December 20, 2010

Honorable Mayor, Members of Town Council, and Residents of the Town of Leesburg:

We are pleased to present the Comprehensive Annual Financial Report (CAFR) for the Town of Leesburg (the Town) for the fiscal year ended June 30, 2010. This report is designed to present fairly the financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town in all material respects and to demonstrate compliance with applicable finance-related legal and contractual provisions. The report includes all disclosures necessary to enable the reader to gain the maximum understanding of the financial affairs of the Town.

The Department of Finance has prepared this report in accordance with the following standards:

- Accounting principles generally accepted in the United States of America (GAAP), which are uniform minimum standards and guidelines for financial accounting and reporting;
- Governmental accounting and financial reporting statements, interpretations and technical bulletins issued by the Governmental Accounting Standards Board (GASB) and;
- Uniform financial reporting standards for counties, cities, and towns issued by the Commonwealth of Virginia's Auditor of Public Accounts (APA).

The responsibility for the accuracy of the data and the completeness and fairness of the information presented in the report, including disclosures, rests with management. To the best of our knowledge and belief, the enclosed financial statements, schedules and tables are complete and accurate in all material respects.

Profile of the Town

The Town is located in the Virginia Piedmont between the foothills of the Blue Ridge Mountains and the Potomac River, 35 miles northwest of Washington, D.C. The Town covers approximately 12 square miles, with elevations ranging from 275 feet to 425 feet above sea level.

Established in 1758, Leesburg is the seat of government for Loudoun County. The Town's rich history spans three centuries. Originally, a settlement called George Town in honor of the reigning monarch of Great Britain, the Town was renamed to honor the influential Lee family of Virginia.

During the war of 1812, the Town served as the temporary capital of the United States when valuable papers of the federal government including the Declaration of Independence and the Constitution were brought to the Town for safekeeping. President James Monroe resided just south of town at Oak Hill, where he announced the Monroe Doctrine in 1823. The Town was the site of the Civil War Battle of Ball's Bluff fought on the banks of the Potomac River. The 1861 battle claimed the life of Col. Edward Baker, a close friend of President Lincoln, and spawned a congressional committee to investigate the conduct of the war. The battlefield is marked by one of America's smallest national cemeteries.

In the 20th century, the Town was the home of World War II General, and later U. S. Secretary of State, George C. Marshall, architect of the famous Marshall Plan that re-built Europe after the war, and radio personality Arthur Godfrey, who donated land for the Town's first airport.

Today, the Town continues to serve as the center of government and commerce for Loudoun County. The Old and Historic District was placed on the National Registry of Historic Places in 1970 and cited as one of the best preserved and most picturesque downtowns in Virginia.

Overview of Town Government

The Town has operated under the council-manager form of government since 1962. The Town Council is the governing body of the Town and is empowered by the Town Charter to make Town policy. Six of the seven Town Council members are elected at large for four-year overlapping terms and the Mayor, also a member of Council, is elected for a two-year term.

The Council appoints a Town Manager to act as chief executive officer of the Town. He serves at the pleasure of Council, carries out its policies, directs business procedures, and has the power of appointment and removal of all Town employees. Duties and responsibilities of the Town Manager include preparation, submission and administration of the capital and operating budgets, advising Council on the affairs of the Town, enforcement of the Town Charter and laws of the Town, and direction and supervision of all departments.

The Town Council in its legislative role adopts all ordinances and resolutions and establishes the general policies of the Town. The Council also sets the tax rate and adopts the budget.

The Town has eleven operating departments: finance; police; public works; planning and zoning; plan review; parks and recreation; utilities; information technology; human resources; capital projects management; and airport operations. Each department has a director who reports to the Town Manager.

Local Economy Condition and Outlook

Falling within the Washington, D.C. metropolitan area, the Town's economic and demographic conditions reflects the prevailing conditions of the region. Though the unemployment rate for the Town has increased over the last two years from 2.8% to 4.8 %, the Town continues to be well below the Virginia and national rate of unemployment. This can be attributed, in part, to Leesburg's close proximity to Washington DC and the federal government.

After many years of double-digit annual increases in home values, in 2009 the local real estate housing market entered a period of correction in which house values are declining. Fiscal year 2010 continued to see a decrease in the residential and commercial markets resulting in a decline in the total property value assessments. The real estate market is expected to remain relatively flat for the next two years. Further, due to the economic recession, consumer discretionary spending has dropped decreasing sales and use taxes, and transient occupancy taxes. The softness of the real estate market and consumer discretionary spending poses budgetary challenges to the Town as these revenues result in 34 percent of the Town's revenues.

The Town's economy is not immune from many of the economic challenges; however, the fiscal state of the Town remains strong in large part due to the proactive fiscal planning efforts of the financial staff, Town Manager, Mayor and Council.

Recognizing that the national economy could not maintain the accelerated growth rates driven by double-digit rises in property values, and being mindful of the natural cycles of the economy, the Town took several prudent steps in FY 2007 – FY 2010. The most significant was the recognition that the severe economic decline would result in significant lost revenue. In order to keep expenditures and revenues in line, a conscious effort was made to reduce costs by cutting back on operating expenditures and aggressively reviewing all vacant positions to determine if the positions were needed, or if the jobs could be restructured to achieve the same outcome. Further, separate from the undesignated fund balance reserve policy of 15% of expenditures, the Town established a revenue stabilization reserve of \$1.4 million effectively increasing our reserve level in case of the most dire economic conditions.

The budget was built upon harsh realities of the national economic downturn and included components that focused on adherence to conservative principles of sound municipal fiscal management; sensitivity to the implications of the economic downturn for Town residents and homeowners; maintenance of service levels to the best degree possible while structuring portions of the operations to achieve additional efficiencies and cost savings; and maintenance of the commitment to key capital projects. To support the policy initiatives, eight positions were frozen/unfunded during the fiscal year and Council approved general fund program changes totaling \$392,149 in fiscal year 2010 that included replacement of vehicles and equipment, an upgrade to the police radio system, and funding for the outdoor pool. Further, the five-year Capital Improvement Program includes funding for 45 projects and totals \$28.2 million for 2010 alone.

Financial Condition

The Town government continues to be in very sound financial condition as demonstrated by the financial statements and schedules included in this report. Within the context of a fiscally prudent budget, the Town has maintained the level of services provided to residents and taxpayers, achieved many of the programmatic goals and enhanced the quality of life of the residents of the Town.

The need to moderate real estate tax rates continued to exert pressure on maintaining services at existing levels and to maintain the capital promises to the residents. Keeping existing programs funded and addressing the continuing demands of the community also put a strain on the budgeting process. The Town Council adopted a strategic plan to ensure focus was maintained on Town priorities. The six priority areas that reflect the key issues of interest and concern facing the community are:

- Land Development Process Improvements
- Economic Development and Downtown Improvements
- Operational Efficiency and Fiscal Management
- Community Safety/Quality of Life
- Capital Infrastructure
- Legislative Initiatives

To ensure these six priorities are adequately funded and maintained, Council has adopted a financial management program the primary objectives of which are to:

- promote financial stability by establishing clear, concise and consistent guidelines;
- direct attention to the total financial picture of the Town rather than to single issues;
- promote the view of linking long-term financial planning with day-to-day operations;
- provide the Town Council, Town Manager, residents and taxpayers with a framework for measuring the impact of services against established fiscal guidelines;
- contribute significantly to the Town's ability to shield itself from fiscal crises; and
- enhance short and long-term credit availability by helping to achieve and maintain the highest credit and bond ratings possible.

The Town's investment policy is limited by the Virginia Security for Public Deposits Act in utilizing depositories that have been qualified for investments by the Commonwealth of Virginia. Accordingly, deposits were either insured by federal depository insurance or highly collateralized. Funds are invested in cash and cash equivalents with maturities planned to coincide with cash needs. Idle funds available for longer periods of time are invested in the State-maintained Local Government Investment Pool and the State Non-Arbitrage Pool.

Budgetary Accounting and Internal Controls

The Town's budget is prepared on the basis of funds, which are fiscal and accounting entities with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein. The funds are segregated for the purpose of carrying on specific activities in accordance with special regulations, restrictions and limitations.

The types of funds used by the Town include governmental funds (general fund, special revenue funds, and capital projects fund) and proprietary funds (utilities fund and airport fund). All funds are subject to appropriation by the Town Council. The Town maintains budgetary controls designed to monitor compliance with expenditure limitations contained in annual budget appropriations approved by the Town Council. The level of budgetary control (the level at which expenditures cannot legally exceed the appropriated amount) is established by department within the General Fund. The Town Manager has authority to amend or transfer appropriations between departments. The Town also maintains an encumbrance recording system as one technique for accomplishing budgetary control. Open encumbrances for the General Fund and Capital Projects Fund are reported as a reservation on the fund balance at the end of the fiscal year.

Town management is responsible for establishing and maintaining internal controls designed to ensure that the assets of the Town are protected from loss, theft or misuse. Internal controls are intended to provide reasonable, but not absolute, assurance that these objectives are met. The Department of Finance is always reviewing and assessing the soundness and adequacy of the Town's financial systems and the internal controls to ensure the strongest structure has been established and implemented.

Other Information

Independent Audit. Section 2-161 of the Town Code requires an annual audit of the financial affairs of the Town by a qualified and competent certified accountant. Further, 15.2-2511 of the Code of Virginia requires an annual audit be performed by independent certified public accountants. Audits must be performed in accordance with auditing standards generally accepted in the United States of America and the standards set forth in the Government Accountability Office's Government Auditing Standards. In addition, the auditor must conduct the compliance examinations required by the Single Audit Act Amendments of 1996, the related U.S. Office of Management and Budget's Circular A-133, and the Specifications for Audits of Counties, Cities and Towns issued by the Auditor of Public Accounts of the Commonwealth of Virginia. The Town Council has selected the accounting firm of PBGH, LLP to perform these audit services. The accounting firm's reports are presented in the financial section and the compliance section of this report.

Certificate of Achievement for Excellence. The Government Finance Officers Association of the United States and Canada (GFOA) awarded the Town a Certificate of Achievement for Excellence in Financial Reporting to the Town for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2009. The GFOA awards a Certificate to governmental units that exemplify excellence in financial reporting and conform to stringent reporting requirements promulgated by that Association and various authoritative bodies.

To earn a Certificate of Achievement, a CAFR must be clear, thorough and understandable. The report must be efficiently organized, employ certain standardized terminology and formatting conventions, minimize ambiguities and potentials for misleading inference, enhance understanding of current generally accepted accounting theory, and demonstrate a constructive "spirit of full disclosure".

A Certificate is valid for a period of one year only. We believe our current report continues the 23-year tradition of conforming to the Certificate of Achievement Program requirements and standards. We are submitting this CAFR to GFOA to determine its eligibility for another certificate for fiscal year 2010.

Acknowledgements. This report was prepared by the professional staff of the Department of Finance. The staff's hard work, dedication and continuing efforts to improve the quality of this report directly benefit all who read and use it. Special recognition goes to Kim Williams, deputy director of finance/controller; Kathleen Ault, senior accountant; and Carrie Curry, staff accountant, for their technical expertise, review and dedicated service in the preparation of this CAFR.

This Comprehensive Annual Financial Report reflects the commitment of the Town Council and administration to the residents and taxpayers of Leesburg and the financial community to provide information in conformance with the highest standards of financial accountability.

Respectfully submitted,

John Wells Town Manager

Mun Bett

Norman D. Butts Director of Finance

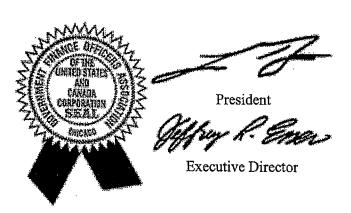

Certificate of Achievement for Excellence in Financial Reporting

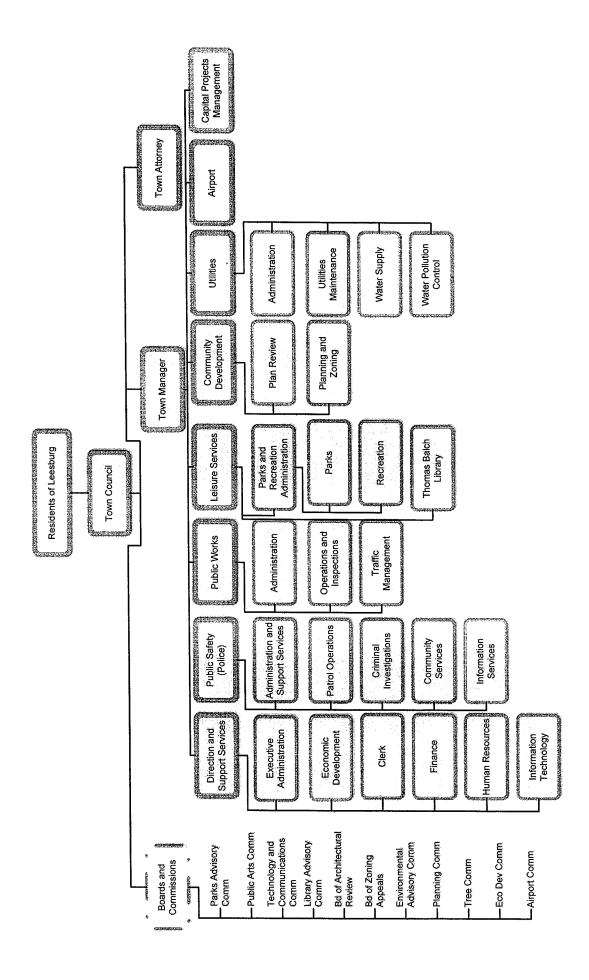

Presented to

Town of Leesburg Virginia

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
June 30, 2009

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

INDEPENDENT AUDITORS' REPORT

To the Honorable Mayor and Members of Council Town of Leesburg, Virginia Leesburg, Virginia

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Leesburg, Virginia, (Town) as of and for the year ended June 30, 2010, which collectively comprise the Town's basic financial statements as listed in the Table of Contents. These financial statements are the responsibility of the Town's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and *Specifications for Audits of Counties, Cities and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards and specifications require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information and the budgetary comparison for the General Fund of the Town, as of June 30, 2010, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued a report dated December 20, 2010 on our consideration of the Town's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis (pages 12 to 26) and the required supplementary information (page 67) are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements. The combining nonmajor fund financial statements and other schedules, listed in the Table of Contents as supplementary statements and supplemental schedules, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U. S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations,* and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The accompanying introductory and statistical sections, as listed in the Table of Contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. This information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on it.

PBGH, LLP

Harrisonburg, Virginia December 20, 2010

MANAGEMENT'S DISCUSSION AND ANALYSIS

Management of the Town of Leesburg, Virginia (Town) presents the following discussion and analysis as an overview of the Town's financial activities for the fiscal year ending June 30, 2010. We encourage readers to read this discussion and analysis in conjunction with the letter of transmittal from the Town Manager and the Director of Finance and the Town's basic financial statements and related notes, which are also contained in this Comprehensive Annual Financial Report (CAFR).

FINANCIAL HIGHLIGHTS FOR FY 2010

The General Fund, on a current financial resource basis, reported expenditures and other financing uses in excess of revenues and other financing sources, causing a reduction in fund balance of \$2.2 million (Exhibit 5).

On a government-wide basis for governmental activities, the Town's general revenues were \$34.3 million with program revenues exceeding expenditures by \$19 million. This atypical result of program revenues exceeding expenditures is attributed to a donation of approximately \$35 million for a bridge by the Commonwealth of Virginia (Exhibit 2).

The Town's total net assets on a government-wide basis, totaled \$392.4 million at June 30, 2010. Of this amount, \$27.7 million is unrestricted (Exhibit 1).

USING THE FINANCIAL SECTION OF THIS CAFR REPORT

This Comprehensive Annual Financial Report consists of four sections: introductory, financial, statistical, and compliance. As the following chart shows, the financial section of this report has four components – management's discussion and analysis (this section), basic financial statements, required supplementary information and other supplementary information.

Components of the Financial Section

Management's Basic Required Other Discussion & Financial Supplementary Supplementary Analysis Statements Information Information Government-wide Fund Notes to the Financial Financial Financial **Statements Statements Statements**

The Town's financial statements present two kinds of statements, each with a different snapshot of the Town's finances. The focus of the financial statements is on both the Town as a whole (government-wide) and the fund financial statements. The government-wide financial statements provide both long-term and short-term information about the Town's overall financial status. The fund financial statements provide information on a current financial resource basis only and focus on the individual parts of the Town government, reporting the Town's operations in more detail than in the government-wide statements. Both perspectives (government-wide and fund) allow the user to address relevant questions, broaden the basis of comparison (year to year or government to government) and enhance the Town's accountability.

GOVERNMENT-WIDE STATEMENTS

The government-wide statements report information about the Town as a whole using accounting methods similar to those used by private-sector companies. The government-wide financial statements provide both long-term and short-term information about the Town's overall financial status. The Statement of Net Assets and the Statement of Activities, which are the government-wide statements, report information about the Town as a whole and about its activities in a way that helps answer this question. These statements include all assets and liabilities using the accrual basis of accounting. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the Town's net assets and changes in those assets. The Town's net assets position – the difference between assets and liabilities – is one way to measure the Town's financial health, or financial position. Over time, increases or decreases in the Town's net assets are one indicator of whether its financial health is improving or declining. Other nonfinancial factors need to be considered, however, such as changes in the Town's property tax base and the condition of the Town's infrastructure, to assess the overall health of the Town.

The Statement of Net Assets and the Statement of Activities include the following:

<u>Governmental activities</u>: Most of the Town's basic services are reported here, including general government; public safety; community development; parks and recreation; library services; and public works. These activities are financed primarily by property taxes, other local taxes, charges for services, and federal and state grants. Governmental funds are included in the governmental activities.

<u>Business-type activities</u>: The Town charges fees to users to cover all, or a significant portion, of the costs associated with the provision of certain services. These business-type activities are intended to be self-supporting and include the Airport Fund and the Water and Sewer Fund.

FUND FINANCIAL STATEMENTS

Traditional users of government financial statements find the fund statement presentation more familiar. The fund financial statements provide additional information about the Town's most significant funds – not the Town as a whole.

The Town has two types of funds:

Governmental Funds – Most of the Town's basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances remaining at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the Town's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, additional information is provided with the fund financial statements to explain the relationship (or differences) between them.

The Town has two major governmental funds, the General Fund and the Capital Projects Fund. The General Fund is the main operating account of the Town and, therefore, the largest of the governmental funds. The Capital Projects Fund is used to account for the daily operations of the Office of Capital Projects Management and the design, architecture and construction of major capital projects. It provides control over resources that have been segregated for specific capital projects. All other governmental funds, which include special revenue funds, are collectively referred to as non-major governmental funds.

<u>Proprietary Funds</u> – The Town's proprietary funds consist of two enterprise funds, which operate in a manner similar to private business enterprises in which costs are recovered primarily through user charges or fees. Proprietary fund financial statements provide both short-term and long-term financial information. The Town's enterprise funds include the Airport Fund and the Water and Sewer Fund.

FINANCIAL ANALYSIS OF THE TOWN AS A WHOLE

Statement of Net Assets

Table 1 summarizes the Statement of Net Assets (Exhibit 1) for the Town as of June 30, 2010 and 2009.

Table 1.

Summary of Net Assets June 30, 2010 and 2009 (\$ In Thousands)

	Governmental Activities				 Business-type Activities				Total Reporting Entity		
		2010		2009	 2010		2009		2010		2009
Assets:											
Current and other assets Capital assets, net of accumulated depreciation and	\$	53,515	\$	44,338	\$ 20,284	\$	23,189	\$	73,799	\$	67,527
amortization		264,293		208,339	 212,321		205,481		476,614		413,820
Total assets		317,808		252,677	 232,605		228,670		550,413		481,347
Liabilities:											
Other liabilities		19,179		19,998	4,466		4,972		23,645		24,970
Long-term liabilities		61,166		48,487	73,218		70,048		134,384		118,535
Total liabilities		80,345		68,485	 77,684		75,020		158,029		143,505
Net Assets: Invested in capital assets, net											
of related debt		219,771		162,651	144,848		136,682		364,619		299.333
Restricted		32		32	-		· -		32		32
Unrestricted		17,660		21,509	 10,073		16,968		27,733		38,477
Total net assets	\$	237,463	\$	184,192	\$ 154,921	\$	153,650	\$	392,384	\$	337,842

The Town's governmental net assets increased by 29% to \$237.5 million. Invested in capital assets net of related debt increased by 35% to \$219.8 million. This significant increase is attributed mainly to the donation of a \$35 million bridge during the fiscal year.

The Town's business-type activities invested in capital assets net of related debt increased by 6% to \$144.8 million. This increase is a result in capital assets being completed.

Statement of Activities

Table 2 summarizes the Statement of Activities (Exhibit 2) for the Town for the years ended June 30, 2010 and 2009.

Governmental Activities

Revenues and transfers for the Town's governmental activities were \$102.9 million for fiscal year 2010 and \$46.6 million for fiscal year 2009. Sources of revenue for fiscal year 2010 and 2009 are comprised of the following items:

Chart 1.

Governmental Activities – Revenues by Source Years Ended June 30, 2010 and 2009 (\$ In Thousands)

During fiscal year 2010, capital grants and contributions constituted the largest source of revenue, amounting to \$59 million, an increase of 100% from prior fiscal year. This significant increase in capital grant and contribution revenue is mainly attributable to developer contributions, specifically a bridge of approximately \$35 million. This is a one-time revenue source and is not expected in future fiscal years. Taxes constitute the next largest source of Town revenues, amounting to approximately \$29 million for fiscal year 2010 and \$30 million for fiscal year 2009. General property taxes comprise approximately \$12.2 million and \$13 million of tax revenues for fiscal years 2010 and 2009, respectively. The decrease in general property tax revenue is attributed to decrease assessed value for residential property within the Town. The remaining taxes, \$16.8 million in 2010 and \$16.7 million in 2009, are generated through business and occupational licenses and consumption based taxes such as meals tax, sales and use tax, cigarette tax and utility tax. Operating grants and contributions remained stable over the last two fiscal years.

As shown in Table 2, the total expenses for governmental activities for this fiscal year were approximately \$49.6 million, compared to \$47.7 million in fiscal year 2009. Table 2 and the following chart illustrate total expenses by function. Public works continues to be the Town's largest program with the Town's cost of service totaling \$15.0 million, or 30.2 percent of total expenses. Public safety expenses, which total \$11.0 million, or 22.2 percent, represent the second largest expense category for governmental activities.

Chart 2.

Governmental Activities – Expenses by Function Years Ended June 30, 2010 and 2009 (\$ In Thousands)

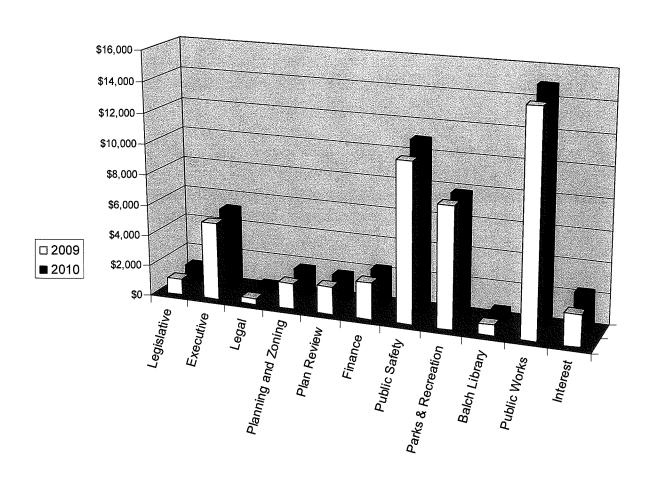

Table 3 illustrates the net cost (total expenses less fees generated by the activities and program-specific governmental aid) for the Town's governmental activities.

Table 3.

Net Cost of Governmental Activities Years Ended June 30, 2010 and 2009 (\$ In Thousands)

	Total Cost of Services		Net Cost of Servi	ces	
		2010	2009	2010	2009

Finance		2,379	2,411	2,380	2,411
Public safety		11,040	10,344	9,465	8,864
Parks and recreation		7,875	7,887	2,998	3,360
Balch library		641	705	386	690
Public works		15,022	14,366	(46,606)	11,711
Interest		2,439	2,053	2,439	2,053
Total	\$	49,616	\$ 47,743 \$	(19,004) \$	38,714

As Table 3 demonstrates, governmental activities generate revenue that helps offset the cost of these services. Program revenues generated include charges for services and program grants. The Town generates charges for services primarily from fees for parks and recreation memberships and classes, public safety fees, and zoning fees and permits. The Town obtains grants primarily for public safety and public works. After recognizing the revenue from these fees, grants, and contributions of \$68.6 million, the revenue exceeds expenditures for governmental activities by \$19 million. This unusual circumstance is contributed to a one-time State contribution of a \$35 million bridge. General revenue, primarily in the form of taxes and state aid, is essential to providing support to the services offered.

Business-type Activities

Table 2 also summarizes the business-type activities. The Town's business-type activities consist of the Airport Fund and the Water and Sewer fund. These activities increased the Town's net assets by \$1.3 million. Revenues totaled \$22.8 million of which \$14.2 million, or 62.5 percent, was generated by user fees or charges for services. Business-type activities are generally intended to be self-supporting. Fees are established to recover the cost of providing the service.

The total expenses for business-type activities were \$19.3 million, of which 91.2 percent was associated with the Water and Sewer Fund. Expenses for the business-type activities in both the Water and Sewer and Airport Funds remained relatively consistent.

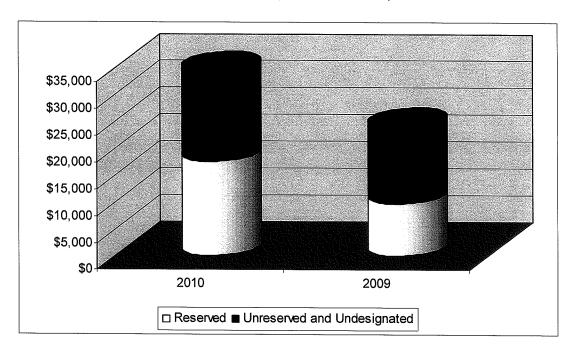

FINANCIAL ANALYSIS OF THE TOWN'S FUNDS

As noted earlier, the Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The focus of the Town's governmental funds is to provide information on near-term inflows, outflows, and balances of expendable resources. Such information is useful in assessing the Town's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

The chart below represents the components of the Town's governmental fund balances as of June 30, 2010 and 2009.

Chart 3.

Governmental Funds – Fund Balances June 30, 2010 and 2009 (\$ In Thousands)

Overall, the fund balance for all governmental funds increased by \$10.3 million for the year ended June 30, 2010. In 2010, total revenues and other financing sources were \$73.3 million and total expenditures and other financing uses were \$63.0 million. The total revenues and other financing sources were \$47.2 million in 2009 and total expenditures and other financing uses were \$60.4 million.

The reserved amounts include fund balances that are not available for new spending because they have already been committed for items such as existing purchase orders, advances to other funds, law enforcement expenditures, and capital projects. The unreserved fund balance represents resources that are available for appropriation.

The Town has six governmental funds. These funds consist of the General Fund, the Capital Projects fund and four non-major special revenue funds.

The General Fund is the main operating fund of the Town. At the end of fiscal year 2010, the unreserved fund balance was \$8.5 million (18.5 percent of the General Fund's total expenditures). The revenues and other financing sources of \$43.9 million less expenditures and other financing uses of \$46.1 million resulted in a net decrease in fund balance of \$2.2 million. In comparison, at the end of fiscal year 2009, the unreserved fund balance was \$15.0 million (33.4 percent of the General Fund's total expenditures).

The Capital Projects Fund accounts for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by the Enterprise Funds). As of June 30, 2010 and 2009, the fund balance was \$12.9 million and \$.018 million, respectively. The increase in fund balance is attributed to bond proceeds received during the fiscal year in excess of amounts spent on capital projects and debt repayment.

The Town's enterprise funds provide the same type of information found in the government-wide financial statements, as the basis of accounting is the same. Factors concerning the finances of the Airport Fund and the Water and Sewer Fund have already been addressed in the discussion of the Town's business-type activities.

BUDGETARY HIGHLIGHTS

General Fund

Table 4 provides a comparison of original budget, final amended budget, and actual revenues and expenditures of the General Fund.

Table 4.

Budgetary Comparison General Fund Year Ended June 30, 2010 (\$ In Thousands)

	_	Original Budget	_	Amended Budget	Actual
Revenues:					
Taxes	\$	29,131	\$	29,131	\$ 29,230
Other		7,342	•	7,347	6,904
Intergovernmental	_	5,347		5,347	5,396
Total revenues	_	41,820		41,825	41,530
Expenditures: Expenditures		4E 100		40.045	10.1.10
Experiorures	-	45,188		46,845	46,143
Deficiency of revenues over expenditures		(3,368)		(5,020)	(4,613)
Other financing sources: Transfers (net)	-	2,506		2,540	2,391
Change in fund balance	\$	(862)	\$	(2,480)	\$ (2,222)

Taxes received were consistent with the amended budget amount with minimal variance. Property taxes collected were less than expected by approximately \$543 thousand and local taxes other than property taxes fell short of the amended budget by approximately \$443 thousand. See Exhibit B-2 for a detailed schedule comparing budgeted revenues to actual revenues.

Once the original budget is adopted by the Town Council, the operating budget can be amended in one of two ways: The Town Manager has the authority to move money within a fund. Secondly, the Town Council must authorize any changes to a fund's overall budget once it has been approved. During the year, budget amendments could be classified in the following key categories:

- Amendments for operating and capital projects that were incomplete in the prior fiscal year, and subsequently reappropriated in the new fiscal year.
- Amendments for supplemental appropriation for new projects, and/or change orders for prior approved projects.

 Amendments for transfers and adjustments to support revised priorities and account code restructuring.

The original and amended expenditure budget increased by \$1.7 million during the fiscal year. This increase in appropriations is a result of supplemental appropriations throughout the year. The most significant supplemental approved by Town Council was to increase expenditures approximately \$600,000 to cover overtime, equipment rental and road emergency supplies due to the two record-falling snow storms received in February 2010. Actual expenditures exceeded revenues by approximately \$4.6 million.

CAPITAL ASSETS AND LONG-TERM DEBT

Capital Assets

Table 5 provides information on the changes in the capital assets of the governmental activities and the business-type activities as of June 30, 2010 and 2009.

Total Capital Assets, net	\$ 264,293	\$ 208,339	\$ 55,954	\$ 212,321		\$ 6,840

The Town's governmental activities investment in capital assets as of June 30, 2010 and 2009 amounted to approximately \$264.3 million and \$208.3 million, respectively, (net of accumulated depreciation and amortization). The net increase in capital assets (including additions, retirements, depreciation and amortization) was \$56.0 million, or 27.0 percent. This change is attributed to developer contributions of streets, sidewalks, gutters, storm drainage and bridges. During FY 2010, the Town received a \$35.0 million bridge as a contribution.

The business-type activities investment in capital assets as of June 30, 2010 and 2009 amounted to approximately \$212.3 million and \$205.5 million, respectively, (net of accumulated depreciation and amortization). The net increase in capital assets (including additions, retirements, depreciation and amortization) was \$6.8 million, or 3.3 percent. This change is attributed to the contribution of water and sewer lines from developers and the completion of new hangers at the airport.

The Town's fiscal year 2010 – 2014 Capital Improvement Program, approved by Town Council, sets forth a five-year, \$81.3 million program of public improvements for the Town. This five year plan includes \$52.2 million in governmental activity projects such as storm drainage, streets and highways, and parks and recreation. The remaining \$29.0 million includes \$23.1 million in water and sewer projects and \$5.9 million in airport projects.

Additional information pertaining to the Town's capital assets can be found in note 6 of the notes to the financial statements.

Long-term debt

The Town's current bond ratings are as follows:

•	Moody's Investors Services, Inc.	Aa1
•	Standard and Poor's	AA+
•	Fitch Credit Rating Services	AA+

The Town's legal limit for outstanding general obligation debt is 10 percent of total assessed real property within the Town, which is \$5.6 billion in 2010 and \$5.7 billion in 2009. The Town's total long-term obligations of \$130.5 million as of June 30, 2010 and \$107.1 million as of June 30, 2009, are well within the limits set by the Constitution of the Commonwealth of Virginia. Enterprise Fund debt is not included in calculating the legal limit.

Table 6.

Outstanding Long-Term Debts June 30, 2010 and 2009 (\$ In Thousands)

	Governmental Activities							Business-Type Activities					
		2010		2009		Change		2010		2009		Change	
General obligation bonds Revenue bonds	\$	58,871 -	\$	45,883 -	\$	12,988	\$	63,712 7,876	\$	59,218 9,406	\$	4,494 (1,530)	
Total	\$	58,871	\$	45,883	\$	12,988	\$	71,588	\$	68,624	\$	2,964	

In the governmental activities, total long-term debt as of June 30, 2010 and 2009 was \$60.2 million and \$47.8 million, respectively. Outstanding long-term debt for business activities increased from \$69.7 million as of June 30, 2009 to \$72.7 million as of June 30, 2010. The increase in general obligation bonds for both governmental and business-type activities is due to a general obligation refunding issuance in October 2009 for \$29.3 million. As part of this issuance, the Town defeased the remaining 1998 general obligation refunding bonds and the 1999 general obligation public improvement bonds, reducing total debt service over the next eight years by approximately \$239 thousand and obtaining an economic gain of approximately \$293 thousand. The decrease in business-type activities revenue bonds is attributed to normal retirement of principal.

In making debt decisions, the Town uses the following practices:

- The Town will not fund current operations from the proceeds of borrowed funds and will
 confine long-term borrowing and capital leases to capital improvement projects, or
 equipment that cannot be financed from current financial resources.
- The goal of the Town is to finance at least 25 percent of the current portion of construction cost of capital improvements (in excess of proffers) from current financial resources. The amount provided in current resources may be applied equally to all projects or only to specific projects.
- The Town will, when financing capital improvements or other projects or equipment by issuing bonds or entering capital leases, repay the debt within a period not to exceed the expected useful life of the project or equipment. Debt related to equipment ancillary to a construction project may be amortized over a period less than that of the primary project.
- The Town is cognizant of its higher than average debt burden and should continue to offset its impact through rapid payback. An average payback of at least 60 percent in ten years should be maintained, except for projects with a known revenue stream.
- The Town will annually calculate target debt ratios. The Town's debt capacity shall be maintained within the following primary goals:
 - Debt service expenditures as a percentage of governmental fund expenditures should not exceed 15 percent.
 - Bonded debt of the Town shall not exceed 2.5 percent of the total assessed value of taxable property in the Town nor 3.5 percent of the total personal income of residents of the Town.
- The Town will follow a policy of full disclosure in every annual financial report and financing official statement/offering document.
- The Town will maintain good communications about its financial condition with bond holders and credit rating institutions.

Additional information relative to the Town's long-term debt can be found in note 8 of the notes to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

Economic Factors

- The average unemployment rate for the County of Loudoun, in which the Town of Leesburg lies, in July 2010 was 4.8 percent. This compares favorably to the State's rate of 7.0 percent and the national rate of 9.7 percent.
- The Town's population was estimated to be 38,764, a 1.2 percent increase of over the prior year. Population estimates for the last ten years are provided in the statistical section of this report.

- The per capita personal income is not kept on a Town basis. However, the County of Loudoun's per capita personal income was \$50,951, as reported by the U.S. Department of Commerce Bureau of Economic Analysis. Loudoun County is considered "the richest County" in the nation.
- The Town government's full-time equivalency (FTE) employment increased in fiscal year 2010 by 2.8 FTE positions, or .6 percent from 443.6 to 446.4. The increase in FTE's was mainly in the police department. Workforce numbers for the last ten years are provided in the statistical section of this report.

Fiscal Year 2011 Budget and Rates

- For fiscal year 2011, the adopted budget for the General Fund is \$46.1 million, consistent with fiscal year 2010 expenditures. Revenues are comprised primarily of general taxes at 28.2 percent, other local taxes at 20.6 percent, charges for services at 10.7 percent, donations and transfers at 8.3 percent, intergovernmental assistance at 29.3 percent and other revenues of 2.9 percent.
- In fiscal year 2011, the Town continues to prioritize its services. The police department accounts for \$11.5 million or 25 percent of the budgeted expenditures. The public works department is a close second, accounting for \$11.0 million or 23.9 percent of budgeted expenditures.
- Tax rate for real property remained at \$0.195 per \$100 of assessed value for fiscal year 2010. The personal property tax rate remained unchanged at \$1.00 per \$100 of assessed value. Detail on the tax rates is provided in the statistical section of this report.

REQUESTS FOR INFORMATION

This financial report is designed to provide our elected officials, residents, taxpayers, customers, investors, and creditors with a general overview of the Town's finances and to demonstrate the Town's accountability for the money it receives. Questions concerning this report or requests for additional information, should be directed to the Director of Finance, 25 West Market Street, P.O. Box 88, Leesburg, VA 20178, telephone (703) 771-2720, or visit the Town's web site at www.leesburgva.gov.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES Year Ended June 30, 2010

	Governmental Funds			
Net change in fund balances - total governmental funds		\$	10,314,179	
Reconciliation of amounts reported for governmental activities in the Statement of Activities:				
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation and amortization expense. This is the amount by which capital outlays exceeded depreciation and amortization in the current period. Expenditure for capital assets Donated capital assets Less: depreciation and amortization expense	\$ 8,290,088 53,158,905 (5,424,458)			
Excess of capital outlay over depreciation and amortization			56,024,535	
The net effect of various miscellaneous transactions involving capital assets.			(70,508)	
Revenues in the Statement of Activities that do not provide current				
financial resources are not reported as revenues in the funds.				
Change in deferred revenue			(166,934)	
Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Assets. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Assets. This is the amount by which proceeds were greater than repayments. Debt issued or incurred:				
Bonds payable	(22,540,000)			
Premium on bonds payable	(321,752)			
Principal repayments:	(
General obligation debt	3,156,627			
Payment to refunded bond escrow agent	7,428,090		(40.077.005	
Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore, are not reported as expenditures in governmental funds.			(12,277,035	
Accrued interest	(272,878)			
Arbitrage	(106,708)			
Compensated absences	11,515			
Other postemployment benefits	(382,464)			
Debt issuance costs	244,229			
Amortization of premiums	102,705			
Amortization of deferred gains	(133,030)			
Amortization of issuance cost	(16,641)		(553,272)	
Change in net assets of governmental activities		\$	53,270,965	
Thange in her access of governmental activities		Ψ	30,270,000

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies

The financial statements of the Town of Leesburg, Virginia (the Town) have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to government units promulgated by the Governmental Accounting Standards Board (GASB). The more significant of the Town's accounting policies are described below.

A. Reporting Entity

The Town of Leesburg, Virginia is located in the County of Loudoun, Virginia and was incorporated in 1758 under the provisions of the Constitution and general statutes of the Commonwealth of Virginia.

The Town is an incorporated municipal government governed by an elected mayor and six-member council. As required by accounting principles generally accepted in the United States of America, these financial statements present the Town and any potential component units, entities for which the Town is considered to be financially accountable. Financial accountability is defined as appointment of a voting majority of the component unit's board and either (a) the ability to impose its will on the component unit, or (b) the possibility that the component unit will provide a financial benefit to or impose a financial burden on the primary government.

Based upon the above, all potential component units were evaluated for inclusion in the reporting entity and it was determined there are no component units requiring inclusion in the Town's reporting.

B. Government-Wide and Fund Financial Statements

Government-Wide Financial Statements

The Statement of Net Assets and the Statement of Activities display information on all of the activities of the Town. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements or a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies (Continued)

C. Basis of Presentation - Fund Accounting

The accounts of the Town are organized on the basis of funds which are considered to be a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts which comprise its assets, liabilities, fund balance/net assets, revenues and expenditures or expenses, as appropriate. The various funds of the Town are included in the financial statements as follows:

1. Governmental Funds are those funds through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used; current liabilities are assigned to the fund from which they are paid; and the difference between governmental fund assets and liabilities, the fund equity, is referred to as "fund balance." The measurement focus is upon determination of changes in financial position, rather than upon net income determination. The following comprise the Town's major governmental funds:

<u>General Fund</u> – The General Fund is the general operating fund of the Town. All general tax revenues and other receipts that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. Many important activities of the Town, including operation of the Town's general service departments, street and highway maintenance, public safety, parks and recreation, and library are accounted for in this fund.

<u>Capital Projects Fund</u> – The Capital Projects Fund is used to account for all resources used in the acquisition and construction of capital facilities and other capital assets, unless financed through proprietary funds.

Other governmental funds of the Town are considered nonmajor and are as follows:

<u>Special Revenue Funds</u> – special revenue funds are used to report resources that are legally restricted and may be used for purposes that support the Town's programs. The Town's Special Revenue Funds consist of the Balch Library, Irwin W. Uran, Valeria Symington and Virginia Bowie Funds.

NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies (Continued)

C. Basis of Presentation - Fund Accounting (Continued)

2. Proprietary Fund types are used to account for activities which are similar to those often found in the private sector. All assets, liabilities, equities, revenues, expenses and transfers related to the Town's business activities are accounted for through proprietary funds. The measurement focus is on income determination, financial position, and cash flows. In accordance with GASB Statement No. 20, Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that Use Proprietary Fund Accounting, the Town has elected to apply all applicable FASB pronouncements, including those issued on or before November 30, 1989, except for those pronouncements which conflict with or contradict GASB pronouncements.

<u>Enterprise Funds</u> – Enterprise funds are used to finance and account for the acquisition, operation and maintenance of the Town's facilities and services, which are supported primarily by user charges. The following comprise the Town's major enterprise funds:

<u>Airport Fund</u> – This fund is used to account for the operation and maintenance of the Town's airport. The Airport Fund also receives funding through State and Federal grants.

<u>Water and Sewer Fund</u> – This fund is used to account for the operation and maintenance of the Town's water system and sanitary sewer system.

D. Measurement Focus and Basis of Accounting

The government-wide financial statements are reported using the economic resources measurement focus and the *accrual* basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the *modified* accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Town considers revenues to be available if they are collected within 75 days of the end of the current fiscal period except for property taxes which are recognized as revenue if they have been collected within 45 days after year end. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, expenditures related to compensated absences, and claims and judgments are recorded only when payment is due.

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies (Continued)

D. Measurement Focus and Basis of Accounting (Continued)

Under the terms of grant agreements, the Town funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the Town's policy to first apply cost-reimbursement grant resources to such programs, and then general revenues to fund the program.

In applying the susceptible to accrual concept to intergovernmental revenues, the legal and contractual requirements of the numerous individual programs are used as guidance. There are, however, essentially two types of these revenues. In one, monies must be expended on the specific purpose or project before any amounts will be paid to the Town; therefore, revenues are recognized based upon the expenditures recorded and the availability criteria. In the other, monies are virtually unrestricted as to purpose of expenditure, and are usually revocable only for failure to comply with prescribed requirements. These resources are reflected as revenues at the time of receipt, or earlier if the susceptible to accrual criteria are met.

Licenses and permits, fines and forfeitures, charges for sales and services (other than utility) and miscellaneous revenues are *generally* recorded as revenue when received because they are generally not measurable until actually received. In the category of use of money and property, property rentals are recorded as revenue when received, but investment earnings are recorded as earned, since they are measurable and available.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Town's enterprise funds are charges to customers for commodities and services. Operating expenses for enterprise funds include the cost of commodities and services, administrative expenses and depreciation and amortization on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies (Continued)

E. Budgetary Data

Budgets are adopted and maintained on the modified accrual basis adjusted for encumbrances. Annual appropriated budgets are adopted for the General Fund. All annual appropriations lapse at fiscal year-end to the extent they have not been expended or lawfully encumbered. Project-length financial plans are adopted for the Capital Projects Fund. Budgets for enterprise funds serve as a spending guide for the Town and do not constitute legally binding limitations.

Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration in the General Fund. Encumbrances outstanding at year-end are reported as reservations of fund balances and do not constitute expenditures or liabilities because the commitments will be honored during the subsequent year.

Each year all departments of the government submit requests for appropriation to the Town Manager so that a budget may be prepared. The budget is prepared by fund, department, activity, and expenditure and includes information on the past, current year estimates, and requested appropriations for the next fiscal year.

Before April 1, the proposed budget is presented to the Town's Council for review. The Town Council holds public hearings and may add to, subtract from, or change appropriations, but may not change the form of the budget. Any changes in the budget must be within the revenues and reserves estimated as available by the Town Manager or the revenue estimates must be changed by an affirmative vote of a majority of the Town Council.

Expenditures may not legally exceed budgeted appropriations at the department level. The Town Manager has authority to amend or transfer appropriations within the department level. During the year ended June 30, 2010, General Fund supplemental appropriations totaling \$1,657,007 were authorized by Town Council.

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies (Continued)

F. Other Significant Accounting Policies

1. Cash and Cash Equivalents

The Town considers all highly liquid investments purchased with a maturity of three months or less to be cash equivalents.

Cash of individual funds are combined to form a pool of cash and investments. The pool consists primarily of government obligations and a local government investment pool. The government securities are stated at fair value based on quoted market prices and the investment in the local government investment pool (a 2a7-like pool) is reported at the pool's share price. Interest earned as a result of pooling is distributed to the appropriate funds utilizing a formula based on month-end balances.

2. Investments

Investments are stated at fair value based on quoted market prices.

3. Property Taxes

Real estate and personal property taxes are assessed annually by Loudoun County, Virginia (County), for all property of record as of January 1. The Town bills and collects its property taxes based on the assessed values provided by the County. Real estate taxes are levied annually on January 1 and are due in semi-annual installments on June 5 and December 5. Personal property taxes are levied annually on January 1 and are due October 5 with pro-ration of personal property taxes throughout the year. Prorated personal property taxes levied after June 15 are due March 15.

Collections of real estate and personal property taxes between July 1 and August 15 of the subsequent fiscal year, classified as delinquent at June 30, are recorded as revenue for the fiscal year then ended. Liens attach to the property when the tax remains unpaid after July 1 of the following year. The billings are considered past due after the respective tax billing date at which time the applicable property is subject to a 10% penalty and interest is assessed 30 days therefrom.

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies (Continued)

F. Other Significant Accounting Policies (Continued)

4. <u>Capital Assets</u>

Capital assets, which include property and equipment and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements or the appropriate enterprise fund within the proprietary statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 (\$50,000 or more for infrastructure) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. In implementing GASB 34, the Town identified and included infrastructure assets obtained prior to June 30, 1980.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Capital assets of the government are depreciated and amortized using the straight-line method over the following estimated useful lives:

	<u>Years</u>
Buildings and improvements	15 – 50
Infrastructure	50
Hangars and runways	10 – 50
Vehicles	5 – 12
Equipment	5 – 25
Computer equipment and software	5 – 10
Water and sewer plant	10 – 100
Water and sewer lines	10 – 100

The Town's Balch Library contains reference material and library books that are not capitalized. Many of these items are irreplaceable and only available for educational and research purposes to be completed at the library.

5. Deferred Revenue

Deferred revenue in the governmental funds represents amounts due, which are measurable but not available.

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies (Continued)

F. Other Significant Accounting Policies (Continued)

6. Inter-fund Transactions

Transactions among Town funds that would be treated as revenues and expenditures or expenses if they involved organizations external to the Town government are accounted for as revenues and expenditures or expenses in the funds involved.

Transactions, which constitute reimbursements to a fund for expenditures initially made from it, which are properly applicable to another fund, are recorded as expenditures in the reimbursing fund and as reductions of expenditures in the reimbursed fund.

Transactions, which constitute the transfer of resources from a fund receiving revenues to a fund through which the revenues are to be expended, are separately reported in the respective funds' operating statements.

Activity between funds that are representative of lending/borrowing arrangements at the end of the fiscal year are referred to as "advances to/from other funds". Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

Noncurrent portions of long-term inter-fund loan receivables are reported as advances within the governmental funds, and are offset equally by a fund balance reserve account which indicates that they do not constitute expendable available financial resource and, therefore, are not available for appropriation.

7. Compensated Absences

It is the Town's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. No liability is reported for unpaid accumulated sick leave. All vacation pay is accrued when incurred in government-wide and proprietary financial statements. For governmental fund types, the amount of accumulated unpaid vacation leave which is payable from available resources is recorded as a liability of the respective fund only if they have matured, for example, as a result of employee retirements and resignations. In prior years, the General Fund was responsible for paying the liability for compensated absences for retired and terminated employees of the general government.

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies (Continued)

F. Other Significant Accounting Policies (Continued)

8. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund type Statement of Net Assets. Bond premiums, discounts, and losses on refundings are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable premium, discount, or losses on refundings. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

9. Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

10. Net Assets

Net assets represent the difference between assets and liabilities. The caption net assets "invested in capital assets, net of related debt" consists of capital assets, net of accumulated depreciation and amortization, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets invested in capital assets, net of related debt excludes unspent debt proceeds. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the Town or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The Town first applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies (Continued)

F. Other Significant Accounting Policies (Continued)

11. <u>Use of Estimates</u>

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

Note 2. Deposits and Investments

<u>Deposits</u>. All cash of the Town is maintained in accounts collateralized in accordance with the Virginia Security for Public Deposits Act, Section 2.2-4400 et. seq. of the *Code of Virginia* or covered by federal depository insurance.

Investment Policy:

<u>Investments</u>: The Town's investment policy targets the following objectives, in order of priority; legality, safety, liquidity and yield. The Director of Finance for the Town is responsible for administering its investments and ensuring compliance with the Town's policies and statutory requirements.

In accordance with the laws of the Commonwealth and Town policy, investments authorized to be held by the Town are:

1. Treasury Securities

Bonds, notes and bills issued by the United States Treasury maturing within five years of the date of purchase, or certificates representing ownership of treasury bond principal or coupons payable within five years.

2. Agency Securities

Fixed rate obligations issued and guaranteed as to principal and interest by the Federal Home Loan Bank, the Federal National Mortgage Association, the Federal Farm Credit Bank, or the Federal Home Loan Mortgage Corporation, maturing within five years of the date of purchase.

NOTES TO FINANCIAL STATEMENTS

Note 2. Deposits and Investments (Continued)

3. Prime Commercial Paper

Commercial paper maturing within 270 days of the day of purchase rated P-1 or higher by Moody's and A-1 or higher by Standard & Poor's, provided that the issuing corporation has a net worth of at least \$50 million and its long-term debt is rated A or better by Moody's and Standard & Poor's.

4. Certificates of Deposit

Certificates of deposit maturing within one year and issued by domestic banks rated P-1 by Moody's and A-1 by Standard & Poor's.

5. Bankers' Acceptances

Bankers' acceptances maturing within 180 days rated P-1 or higher by Moody's and A-1 or higher by Standard & Poor's, provided the issuer is a major domestic bank or the domestic office of an international bank rated AA or higher by Moody's and Standard & Poor's.

6. Commonwealth of Virginia and Virginia Local Government Obligations

General obligations, insured obligations or revenue bonds secured by debt service reserve funds not subject to annual appropriation rated AA or higher by Moody's or Standard & Poor's.

7. Repurchase Agreements

Repurchase agreements collateralized by securities approved for investment herein, provided that the counterparty is rated A or better by Moody's and Standard & Poor's and the collateral is held by an independent third party.

8. Open-End Investment Funds

Open-end investment funds registered under the Securities Act of the Commonwealth or the Federal Investment Company Act of 1940, provided that they invest only in securities approved for investment herein.

9. Virginia Local Government Investment Pool (LGIP)

The LGIP is a professionally managed money market fund which invests in qualifying obligations and securities as permitted by Virginia statutes. Pursuant to Section 2.2-4605 *Code of Virginia*, the Treasury Board of the Commonwealth sponsors the LGIP and has delegated certain functions to the State Treasurer. The LGIP reports to the Treasury Board at their regularly scheduled monthly meetings. The fair value of the position of the LGIP is the same as the value of the pool shares, i.e., the LGIP maintains a stable net asset value of \$1 per share. The LGIP has been assigned an "AAAm" rating by Standard & Poor's.

NOTES TO FINANCIAL STATEMENTS

Note 2. Deposits and Investments (Continued)

10. Virginia State Non-Arbitrage Program (SNAP)

Investment in the Virginia State Non-Arbitrage Program (SNAP) is used to assist in avoiding arbitrage penalties enacted with the Tax Reform Act of 1986. Sections 2.2-4700 through 2.2-4705 of the *Code of Virginia*, the Government Non-Arbitrage Investment Act authorizes the Virginia Treasury Board to provide assistance to the Commonwealth of Virginia, counties, cities, and towns in the Commonwealth, and to their agencies, institutions and authorities of any combination of the foregoing ("Virginia governments") in the management of and accounting for their bond funds, including, without limitation, bond proceeds, reserves, and sinking funds, and the investment thereof. The Virginia SNAP has been assigned an "AAAm" rating by Standard & Poor's.

Credit Risk:

Credit risk is defined as the risk that an issuer or other counterparty to an investment will not fulfill its obligations. As of June 30, 2010, 16% of the Town's investments were invested in "AAA" U. S. Agency Securities, and 57% was invested in "AAAm" rated Money Market Funds. All credit ratings presented in this paragraph are Standard & Poor's ratings.

Concentration of Credit Risk:

Concentration of credit risk is defined as the risk of loss attrtibuted to the magnitude of a government's investment in a single issuer. If certain investments in any one issuer represent 5% of total investments, there must be a disclosure for the amount and issuer. At June 30, 2010, the portion of the Town's portfolio, excluding LGIP, U. S. Government guaranteed obligations, and money market mutual funds, that exceed 5% of the total portfolio are as follows:

Federal Farm Credit Bank	9%
Federal Home Loan Bank	7%

Interest Rate Risk:

Interest rate risk is defined as the risk that changes in interest rates will adversely affect the fair value of an investment. As a means of limiting exposure to fair value losses arising from rising interest rates and to comply with the laws of the Commonwealth, the Town's policy limits the investment of funds to investments with a stated maturity of no more than five years from the date of purchase.

	 Fair Value	Less Than 1 Year
U. S. Agency securities LGIP Certificates of deposit SNAP	\$ 5,435,883 1,322,941 9,450,000 18,610,607	\$ 5,435,883 1,322,941 9,450,000 18,610,607

NOTES TO FINANCIAL STATEMENTS

Note 3. Estimated Unbilled Revenue

Water and Sewer Fund revenues are estimated at year-end for unbilled services rendered. The amounts are determined by estimating services rendered based on past services provided. At June 30, 2010, estimated unbilled services included in accounts receivable and revenue amounted to approximately \$2.7 million.

Note 4. Receivables

Receivables at June 30, 2010 for the Town's individual major funds, including the applicable allowances for uncollectible accounts, are as follows:

	General Fund	Capital Projects Fund	Airport Fund	Water and Sewer Fund	 Totals
Property taxes	\$ 6,118,670	\$ -	\$ -	\$ -	\$ 6,118,670
Utility taxes	122,949	-	-	-	122,949
Local taxes	1,183,218	-	-	-	1,183,218
Accounts	 446,149	 403,500	136,796	3,899,868	 4,886,313
Gross receivables	7,870,986	403,500	136,796	3,899,868	12,311,150
Less allowance for uncollectible accounts	 (250,000)	-	 (3,000)	 (90,000)	(343,000)
Net receivables	\$ 7,620,986	\$ 403,500	\$ 133,796	\$ 3,809,868	\$ 11,968,150

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of deferred revenue and unearned revenue reported in the General Fund were as follows:

	Unavailable			Unearned
Delinquent property taxes receivable	\$	400,505	\$	-
Advance collection of 2010-2011 taxes		_		104,102
2010-2011 property taxes receivable		-		5,405,520
Business licenses receivable		-		52,782
Motor vehicle decal receivable		_		299,440
	\$	400,505	\$	5,861,844

NOTES TO FINANCIAL STATEMENTS

Note 5. Due From Other Governments

At June 30, 2010, amounts due from other governments were as follows:

General Fund: Commonwealth of Virginia:	
Local sales tax	\$ 1,017,505
Other taxes and excess fees	10,428
Car rental tax	26,186
Communication sales and use	382,334_

NOTES TO FINANCIAL STATEMENTS

Note 7. Interfund Assets/Liabilities

Advance from/to other funds:

Receivable Fund	Payable Fund	Amount		
General	Airport	\$ 3,756,140		

The Airport Fund has not had sufficient cash flow from operations to meet all of its operating expenses and debt service costs. As a result, the General Fund has made operating cash advances to the Airport Fund to provide working capital and cover the annual cash deficits. During fiscal year 2010, the Airport Fund and General Fund entered into a lease agreement that allows for the Airport Fund to repay \$697,736 to the General Fund for the advances made in prior years. The airport agreed to lease office space to the General Fund for a term of five years commencing in December 2009 in monthly installments of \$3,222 through December 2014 at which time the lease agreement will automatically renew for an additional five year term unless either party cancels the agreement. At June 30, 2010, \$676,326 remained outstanding under the lease agreement. No specific repayment terms have been established for the remaining \$3,079,814 in advances made to the Airport Fund from the General Fund.

Note 8. Long-Term Debt

General Obligation Bonds

The Town issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities and for refunding of general obligation bonds. General obligation bonds have been issued for both general government and proprietary activities. These bonds are reported in the proprietary funds if they are expected to be repaid from proprietary fund revenues. General obligation bonds are direct obligations and pledge the full faith and credit of the Town.

Outstanding long-term debt at June 30, 2010 includes the following bond issues:

General Obligation Bonds:

\$9,190,000, 2005 General Obligation Bonds, due in annual principal payments of \$360,000 to \$665,000 through	
January 2026; plus interest at 4.00% to 5.00%	\$ 7,910,000
\$1,350,000, 2003 General Obligation Bonds, due in semi- annual installments of \$60,162 through July 2018; including interest at 3.60%	874,383
\$7,930,000, 2003 General Obligation Refunding Bonds, due in an annual installment of \$345,000 in August 2010; plus interest at 4.50%	345,000
\$4,200,000, 2001 General Obligation Bonds due in semi- annual installments of \$154,578 through January 2022; including interest at 4.02%	2,920,323
\$14,545,000, 2000 General Obligation Public Improvement Bonds due in annual installments of \$965,000 to \$1,345,000 through January 2013; plus interest at 5.00% to 5.50%	3,280,000

NOTES TO FINANCIAL STATEMENTS

Note 8. Long-Term Debt (Continued)

\$20,035,000, 2006 General Obligation Refunding Bond Series B due in annual installments of \$275,000 to \$2,295,000 through September 2026; plus interest at 4.00% to 5.00%	\$	19,190,000
\$55,660,000, 2006 "Double Barrel" General Obligation Public Utility Bonds due in annual installments of \$800,000 to \$3,030,000 through July 2036; plus interest at 3.50% to 5.00%		53,920,000

July 2010; plus interest at 5.00%		1,045,000
Di		130,459,947
Plus unamortized premiums, discounts and deferred losses, net	Φ.	145,469
Total bonded debt	_\$_	130,605,416

The Town also issues bonds where the Town pledges income derived from the acquired or constructed assets to pay debt service.

The Revenue Bonds constitute special obligations of the Town solely secured by a lien on and pledge of the net revenues of the water and sewer system. The revenue of the water and sewer system and the various special funds established by the bond covenants collateralizes the bonds. The covenants provide that the revenue of the system is to be used first to pay operating and maintenance expenses of the system and second to establish and maintain the revenue bond funds. Any remaining revenues may then be retained in a surplus account. The covenants also contain certain provisions, which require the Town to maintain revenues, as defined in the covenants of at least 1.25 times the annual debt service requirements. For fiscal year 2010, all revenue bond covenants were met.

The Double Barrel Bonds are secured by the Town's general obligation pledge as well as a pledge of utility revenues.

NOTES TO FINANCIAL STATEMENTS

Note 8. Long-Term Debt (Continued)

The Town refunded its 1998 general obligation refunding bonds and 1999 general obligation public improvement bonds to reduce its total debt service over the next eight years by approximately \$239,000 and to obtain an economic gain (difference between the present value of the debt service payments on the old and new debt) of approximately \$293,000.

In prior years, the Town refunded or defeased certain other general obligation debt by placing the proceeds of new bonds in escrow to repay the refunded or defeased debt. At June 30, 2010, \$9,790,000 of debt remained to be paid.

The allocation of debt to business-type and governmental activities net of premium, discount, and deferred loss is as follows:

Description	Business- Type Activities	Governmental Activities	Totals
Bond long-term debt:			
1997 Utility revenue refunding 1999 VRA utility revenue 2000 Public improvement 2001 General obligation 2003 General obligation refunding 2003 General obligation 2005 General obligation 2006 General obligation 2006B General obligation and refunding 2007 Bond anticipation note 2009 BABS	\$ 1,045,000 6,831,307 816,720 - 101,085 - - 53,920,000 2,184,975 - 6,689,593	\$ 2,463,280 2,920,323 243,915 874,383 7,910,000 - 17,005,025 5,000,000 22,454,341	\$ 1,045,000 6,831,307 3,280,000 2,920,323 345,000 874,383 7,910,000 53,920,000 19,190,000 5,000,000 29,143,934

The transfer from the Airport Fund to the General Fund is for general administrative services performed by the general government.

The transfer from the Airport Fund to the Capital Projects Fund is for project administrative services performed by the capital projects office.

The transfer from the Water and Sewer Fund to the General Fund is for general administrative services performed by the general government.

The transfer from the Water and Sewer Fund to the Capital Projects Fund is for project administrative services performed by the capital projects office.

The transfer from the Irwin W. Uran Fund to the Capital Projects Fund was to reimburse the Capital Projects Fund for cost associated with the CAD/RMS system.

The transfer from the Irwin W. Uran Fund to the General Fund was for qualifying expenditures for the police department, community outreach and playground.

The transfer from the Capital Projects Fund to the General Fund is to reimburse the General Fund for capital outlay expenditures.

NOTES TO FINANCIAL STATEMENTS

Note 10. Commitments and Contingent Liabilities

Federal and State-Assisted Programs

The Town has received proceeds from several federal and state grant programs. Periodic audits of these grants are required and certain costs may be questioned as not being appropriate expenditures under the grant agreements. Such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds will be immaterial. Based on past experience, no provision has been made in the accompanying financial statements for the refund of grant monies.

At June 30, 2010, the Town was contractually obligated for \$5.2 million to complete various construction projects within the Town. The funds for these improvements are expected to come from net asset reserves, the issuance of debt and state funding.

Note 11. Irwin W. Uran Fund

Irwin W. Uran has donated funds to the Town for designated uses which are accounted for in a special revenue fund. The Town continues to expend funds in full compliance with the donor-designated uses.

Note 12. Balch Library Fund

The County of Loudoun, Virginia, made a deed of gift and dedication in 1994 to the Town consisting of special revenue funds held and the real property referred to as Thomas Balch Library. The Town has complied with all restrictive covenants on the use of the funds and structures.

Note 13. Valeria Symington Fund

The estate of Valeria Symington has donated funds to the Town for designated uses which are accounted for in a special revenue fund. The Town continues to expend funds in full compliance with the donor-designated uses.

Note 14. Virginia Bowie Fund

The estate of Virginia Bowie has donated funds to the Town for designated uses which are accounted for in a special revenue fund. The Town continues to expend funds in full compliance with the donor-designated uses.

NOTES TO FINANCIAL STATEMENTS

Note 15. Other Postemployment Benefits

Plan Description: The Town participates in the Retiree Healthcare and Life Insurance Benefit Programs which is a single employer benefit plan. Other postemployment benefits provided by the Town include Medicare health care benefits to retired employees and their dependents provided they satisfy one of the following requirements:

- General, Water and Sewer and Airport Employees: Age 65 with 5 or more years of service and retired under the Virginia Retirement System
- Police Officers and Firefighters: Age 60 (or more) and have 5 years (or more) of Creditable Service, is no longer in service as a Police Officer or Firefighter and retired under the Virginia Retirement System
- Medically disabled and totally and permanently unable to work

The Town also provides healthcare benefits to the survivors of deceased employees and retired members.

The OPEB Trust does not issue stand alone financial statements.

Funding Policy: The Town establishes employer contribution rates for plan participants and determines how the Town's contribution will be funded as part of the budgetary process each year. Employees retiring under the state retirement system with a minimum of 10 years of Town service shall be eligible for supplemental Medicare insurance, in compliance with all state and federal law. Employees who retire with 20 or more years, at least 15 but less than 20 years, and at least 10 but less than 15 years of service will pay 10%, 50% and 75%, respectively, of the monthly health insurance premiums and supplemental Medicare insurance. Retired employees participating in the plan shall pay all additional premiums for spouse or dependent coverage requested. Employees retiring prior to December 31, 2002, with 20 or more years of service have 100% of their monthly health insurance premiums and supplemental medicare insurance paid by the Town.

The Town will pay between 25% and 90% of the premium for retirees based on years of service.

Annual OPEB cost and Net OPEB Obligation: In 2010, the Town had an actuarial valuation of post employment benefits performed as of July 1, 2009. The annual cost of the OPEB under GASB Statement No. 45 is called the annual required contribution or ARC. The phase-in of full funding cost for OPEB benefits is \$900,281 and the annual benefit cost is \$1,424,005 for 2010. The percentage of the annual OPEB cost contributed is 63.22%.

GASB Statement No. 45 does not require pre-funding of the OPEB liability. The Town has elected not to pre-fund all of the OPEB liability at this time. The difference between the OPEB annual expense and cash payments for OPEB benefits is treated as a liability in the financial statements when the liability is not pre-funded. At June 30, 2010 the Town has recorded a liability of \$1,321,185 on the Statement of Net Assets and enterprise fund statements.

NOTES TO FINANCIAL STATEMENTS

Note 15. Other Postemployment Benefits (Continued)

The Town is required to contribute the ARC of the employer, an amount actuarially determined in accordance with the parameter of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an on-going basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows a calculation of the net OPEB obligation at June 30, 2010:

				Water and				
	General Sewer			Sewer	Airport Total			
ARC Interest on net OPEB	\$	1,094,812	\$	309,877	\$	15,631 \$	1,420,320	
obligation		33,224		10,067		569	43,860	
Adjustment to ARC		(30,433)		(9,221)		(521)	(40,175)	
Annual OPEB cost		1,097,603		310,723		15,679	1,424,005	
Contributions made		(715,139)		(176,687)		(8,455)	(900, 281)	
Increase in net OPEB obligation Net OPEB obligation,		382,464		134,036		7,224	523,724	
beginning of year		604,079		183,031		10,351	797,461	
Net OPEB obligation, end of year	\$	986,543	\$	317,067	\$	17,575 \$	1,321,185	

Trend Information

Two-year trend information is as follows:

_	Fiscal Year Ended	Year OPEB		Percentage of Annual OPEB Cost Contributed	 Net OPEB Obligation	
	June 30, 2010	\$	1,424,005	63.22%	\$ 1,321,185	
	June 30, 2009		1,135,000	29.74%	797,461	

Funding Status and Funding Process: As of July 1, 2009, the most recent actuarial valuation date, the plan was partially funded. The actuarial value of the assets was \$213,704 resulting in an unfunded actuarial accrued liability (UAAL) of \$12,782,499.

Actuarial valuations of an on-going plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revisions as actual results are compared with past expectations and new estimates are made for the future. The schedule of funding progress, presented in the required supplementary information following the notes to the financial statements, present trend information that shows whether the actuarial value of the plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

NOTES TO FINANCIAL STATEMENTS

Note 15. Other Postemployment Benefits (Continued)

The following table shows the funding progress for the Town.

						Unfunded Actuarial Accrued Liability
Actuarial	Actuarial	Actuarial	Unfunded Actuarial		Annual	as a Percentage
Valuation	Value of	Accrued	Accrued	Funded	Covered	of Covered
Date	 Assets	 Liability	 Liability	Ratio	Payroll	Payroll
July 1, 2007	\$ -	\$ 11,225,000	\$ 11,225,000	0.00%	\$ 18,743,000	59.9%
July 1, 2009	213,704	12,996,203	12,782,499	1.6%	20,939,368	61.0%

Actuarial Methods and Assumptions: Projections of benefits for financial reporting purposes are based on the substantive plan (plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and the plan members at that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with long-term perspective of the calculations.

The 2009 actuarial valuation determined the OPEB liability based on the entry age normal cost method. The actuarial assumptions include a discount rate of 7.5%, salary increases comprised of a wage inflation component of 4.0% and a seniority and merit component of .5% and an ultimate healthcare and dental trend rate of 5.0%. The unfunded liability is amortized over a period of 30 years as a level percentage of payroll on an open basis.

NOTES TO FINANCIAL STATEMENTS

Note 16. Defined Benefit Pension Plan

Plan Description

Name of Plan: Virginia Retirement System (VRS)

Identification of Plan: Agent and Cost-Sharing Multiple-Employer Defined Benefit Pension Plan

Administering Entity: Virginia Retirement System (System)

All full-time, salaried permanent employees of participating employers must participate in the VRS. Benefits vest after five years of service. Employees are eligible for an unreduced retirement benefit at age 65 with five years of service (age 60 for participating local law enforcement officers, firefighters and sheriffs) or at age 50 with at least 30 years of service if elected by the employer (age 50 with 25 years of service for participating local law enforcement officers, firefighters and sheriffs) payable monthly for life in an amount equal to 1.70% of their average final compensation (AFC) for each year of credited service (1.85% for sheriffs and, if the employer elects, for other employees in harzardous duty positions receiving enhanced benefits). Benefits are actuarially reduced for retirees who retire prior to becoming eligible for full retirement benefits. In addition, retirees qualify for annual cost-of-living adjustments (COLA) beginning in their second year of retirement. The COLA is limited to 5% per year. AFC is defined as the highest consecutive 36 months of reported compensation. Participating local law enforcement officers, firefighters and sheriffs may receive a monthly benefit supplement if they retire prior to age 65. The VRS also provides death and disability benefits. Title 51.1 of the Code of Virginia (1950), as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

The System issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for VRS. A copy of that report may be downloaded from their website at http://www.varetire.org/pdf/publications/2009-annual-report.pdf or obtained by writing to the Systems Chief Financial Officer at P. O. Box 2500, Richmond, Virginia, 23218-2500.

Funding Policy

Plan members are required by Title 51.1 of the *Code of Virginia* (1950), as amended, to contribute 5% of their annual reported salary to the VRS. The 5% member contribution has been assumed by the Town. In addition, the Town is required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the *Code of Virginia* and approved by the VRS Board of Trustees. The Town's contribution rate for the fiscal year ended June 30, 2010 was 12.98% of annual covered payroll.

Annual Pension Cost (APC)

For fiscal year 2010, the Town's annual pension cost of \$2,926,912 was equal to the Town's required and actual contributions.

NOTES TO FINANCIAL STATEMENTS

Note 16. Defined Benefit Pension Plan (Continued)

Three-year trend information for the Town is as follows:

_	Fiscal Year Ended	nual Pension Cost (APC)	Percentage of APC Contributed	Net Pension Obligation	
	June 30, 2008	\$ 3,063,744	100%	\$	-
	June 30, 2009	2,895,360	100%		-
	June 30, 2010	2,926,912	100%		-

The required contribution was determined as part of the June 30, 2007 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions at June 30, 2007 included (a) an investment rate of return (net of administrative expenses) of 7.50%, (b) projected salary increases ranging from 3.75% to 5.60% per year for general government employees and 3.50% to 4.75% for employees eligible for enhanced benefits available to law enforcement officers, firefighters, and sheriffs, and (c) a cost-of-living adjustment of 2.5% per year. Both the investment rate of return and the projected salary increases include an inflation component of 2.50%. The actuarial value of the Town's assets is equal to the modified market value of assets. This method uses techniques that smooth the effects of short-term volatility in the market value of assets over a five-year period. The Town's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2007 was 20 years.

Funded Status and Funding Progress

As of June 30, 2009, the most recent actuarial valuation date, the plan was 86.96% funded. The actuarial accrued liability for benefits was \$53,958,657 and the actuarial value of assets was \$46,921,071 resulting in an unfunded actuarial accrued liability (UAAL) of \$7,037,587. The covered payroll (annual payroll of active employees covered by the plan) was \$22,550,312, and ratio of the UAAL to the covered payroll was 31.21%.

The Schedule of Funding Progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

NOTES TO FINANCIAL STATEMENTS

Note 17. Risk Management

The Town is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. To reduce insurance costs and the need for self-insurance, the Town has joined with other municipalities in the Commonwealth of Virginia in several public entity risk pools that operate as common risk management and insurance programs for member municipalities. Settled claims from these risks did not exceed coverage in the three most recent fiscal years.

The Town also has coverage with the Virginia Association of Counties (VACO) for workers' compensation. Each Association member jointly and severally agrees to assume, pay and discharge any liability. The Town pays VACO contributions and assessments based upon classifications and rates into a designated cash reserve fund out of which expenses of the Association and claims and awards are to be paid. In the case for both pools, if the event of a loss deficit and depletion of all available excess insurance, the pools may assess all members in the proportion which the premium of each bears to the total premiums of all members in the year in which such deficit occurs.

The Town participates in VACO, which is a public entity risk pool that provides commercial general liability, property, automobile, and other types of insurance coverage to Virginia localities.

Note 18. Operating Rental Income Lease

The Town leases various owned airport properties under non-cancelable operating leases. The leases provide for annual rental increases and pass-through of certain maintenance costs. The Town was contracted at June 30, 2010 with four significant leases, two expiring in June 2014, one in April 2018, and one in January 2026.

Year Ending	Rental

NOTES TO FINANCIAL STATEMENTS

Note 19. Pending GASB Statements

At June 30, 2010, the Governmental Accounting Standards Board (GASB) has issued the following statements not yet implemented by the Town. The statements which might impact the Town are as follows:

GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, establishes standards to enhance the usefulness of fund balance information by providing clearer fund balance classifications that comprise hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. Statement No. 54 will be effective for periods beginning after June 15, 2010.

GASB Statement No. 57, *OPEB Measurements by Agent Employers and Agent-Multiple Employer Plans*, establishes standards for the measurement and financial reporting of actuarially determined information by agent employers with individual-employer OPEB plans that have fewer than 100 total plan members and by the agent multiple-employer OPEB plans in which they participate. In addition, it clarifies requirements of Statements 43 and 45 related to the coordination of the timing and frequency of OPEB measurements by agent employers and the agent multiple-employer OPEB plans in which they participate. Statement No. 57 will be effective for periods beginning after June 15, 2011.

GASB Statement No. 59, *Financial Instruments Omnibus*, updates and improves existing standards regarding financial reporting and disclosure requirements of certain financial instruments and external investment pools. Statement No. 59 will be effective for periods beginning after June 15, 2010.

The Town has reviewed these statements and is in the process of determing the full effect these GASB Statements will have on its financial statements.

STATISTICAL SECTION

STATISTICAL SECTION CONTENTS

The statistical section of the Town's comprehensive annual financial report presents detailed information as a context for understanding what the information presented in the financial statements, note disclosures and required supplementary information say about the Town's overall financial health. This information has not been audited by the independent auditor.

Contents	Tables
Financial Trends These tables contain trend information to help the reader understand how the Town's financial performance and well being have changed over time.	1 - 5
Revenue Capacity These tables contain information to help the reader assess the Town's most significant local revenue sources, the property tax, as well as other revenue sources.	6 - 10
Debt Capacity These tables present information to help the reader assess the affordability of the Town's current level of outstanding debt and the Town's ability to issue additional debt in the future.	11 - 14
Demographic and Economic Information These tables offer demographic and economic indicators to help the reader understand the environment within which the Town's financial activities take place.	15 - 16
Operating Information These tables contain service and infrastructure data to help the reader understand how the information in the Town's financial report relates to the services the Town provides and the activities it performs.	17 - 19

Sources: Unless otherwise noted, the information in these tables is derived from the comprehensive annual financial report for the relevant year. The Town implemented GASB 34 in fiscal year 2003; tables presenting government-wide information include information beginning in that year.

Notes:

- the new reporting standard, in fiscal year 2003. Therefore, ten years of data is not available but will be accumulated (1) This table reports financial information based on the accrual basis of accounting. The Town implemented GASB 34, over time.
- revenues. Numbers in a parentheses are net expenses indicating that expenses were greater than program revenues and, therefore, general function or program is supported with its own fees and program-specific grants versus its reliance upon funding from taxes and other general revenues were needed to finance that function or program. Numbers without parentheses are net revenues, demonstrating that program (2) Net (expense) revenue is the difference between the expenses and program revenues. This difference indicates the degree to which a revenues were more than sufficient to cover expenses.

Table 5 Page 2

CHANGES IN FUND BALANCES, GOVERNMENTAL FUNDS (CONTINUED)
Last Ten Fiscal Years
(modified accrual basis of accounting)
(Unaudited)

Notes:

- (1) For the years 2001 through 2003, the amount used for capital outlay was obtained from the increase to the General Fixed Asset Account Group, which is no longer used under the new reporting model. For fiscal years 2004 through 2010, the amounts used for capital outlay were obtained from the Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balance of Governmental Funds to the Statement of Activities.
- (2) Prior to the adoption of GASB Statement No. 34, the Town did not capitalize additions to or major repairs of infrastructure assets. Therefore, for fiscal years 2001 through 2003, additions to infrastructure were not subtracted from total expenditures to calculate the debt service as a percentage of noncapital expenditures.

- (1) These rates are per \$100.00 of assessed value for real estate and personal property.
- (2) The Commonwealth of Virginia has no limitations on local tax rates.
- (3) Real property taxes are due in semi-annual installments by June 5 and December 5, and become delinquent thereafter.
- (4) No discounts are allowed for early payment.
- (5) Residents of incorporated towns in the Commonwealth of Virginia are subject to real property and personal property taxes levied by the town and the county where they reside.
- (6) The assessed values of all real estate components are taxed at the same rate.

(1) Details regarding the Town's outstanding debt may be found in the notes to the financial statements.

(2) Population and personal income data can be found in Table 15.

(3) See Table 7 for property value data.

(4) The outstanding amounts of the bonds are presented exclusive of any premiums, discounts and losses due to refundings.

DIRECT AND OVERLAPPING GOVERNMENTAL ACTIVITIES DEBT Year Ended June 30, 2010 (Unaudited)

Governmental Unit	Debt Outstanding	Estimated Percentage Applicable	Estimated Share of Overlapping Debt
Loudoun County, Virginia	\$ 1,004,330,000	10.44%	\$ 104,852,052
Town Direct Debt			58,871,267
Total direct and overlapping debt			\$ 163,723,319

- (1) Overlapping debt is not bonded debt of the Town on either a direct or contingent basis, but represents the share of debt of overlapping governmental entities which the residents of the Town are obligated to pay through direct tax levies and charges for services of these respective governmental entities. The debt of Loudoun County, Virginia is a direct general obligation debt of the County which provides facilities that benefit all County residents including those of incorporated towns.
- (2) The percentage of overlapping debt applicable is estimated using taxable assessed real property values. Applicable percentages were estimated by determing the portion of the Town's taxable assessed value that is within the government's boundaries and dividing it by the County's taxable assessed value.

Available legal debt margin

(1) Section 15.1-176 of 1950 Code of Virginia, as amended, limits to 10% the assessed valuation of the real estate subject to taxation as the amount of debt which can be issued by the Town. Debt includes any bonds or other interest bearing obligations including existing indebtedness. Excluded from the debt margin calculation are bonds payable from enterprise funds issued under Article VII Section 10(a)(2) of the Constitution of Virginia.

- (1) Population numbers came from the Loudoun County Department of Management and Financial Services, October 2010 estimate series and US Census Bureau Census 2000.
- (2) Per capita and personal Income information is not maintained for towns in Virginia. The amounts used here are for the County of Loudoun, Virginia, which the Town lies within. Information for per capita personal income is sourced from the Bureau of Economic Analysis' April 23, 2010 release for 2001 to 2008 and the Loudoun County Department of Management and Financial Services forecasts for 2009 to 2010. Personal income is sourced from the Loudoun County Department of Management and Financial Services.
- (3) Unemployment rates are not available for the towns in Virginia. The unemployment rate data is representative of the County of Loudoun, Virginia, which the Town lies within. The information provided comes from the Virginia Employment Commission as of October 25, 2010. The 2001 to 2009 data are annual figures and the 2010 figure represents July 2010 because annual data is not available for 2010 as of the date of this publication.

NOTE TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

Note 1. Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards includes the federal grant activity of the Town and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations.* Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

Federal Financial Assistance – The Single Audit Act Amendments of 1996 (Public Law 104-156) and OMB Circular A-133 define federal financial assistance as grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations or other assistance. Federal financial assistance does not include direct federal cash assistance to individuals.

Direct Payments – Assistance received directly from the Federal government is classified as direct payments on the Schedule of Expenditures of Federal Awards.

Pass-through Payments – Assistance received in a pass-through relationship from entities other than the Federal government is classified as pass-through payments on the Schedule of Expenditures of Federal Awards.

Major Programs – The Single Audit Act Amendments of 1996 and OMB Circular A-133 establish the criteria to be used in defining major programs. Major programs for the Town were determined using a risk-based approach in accordance with OMB Circular A-133.

Catalog of Federal Domestic Assistance – The Catalog of Federal Domestic Assistance (CFDA) is a government-wide compendium of individual federal programs. Each program included in the catalog is assigned a five-digit program identification number (CFDA Number), which is reflected in the accompanying schedule.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Honorable Mayor and Members of Council Town of Leesburg, Virginia Leesburg, Virginia

We have audited the basic financial statements of the Town of Leesburg, Virginia, (Town) as of and for the year ended June 30, 2010, and have issued our report thereon dated December 20, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and Specifications for Audits of Counties, Cities and Towns, issued by the Auditor of Public Accounts of the Commonwealth of Virginia.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Town's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Town's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Town's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, we identified certain deficiencies in internal control over financial reporting, described in the accompanying Schedule of Findings and Questioned Costs as 10-01 and 10-02 that we consider to be significant deficiencies in internal control over financial reporting. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions and specifications was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of the Town in a separate letter dated December 20, 2010.

The Town's response to the findings identified in our audit is described in the accompanying Schedule of Findings and Questioned Costs. We did not audit the Town's response and, accordingly, we express no opinion on it.

This report is intended solely for the information of the Town Council, management, the Auditor of Public Accounts and other federal and state agencies and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the Honorable Mayor and Members of Council Town of Leesburg, Virginia Leesburg, Virginia

Compliance

We have audited the compliance of the Town of Leesburg, Virginia, (Town) with the types of compliance requirements described in the *U. S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement*, that are applicable to its major Federal program for the year ended June 30, 2010. The Town's major Federal program is identified in the Summary of Independent Auditors' Results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to its major Federal program is the responsibility of the Town's management. Our responsibility is to express an opinion on the Town's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations;* and the *Specifications for Audits of Counties, Cities, and Towns,* issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards, circular, and specifications require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major Federal program occurred. An audit includes examining, on a test basis, evidence about the Town's compliance with those requirements, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the Town's compliance with those requirements.

In our opinion, the Town complied, in all material respects, with the requirements referred to above that are applicable to its major Federal program for the year ended June 30, 2010.

Internal Control Over Compliance

The management of the Town is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to Federal programs. In planning and performing our audit, we considered the Town's internal control over compliance with requirements that could have a direct and material effect on a major Federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Town's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information of the Town Council, management, the Auditor of Public Accounts and other federal and state agencies and is not intended to be and should not be used by anyone other than these specified parties.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS Year Ended June 30, 2010

- II. FINDINGS RELATING TO THE FINANCIAL STATEMENT AUDIT AS REQUIRED TO BE REPORTED IN ACCORDANCE WITH AUDITING STANDARDS GENERALLY ACCEPTED IN THE UNITED STATES OF AMERICA
 - A. Significant Deficiency in Internal Control

10-01 Other Postemployment Benefits

During the course of our audit, it was noted that management did not properly calculate the liability for other postemployment benefits (OPEB). As a result of not properly calculating the liability, the Town's liability for OPEB was significantly misstated at year end resulting in an understatement of the liability. We recommend that management implement a policy to ensure that the liability is correctly calculated and reported at the close of each fiscal year.

Management's Response:

The finance department will implement a procedure to ensure that the OPEB liability is calculated and reported correctly at fiscal year end.

10-02 Recording of Debt Related Balances

During the course of our audit, it was noted that management failed to properly account for deferred charges related to the issuance of the new debt. As a result, the costs associated with the cost of issuing debt was not properly capitalized. We recommend that management implement a policy to ensure that the deferred charges associated with new debt issuances are properly accounted for.

Management's Response:

The finance department will implement a procedure to ensure that the cost of issuing debt is properly capitalized.

B. Compliance Findings

None.

III. FINDINGS AND QUESTIONED COSTS FOR FEDERAL AWARDS

None.

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS Year Ended June 30, 2010

The Town has taken the following corrective action on findings from the prior year's audit.

Identifying Number

09-01 Capital Assets

During the course of our audit, it was noted that management did not capitalize the costs associated for storm drains contributed to the Town from local developers. As a result of management's failure to capitalize these costs, capital assets were materially misstated resulting in a restatement of prior year net assets. We recommend that management implement a policy to ensure that all costs associated with storm drains are properly reported.

Corrective Action Taken

The Town has implemented a procedure where as all developer contributions that are accepted by the Town will be captured and the cost determined at the time of acceptance. This information will be relayed to the department of finance for capitalization.
