Board for the professional plan were \$2,780,401 and \$2,156,343 for the years ended June 30, 2015 and 2014, respectively.

B. Net Pension Liability

The County and the School Board's non-professional plan net pension liabilities were measured as of June 30, 2014. The total pension liabilities used to calculate the net pension liabilities were determined by an actuarial valuation performed as of June 30, 2013, using updated actuarial assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2014.

At June 30, 2015, the School Board reported a liability for the professional plan of \$30,560,000 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2014 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The School Board's proportion of the net pension liability was based on the School Board's actuarially determined employer contributions to the pension plan for the year ended June 30, 2014 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2014, the School Board's proportion was 0.25288% as compared to 0.26005% at June 30, 2013.

COUNTY OF CAROLINE, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

Note 11. Pension Plan (Continued)

B. Net Pension Liability (Continued)

Actuarial Assumptions – General Employees

The total pension liability for General Employee's in the County's retirement plan and the total pension liability for the General Employees in the School Board non-professional retirement plan were based on an actuarial valuation as of June 30, 2013, using the Entry Age Normal Actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2014.

Inflation	2.5 %
Salary increases, including inflation	3.5% - 5.35%
Investment rate of return	7.0%, net of pension plan investment expense, including inflation*

*Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 7.0%. However, since the difference was minimal, and a more conservative 7.0% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 7.0% to simplify preparation of pension benefits.

Mortality Rates:	14% of deaths are assumed to be service related.
– Pre-retirement:	RP-2000 Employee Mortality Table Projected with Scale AA to 2020 with males set forward 4 years and females set back 2 years.
– Post-retirement:	RP-2000 Combined Mortality Table Projected with Scale AA to 2020 with males set forward 1 year.
– Post-disablement:	RP-2000 Disabled Life Mortality Table Projected to 2020 with males set back 3 years and no provision for future mortality improvement.

The actuarial assumptions used in the June 30, 2013 valuation were based on the results of an actuarial experience study for the period from July 1, 2008 through June 30, 2012. Changes to the actuarial assumptions as a result of the experience study are as follows:

- Update mortality table
- Decrease in rates of service retirement
- Decrease in rates of disability retirement
- Reduce rates of salary increase by 0.25% per year

COUNTY OF CAROLINE, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

Note 11. Pension Plan (Continued)

B. Net Pension Liability (Continued)

Actuarial Assumptions – Public Safety Employees

The total pension liability for Public Safety employees in the County's retirement plan was based on an actuarial valuation as of June 30, 2013, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date as of June 30, 2014.

Inflation	2.5 %
Salary increases, including inflation	3.5% - 4.75%
Investment rate of return	7.0%, net of pension plan investment expense, including inflation*

*Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 7.0%. However, since the difference was minimal, and a more conservative 7.0% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 7.0% to simplify preparation of pension liabilities.

Mortality Rates:	60% of deaths are assumed to be service related.
– Pre-retirement:	RP-2000 Employee Mortality Table Projected with Scale AA to 2020 with males set back 2 years and females set back 2 years.
– Post-retirement:	RP-2000 Combined Mortality Table Projected with Scale AA to 2020 with males set forward 1 year.
– Post-disablement:	RP-2000 Disabled Life Mortality Table Projected to 2020 with males set back 3 years and no provision for future mortality improvement.

The actuarial assumptions used in the June 30, 2013 valuation were based on the results of an actuarial experience study for the period from July 1, 2008 through June 30, 2012. Changes to the actuarial assumptions as a result of the experience study are as follows:

- Update mortality table
- Adjustments to rates of service retirement for females
- Increase in rates of withdrawal
- Decrease in male and female rates of disability

COUNTY OF CAROLINE, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

Note 11. Pension Plan (Continued)

B. Net Pension Liability (Continued)

Actuarial Assumptions – School Board Professional Plan

The total pension liability for the VRS Teacher retirement plan was based on an actuarial valuation as of June 30, 2013, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date as of June 30, 2014.

Inflation	2.5 %
Salary increases, including inflation	3.5% - 5.95%
Investment rate of return	7.0%, net of pension plan investment expense, including inflation*

*Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 7.0%. However, since the difference was minimal, and a more conservative 7.0% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 7.0% to simplify preparation of pension liabilities.

Mortality Rates:

- Pre-retirement: RP-2000 Employee Mortality Table Projected with Scale AA to 2020 with males set back 3 years and females set back 5 years.
- Post-retirement: RP-2000 Combined Mortality Table Projected with Scale AA to 2020 with males set back 2 years and females set back 3 years.
- Post-disablement: RP-2000 Disabled Life Mortality Table Projected to 2020 with males set back 1 year and no provision for future mortality improvement.

The actuarial assumptions used in the June 30, 2013 valuation were based on the results of an actuarial experience study for the period from July 1, 2008 through June 30, 2012. Changes to the actuarial assumptions as a result of the experience study are as follows:

- Update mortality table
- Adjustments to rates of service retirement
- Decrease in rates of withdrawals for 3 through 9 years of service
- Decrease in rates of disability
- Reduce rates of salary increase by 0.25% per year

COUNTY OF CAROLINE, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

Note 11. Pension Plan (Continued)

B. Net Pension Liability (Continued)

Long-Term Expected Rate of Return

The long-term expected rate of return on pension System investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class (Strategy)	Target Allocation	Arithmetic Long-Term Expected Rate of Return	Weighted Average Long-Term Expected Rate of Return
U.S. Equity	19.50%	6.46%	1.26%
Developed Non-U.S. Equity	16.50%	6.28%	1.04%
Emerging Market Equity	6.00%	10.00%	0.60%
Fixed Income	15.00%	0.09%	0.01%
Emerging Debt	3.00%	3.51%	0.11%
Rate Sensitive Credit	4.50%	3.51%	0.16%
Non-Rate Sensitive Credit	4.50%	5.00%	0.23%
Convertibles	3.00%	4.81%	0.14%
Public Real Estate	2.25%	6.12%	0.14%
Private Real Estate	12.75%	7.10%	0.91%
Private Equity	12.00%	10.41%	1.25%
Cash	1.00%	-1.50%	-0.02%
Total	100.00%		5.83%
	Inflation		2.50%
	* Expected arithmetic nominal return		8.33%

* Using stochastic projection results provides an expected range of real rates of return over various time horizons. Looking at one year results produces an expected real return of 8.33% but also has a high standard deviation, which means there is high volatility. Over larger time horizons, the volatility declines significantly and provides a median return of 7.44%, including expected inflation of 2.50%.

COUNTY OF CAROLINE, VIRGINIA**NOTES TO FINANCIAL STATEMENTS**

Note 11. Pension Plan (Continued)**B. Net Pension Liability (Continued)****Discount Rate**

The discount rate used to measure the total pension liabilities (assets) was 7.00%. The projection of cash flows used to determine the discount rate assumed that System member contributions will be made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ending June 30, 2018, the rate contributed by the employer for the County and the School Board's retirement plans will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly. From July 1, 2018 on, participating employers are assumed to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liabilities.

C. Changes in the Net Pension Liability (Asset)**County**

	Total Pension Liability	Plan Fiduciary Net Position	Net Pension Liability
Balances at June 30, 2013	\$ 29,033,989	\$ 24,710,877	\$ 4,323,112

Note 11. Pension Plan (Continued)**C. Changes in the Net Pension Liability (Asset) (Continued)**

Detailed information about the pension plans' fiduciary net position are available in the separately issued VRS financial report. Additional financial information supporting the preparation of the VRS Political Subdivision Plan Schedules and the VRS Teacher Retirement Plan Schedules (including the unmodified audit opinion on the financial statements and required supplementary information) is presented in the separately issued VRS 2014 Comprehensive Annual Financial Report (CAFR). A copy of the 2014 VRS CAFR is publicly available through the About VRS link on the VRS website at www.varetire.org, or a copy may be obtained by submitting a request to the VRS Chief Financial Officer at P.O. Box 2500, Richmond, Virginia 23218-2500.

D. Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**County**

For the year ended June 30, 2015, the County recognized pension expense of \$534,117. The County also reported deferred outflows of resources and deferred inflows of resources from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Net difference between projected and actual earnings on pension plan investments	\$ -	\$ 1,749,945
Employer contributions subsequent to the measurement date	1,038,097	-
Total	<u>\$ 1,038,097</u>	<u>\$ 1,749,945</u>

\$1,038,097 reported as deferred outflows of resources related to pensions resulting from the County's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2016.

Amounts reported as deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30,	Amount
2016	\$ 437,486
2017	437,486
2018	437,486
2019	437,487
	<u>\$ 1,749,945</u>

COUNTY OF CAROLINE, VIRGINIA**NOTES TO FINANCIAL STATEMENTS**

Note 11. Pension Plan (Continued)**D. Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)****School Board Non-Professional**

For the year ended June 30, 2015, the School Board recognized pension expense related to its non-professional plan of \$23,440. The School Board also reported deferred outflows of resources and deferred inflows of resources related to its non-professional plan from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Net difference between projected and actual earnings on pension plan investments	\$ -	\$ 303,723
Employer contributions subsequent to the measurement date	99,799	-
Total	<u>\$ 99,799</u>	<u>\$ 303,723</u>

\$99,799 reported as deferred outflows of resources related pensions resulting from the School Board non-professional plan's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2016.

Amounts reported as deferred inflows of resources related to pensions for the School Board non-professional plan will be recognized in pension expense as follows:

Year Ending June 30,	Amount
2016	\$ 75,931
2017	75,931
2018	75,931
2019	<u>75,930</u>
	<u>\$ 303,723</u>

COUNTY OF CAROLINE, VIRGINIA**NOTES TO FINANCIAL STATEMENTS**

Note 11. Pension Plan (Continued)**D. Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)****School Board Professional**

For the year ended June 30, 2015, the School Board recognized pension expense related to the professional plan of \$2,238,000. Since there was a change in proportionate share between June 30, 2013 and June 30, 2014, a portion of the pension expense was related to deferred amounts from changes in proportion and from differences between employer contributions and the proportionate share of employer contributions.

At June 30, 2015, the School Board reported deferred outflows of resources and deferred inflows of resources related to pensions for the professional plan from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Net difference between projected and actual earnings on pension plan investments	\$ -	\$ 5,344,000
Employer contributions subsequent to the measurement date	2,780,401	-
Total	<u>\$ 2,780,401</u>	<u>\$ 5,344,000</u>

\$2,780,401 reported as deferred outflows of resources related to pensions resulting from the School Board's contributions for the professional plan subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30,	Amount
2016	\$ 1,313,000
2017	1,313,000
2018	1,313,000
2019	1,313,000
2020	92,000
	<u>\$ 5,344,000</u>

COUNTY OF CAROLINE, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

Note 12. Other Postemployment Benefits – County and School Board Sponsored

A. Plan Description

The County and School Board offer eligible retirees post-retirement medical coverage if they meet certain requirements. County employees must retire directly from the County with at least 15 years of continuous service and are eligible to receive early or regular retirement benefit from the Virginia Retirement System (VRS). School Board employees must retire with at least 30 years of service at the age of 50 or with at least five years of service at the age of 65. Health benefits include medical, dental and vision coverage. The Caroline County retirees are responsible for 100% of the premium which is paid directly to the subscriber. Retirees from the County can elect one of two different plans and retirees from the School Board can elect one of three plans. Benefits end at the age of 65 for both the County and the School Board. If the County retiree dies prior to age 65, the spouse is eligible for COBRA coverage. If the School Board retiree dies prior to age 65, the spouse may continue coverage until the spouse is age 65.

B. Funding Policy

The County retirees pay 100% of the premiums directly to the subscriber. Coverage is for eligible retirees and their spouses and dependents. Monthly premiums for the County vary from \$559 for retiree only coverage to \$2,000 for the retiree plus family. Monthly premiums for the School Board vary from \$545 for retiree only coverage to \$1,647 for the retiree plus family. Retirees of the County School System must meet the eligibility requirements based on service earned with the VRS to be eligible to receive benefits. Participants who do not retire directly from active service are not eligible.

For the County plan, retirees contribute 100% of the premium cost for retiree and spouse/dependent coverage. The School Board makes varying contributions ranging from \$260 to \$1,243 per month, for retiree and family coverage. The employer contribution depends on whether the employee works part-time or full-time upon retirement. The retiree pays the remainder of the premium.

The County currently has one retiree without spouse coverage and one retiree with spouse coverage participating in the Plan. The School System has 39 retirees without spouse coverage and eight retirees with spouse coverage participating in the Plan.

C. Annual OPEB Cost and Net OPEB Obligation

The County's and School Board's annual other postemployment benefit cost (expense) is calculated based on the annual required contribution (ARC) of the employer. The County and School Board have elected to calculate the ARC as the normal cost plus amortization of the unfunded portion of actuarial accrued liability in compliance with GASB parameters. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years.

COUNTY OF CAROLINE, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

Note 12. Other Postemployment Benefits – County and School Board Sponsored (Continued)

C. Annual OPEB Cost and Net OPEB Obligation (Continued)

The estimated contributions are based on projected medical premium payments and credit for the implicit rate subsidy made during the year for the retired employees by the County and School Board. The following table shows the components of the County's and School Board's annual OPEB cost for the year, the estimated annual contributions to the Plan, and changes in the County's and School Board's net OPEB obligation to the Plan:

	Primary Government	Component Unit - School Board
Annual required contribution	\$ 85,000	\$ 895,400
Interest on net OPEB obligation	9,217	55,391
Adjustment to annual required contribution	(9,738)	(86,049)
Annual OPEB cost (expense)	84,479	864,742
Contributions made	(16,000)	(509,000)
Increase in net OPEB obligation	68,479	355,742
Net OPEB obligation, beginning of year	263,349	1,582,613
Net OPEB obligation, end of year	\$ 331,828	\$ 1,938,355

The County's and School Board's annual OPEB cost, the percentage of annual OPEB cost contributed to the Plan, and the net OPEB obligation for fiscal years 2013 through 2015 were as follows:

Fiscal Year Ended	Annual OPEB Costs	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
-------------------------	-------------------------	--	---------------------------

County:

June 30, 2015	\$ 84,479	18.94%	\$ 331,828
June 30, 2014	64,601	5.11%	263,349
June 30, 2013	60,918	2.13%	202,048

School Board:

June 30, 2015	\$ 864,742	58.86%	\$ 1,938,355
June 30, 2014	555,471	85.80%	1,582,613
June 30, 2013	546,423	87.22%	1,503,742

COUNTY OF CAROLINE, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

Note 12. Other Postemployment Benefits – County and School Board Sponsored (Continued)

D. Funded Status and Funding Progress

As of June 30, 2015, the most recent actuarial valuation date, the County's actuarial accrued liability for benefits was \$756,000, all of which was unfunded. The covered payroll (annual payroll of active employees covered by the Plan) was \$9,725,600, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 7.77%.

As of June 30, 2015, the most recent actuarial valuation date, the School Board's actuarial accrued liability for benefits was \$7,674,900, all of which was unfunded. The covered payroll (annual payroll of active employees covered by the plan) was \$21,547,800, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 35.62%.

The projection of future benefit payments for an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and healthcare cost trend. Amounts determined regarding the funded status of the Plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of the plan assets is increasing or decreasing over time relative to the AAL for benefits.

E. Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The following simplifying assumptions were made:

Retirement age for active employees – Retirement age is estimated based on tables used for the VRS State Employees valuation and assumes participants begin to retire when they become eligible to receive healthcare benefits.

Mortality – For pre-retirement mortality rates, life expectancies are based on mortality tables from the RP-2000 Employee Mortality Tables projected to 2020 using Scale AA with males set forward 2 years (5 years for Public Safety employees) and females set back 3 years. For post-retirement mortality rates, life expectancies are based on mortality tables from the RP-2000 Combined Healthy Mortality Tables projected to 2020 using Scale AA with females set back 1 year.

Coverage elections – The actuary assumes 30% of current actives of Caroline County will elect medical coverage when they retire and 30% of retirees who elect coverage will cover a spouse. The actuary also assumes surviving spouses will decline COBRA. The actuary assumes 73% of current actives of the Schools will elect medical coverage; 11% of retirees who elect medical coverage will elect to cover a spouse; 50% of current active employees will elect dental coverage; and 15% of retirees who elect dental coverage will elect to cover a spouse.

COUNTY OF CAROLINE, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

Note 12. Other Postemployment Benefits – County and School Board Sponsored (Continued)

E. Methods and Assumptions (Continued)

Based on the historical and expected returns of the County and School Board's short-term investment portfolio, a discount of 3.50% was used. In addition, the projected unit credit actuarial cost method was used. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2015 was 30 years.

Note 13. Restatement of Net Position and Fund Balances

Change in Accounting

The following adjustments were made to the beginning net position of the Governmental Activities, Utility Fund, Business-type activities, and Component-unit – School Board at July 1, 2014:

	Caroline County Utility Fund	Business- Type Activities
Net position, June 30, 2014, as previously reported	\$ 4,003,810	\$ 6,969,463
Change in accounting principle for the implementation of GASB Statement No. 68 – to record the VRS net pension liability and related components	(186,461)	(186,461)
Net position, June 30, 2014, as restated	\$ 3,817,349	\$ 6,783,002
	Component-unit School Board	Governmental Activities
Net position, June 30, 2014, as previously reported	\$ 5,882,932	\$ 9,006,330
Change in accounting principle for the implementation of GASB Statement No. 68 – to record the VRS net pension liability and related components	(33,801,338)	(3,006,355)
Net position, June 30, 2014, as restated	\$ (27,918,406)	\$ 5,999,975

COUNTY OF CAROLINE, VIRGINIA

NOTES TO FINANCIAL STATEMENTS

Note 14. Pending GASB Statements

At June 30, 2015, the Governmental Accounting Standards Board (GASB) had issued statements not yet implemented by the County. The statements which might impact the County are as follows:

GASB Statement No. 72, *Fair Value Measurement and Application*, will improve measurement and application by state and local governments for fair value. Statement No. 72 will be effective for fiscal years beginning after June 15, 2015.

GASB Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68*, will improve accounting and financial reporting by state and local governments for pensions. It will also improve the comparability of pension-related information. Statement No. 73 will be effective for fiscal years beginning after June 15, 2015.

GASB Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, will improve financial reporting by state and local governments for OPEB. It also provides information for changes in OPEB liabilities from year to year. Statement No. 74 will be effective for fiscal years beginning after June 15, 2016.

GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, will improve accounting and financial reporting by state and local governments for OPEB. It will also require the recognition of the entire OPEB liability and a comprehensive measure of OPEB expense. Statement No. 75 will be effective for fiscal years beginning after June 15, 2017.

GASB Statement No. 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*, will improve financial reporting for state and local governments by providing greater reporting guidance to provide less variation in financial reporting. Statement No. 76 will be effective for fiscal years beginning after June 15, 2015.

GASB Statement No. 77, *Tax Abatement Disclosures*, requires a state or local government to disclose information about tax abatement. Statement No. 77 will be effective for fiscal years beginning after December 15, 2015.

Management has not determined the effects these new Statements may have on prospective financial statements.

Note 15. Subsequent Event and Contingencies

Federal and State-Assisted Programs: The County and School Board have received proceeds from several federal and state grant programs. Periodic audits of these grants are required and certain costs may be questioned as not being appropriate expenditures under the grant agreements. Such audits could result in the refund of grant monies to the grantor agencies. Management believes any required refunds will be immaterial. Based upon past experience, no provision has been made in the accompanying financial statements for the refund of grant monies.

Subsequent to year-end, the County completed a refunding of its Series 2005 bond and financed an additional \$800,000. The total amount of the new debt was \$5,328,275 and resulted in a cost savings of \$641,440. The interest rate of the new debt is 2.67%, with a final maturity date of January 2031.

COUNTY OF CAROLINE, VIRGINIA

Exhibit 15

**SCHEDULE OF CHANGES IN THE COUNTY
NET PENSION LIABILITY AND RELATED RATIOS**

	June 30, 2014
Total Pension Liability	
Service cost	\$ 1,235,508
Interest	1,988,555
Benefit payments, including refunds of employee contributions	(1,252,134)
Net change in total pension liability	<u>1,971,929</u>
Total pension liability - beginning	<u>29,033,989</u>
Total pension liability - ending (a)	<u><u>\$ 31,005,918</u></u>
Plan Fiduciary Net Position	
Contributions - employer	\$ 1,130,296
Contributions - employee	529,552
Net investment income	3,930,748
Benefit payments, including refunds of employee contributions	(1,252,134)
Administrative expense	(20,616)
Other	207
Net change in plan fiduciary net position	<u>4,318,053</u>
Plan fiduciary net position - beginning	<u>24,710,877</u>
Plan fiduciary net position - ending (b)	<u><u>\$ 29,028,930</u></u>
County's net pension liability - ending (a) - (b)	<u><u>\$ 1,976,988</u></u>
Plan fiduciary net position as a percentage of the total pension liability	93.62%
Covered-employee payroll	\$ 10,723,871
County's net pension liability as a percentage of covered-employee payroll	18.44%

Notes to Schedule:

- (1) **Changes of benefit terms:** There have been no significant changes to the System benefit provisions since the prior actuarial valuation. A hybrid plan with changes to the defined benefit plan structure and a new defined contribution component were adopted in 2012. The hybrid plan applies to most new employees hired on or after January 1, 2014 and not covered by enhanced hazardous duty benefits. The liabilities presented do not reflect the hybrid plan since it covers new members joining the System after the valuation date of June 30, 2013 and the impact on the liabilities as of the measurement date of June 30, 2014 are minimal.
- (2) **Changes of assumptions:** The following changes in actuarial assumptions were made effective June 30, 2013 based on the most recent experience study of the System for the four-year period ended June 30, 2012:

LEOS:	NON-LEOS:
a. Update mortality table	a. Update mortality table
b. Adjustments to rates of service retirement for females	b. Decrease in rates of service retirement
c. Increase in rates of withdrawal	c. Decrease in rates of disability retirement
d. Decrease in male and female rates of disability	d. Reduce rates of salary increases by 0.25% per year
- (3) This schedule is presented to illustrate the requirement to show information for 10 years. However, until a full 10-year trend is compiled, the County will present information for those years which information is available.

**SCHEDULE OF CHANGES IN THE SCHOOL BOARD NON-PROFESSIONAL
NET PENSION ASSET AND RELATED RATIOS**

	June 30, 2014
Total Pension Liability	
Service cost	\$ 150,905
Interest	314,768
Benefit payments, including refunds of employee contributions	(295,363)
Net change in total pension liability	<u>170,310</u>
Total pension liability - beginning	<u>4,644,365</u>
Total pension liability - ending (a)	<u><u>\$ 4,814,675</u></u>
Plan Fiduciary Net Position	
Contributions - employer	\$ 128,159
Contributions - employee	66,968
Net investment income	682,678
Benefit payments, including refunds of employee contributions	(295,363)
Administrative expense	(3,726)
Other	36
Net change in plan fiduciary net position	<u>578,752</u>
Plan fiduciary net position - beginning	<u>4,380,868</u>
Plan fiduciary net position - ending (b)	<u><u>\$ 4,959,620</u></u>
School Board non-professional net pension asset - ending (a) - (b)	<u><u>\$ (144,945)</u></u>
Plan fiduciary net position as a percentage of the total pension liability	103.01%
Employer's covered-employee payroll	\$ 1,830,843
School Board's non-professional net pension asset as a percentage of covered-employee payroll	7.92%

Notes to Schedule:

- (1) **Changes of benefit terms:** There have been no significant changes to the System benefit provisions since the prior actuarial valuation. A hybrid plan with changes to the defined benefit plan structure and a new defined contribution component were adopted in 2012. The hybrid plan applies to most new employees hired on or after January 1, 2014 and not covered by enhanced hazardous duty benefits. The liabilities presented do not reflect the hybrid plan since it covers new members joining the System after the valuation date of June 30, 2013 and the impact on the liabilities as of the measurement date of June 30, 2014 are minimal.
- (2) **Changes of assumptions:** The following changes in actuarial assumptions were made effective June 30, 2013 based on the most recent experience study of the System for the four-year period ended June 30, 2012:
 - a. Update mortality table
 - b. Adjustments to rates of service retirement for females
 - c. Increase in rates of withdrawal
 - d. Decrease in male and female rates of disability
- (3) This schedule is presented to illustrate the requirement to show information for 10 years. However, until a full 10-year trend is compiled, the School Board will present information for those years which information is available.

**SCHEDULE OF SCHOOL BOARD SHARE OF NET PENSION LIABILITY
VRS TEACHER RETIREMENT PLAN**

	June 30, 2014
Employer's proportion of the net pension liability	0.25288%
Employer's proportionate share of the net pension liability	\$ 30,560,000
Employer's covered-employee payroll	\$ 14,871,331
Employer's proportionate share of the net pension liability as a percentage of its covered-employee payroll	205.50%
Plan fiduciary net position as a percentage of the total pension liability	70.88%

Notes to Schedule:

- (1) **Changes of benefit terms:** There have been no significant changes to the System benefit provisions since the prior actuarial valuation. A hybrid plan with changes to the defined benefit plan structure and a new defined contribution component were adopted in 2012. The hybrid plan applies to most new employees hired on or after January 1, 2014 and not covered by enhanced hazardous duty benefits. The liabilities presented do not reflect the hybrid plan since it covers new members joining the System after the valuation date of June 30, 2013 and the impact on the liabilities as of the measurement date of June 30, 2014 are minimal.
- (2) **Changes of assumptions:** The following changes in actuarial assumptions were made effective June 30, 2013 based on the most recent experience study of the System for the four-year period ended June 30, 2012:
 - a. Update mortality table
 - b. Adjustments to rates of service retirement for females
 - c. Decrease in rate of withdrawals for 3 through 9 years of service
 - d. Decrease in rates of availability
 - e. Reduce rates of salary increase by 0.25% per year
- (3) This schedule is presented to illustrate the requirement to show information for 10 years. However, until a full 10-year trend is compiled, the School Board will present information for those years which information is available.

COUNTY OF CAROLINE, VIRGINIA**Exhibit 18****SCHEDULE OF COUNTY CONTRIBUTIONS**

	Fiscal Year June 30, 2014
Contractually required contribution (CRC)	\$ 1,130,296
Contributions in relation to the CRC	<u>1,130,296</u>
Contribution deficiency (excess)	<u>\$ -</u>
Employer's covered-employee payroll	\$ 10,723,871
Contributions as a percentage of covered-employee payroll	10.54%

Notes to Schedule:

(1) Valuation date: June 30, 2014

(2) Actuarially determined contribution rates are calculated as of June 30, two years prior to the end of the fiscal year in which contributions are reported.

(3) Methods and assumptions used to determine contribution rates:

Actuarial cost method	Entry age
Amortization method	Level percentage of payroll, closed
Remaining amortization period	20-29 years
Asset valuation method	5-year smoothed market
Cost-of-living adjustments	2.50%
Projected salary increases	3.50-5.35%
Investment rate of return	7.0%, including inflation at 2.50%

(4) This schedule is presented to illustrate the requirement to show information for 10 years. However, until a full 10-year trend is compiled, the County will present information for those years for which information is available.

Total Fund balances \$ 1,006,023

Amounts reported for governmental activities in the Statement of Net Position are different because:

Capital assets used in governmental activities are not current financial resources and, therefore, are not reported in the governmental funds.

Governmental capital assets	\$ 24,867,220	
Less accumulated depreciation and amortization	(17,330,527)	
Net capital assets		7,536,693

Deferred outflows of resources represent a consumption of net position that applies to a future period and, therefore, are not recognized as expenditures in the governmental funds.

2,880,200

Long-term liabilities are not due and payable in the current period and, therefore, are not reported as liabilities in the governmental funds.

Capital leases	(698,744)	
Compensated absences	(566,489)	
Interest payable	(23,565)	
Other postemployment benefits	(1,938,355)	
Net pension liability	(30,415,055)	
		(33,642,208)

Deferred inflows of resources represent an acquisition of net position that applies to a future period and, therefore, are not recognized as revenue in the governmental funds.

(5,647,723)

Net position of governmental activities

Revenues over expenditures	288,629	40,491	79	-	329,199
Net change in fund balances	288,629	40,491	79	-	329,199
Fund balances, beginning	(1,181)	286,560	70,129	321,316	676,824
Fund balances, ending	\$ 287,448	\$ 327,051	\$ 70,208	\$ 321,316	\$ 1,006,023
Net change in fund balances					\$ 329,199
Reconciliation of amounts reported for governmental activities in the Statement of Activities:					
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation and amortization expense. This is the amount by which depreciation and amortization were more than capital outlays in the current period.					
Expenditure for capital assets				\$ 116,480	
Less depreciation and amortization expense				(720,525)	
Excess of depreciation and amortization over capital outlays					(604,045)
Debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Position. Repayment of principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position.					
Principal repayments:					
Capital leases					87,861
Deferred outflows of resources - pension contributions					2,880,200
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.					
Compensated absences				(27,666)	
Accrued interest				3,024	
Other postemployment benefits				(355,742)	
Pension expense				(2,261,440)	
					(2,641,824)
Change in net position of governmental activities					\$ 51,391

STATISTICAL SECTION

COUNTY OF CAROLINE, VIRGINIA

STATISTICAL SECTION TABLE OF CONTENTS

The statistical section of the County's comprehensive annual financial report presents detailed information as a context for understanding what the information presented in the financial statements, note disclosures and required supplementary information say about the County's overall financial health. This information has not been audited by the independent auditor.

Contents	Tables
Financial Trends These tables contain trend information to help the reader understand how the County's financial performance and well being have changed over time.	2-5
Revenue Capacity These tables contain information to help the reader assess the County's most significant local revenue sources, the property tax, as well as other revenue sources.	6-10
Debt Capacity This table presents information to help the reader assess the affordability of the County's current level of outstanding debt and the County's ability to issue additional debt in the future.	11
Demographic and Economic Information This table offers demographic and economic indicators to help the reader understand the environment within which the County's financial activities take place.	12
Operating Information This table contains service and infrastructure data to help the reader understand how the information in the County's financial report relates to the services the County provides and the activities it performs.	13

Sources: Unless otherwise noted, the information in these tables is derived from the comprehensive annual financial report for the relevant year.

STATISTICAL SECTION

Comments Relative to Statistical Section

The following statistical table recommended by the National Council on Governmental Accounting is not included for the reason stated below:

The table showing legal debt margin is omitted because counties in the State of Virginia are not subject to the 10% legal debt margin as cities and towns are.

COUNTY OF CAROLINE, VIRGINIA

(2)

Notes:

(1) This table reports financial information based on the accrual basis of accounting. The County implemented GASB Statement No. 63 in fiscal year 2013. This standard eliminated the use of the term "net assets" and now refers to this measurement as "net position."

(2) June 30, 2014 net position was restated for the implementation of GASB Statement No. 68.

Total primary government								\$ (503,473)	\$ 3,518,096	\$ 7,526,088

Notes:

(1) Net (expense) revenue is the difference between expenses and program revenues. This difference indicates the degree to which a function or program is supported with its own fees and program-specific grants versus its reliance upon funding from taxes and other general revenues. Numbers in parentheses are net expenses indicating that expenses were greater than program revenues and, therefore, general revenues were needed to finance that function or program. Numbers without parentheses are net revenues, demonstrating that program revenues were more than sufficient to cover expenses.

(2) This table reports financial information based on the accrual basis of accounting. The County implemented GASB Statement No. 63 in fiscal year 2013. This standard eliminated the term "net assets" and now refers to this measurement as "net position."

Note:

- (1) In fiscal year 2011, the County implemented GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, which effectively changed the classifications used to report fund balances. The terms reserved and unreserved are no longer used to describe fund balance. Fund balance is now classified as nonspendable, restricted, committed, assigned, or unassigned.

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

Note 1. Significant Accounting Policies

Basis of Presentation and Accounting:

The accompanying Schedule of Expenditures of Federal Awards includes the federal grant activity of the County of Caroline, Virginia and the component unit – School Board under programs of the federal government for the year ended June 30, 2015. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this Schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

Federal Financial Assistance – The Single Audit Act Amendments of 1996 (Public Law 104-156) and OMB Circular A-133 define federal financial assistance as grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations or other assistance. Nonmonetary deferral assistance including food commodities is considered federal assistance and, therefore, is reported on the Schedule of Expenditures of Federal Awards. Federal financial assistance does not include direct federal cash assistance to individuals.

Direct Payments – Assistance received directly from the Federal government is classified as direct payments on the Schedule of Expenditures of Federal Awards.

Pass-through Payments – Assistance received in a pass-through relationship from entities other than the Federal government is classified as pass-through payments on the Schedule of Expenditures of Federal Awards.

Major Programs – The Single Audit Act Amendments of 1996 and OMB Circular A-133 establish the criteria to be used in defining major programs. Major programs for the County of Caroline, Virginia and the component unit were determined using a risk-based approach in accordance with OMB Circular A-133.

Catalog of Federal Domestic Assistance – The Catalog of Federal Domestic Assistance (CFDA) is a government-wide compendium of individual federal programs. Each program included in the catalog is assigned a five-digit program identification number (CFDA Number), which is reflected in the accompanying schedule.

Cluster of Programs – Closely related programs that share common compliance requirements are grouped into clusters of programs. A cluster of programs is considered as one federal program for determining major programs. The following are the clusters administered by the County of Caroline, Virginia and its component units: Child Nutrition and Special Education.

Note 2. Non-Cash Assistance

In addition to amounts reported on the Schedule of Expenditures of Federal Awards, the County consumed non-cash assistance in the form of food commodities. Commodities with a fair value of \$106,444 at the time received were consumed during the year ended June 30, 2015. These commodities were included in the determination of federal awards expended during the year ended June 30, 2015.

COUNTY OF CAROLINE, VIRGINIA

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

Note 3. Relationship to the Basic Financial Statements

For fiscal year 2015, the School Board recognized amounts in the Schedule of Expenditures of Federal Awards (SEFA) associated with prior year expenditures. Expenditures should be recognized in the fiscal year spent for reporting purposes. In the current fiscal year, \$251,723 of prior year expenditures related to the ARRA State Fiscal Stabilization Funds (CFDA #84.394) were included in the SEFA. The Indirect Cost Recovery expenditures associated with this federal program were not included in the prior year SEFAs due to the revenue associated with these expenditures being improperly deferred in prior years. The expenditures had been incurred and reported in the County's financial statements but were not reflected in the prior years SEFA. As a result of this omission, the School Board included the expenditures in the current year SEFA.

**INDEPENDENT AUDITOR'S REPORT ON
INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the Honorable Members of the Board of Supervisors
County of Caroline, Virginia

We have audited, in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Caroline, Virginia (County) as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated January 22, 2016.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying Schedule of Findings and Questioned Costs, we identified certain deficiencies in internal control over financial reporting that we consider to be material weaknesses and a significant deficiency.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying Schedule of Findings and Questioned Costs as items 2015-01 and 2015-02 to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency described in the accompanying Schedule of Findings and Questioned Costs as item 2015-03 to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE
FOR EACH MAJOR FEDERAL PROGRAM AND
REPORT ON INTERNAL CONTROL OVER COMPLIANCE
REQUIRED BY OMB CIRCULAR A-133**

To the Honorable Members of the Board of Supervisors
County of Caroline, Virginia

Report on Compliance for Each Major Federal Program

We have audited the County of Caroline, Virginia's (County) compliance with the types of compliance requirements described in the OMB Circular A-133 *Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the year ended June 30, 2015. The County's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the County's compliance.

Opinion on Each Major Federal Program

In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2015.

Report on Internal Control Over Compliance

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

84.010	Title I Grants to Local Educational Agencies
93.778	Medical Assistance Program
Child Nutrition Cluster:	
10.553	School Breakfast Program (SBP)
10.555	National School Lunch Program (NSLP)
10.555	Commodity Distributions
Special Education Cluster:	
84.027	Special Education – Grants to States
84.173	Special Education – Preschool Grants

SCHEDULE OF FINDINGS AND QUESTIONED COSTS

Year Ended June 30, 2015

SCHEDULE OF FINDINGS AND QUESTIONED COSTS
Year Ended June 30, 2015

II. FINANCIAL STATEMENT FINDINGS (Continued)

B. Significant Deficiency in Internal Control School Board

2015-03: Significant deficiency due to Lack of Segregation of Duties

Requirement: Internal control over the processing of payroll should be sufficient to prevent the disbursement of payroll to unauthorized personnel. This should include review and approval procedures, and segregation of duties to the fullest extent allowable.

Condition: In documenting the procedures relating to the addition of new employees and the subsequent processing of payroll, we noted the same individual who prepares and processes monthly payroll also has the ability to add employees to the payroll software with no secondary review or approval.

Effect: The potential effect of not requiring secondary approval is that the School Board is subject to risk of fraud or error, in that there is no check and balance upon authorizing a new employee receiving a paycheck.

Recommendation: We recommend the School Board shift the responsibility of adding and deleting employees from the payroll software to the Human Resources department or to an employee that is not involved in the payroll process. This would provide adequate separation between the initiation and authorization functions of the payroll cycle.

III. FINDINGS AND QUESTIONED COSTS FOR FEDERAL AWARDS

None

COUNTY OF CAROLINE, VIRGINIA

**CORRECTIVE ACTION PLAN
Year Ended June 30, 2015**

Identifying Number: 2015-01

Finding

Upon auditing the Social Services' year end balances, there was an instance of a material adjustment identified.

Corrective Action Taken or Planned

The County has taken steps to reconcile CSA revenues and expenditures on a routine basis.

Identifying Number: 2015-02

Finding

School Board schedules and reconciliations for accruals, accounts payable, deferred revenue and capital assets were not available at the commencement of fieldwork as previously agreed upon.

Corrective Action Taken or Planned

The School Board will put steps in place to ensure the timely delivery of requested documents for the commencement of fieldwork.

Identifying Number: 2015-03

Finding

Upon documenting the School Board's procedures surrounding the payroll cycle, it was noted there was inadequate segregation of duties when adding or deleting employees in the payroll software.

Corrective Action Taken or Planned

The School Board will implement procedures shifting the responsibility of adding and deleting employees to personnel from the Human Resources department. This person will not have the ability to initiate payroll runs within the software.

COUNTY OF CAROLINE, VIRGINIA

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS Year Ended June 30, 2015

2014-01 Material Weakness Due to Material Audit Adjustments and Restatements

Finding

Upon auditing the County's year end balances, there were instances of material adjustments identified, including entries to restate prior periods. These restatements were to adjust long-term debt accounts for omissions of a note payable, which had not been identified upon receipt by the County several years prior to the current year.

Corrective Action Taken or Planned

The County has strengthened its reviews of general ledger accounts to verify accuracy in the balances. The County has also identified resources to assist in understanding questionable or confusing accounting.

2014-02 Lack of Interest Allocation for Special Welfare and Dedicated SSI Accounts

Finding

The *Specifications for Audits of Counties, Cities and Towns* and the *Code of Virginia* require the special welfare and dedicated SSI account ledgers maintained by the Local Department of Social Services and/or treasurer must be properly credited interest as it is earned. This results in earned interest amounts being calculated and credited monthly to these accounts. During the audit of fiscal year 2015, it was determined interest for these accounts was calculated using the accounts' balance at year end and only being credited annually.

We recommended the County implement a monthly process to allocate interest for these accounts to be in compliance with the specifications of the Auditor of Public Accounts and the *Code of Virginia*, in an effort to properly credit interest when earned.

Corrective Action Taken or Planned

The Treasurer's office separated the SSI receipts and disbursements from other Special Welfare entries, so interest earned each month may be allocated accordingly. A copy of the entry is sent monthly to the Department of Social Services, so the appropriate funds may be credited in a timely manner.
