November 23, 2010

### To the Honorable Members of the Board of Supervisors To the Citizens of Fluvanna County County of Fluvanna, Virginia

We are pleased to submit to you the Comprehensive Annual Financial Report (CAFR) for the County of Fluvanna (the "County") for the fiscal year ended June 30, 2010. The Commonwealth of Virginia requires that local governments publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with accounting principles generally accepted in the United States of America (GAAP) and audited in accordance with auditing standards generally accepted in the United States of America by a firm of licensed certified public accountants. This report has been prepared by the Finance Department in accordance with the standards of financial reporting as prescribed by the Governmental Accounting Standards Board (GASB), the Financial Accounting Standards Board (FASB) where applicable, and the Auditor of Public Accounts (APA).

This report consists of management's representations concerning the finances of the County. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the County. We believe the data, as presented, is accurate in all material respects; that it is presented in a manner designed to fairly set forth the financial position and results of operations of the County as measured by the financial activity of its various funds; and that all disclosures necessary to enable the reader to gain the maximum understanding of the County's financial affairs have been included.

The management of the County is responsible for establishing and maintaining an internal control structure to ensure the protection of County assets. In developing and evaluating the County's accounting system, consideration is given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding: (1) the safeguarding of assets against loss from unauthorized use or disposition; and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the evaluation of costs and benefits requires estimates and judgments by management.

All internal control evaluations occur within the above framework. We believe that the County's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

This report is intended to provide informative and relevant financial information for the residents of the County, the Board of Supervisors (the Board), investors, creditors, and other concerned readers. All are encouraged to contact the Department of Finance with any comments or questions concerning this report.

The County's financial statements have been audited by Robinson, Farmer, Cox, Associates, LLP, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the County for the fiscal year ended June 30, 2010, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation.

The independent auditors concluded, based upon the audit, there was a reasonable basis for rendering an unqualified opinion. The County's financial statements for the fiscal year ended June 30, 2010 are fairly presented in conformity with GAAP. The independent auditors' report is presented as the first component in the financial section of this report.

### PROFILE OF THE COUNTY

The County was established in 1777 after several divisions from other counties with the final division from Albemarle County. Fluvanna County was once part of Henrico County, one of the original shires of the Virginia Colony. In 1727, Henrico County was divided and Fluvanna County became a part of Goochland County. Goochland County was divided in 1744 and Fluvanna became a part of Albemarle County. In 1777, Albemarle County was divided to create Fluvanna County. The County was named for the Fluvanna River, the name given to the James River west of Columbia. Fluvanna is Latin for "Anne's River" – in honor of Queen Anne of England.

Palmyra was made the county seat in 1828 and remains the county seat today. It quickly became a thriving town after the courthouse was completed in 1830. While Palmyra has changed and modernized over the years, it still possesses an aura of tranquility.

The County operates under the traditional form of government as defined under Virginia law. The governing body of the County is the Board of Supervisors, which establishes policies for the administration of the County. The Board of Supervisors consists of six members representing the five electoral districts in the County: Columbia, Cunningham, Fork Union, Palmyra, and Rivanna. The Board of Supervisors appoints a County Administrator to serve as the administrative manager of the County. The County Administrator serves at the pleasure of the Board of Supervisors, carries out the policies established by the Board of Supervisors, and directs business and administrative procedures within the County government.

Washington, D.C.

Jorfoll

Fredericksburg

Fluvanna

County

The County has taxing powers subject to statewide restriction and tax limits. In addition to the elected Board of Supervisors, five constitutional officers are elected. These officers include the Clerk of the Circuit Court, the Sheriff, the Commonwealth's Attorney, the Treasurer, and Commissioner of Revenue. Fluvanna County is centrally located in the heart of Virginia, 120 miles south of Washington, D.C., 60 miles west of Richmond, Virginia, and 25 miles southeast of Charlottesville, Virginia. The location of the County can be described as the Piedmont Plateau Physiographic Province and is characterized by gently rolling hills. The County encompasses a land area of 282 square miles. Two U.S. primary and two State primary routes traverse the County. Fluvanna has a strong

economy with strong manufacturing, trade services, and agricultural sectors. Manufacturing activity includes: electrical power, and iron castings. Major service industries include: health care, education, and government. The County is bounded, in effect, by Interstate 64 to the north and by the James River to the south. The Rivanna River, the Commonwealth's first designated "Scenic River", bisects the county and joins the James at the historic town of Columbia. Agriculture remains important in Fluvanna's economy, two-thirds of the county's land is forested with most open land devoted to farming and grazing.

### THE REPORTING ENTITY AND ITS SERVICES

The County of Fluvanna report includes all funds and account groups of the "primary government." In Virginia, cities and counties are distinct units of government; therefore, the County is responsible for providing all services normally provided by a local government. These services include public safety, social services, recreation and cultural activities, and community development. Additionally, the County operates water and sewer utility systems. For financial reporting purposes and in accordance with the Governmental Accounting Standards Board (GASB), Statement 14, "The Financial Reporting Entity," the County has identified one discrete component unit. The GASB statement establishes the criteria used in making this determination and identifies each as a blended component unit or discretely presented component unit. Blended component units, although legally separate entities, are, in substance, part of the primary government's operations, and therefore are included as part of the primary government. Discretely presented component units are reported in a separate column in the combined financial statements to emphasize that they are legally separate from the primary government. Therefore, the County School Board is reported in a discrete presentation. Based on GASB Statement 14 criteria, the School Board is a legally separate organization providing educational services to the public whose board is elected and is fiscally dependent on the local government.

The financial statements for the Blue Ridge Juvenile Detention, Central Virginia Regional Jail, and the Region Ten Community Services Board are not included in the County report. Boards separate from, and independent of, the Board of Supervisors administer these organizations.

The departments of the Board of Supervisors, County Administrator, County Attorney, Commissioner of the Revenue, Reassessment, Treasurer, Information Technology, Finance, and Registrar constitute the general government administration of the County. The County Administrator, Constitutional officers, along with the Directors of the various departments, implement the laws and policies of the County by developing and executing the procedures that are necessary in order to provide general support services to residents of the County.

The Court system is made up of the Circuit Court, General District Court, Juvenile and Domestic Relations Court, Clerk of the Circuit Court, Court Services, and Commonwealth's Attorney. The public safety operations of the County include the Sheriff, Emergency Communications, Fire and Rescue Squad, Animal Control, Building Inspections, Blue Ridge Juvenile Detention, and Central Virginia Regional Jail.

Public Works category is comprised of the departments of facilities, utilities, and public works which administers capital projects of the County and oversees solid waste management, sewer, and the Fork Union Sanitary District.

The Department of Social Services determines eligibility for public assistance programs, which are mandated by federal and state law. The Community Services Board provides mental health, mental retardation, and substance abuse services. In addition, it provides adult services, group home services, and supervised living services. Fluvanna is served by the Thomas Jefferson Health District along with Charlottesville, Albemarle, Greene, Louisa, and Nelson.

Parks and Recreation provides and promotes leisure services including park activities, educational and hobby programs, senior citizen activities, youth programs, adult athletic leagues, special events, and other activities for County residents. The Fluvanna County Library provides public library service to the County through one site and one satellite book return.

The Planning and Community Development Department provides numerous services that relate to the wellbeing and orderly development of the community. Primary areas of responsibility include current and long range planning, and code enforcement. This Department also maintains the geographic information system (GIS) for developing, maintaining, and distributing geographic related data sets and applications.

The County provides education through its own school system administered by the Fluvanna County School Board (the School Board). This agency has been classified as a discretely presented component unit in the financial reporting entity because the School Board administers its own appropriations within the categories defined by the Commonwealth of Virginia. The Board of Supervisors' financial accountability over the School Board is also limited to approving transfers to the education funds and authorizing school debt issuances. The Fluvanna County Public Schools is the single largest service provided by the County. The elected School Board is composed of six members who represent the five magisterial districts. The School Board appoints a Superintendent to administer the policies of the School Board. The school system is comprised of one high school, one middle school, and three elementary schools. The combined enrollment as of June 2010 totaled 3,727 students. The Fluvanna High School Completion Rate is 90.58 (VA On Time Graduation Rate) percent with 74.56 percent of graduates seeking higher education.

### **Budgetary Controls**

Virginia law requires the County to maintain a balanced budget in each fiscal year. The annual budget serves as the foundation of the County's financial planning and control. These budgetary controls ensure compliance with provisions embodied in the annual appropriated budget approved by the Board of Supervisors. Activities of the general fund and capital projects fund are included in the annual appropriated budget. All agencies and departments of the County are required to submit requests for appropriation to the County Administrator by the date established in the budget calendar. The County Administrator uses these requests as the starting point for developing a proposed budget. Then, the County Administrator presents the proposed budget to the Board who begins a series of work sessions. The Board is required to hold a public hearing on the proposed budget and to adopt a final budget by no later than June 30<sup>th</sup>, the close of the County's fiscal year, as required by 15.2-2503, Code of Virginia of 1950, as amended. A budget is not required for fiduciary funds. The appropriated budget is prepared by fund and function (e.g. public safety) with the appropriations resolution adopted by the Board of Supervisors placing legal restrictions on expenditures at the fund and function level.

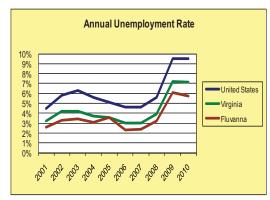

When necessary, the Board of Supervisors approves amendments to the adopted budget in accordance with 15.2-2507, Code of Virginia of 1950, as amended. Budgetary compliance is monitored and reported at the department level. The budget is implemented through appropriations that the Board makes annually, with supplemental appropriations made as required. These appropriations, except those to incur mandated expenditures, may be greater or less than contemplated in the budget.

### FACTORS AFFECTING FINANCIAL CONDITION

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which Fluvanna County operates.

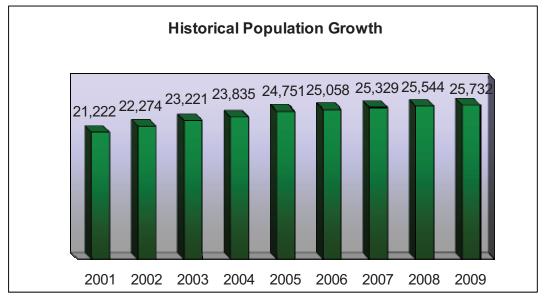

### Local Economy

Based on available economic data, the local unemployment rate was 5.7% at June 30, 2010, .4% lower than the 6.1% at June 30, 2009. The local unemployment rate compares favorably to the state and national rate of 7.1% and 9.5% respectively. The County's unemployment conditions improved slightly; however, the Charlottesville Metropolitan Statistical Area (MSA) maintains a lower unemployment rate of 6.3% compared to eight of Virginia's ten metropolitan areas, except for Northern Virginia at 5.3%. Jobs are steady in the area due to the University of Virginia - Hospital and Academia, government sectors, and the technology sector. According

to the Virginia Employment Commission, the number of persons employed in the civilian labor force for Fluvanna has increased by 3,472 from 10,741 in 2001 to 14,213 in 2010. In summary, the local job market has remained relatively unchanged due to a slow home and commercial construction industry.

Fluvanna County's Board of Supervisors has defined the County's vision statement as "the most livable and sustainable community in the United States". The population growth in the County has increased over the years due to competitively priced housing, rural setting, and approximation to major urban centers including Charlottesville, Richmond, and Washington, D.C. Fluvanna County saw its population increase by 4 percent since 2005.

Source: US Census Bureau Estimates Annual Population Data

The County received their first formal public credit ratings in July 2008. Standard & Poor's provided a rating of AA- with remarks of "strong wealth and income levels, developing local economy has access to the Charlottesville core based statistical area, and solid financial performance with positive operating results and strong reserves." Moody's provided a rating of Aa2 (recalibration of ratings under the Global Scale) with remarks of "favorable location along Intersate 64 between the major employment centers of Charlottesville (G.O. rated Aaa) and Richmond (G.O. rated Aa3/stable outlook) is expected to support ongoing growth, albeit at more moderate levels."

### **Financial Policies**

The Board of Supervisors adopted a fund balance policy for the County's General Fund. The policy set the minimum undesignated, unreserved fund balance at 12% of Governmental General Fund Revenues and Component Unit – School Board Operating Revenues.

The Board of Supervisors adopted a formal Investment Policy that seeks to safeguard principal, meet liquidity objectives, and seek fair value rates of return within the parameters of the *Code of Virginia*.

The County recognizes the need to monitor revenue estimates to identify any shortfalls and potential trends that would significantly affect the various revenue sources in the current budget. A significant emphasis is placed on controlling departmental expenditures through accounts payable and purchasing card polices and procedures.

Policies and procedures are developed or revised periodically to provide better clarification, more detail of practice, and strengthen documentation of management.

### **Risk Management**

The County of Fluvanna has a risk management program which is committed to the logical, systematic and continuous identification of loss exposures for and to the County, including its employees, its citizens and taxpayers, through the evaluation of risk in terms of severity and frequency probability and the application of sound loss control procedures. As a part of this commitment, the county has obtained third party coverage through the Virginia Association of Counties (VACO) for all liability risk.

### Cash Management

Investments and deposits during the year consisted of a variety of securities, durations and increments as allowable by the Code of Virginia. These allowable investments include U.S. agency securities, corporate notes, banker's acceptances, commercial paper, money market accounts, mutual funds, and state bonds. The amount of interest received was \$ 37,969. This is a decrease of \$112,359 from interest earned on investments in fiscal year 2008-09 when the interest on investments totaled \$150,328. The County Treasurer is responsible for investing County funds.

### Pension Benefits

The County is a participant in the Virginia Retirement System (VRS), a defined benefits plan pension system, for which the County contributes a percentage of a qualifying County employee's salary to VRS. The VRS is responsible for setting the contribution rate and making retirement payments in accordance with the established plan. In addition, the County provides employees access to a Section 457 retirement investment program. This plan is funded through employee deductions, and administered by Nationwide.

### MAJOR INITIATIVES

For fiscal year 2010, following the priorities established by the County of Fluvanna Board of Supervisors, and with the assistance and guidance of the County Administrator, County staff and agencies implemented and continued a number of specific projects designed to provide County residents with cost efficient government while enhancing their home and employment environment. Major initiatives begun, continued, or completed during this fiscal year are:

### Palmyra Sewer System

The County substantially completed the sewer expansion to Pleasant Grove on Route 53 in the summer of 2010 to the New High School, other government buildings, and possibly residential and business customers. The total project cost \$1.2 million.

### New High School

In April 2009, the School Board broke ground on the construction of a \$71 million new high school on Pleasant Grove. The new high school is being designed with an initial capacity of 1,500 students with the flexibility to expand the capacity to 1,750 and eventually to 2,500 students in the future. The anticipated completion date is fall 2011.

### Pleasant Grove Manor House Rehabilitation Project

Pleasant Grove consists of just less than 1,000 acres located on Route 53 just west of the intersection of U.S. 15 and Route 53. The manor house in 2004 was officially entered into the Virginia Landmarks Register and National Register of Historic Places. The adaptive reuse project includes 1) rehabilitation of the exterior of the house, 2) renovation of portions of the interior for a Visitors Center to showcase the history of the historic Rivanna River Canal Navigation system which served as the primary mode of transportation in the late 18<sup>th</sup> and early 19<sup>th</sup> centuries, and 3) construction of a new architecturally compatible two-story addition. In collaboration with the Fluvanna Historical Society, funds totaling \$851,250 were raised through Federal, State, and Private grants including a County appropriation of \$150,000. Rehabilitation is planned for 2011.

### Municipal Software

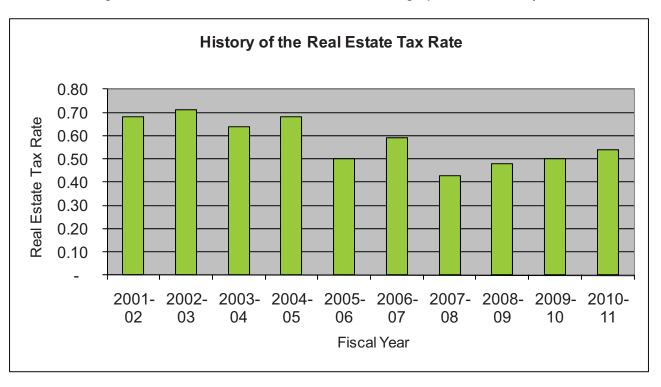

In the FY 2009 – 2010 Capital Improvement Plan (CIP) funds of \$195 thousand were set aside for the County to update and modernize the financial management software and hardware. In May 2010, the Board of Supervisors re-appropriated additional funds of \$232 thousand for a total project cost of \$427 thousand and awarded a contract to Tyler Technologies for \$397 thousand. The new system is a comprehensive financial solution including general ledger, budgeting, GASB 34 reporter, HR/payroll, revenues including VA Tax, and utility billing. Project implementation is planned for summer 2010 and completion in spring 2012.

### Kent Store and Fork Union Firehouses

The Board of Supervisors authorized in October 2009 the construction of the Kent Store and Fork Union firehouses. The Fork Union Firehouse will be built next to the Fluvanna Community Center on Route 15. The County received an awarded from the American Recovery and Reinvestment Act (ARRA) Federal Emergency Management Agency for \$1.4 million with a cash match of \$360 thousand for a total project cost of \$1.8 million. This project is scheduled for the spring of 2011 with completion in the spring 2012. The Kent Store Firehouse is a cash project of \$1.1 million with a completion date of March 2011.

### **PROSPECTS FOR THE FUTURE**

For the fiscal year 2010-2011, the Board of Supervisors approved an operating budget of \$67 million inclusive of a governmental general fund budget of \$33 million and a school fund budget of \$34 million. Based on the debt service requirement for the New High School, the Board of Supervisors elected to increase the real estate tax rate 4 cents to \$0.54. The County's 2010-2011 real estate tax rate continues to remain one of the lowest in the Commonwealth of Virginia. Below is a historical real estate tax rate graph for the County.

### OTHER INFORMATION

### Management's Discussion and Analysis

Generally accepted accounting principles require management to provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The County of Fluvanna's MD&A can be found immediately following the report of the independent auditors.

### **OTHER INFORMATION**

### **Independent Audit**

Sections 15.2-2510 and 15.2-2511 of the Code of Virginia requires an annual audit of the financial records and transactions of all departments of the County by independent certified public accountants selected by the Board of Supervisors. The County is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act Amendments of 1996 and U.S. Office of Management and Budget Circular A-133, <u>Audits of States, Local Government and Non-Profit Organizations</u>. Information related to this single audit, including the findings and recommendations, and auditors' reports on the internal control structure and compliance with laws and regulations, is contained in this report. These requirements have been complied with and the auditor's opinion is included in this report.

The independent audit of the financial statements of the County was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the County's compliance with the financial and administrative requirements applicable to each of the County's major federal programs. These reports are available in the Compliance Section of this report.

### Awards and Acknowledgments

The Governmental Finance Officers Association (GFOA) of the United States and Canada awarded a Certificate of Achievement for Excellence in Financial Reporting (CAFR) to the County of Fluvanna for its comprehensive annual financial report for the fiscal year ended June 30, 2009. This is the third year that the County has received this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized CAFR. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The GFOA has awarded its Distinguished Budget Presentation Award to Fluvanna County for fiscal year 2010. This is the second year that the County has received this prestigious award.

The preparation of this report could not have been accomplished without the cooperation and dedication of the staff of the Fluvanna County Finance Department, to Robinson Farmer Cox Associates, and to all County agencies and departments that assisted and contributed to the preparation of this Report. Credit also must be given to the Board of Supervisors for their unwavering support for maintaining the highest standards of professionalism in the management of Fluvanna County's finances.

Respectfully submitted,

Joydendder

### **Independent Auditors' Report**

### To the Honorable Members of the Board of Supervisors County of Fluvanna, Virginia Palmyra, Virginia

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the County of Fluvanna, Virginia, as of and for the year ended June 30, 2010, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County of Fluvanna, Virginia's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the County of Fluvanna, Virginia, as of June 30, 2010, and the respective changes in financial position, and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 23, 2010, on our consideration of the County of Fluvanna, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis and Required Supplementary Information as listed in the table of contents, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County of Fluvanna, Virginia's basic financial statements. The introductory section, combining and individual fund financial statements and schedules, supporting schedules, and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements of the County of Fluvanna, Virginia. The introductory section, combining and individual fund financial statements and schedules, supporting schedules, and the Schedule of Expenditures of Federal Awards have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements taken as a whole. The

Charlottesville, Virginia November 23, 2010

### To the Honorable Members of the Board of Supervisors To the Citizens of Fluvanna County County of Fluvanna, Virginia

The management of the County of Fluvanna, Virginia presents the following discussion and analysis as an overview of the County's financial activities for the fiscal year ended June 30, 2010. We encourage readers to read this discussion and analysis in conjunction with the transmittal letter in the Introductory Section of this report, and the County's financial statements which follow this discussion and analysis.

### **Financial Highlights**

### **Government-wide Financial Statements**

- The assets of the County exceeded its liabilities at the close of the most recent fiscal year by \$35.5 million (net assets). Of this amount, \$18.0 million (unrestricted net assets) may be used to meet the government's ongoing obligations to citizens and creditors.
- The County's total net assets increased by \$4.1 million, of which the governmental activities increased by \$2.8 million and business-type activities increased by \$1.3 million.
- The total cost of the County's programs was \$33.0 million (governmental activities) a decrease of \$604 thousand. This overall decline in expenses is a combination of decreases in General government administration of \$260 thousand, Parks, Recreation, and cultural of \$168 thousand, Community Development of \$97 thousand, and Health and Welfare of \$52 thousand.
- The County's total debt decreased by \$1.4 million during the current fiscal year. This net decrease was a result of the refunding of \$4.83 million public facility note and the issuance of \$5.42 million of School General Obligation bonds for new high school construction project, less principal payments.

### Fund Financial Statements

- As of the close of the current fiscal year, the County's governmental funds reported combined ending fund balances of \$64.3 million (Exhibit 3), a decrease of \$25.3 million in comparison with the prior year. Approximately 69 percent of this amount, \$43.9 million, is reserved from funds borrowed in 2008 for construction of the new high school. Approximately 24 percent of this amount, \$20.3 million, is available for spending at Fluvanna's Board of Supervisors discretion (unreserved fund balance).
- Undesignated fund balance for the General Fund was \$15.0 million, or 43 percent of total General Fund revenues and 41 percent of total general fund expenditures (Exhibit 4). This exceeds the County's reserve fund balance policy minimum of 12% of total governmental general fund revenues and component unit – school board operating revenues.

### **Overview of the Financial Statements**

This discussion and analysis are intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements comprise three components:

- 1. Government-wide financial statements,
- 2. Fund financial statements, and
- 3. Notes to the financial statements.

This report also contains other supplementary information in addition to the basic financial statements themselves.

### **Overview of the Financial Statements: (Continued)**

### Government-Wide Financial Statements

The government-wide financial statements (Exhibits 1 and 2) are designed to report information about the County as a whole using accounting methods similar to those found in the private sector. They also report the County's net-assets and how they have changed during the fiscal year. These statements provide both short-term and long-term information about the County's overall financial status.

The statement of net assets (Exhibit 1) presents information on all of the County's assets and liabilities, including governmental activities, business-type activities, and School Board activities. Net assets are the difference between assets and liabilities, which provides a measure of the County's financial health, or financial condition. Over time increases or decreases in the net assets may serve as an indicator of whether the County's financial condition is improving or deteriorating. Other non-financial factors will also need to be considered, such as changes in the County's property tax base and the condition of the County's facilities.

The *statement of activities* (Exhibit 2) presents information using the accrual basis of accounting, and shows how the County's nets assets changed during the fiscal year. All of the current year's revenues and expenses are shown in this statement, regardless of when cash is received or paid. The Statement of Activities presents expenses before revenues to emphasize that the government's revenue is generated for the express purpose of providing services.

In the government-wide financial statements, the County's activities are divided into three categories:

*Governmental activities*: Most of the County's basic services are reported here, including general governmental; judicial administration; public safety; public works; health and welfare; education; parks, recreation and cultural; and community development. These activities are financed primarily by property taxes, other local taxes, and Federal and State grants.

*Business-type activities:* The County charges fees to users to cover all, or a significant portion, of the costs associated with the provision of certain services. These business-type activities of Fluvanna County are intended to be self-supporting and include the Fork Union Sanitary District, Landfill, Community Programs, and Sewer.

*Component unit:* The County has one component unit, the Fluvanna County Public Schools (School Board), which is included in this annual financial report. Although legally separate, this discretely presented component unit is important because the County is financially accountable for it. A primary government is accountable for an organization if the primary government is able to impose its will on the organization or the organization is capable of imposing specific financial burdens on the primary government. The County approves debt issuances to finance School Board assets and provides significant funding for its operation. Additional information on the component unit can be found in Note 1 of the Notes to Financial Statements section of this report.

### Fund Financial Statements

These statements focus on individual parts of the County's government, reporting the County's operations in more detail than the government-wide statements. Funds are used to ensure compliance with finance-related legal requirements and are to keep track of specific sources of revenue and expenses for particular purposes. The County has three kinds of funds:

### **Overview of the Financial Statements: (Continued)**

### Fund Financial Statements: (Continued)

*Governmental funds* – Most of the County's basic services are included in governmental funds, which focus on (1) the in flows and out flows of cash and other financial assets that can be readily converted to cash, and (2) the balances remaining at year-end that are available for spending. The governmental funds financial statements provide a detailed short-term view that helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the County's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, additional information is provided with the fund financial statements to explain the relationship (or differences). The County has two major funds, the General Fund and the Capital Projects Fund. The General fund is the main operating account of the County and therefore, the largest of the governmental funds. The Capital Projects Fund is used to account for major capital projects, primarily construction related. It provides control over resources that have been segregated for specific capital projects. All other governmental funds, which include special revenue funds, are collectively referred to as non-major governmental funds.

The County adopts an annual appropriated budget for its Governmental funds. A budgetary comparison statement has been provided for the General Fund and Capital Projects Fund to demonstrate compliance with this budget.

*Proprietary funds* – The County maintains four enterprise funds. Enterprise funds are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The County uses enterprise funds to account for its landfill, water, community operations, and sewer. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the landfill, water, community activities, and sewer all of which are considered to be major funds of the County.

*Fiduciary funds* – The County is the trustee, or fiduciary, for the County's *agency funds*. It is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the County's fiduciary activities are reported in a separate statement of fiduciary net assets and a statement of changes in fiduciary net assets. The County excludes these activities from the County's government-wide financial statements because the County cannot use these assets to finance its operations. Agency funds are County custodial funds used to provide accountability of client monies for which the County is custodian.

<u>Notes to the financial statements</u> - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

<u>Other information</u> - In addition to the basic financial statement and accompanying notes, this report also presents certain *required supplementary information* for budgetary comparison schedules and presentation of combining financial statements for the discretely presented component unit School Board. The School Board does not issue separate financial statements.

### Financial Analysis of the Government-Wide

### Statement of Net Assets

Table 1 summarizes the Statement of Net Assets (Exhibit 1 in the Financial Section of the CAFR) for the primary government as of June 30, 2010 and 2009.

County of Eluvonno Virginia

### Table 1

		Summa	ry o	ivanna, of Net A nillions	sse	•

	_	2010		2009		2010		2009		2010		2009
Current and other assets Capital assets	\$	71.9 60.7	\$	94.3 34.0	\$	0.4 6.3	\$	- 5.4	\$	72.3 67.0	\$	94.3 39.4
Total assets	\$	132.6	\$	128.3	\$	6.7	\$_	5.4	\$	139.3	\$	133.7
Long-term liabilities outstanding Current liabilities	\$	89.9 11.2	\$	93.9 5.7	\$	2.5 0.3	\$	2.6 0.2	\$	92.4 11.5	\$	96.5 5.9
Total liabilities	\$	101.1	\$	99.6	\$	2.8	\$_	2.8	\$	103.9	\$	102.4
Net assets:												
Invested in capital assets, net of related debt Restricted Unrestricted	\$	12.9 - 18.6	\$	9.5 3.9 15.3	\$	4.5 - (0.6)	\$	3.5 - (0.9)		17.4 - 18.0	\$	13.0 3.9 14.4
Total net assets	\$	31.5	_\$	28.7	_\$	3.9	\$	2.6	\$	35.4	\$	31.3

As noted earlier, over time, changes in net assets may serve as a useful indicator of a County's financial position. Of interest, County's assets exceeded liabilities by \$31.6 million at the June 30, 2010. The County's net assets of \$12.9 million or 41 percent reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment) less any related debt used to acquire those assets that is still outstanding. The County uses these capital assets to provide services to citizens, like schools, libraries, law enforcement, fire and emergency medical services. Consequently, these assets are *not* available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities (i.e., the County's investment in capital assets is of a permanent nature, as assets acquired are generally not sold or otherwise disposed of during their useful life).

The remaining \$18.7 million balance for net assets may be used to meet the County's ongoing obligations to citizens and creditors.

For the business-type activities, total net assets increased by \$1.3 million or 50% which is primarily the capitalization of the sewer expansion which constructed sewer pipeline on Route 53 to the "new" high school and other County buildings. The unrestricted net assets showed a deficit of \$600 thousand which is a decrease to the deficit of \$300 thousand or 34% from the prior year due primarily to increase in U.S. Environmental Protection Agency (EPA) grant to construct sewer expansion and the decrease of post closure expenses. This deficit does not mean that there are insufficient resources available to pay bills; but that long-term commitments are greater than currently available resources.

### Statement of Activities

### Statement of Activities: (Continued)

Generally, net asset changes are the result of difference between revenues and expenses. The increase in net assets attributable to the County's **governmental activities** totaled \$2.8 million for the current fiscal year. Revenues were \$35.9 million for fiscal year 2010. This is an increase of \$1.5 million from the prior fiscal year.

A summary of key revenue elements follows:

- General property taxes, including the payments received from the State as reimbursement under the State's personal property tax relief program, were \$26.0 million, representing an increase of \$1.5 million or 7 percent over fiscal year 2009. These revenues comprise the County's largest source of revenues, which reflects the recognition of the second half calendar year 2009 and the first half of calendar 2010 property taxes, collected during fiscal year 2010. The County Board of Supervisors increased the Real Estate Tax Rate to 54 cents per \$100 of assessed value for the tax calendar year 2010.
- Capital grants for governmental activities increased by \$400 thousand or 114 percent primarily as a result
  of grants received from the Department of Criminal Justice for public safety partnership and community
  policing grants.

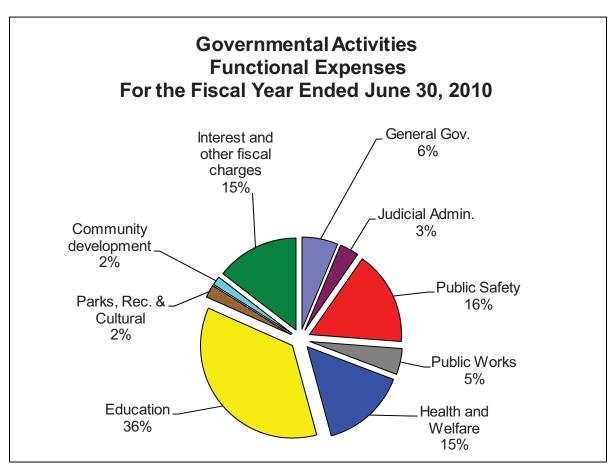

For the fiscal year June 30, 2010, the expenses for governmental activities totaled \$33 million, a decrease of \$600 thousand or 2 percent compared to the prior year. Included in this activity are employee compensation and benefits, payments for educational expenses to the School Board, and cost decreases in the areas of parks, recreation, and cultural.

A summary of key expenses elements follows:

- General government administration had a decrease by \$200 thousand over fiscal year 2009. This was primarily due to the vacancy of the County Administrator position for six months, in addition, to minimizing expenses as much as possible due to short fall in revenue streams.
- Expenses in public safety increased by \$800 thousand or 17 percent from the prior fiscal year. The Sheriff's expenses increased with the receipt of two grants of \$200 each for community policing. The County's cost to the Blue Ridge Juvenile Detection Center and Central Virginia Regional Jail increased by \$350 thousand for incarceration.
- Local expenses for education of \$11.8 million decreased by \$4.6 million over fiscal year 2009. This is primarily due to capitalizing the cost from the construction of new high school. Education continues to be the County's largest program and highest priority.
- Interest and other fiscal charges had an increase of \$3.7 million or 337 percent. The capitalized interest expense from the 2008 bond issue of \$3.9 million caused the increase to this function.

The following graph illustrates the County's expenses for each functional area comprising its governmental activities. Education expense represents the County's payment to its School Component Unit on the accrual basis.

<u>Business-Type Activities</u> – Business-type activities increased the County's net assets by \$1.3 million. Similar to changes in net assets attributable to governmental activities, changes in business-type activity net assets also result from the differences between revenues and expenses. However, unlike governmental activities, which rely primarily on general tax revenues to finance operations, business-type activities are financed to a significant extent by fees charged for goods and services provided. The County's business-type activities, the County attempt to recover as much of the operating expenses it incurs to meet service demands as possible through user charges.

Key elements of increases/decreases in the activities are as follows:

- Charges for services for business-type activities increased by \$1.4 million during the fiscal year. This can be contributed to collection of \$1.2 million in sewer connection and availability fees for the construction of the sewer expansion to new high school and other public buildings.
- Expenses total \$800 thousand, which were \$100 thousand lower than the prior year. The decrease in expenses was primarily due to the reduction in hours of convenience center.

### Financial Analysis of the County's Funds

As noted earlier, the County used fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

### Governmental Funds

As of June 30, 2010, the County's governmental funds reported combined ending fund balances of \$64.3 million (Exhibit 3), a decrease of \$25.3 million in comparison with the prior fiscal year. The decrease is primarily due to the disbursement of bond proceeds of \$27.3 million from the 2008 bond issuance for the new high school construction project and capitalized interest. Approximately 24 percent of this total constitutes unreserved fund balance, which is available for spending at the County's discretion. The remaining fund balance is designated for capital projects of \$2.5 million and for high school debt service of \$2.8 million.

The general fund is the main operating fund of the County. The fund balance for the general fund decreased \$2.0 million (Exhibit 4) during the current fiscal year. This decrease is primarily a result of payment of the capitalized interest on the 2008 bond issuance. At the end of the current fiscal year, unreserved fund balance of the general fund was \$20.3 million (Exhibit 3), while total fund balance reached \$20.4 million. As a measure of the general fund's liquidity, it may be useful to compare fund balances to total fund revenues. Unreserved fund balance represents 58 percent of total general fund revenues, while the total general fund expenditures represent 55 percent of that same amount. The Board of Supervisors uses a guideline to keep an undesignated general fund balance at a minimum of 12% of the total governmental general fund revenues and component unit – school board operating revenues. The undesignated fund balance in the general fund exceeds this guideline by 5.3 percent or \$7.8 million.

Fund balance for the Capital Projects Fund was \$43.9 million for the fiscal year 2010; this amount is classified as *reserved* to indicate that it is not available for new spending. This fund decreased by \$23.3 million during the fiscal year due to expenditures incurred for new high school construction.

### Financial Analysis of the County's Funds: (Continued)

Significant outlays in fiscal year 2010 included the following:

- The General Fund contributed \$14.7 million in operating funds to finance the Schools operations.
- The General Fund transferred \$642 thousand to the Capital Projects Fund to fund capital improvement projects for the County.
- The General Fund contributed \$262 thousand for the Other Post Employment Benefit (OPEB).

### Proprietary Funds

The County's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Net assets of the Community Programs (*Parks & Recreation*) Fund at the end of the year were \$71 thousand, a decrease from the prior year of \$6 thousand or 8 percent. Charges for services decreased from the prior year by \$13 thousand. Operating expenses decreased from the prior year by \$11 thousand. Revenues and expenditures declined because of low participation in recreational activities; the Community Programs made no capital outlay for the fiscal year.

Net assets of the Landfill Fund totaled a negative \$817 thousand increase from prior year of \$68 thousand. Charges for services decreased from the prior year by \$27 thousand. Operating expenses decreased from the prior year by \$99 thousand. The facility is a convenience center with reduce hours of operation meaning less personnel cost and tipping fees.

Net assets of the Fork Union Sanitary District Fund totaled \$1.4 million a decrease from prior year of \$100 thousand or 7 percent. Charges for services decreased from the prior year by \$40 thousand as result of volume of water used by commercial customers and operating expenses decreased by \$75 thousand from the prior year due to transfer of personnel cost to the Sewer Fund.

Net assets of the Sewer totaled \$3.2 million an increase from prior year of \$1.4 million or 7.8 percent. Charges for services increased from the prior year by \$1.2 million and operating expenses increased \$20 thousand as result of availability and connection fees and personnel.

### General Fund Budgetary Highlights

Budget amendments resulted in an increase of \$1.6 million between the original budget and the final budget. Significant appropriations included:

- \$495 thousand for Sheriff's public safety grants;
- \$262 thousand for Other Post Employment Benefit (OPEB) contribution;
- \$383 thousand to Education for the renovations to Central Elementary;
- \$ 80 thousand to Non-Departmental for insurance expenses;
- \$ 56 thousand for Smart Beginnings grant; and
- \$ 47 thousand for Electoral Board/Registrar to maintain electronic poll books .

Variances between the final amended budget and actual was \$3.1 million. The significant differences were:

- \$1.7 million for new high school debt service reserve;
- \$298 thousand where the Local Department of Social Services had budgeted funds for public assistance and purchased services but State funding was not available;
- \$416 thousand from educational services in the Schools; and
- \$357 thousand from non-departmental set aside for personnel, grant, and board contingencies.

### **Capital Asset and Debt Administration**

### Capital assets

Table 3 provides information on changes in the capital assets of the governmental activities during fiscal year 2010.

### Table 3

Change in Capital Assets Governmental Activities (\$ in millions)										
	-	Balance July 1, 2009	-	Net Additions and Deletions		Balance June 30, 2010				
Land and improvements	\$	1.5	\$	-	\$	1.5				
Construction in progress - jointly owned		7.2		27.4		34.6				
Construction in progress	-	0.2	_	0.4		0.6				
Subtotal, capital assets not being depreciated	\$.	8.9	\$	27.8	\$	36.7				
Buildings and improvements	\$	16.4	\$	0.1	\$	16.5				
Equipment		4.8		0.5		5.3

Subtotal, capital assets being depreciated	\$	33.3	\$	(0.4)	\$	32.9				
Less: accumulated depreciation	\$	9.0	\$	0.7	\$	9.7				
Net capital assets being depreciated	\$	24.3	\$	(1.1)	\$	23.2				
Governmental activities capital assets, net	\$	33.2	\$	26.7	\$	59.9				

The County's investment in capital assets for its governmental type activities as of June 30, 2010 totals \$59.9 million, net of accumulated depreciation. This represents an increase of \$26.7 million or 81 percent over the prior year. The investment in capital assets includes land, buildings, improvements, infrastructure (primarily water system), machinery and equipment, and construction in progress. State law grants the County a *tenancy in common* with the School Component Unit for School capital assets for which the County incurs an obligation payable over more than one fiscal year, under which the County reported net capital assets of \$8.8 million at year end.

Major capital asset events during the current fiscal year for the governmental activities were the capitalization the additional construction in progress of \$27 million for new high school.

Additional information on the County's capital assets can be found in Note 6 of this report.

### Long-term debt

Table 4 provides an overview of the long-term obligations for the governmental activities.

Table 4

Summary of Changes in Long-Term Debt Governmental Activities (\$ in millions)									
	_	Balance July 1, 2009	_	Net Additions and Deletions	Balance June 30, 2010				
Capital leases	\$	0.9	\$	(0.1) \$	0.8

Compensated absences		0.5		-	0.5				
Revenue note	_	7.5	_	(4.8)	2.7				
Total long-term debt	\$	95.4		(1.4) \$	94.0				

### Capital Asset and Debt Administration: (Continued)

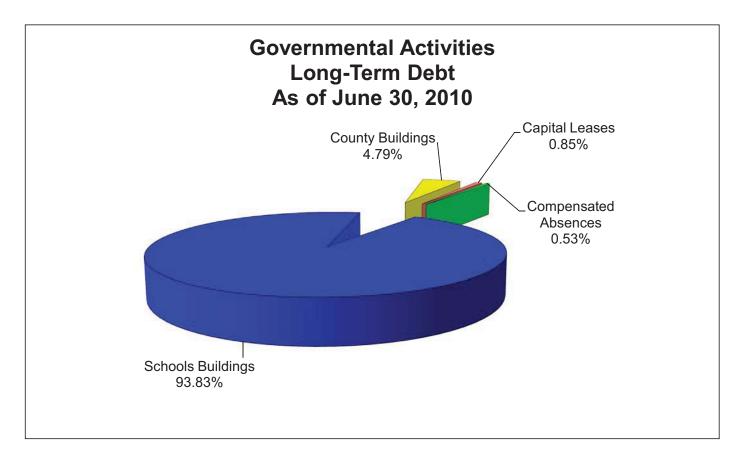

### Long-term debt: (Continued)

At the end of the current fiscal year, the County had total bonded debt outstanding of \$90 million. This entire amount represents debt backed by the full faith and credit of the County.

The County has adopted two debt ratios as a management tool. The first ratio adopted, limits the annual general governmental debt service to no more than 12 percent of General Fund revenues. In fiscal year 2010, the County's debt to revenue ratio was 6.25 percent. The second ratio assessed by management is the net general obligation of debt to assessed value will not exceed 3.5 percent. This ratio measures the relationship between County's tax-supported debt to the taxable value of property in the County. In fiscal year 2010, this ratio was 2.49 percent.

On September 2009 the County refunded \$4.83 million in Public Facility's Note to issued \$5.42 million Virginia Public School Authority – Qualified School Construction Bonds (QSCB). The QSCB offered zero percent interest rate.

The chart below illustrates long-term debt by type and percentage of each type relative to the total outstanding debt. Schools general obligations bonds represent the largest category of debt with 94 percent of the County's total governmental debt.

Additional information on the County's long-term debt can be found in Note 7 of this report.

### Economic Factors and Next Year's Budgets and Rates

### Economic Factors

According to the Weldon Cooper Center for Public Service at the University of Virginia, Fluvanna County's population was estimated to be 26,652; this is an increase of 263 or 1 percent over the prior year. Population estimates for the last ten years are provided in Table 12, Statistical Section of this report.

The local unemployment rate was 5.7 percent at June 30, 2010, which is .4 percent less than the 6.1 percent at June 30, 2009. The local unemployment rate compares favorably to the State's rate of 7.1 percent and national rate of 9.5 percent for the same period.

Inflation measured by the national consumer price index (CPI) for June was 1.1 percent higher than a year ago where the CPI for June 2009 had a decreased percentage change of 1.4 percent.

The 2008 per capita personal income (PCPI) for Fluvanna County was \$33,872. This PCPI reflected an increase of 3.4 percent from 2007. Fluvanna is ranked 48th in the State and 77 percent compared to Commonwealth of Virginia's average of \$44,075 and 84 percent of the national average of \$40,166, as reported by the U. S. Department of Commerce Bureau of Economic Analysis.

According to Charlottesville Area Association of Realtors the median sale price in Fluvanna has continued to decline over the past four years (through third quarter of 2010). Median sale price for the County was \$205,000, 83% of the Charlottesville MSA average.

### Fiscal Year 2011 Budget and Rates

For the fiscal year ending June 30, 2011, the adopted budget is \$67 million which is a decrease of \$300 thousand or .4 percent over the prior fiscal year 2009.

For fiscal year 2010-2011 the real estate tax rate increased from \$0.50 to \$0.54 per \$100 of assessed value. Of this increase \$0.08 was set aside to build a debt reserve for the "New" High School financing.

The County will transfer to the component unit, Schools, \$13.7 million a decreased by 9 percent from prior fiscal year. Support to the Schools represents about 57 percent of General Fund appropriations.

Key factors that are expected to impact future budget include:

- Recovery of the economy.
- Federal and State funding.
- Debt Service for "New" High School.
- Operating cost for "New" High School.

### **Requests for Information**

This financial report is designed to provide a general overview of the County of Fluvanna, Virginia's finances for all those with an interest in the County's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Director of Finance, 132 Main Street, Fluvanna, Virginia 22963.

Total liabilities and fund balances	\$	24,240,783	\$	47,973,156	

Detailed explanation of adjustments from fund statements to government-wide statement of net assets:

When capital assets (land, buildings, equipment) that are to be used in governmental activities are purchased or constructed, the costs of those assets are reported as expenditures in governmental funds. However, the		
statement of net assets includes those capital assets among the assets of the County as a whole.	\$	59,894,645
Bond issuance costs net of amortization		777,900
Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due.	9	(770,103)
Because the focus of governmental funds is on short-term financing, some assets will not be available to pay current-period expenditures. Those assets (for example, receivables) are offset by deferred revenues in the governmental funds and thus are not included in the fund balance.		1,387,335
Long-term liabilities applicable to the County's governmental activities are not due and payable in the curren period and accordingly are not reported as fund liabilities. All liabilitiesboth current and long-termare reported in the statement of net assets.		(94,044,913)
Net assets of General Government Activities	\$	31,569,175

# Reconciliation of Statement of Revenues, Expenditures and Changes in Fund Balances to the Statement of Activities - Governmental Funds For the Year Ended June 30, 2010

		Primary Government Governmental Funds
Amounts reported for governmental activities in the Statement of Activities are different because:		
Net change in fund balances - total governmental funds	S	(25,283,187)
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which the capital outlays exceeded depreciation in the current period. The following details support this adjustment.	00.005.700	
Capital outlay \$	, ,	
Depreciation expense	(1,012,285)	27,383,424
Transfer of joint tenancy assets from Primary Government to the Component Unit		(750,247)
Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds. Details of this item consist of the change in deferred taxes.		(852)
The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. A summary of items supporting this adjustment is as follows:		
Proceeds from debt issued \$	(5,420,000)	
Discount on bond issuance	507,149	
Principal retired on school general obligation bonds	495,425	
Principal retired on public facility bonds	322,400	
Principal retired on note payable	4,830,000	
Principal retired on capital lease obligations	162,965	
Principal retired on state literary fund loans	495,351	
Deferred amount on refunding	(9,978)	
Amortization of bond premium	27,988	1,411,300
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds. The following is a summary of items supporting this adjustment:		
Change in accrued leave \$	9,525	
Change in interest payable	96,327	105,852
Change in net assets of governmental activities	Ş	2,866,290

The notes to the financial statements are an integral part of this statement.

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The County of Fluvanna, Virginia is governed by an elected six member Board of Supervisors. The Board of Supervisors is responsible for appointing the County Administrator. The County provides a full range of services for its citizens. These services include sheriff and volunteer fire protection, recreational activities, cultural events, education, and social services.

The financial statements of the County of Fluvanna, Virginia have been prepared in conformity with the specifications promulgated by the Auditor of Public Accounts (APA) of the Commonwealth of Virginia, and the accounting principles generally accepted in the United States as specified by the Governmental Accounting Standards Board. The more significant of the government's accounting policies are described below.

#### Government-wide and Fund Financial Statements

#### Government-wide Financial Statements

The reporting model includes financial statements prepared using full accrual accounting for all of the government's activities. This approach includes not just current assets and liabilities but also capital assets and long-term liabilities (such as buildings and general obligation debt).

The government-wide financial statements (i.e., the Statement of Net Assets and the Statement of Activities) report information on all of the nonfiduciary activities of the primary government and its components unit. For the most part, the effect of interfund activity has been removed from these statements. However, interfund services provided and used are not eliminated in the process of consolidation. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

#### Statement of Net Assets

The Statement of Net Assets is designed to display financial position of the primary government (government and business-type activities) and its discretely presented component unit. Governments report all capital assets in the government-wide Statement of Net Assets and report depreciation expense - the cost of "using up" capital assets - in the Statement of Activities. The net assets of a government are broken down into three categories: 1) invested in capital assets, net of related debt; 2) restricted; and 3) unrestricted.

#### Statement of Activities

The government-wide Statement of Activities reports expenses and revenues in a format that focuses on the cost of each of the government's functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segments are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

#### Fund Financial Statements

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

### **Budgetary Comparison Schedules**

Demonstrating compliance with the adopted budget is an important component of a government's accountability to the public. Many citizens participate in one way or another in the process of establishing the annual operating budgets of state and local governments, and have a keen interest in following the actual financial progress of their governments over the course of the year. Many governments revise their original budgets over the course of the year for a variety of reasons. Under the GASB 34 reporting model, governments provide budgetary comparison information in their annual reports, including the requirement to report the government's original budget in addition to the comparison of final budget and actual results.

### A. Financial Reporting Entity

The basic criterion for determining whether a governmental department, agency, institution, commission, public authority, or other governmental organization should be included in a primary governmental unit's reporting entity for basic financial statements is financial accountability. Financial accountability includes the appointment of a voting majority of the organization's governing body and the ability of the primary government to impose its will on the organization or if there is a financial benefit/burden relationship. In addition, an organization which is fiscally dependent on the primary government should be included in its reporting entity. These financial statements present the County of Fluvanna, Virginia (the primary government) and its component unit. Blended component units, although legally separate entities, are, in substance, part of the government's operations and so data from these units are combined with data of the primary government. Each discretely presented component unit, on the other hand, is reported in a separate column in the combined financial statements to emphasize it is legally separate from the government.

# B. Individual Component Unit Disclosures

# Blended component Units:

The County has no blended component units.

# Discretely Presented Component Unit:

<u>School Board:</u> The School Board operates the County Public School System. Members are currently elected by popular vote. The School Board adopts an annual budget for the schools. The School Board submits an appropriation request to the Board of Supervisors. The Board of Supervisors can decline to fund the entire appropriation which they adopt (as modified) in the annual County Budget. A separate financial report for the School Board is not prepared.

Other Related Organizations included in the County's CAFR: None

#### C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The accompanying financial statements are prepared in accordance with pronouncements issued by the Governmental Accounting Standards Board. The principles prescribed by GASB represent generally accepted accounting principles applicable to governmental units.

The County applies all GASB pronouncements as well as the Financial Accounting Standards Board pronouncements issued on or before November 30, 1989 unless those pronouncements conflict with or contradict GASB pronouncements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Agency funds have no measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The government-wide Statement of Activities reflects both the gross and net cost per functional category (public safety, public works, health and welfare, etc.) which are otherwise being supported by general government revenues (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.) The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants, and contributions. The program revenues must be directly associated with the function (public safety, public works, health and welfare, etc.) or a business-type activity.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Accordingly, real and personal property taxes are recorded as revenues and receivables when billed, net of allowances for uncollectible amounts. Property taxes not collected within 60 days after year-end are reflected as deferred revenues. Sales and utility taxes, which are collected by the state or utilities and subsequently remitted to the County, are recognized as revenues and receivables upon collection by the state or utility, which is generally in the month preceding receipt by the County.

### C. Measurement Focus, Basis of Accounting and Financial Statement Presentation: (continued)

Licenses, permits, fines and rents are recorded as revenues when received. Intergovernmental revenues, consisting primarily of federal, state and other grants for the purpose of funding specific expenditures, are recognized when earned or at the time of the specific expenditure. Revenues from general purpose grants are recognized in the period to which the grant applies. All other revenue items are considered to be measurable and available only when cash is received by the government.

The County's fiduciary funds are presented in the fund financial statements by type. Since by definition these assets are being held for the benefit of a third party and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements.

In the fund financial statements, financial transactions and accounts of the County are organized on the basis of funds. The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing set of accounts recording cash and/or other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

1. Governmental Funds

Governmental Funds are those through which most governmental functions typically are financed. The government reports the following major governmental funds:

a. General Fund

The General Fund is the primary operating fund of the County. This fund is used to account for all financial transactions and resources except those required to be accounted for in another fund. Revenues are derived primarily from property and other local taxes, state and federal distributions, licenses, permits, charges for service, and interest income. A significant part of the General Fund's revenues is used principally to finance the operations of the Component Unit School Board.

b. Capital Projects Fund

The Capital Projects Fund (Capital Improvements) accounts for all financial resources used for the acquisition or construction of major capital facilities not being financed by proprietary funds

#### 2. Proprietary Funds

Proprietary Funds account for operations that are financed in a manner similar to private business enterprises. The Proprietary Fund measurement focus is based upon determination of net income, financial position, and changes in financial position. Proprietary Funds consist of Enterprise Funds.

### C. Measurement Focus, Basis of Accounting and Financial Statement Presentation: (continued)

#### Enterprise Funds

Enterprise Funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the County's enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

Enterprise funds consist of Fork Union Sanitary District (F.U.S.D.), Community Programs (Parks and Recreation), Landfill, and Sewer.

3. Fiduciary Funds (Trust and Agency Funds)

Fiduciary Funds (Trust and Agency Funds) account for assets held by the County unit in a trustee capacity or as an agent or custodian for individuals, private organizations, other governmental units, or other funds. These funds include Agency Funds. These funds utilize the accrual basis of accounting. Fiduciary funds are not included in the government-wide financial statements. The County's only Agency Fund is the Special Welfare Fund. The County's only Trust Fund is the Other Post Employment Benefits Fund.

D. Budgets and Budgetary Accounting

The following procedures are used by the County in establishing the budgetary data reflected in the financial statements:

- 1. Prior to March 30, the County Administrator submits to the Board of Supervisors a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them.
- 2. Public hearings are conducted to obtain citizen comments.
- 3. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution.
- 4. The Appropriations Resolution places legal restrictions on expenditures at the function level. The appropriation for each department or category can be revised only by the Board of Supervisors. The County Administrator is authorized to transfer budgeted amounts within general government departments; and the School Board is authorized to transfer budgeted amounts within the school system's categories.
- 5. Formal budgetary integration is employed as a management control device during the year for the General Fund and the Capital Project Fund. The School Fund is integrated only at the level of legal adoption.
- 6. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).

#### D. Budgets and Budgetary Accounting: (continued)

- 7. Appropriations lapse on June 30, for all County units.
- 8. All budgetary data presented in the accompanying financial statements is the original to the current comparison of the final budget and actual results.

#### E. Cash and Cash Equivalents

The government's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

### F. Investments

Investments are stated at fair value which approximates market; no investments are valued at cost. Certificates of deposit and short-term repurchase agreements are reported in the accompanying financial statements as cash and cash equivalents. Investments consist of assets held by a trustee. Bond proceeds are maintained to comply with the provisions of the Internal Revenue Tax Code and various bond indentures. Bond proceeds are deposited in the State Non-Arbitrage Program (SNAP). Values of shares in the SNAP reflect fair value. Capital lease proceeds are held in escrow and deposited in money market funds.

State statutes authorize the County government and the School Board to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds, repurchase agreements, and the Local Government Investment Pool.

#### G. <u>Receivables and Payables</u>

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds."

All trade and property tax receivables are shown net of an allowance for uncollectibles. The County calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance amounted to approximately \$389,226 at June 30, 2010 and is comprised of the following:

Fork Union Sanitary District	\$	21,824
Sewer		66
Landfill		138,759
Property Taxes	_	228,577
Total	\$	389,226

# Property Tax Calendar

The County collects real and personal property taxes semiannually. Real and personal property taxes are levied as of January 1 for a calendar year and are due on June 5 and December 5; penalties and interest accrue on all unpaid balances as of these dates. Unpaid real and personal property taxes constitute a lien against the property as of the due date of the tax. The County bills and collects its own property taxes.

#### H. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

### I. Capital Assets

Capital assets, which include property, plant and equipment, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the County as land, buildings, road registered vehicles, and equipment with an initial individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of five years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. Interest attributable to capitalized assets as of June 30, 2010 was \$6,248,065.

Property, plant and equipment of the primary government, as well as the component units, is depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings	40 to 50
Building improvements	30 to 40
Vehicles and equipment	5 to 10
Water and sewer system	20 to 50
Buses	12

# J. <u>Compensated Absences</u>

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported as an expense in the Statement of Activities and a long-term obligation in the Statement of Net Assets. In accordance with the provisions of Government Accounting Standards No. 16, *Accounting for Compensated Absences*, no liability is recorded for nonvesting accumulating rights to receive sick pay benefits. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

#### K. Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued and premiums are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

#### L. Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

#### M. Net Assets

Net assets are the difference between assets and liabilities. Net assets invested in capital assets represent capital assets, less accumulated depreciation less any outstanding debt related to the acquisition, construction or improvement of those assets.

#### N. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

#### O. Component Unit – School Board Capital Asset and Debt Presentation

By law, the School Board does not have taxing authority and, therefore, it cannot incur debt through general obligation bonds to fund the acquisition, construction or improvement of its capital assets. That responsibility lies with the County who issues the debt on behalf of the School Board. However, the <u>Code</u> <u>of Virginia</u> requires the School Board to hold title to the capital assets (buildings and equipment) due to their responsibility for maintaining the asset.

In the Statement of Net assets, this scenario presents a dilemma for the County. Debt issued on behalf of the School Board is reported as a liability of the primary government, thereby reducing the net assets of the County. The corresponding capital assets are reported as assets of the Component Unit-School Board (title holder), thereby increasing its net assets.

The Virginia General Assembly amended the <u>Code of Virginia</u> to allow a tenancy in common with the School Board whenever the locality incurs a financial obligation which is payable over more than one fiscal year for any school property. The tenancy in common terminates when the associated debt has been paid in full. For financial reporting purposes, the legislation permits the locality to report the portion of the school property related to any outstanding financial obligation, thus eliminating a potential deficit from financing capital assets with debt.

### NOTE 2 - DEPOSITS AND INVESTMENTS:

#### <u>Deposits</u>

All cash of the County and School Board Component Unit is maintained in accounts collateralized in accordance with the Virginia Security for Public Deposits Act, Section 2.2-4400 et. seq. of the Code of Virginia or covered by federal depository insurance.

The Act provides for a pooling of collateral pledged with the Treasurer of Virginia to secure public deposits as a class. No specific collateral can be identified as security for any one public depositor and public depositors are prohibited from holding collateral in their name as security for deposits. The State Treasury Board is responsible for monitoring compliance with the collateralization and reporting requirements of the Act and notifying local governments of compliance by banks and savings and loan associations. A multiple financial institution collateral pool that provides for additional assessments is similar to depository insurance. If any member financial institution fails, the entire collateral pool becomes available to satisfy the claims of governmental entities. If the value of the pool's collateral is inadequate to cover the loss, additional amounts would be assessed on a pro rata basis to the members of the pool. Funds deposited in accordance with the requirements of the Act are considered fully secured and thus are not categorized below.

#### Investments

Statutes authorize the County and School Board Component Unit to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper and certain corporate notes, banker's acceptances, repurchase agreements and the State Treasurer's Local Government Investment Pool (LGIP). Bond proceeds subject to arbitrage rebate are invested in the State Non-Arbitrage Program (See Note 1). Capital lease proceeds are held in escrow and invested in money market funds.

#### Credit Risk of Debt Securities

The County limits the investment of funds in Debt Securities to those with credit ratings of at least Aa3/AA-.

The County's rated debt investments as of June 30, 2010 were rated by <u>Standard & Poor's</u> and the ratings are presented below using <u>Standard & Poor's</u> rating scale.

Rated Debt Investments' Values									
Investment Type	Fair Value	AAA							
Evergreen Institutional Money Market	\$	16,955,000	\$	16,955,000					
Money Market Mutual Funds		26,710,284		26,710,284					
U.S. Agencies		20,968,188		20,968,188					
Total	\$	64,633,472	\$	64,633,472					

# NOTE 2 - DEPOSITS AND INVESTMENTS: (continued)

### Interest Rate Risk

The County Investment Policy requires that investment cash flows be optimized to match expected cash flow needs and are limited to investments with an average life of 5 years or less.

Investment Maturities (in years)									
Investment Type	Fair Value	Less Than 1 Year							
Money Market Mutual Funds U.S. Agencies	\$ 26,710,284 \$ 20,968,188	26,710,284 20,968,188							
Total	\$ 47,678,472 \$	47,678,472							

### Custodial Credit Risk

The County's investments are all insured, registered in the County's name and held in an account in the County's name, or invested in an external investment pool.

# NOTE 3 - DUE FROM OTHER GOVERNMENTAL UNITS:

Receivables due from other governmental units consist of the following at June 30, 2010:

	_	Primary Government		Component Unit School Board
Commonwealth of Virginia:				
Local sales tax	\$	187,064	\$	-
Communication tax		148,069		-
Public assistance and welfare administration		24,189		-
State sales tax		-		519,024
PPTRA		1,438,261		-
Shared expenses		138,152		-
Comprehensive services		251,340		-
VDOT		100,000		-
Other		13,668		5,588
Federal Government:				
School grants		-		491,204
Public assistance and welfare administration		24,814		-
Criminal Justice Grants		269,953		-
Environmental Protection Agency		258,300		-
Other	_	18,358	-	-
Totals	\$	2,872,168	\$	1,015,816

Notes to Financial Statements At June 30, 2010 (Continued)

# NOTE 4 - INTERFUND OBLIGATIONS/TRANSFERS:

Interfund obligations at June 30, 2010, consisted of the following:

Fund	 Receivables	 Payables
General Fund Capital Projects	\$ - 263,025	\$ 263,025
Total	\$ 263,025	\$ 263,025

The purpose of interfund balances is to cover cash overdrafts at year-end.

Interfund transfers for the year ended June 30, 2010, consisted of the following:

Fund	Transfers In	 Transfers Out	
Primary Government			
General Fund	\$	334,273	\$ 765,047
Sewer		114,802	-
Community Programs		8,000	-
Capital Improvements Fund		642,245	334,273
Total	\$_	1,099,320	\$ 1,099,320

Transfers are used to (1) move revenue from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and (2) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgeting authorization.

#### NOTE 5 - DUE TO/FROM PRIMARY GOVERNMENT/COMPONENT UNIT:

Fund	 Due from Primary Government	_	Due to Component Unit
Primary Government - General Fund Component Unit - School Board	\$ - 1,038,823	\$ -	1,038,823
Total	\$ 1,038,823	\$_	1,038,823

The purpose of the interfund obligations is to report the balance of local appropriations unspent at year-end due back to the respective funds.

Notes to Financial Statements

<u>Tenancy in Common</u> – State legislation enacted in 2002, Section 15.2-1800.1 of the <u>Code of Virginia</u>, (1950), as amended, granted the County a tenancy in common with the School Board when the County incurs a financial obligation for school property which is payable over more than one fiscal year. For financial reporting purposes, the net book value of School capital assets financed by the County guaranteed debt is shown under the County up to the amount of outstanding debt. At June 30, 2010, the School component unit capital assets financed by the outstanding County guaranteed debt with a book value of \$39,165,482 were reported in the Primary Government as tenant in common with the School Board.

## NOTE 7 - LONG-TERM OBLIGATIONS: (continued)

### Component Unit School Board

The following is a summary of long-term obligations for the fiscal year ended June 30, 2010:

	Amounts Payable at July 1, 2009	Increases	Decreases	Amounts Payable at June 30, 2010	Amounts Due Within One Year
Compensated absences payable	\$ <u>998,977</u>	)	§ <u>249,744</u>	6 <u>1,004,454</u>	\$ <u>100,445</u>
Total	\$998,977		§249,744	6 <u>1,004,454</u>	\$100,445

The School Operating and School Cafeteria Funds are used to liquidate the School Board's compensated absences liability.

## NOTE 8 - DEFINED BENEFIT PENSION PLAN:

## A. Plan Description

Name of Plan:Virginia Retirement System (VRS)Identification of Plan:Agent and Cost-Sharing Multiple-Employer Defined Benefit Pension PlanAdministering Entity:Virginia Retirement System (System)

All full-time, salaried permanent employees of participating employers must participate in the VRS. Benefits vest after five years of service. Employees are eligible for an unreduced retirement benefit at age 65 with 5 years of service (age 60 for participating local law enforcement officers, firefighters, and sheriffs) or at age 50 with at least 30 years of service if elected by the employer (age 50 with at least 25 years of service for participating local law enforcement officers, firefighters, and sheriffs) payable monthly for life in an amount equal to 1.70% of their average final compensation (AFC) for each year of credited service (1.85% for sheriffs and if the employer elects, for other employees in hazardous duty positions receiving enhanced benefits). Benefits are actuarially reduced for retirees who retire prior to becoming eligible for full retirement benefits. In addition, retirees qualify for annual cost-of-living adjustment (COLA) beginning in their second year of reported compensation. Participating local law enforcement officers, firefighters, and sheriffs may receive a monthly benefit supplement if they retire prior to age 65. The VRS also provides death and disability benefits. Title 51.1 of the <u>Code of Virginia</u> (1950), as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

The system issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for VRS. A copy of that report may be downloaded from their website at http://www.varetire.org/Pdf/Publications/2009-Annual-Report.pdf or obtained by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

#### B. Funding Policy

Plan members are required by Title 51.1 of the <u>Code of Virginia</u> (1950), as amended, to contribute 5.00% of their annual salary to the VRS. This 5.00% member contribution may be assumed by the employer. In addition, the County and School Board are required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the <u>Code of Virginia</u> and approved by the VRS Board of Trustees. The County and School's contribution rate for the fiscal year ended 2010 were 8.71% and 6.52% of annual covered payroll.

## NOTE 8 - DEFINED BENEFIT PENSION PLAN: (Continued)

#### B. Funding Policy: (Continued)

The School Board's contributions for professional employees were \$2,203,478, \$2,227,174, and \$2,491,641 to the teacher cost-sharing pool for the fiscal years ended June 30, 2010, 2009 and 2008 respectively and these contributions represented 8.81%, 8.81%, and 10.30% respectively, of current covered payroll.

#### C. Annual Pension Cost

For fiscal year 2010, the County's annual pension cost of \$479,024 was equal to the County's required and actual contributions.

For fiscal year 2010, the County School Board's annual pension cost for the Board's non-professional employees was \$129,790 which was equal to the Board's required and actual contributions.

Three real frend mormation for the county and center board								
Fiscal Year Ending		Annual Pension Cost (APC) (1)	Percentage of APC Contributed		Net Pension Obligation			
County:								
June 30, 2010	\$	479,024	100%	\$	-			
June 30, 2009		499,625	100%		-			
June 30, 2008		375,800	100%		-			
School Board Non-Professional:								
June 30, 2010	\$	129,790	100%	\$	-			
June 30, 2009		131,036	100%		-			
June 30, 2008		101,300	100%		-			

## Three Year Trend Information for the County and School Board

(1) Employer portion only

The required contribution was determined as part of the June 30, 2007 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions at June 30, 2007 included (a) an investment rate of return (net of administrative expenses) of 7.50%, (b) projected salary increases ranging from 3.75% to 5.60% per year for general government employees and 3.50% to 4.75% for employees eligible for enhanced benefits available to law enforcement officers, firefighters, and sheriffs, and (c) a cost-of-living adjustment of 2.50% per year. Both the investment rate of return and the projected salary increases include an inflation component of 2.50%. The actuarial value of the County's and the County and School Board's assets is equal to the modified market value of assets. This method uses techniques that smooth the effects of short-term volatility in the market value of assets over a five-year period. The County's and School Board's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2007 was 20 years.

## D. Funded Status and Funding Progress

As of June 30, 2009, the most recent actuarial valuation date, the County's plan was 81.89% funded. The actuarial accrued liability for benefits was \$15,169,725, and the actuarial value of assets was \$12,421,768, resulting in an unfunded actuarial accrued liability (UAAL) of \$2,747,957. The covered payroll (annual payroll of active employees covered by the plan) was \$5,660,150, and ratio of the UAAL to the covered payroll was 48.55%.

## NOTE 8 - DEFINED BENEFIT PENSION PLAN: (Continued)

## D. Funded Status and Funding Progress: (Continued)

As of June 30, 2009, the most recent actuarial valuation date, the County School Board's plan was 88.82% funded. The actuarial accrued liability for benefits was \$4,300,992, and the actuarial value of assets was \$3,820,350, resulting in an unfunded actuarial accrued liability (UAAL) of \$480,642. The covered payroll (annual payroll of active employees covered by the plan) was \$2,018,118, and ratio of UAAL to the covered payroll was 23.82%.

The schedule of funding progress, presented as Required Supplementary Information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability (AAL) for benefits.

## NOTE 9 - CLAIMS, JUDGMENTS AND COMPENSATED ABSENCES:

In accordance with GASB Statement 16, *Accounting for Compensated Absences*, the County has accrued the liability arising from outstanding claims and judgments and compensated absences.

The County employees earn vacation and sick leave based on years of service at the rate of eight hours per month for each full-time employee with less than 5 years of service. Twenty-five percent of the unused sick leave or \$2,500 for County or \$5,000 for Social Services, whichever is less, will be paid to an employee who leaves county employment after five or more years of service. Accumulated vacation is paid upon termination based on length of employment as defined in the County's personnel policy. The County has accrued vacation and sick leave pay as follows:

Primary Government	\$ 487,543
Enterprise Funds	\$ 29,826
Component Unit School Board	\$ 1,004,454

## NOTE 10 - RISK MANAGEMENT:

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County contracts with the Virginia Association of Counties Municipal Liability Pool to provide insurance coverage for these risk losses. The County pays an annual premium to the association for its general workers compensation insurance coverage. In the event of a loss deficit and depletion of all available excess insurance, the Association may assess all members in the proportion which the premium of each bears to the total premiums of all members in the year in which such deficit occurs.

The County continues to carry commercial insurance for all other risks of loss, including general liabilities and employee health and accident insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

## NOTE 11 - DEFERRED REVENUE - GOVERNMENTAL FUNDS:

Deferred revenue represents amounts for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. Deferred revenue totaling \$1,586,831 is comprised of the following:

- A. Deferred property tax revenues totaled \$1,536,901.
- B. Bama Works Grant \$10,000.
- C. Proffers for litter pick-up.

## NOTE 12 - CONTINGENT LIABILITIES:

Federal assistance programs in which the County and its component unit participate were audited in accordance with the provisions of the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations.* Pursuant to the above provisions, major and non-major programs were tested for compliance with applicable grant requirements. While there are no items of non-compliance, as noted in the compliance report, the federal government may subject grant programs to additional compliance testing which may result in disallowances of current grant program expenditures. However, management believes that if any of these expenditures were disallowed it would be immaterial to the overall general-purpose financial statements.

## NOTE 13 - LITIGATION:

At June 30, 2010, there were no matters of litigation involving the County which would materially affect the County's financial position should any court decisions on pending matters not be favorable to the County.

## NOTE 14 - LANDFILL CLOSURE AND POSTCLOSURE CARE COST:

The County of Fluvanna, Virginia owns and operates a landfill site. State and federal laws and regulations require the County to place a final cover on each phase of its landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for thirty years after closure. Closure and postclosure care costs will be paid only near or after the date that the landfill stops accepting waste. In accordance with Statement 18 of the Governmental Accounting Standards Board entitled Accounting for Municipal Solid Waste Landfill Closure and Postclosure Care Costs, the County reports a portion of these closure and postclosure care costs as an operating expense in each period based on landfill capacity used as of each balance sheet date. The \$887,305 reported as a landfill closure and postclosure care liability at June 30, 2010, represents the cumulative amount reported based on the use of 100% of the estimated capacity used of the landfill. The County has closed the landfill. These amounts are based on what it would cost to perform all closures and postclosure care in 2010. Actual closure and postclosure care costs may be higher due to inflation, changes in technology, or changes in regulations.

The County has demonstrated financial assurance requirements for closure and postclosure care and corrective action costs through the submission of a Local Government Financial Test to the Virginia Department of Environmental Quality in accordance with Section 9VAC20-70 of the Virginia Administrative Code.

The County plans to meet all federal laws, regulations and tests of financial assurance related to the financing of closure and postclosure care when they become effective.

Notes to Financial Statements	
At June 30, 2010 (Continued)	

## NOTE 15 - SURETY BONDS:

Fidelity and Deposit Company of Maryland - Surety:	
Bouson E. Peterson, Jr., Clerk of the Circuit Court	\$ 25,000
Linda H. Lenherr, Treasurer	\$ 400,000
Andrew M. Sheridan, Commissioner of the Revenue	\$ 3,000
Ryant L. Washington, Sheriff	\$ 30,000

The Department of Risk Management of the Virginia General Services Administration maintains a selfinsurance plan which covers any duly elected Constitutional Officer required to present a bond and all deputies and/or employees of such Constitutional Officers. The coverage provided by the plan is \$500,000.

Western Surety Company - Surety:

## NOTE 17 - TRUST FOR OTHER POST-EMPLOYMENT BENEFITS:

The County of Fluvanna has established a irrevocable trust pursuant to Section 15.2-1544 of the <u>Code of Virginia</u>, as amended for the purpose of accumulated and investing assets to fund Other Post-Employment Benefits (OPEB) and to participate in the Virginia Pooled OPEB Trust Fund and has established a Local Finance Board to become a Participating Employer in the Trust Fund. The Trust Fund provides administrative, custodial and investment services to the Participating Employers in the Trust Fund. For the fiscal year ending June 30, 2010 the County contributed \$295,668 to the Trust Fund. There have been no expenses allocated to the Trust Fund during the fiscal year ended June 30, 2010.

The County participates in the Virginia Pooled OPEB Trust Fund, an irrevocable trust established for the purpose of accumulating assets to fund postemployment benefits other than pensions. The Trust Fund issues a separate report, which can be obtained by requesting a copy from the plan administrator, Virginia Municipal League (VML) at P.O. Box 12164, Richmond, Virginia 23241.

## NOTE 18-OTHER POST-EMPLOYMENT BENEFITS PROGRAM:

## County:

## A. Plan Description

The County Post-Retirement Medical Plan (CPRMP) is a single-employer defined benefit healthcare plan which offers health insurance for retired employees. Retirees are eligible for postretirement medical coverage if they are a full-time employee who retires directly from the County and is eligible for retirement from VRS.

## B. Funding Policy

The County establishes employer contribution rates for plan participants as part of the budgetary process each year. The County also determines how the plan will be funded each year whether it will partially fund the plan or fully fund the plan. Again this is determined annually as part of the budgetary process. Retirees pay 100 % of premiums. Coverage ceases when retirees reach the age of 65. Surviving spouses are not allowed access to the plan.

## C. Annual OPEB Cost and Net OPEB Obligation

The annual cost of other post employment benefits (OPEB) under GASB 45 is calculated based on the annual required contribution or ARC, an amount actuarially determined in accordance with the parameters of GASB Statement 45. The estimated pay as you go cost for OPEB benefits is \$84,156 for fiscal year 2010. The County elected to prefund OPEB liabilities. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

## County: (Continued)

## C. <u>Annual OPEB Cost and Net OPEB Obligation: (Continued)</u>

For 2010, the County's expected cash payment of \$84,156 is equal to the ARC. The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2010 are as follows:

_	Fiscal Year Ended	 Annual Pension Cost	Percentage of Annual OPEB Cost Contributed	Net Pension Obligation
	June 30, 2010	\$ 84,156	100% \$	-
	June 30, 2009	\$ 98,798	100% \$	-

## Funded Status and Funding Progress

The funded status of the plan as of June 30, 2010 is as follows:

Actuarial accrued liability (AAL)	\$ 585,404
Actuarial value of plan assets	62,792
Unfunded actuarial accrued liability	522,612
Funded ratio (actuarial value of plan assets / AAL)	10.73%
Covered payroll (active plan members)	N/A
UAAL as a percentage of covered payroll	N/A

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revisions as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

#### Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

## County: (Continued)

## C. Annual OPEB Cost and Net OPEB Obligation: (Continued)

## Cost Method

The projected unit credit (PUC) cost method was used for this valuation. The objective of this method is to fund each participant's benefits under the plan as they would accrue. Under this method the total value of the benefit to which each participant is expected to become entitled is broken down into units, each associated with a year of past or future credited service.

#### Interest Assumptions

In the July 1, 2009, actuarial valuation, the entry age actuarial cost method was used. The actuarial assumptions included a 7.0 percent investment rate of return (net of administrative expenses), which is a blended rate of the expected long-term investment returns on plan assets and on the employer's own investments calculated based on the funded level of the plan at the valuation date, and an annual healthcare cost trend rate of 9 percent initially, reduced by decrements to an ultimate rate of 5 percent after ten years. Both rates included a 4.5 percent inflation assumption. The actuarial value of assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period. The UAAL is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at July 1, 2009, was thirty years.

	Funded
Discount rate	7.0%
Pavroll growth	N/A

## School Board:

#### A. Plan Description

The County Post-Retirement Medical Plan (CPRMP) is a single-employer defined benefit healthcare plan which offers health insurance for retired employees. Retirees are eligible for postretirement medical coverage if they are a full-time employee who retires directly from the County and is eligible for retirement from VRS.

## B. Funding Policy

The School Board Post-Retirement Medical Plan (SBPRMP) is a single-employer defined benefit healthcare plan which offers health insurance for retired employees. Retirees are eligible for postretirement medical coverage if they are a full-time employee who retires directly from the School Board and is eligible for retirement from VRS.

## School Board: (Continued)

## C. Annual OPEB Cost and Net OPEB Obligation

The annual cost of other post employment benefits (OPEB) under GASB 45 is calculated based on the annual required contribution or ARC an amount actuarially determined in accordance with the parameters of GASB Statement 45. The estimated pay as you go cost for OPEB benefits is \$363,084 for fiscal year 2010. The School Board elected to pre-fund OPEB liabilities. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

For 2010, the School Board's expected cash payment of \$363,084 is equal to the ARC. The School Board's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2010 are as follows:

		Annual Pension Cost	Percentage of Annual OPEB Cost Contributed	Net Pension Obligation
June 30, 2010	\$	363,084	100% \$	-
June 30, 2009		253,963	100%	-

#### Funded Status and Funding Progress

The funded status of the plan as of June 30, 2010 is as follows:

Actuarial accrued liability (AAL)	\$ 2,671,604
Actuarial value of plan assets	286,562
Unfunded actuarial accrued liability	2,385,042
Funded ratio (actuarial value of plan assets / AAL)	10.73%
Covered payroll (active plan members)	N/A
UAAL as a percentage of covered payroll	N/A

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revisions as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

## School Board: (Continued)

## C. Annual Required Contribution (ARC): (Continued)

#### Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

#### Cost Method

The entry age normal cost method is used to determine the Plan's liabilities and costs. Under this cost method, the actuarial present value of projected benefits of every active Participant as if the Plan's provisions on the valuation date had always been in effect, is determined as a level percentage of expected annual earnings for each future year of expected service. A normal cost for each year from the assumed entry date is determined by applying this level of percentage of pay to the assumed earnings for that year (or if benefits are not pay related, the level amount for each year).

Under this method, inactive participants have no normal cost, and their actuarial liability is the present value of the plan benefits to which they and their beneficiaries are entitled. The Plan's total annual normal cost and actuarial liability are the sum of the individual participant amounts.

An experience gain or loss is a decrease or increase in the unfunded actuarial liability attributable to actual experience that differed from that expected by the actuarial assumptions. Such gains or losses are explicitly recognized under this method.

#### Interest Assumptions

In the July 1, 2009, actuarial valuation, the entry age actuarial cost method was used. The actuarial assumptions included a 7.0 percent investment rate of return (net of administrative expenses), which is a blended rate of the expected long-term investment returns on plan assets and on the employer's own investments calculated based on the funded level of the plan at the valuation date, and an annual healthcare cost trend rate of 9 percent initially, reduced by decrements to an ultimate rate of 5 percent after ten years. Both rates included a 4.5 percent inflation assumption. The actuarial value of assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period. The UAAL is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at July 1, 2009, was thirty years.

## NOTE 19-VRS HEALTH INSURANCE CREDIT OTHER POST-EMPLOYMENT BENEFITS:

## A. Plan Description

The County participates in the Health Insurance Credit Program, a plan designed to assist retirees with the cost of health insurance coverage. This program is an agent and cost sharing, multiple-employer defined benefit plan administered by the Virginia Retirement System (VRS). The Virginia General Assembly establishes the dollar amount of the health insurance credit for each year of creditable service. The credit amount and eligibility differs for state, school division, political subdivision, local officer, local social services department and general registrar retirees.

An employee of the County, who retires under VRS with at least 15 years of total creditable service under the System and is enrolled in a health insurance plan, is eligible to receive a monthly health insurance credit of \$1.50 per year of creditable service up to a maximum monthly credit of \$45. However, such credit shall not exceed the health insurance premium for the retiree. Disabled retirees automatically receive the maximum monthly health insurance credit of \$45.

Benefit provisions and eligibility requirements are established by Title 51.1, Chapter 14 of the <u>Code of Virginia</u>. The VRS actuarially determines the amount necessary to fund all credits provided, reflects the cost of such credits in the applicable employer contribution rate pursuant to §51.1-145, and prescribes such terms and conditions as are necessary to carry out the provisions of the health insurance credit program. VRS issues separate financial statements as previously discussed in Note 8.

## B. Funding Policy

As a participating local political subdivision, the County is required to contribute the entire amount necessary to fund participation in the program using the actuarial basis specified by the <u>Code of Virginia</u> and the VRS Board of Trustees. The County's contribution rate for the fiscal year ended 2010 was .17% of annual covered payroll.

## C. OPEB Cost and Net OPEB Obligation:

The annual cost of OPEB under Governmental Accounting Standards Board (GASB) 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other than Pensions, is based on the annual required contribution (ARC). The County is required to contribute the ARC, an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

For 2010, the County's contribution of \$9,349 was equal to the ARC and OPEB cost. The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2010 and the preceding year are as follows:

Fiscal Year Ended	 Annual Pension Cost	Percentage of Annual OPEB Cost Contributed	Net Pension Obligation
June 30, 2009	\$ 9,758	100% \$	-
June 30, 2010	\$ 9,349	100% \$	-

## NOTE 19-VRS HEALTH INSURANCE CREDIT OTHER POST-EMPLOYMENT BENEFITS: (CONTINUED)

## D. Funded Status and Funding Progress

The funded status of the plan as of September 30, 2009, the most recent actuarial valuation date, is as follows:

Actuarial accrued liability (AAL)	\$ 98,571
Actuarial value of plan assets	48,698
Unfunded actuarial accrued liability	49,873
Funded ratio (actuarial value of plan assets / AAL)	49.40%
Covered payroll (active plan members)	5,660,150
UAAL as a percentage of covered payroll	0.88%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future and reflect a long-term perspective. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

The schedule of funding progress, presented as required supplementary information following the notes to the financial statements presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

## E. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used included techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The entry age normal cost method was used to determine the plan's funding liabilities and costs. The actuarial assumptions included a 7.5% investment rate of return, compounded annually, including an inflation component of 2.5%, and a payroll growth rate of 3%. The UAAL is being amortized as a level percentage of payroll on an open basis. The remaining open amortization period at June 30, 3009 was 27 years.

## F. Professional Employees – Discretely Presented Component Unit School Board

The School Board participates in the Health Insurance Credit Program, a plan designed to assist retirees with the cost of health insurance coverage. This program is a cost sharing, multiple-employer defined benefit plan administered by the Virginia Retirement System (VRS). The Virginia General Assembly establishes the dollar amount of the health insurance credit for each year of creditable service.

## NOTE 19-VRS HEALTH INSURANCE CREDIT OTHER POST-EMPLOYMENT BENEFITS: (CONTINUED)

## F. Professional Employees – Discretely Presented Component Unit School Board: (Continued)

A teacher, who retires under VRS with at least 15 years of total creditable service under the System and is enrolled in a health insurance plan, is eligible to receive a monthly health insurance credit of \$4 per year of creditable service. However, such credit shall not exceed the health insurance premium for the retiree. Disabled retirees automatically receive a monthly health insurance credit of \$4 multiplied by the smaller of (i) twice the amount of their creditable service or (ii) the amount of creditable service they would have completed at age 60 if they had remained in service to that age.

The School Board is required to contribute, at an actuarially determined rate, the entire amount necessary to fund participation in the program. The current rate is 1.04% of annual covered payroll. The School Board's contribution to VRS for the year ended June 30, 2010, was \$195,784, and equaled the required contributions for each year.

## NOTE 20-RESTRICTED ASSETS:

Restricted assets at June 30, 2010 consist of the following:

	-	Governmental Activities
Cash for Debt Serice - Capitalized Interest Cash for Captial Projects - New High School	\$	12,966 47,678,482
Total	\$	47,691,448

## NOTE 21-SUBSEQUENT EVENTS:

On November 17, 2010 the Board of Supervisors authorized a plan with the Economic Development Authority to refinance \$2.67 million Public Facility Note maturing on January 15, 2011 into a two year note with a not to exceed amount of \$2.71 million.

## NOTE 22-EXPENDITURES AND APPROPRIATIONS:

Expenditures exceeded appropriations at June 30, 2010 as follows:

Function	 Appropriations	Expenditures	Amount
Public Safety	\$ 5,081,499 \$	5,156,404 \$	74,905

Expenditures did not exceed appropriations in any other functions/funds at June 30, 2010.

Detailed explanation of adjustments from fund statements to government-wide statement of net assets:

When capital assets (land, buildings, equipment) that are to be used in governmental activities are purchased or constructed, the costs of those assets are reported as expenditures in governmental funds. However, the statement of net assets includes those capital assets among the assets of the School Board as a whole.

Long-term liabilities applicable to the School Board's governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities. All liabilities, both current and long-term, are reported in the statement of net assets.

Net assets of General Government Activities

(1,004,454)

Reconciliation of Statement of Revenues, Expenditures, and Changes in Fund Balances to the Statement of Activities - Discretely Presented Component Unit - School Board For the Year Ended June 30, 2010

		Component Unit School Board
Amounts reported for governmental activities in the statement of activities are different because:		
Net change in fund balances - total governmental funds	\$	(13,058)
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which the capital outlays exceeded depreciation in the current period. The following details support this adjustment.		
Capital additions \$	486,083	
Depreciation expense	(586,134)	(100,051)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds. This amount reflects the change in accrued leave.		(5,477)
Transfer of joint tenancy assets from Primary Government to the Component Unit		750,247
Change in net assets of governmental activities	\$	631,661

CERTIFIED PUBLIC ACCOUNTANTS

# Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

# To The Honorable Members of Board of Supervisors County of Fluvanna Palmyra, Virginia

We have audited the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the County of Fluvanna, Virginia, as of and for the year ended June 30, 2010, which collectively comprise the County of Fluvanna, Virginia's basic financial statements and have issued our report thereon dated November 23, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the *Specifications for Audits of Counties, Cities, and Towns,* issued by the Auditor of Public Accounts of the Commonwealth of Virginia and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

# Internal Control Over Financial Reporting

In planning and performing our audit, we considered the County of Fluvanna, Virginia's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the County of Fluvanna, Virginia's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the County of Fluvanna, Virginia's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

# **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the County of Fluvanna, Virginia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the Board of Supervisors, management, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

CERTIFIED PUBLIC ACCOUNTANTS

# Report on Compliance with Requirements that Could Have a Direct and Material Effect on Each Major Program and on Internal Control Over Compliance in Accordance with OMB Circular A-133 Independent Auditor's Report

To The Honorable Members of Board of Supervisors County of Fluvanna Palmyra, Virginia

# **Compliance**

We have audited the County of Fluvanna, Virginia's Compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2010. The County of Fluvanna, Virginia's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of County of Fluvanna, Virginia's management. Our responsibility is to express an opinion on County of Fluvanna, Virginia's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County of Fluvanna, Virginia's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the County of Fluvanna, Virginia's compliance with those requirements.

In our opinion, the County of Fluvanna, Virginia complied, in all material respects, with the requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2010.

## Internal Control Over Compliance

Management of the County of Fluvanna, Virginia is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the County of Fluvanna, Virginia's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of County of Fluvanna, Virginia's internal control over compliance.

# Internal Control Over Compliance: (Continued)

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, the audit committee, and Board of Supervisors, others within the entity, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

## Notes to Schedule of Expenditures of Federal Awards Year Ended June 30, 2010

#### Note 1 - General

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of the County of Fluvanna, Virginia under programs of the federal government for the year ended June 30, 2010. The information in this Schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Because the Schedule presents only a selected portion of the operations of the County of Fluvanna, Virginia, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the County of Fluvanna, Virginia.

#### Note 2 - Basis of Accounting

(1) Expenditures on the Schedlue are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in OMB Circular A-87, *Cost Principles for State, Local, and Indian Tribal Governments*, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

(2) Pass-through entity identifying numbers are presented where available.

#### Note 3 - Relationship to Financial Statements

Federal expenditures, revenues and capital contributions are reported in the County's basic financial statements as follows:

Intergovernmental federal revenues per the basic financial statements:

Primary government:		
General Fund	\$	1,449,107
Sewer Fund		258,300
Capital Projects Fund	-	166,213
Total primary government	\$	1,873,620
Component Unit Public Schools:		
School Operating Fund	\$	4,000,599
School Cafeteria Fund		441,060
Total component unit public schools	\$	4,441,659
Total federal expenditures per basic financial	-	
statements	\$	6,315,279
Total federal expenditures per the Schedule of Expenditures		
of Federal Awards	\$	6,315,279
